(1) An evaluation of the consequences of an arms race in autonomous weapons, cyber weapons, artificial intelligence and machine learning, both from the domestic and competitor point of views.

(2) An explanation of the of the concept of “appropriate human judgement” and how it differs from “meaningful human control”.

(3) An explanation of the U.S. strategy towards influencing how other nations approach autonomous weapons, including human judgement, national safety review processes, and stability concerns.

Further, the study should include an assessment of the current policy guidelines with respect to the role of autonomy in offensive and defensive cyberspace operations, and a discussion of how artificial intelligence and machine learning could impact current policy and doctrine. In conducting such an assessment, the Secretary of Defense shall evaluate the sufficiency of Department of Defense policies governing autonomy in cyberspace.

Central Test and Evaluation Investment Program

The budget request contained \$258.7 million in PE 64940D8Z for the Central Test and Evaluation Investment Program (CTEIP). The committee notes that CTEIP has been used to fund the development of critically needed, high-priority test and evaluation capabilities for the Department of Defense. CTEIP has used a corporate approach to combine service and Department requirements to maximize opportunities for joint efforts and avoid unwarranted duplication of test capabilities. The committee recommends additional focus on developing a geospatial architecture to assist in the testing, analysis, and visualization of cyber and electronic warfare threat systems, and their impact in a radio frequency compromised environment.

The committee encourages the Department to explore efforts to automate data collection and analysis capabilities, thereby reducing manual data entry and expediting the preparation of products and reports. The committee recommends \$258.7 million, the amount requested, in PE 64940D8Z for the Central Test and Evaluation Investment Program.

Chemical, biological, radiological, nuclear, and explosive standoff detection

The committee is aware of the enduring challenge of detecting chemical, biological, radiological, nuclear, and explosive (CBRNE) threats from a safe distance. The committee is also aware of a new technology that may be capable of dynamic wavelength modulation of laser light with potential applications in multiple mission areas, including standoff detection of CBRNE threats. Given the use of chemical weapons in the Syrian Arab Republic and the threat of CBRNE use in the Democratic People's Republic of Korea, sensors capable of standoff detection would provide early warning, thereby increasing timelines to prepare and respond to threats. Therefore, the committee encourages the Department of Defense to continue its efforts to develop standoff CBRNE detection.

Common data environment for modeling and simulation

The committee recognizes that common data environments can yield benefits, such as increased interoperability and strong modeling and simulation (M&S) capabilities. The committee supports continued funding for projects that provide critical Department of Defense-wide data services, such as the Army's Enterprise Data Services Common Data Production Environment. The committee is aware that in the committee report (S. Rept. 115-125) accompanying the National Defense Authorization Act for Fiscal Year 2018, the Senate Committee on Armed Services directed the Secretary of Defense to take actions to identify and address data collection, analysis, and sharing issues that limit robust M&S. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by November 1, 2018, on the Department's findings from the directive in S. Rept. 115-125.

Contraband cellular devices

The committee is aware that the illegal use of cellular devices in Federal prisons is on the rise. The committee is also aware that new technologies, such as managed access systems, are being developed, tested, and deployed to detect the use of contraband cellular devices among Federal prison populations. The committee acknowledges that military correctional facilities are often plagued with the same ills that infiltrate Federal correctional facilities. Therefore, the committee encourages the Department of Defense to study the effectiveness of new technologies that detect contraband cellular devices to identify and prevent instances of such use in military correctional facilities.

Counter small tactical unmanned air systems

The committee notes that Class I and II unmanned air systems (UAS), which in most cases are readily available commercial-off-the-shelf small and lightweight UAS, can be employed by state and non-state actors for use against U.S. military and civilian personnel. The committee understands that current maneuver short range air defense initiatives, as well as counter-UAS initiatives would address fixed-wing, rotorcraft, and medium-to-large UAS platforms. The committee is concerned by the rapid proliferation of small UAS and believes the military services should examine all

potential combined kinetic and non-kinetic options to immediately address this perceived capability gap in organic air defense for Army Maneuver Brigades.

The committee directs the Secretary of the Defense to provide a briefing to the House Committee on Armed Services by December 15, 2018 that provides an update on current Department of Defense programs to counter class I and II UAS. The briefing shall include:

- (a) The command responsible for developing and promulgating counter-UAS performance requirements;
- (b) A resource plan for developing and assessing potential material solutions for near-term and mid-term timeframes;
- (c) How the Department of Defense intends to ensure that units at the battalion and below echelons will be capable of defeating single and swarming Class 1 and II UAVs; and
- (d) The procedures whereby technical assessments will be shared and coordinated with the other military services.

Counter-unmanned aerial system threat detection

The committee is interested in advancements in counter-unmanned aerial system (C-UAS) technology and the threat these systems pose to the Armed Forces. The committee supports ongoing efforts by the U.S. Army and U.S. Special Operations Command to develop and employ unmanned aerial system (UAS) threat detection technology, and commends the services for recognizing the seriousness of the threat. In light of recent UAS attacks in the U.S. Central Command area of responsibility, the committee is concerned about the increased threat from unmanned aerial systems to forward operating bases and special operations forces personnel. The committee believes additional advancements in scalable C-UAS technologies are necessary to effectively detect, track, neutralize, and ensure the force protection and operational security of deployed service members.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by October 31, 2018, on the employment of C-UAS systems. The briefing should include an assessment of the UAS threat to the Armed Forces, a roadmap for C-UAS threat detection technology and capabilities, and the results of operational fielding of C-UAS systems.

Enhanced Maritime Biological Detection

The budget request contained \$145.7 million in PE 64384BP for Contamination Avoidance (CA) Engineering Manufacturing Development (EMD) within the Department of Defense Chemical and Biological Defense Program (CBDP).

The Enhanced Maritime Biological Detection (EMBD) program, an ongoing effort that began in fiscal year 2017, is included in CA EMD and will transition technology from the Joint United States Forces Korea Portal and Integration Threat Recognition Advanced Technology Demonstration to a program of record for the U.S. Navy. EMBD will complete development, testing, integration, and production of a lower cost biological point detection system that will detect, collect, and identify biological warfare agent aerosols, and provide automated warning at a lower sustained cost.

The committee recommends \$145.7 million, the amount requested in PE 64384BP, for CA EMD within the CBDP.

Fielding of radiation detection devices

The committee is encouraged by the Army's efforts to field additional radiation detection devices, and endorses the Army's efforts in fiscal year 2019 to develop and field the next-generation Joint Personal Dosimeter Individual (JPD-I), an individual dosimeter that includes immediate visual alert, measurement of radiation dose, and inclusion of a comprehensive record of radiation exposure over a soldier's career. The committee encourages the Army to conduct a rigorous, fair, and open competition for this new system to ensure the best dosimeter is developed and selected.

Future uses of synthetic biology

The committee is aware of recent advancements in synthetic biology, genomics, biotechnology, and related novel technologies that may enhance human performance and improve traditional approaches to healthcare. This includes enhancing human ability to perform through stressful and resource-limited environments, improving decision making, minimizing the time between disease identification and treatment, and augmenting human immune systems to defeat a variety of diseases, rather than depending on specific vaccines and therapeutics. The development of advanced biosensors to understand hypoxia is a current example of the type of human performance challenges that can be addressed through these advancements.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by December 1, 2018, on how the Department of Defense may leverage these advancements, when appropriate, and in accordance with ethical standards, U.S. law, our nation's values, and Department of Defense policy, to enhance service members' performance, increase lethality and survivability, and improve battlefield healthcare. The briefing should also identify opportunities, when appropriate and feasible, to facilitate the maturation of capabilities based on recent advancements.

Historically black colleges and universities, and minority serving institutions

The budget request contained \$30.4 million in PE 61228D8Z for research work with historically black colleges and universities, and minority serving institutions (HBCU/MI).

The committee recognizes the important role this program plays in bolstering the research capabilities and capacities at HBCU/MIs. Not only is such work important in meeting the defense research needs of the Department of Defense, but the committee also believes it provides an added benefit by diversifying the supply of scientists, engineers, and researchers working on the Department of Defense's most challenging problems.

Therefore, the committee recommends \$40.4 million, an increase of \$10.0 million, in PE 61228D8Z for additional research between historically black colleges and universities, and minority serving institutions, as well as increased teaming opportunities between

these institutions and other research universities with experience supporting the Department's unique requirements.

Innovative installation capabilities

The budget request contained \$29.4 million in PE 63342D8W for the Defense Innovation Unit Experimental (DIUx).

DIUx supports the identification, development, and demonstration of game-changing technologies to satisfy joint force priorities at a faster pace than the traditional Department of Defense planning, programming, budgeting, and execution process. As DIUx leverages partnerships with academic institutions, science and technology communities, and private industries, the committee recognizes the advantages that DIUx may provide to accelerate fielding of decisive technical capabilities and interoperability while mitigating operational risk to the warfighter and promoting affordability.

The committee supports the objective of DIUx to maintain U.S. technological superiority across the range of military operations. The committee believes DIUx should also increase efforts to support technological superiority at Department installations by addressing critical technological needs. This may also include mitigation of cybersecurity vulnerabilities identified during the ongoing review of critical infrastructure being conducted by the Department as directed in section 1650 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328).

Therefore, the committee recommends prioritizing critical technological needs at Department installations, and directs the Director of DIUx to provide a briefing to the House Committee on Armed Services by October 1, 2018, on a plan to invest in the rapid insertion of innovative installation capabilities.

Joint Regional Security Stacks

The committee supports the Department of Defense's efforts to secure and simplify the Department's network environment through modernization. Specifically, the committee supports continued use of the Joint Regional Security Stacks (JRSS) and the modernization, streamlining, and optimization of JRSS architecture to improve performance, reduce the Department's attack surface, and eliminate outdated technical redundancy. The committee believes incorporation of next-generation technology may further increase the Department's cybersecurity posture and resiliency. Therefore, the committee encourages the Defense Information Systems Agency to make full use of next-generation packet brokers which reduce costs by employing active-failover features, reducing redundancy of cybersecurity tools, and implementing new technology that eliminates duplicate network traffic.

Joint threat warning system

The committee recognizes that the Joint Threat Warning System (JTWS) provides credible threat warning and intelligence information to special operations forces (SOF). The committee notes that this program has been critical to enhancing the situational awareness of SOF elements by alerting them to threats to the force and illuminating targeting opportunities. The committee is concerned that the program does not include an air-variant precision high fre-

quency band capability. This gap in coverage exposes SOF operators to unknown threats and decreases their situational awareness. The committee recommends U.S. Special Operations Command further explore collection capabilities that address this critical air-variant high frequency gap in coverage.

Military Free Fall School

The committee is aware of the increased demand being placed on the U.S. Army's Military Free Fall School (MFFS). The committee understands the increased student throughput is largely a result of the expanded population of U.S. Army Special Operations Command personnel who are required to attend MFFS. Consequently, the increased student throughput has resulted in shortfalls in resourcing, an over-reliance on contract personnel, and an increased risk to students and cadre. Therefore, the committee directs the Commander, U.S. Special Operations Command to provide a briefing to the House Committee on Armed Services not later than October 15, 2018, on Special Operations Force Military Free Fall requirements, the funds expended, the expected cost of operating the MFFS across the Future Years Defense Program, and any change in the rate of MFFS safety incidents or injuries from fiscal years 2012 through 2018.

Minerva Research Initiative

The committee recognizes the valuable contributions the Minerva Research Initiative has had on social science research relevant to national security. This initiative has supported innovations in social science and translated important scientific discoveries in the field of counter-terrorism and counter-violent extremism. The committee believes similar research examining our peer and near-peer adversaries' growing influence and competitive advantage against the United States is necessary. According to the National Security Strategy of 2017, the People's Republic of China is reasserting its influence in order to deny the United States access in times of crisis and contest the Department of Defense's ability to operate freely in decisive locations. The committee believes additional national security-related social science research dedicated towards the Russian Federation, China, the Islamic Republic of Iran, and the Democratic People's Republic of Korea, and their export of military and security technology, will help understand these nations' true intentions and develop and implement strategy aimed at countering their influence.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than November 16, 2018, on the feasibility of expanding the Minerva Research Initiative to state actors, including Russia, China, Iran, and North Korea. The briefing should include the program's ability to provide substantive research addressing peer and near-peer adversary statecraft, to include, but not limited to, foreign influence, foreign investment, emerging technologies, and military exports.

National Hypersonics Initiative

The committee is aware of a National Hypersonics Initiative under development by the Under Secretary of Defense for Research

and Engineering, in conjunction with the military services, defense labs, and the Defense Advanced Research Projects Agency. The committee recognizes the growing amount of resources and emphasis placed by the Department of Defense on the research and development of hypersonic vehicle technology. The committee supports the development of a National Hypersonics Initiative, and believes it is prudent and consistent with the roles and responsibilities granted to the Department's Joint Hypersonics Transition Office as authorized in the National Defense Authorization Act of 2018 (Public Law 115–91). The committee is interested in any impact that the Treaty Between the United States of America and The Union of the Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles, signed in 1987 and commonly referred to as the INF Treaty, is having on the research and development of hypersonic vehicle technology. The committee understands there is concern that the INF treaty obligations may limit the Department of Defense's ability to flight-test and operationally employ hypersonic vehicles.

Therefore, the committee directs the Under Secretary of Defense for Research and Engineering to provide a briefing to the House Committee on Armed Services not later than September 15, 2018, on the status of the National Hypersonics Initiative and any impacts of the INF Treaty obligations on the research, development, prototyping, testing, or employment of hypersonic vehicle technology.

National lab integration in defense innovation hubs

The committee has continuing interest in the Department of Defense laboratories and engineering centers, their responsiveness to Department of Defense requirements, and maximizing their expertise and reach. The Department's laboratories are integral to the Department's ability to retain capability in areas where the private sector has no commercial interest, and ensuring that commercial solutions are adapted for warfighter needs in a timely manner so that the United States remains dominant in the land, air, sea, space, and cyber domains.

The committee recommends that the Department better enable laboratories and centers to embrace an open and innovative posture, while simultaneously becoming more active in the Department's requirements process. The committee is aware of the Army Research Lab's Open Campus project as an example of open innovation that encourages groundbreaking advances in basic and applied research areas through increased collaboration with the broader research enterprise. The committee believes that this serves as a model for laboratories to become more ingrained in the scientific and research communities, both locally and globally, and become a greater sensor for disruptive technologies that present opportunities or highlight vulnerabilities for the Department. Additionally, the committee recommends that the laboratories increase their presence in innovation hubs across the United States, like those established by the Defense Innovation Unit Experimental, and enhance existing relationships with the Strategic Capabilities Office and the Defense Advanced Research Projects Agency.

Therefore, the committee directs the Under Secretary of Defense for Research and Engineering to provide a briefing to the House

Committee on Armed Services not later than October 1, 2018, on the respective plan for further integrating the laboratories across defense and commercial innovation hubs, and maximizing their expertise and reach. The briefing should include a robust plan and timeline for increasing the Department's laboratory joint presence in innovation hubs across the United States.

Non-lethal directed energy technologies

The committee continues to support the need to minimize collateral damage, pursue all available avenues to reduce civilian casualties, and prevent damage to infrastructure in engagements abroad. The use of non-lethal directed energy technologies provides many opportunities to do so. Some of these technologies have matured and are already employed by military service and combatant commands in the operational environment across the globe. These technologies have the capacity to stop ground vehicles, small vessels, and unmanned aerial vehicles from infringing upon protected spaces, or to deny access to secured facilities. The committee continues to encourage the Department of Defense to make greater efforts to use these technologies where appropriate. Elsewhere in this report, the need for concurrent policy development, sustained integrated non-lethal directed energy technologies, and continued development of next-generation directed energy non-lethal technologies, like the Marine Corps' Ocular Interruption System, is addressed.

Protect DIB critical technologies

The committee recognizes the importance of safeguarding defense industrial base (DIB) critical technologies from cyber and economic actions conducted by our adversaries. The challenge in doing so is particularly acute as supply chains become increasingly globalized, as noted in the report published by the RAND Corporation entitled "U.S. Authorities and DoD Options for Protecting the Defense Industrial Base from Cyber Intrusions and Economic Enticement, Influence, and Control." The report calls attention to the difficulties in protecting DIB members with supply chains in foreign countries and the resulting risks to the integrity of various critical technologies and materials.

Therefore, the committee directs the Undersecretary of Defense for Research and Engineering (R&E) to provide a briefing to the House Armed Services Committee no later than 1 March 2019 on activities and investments the Department is making with respect to foreign suppliers of critical technologies to national defense to ensure their integrity, including microelectronics.

Rapidly deployable radar system

The committee is aware of U.S. Special Operations Command's efforts to accelerate development of an ultra-low power, rapidly deployable radar system. This modular technology can enhance radar situational awareness for special operations forces elements in austere environments. The committee notes the value of this technology and its relevance in current conflicts, particularly due to the persistent threat of adversary controlled, small unmanned aerial systems. The committee looks forward to the results of additional testing and encourages the integration of this ultra-low

power, rapidly deployable radar with other counter-unmanned aerial system efforts across the Department of Defense.

Report on DoD target and threat systems

The Committee recognizes that military capabilities of adversary nations continue to improve over time thus challenging the ability of the United States military to project power and protect its national interests throughout the world. In order to ensure thorough and realistic testing and evaluation of defense weapons systems and effective operational unit training, it is imperative that DoD continues to develop and maintain a sufficient inventory of realistic targets and threat systems that accurately represent the capability of adversary nations. In support of that imperative, the Committee believes that the status and adequacy of target and threat systems programs need to be assessed.

The Secretary of Defense shall conduct a review of the Department's targets and threat systems in support of test and evaluation and training and shall identify recommended actions to address shortcomings in those systems in a final report.

The review, recommendations, and final report shall address, but not be limited to, the following:

(A) All airborne, seaborne, ground, and undersea targets and target control systems used to support open air test and evaluation and warfighter training exercises;

(B) All real and simulated threat systems used to support open air test and evaluation and warfighter training exercises;

(C) The degree to which all of the above systems replicate both current and future threats;

(D) The adequacy of target and threat systems inventories to meet current and future test and evaluation and training requirements;

(E) The ability of the above systems to support effective testing and evaluation of future U.S. combat and weapon systems;

(F) The ability of the above systems to support effective warfighter training against future threats.

Not later than one year after the date of enactment, the Secretary shall submit to the congressional defense committees a final report on the review and recommended actions to address all shortcomings in the abilities of DoD targets and threat systems to effectively support open air test and evaluation events and training exercises.

Research to enhance the understanding of adversarial influence operations

Manipulation of the global information environment by adversaries using both human and machine means poses a challenge to the viability of democratic institutions and social stability. The committee is aware of research conducted by the Defense Advanced Research Projects Agency (DARPA) to develop technologies for high-fidelity simulation of online social behavior, while testing and measuring simulation accuracy and other research projects to better understand influence. For example, the Social-Cognitive Information Security research program uses modeling and simulation to examine how behavior is manipulated in a way that compromises cyber or social infrastructures.

The committee is aware that the Secretary of Defense recently designated the Commander, U.S. Special Operations Command, to be the Joint Proponent for Military Information Support Operations (MISO), and to establish a global messaging/counter-messaging capability. The committee believes research conducted to enhance the understanding of the impact of adversarial manipulation of the global information environment may complement and inform information operation activities of the Department of Defense. Therefore, the committee encourages the Director of DARPA and the Commander, U.S. Special Operations Command, to collaborate and provide for transition of appropriate research projects that enhance and complement MISO.

Use of authority for transactions other than contracts and grants by the Department of Defense

The committee recognizes the need for agility and innovation in the procurement process. The committee believes that, when used appropriately, other transaction authority (OTA) of section 2371 of title 10, United States Code, can provide the necessary flexibility to give the Department of Defense a competitive edge in the commercial marketplace.

The National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) modified and made permanent the Department’s ability to carry out certain prototype projects using OTA. Further recognizing the benefits of OTA, section 867 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) required the Secretary of Defense to establish a preference for using other transactions (OTs) “in circumstances determined appropriate by the Secretary.”

The committee supports the Department’s continued use of OTA to rapidly explore cutting-edge technologies and reduce barriers to attract non-traditional defense contractors. The committee also acknowledges the Department’s guidance that OTs should be used appropriately by individuals possessing the requisite level of business acumen and judgment to operate in a “relatively unstructured environment.”

However, the committee is increasingly concerned by a perceived lack of transparency surrounding the use of OTA within the Department. The committee is particularly concerned by the limited details provided on the Defense Innovation Unit Experimental’s use of OTA to award a large-scale follow-on production contract for cloud services. While the Department significantly reduced the original award from \$950.0 million to \$65.0 million, and greatly limited the scope of the production agreement, the committee remains concerned about the Department’s failure to provide a comprehensive explanation for how such a large-scale award was made unbeknownst to senior Department officials, and why the award was later reduced.

Therefore, the committee urges the Department to exercise greater prudence and transparency when employing OTA to prevent misuse and abuse. The committee also urges the Department to reiterate through established guidelines that OTA is not a means for circumventing appropriate use of the Federal Acquisition Regulation, and that full and open competition should be used to the max-

imum extent practicable to maintain a sense of integrity, fairness, and credibility in the Federal procurement process.

LEGISLATIVE PROVISIONS

SUBTITLE A—AUTHORIZATION OF APPROPRIATIONS

Section 201—Authorization of Appropriations

This section would authorize appropriations for research, development, test, and evaluation at the levels identified in section 4201 of division D of this Act.

SUBTITLE B—PROGRAM REQUIREMENTS, RESTRICTIONS, AND LIMITATIONS

Section 211—Modification of Authority to Carry Out Certain Prototype Projects

This section would make modifications to section 2371b of title 10, United States Code, regarding use of transactions other than contracts and grants for follow-on production.

Section 212—Extension of Directed Energy Prototype Authority

This section would extend the directed energy prototype authority provided for in section 219(c)(4) of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) through fiscal year 2019.

Section 213—Prohibition on Availability of Funds for the Weather Common Component Program

This section would restrict funding for further development of meteorological situational awareness sensor programs for unmanned aircraft systems, and require the Secretary of the Air Force to submit a report to the congressional defense committees that describes requirements, existing technologies, current program efforts, testing and evaluation, and a fielding plan for capabilities associated with providing meteorological situational awareness to unmanned aircraft aircrews.

The committee notes that the Air Force office for Unmanned Aircraft Systems (UAS) Innovations and Integration under the Deputy Chief of Staff of the Air Force for Intelligence, Surveillance, and Reconnaissance (HAF/A2) began an initiative in 2010 to develop an UAS sensor that could provide real-time meteorological situational awareness for UAS aircrews to increase mission effectiveness and mitigate reliance upon weather forecasting capabilities in geographic regions with limited or no weather services provided for flight operations. The effort culminated in 2015 and cost the Air Force \$10.6 million. On October 30, 2015, the then-12th Air Force Commander, and now current Deputy Chief of Staff of the Air Force for Operations (HAF/A3), validated key global weather requirements for UAS operations, to include: increasing UAS situational awareness of current and predicted state of environmental phenomena to maximize mission effectiveness, efficiency, safety, resource protection, and risk management; relaying all onboard-UAS weather data and information, such as air temperature, humidity,

wind speed and direction, turbulence, ice accretion, and weather radar in real-time; and increasing real-time, on-board weather collection capability to provide pilot situational awareness and support Air Force forecast processes. However, the HAF/A2 sensor remains non-deployed, despite the Air National Guard Air Force Reserve Command Test Center finding the sensor and its associated software to be potentially operationally effective and suitable in a formal report published in January 2018. More concerning to the committee is that a separate development effort is being undertaken by HAF/A3 weather officials that appears to duplicate the technology. Thus, this section would restrict further funding for additional systems until the Air Force provides a report that will allow the committee to evaluate the need for additional capability.

