Linda,

I wanted to know whether I should (b) (5). He has lost interest in doing any work which he is supposed to do as a team leader. I am glad that I promoted him, so that he could leave OCAC, but I am in no way happy with his performance and attitude at this point, and I want to put a stop to it, before he infects others. I have worked too hard with the staff to make them want to work, and I won't have Diego destroy what I worked for this past year. his behavior is not good for morale.

I will ask him to focus on finishing the ingredient review for formaldehyde and retinyl palmitate, with Robeena, and I will take over managing his team for now. what do you suggest?

Regards,
Nakissa Sadrieh, Ph.D.

Jon,

I was in no way participated on gathering this list of 2015 - 2016 CFSAN Program Priorities regarding Cosmetics. Perhaps Nakissa was and knows the avenue by which the priority you suggested can be added.

Thanks,
Diego

Hi Diego,

I want to discuss one of these priority goals with you. In particular, the one that would apply to CARD or maybe it does not...
