

# Analysis of Products and Articles for PFOA

Treated Article	Substrate	Typical Uses	Typical Function	Telomer-Based Polymeric Product	Typical Application Methods
Carpet	Nylon	Residential use (cut pile)	Stain resistance and newness retention	Urethane	Foam or spray applied
Carpet	Nylon	Residential use (cut pile)	Stain resistance and newness retention	Acrylate	Foam or spray applied
Carpet	Nylon	Residential use (cut pile)	Stain resistance and newness retention	Acrylate	Foam or spray applied
Carpet	Nylon	Residential use (cut pile)	Stain resistance and newness retention	Acrylate	Foam or spray applied
Textile	Polyester	Apparel	Water and stain repellency	Acrylate	Pad application
Textile	Polyester	Apparel	Water and stain repellency	Acrylate	Pad application
Textile	Polyester	Apparel	Water and stain repellency	Acrylate	Pad application
Textile	Polyester	Apparel	Water and stain repellency	Acrylate	Pad application
Textile	Nylon	Outerwear	Water and stain repellency	Acrylate	Pad application
Textile	Cotton	Apparel and upholstery	Water and stain repellency	Acrylate	Pad application
Paper	Cellulose	Treatment of pet food bags and for direct and indirect food contact items	Oil and Grease Repellency; Barrier Coating	Acrylate	Mill applied by size press method
Paper	Cellulose	Treatment of pet food bags and for direct and indirect food contact items	Oil and Grease Repellency; Barrier Coating	Acrylate	Mill applied by size press method