Section 214—Limitation Pending Certification on the Joint Surveillance Target Attack Radar System Recapitalization Program

This section would restrict obligation of funding for the Advanced Battle-Management System (ABMS) of Systems initiative of the Department of the Air Force, as well as a portion of the proposed divestment of legacy E-8C aircraft contained in the fiscal year 2019 budget request. The restriction would remain in effect until the Secretary of the Air Force certifies to the congressional defense committees that the Joint Surveillance Target Attack Radar System (JSTARS) Recapitalization (Recap) program, as submitted and described in the fiscal year 2018 budget request, is proceeding unhindered with originally planned activities associated with engineering, manufacturing, and development; low-rate initial production; production; and initial contractor support. This section also would require the Comptroller General of the United States to provide a report to the congressional defense committees that assesses the acquisition strategy associated with ABMS, and would require the Secretary of the Air Force to submit a report to the congressional defense committees that includes a strategy for accelerating the JSTARS Recap program, while also managing appropriately the legacy fleet of E-8C aircraft. This section would also authorize use of JSTARS Recap program funding to maintain the program office's functionality.

Section 215—Limitation on Availability of Funds for F-35 Continuous Capability Development and Delivery

This section would limit the obligation or expenditure of 25 percent of the funds for the F-35 continuous capability development and delivery program until 15 days after the Secretary of Defense provides the congressional defense committees a detailed cost estimate and baseline schedule for the program. This section does not apply to any funds authorized to be appropriated by this Act for the development of F-35 dual capable aircraft capability.

Section 216—Limitation on Availability of Funds Pending Report on Agile Software Development and Software Operations

This section would temporarily restrict funding for software development efforts that use agile development and operations methodology until the Secretary of the Air Force provides a report to the congressional defense committees that describes the cost-estimation

tools, the types of contracts, and the mitigation efforts to avoid duplicative development related to the strategy for modernizing and upgrading existing software at worldwide Air Force Air Operations Centers.

Section 217—Limitation on Availability of Funds for Certain High Energy Laser Advanced Technology

This section would limit the availability of 50 percent of the funds authorized to be appropriated by this Act, or otherwise made available for fiscal year 2019, until the Secretary of Defense provides the High Energy Laser logical roadmap and assessment to the congressional defense committees.

Section 218—Plan for Elimination or Transfer of the Strategic Capabilities Office of the Department of Defense

This section would direct the Secretary of Defense to submit a plan to the congressional defense committees by March 1, 2019, for the elimination or transfer of the functions of the Strategic Capabilities Office to another organization or element of the Department of Defense.

Section 219—National Security Science and Technology Strategy

This section would direct the Secretary of Defense to develop a National Security Science and Technology Strategy to prioritize Department of Defense science and technology efforts and investments. The Secretary of Defense would be required to submit the most recent version of the strategy to the congressional defense committees not later than February 4, 2019, and annually thereafter through December 31, 2021.

Section 220—Modification of CVN-73 to Support Fielding of MQ-25 Unmanned Aerial Vehicle

This section would require the Navy to fund the modification of CVN-73 during its refueling and overhaul period in support of future MQ-25 unmanned carrier aircraft operations.

SUBTITLE C—REPORTS AND OTHER MATTERS

Section 221—Report on Survivability of Air Defense Artillery

This section would require the Secretary of the Army to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2019, on efforts to improve Army Air Defense Artillery (ADA) survivability and require the Army to assess measures that could better enhance ADA defenses, both active and passive.

The committee is concerned that U.S. Army Air Defense Artillery units may lack required active and passive non-kinetic capabilities and training to maximize their level of survivability against sophisticated threats. The committee recognizes that ADA is a critical and increasingly important component of Joint Integrated Air and Missile Defense. The committee also supports continued modernization and expansion of ADA capability.

Section 222—Report on T-45 Aircraft Physiological Episode Mitigation Actions

This section would require the Secretary of the Navy to submit a report to the congressional defense committees by March 1, 2019, on modifications made to T-45 aircraft and associated ground equipment to mitigate the risk of physiological episodes among T-45 aircraft crewmembers, and would require the Secretary include certain elements in such report.

Section 223—Report on Efforts of the Air Force to Mitigate Physiological Episodes Affecting Aircraft Crewmembers

This section would require the Secretary of the Air Force to submit a report to the congressional defense committees by March 1, 2019, on all efforts of the Air Force to reduce the occurrence of, and mitigate the risk posed by, physiological episodes affecting crewmembers of covered aircraft and would require the inclusion of certain elements in such report. In this section, the term “covered aircraft” would mean F-35A aircraft of the Air Force, T-6A aircraft of the Air Force, and any other aircraft of the Air Force as determined by the Secretary of the Air Force.

Section 224—Briefing on Use of Quantum Sciences for Military Applications and Other Purposes

This section would require the Secretary of Defense to provide to the congressional defense committees a briefing and plan for using quantum sciences for military applications and other purposes.

Section 225—Report on Defense Innovation Unit Experimental

This section would require the Under Secretary of Defense for Research and Engineering to submit a report to the congressional defense committees by May 1, 2019, on the integration of Defense Innovation Unit Experimental into the broader Department of Defense research and engineering community, the unit’s measures of effectiveness, the number and type of transitions, and the impacts of the unit’s initiatives and investments on the Department.

TITLE III—OPERATION AND MAINTENANCE

ITEMS OF SPECIAL INTEREST

LOGISTICS AND SUSTAINMENT ISSUES

Briefing on Rapidly Deployable Structures

The committee is aware that the military services, including but not limited to the Air Force Civil Engineer Center at Tyndall Air Force Base, are testing and evaluating options that improve the deployability, safety, and energy efficiency of structures used by the Armed Forces in a variety of operational environments. Of particular interest is the use of such structures in remote areas, where access to reliable energy sources can be difficult and environmental conditions can be severe. As such efforts continue, the committee encourages the Department of Defense to allocate appropriate resources for the research, development, test, evaluation, and pro-

curement of structures that leverage energy efficient and insulation technologies.

Toward that end, the committee directs the Assistant Secretary of Defense for Energy, Installations, and Environment to provide a briefing to the House Armed Services Committee, by September 28, 2018, on the Department of Defense's efforts to leverage energy efficient technologies in deployed structures, particularly those capabilities that support operations in remote environments. This briefing shall include, a detailed assessment of recent tests and evaluations of such structures conducted by the military services, including but not limited to findings and analysis regarding thermal efficiency, energy generation and use, modularity, and other required capabilities; a description of key requirements, such as billeting, medical, command and control, and humanitarian and disaster relief, that could be addressed by these structures across the military services; and a plan to develop and promulgate guidance throughout the Department of Defense regarding energy efficient structures in operational environments.

Corrosion Prevention for Improved Air Force Readiness

The committee recognizes the importance of efforts to minimize corrosion, decrease aerodynamic drag, and reduce environmental and occupational risks in aircraft operations. These efforts include the application of alternative coatings applied to aircraft, such as powder-applied coatings, that increase durability while minimizing hazardous air pollutants and volatile organic compounds. In addition, the committee recognizes the importance of innovative technologies that can rapidly and efficiently remove coatings, such as advanced laser technologies, that enable the safe and efficient repair and sustainment of aircraft skin made of metal or composite materials. In addition to surface coatings, adhesives and sealants are critical to providing corrosion protection and structural strength. Lighter weight sealants can reduce aircraft weight, extending operational range and reducing fuel consumption. Furthermore, advances are being made in screening technologies to reduce the amount of time required to validate a material's performance and incorporate it into aircraft maintenance strategy. The committee supports additional efforts that incorporate a range of targeted solutions designed to minimize corrosion and meet Air Force needs for manned and unmanned aircraft. The committee encourages the Secretary of the Air Force to continue to support those efforts that improve operational capability and reduce the cost and amount of time required to sustain these weapon systems.

Innovative Engine Sustainment Wash-Down Management Program

The committee notes that aircraft flown by the United States Navy and United States Marine Corps often fly in corrosive or dusty environments. As a result, contaminants adhere to the turbine blades behind the combustion chamber and could adversely affect engine performance or operation. The committee believes the Department of the Navy should assess what additional operational or maintenance actions could be taken to further to improve fuel efficiency and aircraft availability rates in these corrosive and dusty environments. The committee understands the Navy and Ma-

rine Corps must be able to operate independently worldwide and that targeted investments in energy efficiency enhance combat capability and reduce need for logistics support. The committee understands that maintenance practices and technologies exist for aircraft engine sustainment, to include using “washdown” processes, that could potentially improve fuel efficiency, extend the servicelife of engine components and in turn, improve overall aviation readiness.

Therefore, the committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services by September 28, 2018 on the advisability and feasibility of the establishment of a pilot program led by the Commander, U.S. Naval Air Systems Command (NAVAIR) to test new technologies and best practices in operational energy and resiliency for engine sustainment which reduces maintenance costs, improves aircraft availability rates, and lowers aircraft fuel consumption rates.

Leveraging Technology To Improve Equipment Readiness

The committee notes that readiness is defined by the Department of Defense as “the ability of military forces to fight and meet the demands of assigned missions” and is supported by personnel, training, and equipment readiness. Increasing and sustaining equipment readiness relies on balancing modernization initiatives with ensuring the proper maintenance, utilization, and sustainment of existing weapon systems. The committee is aware of innovative maintenance technologies and practices that may help reduce costs and the time that equipment and weapon systems are down for maintenance, while helping to maximize lifespan and operational availability rates. A significant amount of data can be captured through embedding diagnostic sensors and collecting operator observations, enabling predictive analytic software to proactively identify pending maintenance issues. The committee encourages the service secretaries to seek additional opportunities to leverage innovative technologies and maintenance practices, either as demonstration projects or by incorporating them into a fleet maintenance plan, to increase maintenance responsiveness and the operational availability of weapon systems.

Life Cycle Costs of Major Defense Acquisition Programs

The committee notes that section 2340 note of title 10, United States Code, requires the Department of Defense to ensure competition throughout the life cycle of major defense acquisition programs and the acquisition strategy for each major defense acquisition program includes measures to ensure competition or the option of competition and adequate documentation of the rationale for selection.

Furthermore, the committee notes that section 2340 note of title 10 requires whenever a decision regarding source of repair results in a plan to award a contract for performance of maintenance and sustainment of a major weapon system or subsystem of a major weapon system, the Department shall take actions to ensure that, to the maximum extent practicable and consistent with statutory requirements, contracts for such maintenance and sustainment are

awarded on a competitive basis and give full considerations to all sources.

The committee is concerned about the life cycle costs of major defense acquisition programs and how the Department's implementation of section 2340 note of title 10 is impacting these associated program costs.

The committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services, not later than December 1, 2018, on the Department's implementation of section 2340 note of title 10. Specifically, the briefing will include the strategy for each major defense acquisition program, the measures taken to ensure competition at both the contract and subcontract level, and the impact of these measures on the life cycle costs for each major defense acquisition program. Additionally, the briefing will include for each major defense acquisition program the consideration of competition throughout the maintenance and sustainment phases.

Management of Navy Legacy F/A-18 Aircraft

The committee is aware of the Department of the Navy's intent to divest legacy F/A-18 aircraft when the majority of the F/A-18 aircraft inventory remains non-flyable due to maintenance backlogs and availability of spare parts. Further, these aircraft experience high physiological event rates. Even so, the committee was encouraged by the Navy's decision to award an alternative-source contract for F/A-18 A/B/C/D depot-level maintenance to reduce the backlog of legacy F/A-18 depot-level maintenance. This contract, awarded in February 2016, can help improve overall aviation readiness rates. The committee is concerned, however, that the Navy's plan for managing the life cycle of the fleet is not clear.

Therefore, the committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services by November 30, 2018, on the Navy's plans for the F/A-18 legacy fleet. The briefing should address the divestiture plan for the F/A-18 aircraft and the rationale for divestiture. For the aircraft remaining, the briefing should address the readiness recovery plans, including plans to fully utilize the alternative-source depot-level maintenance contract.

Navy Next-Generation Small Arms Weapons Training and Readiness Requirements

The committee is concerned that after 5 years, the Navy has not developed a comprehensive plan to address significant small arms training shortfalls identified following the 2013 Washington Navy Yard shooting. The committee reiterated these concerns in the committee report (H. Rept. 114-537) accompanying the National Defense Authorization Act for Fiscal Year 2017. The report directed the Navy to evaluate innovative, non-program-of-record small arms and crew-served training systems to improve Navy security force and fleetwide small arms tactical and crew-served training. The committee is aware of next-generation synthetic small arms training systems that can provide consistent, metrics-based proof of live-fire transfer across warfighter skill levels for individual and crew-served training. Such systems, which reduce ammunition expendi-

ture and training time, have been demonstrated by the Navy Expeditionary Combat Command. The committee believes that these systems can improve reaction time and decision making under stress, skills critical to determining hostile intent and making escalation of force decisions. Given the benefits of these next-generation systems, the committee is concerned that the Navy has continued to rely on legacy simulation systems built for other services, without consideration of unique Navy small arms training and readiness requirements.

Therefore, the committee directs the Commander of U.S. Fleet Forces Command to provide a briefing to the House Committee on Armed Services not later than November 30, 2018, regarding a comprehensive plan to meet small arms training requirements, how next-generation synthetic small arms training systems will be integrated into the comprehensive plan, and the Navy's acquisition strategy to support small arms training requirements.

Navy Ship Maintenance and Repair

The committee is aware that the Navy changed its contracting strategy for ship maintenance and repair in 2013, moving away from the system used since 2004. Despite this change, the Navy continues to experience delays in completing ship availabilities, leading to a reduction in the time a ship's crew has to prepare for deployment. The committee appreciates the need to control costs and to resolve all emergent maintenance issues when a ship is in a maintenance availability. However, the committee is not persuaded that the Navy's current Multiple Award Contract, Multiple Order (MAC-MO) mechanism is always the best contracting approach. The committee has learned of delays in renegotiating contracts while vessels sit idle in the yard, as well as third party planning contractors not obtaining long lead time materials when needed. The committee is aware that the Comptroller General of the United States looked at similar issues, described in Government Accountability Office report GAO-17-54, issued in 2016.

To better understand what adjustments may be needed to make improvements to the Navy's ship maintenance and repair process, the committee directs the Comptroller General to:

- (1) compare the Navy's execution of the MAC-MO strategy against the previous Multi-Ship, Multi-Option strategy, with particular emphasis on cost, lost operational days, and on-time completion;
- (2) assess the effectiveness of third party planners in the MAC-MO strategy, including their performance in developing stable well-defined requirements during advance planning;
- (3) assess the adequacy of the Navy's structure for contract oversight;
- (4) assess the stability and viability of the ship repair industrial base, including private industry's capacity to recruit and retain critically skilled workers and maintain safe and efficient facilities; and
- (5) assess advantages, disadvantages, or key differences between the MAC-MO and Multi-Ship, Multi-Option strategy depending on the location where the work will be performed.

The committee directs the Comptroller General to submit a report to the Committees on Armed Services of the Senate and the

House of Representative by March 1, 2019, on these matters and recommendations to improve the Navy's contracting process.

Supply of Aviation Parts and Spares

The committee is concerned by the rate of non-mission capable aircraft due to issues with supply of parts and spares. The committee is aware of numerous examples of aircraft that have been non-mission capable for several months waiting for the arrival of a part. Therefore, the committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services not later than September 30, 2018, on the Department's efforts to address issues associated with the availability and supply of aviation parts and spares. At minimum, the briefing should provide an update on the rate of non-mission capable aircraft due to supply, specific actions the Department is taking to decrease this rate, and commercial and industry best-practices for maintenance and supply that may be adopted as part of an overall strategy to improve aircraft mission capability rates.

READINESS ISSUES

Additive Manufacturing in Depot Facilities

The committee is encouraged by the progress that depots and arsenals in each military department are making in developing additive manufacturing capabilities. The committee understands that this capability allows depots to quickly manufacture parts that are no longer available from commercial suppliers, allowing rapid repair of essential operational equipment. However, there remains substantial room across each of the services to add more additive manufacturing capacity. Additionally, the committee has observed little commonality across the Department of Defense in addressing intellectual property issues associated with this process.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than December 3, 2018, on a strategy to further integrate additive manufacturing capabilities into industrial facilities across the Department to speed parts production, return equipment to the force, and improve material readiness. The briefing should also address progress in resolving legal and patent questions around use of additive manufacturing.

Adversary Air Training

The committee notes that the budget request contained increased funds for the Air Force to provide more adversary air contracted support for Red Flag exercises, Warfighter Integration Center, and combat air force fighter formal training unit locations. The committee also notes that the budget request contained increased funds for the Navy to provide adversary air support at specialized schools including the Naval Strike and Air Warfare Center. The committee supports these efforts to contract for adversary air training to aid aviation readiness recovery. Contract support will make more combat-coded pilots available for operational duties rather than adversary air training missions and reduce the number of

training hours being placed on airframes. In acquiring contracted services for adversary air, the committee encourages the Secretary of the Air Force and the Secretary of the Navy to maximize competition and ensure the contracts provide flexibility to adjust to emerging training requirements. Finally, the committee encourages the Secretary of the Air Force and Secretary of the Navy to seek opportunities to coordinate adversary air requirements to reduce overall costs and maximize the support to aviation readiness recovery of both departments.

Army Soldier and Squad Virtual Trainer

The committee commends the Army's decision to replace its legacy small arms simulation trainer and call for fire trainer with an advanced Soldier and Squad Virtual Trainer (S/SVT) program to achieve next-generation synthetic small arms, call for fire, use of force, and close quarters combat training and readiness objectives. The committee believes continued improvement of these systems is essential to future success of small units on the battlefield. The committee believes the Army should consider key capabilities such as the use of biometrics, advanced human performance techniques, cognitive drills, and robust data collection to verify soldier improvement. Therefore, the committee directs the Secretary of the Army to provide a briefing to the House Committee on Armed Services not later than December 3, 2018, that details the status of the Army's plan for S/SVT and how key capability and system requirements currently projected by the Army are being accounted for, and will be implemented, in the final S/SVT program in order to sustain readiness.

Assessment of Navy Standard Workweek

The committee notes that the Navy's Comprehensive Review identified fatigue and ineffective crew rest management in the four mishaps that occurred in the Western Pacific in 2017. As noted in the review, "if crewmembers are overly fatigued, mission accomplishment, performance, and safety are in jeopardy." The Comprehensive Review went on to recommend the Navy establish a comprehensive fatigue management policy, and a circadian ship and watch rotation for surface ships.

The committee directs the Chief of Naval Operations to provide a briefing to the House Committee on Armed Services not later than September 30, 2018, that identifies how Chief of Naval Operations Instructions, and other relevant policy documents, have been updated to implement the recommendations of the Comprehensive Review and address crew fatigue, watch rotations, and overall workload for crewmembers of surface ships.

Availability and Sufficiency of Training Ranges to Conduct Training against Near-Peer Adversaries

To build and sustain full-spectrum combat readiness, the military services must train on ranges that replicate the capabilities of near-peer adversaries. Such training requires ranges with sizable land, sea, and air space to accommodate the tactics of modern systems and weapons. In addition, modern war demands extensive training on weapons employment and target identification, as po-

tential adversaries possess complex air defenses and highly sophisticated electronic countermeasures. However, training ranges lack sufficient capability and capacity to support full-spectrum training requirements, including the replication of near-peer adversaries' capabilities. Further, because of the strategic significance of forward-deployed and rotational forces, building overseas training range capabilities is becoming more important to sustaining full-spectrum readiness.

The committee is concerned that the Department of Defense's training range infrastructure is not keeping up with the demand to support full-spectrum training requirements. Therefore, the committee directs the Comptroller General of the United States to assess the following:

(1) the extent to which the Department of Defense has identified the current capacity of training range infrastructure to meet the military services' demand for range access;

(2) the extent to which the Department of Defense has evaluated the training range infrastructure to determine whether it is sufficient to conduct training against near-peer adversary capabilities; and

(3) the extent to which the Department of Defense has developed a comprehensive strategy and investment plan to improve the availability and sufficiency of training ranges to meet the Department's training needs.

The committee further directs the Comptroller General to provide a briefing to the House Committee on Armed Services not later than February 1, 2019, on the findings of this review and to submit a report to the congressional defense committees on a date agreed to at the time of the briefing.

Briefing on Security Forces Assistance Brigade Location Plan

The committee recognizes that a future Security Forces Assistance Brigade (SFAB) construct should highly encourage an expansion of alliances and partnerships as called for in the 2018 National Defense Strategy. Therefore, the committee directs the Secretary of the Army to provide a briefing to the House Committee on Armed Services, not later than January 1, 2019, on the strategic alignment decision matrix and installations plan for the fielding of the Security Forces Assistance Brigades. The plan shall include an assessment of the feasibility and advisability of stationing SFABs appropriately to address the requirements of the geographic combatant commands.

CONUS Training Facilities

In support of the Department of State's Anti-Terrorism-Assistance program, many commercial companies created state of the art CONUS training facilities that provided critical skills to deployable personnel. However, these CONUS training facilities are now being underutilized due to an increased tendency to conduct training OCONUS. These training facilities have successfully increased readiness and contributed to overall mission success through partnerships with programs such as U.S. Military Afghanistan-Pakistan Hands (APH) as well as U.S. Military Observer Group (USMOG). The committee is aware of the excess capacity available

at these commercial training facilities and encourages the Department of Defense and Department of State to use them to further enhance anti-terrorism training. Therefore, the committee directs the Secretary of Defense, in coordination with the Secretary of State, to provide a report by March 1, 2019 detailing the requirement for all services to conduct enhanced and critical skills training. In addition, this report should detail the feasibility of using CONUS facilities to conduct this antiterrorism training and identify any training backlogs and any facility infrastructure shortfalls that exist in order to accomplish this type of training.

Entry Control Facility Technology

The committee remains concerned about the physical security of U.S. military facilities, both in the continental United States as well as abroad. Entry control points at such facilities are particularly vulnerable and require special attention and protection. The committee recognizes the need to continually assess new technology and develop enhanced entry control options in order to protect Department of Defense facilities against evolving adversarial technologies, such as drones and autonomous vehicles. The committee encourages the service secretaries to seek additional opportunities to leverage innovative technologies and research and development in order to enhance overall security, reduce military construction requirements, reduce annual operation and maintenance costs, increase joint interoperability, and protect valuable resources.

Foreign Language Readiness

The committee believes that a globally engaged military force requires an adequate number of personnel trained and proficient in foreign languages. The committee notes the significant number of personnel who attend the Defense Language Institute—Foreign Language Center, the John F. Kennedy Special Warfare Center and School, and other foreign language training programs each year, as well as the global allocation of linguists among the geographic combatant command areas of responsibility. The committee believes these institutions can be augmented by innovative online programs conducted as a traditional classroom, with a live instructor engaging a small student group. Such programs reduce the need for travel and have proven more effective than self-paced instruction. The committee also notes efforts by the Department of Defense to recruit and utilize native speakers of critical languages to support combatant command requirements. Despite the critical requirements for foreign language expertise in certain career fields, the committee is concerned that the overall foreign language readiness of the total force is not adequately documented and assessed.

Therefore, the committee directs the Under Secretary of Defense for Personnel and Readiness to provide a briefing to the House Committee on Armed Services not later than March 1, 2019, that assesses the foreign language readiness of the total force. The briefing shall address the required number of personnel trained and proficient in foreign languages, the current number of personnel trained and proficient in foreign languages, and the distribution of linguist personnel to the appropriate combatant commands; identify any gaps in foreign language readiness to include specific

shortfalls in critical languages and mitigations to address those gaps; and assess the current foreign language training, education, and proficiency testing programs.

Forward Deployed Naval Force Ship Maintenance and Repair Capacity

The committee notes that since 2006, the Navy has doubled the number of surface ships assigned to overseas homeports, with more than 14 percent of the Navy's ships based at ports in the Kingdom of Bahrain, the Italian Republic, the Kingdom of Spain, and Japan. The committee also notes that combatant commander demand for naval presence drives the Navy to base ships at overseas ports. However, the extent to which the Navy has the capacity for ship maintenance and repairs overseas is not clear.

