

**FOR IMMEDIATE RELEASE****Contact: Sara Sciammacco; [ssciammacco@ewg.org](mailto:ssciammacco@ewg.org)****Government Records Show Crop Insurance Subsidies Are A Boon To Big Farm Interests**

**Washington, D.C.** – A [new analysis](#) of over a million government records never before made public and obtained by the Environmental Working Group through the Freedom of Information Act has found that in 2011 more than 10,000 individual farming operations have received federal crop insurance premium subsidies ranging from \$100,000 to more than \$1 million apiece. Some 26 farming operations received subsidies of \$1 million or more last year.

It is the most detailed disclosure of federal crop insurance benefits to date, tracking subsidies across 686,273 insurance policies issued to 486,867 policyholders last year, when the program's costs exceeded a record \$11 billion. Yet one crucial detail is missing, deliberately and by an act of Congress: the names of the beneficiaries.

“The eye-opening analysis shows crop insurance is not only very expensive, but also very, very generous to large and highly profitable farm businesses,” said Craig Cox, EWG senior vice president of agriculture and natural resources. “Now the public needs to know who they are.”

Using FOIA requests, EWG collected information from U.S. Department of Agriculture's Risk Management Agency about crop insurance policies and premium subsidies for individual policyholders in each U.S. state and county. The records analyzed by EWG establish that the holders of subsidized crop insurance policies, unlike other Americans engaged in professional and commercial enterprises, enjoy extraordinarily costly federal perks in the form of premium subsidies.

U.S. taxpayers pick up an average of about 62 percent of the crop insurance premiums for farm businesses. Their share of these premiums has soared from \$1.5 billion in 2002 to \$7.4 billion in 2011. The subsidies go to large operators with no conservation strings attached to protect water and soil, no means testing, and no payment limit on how much a farm business can collect.

Among the facts disclosed by the documents:

- A single farm business in Florida received \$1.9 million in subsidies for premiums to insure crops of tomatoes and peppers in five counties.
- A Minnesota farm business insuring corn and soybeans in eight counties received \$1.7 million in federal crop insurance subsidies.

- In Texas, the 10 percent of farm businesses that received the greatest amount of insurance subsidies harvested 63 percent of all the crop insurance subsidies that went into the state last year.
- The 10 percent of North Dakota farm businesses that received the greatest amount of insurance subsidies took in 45 percent of the subsidies going to all farms in the state.

The analysis also shows that while crop insurance benefits, like farm subsidies, are concentrated in the hands of a small number of large farming operations, premium subsidies are modest for the overwhelming majority of crop insurance policyholders. Those farm operations would be unaffected by premium subsidy limits now being debated in Congress, such as the \$40,000 limit analyzed by the Government Accountability Office earlier this year. The bottom 80 percent of policyholders (389,494 operations), for instance, received subsidies worth just over \$5,000 in 2011.

The insurance subsidies are so controversial, and so lucrative to the companies that administer it, that the industry's powerful lobbyists prevailed on Congress to bar the U.S. Department of Agriculture from disclosing identities of individual policyholders who reap the benefits.

"Taxpayers don't know who is getting our money," said EWG president Ken Cook. "Why hasn't Congress done its job and released the names for everyone to see, instead of serving the interests of the crop insurance lobby?"

EWG has long advocated for increased transparency and accountability in the burgeoning federal crop insurance program.

"Senate agriculture committee leaders ought to lift the veil of secrecy before the 2012 farm bill hits the floor next month," said Cook. "We must stop giving big payouts that guarantee income to big agribusiness and pass a fair and equitable farm bill that makes meaningful reforms to crop insurance, feeds the hungry, and improves the environment and public health," said Cook.

Table 1. Twenty-six (26) policyholders got more than \$1 million dollars in premium subsidies in 2011.

State	Number of policyholders* with a premium subsidy more than:				
	\$1,000,000	\$500,000	\$250,000	\$100,000	\$65,000

**TAXPAYERS PAID OVER \$1 MILLION  
IN PREMIUMS FOR THESE FARM BUSINESSES IN 2011**

Fresh market tomatoes and peppers insured in 5 Florida counties — \$1.9 million in premiums paid by taxpayers.

Apples, blueberries, corn, grapes, mint, potatoes and sweet corn insured in 3 Washington counties — \$1.7 million in premiums paid by taxpayers.

Corn and soybeans insured in 8 Minnesota counties — \$1.7 million in premiums paid by taxpayers.

Cotton, forage, safflower, tomatoes and wheat insured in two California counties — \$1.6 million in premiums paid by taxpayers.

Potatoes and wheat insured in 2 Texas counties — \$1.6 million in premiums paid by taxpayers.

Cotton, grain sorghum, pasture, rangeland and forage insured in 3 Texas counties — \$1.4 million in premiums paid by taxpayers.

Corn, soybeans, sunflowers and wheat insured in 8 South Dakota counties — \$1.4 million in premiums paid by taxpayers.

Corn, cotton and soybeans insured in 3 Mississippi counties and 4 Tennessee counties — \$1.3 million in premiums paid by taxpayers.

Apples and cherries insured in 3 Washington counties — \$1.3 million in premiums paid by taxpayers.

Corn, peanuts, potatoes and soybeans insured in 1 North Carolina county, 4 Georgia counties, 3 Missouri counties, 2 Arkansas counties and 1 Florida county — \$1.2 million in premiums paid by taxpayers.

Corn, sunflowers and wheat insured in 6 South Dakota counties — \$1.2 million in premiums paid by taxpayers.

Corn and cotton insured in 13 Georgia counties — \$1.2 million in premiums paid by taxpayers.

Potatoes insured in 2 Wisconsin counties and 9 Minnesota counties — \$1.2 million in premiums paid by taxpayers.

Barley, corn pasture, soybeans and wheat insured in 11 Virginia counties, 2 North Carolina counties, 8 South Carolina counties and 2 West Virginia counties — \$1.2 million in premiums paid by taxpayers.

Fresh tomatoes and potatoes insured in 3 Florida counties and 1 Georgia county — \$1.2 million in premiums paid by taxpayers.

Canola, corn, dry beans, potatoes, soybeans and wheat insured in 7 North Dakota counties — \$1.1 million in premiums paid by taxpayers.

Corn, soybeans, sunflowers and wheat insured in 1 North Dakota county, 7 South Dakota counties and 1 Nebraska county — \$1.1 million in premiums paid by taxpayers.

Corn, cotton, grain sorghum, onions and sunflowers insured in 2 Texas counties — \$1.1 million in premiums paid by taxpayers.

Corn and soybeans insured in 5 Illinois counties, 6 Indiana counties, 2 Arkansas counties — \$1.1 million in premiums paid by taxpayers.

Corn, soybeans, wheat and barley insured in 2 Tennessee counties, 4 Kentucky counties — \$1.1 million in premiums paid by taxpayers.

Corn, dry beans, soybeans and wheat insured in 1 North Dakota county and 1 Minnesota county — \$1.1 million in premiums paid by taxpayers.

Corn, dry beans and wheat insured in 1 New Mexico county — \$1.0 million in premiums paid by taxpayers.

Apples, cherries, grapes, and pears insured in 9 Washington counties — \$1.0 million in premiums paid by taxpayers.

Corn, soybeans and wheat insured in 4 South Dakota counties — \$1.0 million in premiums paid by taxpayers.

Onions insured in 4 Georgia counties and 2 New York counties — \$1.0 million in premiums paid by taxpayers.

Corn, soybeans and wheat insured in 1 county in Arkansas — \$ 1.0 million in premiums paid by taxpayers.
