AVOIDING CORONAVIRUS THE CLEAN WAY

THE SPREAD OF THE NOVEL CORONAVIRUS COVID-19
IS PROMPTING LOTS OF CONCERN AND QUESTIONS.

USE **EWG'S RESOURCES** TO HELP REDUCE YOUR CHANCES OF CONTRACTING COVID-19 AND OTHER SEASONAL AILMENTS, LIKE THE FLU.

Symptoms of the coronavirus can appear two to 14 days after exposure and include fever, cough and shortness of breath. IF YOU DEVELOP THESE SYMPTOMS AFTER HAVING BEEN IN CLOSE CONTACT WITH SOMEONE WITH THE VIRUS OR WHO HAS TRAVELED FROM AN AREA WITH WIDESPREAD INFECTION, CALL YOUR HEALTHCARE PROFESSIONAL.

WASH HANDS FREQUENTLY AND IMMEDIATELY AFTER YOU COME HOME.

NO SINK? USE HAND SANITIZER WITH AT LEAST 60 PERCENT ALCOHOL.

You can go to **EWG.org/EWGVERIFIED** to find hand sanitizers that meet EWG's strictest standards.

DON'T TOUCH YOUR FACE! ESPECIALLY YOUR EYES, NOSE AND MOUTH.

HOME AND SCHOOL

CHOOSE EFFECTIVE DISINFECTANTS.

Consult the
Environmental
Protection Agency and
Centers for Disease
Control and Prevention
lists of recommended
products. Then look for
those products on
EWG.org/CLEANERS to
find effective
disinfectants with
fewer toxic ingredients.

Wipe down everything with the safer disinfectant product -

ESPECIALLY
HANDLES AND
KNOBS.

CHECK IN WITH YOUR KID'S SCHOOL.

Make sure your children's school amps up its cleaning routines.

HELPFUL RESOURCES

EWG VERIFIED™ HAND SANITIZERS: EWG.org/ewgverified/handsanitizers

OUT IN PUBLIC

AVOID CONTACT.

The virus spreads through respiratory droplets like those produced when you sneeze or cough. If you feel under the weather, avoid hugging or shaking hands.

AVOID CROWDS.

Try to limit time spent in crowds or tight quarters. And don't touch your face!

SANITIZE.

Make sure to carry hand sanitizer and use it frequently if you don't have access to soap and water.