To assess that capacity, the committee directs the Comptroller General of the United States to review the following:

- (1) ship maintenance and repair capacity overseas in either U.S. ports or foreign repair yards;
- (2) to what extent has the Navy identified and taken action to address its overseas maintenance requirements;
- (3) to what extent has the Navy identified the underlying causes of overseas maintenance overruns;
- (4) mitigation options to address any maintenance shortfalls; and
- (5) any other issues the Comptroller General determines appropriate with respect to forward deployed naval force ship maintenance and repair capacity.

The committee further directs the Comptroller General to provide a briefing to the House Committee on Armed Services not later than November 12, 2018, on the Comptroller General's preliminary findings and to submit a final report to the congressional defense committees on a date agreed to at the time of the briefing.

Immersive Virtual Shipboard Environment Training

The committee notes that the Navy has used game-based learning concepts and immersive virtual shipboard environment (IVSE) training for select watch stations aboard Littoral Combat Ships (LCS). The committee understands that IVSE courses offer scalable solutions that have led to faster qualification and certification times, a higher degree of training proficiency, and increased knowledge retention. The committee notes that the Navy's Strategic Readiness Review recognized that the Navy must "foster a culture of learning and create the structures and processes that fully embrace this commitment" in order to restore readiness, yet the Navy has made little progress in adopting proven methods to cultivate the learning culture.

Therefore, the committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services, not later than September 28, 2018, on the Navy's plans to improve training. The briefing should:

- (1) identify training benefits and lessons learned from the Navy's experience with game-based learning concepts and IVSE training for LCS watch stations;
- (2) outline a plan, including associated timelines, for applying such training to Navy and Marine Corps training requirements

across all naval surface ship platforms in alignment with the Chief of Naval Operations' tenet of achieving high-velocity learning using 21st century technology;

(3) identify discrete mission areas where insufficient assets are available to provide traditional training to achieve full-spectrum readiness and where IVSE would improve watch-station training, including training for new platform development programs, coastal riverine operations, and amphibious operations; and

(4) provide a report to the Committees on Armed Services of the Senate and House of Representatives by March 1, 2019 on the advisability and feasibility of procuring, altering, or otherwise modifying the Navy's bridge simulators, including the Navigation, Seamanship, and Shiphandling Trainer, to enable high-fidelity physical representation of the different bridge layouts, characteristics, and operating environments of ships across the fleet.

Information Operations

The committee understands the growing importance of space and cyber operations in military operations and in another provision elsewhere in this Act directed the Secretary of Defense to report readiness to conduct operations in the space and cyber domains. The committee believes that information operations are similarly becoming a major factor in military planning and that operational skill in conducting information operations will be critical to future military success. Therefore, the committee directs the Secretary of Defense to assess the value of measuring and regularly reporting the readiness of the joint force to conduct information operations and report his recommendations to the Committees on Armed Services of the Senate and the House of Representatives by January 31, 2019.

Live, Virtual, and Constructive Training Solution Enhancements

The committee recognizes the important role that live training systems play as part of a comprehensive effort to improve readiness. The committee is aware the Army and Marine Corps are planning for the use of live, virtual, and constructive (LVC) simulation training systems that emphasize joint interoperability. However, the committee is concerned that despite recent progress advancing such LVC capabilities there remain challenges in both fielding and integrating live training devices with both individual and collective training objectives. Additional challenges occur when planned upgrades to new and existing vehicle platforms occur without the corresponding modifications to the training systems. The committee believes that the acquisition and fielding of training systems must be synchronized with the procurement, fielding, and modernization of weapon systems to ensure the services' overall training objectives are supported in a coordinated and cost-effective manner. In addition, the committee encourages the military departments to ensure that new LVC training systems are interoperable with both the joint force infrastructure and the advanced training systems of key allied nations and coalition partners.

The committee directs the Secretary of the Army, in coordination with the Secretary of the Navy, to provide a briefing to the House Committee on Armed Services not later than December 3, 2018, on

the plans of the Army and Marine Corps to utilize live training systems as part of readiness recovery and long-term training efforts. The briefing should address the plans and timelines for fielding live training systems and synchronizing such efforts with the fielding or modernization of weapon systems and efforts to ensure such systems are interoperable with our military partners and allies.

Military Working Dog Capacity and Facilities

The committee is aware that military working dogs are a critical enabler to both facility and operational force security and that the operational need continues to grow. The committee is concerned about the average age of the military working dog population and the capacity to train and access new dogs and handlers to meet future requirements. Additionally, the committee notes that investments in military working dog facilities have not kept pace with the increased demand for military working dogs.

Therefore, the committee directs the Secretary of the Air Force, as the executive agent for the military working dog program, to provide a briefing to the House Committee on Armed Services not later than December 1, 2018, that addresses:

- (1) the total current and future requirement for military working dogs, handlers, and instructors by mission capability;
- (2) the total number of military working dogs and handlers currently available for operational tasking by mission capability;
- (3) an assessment of the condition and capacity of military working dog facilities to support current and future requirements, to include the ability to provide adequate medical care as well as meet mission training requirements; and
- (4) an assessment of capability gaps and plans to mitigate these gaps, including programmed investments.

Modeling and Simulation for Training, Exercises, and Joint Planning

The committee recognizes that the defense modeling and simulation technological and industrial base, including in academia, industry, and government, is an important national security asset. The committee appreciates that the Department of Defense continues to use modeling and simulation technologies across the spectrum of defense activities, including for training, exercises, and joint planning activities. The committee encourages the military services and the combatant commanders to maximize the use of modeling and simulation, including in service, joint, and combined exercises; in joint planning for theater operations and contingencies that cannot be accurately planned for by other means; and in the development of options for senior leadership at the strategic level.

The committee believes it is important for Congress to have a clearer understanding of the benefits and impacts of the Department's use of modeling and simulation. Therefore, the committee directs the Secretary of Defense to provide a report to the House Committee on Armed Services not later than November 30, 2018 on the effects of integrating modeling and simulation into the review and development of operational plans, joint training and exercises, and high-priority security cooperation initiatives.

Modernization and Integration of Major Range and Test Facilities Bases

The committee notes a lack of consistent policy and standardized processes within the Department of Defense to guide the Director of Operational Test and Evaluation and the Director of Test Resource Management Center (TRMC) in scheduling systems utilized by shared military test and training ranges. The committee is concerned that lack of standardization fails to optimize these vital resources nor accommodate joint force utilization. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than January 23, 2019, on its plan to standardize major range and test facilities bases (MRTFB) scheduling. At a minimum, the briefing should:

- (1) identify processes to standardize and integrate current scheduling systems between the joint users of MRTFB ranges and facilities;
- (2) identify process that efficiently integrates next generation aircraft avionics, propulsion and weapons systems test and training;
- (3) optimizes use and capacity of training range land and airspace between competing needs; and,
- (4) provide recommendations on metrics and methods which will ensure each service has an equal opportunity to test and train on MRTFB.

Surface Fleet Live Fire Training

The committee recognizes the Navy's desire to increase fleet readiness training and exercise ship systems before deployment by including live-firing of missiles in pre-deployment training exercises. The committee also notes the Navy's Standard Missile-3 Block IA inventory is approaching the end of service life. Furthermore, the committee is aware that in lieu of demilitarization, the Navy intends to assess repurposing these missiles to conduct live-fire readiness training using shipboard ballistic missile defense systems. The committee encourages this initiative and directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services not later than November 5, 2018, on the Navy's progress in making SM-3 Block IA missiles approaching the end of their service life available for live-fire readiness training for ships and crews.

Universal Camouflage Inventory and Overdye Technology

The committee notes the Army's transition from Universal Camouflage Pattern (UCP) to Operational Camouflage Pattern (OCP) for soldier uniforms and personal equipment, even though the Army possesses a substantial inventory of now obsolete UCP products. The committee is also aware of Program Executive Office Soldier's efforts to evaluate overdye technologies and processes. This evaluation could validate processes that could alter UCP printed products into a color palette that blends with the new camouflage prints, allowing the Army to conserve resources by overdyeing UCP materials for use with OCP patterned equipment.

The committee directs the Secretary of the Army to provide a briefing to the House Committee on Armed Services not later than August 31, 2018, that includes any current efforts to repurpose and

field UCP personal equipment, any evaluations of overdyed technologies and processes, and a business case analysis of fielding these overdyed technologies and processes.

OTHER MATTERS

Air Refueling Capability and Capacity

The committee notes that air refueling capability is a critical component of logistical capacity and that the Air National Guard fulfills the majority of air refueling requirements. The committee notes that section 144 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) required the Secretary of Defense to carry out a mobility capability and requirements study that includes an assessment of the air refueling tanker aircraft military requirement. Upon completion of the study, the committee is interested in how the Air Force will support the requirements for force structure and strategic laydown of aircraft necessary to implement the study.

Therefore, the committee directs the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services, not later than March 1, 2019, on how the Air Force will support the requirements for aerial refueling. At a minimum, the briefing shall include:

- (1) the current and future laydown plans for air refueling locations;
- (2) an overview of air refueling operations per air refueling wing locations to include the number of sortie requests, the number of sorties fulfilled, and the locations or missions the sorties supported;
- (3) fully mission capable and aircraft availability rates for all air refueling wings over the past 5 years;
- (4) an assessment of how the Air National Guard force structure, across all States and territories, can be leveraged to support current and emerging air refueling requirements;
- (5) a description of the long-term plan to maintain adequate refueling capability to meet current and emerging requirements;
- (6) a review of manpower levels across the air refueling force, an identification of current and projected skill set gaps, and recommendations on how to address these gaps; and
- (7) an overview of how the Air Force will determine the disposition of KC–135 aircraft as they are replaced by arrival of KC–46 aircraft.

Disposition of Excess Military Ground Vehicles

The committee notes that the Defense Logistics Agency's Disposition Services is responsible for disposing of excess property received from the military services. Excess military property is screened for reutilization within the Department of Defense; transfer to other Federal agencies; donation to State and local governments, or other qualified organizations; or sale to the general public. As part of the screening process, Disposition Services must assess demilitarization (DEMIL) requirements for the excess property to prevent unauthorized use or the compromise of national security. For ground vehicles, such DEMIL requirements can range from the removal of certain parts and components to the full mutilation and scrapping

of the vehicle. The committee is aware of concerns that types of ground vehicles heretofore available for donation are now consigned to scrap.

Therefore, the committee directs the Under Secretary of Defense for Acquisition and Sustainment, in coordination with the Commander of the Defense Logistics Agency, to submit a report to the congressional defense committees by February 1, 2019, regarding the disposition of military ground vehicles.

The report should include classes and types of Department of Defense military ground vehicles eligible to be considered in the donation and sale program and explanation of the DEMIL codes used in the determination process. Additionally, the report should outline the DEMIL code determination process for ground vehicles, whether applicable policies were followed when ground vehicles previously made available to State and local governments or civilian military museums have instead been scrapped, and steps taken to reevaluate current policies and practices. Finally, the report should include measures taken by the Disposal Services program to improve transparency so that State and local governments or civilian military museums have appropriate access to ground vehicles.

Fluorine-Free Fire Fighting Foam

The committee is aware that the military departments are in the process of replacing legacy aqueous film forming foam (AFFF) with an AFFF that does not contain perfluorooctane sulfonate (PFOS) compounds. In addition, the committee is aware the Department of Defense has undertaken research and development efforts related to fluorine-free AFFF. The committee encourages the Department to accelerate such efforts, to the extent possible. Therefore, the committee directs the Assistant Secretary of Defense for Energy, Installations, and Environment to provide a briefing to the House Committee on Armed Services not later than March 1, 2019, on the progress made towards development and fielding of a fluorine-free AFFF that meets military requirements. At minimum, the briefing should summarize research and development initiatives on fluorine-free AFFF that have been funded by the Department of Defense to date, a summary of the current status and findings of such initiatives, and what additional research and development may be required prior to fielding a fluorine-free AFFF.

Improving Water Security and Efficiency on Installations

Efficient facilities are critical for the support, redeployment, and operation of military forces. While some installations have done great work to improve water efficiency, the Committee is concerned that the military may not be maximizing strategic use of water resources at all installations, and that this could be adding unnecessary costs that could be more effectively used elsewhere. Furthermore, water security is a vital component of installation readiness.

Therefore, the committee directs the Secretary of Defense to provide a report on innovative ways to reduce water use across installations in order to strengthen base readiness through improved water security, and to identify opportunities to replicate across installations some of the successful water-saving tactics already being deployed at some bases, such as planting more native species

and increasing use of gray water systems. The report shall be submitted to the House Committee on Armed Services, not later than March 1, 2019.

Joint Navy-Coast Guard Arctic Strategy

The Navy and the Coast Guard currently produce their own Arctic strategies. The Committee believes the absence of a joint strategy stands in contradiction to the Secretary of Defense's National Defense Strategy, calling for greater integration of a joint force and renewed attention on more traditional peer competitors, namely Russia and China. Therefore, the committee directs the Chief of Naval Operations and the Commandant of the Coast Guard to provide a briefing to the House Committee on Armed Services and the House Committee on Transportation and Infrastructure by September 30, 2018 that provides a framework for a joint strategy integrating all components of the Navy and Coast Guard Arctic mission sets and providing adequate vessel and aircraft resource allocation allowing for the United States to effectively advance security and commercial interests in the region. The briefing should take into consideration the Arctic's relevance in the Navy's configuration of a 355 vessel fleet and identify proper Navy and Coast Guard resource allocation to that effect.

Meeting Readiness Requirements Efficiently

The House Armed Services Committee is concerned that the number of mandatory training and administrative requirements for Service members of the Department of Defense, and the burden that they maintain a multitude of different accounts on different systems to accomplish an array of administrative and training mandatory requirements especially for Reserve Component Service members, impedes their ability to efficiently achieve worldwide deployment readiness. The Committee is aware that, for example, the U.S. Navy Reserve maintains no fewer than ten different computer systems that service members must regularly use.

The Director of Cost Assessment and Program Evaluation is directed to submit to the congressional defense committees a report by April 1, 2019, detailing the costs incurred by each military service to maintain each training and administrative personnel system, particularly computerized systems, and options to consolidate these systems to save taxpayer money, reduce the burden on military members, and promote readiness.

Motorcycle Safety Training

The committee is aware that each of the armed services conducts motorcycle safety training before allowing service members to operate a motorcycle on base. The committee applauds this training and encourages the Department of Defense to continue. The committee has learned that nine States, including several with large military installations, have imposed unique training requirements that go beyond those contained in the National Highway Traffic Safety Administration compliant curriculum. The committee has also learned that the Air Force and Coast Guard adjust their training to meet unique State requirements, while the Departments of the Army and Navy do not, forcing soldiers, sailors, and marines

to seek and pay for the added required training individually. The committee encourages the Secretaries of the Army and Navy to review the adequacy of motorcycle safety training in their respective military departments to ease the burden on soldiers, sailors, and marines.

Open-Air Disposal of Munitions and Mmunition Constituents

The committee remains concerned about the Department of Defense's continued reliance on open burning and open detonation for the demilitarization of excess, obsolete, or unserviceable munitions by its industrial depots rather than using alternative contained technologies. While the committee recognizes the Department may have a need to retain some open burning and open detonation capability for explosive safety reasons, the committee is aware of the Department's efforts to reduce its use of open burning and open detonation. Section 1421 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328) directed the Secretary of the Army to enter into an arrangement with the Board on Army Science and Technology of the National Academies of Sciences, Engineering, and Medicine to conduct a study of the conventional munitions demilitarization program of the Department of Defense. The intent of this study was to better understand the Department's current procedures, its rationale for using open burning and open detonation, and the status and suitability of alternative technologies in use or under development to reduce the Department's reliance on open burning and open detonation.

Therefore, the committee directs the Secretary of the Army to provide a briefing to the House Committee on Armed Services, not later than 90 days after the date on which the National Academy of Science releases its report, on the actions the Army intends to take in response to the National Academy of Science committee's recommendations.

Physical Security at U.S. Shipyards

The committee believes it is important to ensure the safety and security of personnel and Navy vessels undergoing maintenance in public and private shipyard facilities. While the security of the public shipyards is the responsibility of the Navy, the committee understands that private shipyards must meet specific requirements for physical security barriers, perimeter and waterfront access control, security forces, patrol craft, and other security measures while performing work on Navy vessels. The committee notes there are certain locations where private shipyards are near or adjacent to a Navy installation or to another shipyard performing work on Navy vessels. In such cases, each shipyard is required to individually meet the security requirements associated with a repair contract. The costs associated with these security requirements are ultimately passed back to the government through the cost of the repair contract. Therefore, the committee encourages the Secretary of the Navy to examine this issue and work with private shipyards to find opportunities to meet security requirements in a more collaborative and cost-effective way at shipyards that are near or adjacent to a Navy installation or another shipyard performing work on Navy vessels.

Quality of Life at Remote Sites

The committee notes that the Army and other military services operate several installations at isolated locations in the western United States. Some Army examples include Dugway Proving Ground, Utah; Hawthorne Army Depot, Nevada; and White Sands Missile Range, New Mexico. These remote locations are usually staffed with small populations, presenting financial solvency challenges for morale, welfare, and recreation (MWR) business activities of the Department of the Army. As a result, there are few MWR activities, shopping venues, or dining options on or near the installation to support the daily working population of military personnel, Federal civilian personnel, contract employees, and family members. The committee encourages the Secretary of the Army to review the quality of life support options for all those who work at such installations and develop a plan for improvement.

Regional Biosecurity Plan

The Secretary of Defense is directed to submit to the Committees on Armed Services of the Senate and the House of Representatives, at the same time as the President submits the budget for a fiscal year under section 1105(a) of title 31, United States Code, a report describing the activities of the Department of Defense during the preceding fiscal year to implement the Regional Biosecurity Plan for Micronesia and Hawaii, which is a strategic plan led by the Department of Defense in collaboration with other Federal and non-Federal entities to prevent and control the introduction of invasive species in the United States Pacific region. The Department of Defense's report shall also include next steps and planned activities of the Department for further implementation of the plan, including estimates of additional funding to be used or needed for such next steps and planned activities.

Review of Household Good Weight Allowances

The committee believes that service members should pursue intellectual development by reading thoughtful books related to the military profession. Indeed, the Chairman of the Joint Chiefs of Staff and each Service Chief maintains active professional reading lists to encourage military members to read as part of professional development. The committee further recognizes that a growing number of military families opt for home schooling as a means to provide stability to children's education. The committee notes that the current household good movement weight allowance for military professional gear is 2,000 pounds for military members and 500 pounds for dependent spouses. Professional gear includes a range of items including books, uniforms, and technical equipment. The committee understands that Joint Travel Regulation 051304 modified the allowable weight credit computation for professional gear and definition of professional gear. The committee is concerned that the household good professional gear weight allowance and allowable weight credit computation is insufficient to support increasingly educated workforce and military families who homeschool; therefore, the committee directs the Commander of U.S. Transportation Command in coordination with the military departments and the Defense Travel Management Office to provide

a briefing to the House Committee on Armed Services, not later than August 31, 2018, on the household goods weight allowances. This briefing shall include, at a minimum:

- (1) A summary of the most recent assessment of weight allowance requirements
- (2) Any changes to the household weight allowance for professional gear for the previous ten years
- (3) A review of complaints from service members on professional gear weight allowances and actions taken to address these concerns
- (4) Any recommended policy changes and actions.

Review of Mandatory Training Required by Law

The committee is encouraged by recent initiatives across the military services to review and reduce mandatory administrative training requirements. Such mandates consume time and resources of operational unit leaders and troops and should only be required when necessary to improve the readiness of the force. This issue is especially acute in the Reserve Components, with limited training days. The committee recognizes that such requirements are generated from within the Department of Defense as well as through legislative mandates and statutes. The committee intends to review current military training mandates that arise from statute for possible repeal and would welcome the views of the Secretary of Defense. To that end, the committee encourages the Secretary of Defense to provide a list of any legal mandates to conduct training to the House Committee on Armed Services, accompanied by his recommendation of any that should be repealed.

LEGISLATIVE PROVISIONS

SUBTITLE A—AUTHORIZATION OF APPROPRIATIONS

Section 301—Authorization of Appropriations

This section would authorize appropriations for operation and maintenance activities at the levels identified in section 4301 of division D of this Act.

SUBTITLE B—ENERGY AND ENVIRONMENT

Section 311—Inclusion of Consideration of Energy and Climate Resiliency Efforts in Master Plans for Major Military Installations

This section would amend section 2864 of title 10, United States Code, to require energy and climate resiliency efforts to be considered in installation master plans to ensure the ability to sustain mission-critical operations.

Section 312—Use of Proceeds from Sales of Electrical Energy Derived from Geothermal Resources for Projects at Military Installations Where Resources Are Located

This section would amend section 2916 of title 10, United States Code, to enable certain proceeds from the sale of electrical energy generated from a geothermal energy resource to be used for installation energy or water security projects at the military installation in which the geothermal energy resource is located.

Section 313—Extension of Authorized Periods of Permitted Incidental Takings of Marine Mammals in the Course of Specified Activities by Department of Defense

This section would amend section 1371 of title 16, United States Code, to extend the period the Secretary of Interior may authorize the incidental taking of marine mammals by the Department of Defense from 5 years to 10 years if the Secretary finds that such takings will have a negligible impact on any marine mammal species.

Section 314—State Management and Conservation of Species

This section would prohibit listing of the Greater Sage-Grouse and the Lesser Prairie-Chicken under the Endangered Species Act for a 10-year period. This section would also provide that the previous such listing of the American Burying Beetle may not be enforced or reinstated.

SUBTITLE C—LOGISTICS AND SUSTAINMENT

Section 321—Examination of Naval Vessels

This section would amend section 7304 of title 10, United States Code, to provide that examinations of naval vessels performed under the authority of that section after October 1, 2019, shall be conducted on a no notice basis. This section would also provide that reports detailing the results of such inspections be unclassified and available to the public.

Section 322—Overhaul and Repair of Naval Vessels in Foreign Shipyards

This section would amend section 7310 of title 10, United States Code, to require naval vessels that do not have a homeport be treated as being homeported in the United States or Guam with regard to repair and maintenance of those vessels. Additionally, this section would define the term voyage repair.

Section 323—Limitation on Length of Overseas Forward Deployment of Naval Vessels

This section would add a new section to chapter 633 of title 10, United States Code, that would require the Secretary of the Navy to limit the time a naval vessel is forward deployed overseas to 10 years. This section would permit the Secretary to waive the 10-year requirement for individual naval vessels with notification to the congressional defense committees. This section would further provide that all currently forward deployed naval ships which have exceeded 10 years of service overseas shall have 3 years to return to a U.S. homeport. Finally, this section would require the Secretary to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives on his rotation plan for forward deployed naval ships.

Section 324—Temporary Modification of Workload Carryover Formula

This section would require the Secretary of Defense to modify the workload carryover calculation formula for each military department depot or arsenal through September 30, 2021. These modifications would reflect the timing of enacted appropriations and the varying repair cycle times of the workload supported, and apply in addition to current Department of Defense carryover exemptions.

Section 325—Limitation on Use of Funds for Implementation of Elements of Master Plan for Redevelopment of Former Ship Repair Facility in Guam

This section would provide that none of the funds authorized to be appropriated by this Act, or otherwise made available for fiscal year 2019 for the Navy, may be obligated or expended for any construction, alteration, repair, or development of the real property consisting of the Former Ship Repair Facility in Guam unless such project directly supports depot-level ship maintenance capabilities, to include the mooring of a floating dry dock.

Section 326—Business Case Analysis for Proposed Relocation of J85 Engine Regional Repair Center

This section would require the Secretary of the Air Force to prepare a business case analysis for the proposed relocation of the J85 Engine Regional Repair Center. This section would also withhold funding for the proposed relocation until 150 days after the Secretary of the Air Force has provided the Committees on Armed Services of the Senate and the House of Representatives a briefing on the business case analysis.

