Subject: FW: Possible sampling assignment for undercover buy of hair smoothing product

Anna Marie,

I hope you can add this to your to do list today (before your much needed vacation day on Friday ☺)!

ORA has begun the purchase of the Keratin Hair Products They contacted ORA to make sure they ordered the correct amount for the laboratory and will order enough to have a reserve sample The purchasing agent found 2 discrepancies on the spreadsheet we provided of the products and description Please take a look at the spreadsheet below (the products are highlighted in yellow) and let me know if those are the correct products to order

<< File: Keratin Products Ordered.xls >> << File: #1 Extra Keratin Treatment - Fashion and Beauty Store.pdf >> << File: #2 - Ultimate Brazilian Keratin System - AliExpress.pdf >> << File: #3 - Ultimate Brazilian Keratin System - AliExpress.pdf >> << File: #4 - Pure Keratin Treatment - AliExpress.pdf >> << File: #5 - Brazilian Keratin Hair Treatment 8% and 12% - AliExpress.pdf >> << File: #6 - Ultimate Brazilian Keratin System - AliExpress.pdf >>

Subject: RE: Possible sampling assignment for undercover buy of hair smoothing product

Gary,

I spoke with the Program Office They have taken into consideration the high cost of some of the products and reevaluated which products might be of most use/cost effective (please see updated table below)

I have also received some background information (inserted below) that may give more light to the sampling quantities needed However, I can contact the lab (DET-LAB; Philip A Klimkewicz) to see if a smaller sample size could be used

What are the minimum number of units requested-

FDA collected three (3) 10.1 fl. oz. bottles of the GK Hair System with Juvexin Curly and Resistant hair smooth products (Sample 849412; WL) At least 30.3 fluid oz. are required for formaldehyde analysis Collect that amount with the minimum number volume units possible

What would be the minimum size bottle that could be purchased -

Based upon previous FDA analysis at least 30.3 fluid oz. should be collected For product packaged in 10 oz. bottle, 3 bottles should be collected Two bottles may be collected for products packaged in 16 fluid oz. - 18 fluid. A single bottle is required for 32 oz. bottle (See table)

Product Name	Brand Name	Company Name	Product Category	Store Found(URL or physical location)	Ingredients	Price	Size bottle (oz.)	Minimum units
Extra Keratin Treatment	Extra Keratin Treatment	Keratin Express	Professional Hair Smoothers	https://www.fashionandbeautystore.com/keratin-express-extra-keratin-smoothing-treatment-16-oz.html	WATER (AQUA/EAU), CETEARYL ALCOHOL, BEHENTRIMONIUM METHOSULFATE, FORMALDEHYDE, ALOE BARBADENSIS LEAF JUICE, FRAGRANCE (PARFUM), COCODIMONIUM HYDROXYPROPYL HYDROLIZED KERATIN, THEOBROMA CACAO SEED BUTTER, CALENDULA OFFICINALIS	169.99	16 Oz	2