Section 327—Army Advanced and Additive Manufacturing Center of Excellence

This section would require the Secretary of the Army to establish a Center of Excellence on Advanced and Additive Manufacturing at an arsenal and authorize use of public-private partnerships and other transactional activity to facilitate the development of advanced and additive manufacturing techniques in support of Army industrial facilities.

SUBTITLE D—REPORTS

Section 331—Matters for Inclusion in Quarterly Reports on Personnel and Unit Readiness

This section would amend section 482 of title 10, United States Code, to require the Secretary of Defense and each military service to report appropriate readiness metrics for cyber and space operations in the existing periodic reporting requirement. This section would further amend section 482 to require combatant commanders to assess their readiness to conduct operations in a multidomain battle, integrating ground, air, sea, space, and cyber forces.

Section 332—Annual Comptroller General Reviews of Readiness of Armed Forces to Conduct Full Spectrum Operations

This section would require the Comptroller General of the United States to assess the readiness of the Armed Forces in the warfighting domains of ground, sea, air, space, and cyber annually through 2022. The assessment would be based on metrics established by the Secretary of Defense and validated by the Comptroller General, to allow the committee to assess readiness status over time. While the Comptroller General may submit classified reports, unclassified versions of the reports should also be provided.

The committee understands that military readiness is a result of a commander's skillful integration of available military personnel, equipment, supplies, and individual and collective training opportunities. The committee recognizes that readiness has suffered in all military services in recent years, driven by the erosive effects of the Budget Control Act and the unceasing demand for forces in various theaters of operation. The committee believes that the military services should demonstrate measurable readiness recovery with the additional appropriations made in fiscal year 2017, the additional appropriations made available in fiscal year 2018, as well as funding authorized for fiscal year 2019 in this Act.

Section 333—Surface Warfare Training Improvement

This section would express the sense of Congress that the Secretary of the Navy should establish an assessment process for surface warfare officers prior to operational tour assignments and that the Secretary should expand the International Convention on Standards of Training, Certification and Watchkeeping (STCW) qualification process for surface warfare officers and enlisted navigation watch team personnel to improve seamanship and navigation aboard Navy vessels. Further, this section would require the Secretary of the Navy to provide a report on surface warfare officer credentialing, training, and assessment to the congressional defense committees not later than March 1, 2019.

Section 334—Report on Optimizing Surface Navy Vessel Inspections and Crew Certifications

This section would require the Secretary of the Navy to provide a report on optimizing surface navy vessel inspections and crew certifications to reduce redundancies and the burden of inspection type visits that ships undergo. Further, this section would require the Secretary of the Navy to provide an interim briefing to the Committees on Armed Services of the Senate and the House of Representatives not later than January 31, 2019, on matters to be included in the required report.

The committee notes that following the collisions involving U.S. Navy ships in the western Pacific, the Navy conducted a comprehensive review of recent surface force incidents. The committee also notes that the Navy's "Comprehensive Review of Recent Surface Force Incidents" identified an overabundance of inspections, certifications, and that "ships can be subjected to as many as 238 separate inspection, certification, and assist visits in a 36 month period." The Navy's "Strategic Readiness Review" of these incidents further identified that there "has been a dramatic increase in the

operating tempo of individual ships, and accompanying reductions in the time available to perform maintenance, training, and readiness certification.” The “Strategic Readiness Review” went on to note that “sufficient time for training crews and maintaining ships is critical for restoring and monitoring readiness.”

Given the continued operational demand on the fleet, the committee believes that the Navy should reduce the burden of inspection type visits that ships undergo.

SUBTITLE E—OTHER MATTERS

Section 341—Coast Guard Representation on Explosive Safety Board

This section would amend section 172 of title 10, United States Code, to provide that an officer of the Coast Guard serve as a voting member of the explosive safety board.

Section 342—Shiloh National Military Park Boundary Adjustment and Parker’s Crossroads Battlefield Designation

This section would modify the boundary of the Shiloh National Military Park located in Tennessee and Mississippi, to establish Parker’s Crossroads Battlefield as an affiliated area of the National Park System.

Section 343—Sense of Congress Regarding Critical Minerals

This section would express the sense of Congress that aggregates, copper, molybendum, gold, zinc, nickel, lead, silver, and certain fertilizer compounds should be added to the “critical minerals list” ordered by Executive Order 13817.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

LEGISLATIVE PROVISIONS

SUBTITLE A—ACTIVE FORCES

Section 401—End Strengths for Active Forces

This section would authorize the following end strengths for Active Duty personnel of the Armed Forces as of September 30, 2019:

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|-----------------|--------------------|---------|--------------------------|-----------------|--------------------|
| | | Request | Committee Recommendation | FY 2019 Request | FY 2018 Authorized |
| Army | 483,500 | 487,500 | 487,500 | 0 | 4,000 |
| Navy | 327,900 | 335,400 | 335,400 | 0 | 7,500 |
| USMC | 186,000 | 186,100 | 186,100 | 0 | 100 |
| Air Force | 325,100 | 329,100 | 329,100 | 0 | 4,000 |

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|-----------------|-----------------------|-----------|-----------------------------|--------------------|-----------------------|
| | | Request | Committee Recommendation | FY 2019 Request | FY 2018 Authorized |
| DOD Total | 1,322,500 | 1,338,100 | 1,338,100 | 0 | 15,600 |

Section 402—Revisions in Permanent Active Duty End Strength Minimum Levels

This section would establish new minimum Active Duty end strengths for the Army, Navy, Marine Corps, and Air Force as of September 30, 2019. The committee recommends 487,500 as the minimum Active Duty end strength for the Army, 335,400 as the minimum Active Duty end strength for the Navy, 186,100 as the minimum Active Duty end strength for the Marine Corps, and 329,100 as the minimum Active Duty end strength for the Air Force.

SUBTITLE B—RESERVE FORCES

Section 411—End Strengths for Selected Reserve

This section would authorize the following end strengths for Selected Reserve personnel, including the end strength for Reserves on Active Duty in support of the Reserves, as of September 30, 2019:

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|----------------------------|-----------------------|---------|-----------------------------|--------------------|-----------------------|
| | | Request | Committee Recommendation | FY 2019 Request | FY 2018 Authorized |
| Army National Guard | 343,500 | 343,500 | 343,500 | 0 | 0 |
| Army Reserve | 199,500 | 199,500 | 199,500 | 0 | 0 |
| Navy Reserve | 59,000 | 59,100 | 59,100 | 0 | 100 |
| Marine Corps Reserve | 38,500 | 38,500 | 38,500 | 0 | 0 |
| Air National Guard | 106,600 | 107,100 | 107,100 | 0 | 500 |
| Air Force Reserve | 69,800 | 70,000 | 70,000 | 0 | 200 |
| DOD Total | 816,900 | 817,700 | 817,700 | 0 | 800 |
| Coast Guard Reserve | 7,000 | 7,000 | 7,000 | 0 | 0 |

Section 412—End Strengths for Reserves on Active Duty in Support of the Reserves

This section would authorize the following end strengths for Reserves on Active Duty in support of the Reserves as of September 30, 2019:

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|---------------------------|-----------------------|---------|-----------------------------|--------------------|-----------------------|
| | | Request | Committee Recommendation | FY 2019 Request | FY 2018 Authorized |
| Army National Guard | 30,155 | 30,595 | 30,595 | 0 | 440 |

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|----------------------------|-----------------------|---------------|----------------------------------|--------------------|-----------------------|
| | | Request | Committee Recom- mendation | FY 2019 Request | FY 2018 Authorized |
| Army Reserve | 16,261 | 16,386 | 16,386 | 0 | 125 |
| Navy Reserve | 10,101 | 10,110 | 10,110 | 0 | 9 |
| Marine Corps Reserve | 2,261 | 2,261 | 2,261 | 0 | 0 |
| Air National Guard | 16,260 | 19,861 | 19,861 | 0 | 3,601 |
| Air Force Reserve | 3,588 | 3,849 | 3,849 | 0 | 261 |
| DOD Total | 78,626 | 83,062 | 83,062 | 0 | 4,436 |

Section 413—End Strengths for Military Technicians (Dual Status)

This section would authorize the following end strengths for military technicians (dual status) as of September 30, 2019:

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|---------------------------|-----------------------|---------------|----------------------------------|--------------------|-----------------------|
| | | Request | Committee Recom- mendation | FY 2019 Request | FY 2018 Authorized |
| Army National Guard | 22,294 | 22,294 | 22,294 | 0 | 0 |
| Army Reserve | 6,492 | 7,495 | 6,492 | -1,003 | 0 |
| Air National Guard | 19,135 | 18,969 | 18,969 | 0 | -166 |
| Air Force Reserve | 8,880 | 9,908 | 8,880 | -1,028 | 0 |
| DOD Total | 56,801 | 58,666 | 56,635 | -2,031 | -166 |

Section 414—Maximum Number of Reserve Personnel Authorized To Be on Active Duty for Operational Support

This section would authorize, as required by section 115(b) of title 10, United States Code, the maximum number of Reserve Component personnel who may be on Active Duty or full-time National Guard duty during fiscal year 2019 to provide operational support. The personnel authorized here do not count against the end strengths authorized by section 401 or section 412 of this Act unless the duration on Active Duty exceeds the limitations in section 115(b)(2) of title 10, United States Code.

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|----------------------------|-----------------------|---------|----------------------------------|--------------------|-----------------------|
| | | Request | Committee Recom- mendation | FY 2019 Request | FY 2018 Authorized |
| Army National Guard | 17,000 | 17,000 | 17,000 | 0 | 0 |
| Army Reserve | 13,000 | 13,000 | 13,000 | 0 | 0 |
| Navy Reserve | 6,200 | 6,200 | 6,200 | 0 | 0 |
| Marine Corps Reserve | 3,000 | 3,000 | 3,000 | 0 | 0 |
| Air National Guard | 16,000 | 16,000 | 16,000 | 0 | 0 |
| Air Force Reserve | 14,000 | 14,000 | 14,000 | 0 | 0 |

| Service | FY 2018 Authorized | FY 2019 | | Change from | |
|-----------------|-----------------------|---------|----------------------------------|--------------------|-----------------------|
| | | Request | Committee Recom- mendation | FY 2019 Request | FY 2018 Authorized |
| DOD Total | 69,200 | 69,200 | 69,200 | 0 | 0 |

SUBTITLE C—AUTHORIZATION OF APPROPRIATIONS

Section 421—Military Personnel

This section would authorize appropriations for military personnel at the levels identified in the funding table in section 4401 of division D of this Act.

TITLE V—MILITARY PERSONNEL POLICY

ITEMS OF SPECIAL INTEREST

Active Military Service of the Korean Constabulary

The Committee acknowledges the service and sacrifice of the officers and men of the Korean Constabulary formed under the operational command of the United States Military Government in Korea following the end of the Second World War. Organized, trained, equipped, and led by the United States Army, the Korean Constabulary performed vital security missions on behalf of the United States in the interwar period and played a crucial role in the formation and defense of the Republic of Korea. Repeatedly called to defend their homeland against attacks and insurrection by Communist forces allied with the Korean People’s Army and supported by the Soviet Union, the men of the Korean Constabulary fought with distinction in some of the earliest battles of the Cold War.

The Committee therefore requests the Secretary of Defense to review the eligibility of the officers and men of the Korean Constabulary for active military service from November 1945 to January 1949 under the provisions of Section 401 of Public Law 95–202, and report his findings to the House Armed Services Committee by March 1, 2019.

Best Practices for Prevention and Response to Sexual Assault

The committee commends the Department for its efforts to continuously improve methods to prevent and respond to sexual assault. The committee further commends the Air Force’s efforts to utilize evidenced based bystander intervention training previously shown to prevent and reduce power-based personal violence based on the premise that sexual violence can be measurably and systematically reduced within a community. The Air Force was additionally able to consolidate some of the required and annual briefings and shorten the amount of time they spent on training by focusing on quality over quantity. The committee directs the Department to report to the House Armed Services Committee no later than December 1, 2018 on current use of best practices for prevention and response to sexual assault; update on current research informed evaluation outcome criteria, and the feasibility of developing, and

offering high quality, standardized, research informed best practices for training and response that are shown to prevent sexual assaults across the services.

Briefing on Commissioning Production of Senior Reserve Officer Training Corps

The committee is concerned about the number of Senior Reserve Officer Training Corps (ROTC) units that are not meeting established commissioning production requirements for each of the services. Therefore, the committee directs the Secretary of Defense, in coordination with the Secretaries of the military services, to provide a briefing to the House Committee on Armed Services not later than April 1, 2019, on the performance of the Senior Reserve Officer Training Corps. Such briefing shall describe each of the following:

- (1) annual production requirement and production attainment for each ROTC host unit, to include a breakdown of demographics;
- (2) listing of units that have not met the standards set forth in Department of Defense Instruction 1215.08, for the past 5 years;
- (3) listing of the units that did not meet the standard in the past 5 years that are now compliant; and
- (4) list of units each service intends to disestablish or reduce in scope, but is not authorized to do so.

Briefing on Credentialing Programs

The Committee is supportive of policies which allow servicemembers to attain civilian credentials while on active duty. These programs ensure that servicemembers possess the necessary knowledge, skills, and abilities to perform their duties, and offer servicemembers the chance of better civilian employment upon separation from the military.

However, not all credentialing programs are created equal, and the Department has acknowledged that few oversight mechanisms exist to protect servicemembers from aggressive marketing of credentialing programs of dubious rigor. The committee encourages the Department to work with partners in academia and industry to develop a tool that servicemembers could use to evaluate the quality of a credential based on its desirability in the civilian workforce.

In addition, the Committee is also aware that the Department does not have conclusive evidence that possessing civilian credentials help servicemembers find post-separation employment. Therefore, the Committee directs the Department to brief the House Committee on Armed Services no later than February 1, 2019 on collaborative efforts to develop quality standards for credentialing and licensure programs and a review of academic literature on the impact on employability of attaining a credential.

Briefing on Department of Defense Inspector General Processing Times

The committee is concerned about the steady increase in processing times for Department of Defense Inspector General investigations into whistleblower reprisal and senior leader misconduct complaints. While the Department has conducted past studies into

how best to reduce these processing times, and implemented efficiency measures, the problem persists.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than July 1, 2019, regarding steps the Department will take to reduce whistleblower reprisal and senior leader misconduct investigation processing times. The briefing shall include:

- (1) a general timeline for a typical whistleblower reprisal and senior leader misconduct investigation, including identification of phases of the investigation that often require substantial time;
- (2) whether changes to law or policy would improve the efficiency of these investigations; and
- (3) whether additional funding, manning, or other resources would improve processing times.

Comptroller General Report on Active Duty Female Retention

The committee commends the Secretary of Defense for the briefing on Female Propensity to serve in the Armed Forces as requested in the House Report 115–200. Inclusive and growth-oriented recruiting must also ensure that the best and brightest females are not only recruited but that they are retained in the Armed Forces once presented with career options. Building on Female Propensity to serve in the Armed Forces, the committee recommends the Department expand their examination of female retention to include retention. An analysis conducted for the Defense Advisory Committee on Women in the Services finds that more women than men leave the military at various career points. Concerns persist that this attrition will result in a disproportionate impact to mission readiness if left unresolved. From an economic standpoint, when female employees leave, organizations must deal with higher recruiting costs, longer training times, and lower productivity. Therefore, not later December 1, 2018 the committee directs Comptroller General to submit a report containing the following components: (1) updated rates of promotion and attrition rates for women compared to other groups; (2) the reason for any differences in promotion and attrition; (3) recommendations to improve promotion and retention; (4) data and analysis to assist the committee in determining whether there are disparities in promotion and attrition rates; and (5) any other matters the commission believes are relevant to this issue.

Deconflicting Reserve Component and Expeditionary Civilian Deployments to Provide Adequate Dwell Time

The committee notes that according to DoDI 1235.12, Accessing the Reserve Components, issued June 7, 2016, “The RC provides an operational capability and strategic depth in support of the national defense strategy,” and further that if the mobilization-to-dwell ratio for a unit or a member of the RC is less than 1 to 4, Secretary of Defense approval is required. In addition, the Department of Defense has an expeditionary workforce that includes defense civilian personnel who also deploy in support of contingency operations and may also be members of the Reserve Components. The committee is concerned that if the Reserve Components order a member to active duty who is employed as a defense civilian, the

defense agency or military department may not count the member's previous recent deployment as an RC member when calculating the mobilization-to-dwell ratio. This lack of awareness by the Reserve Components of a civilian employee's deployment, or alternatively by the military departments or defense agencies about a Reserve Component member's expeditionary civilian deployment may lead to a lack of sufficient dwell time, with an impact on civilian personnel or RC retention.

Therefore, in order to determine the scope of the problem of deconflicting Reserve Component and expeditionary civilian deployments for the purpose of providing adequate dwell time, the Secretary of Defense is directed to provide a report to the congressional defense committees by Feb. 15, 2019, as to whether the Reserve Components or the defense agencies and military departments have mechanisms in place to track and account for deployments of defense civilians who are also Reservists; to establish to scale of this problem; and to make recommendations to the committee for procedures to make it possible for the Reserve Components, and the defense agencies and military departments, to fully account for the service of civilian employees in contingency operations, whether in the RC or as expeditionary civilians.

Federal Wildland Firefighting Education in the Transition Assistance Program (TAP)

The Committee continues to look for ways to strengthen the Transition Assistance Program (TAP) program to match opportunities in the federal workforce with the unique skillset of transitioning service members. The Committee acknowledges that skills honed during military service including logistics, risk mitigation, emergency medicine and response, team communications, equipment maintenance, resource accountability, and leadership in support of mission are directly transferrable to wildland firefighting. While the committee is aware that the Department of Defense, DHS, and DOL collaborate with other agencies to include information and education about civil service opportunities in the federal workforce, the committee believes transitioning service members would benefit from bolstered TAP program education on wildland firefighting careers at agencies including the Bureau of Land Management and the U.S. Forest Service. In addition, the Committee encourages DOD to pursue strategic partnerships and collaborations with non-profit organizations that connect veterans with volunteer disaster relief opportunities as part of TAP. The Committee notes precedent for collaboration with agencies including USDA that provide education on career pathways in agriculture and seeks to build on similar successful models of inter-agency partnerships to meet the nation's workforce needs.

Therefore, the Committee directs the Secretary of Defense to brief the House Committee on Armed Services no later than December 31, 2018 on current and potential interagency efforts in the TAP program related to wildland firefighting career pathways and opportunities in the federal government.

Foreign Area Officer Personnel Training and Career Management

The committee notes that the Department of Defense and the military services have developed a corps of foreign area officers and regional affairs strategists and implemented personnel policies to improve their education and training requirements. The National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) required the Secretary to oversee the development and management of a professional workforce supporting security cooperation programs and activities of the Department. The committee is concerned with the implementation of this requirement as well as the services' career management of these officers.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by December 15, 2018, on the implementation of the Security Cooperation Workforce Development Program (SCWDP) required by section 384 of title 10, United States Code, and the service career management plan for foreign area officers. Elements of the briefing shall include:

(1) how the Department of Defense SCWDP relates to the foreign area officer programs of the services;

(2) how the foreign area officer programs of the services will benefit from the Department of Defense SCWDP;

(3) how the Secretary of each military department is adapting their foreign area officer program to the National Security Strategy and National Defense Strategy;

(4) what developmental opportunities the Secretary concerned provides for foreign area officers at each grade to prepare them for positions of greater responsibility;

(5) how the Secretary concerned provides promotion opportunities for foreign area officers to serve through General/Flag Officer ranks, and how these compare to other promotion opportunities and rates across the services;

(6) ways that the Secretary has coordinated efforts throughout the joint force to achieve the synergies of best practices across the security cooperation enterprise;

(7) the steps each service is taking to incorporate the elements required under the scope of the final guidance of the SCWDP, as required under section 384(e)(3) of title 10, United States Code, into the career management of foreign area officers, and the relevant challenges; and

(8) the steps the Department is taking to evaluate disparate training provided by services and Defense Intelligence Agency, and whether elements of such training should be provided to all Department of Defense personnel posted to embassies overseas.

Foster and Adoptive Military Families

The committee is aware that military families face unique challenges as adoptive and foster families, including, but not limited to, varying jurisdictional standards and support services between states and countries. The committee also notes that it is critical to the well-being of the child that all adoptions are permanent, and that additional information is needed to promote successful adoptions for military families.

Therefore, the committee directs the Secretary of Defense to provide a report to the House Armed Services Committee not later than 1 March 2019, describing the barriers and challenges faced by military families to fostering or adopting. The report should include, if applicable, jurisdictional differences between states and between countries; access to information; pre-placement training; and post-placement support services; and causes and/or risks for disruptions or dissolutions of military family adoptions. The report should also include what pre- and post-placement support services are currently available for military families fostering and adopting; the feasibility of establishing additional necessary support services; and recommendations for implementing additional pre- and post-placement services. The report should also include any recommendations from the Secretary to address any barriers and challenges faced by military families to fostering and adopting.

Implicit Bias Training

The Committee commends the Marine Corps for recognizing the importance of implicit bias and incorporating unconscious bias training when preparing for women joining combat units. Unconscious biases, sometimes called implicit biases, are a set of automatic preferences so ingrained in people's brains that they often do not realize they have them. Implicit or unconscious bias disproportionately impacts racial/ethnic minorities and women. Comprehensive bias training is research informed and addresses implicit/unconscious biases. The Marine Corps, civilian educational institutions, and the technology and business private sectors have addressed this by including both implicit and explicit bias training. Therefore, the committee encourages the Secretary of Defense to study the feasibility of expanding its current training to include research-informed training addressing implicit bias.

Incorporating Consideration of Advanced Technologies into Professional Military Education

The Committee understands that a return to great power competition represents a key security challenge for the United States in the evolving global threat environment. The rapid development of new technologies in fields including anti-access and area denial weapons, cyber-warfare and electronic warfare, information systems, and other asymmetric fields threatens the U.S. military's historical overwhelming advantage in conventional warfare. Furthermore, the Committee is aware that these technologies are increasingly commercial and therefore available to both state and non-state actors.

The Committee notes that, with this threat in mind, the Department of Defense is investing heavily in technology to enable continued American military supremacy in an environment characterized by "rapid technological advancements and the changing character of war," per the National Defense Strategy (NDS). The Committee is also aware that these areas for investment include advanced computing, "big data" analytics, artificial intelligence, autonomy, robotics, directed energy, hypersonics, and biotechnology.

The Committee notes that effective implementation of the NDS require not just research, development and fielding of these ad-

vanced technologies, but also the integration of these technologies into tactical, operational and strategic thought, planning, and training. The Committee is also aware that experimentation and exploration of these technologies is currently occurring in proof of concept programs, exercises, and in operational deployments.

The Committee believes, however, that fully integrating advanced technologies into military strategy, operations, and tactics requires a comprehensive approach to considering the impact of these technologies at all levels of decision-making. The Committee is aware of the key role professional military education (PME) programs play in educating military leadership and providing them the conceptual framework for decision-making. The Committee commends the efforts of the Department of Defense to align functions to support the goals of the NDS and look for ways to improve lethality. However, it is unclear how decision making under this new strategy is being included in PME education materials.

The Committee therefore directs the Secretary of Defense to brief the House Committee on Armed Services on potential ways in which the Department of Defense can appropriately integrate consideration of next generation technologies into professional military education programs for military officers and enlisted personnel. This brief should include consideration of the appropriate PME schools, institutions or levels; address the feasibility of expanding civilian enrollment at PME institutions in order to expose military leaders to relevant commercial technology leaders; determine the extent to which these technological developments may require changes to existing warfighting doctrine or operational plans; and identify any relevant opportunities for improvement to the service-level or joint PME programs, as well as any other topics the Secretary deems appropriate, and should be delivered to the Committee by December 1, 2018.

Interagency Recruitment Cooperation Efforts

The committee notes that the current and future recruiting environment for military service is and will continue to be difficult with a population that has a lower propensity to serve, a recruit pool that is less qualified, and an economy that is robust. In this environment, the competition for this small pool of recruits will be fierce within the Department of Defense between the services, as well as with other Government agencies. Cooperation between Government agencies with regard to recruits will be critical going forward, especially those recruits with a propensity to serve but who might not be physically qualified for one service or the other.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by February 1, 2019, on interagency cooperation with regard to recruiting for military and other Government agency service. Elements of the briefing shall include the following:

- (1) an assessment by the Secretary of the value of cross-Government agency recruitment and how that would affect Department of Defense recruitment efforts;
- (2) what policies the Secretary could put in place in cooperation with other agencies to assist with future recruitment needs;

(3) what current coordination is being conducted with other agencies to assist when recruiting for the Department of Defense or other agencies; and

(4) what recommendations the Secretary would make on inter-agency recruiting cooperation.

Joint Professional Military Education and Professional Military Education Curricula

The committee believes that quality Professional Military Education (PME) and Joint Professional Military Education (JPME) are integral to developing tomorrow's strategic leaders. The military services provide PME at their respective staff and war colleges in order to educate service members in their core competencies according to service needs. The JPME program places emphasis on preparing leaders to conduct operations as a joint force in complex operating environments. Currently, JPME is provided at multiple sites across the country, including the services' staff and war colleges and the National Defense University.

The committee remains concerned that the quality and effectiveness of the faculty and curricula at JPME and PME institutions, particularly senior-service colleges, can vary based on service tradition, school location, and faculty. In addition, the committee is concerned that certain important subject areas may be excluded from the curricula because of time constraints.

The committee supports the ongoing efforts of the Chairman of the Joint Chiefs of Staff and the Secretaries of the Military Departments to evaluate and improve the quality of the education provided at JPME and PME institutions. As a part of this evaluation, the committee encourages the Chairman of the Joint Chiefs of Staff and the Secretaries of the Military Departments to consider whether JPME and PME curricula include exposure to whole-of-government education, including enrolling students from other Federal departments and agencies, hiring faculty from other Federal departments and agencies, and providing courses and programs designed to reinforce the importance of whole of government.

Military Academy Preparatory School Class Enrollment

The committee notes that the mission of the military academies' preparatory schools is to motivate, prepare, and evaluate selected candidates in an academic, military, moral, and physical environment in order to perform successfully at the military academy. The preparatory school achieves this mission by qualifying cadet candidates for academy appointments, and developing in those students a sense of accomplishment and self-confidence that enables them to succeed in a military academy's demanding environment. Admission to a preparatory school is competitive, with selections made by selection boards. The boards select both enlisted Active Duty and civilian applicants who have applied for admission to an academy, but were not selected for direct entry.

The committee is concerned that the average military academy preparatory school class consists of only approximately 25 percent prior-enlisted service members. The committee believes that this percentage is extremely low, and that the services should focus their outreach efforts for attendance to the preparatory schools on

the qualified enlisted force who has already exhibited propensity to serve.

Therefore, the committee directs the Secretaries of the Air Force, the Army and the Navy to develop individual service plans with the goal of increasing the enrollment of enlisted service members at each of the Service Academy Preparatory Schools. The Secretaries concerned shall also provide briefings to the Committee on Armed Services of the House of Representatives by February 1, 2019, on the new outreach plan and their recommendations for increased enlisted member enrollment.

Report on Certain Victims' Rights in Connection with Prosecution of Sex-Related Offenses

The committee is concerned about the implementation of section 534 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291), which enhances victims' rights in connection with the prosecution of certain sex-related offenses. Specifically, the committee is interested in how the Department of Defense has implemented the requirement that victims be consulted in order to solicit their preference whether the covered offenses should be prosecuted by court-martial or in a civilian court with jurisdiction over the offense. The committee notes that the annual Department of Defense Sexual Assault Prevention and Response Office report contains statistics on the number of cases prosecuted in civilian courts, but it is not evident from this data whether these civilian prosecutions were in accordance with the wishes of the victim or simply the only option for prosecution of the offenses.

Therefore, the committee directs the Department of Defense Inspector General to submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than April 1, 2019, on the results of a review of the Department of Defense and military departments' processes for consulting victims in cases in which section 534 applies. The report shall include a description of who is responsible for consulting with the victim to determine the preference for prosecution; an analysis of whether the military services are complying with the notification requirement; the method used to record the victim's preference and convey the information to the relevant authorities; and an analysis of whether the policy is applied consistently across the military services.

Report on Legal Training for Commanders

The committee understands that U.S. military commanders are entrusted with a wide range of responsibilities that are necessary to carry out their designated missions. Many of these responsibilities involve interpretation of and compliance with legal requirements. While the committee understands that judge advocates and other legal professionals advise the commanders on many of these subjects, the committee is interested in the full extent and substance of the legal training that commanders receive on the legal authorities with which they have been entrusted.

Therefore, the committee directs the Comptroller General of the United States to submit a report to the Committees on Armed

Services of the Senate and the House of Representatives not later than September 1, 2019, on the following questions:

(1) What legal training do officers receive throughout their careers? Who is responsible for this training, and who certifies satisfactory completion?

(2) What legal and ethics training do commanders receive prior to taking command? At what level of command are officers required to attend this training? What issues are covered during this training, and is the training tailored to the type of command the officer is assigned to?

(3) To what extent and what type of training do commanders receive regarding the following topics: military justice; contract and fiscal law; administrative law; and international and operational law?

(4) To what extent are the military services complying with their legal training requirements for new commanders?

(5) What resources are available to commanders to assist them in carrying out their legal responsibilities?

(6) What procedures are in place to receive feedback on the quality and relevance of the legal training provided to commanders? Is that feedback incorporated into periodic curriculum reviews?

Report on Processes for Federal Recognition of Promotion of Commissioned National Guard Officers

The committee is concerned that delays in federal recognition of National Guard promotions may be increasing and that these lengthy delays result in National Guard officers being deployed and doing the work of the rank to which they are being promoted while receiving the pay of their current rank. The committee notes that such delays deprive National Guard members of the pay to which they are entitled, reduce their time in rank, and may pose retention problems by giving National Guard members an incentive to leave military service.

Therefore the committee directs the Secretary of the Army and the Secretary of the Air Force to each undertake a comprehensive review of the policies and procedures of the Department of the Army and the Department Air Force, as applicable, for the Federal recognition of promotions of commissioned officers of the Army National Guard and the Air National Guard, as the case may be, and to report the results of this review to the congressional defense committees by December 1, 2018. The report shall:

(1) describe the average time between receipt by the military department concerned of scrolls (as defined in Department of Defense Instruction 1310.02) indicating the promotion of commissioned officers in the National Guard and their publication during the five-year period ending on the date of the House passage of the National Defense Authorization Act for Fiscal Year 2019;

(2) describe and assess various approaches for streamlining the process by which the military department concerned approves Federal recognition scrolls, including through—

(A) additional automation;

(B) reduction in required steps; or

(C) delegation of authority to conduct required reviews; and

(3) make recommendations for legislative or administration action to implement an approach under paragraph (2) if the Sec-

retary concerned considers such approach feasible, advisable, and appropriate.

U.S. Air Force Pilot Staff Requirements Validation

The committee remains concerned that the Air Force is having difficulty addressing a persistent pilot shortage. Pilots are vital to the readiness of the Air Force and these shortages may hamper its ability to carry out the 2018 National Defense Strategy, especially as it relates to retention and recruitment within the fighter pilot community. The committee notes that the Air Force provided written testimony to the committee on March 21, 2018, stating that the Air Force has a shortage of 1,812 pilots across all mission areas, with the most acute shortage being fighter pilots. The Air Force admits it is taking risk by under-filling its required pilot and rated staff officer billets. However, the committee is concerned about the current requirement for pilots in staff billets and the fact that the requirements for pilot skills in these positions have not been validated, nor the requirements reviewed, in many years. An assessment of this sort could result in a change in the overall number of required pilots on the staff.

Therefore, the committee directs the Secretary of the Air Force to evaluate and validate every pilot or rated officer required staff billet across the Air Force and joint community enterprise, and to address the recommendations of the Comptroller General “Report on Military Personnel: DOD Needs to Reevaluate Fighter Pilot Workforce Requirements,” (GAO-18-113), and to provide a report to the Committee on Armed Services of the House of Representatives not later than December 7, 2018, on the methodology and the results of the evaluation and validation as well as the implementation of the recommendations of the GAO Report.

U.S. Special Operations Command Preservation of the Force and Families Program Contract Support

The committee recognizes that U.S. special operations forces (SOF) and their families are under unique and continued stresses, including psychological, social, spiritual, and human performance strains. The committee commends the success of the Preservation of the Force and Family (POTFF) program. It has helped to alleviate the magnitude of these stresses and break the stigma of seeking necessary help. It has also decreased rehabilitation time following physical injuries.

The committee understands U.S. Special Operations Command (SOCOM) and component commands have engaged in dialogue with the military services on scaling portions of the program to the broader force. The committee supports this dialogue and encourages the transition by SOCOM of resources and management for aspects of POTFF that are scaled to the military services, as well as a continual assessment of what remain as SOF-specific needs.

However, with POTFF’s contract due to expire this fiscal year, the committee is concerned by the request for proposal submitted by SOCOM. It once again indicates a domineering focus on human performance, to the detriment of a distinct emphasis on mental, emotional, and behavioral health. The committee notes that of the \$88.0 million for POTFF in the budget request for fiscal year 2019,

only \$13.0 million was to support the Psychological Performance Program to promote, maintain, and restore the psychological and behavioral health of SOF.

With these concerns in mind, the committee directs the Commander of Special Operations Command, in coordination with the Secretary of Defense, to provide a briefing to the House Committee on Armed Services by September 14, 2018, on the future of POTFF. The briefing shall include:

(1) how the command plans to balance the emphasis put on the four pillars of the program;

(2) an analysis of mental and behavioral health program gaps, to include an in-depth look into POTFF's suicide-prevention programming; and

(3) how SOCOM will work with services to identify successful elements that can be transitioned to assist conventional forces and families.

LEGISLATIVE PROVISIONS

SUBTITLE A—REGULAR COMPONENT MANAGEMENT

Section 501—Expansion of Authority to Award Constructive Service Credit for Advanced Education, Experience, or Training, upon Original Appointment as a Commissioned Officer

This section would amend sections 533 and 12207 of title 10, United States Code, to permit the Secretaries of the military departments additional discretion to determine the grade of certain individuals receiving an original appointment as a regular or reserve commissioned officer.

Section 502—Surface Warfare Officers Career Paths

This section would amend chapter 602 of title 10, United States Code, by adding a new section that would require the Secretary of the Navy to establish two career paths for surface warfare officers. The Secretary would be required to establish one career path in ship engineering systems and another in ship operations and combat systems, not later than January 1, 2021.

Section 503—Authority of Selection Boards To Recommend Officers of Particular Merit Be Placed at the Top of the Promotion List

This section would amend sections 616, 618, and 624 of title 10, United States Code, to allow officer promotion boards to recommend officers of particular merit be placed at the top of the promotion list, and to allow the Secretary of the military department concerned to re-order the promotion list accordingly.

Section 504—Deferred Deployment for Members Who Give Birth

This section would standardize new mother deployment deferral policy across the military services, to include the Coast Guard.

Section 505—Codification of Lowered Grade for Retired Officers or Persons Who Committed Misconduct in a Lower Grade

This section would amend section 1370 of title 10, United States Code, to clarify that the Secretary concerned has the authority to find that an officer who committed misconduct in a lower grade has not served satisfactorily in any grade equal to or higher than that lower grade.

Section 506—Retention of Military Technicians Who Lose Dual Status under Certain Circumstances

This section would amend section 10216 of title 10, United States Code, to prevent dual-status military technicians who reach their time-in-service end date from losing their jobs due to separation from military service.

SUBTITLE B—RESERVE COMPONENT MANAGEMENT

Section 511—Placement of National Guard Military Technicians (Dual Status) in the Competitive Service

This section would amend section 10508 of title 10, United States Code, to designate dual-status military technician positions that were converted to title 5 civilian employees in the fiscal year 2017 and 2018 National Defense Authorization Acts as competitive, not excepted, service positions.

Section 512—Authorized Strength and Distribution in Grade

This section would amend section 12011(a) and section 12012(a) of title 10, United States Code, to increase the total number of available control grade positions, which includes O-4, O-5, O-6, E-8, and E-9, authorized for the Air National Guard.

Section 513—National Guard Promotion Accountability

This section would amend section 14308(f) of title 10, United States Code, to allow a National Guard officer's date of rank to be backdated, after Federal recognition is granted, and would require the Secretaries concerned to report to the Congress when a promotion scroll exceeds 200 days between date received and its date of publication.

Section 514—Extension of Authority for Pilot Program on Use of Retired Senior Enlisted Members of the Army National Guard as Army National Guard Recruiters

This section would extend the authority of the pilot program on use of retired senior enlisted members of the Army National Guard as Army National Guard recruiters until 2021.

SUBTITLE C—GENERAL SERVICE AUTHORITIES AND CORRECTION OF
MILITARY RECORDS

Section 521—Enlistments Vital to the National Interest

This section would modify section 504(b) of title 10, United States Code, to establish additional requirements for enlistments vital to the national interest.

Section 522—Statement of Benefits

This section would require the Secretary of Defense to provide Active Duty and Reserve service members an authoritative assessment of their earned GI Bill benefits prior to separation, retirement, or release from Active Duty or demobilization.

Section 523—Modification to Forms of Support That May Be Accepted in Support of the Mission of the Defense POW/MIA Accounting Agency

This section would modify the forms of support that may be accepted by the Defense POW/MIA Accounting Agency (DPAA) to include public-private partnerships and the acceptance of gifts that facilitate the accounting of missing persons within the purview of the DPAA mission.

Section 524—Correction of Military Records Website

This section would amend section 1552(a)(5) of title 10, United States Code, to require the Secretary concerned to publish summaries, indexed by subject matter, of all decisions published on the board for correction of military records website of each military department.

Section 525—Modification of DD Form 214 to Include Email Addresses

This section would require the Secretary of Defense to modify the Certificate of Release or Discharge from Active Duty (DD Form 214) to include a specific block explicitly identified as the location in which a member of the Armed Forces may provide one or more email addresses by which the member may be contacted.

Section 526—Public Availability of Reports Related to Senior Leader Misconduct

This section would require the Secretary of Defense and the Secretaries of the military departments to publish, on a public website, redacted reports of substantiated investigations of misconduct in which the subject of the investigation was an officer in the grade of O-7 and above, including officers who have been selected for promotion to O-7, or a civilian member of the Senior Executive Service.

Section 527—Appointment and Training of Personnel to Staff the Board of Corrections for Military and Naval Records

This section would require the Secretary of Defense, in consultation with the service secretaries and the joint chiefs, to provide for

the appointment and training of qualified personnel to join the staff of the Boards of Correction for Military and Naval Records, and would authorize \$3.0 million to carry out the training, to be taken from the Military Personnel Appropriations line.

SUBTITLE D—MILITARY JUSTICE

Section 531—Minimum Confinement Period Required for Conviction of Certain Sex-Related Offenses Committed by Members of the Armed Forces

This section would amend section 856(b)(1) of title 10, United States Code (article 56(b)(1) of the Uniform Code of Military Justice), to require a minimum confinement period of 2 years for individuals convicted of certain sex-related offenses.

Section 532—Punitive Article in the Uniform Code of Military Justice on Domestic Violence

This section would amend subchapter X of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice), to add a new section 928a regarding domestic violence.

Section 533—Defense Advisory Committee on Investigation, Prosecution, and Defense of Sexual Assault in the Armed Forces

This section would amend section 546 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291) to require the Department of Defense to provide information to the Defense Advisory Committee on Investigation, Prosecution, and Defense of Sexual Assault in the Armed Forces that the panel (by majority vote) deems necessary to carry out its duties.

Section 534—Modification of Military Rules of Evidence To Exclude Admissibility of General Military Character Toward Probability of Innocence in Any Offense Not Strictly Related to Performance of Military Duties

This section would amend Rule 404(a) of the Military Rules of Evidence contained in the Manual for Courts-Martial to provide that the general military character of an accused is not admissible for the purpose of showing the probability of innocence of the accused unless the offense the individual is charged with is strictly and solely related to the performance of military duties.

Section 535—Improved Crime Reporting

This section would require the Secretary of Defense to establish a consolidated tracking process that provides the Department of Defense increased visibility on the military departments’ required crime report submissions to the Federal Bureau of Investigation.

Section 536—Oversight of Registered Sex Offender Management Program

This section would require the Secretary of Defense to designate a single official or entity within the Office of the Secretary of Defense to serve as the official or entity with principal responsibility

for providing oversight of the registered sex offender management program of the Department.

SUBTITLE E—OTHER LEGAL MATTERS

Section 541—Security Clearance Reinvestigation of Certain Personnel Who Commit Certain Offenses

This section would amend section 1564 of title 10, United States Code, to require the Secretary of Defense to conduct a security clearance background reinvestigation under expedited procedures for flag officers and Senior Executive Service personnel employed by the Department of Defense convicted of sexual assault, sexual harassment, fraud against the United States, or other serious crimes.

Section 542—Consideration of Application for Transfer for a Student of a Military Service Academy Who Is the Victim of a Sexual Assault or Related Offense

This section would require the Secretary concerned to expedite the consideration and approval of an application for an inter-academy transfer submitted by a cadet of a military academy who has been the victim of sexual assault.

Section 543—Standardization of Policies Related to Expedited Transfer in Cases of Sexual Assault

This section would require the Secretary of Defense to standardize the expedited transfer procedures for service members who are the victim of sexual assault, regardless of whether their cases are handled by the Sexual Assault Prevention and Response Program or the Family Advocacy Program, and would require the Secretary to establish a transfer policy for service members whose dependent is the victim of sexual assault perpetrated by an unrelated service member.

Section 544—Development of Oversight Plan for Implementation of Department of Defense Harassment Prevention and Response Policy

This section would require the Department of Defense to develop an oversight plan and provide a report to the Committees on Armed Services of the Senate and the House of Representatives for implementation of the Department of Defense Harassment Prevention and Response policy.

Section 545—Development of Resource Guides Regarding Sexual Assault for the Military Service Academies

This section would require each Superintendent of a military service academy to develop and maintain a resource guide on sexual assault, and distribute the guide to all cadets and midshipmen at the academies.

Section 546—Report on Victims in MCIO Reports

This section would require the Secretary of Defense, through the Defense Advisory Committee on Investigations, Prosecutions, and

Defense of Sexual Assault in the Armed Forces, to provide a report every 2 years on the frequency with which victims of sexual offenses identified in military criminal investigative organization cases are accused of or punished for misconduct considered collateral to the investigation of sexual assault.

SUBTITLE F—MEMBER EDUCATION, TRAINING, RESILIENCE, AND
TRANSITION

Section 551—Permanent Career Intermission Program

This section would amend chapter 40 of title 10, United States Code, by adding section 710 and removing all references to the program as a pilot program, making the Career Intermission Program a permanent authority.

Section 552—Improvements to Transition Assistance Program

This section would amend section 1142 of title 10, United States Code, to establish counseling pathways, require transmission of the Joint Service transcript, and allow transitioning service members to select a portion of the content covered during the transition assistance period of instruction.

Section 553—Employment and Compensation of Civilian Faculty
Members at the Joint Special Operations University

This section would amend section 1595(c) of title 10, United States Code, to add the Joint Special Operations University to the list of covered institutions with authority to hire civilian faculty under title 10.

Section 554—Program To Assist Members of the Armed Forces in
Obtaining Professional Credentials

This section would amend section 2015 of title 10, United States Code, to further assist members of the Armed Forces in obtaining professional credentials.

Section 555—Extension of Pilot Program To Assist Members in
Obtaining Post-Service Employment

This section would amend section 555 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291) to extend the authority for the pilot program under this section to September 30, 2023.

Section 556—Direct Employment Pilot Program for Members of the
Reserve Components and Veterans

This section would allow the Secretary of Defense to carry out a pilot program that provides enhanced job placement and employment assistance for members of the National Guard and Reserve.

Section 557—Extended Duration of Availability of Military OneSource Program Services for Members of the Armed Forces Upon Their Separation or Retirement

This section would extend the duration of availability of Military OneSource program services for members of the military departments and their immediate family members from 180 days following their separation or retirement to at least 1 year after their separation or retirement.

Section 558—Comptroller General Briefing and Report on Permanent Employment Assistance Centers

This section would require the Comptroller General of the United States to provide a briefing to the Armed Services Committees of the Senate and House of Representatives, with a report to follow, on employment assistance required under law and related information regarding civilian employment certification.

Section 559—Activities To Increase Awareness of Apprenticeship Programs

This section would require the Secretary of Defense to include, as part of service members' transition counseling, information on apprenticeship programs and the use of veterans' benefits to pay for these programs.

SUBTITLE G—DEFENSE DEPENDENTS' EDUCATION AND MILITARY FAMILY READINESS MATTERS

Section 561—Enhancement and Clarification of Family Support Services for Family Members of Members of Special Operations Forces

This section would amend section 1788a of title 10, United States Code, to provide greater flexibility to support the family requirements to tactical units by increasing funds available for Major Force Program 11 from \$5.0 million to \$10.0 million. This section would also define the term "family support services" to provide clarity and authorize proper expenditures of appropriated funds.

Section 562—Additional Matters for Assessment and Report on Childcare Services of the Department of Defense

This section would add additional issues for assessment related to military family childcare under section 575 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91).

Section 563—Continued Assistance to Schools With Significant Numbers of Military Dependent Students

This section would authorize \$40.0 million for the purpose of providing assistance to local educational agencies with military dependent students and \$10.0 million for local educational agencies eligible to receive a payment for children with severe disabilities.

Section 564—Department of Defense Education Activity
Misconduct Database

This section would require the Secretary of Defense to establish a comprehensive policy and database regarding juvenile misconduct occurring in Department of Defense Education Activity schools.

Section 565—Report on Assessment of Frequency of Permanent
Changes of Station of Members of the Armed Forces on Employ-
ment Among Military Spouses

This section would require the Secretary of Defense to provide a report on the impact that frequent permanent changes of station of service members have on military spouses.

SUBTITLE H—DECORATIONS AND AWARDS

Section 571—Limitations on Authority To Revoke Certain Military
Decorations Awarded to Members of the Armed Forces

This section would amend title 10, United States Code, to add a new section that restricts the President and service secretaries from revoking a military decoration after the actual award of the military decoration to the service member except under limited circumstances.

Section 572—Authorization for Award of Expeditionary Medal to
Certain Marines for Actions on June 8, 1995

This section would authorize the Secretary of Defense to award the Armed Forces Expeditionary Medal to a member or former member of the 24th Marine Expeditionary Unit for the mission to rescue Captain Scott O'Grady.

SUBTITLE I—MISCELLANEOUS REPORTS AND OTHER MATTERS

Section 581—Public Availability of Top-Line Numbers of Deployed
Members of the Armed Forces

This section would require the Secretary of Defense to publicly make available the top-line numbers of members of the Armed Forces deployed for each country.

The Secretary would be able to waive the requirement in the case of a sensitive military operation if he determines the public disclosure of such numbers could reasonably be expected to provide an operational military advantage to an adversary, or the members of the Armed Forces are deployed for less than 30 days.

Section 582—Criteria for Interment at Arlington National
Cemetery

This section would require the Secretary of the Army to establish revised interment criteria for Arlington National Cemetery that preserve Arlington National Cemetery as an active burial ground well into the future.

Section 583—Report on General and Flag Officer Costs

This section would require the Secretary of Defense to submit a report to the congressional defense committees on the costs of supporting general and flag officers.

Section 584—Report on Outside Employment of Senior Personnel

This section would require the Secretary of Defense to report on senior leader outside employment requests and activities.

Section 585—Limitation on Use of Funds Pending Submittal of Report on Army Marketing and Advertising Program

This section would limit the use of funds to not more than 60 percent of the amounts authorized to be appropriated by this Act for the Army Marketing and Research Group for fiscal year 2019, used for advertising and marketing activities to be obligated or expended until the Secretary of the Army submits a report to the Committees on Armed Services of the Senate and the House of Representatives on recommendations of the Army Audit Agency's audit of the Army's Marketing and Advertising Program concerning contract oversight and return on investment.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

ITEMS OF SPECIAL INTEREST

Availability of Alcohol at Military Commissary Stores

The Committee notes the recent announcement made by the Department of Defense on the availability of beer and wine at military commissary stores in order to provide a similar shopping experience to commercial grocery stores.

In light of these measures, the Committee directs the Secretary of Defense to conduct a study on the feasibility of expanding commissary alcohol sales to include the sale of distilled spirits. The study shall include a comparison of state and local laws that could impact the expansion of the sale of distilled spirits. The study shall also include an estimate on revenue and sales that could result from such an expansion. The Secretary shall provide a briefing to the Committee on Armed Services of the House of Representatives on the detailed findings of the study no later than September 28, 2018.

Examination of Flexible/Noncontinuous Maternity Leave

The Committee commends the Department for granting up to 84 days for service members following child birth. Although current maternity and parental leave policies are a strong step in the right direction, more can be done to tailor leave to families' unique situations. Continuing its work from 2015 and 2016, Defense Advisory Committee on Women in the Services (DACOWITS) examined issues and concerns surrounding pregnancy, the postpartum period, and parenthood. There is evidence to suggest that Service members' ability to maintain work-life balance is one of the military's

top retention challenges, with service members expressing concern that a military career is incompatible with having a family. In its most recent report, DACOWITS recommends the Secretary of Defense consider allowing the Military Services to permit flexible (noncontinuous) use of maternity and parental leave if requested by the military parent(s). Allowing flexible (noncontinuous) use of maternity and parental leave is a strategy mentioned by DACOWITS and modeled by leading companies in the private sector. This is one potential way to support a servicemember after a child joins the member's family. Noncontinuous leave, when requested, could help servicemembers better balance their unique family needs during critical junctures of their lives and, in turn, help support retention efforts. Therefore, not later than December 1, 2018 the committee directs the Secretary of Defense to submit a report assessing the feasibility of permitting flexible (noncontinuous) use of maternity leave.

Imminent Danger Pay Adjudication Process

The committee acknowledges that servicemembers continue to serve in locations at daily risk of harm from hostile fire, explosions, or other hostile actions, and are thus entitled to Imminent Danger Pay. The committee understands that, regarding the locations and time periods for Imminent Danger Pay eligibility, the final adjudicating authority for the Department of Defense is the Under Secretary of Defense for Personnel and Readiness, who assesses requests submitted by geographic Combatant Commanders. The committee has received recent testimony that this request, adjudication, and approval process can span many months, during which servicemembers in harm's way are not receiving Imminent Danger Pay. So that Congress may improve its oversight of the timeliness of Imminent Danger Pay review and approval, the committee directs the Under Secretary of Defense for Personnel and Readiness to submit a report to the Committee on Armed Services of the House of Representatives, not later than August 31, 2018, listing, for the period 2008–2018:

- (1) each request for Imminent Danger Pay made by a geographic Combatant Commander, including details on the underlying justification for Imminent Danger Pay;
- (2) the date of submission for each request;
- (3) the adjudication status and/or ultimate determination for each request; and,
- (4) date of ultimate determination, where applicable.

Small Business Purchasing Contracts for Fresh Fruits and Vegetables for the Defense Commissary Agency ("DeCA")

The Committee commends DeCA for its efforts to achieve cost savings and provide patrons with an improved shopping experience. DeCA strives to maintain a good record of including small businesses in its acquisition practices including the acquisition of fresh fruits and vegetables through utilizing small businesses. These small businesses are best positioned to provide quality and fresh produce because of their proximity to commissaries and have traditionally provided these products at competitive prices. As the transformation proceeds the Committee encourages DeCA to con-

tinue to utilize small businesses for the acquisition of quality fresh fruits and vegetables. Therefore, the Committee directs the Secretary of Defense to submit a report to the House Committee on Armed Services by December 1, 2018 on the efforts to continue to utilize small businesses for fresh fruits and vegetables.

LEGISLATIVE PROVISIONS

SUBTITLE A—PAY AND ALLOWANCES

Section 601—Prompt Review of Request for Imminent Danger Pay

This section would amend section 310 of title 37, United States Code, to require the Secretary of Defense to issue a determination, within 90 days, when a geographic combatant commander submits a request to add a location to the Imminent Danger Pay eligibility list.

Section 602—Application of Basic Allowance for Housing to Members of the Uniformed Services in the Virgin Islands

This section would amend section 403 of title 37, United States Code, to apply Basic Allowance for Housing to service members in the Virgin Islands.

Section 603—Mandatory Increase in Insurance Coverage Under Servicemembers' Group Life Insurance for Members Deployed to Combat Theaters of Operation

This section would amend section 1967(a)(3) of title 38, United States Code, to mandate, in the case of a member who elects to not be insured under a Servicemembers' Group Life Insurance plan at the full \$400,000 available, the member's insurance will automatically increase to \$400,000 if they are deployed to a combat zone.

Section 604—Military Housing Privatization Initiative

This section would assure that the Basic Allowance for Housing reduction directed by section 403 of title 10, United States Code, would not take effect in fiscal year 2019, ensuring that the Military Housing Privatization Initiative (MHPI) housing recapitalization efforts are not reduced. The committee remains concerned about the reduction in BAH and its effect on the recapitalization of these housing units. The committee believes that military families must be provided with on-base housing that is safe and periodically modernized. Additionally, this section would require the Secretary of Defense to present a plan to the Committees on Armed Services of the Senate and the House of Representatives by December 1, 2018, to provide for a permanent financial solution to the long term MHPI recapitalization problem.

Section 605—Per Diem Allowance Policies

This section would halt implementation of the 2014 Department of Defense per diem policy, direct the Secretary of Defense to issue a report on options to reduce travel costs, and require notification of any subsequent changes to the per diem policies following the report.

SUBTITLE B—BONUSES AND SPECIAL INCENTIVE PAYS

Section 611—One-Year Extension of Certain Expiring Bonus and Special Pay Authorities

This section would extend, through December 31, 2019, income replacement payments for Reserve Component members experiencing extended and frequent mobilization for Active Duty service; would extend two critical recruitment and retention incentive programs for Reserve Component health care professionals; would extend accession and retention incentives for nuclear-qualified officers; and would extend the consolidated special and incentive pay authorities added to subchapter II of chapter 5 of title 37, United States Code, by the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181). Additionally, this section would extend the authority of the Secretary of Defense to prescribe a temporary increase in the rates of basic allowance for housing otherwise prescribed for a military housing area or a portion of a military housing area if the military housing area or portion thereof is located in an area covered by a declaration by the President that a major disaster exists.

SUBTITLE C—OTHER MATTERS

Section 621—Expansions of Installation Benefits to Surviving Spouses, Dependent Children, and Other Next of Kin

This section would amend section 1126 of title 10, United States Code, to require the Secretary of Defense to provide lifetime installation access to Gold Star spouses and their dependent children for the purposes of attending memorial services, visiting gravesites, and accessing survivor services to which they are already entitled. Additionally, this section would provide the Secretary discretion to provide similar access to other surviving family members and require access reciprocity between the military services, and would extend access to base commissaries, exchanges, and other recreation facilities for all remarried surviving military spouses for as long as they have surviving dependent children under their guardianship.

Section 622—Transportation on Military Aircraft on a Space-Available Basis for Disabled Veterans With a Service-Connected, Permanent Disability Rated as Total

This section would amend section 2641b of title 10, United States Code, to authorize space-available travel for disabled veterans with a service-connected, permanent disability rated as total.

Section 623—Extension of Parking Expenses Allowance to Civilian Employees at Recruiting Facilities

This section would amend section 481i of title 37, United States Code, to allow the Secretary of Defense to reimburse military and civilian employees of the Department of Defense for parking expenses at recruiting facilities.

Section 624—Advisory Boards Regarding Military Commissaries and Exchanges

This section would require the Secretary of Defense to direct installation commanders to establish an advisory board to advise commanders regarding the interests of patrons and beneficiaries of military commissaries and exchanges.

Section 625—Study and Report on Development of a Single Defense Resale System

This section would direct the Secretary of Defense to conduct a study to determine the feasibility of consolidating the military resale entities into a single defense resale system and would prohibit the use of funds in fiscal year 2019 for any action on consolidation by the Secretary of Defense.

TITLE VII—HEALTH CARE PROVISIONS

ITEMS OF SPECIAL INTEREST

Advanced Pain Management Fellows Program

The committee is aware of the importance of pain management health care providers across the Military Health System. More specifically, Certified Registered Nurse Anesthetists (CRNAs) are qualified pain practitioners who work in various practice settings to treat patients suffering from a wide range of acute and chronic pain conditions. CRNA chronic pain management practitioners are able to minimize the use of opioids to address chronic pain through the use of a multimodal approach that includes pharmacologic and non-pharmacologic pain mitigation strategies. Furthermore, the holistic approach that CRNA pain management practitioners employ when treating their chronic pain patients may reduce the reliance on opioids as a primary pain management modality, thus aiding in the reduction of potential adverse drug events related to opioids. The committee believes advanced pain management fellowship programs for CRNAs may enhance comprehensive pain management. The committee encourages the Secretary of Defense and the Secretaries of the military departments to consider advanced pain management fellowship programs for CRNAs as part of their respective long-term health education and training programs.

Athletic Trainers

The Committee understands that athletic trainers provide invaluable services to many people and organizations. However, the Committee notes that athletic trainers are not included on the TRICARE authorized provider list. Therefore the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by 1 February 2019, that examines the potential uses of civilian athletic trainers within the TRICARE program, the reimbursement structure for athletic trainers for Medicare or other commensurate federal health programs, and an assessment of credentialing organizations that may help facilitate a standardized accreditation process for athletic trainers.

Chronic Traumatic Encephalopathy (CTE)

The Committee commends the Department of Defense for focusing a significant amount of research on studying military relevant injuries related to traumatic brain injury (TBI). The Committee acknowledges the importance of this research but would also like to better understand the potential link between TBI and chronic traumatic encephalopathy (CTE). CTE is a neurodegenerative disorder that involves the progressive accumulation of the protein tau in nerve cells within certain regions of the brain. As the tau protein accumulates, it disturbs function and appears to lead to symptoms seen in affected patients with multiple head trauma. In 2013, a senior Department of Defense official stated, “we are learning through the process of discovery the effects of repetitive mild traumatic brain injury and also how to prevent this issue of chronic traumatic encephalopathy”. Research on CTE has made significant advancements, but there are still gaps in research between TBI and CTE and understanding the status and progress of CTE efforts within the military is of critical importance. Therefore, the Committee directs the Secretary of Defense, in consultation with Secretaries of the military departments, to provide a report on CTE research in the military to the Committees on Armed Services of the House of Representatives and the Senate not later than 1 April 2019. This report shall include an assessment of the gaps between CTE and TBI research, current funding levels, ongoing research studies, CTE related initiatives to track and monitor service-members, and ongoing research efforts with the National Institutes of Health, executive agencies and civilian academic and research organizations.

Comprehensive Women’s Health for Active Duty

The committee recognizes that as the population of women in the military increases and more women seek additional opportunities in direct combat units and throughout the joint force, it is critical that women’s health is addressed comprehensively to optimize health and readiness. The committee notes the efforts of Navy Medicine with the establishment of the Women’s Health Clinical Community and the piloting of a comprehensive clinic at Naval Medical Center, San Diego, to address the complex needs of the Active Duty female population. Guided by feedback from clinical and non-clinical stakeholders and evidence-based research, the comprehensive women’s health clinic addresses women’s health in a patient-centered manner integrating perinatal, women’s health, mental health, and force readiness. As the Military Health System transitions military treatment facilities from the services to the Defense Health Agency, the committee encourages the inclusion of similar health clinics where appropriate to improve the readiness of women in the force.

Department of Defense Action Plan for Countering Infectious Diseases

The committee acknowledges the important work across the Department of Defense in the areas of preventive medicine and infectious disease. The 2014 Ebola outbreak demonstrated the need for a prompt and efficient response to a highly infectious disease out-

break. It also demonstrated that in the future, the U.S. military may be expected to assume a primary role in responding to such crises. The likelihood of a future regional and global infectious disease crisis is high, and the lessons learned from the 2014 Ebola crisis are directly applicable to the next potential infectious disease outbreak. It is therefore critical that the Department of Defense consider lessons learned from previous outbreaks. In addition, the Department must take action to promote force health protection from emerging infectious diseases while preparing to support missions in areas of increased risk or military operations supporting international response within a future public health emergency.

The committee therefore directs the Secretary of Defense, in coordination with the Assistant Secretary for Preparedness and Response at the Department of Health and Human Services, to provide a briefing to the House Committee on Armed Services not later than June 1, 2019, on the development of an action plan focused on efforts to counter emerging infectious disease threats. This briefing should identify capability gaps; actions taken to improve point-of-care diagnostics linked to disease surveillance and information-sharing networks; examine infectious disease emergency response teams; capabilities for medical evacuation of patients with high consequence infections; gaps in infection prevention and control standards; and research efforts focused on medical countermeasures.

Diabetes Prevention Program

The committee notes there are an estimated 30 million Americans with diabetes but only approximately 50,000 military members or their family members have the disease. However, the committee understands that the number of military beneficiaries with diabetes increases to more than 200,000 for retirees and their family members who are under the age of 65 and doubles to over 400,000 for those beneficiaries in the TRICARE for Life, Medicare-eligible population. If not treated, those with diabetes face higher risks of heart disease, kidney failure, limb amputations, and blindness. The committee is aware that Medicare expanded its diabetes prevention pilot program to provide coverage for all eligible at-risk beneficiaries with prediabetes who are aged 65 years or older, which has led to substantial health care savings as well as reducing the risk of patients developing type 2 diabetes. Given the detrimental health impact of diabetes as well as the increased costs incurred for direct treatment and comorbid medical complications of this disease, prevention programs addressing the vulnerability of at-risk TRICARE beneficiaries should be closely examined.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the Committee on Armed Services of the House of Representatives not later than March 1, 2019, that examines the feasibility of using a similar program for TRICARE beneficiaries to prevent diabetes, improve health, and reduce health care costs.

Direct Report Language on National Guard Mental Health

The Committee remains concerned about the high rate of suicides in the reserve component and specifically, within the Army National Guard. The Committee is aware of numerous efforts by

the Chief of the National Guard Bureau to increase access and resources for Guardsmen to receive behavioral health treatment and support. The Committee also supports the establishment of a more integrated and holistic approach to resilience and fitness across the National Guard to better assess and improve the operational readiness of Guardsmen by carrying out pilot programs as required. Therefore, the Committee directs the Chief of the National Guard Bureau to provide a report to the House Committee on Armed Services not later than 1 March 2019, on the effectiveness of National Guard Bureau behavioral health programs like resiliency, suicide prevention, and other mental health outreach efforts.

Exceptional Family Member Program

The committee notes the purpose of the Exceptional Family Member Program (EFMP) is to provide comprehensive and coordinated community support, housing, educational, medical, and personnel services worldwide to military families with children with special needs. The committee is concerned that with over 100,000 families participating in the EFMP and inconsistent application of the Department of Defense policy across the services, there are families who are inadvertently disadvantaged by not having an individualized service plan. The committee is also concerned that the Department of Defense and military services lack the common performance measures and outcome metrics to assess assignment coordination and family support.

Therefore, the committee directs the Secretary of Defense to develop a plan consisting of common performance metrics for assignment coordination and family support, including best practices for performance measurement; a systematic process for evaluating the results of monitoring activities conducted by each of the military services program; and a review to determine the feasibility of creating interstate compacts as a requirement for schools supporting EFMP students.

The committee further directs the Secretary of Defense to provide a briefing to the Committee on Armed Services of the House of Representatives not later than March 1, 2019, on this plan.

GAO Audit of TRICARE

The committee notes that during the 2018 transition of TRICARE managed care support contractors, many issues related to network adequacy arose, which affected beneficiary access to care, specifically access to mental health services. There is evidence that mental health providers from the East and West regions received new contracts that include a proposed 30% discount off Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) rates. With the limited options and resources that TRICARE beneficiaries currently have, these discounts will further jeopardize the mental health of military members, veterans, and their families who rely on TRICARE for their basic needs.

Therefore, the committee directs the Comptroller General of the U.S. Government Accountability Office (GAO) to conduct a study of the Defense Health Agency's (DHA) oversight of the transition of TRICARE managed care support contractors for its TRICARE regions. The Comptroller General shall provide a report to the Com-

mittee on Armed Services of the House of Representatives by September 30, 2019 detailing the extent to which (i) DHA provided guidance and oversight to the outgoing and incoming managed care support contractors; (ii) there were any issues with health care delivery, and if so, the effect, if at all, DHA's guidance and oversight during the transition period had on these issues as well as DHA's resolutions for remediating any managed care support contractors' deficiencies; and (iii) DHA has reviewed any lessons learned from prior transitions and incorporated them into the current transition.

Global Health Engagement Organization Consolidation

The committee recognizes the Department of Defense's efforts to develop global health engagement (GHE) capabilities that have become an integral part of combatant command security cooperation initiatives. These activities are used to improve military health professional readiness and interoperability by providing important training opportunities and experiences in operational settings with partner nations. However, the committee is concerned that there is duplication of effort with the Defense Institute for Medical Operations. The Defense Institute for Medical Operations supports overseas train-the-trainer programs on topics such as disaster management, force health protection, health surveillance, and other areas of health practice.

As part of the Uniformed Services University of Health Science (USUHS) mission to support military readiness, the Center for Global Health Engagement was established by the Department of Defense to provide an enterprise-wide hub for GHE to support the combatant commands with leadership and scholarship; strategic and operational support to the joint force; training and professional development; management of GHE-related research; and assessment, monitoring, and evaluation activities. The committee believes USUHS provides a vital nexus of education and training for the Military Health System and may serve as an important support platform that provides economies of scale related to training, education, campus locations, and infrastructure support.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than April 1, 2019, on the feasibility of consolidating and integrating the capabilities of the Center for Global Health Engagement and the Defense Institute of Medical Operations into one organization.

Improving Delivery of Mental Health Services

The committee acknowledges the efforts of the Department of Defense and the military services to diagnose and treat military members suffering from mental health disorders. The committee commends the Department for systems it has in place to ensure service members receive standard of care for disorders where clinical evidence has informed best practices for treatment. However, there is room for improvement: the MHS lacks an enterprise wide system to accurately and consistently track care, cost, and implementation of evidence based quality medical and behavioral health therapeutic services for mental health disorders. The committee directs the Secretary of Defense to provide a briefing to the Committee on

Armed Services of the House of Representatives not later than December 1, 2018 on the following: (1) feasibility study for creating a formalized methodology for tracking, measuring, and reporting across the MHS to ensure delivery of cost effective, evidence based quality treatments; (2) data and analysis to assist the committee in determining whether there are challenges to implementing evidence based mental health treatments for military personnel; (3) recommendations for addressing the current translation of innovative biomarker and neuroimaging diagnostics and research findings into practice; (4) any other matters the Secretary of Defense believes are relevant to this issue.

Improving Health Care Choices for Severely Injured Service Members

The committee seeks to better serve severely disabled veterans who are entitled to hospital insurance benefits under part A of title XVIII of the Social Security Act. The committee directs the Secretary of Defense, in coordination with the Secretary of Human Health Services and the Commissioner of Social Security, to report on the total number of individuals who are retired from the Armed Services under chapter 61 of title 10, United States Code; entitled to hospital insurance benefits under part A of title XVIII of the Social Security Act pursuant to receiving benefits for 24 months as described in subparagraph (A) or (C) of section 226(b)(2) of such Act (42 U.S.C. 426(b)(2)); and because of such entitlement, are no longer enrolled in TRICARE Prime or TRICARE Select (as those terms are defined in section 1072 of title 10, United States Code) under chapter 55 of title 10, United States Code. The committee further directs the Secretary to submit the results of the report to the House Committee on Armed Services by December 1, 2018.

Joint Advanced Orthopedic Surgical Training

The committee is aware of the importance of limiting musculoskeletal injuries (MSKI), which on average result in 21,000 shoulder and knee arthroscopies affecting service members per year. The committee also recognizes that military orthopedic surgeons may be challenged to participate in civilian training partnerships to maintain or learn specialized techniques needed to care for military beneficiaries due to operational missions. These training challenges may have a significant impact on both the readiness of military personnel and the costs associated with MSKI for the Department of Defense. The committee encourages the Secretary of Defense and the Secretaries of the military departments to consider joint advanced orthopedic surgical training partnerships as an integral component of their respective long-term health education and training programs.

Mental Health Care in the Military Health System

The committee commends the Department of Defense and military services' significant efforts over the past decade to aggressively improve treatment of traumatic brain injury (TBI), post-traumatic stress disorder (PTSD), chronic traumatic encephalopathy (CTE), and other mental health issues. The committee also recognizes the importance of research and innovation being made in the

treatment of brain disease and the need to improve collaboration between the Department of Defense, the National Institutes of Health, the Department of Veterans Affairs, and medical research translation offices at major universities. As the Military Health System transitions the operations of the military treatment facilities (MTF) from the military services to the Defense Health Agency, the committee notes this area of research and treatment needs aggressive oversight.

Therefore, the committee directs the Secretary of Defense, in coordination with the Secretaries of the military departments, to submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than April 1, 2019, on the plan for the Military Health System to provide mental health care services as part of the transition of the MTFs. This report shall include an assessment of how mental health care providers will be arranged within the command structure of the Defense Health Agency, how mental health care policy and processes will be managed within the Defense Health Agency to deliver mental health care services to members of the Armed Forces and covered beneficiaries; the ability of each service Surgeon General to maintain the readiness of the military health workforce to deliver mental health care services operationally in support of deployed forces. In addition, this report shall include a plan to accelerate innovation and delivery of treatments for TBI, CTE and PTSD to members of the Armed Forces and covered beneficiaries through improved coordination of behavioral health research and development efforts across the federal government, academic institutions, and industry; inclusion of evidence-based suicide prevention programs; promotion of acquisition strategies that utilize other transaction authorities to accelerate development and delivery of promising breakthrough therapies for TBI, CTE and PTSD; facilitation of public-private investment partnerships to pursue psychiatric and brain disease treatments; and plans to expeditiously field Food and Drug Administration—cleared pharmaceuticals and medical devices that provide clinicians with therapeutics and tools for rapid, accurate assessments of traumatic brain injury and PTSD.

Military Entrance Processing Command Physical Examination Model

The committee acknowledges the critical mission U.S. Military Entrance Processing Command (MEPCOM) performs throughout the United States. An important component of the MEPCOM mission is ensuring prospective service members are provided a physical examination as part of the military accession process. However, the committee is concerned that MEPCOM is unable to ensure these physical examinations are provided in a timely manner. The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than January 15, 2019, that evaluates the commercially distributed physical examination model being used by the Department of Defense Medical Examination Board and explores the feasibility of the MEPCOM contracting for physical examination services.

Military Nurse Work Experience

The committee is aware that military nurses provide critical support across the Military Health System. However, national nursing shortages and vigorous salary and bonus competition for journey-level nurses has impacted the ability of the military to attract more experienced nurses to civil service. The inability to compete for nurses, coupled with restrictive Federal guidelines that dictate the hiring of new graduate nurses at considerably lower salaries than civilian counterparts, has in some instances created significant compensation disparity between military treatment facilities and hospitals in the local community. Additionally, a recent change to the Office of Personnel Management policy may limit applicant pools and adversely impact the ability of military treatment facilities to foster growth and development of current employees who have completed additional education and obtained further licensure. The committee encourages the Secretary of Defense to work with the Office of Personnel Management to consider new qualification and classification standards for military nurses.

Military Nutrition and Diet Planning

The committee understands that a significant number of Active Duty military can currently be considered obese. This likely leads to additional health care costs and loss of military readiness, with too many Active Duty soldiers, sailors, marines, and airmen unable to deploy due to illness or injury. To ensure that our military is ready to fight today and in the future, on February 14, 2018, the Under Secretary of Defense for Personnel and Readiness issued policy guidance to the military services that states: "Service members who have been non-deployable for more than 12 consecutive months, for any reason, will be processed for administrative separation" With this renewed emphasis on military personnel policies necessary to provide a more ready and lethal force, the committee is concerned that the Department of Defense lacks a cohesive, science-based approach to diet and nutrition that supports that goal. It is incumbent upon the Department to ensure our service members are trained and resourced in ways that will allow them to perform duties necessary to remain in a full-duty and deployable status. Healthy food options are a key component of this effort.

The committee is aware that the Department has funded research on optimal nutritional approaches that promote performance and reduce illness, injury, and other health problems in order to ensure that deployable personnel are prepared for worldwide assignments.

Therefore, the committee directs the Secretary of Defense provide a briefing to the House Committee on Armed Services by January 15, 2019, detailing this research and its conclusions. The briefing should include, among other aspects, an overview of studies that focused on the usage of low carbohydrate diets, which show promising outcomes for physiological and performance factors key to warfighter readiness and effectiveness. Additionally, the briefing should discuss the use of standard dietary guidelines as defined by the U.S. Dietary Guidelines for Americans, as well as any other available comparisons. The briefing should also include systemic

factors that inhibit the delivery of food options other than those defined by the U.S. Dietary Guidelines for Americans to service members at Department of Defense dining facilities and other venues. Finally, this briefing should include the plan for a Department-wide approach to diet and nutrition that incorporates performance-based outcomes in support of warfighter readiness.

Mitigating Work Place Violence in Military Treatment Facilities

The committee notes that the Department of Defense incorporated many of the recommendations into policy to address workplace violence following the 2009 Ft. Hood shooting review. The committee is concerned that there are still gaps in the implementation of the policies with respect to establishing Threat Assessment Teams in Military Treatment Facilities. This is evident by the 2016 incident at Ft. Leavenworth hospital when an employee set his supervisor on fire. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Armed Service Committee no later than 1 March 2019 on the establishment of the Threat Assessment Teams at Military Treatment Facilities and the training provided to the members of the team.

Orthotics for New Recruits

Custom orthotics are offered to servicemembers in some circumstances with a referral from their primary care provider, however it is the understanding of the committee that there is currently not a uniform method for providing orthotics to servicemembers across the joint force. With over 70% of muscular-skeletal injuries affecting the lower extremities, higher priority must be placed on injury prevention, which will likely reduce the cost of treatment and increase force readiness. The committee therefore directs the Secretaries of each service to seek advice from the orthopedic and podiatric consultants residing within each branch of the Armed Forces regarding the benefits of prescribing and dispensing custom orthotics to each new recruit upon entering the military, and follow up with a briefing to Congress no later than April 1, 2019.

Periodic Health Assessment Analysis

The committee notes the continued progress in reforming the Department of Defense Periodic Health Assessment (PHA). The Department implemented the new electronic PHA in February 2018. The new PHA is designed to accomplish multiple requirements and provide standardized health assessment data that can be analyzed and compared across all military services, as well as to national standards. The PHA includes a comprehensive health risk assessment using evidence-based diagnostic tools validated and recommended by the Centers for Disease Control and Prevention and clinical specialty leaders. This is a systematic collection and analysis of health-related information for use by service members, health care providers, and health care teams to identify and support beneficial health behaviors and mutually work to direct changes in potentially harmful health behaviors. The committee encourages the Secretary of Defense and the Secretaries of the military departments to continue to reform the PHA and use pre-

dictive analytics to examine population health factors and trend analysis to better understand comprehensive health risk assessment and improve the readiness of the force.

Podiatric Surgeons in the Military

The committee is concerned that surgically advanced military podiatrists are not presented with the same administrative opportunities as surgeons and doctors of other medical disciplines, and have historically had few opportunities for positions of leadership across the military medical enterprise. Podiatric surgery, as a medical discipline in the Armed Forces, has evolved over the last several decades, including an additional 3-year surgical residency requirement for all military podiatric surgeons. Podiatrists have increasingly deployed to combat zones overseas, serving in a variety of ways to meet the surgical needs of our warfighters. Moreover, podiatric surgeons remain in the Medical Service Corps in the Army and Navy, and the Biomedical Science Corps in the Air Force. This alignment does not administratively suit the profession, and podiatric surgeons may serve more effectively when aligned with surgeons of other medical disciplines. Lastly, while Army Reserve surgeons receive a 90-day rotation exemption limiting their tour of duty in combat, Reserve podiatric surgeons are not eligible for this exemption. This creates challenges to recruiting the best podiatrists for military service, and is especially difficult for podiatrists serving in the Reserve component who are faced with the possibility of a long deployment with potentially adverse effects on their civilian practice. The committee therefore directs the Secretary of Defense, in coordination with the Secretaries of the military departments, to submit a report to the House Committee on Armed Services not later than April 1, 2019, on improvements that can be made to podiatry as a medical discipline within the Armed Services; how podiatry is aligned within each military branch; and what efforts are being made to provide additional clinical, command, training, and leadership opportunities to podiatrists across the joint force.

Podiatry in the Military

The committee is concerned that surgically advanced military podiatrists are not presented with the same advancement opportunities as surgeons and doctors of other medical disciplines, and have historically had few opportunities for positions of command across the military medical enterprise. Podiatry, as a medical discipline in the Armed Forces, has evolved over the last several decades, including an additional 3-year surgical residency requirement for all military podiatrists. Podiatrists have increasingly deployed to combat zones overseas, serving in a variety of ways to meet the surgical needs of our warfighters. Moreover, podiatrists remain in the Medical Service Corps in the Army and Navy, and the Biomedical Science Corps in the Air Force. This alignment often limits advancement and leadership opportunities in the civilian sector, and may put them at a disadvantage when compared to officers in the Medical Corps. Lastly, while surgeons of other disciplines receive a 90-day rotation exemption limiting their tour of duty in combat, podiatrists are not eligible for this exemption. This creates chal-

lenges to recruiting the best podiatrists for military service, and is especially difficult for podiatrists serving in the Reserve component who are faced with the possibility of a long deployment with potentially adverse effects on their civilian practice.

The committee therefore directs the Secretary of Defense, in coordination with the Secretaries of the military departments, to submit a report to the House Committee on Armed Services not later than April 1, 2019, on improvements that can be made to podiatry as a medical discipline within the Armed Services; how podiatry is aligned within each military branch; and what efforts are being made to provide additional clinical, command, training, and advancement opportunities to podiatrists across the joint force.

Study on CT Angiography and Fractional Flow Reserve Computed Tomography in the Military Health System

The Committee is aware of the significant health and cost savings advantages of new technology for non-invasive diagnosis of cardiac artery disease through cardiac CT angiography (CTA) and fractional flow reserve computed tomography (FFRct). This FDA approved diagnostic device coupled with use of CTA as an initial testing strategy is recognized as part of a preferred pathway of care by the Blue Cross Blue Shield Association, the American College of Cardiology, the American Heart Association, and the National Health Service in the United Kingdom. The committee directs the Director of the Defense Health Agency to provide a report to the House Committee on Armed Services no later than March 1, 2019, that reviews and assesses the clinical efficacy of this technology and how it may be incorporated throughout the Military Health System.

Support for Global Health Security Agenda and Briefing on Joint Staff Recommendations

The Committee is supportive of the Department of Defense contributions to biosecurity and the Global Health Security Agenda (GHSA). The DoD possesses unique capabilities that contribute to interagency efforts to prevent, detect, and respond to outbreaks of infectious disease worldwide, as demonstrated by the response to Ebola in West Africa.

As the Ebola response required in excess of \$600 million in DoD funding, the Committee is supportive of ensuring that the DoD learns lessons that can be applied to future pandemic prevention and response efforts. Therefore, the committee directs the Director of the Defense Threat Reduction Agency to provide a briefing to the House Committee on Armed Services not later than October 31, 2018 on implementation of recommendations made by the Joint Staff in its 2016 analysis of Operation United Assistance. The briefing shall include, but not be limited to, the status of implementation of the following recommendations:

(A) Participate in or facilitate interagency meetings to synchronize the GHSA plans and activities. Support GHSA initiatives in partner countries.

(B) Conduct a capability based assessment to identify gaps in DoD's ability to respond to infectious disease outbreaks, both domestically and internationally.

(C) Sustain, and expand if possible public health-related capacity building for the full range of infectious diseases with partner countries as conditions allow.

(D) Work with CDC and other stakeholders to develop a strategic plan for a global laboratory network and improved information sharing.

(E) Identify and leverage opportunities to expand sampling programs to enhance OCONUS disease surveillance and gain an improved understanding of disease prevalence in different geographic areas.

(F) Support the continued development of USG strategic plans that increase the public health and bio-surveillance capacities of partner nations.

Therapeutic Service Dog Training Program for Service Members

The committee is aware that service dog training therapy can provide important therapeutic benefits to service members recovering from post-traumatic stress disorder, traumatic brain injury, and other post-deployment mental health conditions. The committee notes the important role played by non-governmental organizations that have established robust programs in the training and handling of therapeutic service dogs, and further notes that the right mix of personnel with the appropriate backgrounds and certifications facilitates positive therapeutic experiences. The committee believes these programs, whenever possible, should use data and research to continue to improve their effectiveness in assisting service members. The committee encourages the Secretary of Defense to continue administering a therapeutic service dog-training program that delivers effective and positive therapeutic and emotional benefits to service members recovering from post-traumatic stress disorder and other post-deployment mental health conditions.

TRICARE Managed Care Support Contractor Reporting

The committee notes the TRICARE benefit underwent considerable reform beginning January 1, 2018. The Department of Defense consolidated the TRICARE regions from three to two as part of the updated TRICARE management contract, and Congress directed that the TRICARE benefit be consolidated into two plans: a Healthcare Maintenance Plan and a Preferred Provider Plan. Both reforms took effect on January 1, 2018. The committee is aware of challenges for beneficiaries regarding timely appointments, referrals, provider network development, and other administrative processing functions. The committee is concerned these challenges may be impacting beneficiary access to health care services. Therefore, the committee directs the Secretary of Defense to provide a briefing to the Committee on Armed Services of the House of Representatives not later than March 1, 2019, on managed care support contractor compliance with performance metrics and standards relating to appointments, referral processing, network development (to include the requirement to cover 85 percent of the beneficiaries with standard select coverage in Prime Service Areas with special emphasis on remote locations), and other administrative processing functions.

LEGISLATIVE PROVISIONS

SUBTITLE A—TRICARE AND OTHER HEALTH CARE BENEFITS

Section 701—TRICARE Medicare Advantage Demonstration Program

This section would authorize the Department of Defense to develop a Medicare Advantage demonstration program for TRICARE-eligible beneficiaries.

Section 702—Pilot Program on Treatment of Members of the Armed Forces for Post-Traumatic Stress Disorder Related to Military Sexual Trauma

This section would authorize the Secretary of Defense to assess the feasibility of a pilot program that uses intensive outpatient programs to treat members of the Armed Forces suffering from post-traumatic stress disorder resulting from military sexual trauma.

Section 703—Pilot Program on Cryopreservation and Storage

This section would require the Secretary of Defense to establish a pilot program for not more than 1,000 Active Duty service members that provides the opportunity to cryopreserve and store their gametes prior to deployment to a combat zone.

SUBTITLE B—HEALTH CARE ADMINISTRATION

Section 711—Transition of Administration by Defense Health Agency of Military Medical Treatment Facilities

This section would amend section 1073 of title 10, United States Code, by requiring the Department of Defense to transition the administration of military treatment facilities from the respective Secretary of the military departments to the Director of the Defense Health Agency not later than September 30, 2020. This section would also prohibit the Secretary of Defense from closing or limiting services in any military medical treatment facility until a transition certification process is completed.

Section 712—Sharing Information with State Prescription Drug Monitoring Programs

This section would amend section 1074g of title 10, United States Code, by requiring the Department of Defense to establish a prescription drug monitoring program and share information with State prescription drug monitoring programs.

Section 713—Improvement to Notification to Congress of Hospitalization of Combat-Wounded Members of the Armed Forces

This section would amend section 1074l(a) of title 10, United States Code, by including notification to Congress of hospitalization of combat-wounded members of the Armed Forces to every military medical treatment facility.

Section 714—Improvements to Trauma Center Partnerships

This section would amend section 708 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328), by authorizing the use of civilian trauma centers in the training of military health professionals in trauma-related specialties.

Section 715—Wounded Warrior Policy Review

This section would require the Secretary of Defense to update and review policy and procedures related to wounded warrior care and include a report on the review not later than 1 year after the date of the enactment of this Act.

Section 716—Joint Force Medical Capabilities Development and Standardization

This section would require the Secretary of Defense to develop a process to establish joint medical capabilities that meet operational planning requirements and provide a report on this process to the Committees on Armed Services of the Senate and the House of Representatives not later than March 1, 2019.

SUBTITLE C—REPORTS AND OTHER MATTERS

Section 721—Establishment of Triservice Dental Research Program

This section would authorize the Secretary of Defense to establish the Triservice Dental Research Program at the Uniformed Services University of the Health Sciences.

Section 722—Increasing the Number of Appointed Directors of the Henry M. Jackson Foundation for the Advancement of Military Medicine

This section would increase the number of appointed directors of the Henry M. Jackson Foundation for the Advancement of Military Medicine.

Section 723—Extension of Authority for Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund

This section would authorize the extension of the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund established by section 1704 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84) and most recently amended by section 719 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91).

Section 724—Inclusion of Gambling Disorder in Health Assessments and Related Research Efforts of the Department of Defense

This section would require the Department of Defense to include questions concerning gambling disorders in annual periodic health assessments and the Health-Related Behaviors Survey of Active Duty Military Personnel.

Section 725—Medical Simulation Technology and Live Tissue Training within the Department of Defense

This section would require the Department of Defense to use medical simulation technology before the use of live tissue training to train medical professionals and combat medics except for when the use of live tissue training is determined necessary by the medical chain of command. This section would also require a briefing on the use and benefit of medical simulation technology and live tissue training within the Department of Defense.

Section 726—Limitation on Changes to Federal Emergency Services Certification Levels of the Air Force

This section limits any changes to Federal Emergency Services certification levels in the Air Force.

Section 727—Strategic Medical Research Plan

This section would require the Secretary of Defense, in consultation with the Secretaries of the military departments, to submit to the congressional defense committees a comprehensive strategic medical research plan that is inclusive of the Congressional Directed Medical Research Plan and the Defense Health Program.

Section 728—Independent Evaluation of Mental Health Care

This section would require an independent assessment of mental health care services in the Military Health System by an independent federally funded research and development center.

Section 729—Study on Reimbursement Rates for Mental Health Care Providers under TRICARE Prime and TRICARE Select in the East and West Regions of the TRICARE Program

This section would direct the Secretary of Defense to conduct a study assessing the impacts of using established reimbursement rates to reimburse covered mental health care providers on the availability of such providers.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS

ITEMS OF SPECIAL INTEREST

Assessment of Acquisition Workforce

The committee directs the Secretary of Defense to provide the House Armed Services Committees no later than December 1, 2018 a report to assess the current effectiveness of Defense Acquisition University's mission to adequately train the Department of Defense's acquisition workforce and other personnel involved in the acquisition process. This report shall include an assessment of Defense Acquisition University's ability to adequately train students to write acquisition requirements (including scope of work) so that requirements are developed in such a way as to meet the needs of the Department, as well as its ability to adequately train students on the appropriate use of transactions other than contracts, cooper-

ative agreements, and grants, also known as other transaction authority, and additional items at the Secretary's discretion.

Briefing on Athletic Footwear for New Recruits

The committee notes the health and safety of newly recruited servicemembers is of utmost importance. The committee notes athletic footwear furnished to new recruits upon entering the military should be consistently issued in a manner that accounts for each recruit's individual physiological requirement in order to prevent lower extremity musculoskeletal injuries. The committee directs the Department of Defense to provide a briefing to the House Committee on Armed Services, not later than November 1, 2018, on the Department's effort to examine, measure, and fit new recruits with athletic shoes in an effort to reduce and prevent injury. The briefing will present the information separately by individual service as well as in aggregate.

Comptroller General Report on the Issuance of Regulations in the Defense Federal Acquisition Regulation Supplement

The committee notes that despite recent legislative reform to the acquisition system there has been a significant delay between statutory enactment and issuance of regulations in the Defense Federal Acquisition Regulation Supplement (DFARS). For example, a final rule on procurement of commercial items (issued in January 2018) amended the DFARS based upon requirements from as long ago as the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239). As a result, the acquisition and contracting communities within and outside the Federal Government are unable to take full advantage of recent reforms and improvements to acquisition and contracting procedures. The committee is concerned that the momentum generated by congressional acquisition reform initiatives has been lost as a result of delayed, and potentially incomplete, revision of regulations, and seeks to identify and remedy the causes of such delays. According to the Department of Defense's operating guidance for the DFARS, the standard timeline for issuance of a final rule is one year, including multiple layers of review within and outside the Department as well as time for public comment. The committee seeks recommendations on how to reduce that timeline and ensure that previously enacted statutory provisions are not disregarded in regulation. The committee also encourages exploration of other ways to quickly implement enacted reforms such as through interim policy memoranda or other guidance, without the need for formal regulatory action.

Therefore, the committee directs the Comptroller General of the United States to submit a report to the congressional defense committees by March 1, 2019, on the issuance of regulations in the Defense Federal Acquisition Regulation Supplement as required under statutory provisions enacted in past National Defense Authorization Acts. The report should describe the existing revision process and assess the status of statutory provisions enacted since fiscal year 2010. The report should assess the factors delaying revision to the DFARS and provide recommendations for any changes that might accelerate such revisions. The committee intends for the

Comptroller General to focus on acquisition policy-related statutory provisions enacted in past National Defense Authorization Acts.

The committee further directs the Comptroller General to provide a briefing to the House Committee on Armed Services by December 1, 2018, on preliminary findings.

Contract Incentives for Superior Supplier Performance

The committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services not later than December 1, 2018, on the Department of Defense's Superior Supplier Incentive Program. This program is designed to recognize and reward contractors who demonstrate superior performance by focusing on cost, schedule, performance, quality, and responsiveness. The briefing should include discussion of the feasibility of providing contract incentives, such as more favorable contract terms and conditions, which had been considered in relation to the Department of the Navy's Superior Supplier Incentive Program that preceded the Department of Defense's program.

Core Logistics Capability

The committee notes that section 2464 of title 10, United States Code, requires the Department of Defense to maintain a core logistics capability that is Government-owned and Government-operated (including Government personnel and Government-owned and Government-operated equipment and facilities) to ensure a ready and controlled source of technical competence and resources necessary to ensure effective and timely response to a mobilization, national defense contingency situations, and other emergency requirements. The committee further notes that recent National Defense Authorization Acts have made important changes to commercial item statutes, and that elsewhere in this Act the committee recommends further changes to the statutes governing commercial items. In all cases, the committee expects the Department to implement any statutory changes in a manner consistent with the mandate in section 2464 of title 10, United States Code, to maintain core logistics capabilities.

The committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a report to the House Committee on Armed Services, not later than February 1, 2019, on the Department's implementation of changes to commercial item statutes enacted in National Defense Authorization Acts for fiscal years 2016 through 2019, and how such changes may affect core logistics capability in the future.

Data Rights Impact to Sustainment

The committee is concerned about access to appropriate data rights with regard to long-term sustainment of weapon systems, especially for weapon systems transitioning to organic depot sustainment.

The committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services by September 30, 2018, on the process

and status of obtaining appropriate data rights for long-term sustainment of weapon systems transitioning to organic depots.

Domestic Samarium Cobalt Magnet Manufacturing

The committee is aware of the Department of Defense's continued need for a reliable rare earth magnet manufacturing industrial base to provide key components in many weapon systems. The committee is concerned that a recent memorandum of understanding (MOU) with Japan may result in the outsourcing of all remaining rare earth magnet manufacturing capability in the United States to foreign manufacturers. There is currently one U.S.-owned and -operated rare earth magnet manufacturing facility in the United States, which produces samarium cobalt magnets. The committee urges the Secretary of Defense to take the appropriate steps to ensure that the United States is not completely without a commercial-scale rare earth magnet manufacturing facility.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by September 30, 2018, on the risks to the current domestic rare earth supply chain, including domestic samarium cobalt magnet makers, as a result of the MOU with Japan. The briefing should also describe the Department's strategy for preserving the long-term viability of the U.S. rare earth magnet industrial base.

Ensuring Availability of Beryllium

The committee notes that beryllium is the only material designated by the Department of Defense's Strategic Materials Protection Board as a critical material. The committee notes there is a complete, vertically integrated supply chain in the United States for beryllium metal and other beryllium products that are used in major defense systems including the F-35 Joint Strike Fighter and nuclear weapon systems. This supply chain has historically been supported by the Department of Defense through the Defense Production Act and other authorities as required in order to maintain access to this critical, strategic material.

The committee is interested in the Department's efforts to help the U.S. defense industrial base sustain a secure, viable, and affordable domestic supply of beryllium.

The committee therefore directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than September 30, 2018, on the Department's efforts to maintain the availability of beryllium for defense needs. The briefing should address the following:

(1) what steps the Department is taking to ensure a stable and affordable domestic supply chain for beryllium;

(2) whether the Department intends to provide any guidance regarding individual programs using beryllium feedstock from the Russian Federation and metal production from the Republic of Kazakhstan;

(3) the Department's coordination with the National Nuclear Security Administration to maintain the availability of beryllium for nuclear modernization requirements;

(4) the Department's efforts to work with the Occupational Safety and Health Administration to ensure that regulatory burdens do not jeopardize the domestic beryllium supply chain; and

(5) the potential opportunities for the Department's guidance to its component agencies and military services to ensure a whole-of-Department approach to beryllium supply.

Final Activities of and Archiving of Records for Advisory Panel on Streamlining and Codifying Acquisition Regulations

The committee notes that the Advisory Panel on Streamlining and Codifying Acquisition Regulations has continued to provide analysis to the relevant congressional committees and the Department of Defense to support statutory and regulatory implementation of recommendations contained in volume 1 of its final report. The committee expects the Advisory Panel to provide additional recommendations to Congress and the Executive Branch in volumes 2 and 3 of the final report. The Advisory Panel, pursuant to section 883 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), which amended section 809 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92), will remain in existence for 180 days following delivery of volume 3 of the final report in January 2019. During this final 6-month period, the Advisory Panel should continue to provide any necessary analysis and clarification of recommendations contained in the final report to Congress and the Executive Branch to support and facilitate statutory and regulatory implementation of such recommendations.

The committee expects that the Department of Defense's acquisition reform efforts will not cease upon the termination of the Advisory Panel on Streamlining and Codifying Acquisition Regulations. In addition, the Department of Defense's implementation of recent legislative reforms as well as the Advisory Panel's recommendations on regulations will require continued research and analysis by the Department. The committee notes that section 809 of Public Law 114–92 established the National Defense University as one of the sponsors of the Advisory Panel.

The committee directs the Secretary of Defense that upon termination of the Advisory Panel, the Advisory Panel's records shall be maintained by the Eisenhower School at the National Defense University by no later than August 1, 2019.

Installation of Command, Control, Communication and Computer Systems

The committee remains concerned that the Navy is using lowest price technically acceptable (LPTA) contracting procedures inappropriately, particularly when acquiring complex systems, including command and control systems or services for the installation of command and control systems on ships. The committee notes that the Navy faces a significant backlog of maintenance and repair on ships and this backlog includes upgrades of command and control systems. The capacity of the Navy to reduce the backlog of needed repairs remains of concern to the committee. Consequently, the committee directs the Secretary of the Navy to provide a briefing to the House Armed Services Committee not later than March 1,

2019, on the Navy's acquisition plan for command and control systems and the installation of these systems aboard Navy vessels. The briefing shall include an overview on how the Navy plans to reduce the backlog of needed command and control system upgrades, as well as the physical installation of these systems on Navy vessels. The briefing shall include the Navy's plan for acquiring adequate contracting capacity for the performance of the required work, the plan to incentivize contractors to perform the work quickly, and the total amount of work programmed for the next five years by class of ship.

Mandatory Arbitration Briefing

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than March 1, 2019, on steps the Department has taken to ensure compliance with the provisions of Subpart 222.74 of the Defense Federal Acquisition Regulation Supplement concerning restrictions on the use of mandatory arbitration agreements. The briefing shall include steps taken to ensure that the Department does not fund contracts in excess of \$1 million with contractors that require as a condition of employment that employees enter an agreement to resolve certain claims and torts through arbitration. The briefing shall also include steps taken to ensure that contractors have certified that covered subcontractors, as defined in the clause at 252.222-7006 of the Defense Federal Acquisition Regulation Supplement, have been required to agree not to enter into such agreements. The briefing shall also include the extent to which the Secretary of Defense has waived the requirements of this subpart. The briefing shall also include potential ways for Department of Defense to determine the prevalence of mandatory arbitration by Department of Defense contractors compared to contractors that do not do business with Department of Defense.

Manufacturing Extension Partnership Program

The committee supports and recognizes the importance of the National Institute of Standards and Technology Manufacturing Extension Partnership program. The committee understands that the Manufacturing Extension Partnership program provides assistance to small- and medium-sized manufacturing companies to reduce costs, increase productivity, improve management, enhance supply chains, and adapt to new market and supply chain opportunities. In addition, the committee believes that additional resourcing and support for the program would likely provide these services to a larger number of manufacturers involved in Department of Defense programs.

Therefore, the committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services not later than March 1, 2019, on the Department of Defense plans for future cooperation with the Manufacturing Extension Partnership program, including collaborative efforts between the Department and the Manufacturing Extension Partnership program. The briefing should also include a review of potential opportunities for expanding Department support for the Manufacturing Extension Partnership program in an effort to pro-

vide assistance to manufacturing elements of the defense industrial base.

National Defense Stockpile

The committee notes the importance of the National Defense Stockpile and of the preservation of strategic and critical materials for national defense. The committee is concerned about the current risks and long-term sustainability of the National Defense Stockpile. According to the Department of Defense, there are significant unsatisfied stockpile requirements, and, under the current program-financing model, the Transaction Fund will be unsustainable by 2024.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by September 30, 2018, on the National Defense Stockpile. The briefing should address the following:

- (1) the Department's plan to address the current unmitigated risks;
- (2) how the Department will make the Transaction Fund sustainable;
- (3) an overview of the Department's stockpile management to include acquisition of materials, storage, security, and maintenance;
- (4) the Department's ability to upgrade, refine, and process the material for storage, disposition, or use; and
- (5) any vulnerabilities to the National Defense Stockpile supply chain and the Department's risk mitigation efforts.

Navy Build-to-Print Cost Savings

The committee supports expanding competition in Navy acquisition, including appropriate use of "build-to-print" competitions where the Navy holds sufficient rights to the design of military equipment components to compete the production of them with multiple sources. The committee is aware of Navy efforts to use such competitions to dramatically reduce the time and cost of contracting for selected items. The committee encourages the Navy to expand these efforts if they can be pursued in a way that works collaboratively with industry on obtaining the necessary technical data rights and intellectual property through early negotiations.

One Hundred Percent Employee-Owned Contractors

The committee is interested in understanding the merits of 100 percent employee-owned contractors and the potential benefits they bring to strengthening the defense industrial base. The committee seeks to further understand the benefits and cost implications of awarding contracts to employee-owned contractors for the Department of Defense; the retention rates of employee-owned contractors; and any other benefits of this type of contractor.

The committee will work with the Comptroller General of the United States to further study these types of contractors.

Report on REE-Bearing Waste Recycling

The committee continues to be concerned with our dependence on foreign sources for materials critical to our national defense. To

help mitigate this supply chain risk, the FY 2017 National Defense Authorization Act strongly encouraged the Department to recycle discarded items, such as spent fluorescent lamps, in order to extract, reclaim and reuse critical materials and rare earth elements contained in such waste. This section also provided the Department broad authority to recover, acquire, recycle and manage the disposal and recyclable strategic and critical materials containing REE from other federal agencies.

The committee is aware of recent advances in domestic recycling technology, providing clean and efficient means for reclaiming rare earth elements from a variety of domestic waste streams. At current recycling levels of fluorescent lamps alone, recoverable quantities of target rare earth elements such as Yttrium, deemed by the Department to be critical to the national defense, can wholly offset the total amount of imported Yttrium originating in China on an annual basis, and sold at or below current market price.

Where feasible, such waste streams should not be destroyed or landfilled, but managed in accordance with our national defense needs. The committee therefore directs the Secretary of Defense to submit a report to the House Committee on Armed Services by February 1, 2019, on the Department's past and planned future use of new authorities granted to them to both recycle the Department's applicable REE-bearing waste, and recover and exploit the REE-bearing waste of other federal agencies.

LEGISLATIVE PROVISIONS

SUBTITLE A—STREAMLINING OF DEFENSE ACQUISITION STATUTES AND REGULATIONS

Section 800—Effective Dates; Coordination of Amendments

This section would set the effective dates for the establishment of a new part V of subtitle A of title 10, United States Code, and the redesignation of the chapter and section numbers for title 10 subtitles B, C, and D in order to create numerical space for a new part V at the end of subtitle A. This restructuring would also enable additional growth and potential future reorganization of title 10 statutes in other subject areas outside of the acquisition code.

The committee expects that this restructuring effort would be sustained. The second phase of reorganization would be enacted by follow-on legislation that would direct the more detailed chapter by chapter transfer into the final revised, rationalized structure of title 10 not later than February 1, 2020.

PART I—CONSOLIDATION OF DEFENSE ACQUISITION STATUTES IN NEW PART V OF SUBTITLE A OF TITLE 10, UNITED STATES CODE

Section 801—Framework for New Part V of Subtitle A

This section would establish the initial step in the first phase of a comprehensive reorganization and optimization of acquisition-related statutes in title 10, United States Code. The committee recognizes that the structure for acquisition-related statutes in title 10 has become unwieldy and inadequate.

This section would create a new part V at the end of subtitle A of title 10, thus logically organizing all acquisition-related statutes in one part in the Code. The committee expects that the actual shift of statutory language for the new part V would be established in a subsequent second phase of legislation, but not later than February 1, 2020.

The committee notes that reorganizing defense acquisition statutes into a restructured, rationalized form would reflect more clearly the underlying organization of these statutes and provide a structure that is more intuitive and easier to navigate, as well as facilitate future growth within the Code's structure. In addition, the proposed reorganization would provide an opportunity to restore parallelism between the acquisition-related provisions of title 10 and the corresponding provisions of title 41, United States Code, that are applicable to procurement by non-defense agencies, which would benefit the entirety of the Federal contracting community.

The committee expects that this restructuring effort will be sustained, and the second phase of reorganization will be enacted by follow-on legislation that will direct the more detailed chapter by chapter transfer into the final revised, rationalized structure of title 10 (to include the new part V of subtitle A) not later than February 1, 2020.

PART II—REDESIGNATION OF SECTIONS AND CHAPTERS OF SUBTITLES B, C, AND D TO PROVIDE ROOM FOR NEW PART V OF SUBTITLE A

Section 806—Redesignation of Sections and Chapters of Subtitle D of Title 10, United States Code—Air Force

This section would redesignate the chapter and section numbers for subtitle D of title 10, United States Code, in order to create numerical space for a new part V at the end of subtitle A. This restructuring would also enable additional growth and potential future reorganization of title 10 statutes in other subject areas outside of the acquisition code.

The committee expects that this restructuring effort would be sustained. The second phase of reorganization would be enacted by follow-on legislation that would direct a more detailed chapter by chapter transfer into a final revised, rationalized structure of title 10 not later than February 1, 2020.

Section 807—Redesignation of Sections and Chapters of Subtitle C of Title 10, United States Code—Navy and Marine Corps

This section would redesignate the chapter and section numbers for subtitle C of title 10, United States Code, in order to create numerical space for a new part V at the end of subtitle A. This restructuring would also enable additional growth and potential future reorganization of title 10 statutes in other subject areas outside of the acquisition code.

The committee expects that this restructuring effort would be sustained. The second phase of reorganization would be enacted by follow-on legislation that would direct a more detailed chapter by chapter transfer into a final revised, rationalized structure of title 10 not later than February 1, 2020.

Section 808—Redesignation of Sections and Chapters of Subtitle B of Title 10, United States Code—Army

This section would redesignate the chapter and section numbers for subtitle B of title 10, United States Code, in order to create numerical space for a new part V at the end of subtitle A. This restructuring would also enable additional growth and potential future reorganization of title 10 statutes in other subject areas outside of the acquisition code.

The committee expects that this restructuring effort would be sustained. The second phase of reorganization would be enacted by follow-on legislation that would direct a more detailed chapter by chapter transfer into a final revised, rationalized structure of title 10 not later than February 1, 2020.

Section 809—Cross References to Redesignated Sections and Chapters

This section would establish the cross-references guidance for new redesignated sections and chapters of title 10, United States Code.

The committee expects that this restructuring effort would be sustained. The second phase of reorganization would be enacted by follow-on legislation that would direct a more detailed chapter by chapter transfer into a final revised, rationalized structure of title 10 not later than February 1, 2020.

PART III—REPEALS OF CERTAIN PROVISIONS OF DEFENSE ACQUISITION LAW

Section 811—Amendment to and Repeal of Statutory Requirements for Certain Positions or Offices in the Department of Defense

This section would amend or repeal a number of statutory requirements for certain Department of Defense positions or offices established or required by law, and would establish a sunset for one statutory designation.

The committee notes that these repeals do not constitute an assessment of the offices' or positions' respective missions or roles in the acquisition process, but rather are an effort to remove needlessly prescriptive and obsolete requirements from the United States Code. Codifying the existence and structure of certain offices may unnecessarily restrict the Secretary of Defense's ability to modify the Department's organizational structure to improve efficiency and effectiveness in a way that is consistent with the reforms to the organization of the Office of the Secretary of Defense as required by section 901 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328). Repeal of these statutory requirements would not directly abolish the affected positions, but would allow the Secretary to restructure those positions should such action be warranted. Removing statutory mandates would enhance the Secretary's authority and ability to craft an agile acquisition organization.

Section 812—Repeal of Certain Defense Acquisition Laws

This section would repeal a number of outdated provisions of law related to defense acquisition, including sections of title 10, United States Code, and provisions that appear in the United States Code as legislative “note” sections under various provisions of title 10. These out-of-date provisions either required the Department of Defense to issue regulations, have now expired by their own terms, or are otherwise obsolete.

The committee notes that, with respect to repeal of a statutory requirement for issuance of a regulation, it is not expressing a view on the merits of the policies covered by the regulation. Rather, in repealing the statutory requirement for a regulation, this section would allow the Secretary of Defense to revise the regulation as circumstances warrant. Repealing the statutory requirement would allow the Secretary to revise or rescind the regulation, but would not prescribe it. The decision to retain, or not retain, the regulation would remain with the Secretary.

Section 813—Repeal of Certain Department of Defense Reporting Requirements

This section would repeal certain Department of Defense recurring reporting requirements. The committee notes that excessive reporting requirements can impose costs on the Department of Defense that outweigh the intended benefits of each individual report, and can potentially impede the Department’s ability to effectively direct resources to core objectives. In the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328), Congress initially directed a large group of recurring reporting requirements to sunset on December 31, 2021. This section continues to advance this streamlining effort.

SUBTITLE B—AMENDMENTS TO GENERAL CONTRACTING AUTHORITIES, PROCEDURES, AND LIMITATIONS

Section 821—Contract Goal for the AbilityOne Program

This section would amend section 2323a of title 10, United States Code, to create a contract goal for the AbilityOne program of 1.5 percent. This section would also require the Secretary of Defense to submit an annual report to the U.S. AbilityOne Commission on progress made toward achieving said contract goal.

The committee intends to establish greater transparency for this program’s execution.

Section 822—Increased Micro-Purchase Threshold Applicable to Department of Defense Procurements

This section would amend section 2338 of title 10, United States Code, by raising the micro-purchase threshold for the Department of Defense from \$5,000 to \$10,000.

Section 823—Preference for Offerors Employing Veterans

This section would amend chapter 137 of title 10, United States Code, by adding a new section that would authorize the head of an agency, in awarding a contract for the procurement of goods and

services for the Department of Defense, to establish a preference for offerors that employ veterans on a full-time basis, with criteria for use of such preference determined by the Secretary of Defense. Prior to establishing such preference, the Secretary of Defense would be required to provide a briefing to the House Committee on Armed Services on the process for assessing and verifying offeror compliance with regulations relating to equal opportunity for veteran's requirements, and an implementation plan that includes penalties for an offeror that willfully and intentionally misrepresents the veteran status of employees.

The committee notes the importance of ensuring and expanding economic opportunity for veterans, and the role of the Department in this endeavor. The committee further notes that the Department uses existing programs that maximize contracting opportunities for veteran-owned businesses and believes procurement policy should also encourage the employment of veterans through development of a preference that rewards the employment of veterans by companies. The committee also notes the importance of establishing effective compliance mechanisms as part of any such preference to ensure that the service of veterans is not abused as a result of willful misrepresentation of their status by offerors.

Section 824—Revision of Requirement to Submit Information on Services Contracts to Congress

This section would amend section 2329(b) of title 10, United States Code, to change from October 1, 2022, to October 1, 2020, the effective date for the Secretary of Defense's submission to Congress of information on services contracts that clearly and separately identifies the amount requested for each category of services to be procured for each Defense Agency, Department of Defense Field Activity, command, or military installation. This section would also add the requirement that such information should be included in the Future Years Defense Program submitted to Congress under section 221 of this title.

The committee notes the Department of Defense's recent decision to proceed with an initiative to budget services acquisitions over the course of the full Future Years Defense Program and to develop an implementation plan that leverages existing tools that can be employed to improve planning for acquisition of services. The committee notes that the Department's approach harmonizes well with the committee's reform efforts enacted in the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) concerning enterprise data standardization and transparency. The committee further notes that the Department's decision obviates the need for, and expenditure on, the independent analysis on this matter performed by a federally funded research and development center or other organization that was included in the conference report (H. Rept. 115-404) accompanying the National Defense Authorization Act for Fiscal Year 2018.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by December 1, 2018, on the development of this implementation plan and milestones leading to implementation of this initiative not later than October 1, 2020.

Section 825—Data Collection and Inventory for Services Contracts

This section would amend section 2330a of title 10, United States Code, by changing the dollar threshold for data to be collected on each purchase of services by a military department or Defense Agency from \$3.0 million to the simplified acquisition threshold. This section would also remove the specification of the four service acquisition portfolio groups to be included in such data collection. This section would also change the activities contained in an annual inventory prepared by the Secretary of Defense from those pursuant to staff augmentation contracts, to those pursuant to services contracts, and replace references to the Under Secretary of Defense for Acquisition, Technology, and Logistics with the Under Secretary of Defense for Acquisition and Sustainment.

Section 826—Competition Requirements for Purchases from Federal Prison Industries

This section would amend section 2410n of title 10, United States Code, by removing “for which Federal Prison Industries does not have a significant market share”.

This section would create a requirement for conducting market research before purchasing a product listed in the Federal Prison Industries (FPI) catalog. This section would require the Department of Defense to:

- (1) conduct market research to determine if the product is comparable to products in the private sector and meets the Department’s needs (price, quality, or time of delivery) prior to purchasing a product from FPI.
- (2) use competitive procedures or purchase under a multiple award contract if the product is not comparable and does not meet the Department’s needs.

Section 827—Requirement for a Fair and Reasonable Price for Technical Data Before Development or Production of Major Weapon Systems

This section would provide the Department of Defense with additional flexibility on negotiations for appropriate technical data.

Section 828—Revisions in Authority Relating to Program Cost Targets and Fielding Targets for Major Defense Acquisition Programs

This section would amend sections 2448a, 2366a, and 2366b of title 10, United States Code, to allow the Secretaries of the military departments, or, in instances where an alternate milestone decision authority for a program has been designated under section 2430(d)(2) of title 10, United States Code, the Secretary of Defense, to establish program cost, fielding, and performance goals in planning major defense acquisition programs. This section would also allow for the delegation of these responsibilities beyond the Deputy Secretary of Defense.

The committee notes that while section 825 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) amended section 2430 of title 10, United States Code, by changing the designation of the milestone decision authority for major de-

fense acquisition programs to be, with some exceptions, the service acquisition executive of the military department that is managing the program, this change has not been reflected elsewhere in this title. As a result, certain statutory responsibilities remain with the Secretary of Defense when they should more appropriately be performed by the Secretaries of the military departments. This section addresses this discrepancy as it pertains to establishing program cost, fielding, and performance goals in planning major defense acquisition programs, as well as associated reporting to Congress that coincides with the granting of Milestone A and Milestone B approval.

Section 829—Revision of Timeline for Use of the Rapid Fielding Pathway for Acquisition Programs

This section would amend section 804(b)(2) of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) to change part of the objective of an acquisition program under the rapid fielding pathway from completing fielding within 5 years, to completing low-rate initial production within 5 years.

The committee notes that requiring completion of fielding within 5 years may unnecessarily limit the applicability of this pathway for incremental upgrade programs.

Section 830—Clarification of Services Contracting Definitions

This section would direct the Secretary of Defense, not later than 180 days after the date of the enactment of this Act, to revise the Defense Federal Acquisition Regulation Supplement to clarify the definitions of and relationships between terms related to services contracts, including the appropriate use of personal and nonpersonal services contracts, and the responsibilities of individuals in the acquisition workforce with respect to such contracts.

The committee notes that definitions for terms related to contracted services are found in statute, regulation, and elsewhere in the Department of Defense’s contracted services lexicon. The committee expects the Department to clearly delineate in one place the definitions of and relationships between terms related to contracted services, including associated supervisory responsibilities.

SUBTITLE C—PROVISIONS RELATING TO COMMERCIAL ITEMS

Section 831—Revision of Definition of Commercial Item for Purposes of Federal Acquisition Statutes

This section would clarify the definition of commercial items. Specifically, it would clarify commercial items as commercial products or commercial services.

The committee notes the current definition of commercial items throughout the United States Code is inconsistent, with 40 disparate definitions of commercial items. Additionally, commercial item definitions do not appropriately take into account the differences between products and services. The separation of the definition of commercial items into commercial products and commercial services would simplify and streamline procurement. Consistency in application of definitions would assist the acquisition work-

force as well as businesses seeking to participate in the defense sector.

Section 832—Definition of Subcontract

This section would create a precise definition for “subcontract” in title 41, United States Code, and incorporates this revised definition in title 10, United States Code.

The committee notes there are multiple definitions of subcontract and establishing a single definition for a subcontract would provide clarification, simplicity, and consistency for defense procurement actions.

Section 833—Limitation on Applicability to Department of Defense Commercial Contracts of Certain Provisions of Law and Certain Executive Orders and Regulations

This section would update section 2375, section 2533a, and section 2533b of title 10, United States Code, with the clarified definition of commercial products and commercial services. This section would also establish a new section 2375a to limit applicability of certain Executive orders and regulations.

The committee expects that these revisions would remove current obstacles from commercial transactions between the Department of Defense and commercial suppliers, and improve access to the best commercial goods and services.

Section 834—Modifications to Procurement Through Commercial E-Commerce Portals

This section would amend section 846 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) to allow the Administrator of the General Services Administration to develop procedures for procurement through a commercial e-commerce portal. The procedures must satisfy the requirements for competitive procedures outlined in title 41, United States Code. Additionally, this section would require these procedures to be submitted to the congressional defense committees 30 days prior to implementation.

This section would also amend titles 10 and 41, United States Code, by increasing the micro-purchase threshold for procurement through a commercial e-commerce portal from \$10,000 to \$25,000.

The committee notes that Public Law 115–91 authorized the Office of Management and Budget to develop a program managed by the General Services Administration to procure commercial products through e-commerce portals. The committee expects the commercial e-commerce portals would simplify and streamline the defense acquisition process as well as provide better transparency.

SUBTITLE D—INDUSTRIAL BASE MATTERS

Section 841—Requirement That Certain Ship Components Be Manufactured in the National Technology and Industrial Base

This section would amend section 2534 of title 10, United States Code, and would require certain auxiliary ship components to be procured from a manufacturer in the national technology and industrial base.

Section 842—Report on Domestic Sourcing of Specific Components for All Naval Vessels

This section would require the Secretary of the Navy to submit a report to the congressional defense committees by March 1, 2019, that provides a market survey and cost assessment associated with limiting competition to domestic sources for certain naval components.

Section 843—Removal of National Interest Determination Requirements for Certain Entities

This section would streamline the National Industrial Security Program by removing the regulatory requirements relating to National Interest Determinations (NIDs). It would build on section 1712 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), which required a review of whether certain companies “should be exempted from one or more of the foreign ownership, control, or influence [FOCI] requirements of the National Industrial Security Program.” This section would address NIDs as a particularly urgent problem within that set of FOCI requirements authorized for exemption. It would also authorize the Secretary of Defense to accelerate implementation of this policy for contracting entities that have already demonstrated a longstanding commitment to industrial security and have previously been approved for access to proscribed information.

The committee is concerned that, especially with regard to entities from allied countries (United States, the United Kingdom of Great Britain and Northern Ireland, the Commonwealth of Australia, and Canada) that comprise the national technology and industrial base (NTIB), the NID process creates substantial burdens without meaningfully enhancing the government’s national security interests. It also causes the misallocation of scarce industrial security oversight resources. Under current practice, but not pursuant to any statutory mandate, NIDs are required for entities operating under a “special security agreement” (SSA) to access proscribed categories of classified information. The committee is aware that certain agencies can take between 6 and 10 months to process NID requests, even for SSA-mitigated companies from NTIB countries that have a longstanding history of industrial security performance in the United States and are critical players in our nation’s defense industrial base. These delays and associated burdens have restricted competition and innovation by excluding qualified and responsible U.S.-based companies that operate under SSAs.

Section 844—Pilot Program To Test Machine-Vision Technologies To Determine the Authenticity and Security of Microelectronic Parts in Weapon Systems

This section would require the Under Secretary of Defense for Research and Engineering, in coordination with the Defense Microelectronics Activity, to establish a pilot program to test the feasibility and reliability of using machine-vision technologies to determine the authenticity and security of microelectronics parts in weapon systems.

The committee supports the Department of Defense’s comprehensive counterfeit material prevention strategy, which is a risk-based

approach that includes collaboration with industry to reduce counterfeit parts in the supply chain. The committee notes that since it first highlighted this issue in 2012, the Department has made significant improvements and standardized the processes for assuring acquisition of authentic and conforming material. However, remaining ahead of emerging security threats in this area remains a challenge.

The committee believes that utilization of innovative software applications may provide opportunities to cost-effectively add capabilities and improve operations by addressing gaps from third-party providers, including receiving and inspection requirements for non-franchised parts.

Specifically, the committee is aware of new technologies based on personalization and anti-counterfeiting software that, combined with optical and digital authentication methods, are effectively being used to meet high-security inventory demands in commercial industry. Such technologies include machine-vision technologies that have the ability to identify and authenticate objects without adding additional hardware to the object such as radio frequency identification chips, bar codes, quick response codes, or serial numbers. These technologies provide identification of counterfeit goods by using authentication methods that are strongly resistant to replication and tampering; can be applied to a variety of substrates such as plastic and metal; can be encoded and/or embedded onto substrates; and can be easily authenticated optically and digitally using decoder devices and applications on mobile devices. The committee understands that such technologies may provide data analytics capability as well. As a result, the committee believes a pilot program of the appropriate scope is the best way for the Department to evaluate and understand the potential of this new technology.

SUBTITLE E—SMALL BUSINESS MATTERS

Section 851—Department of Defense Small Business Strategy

This section would require the Department of Defense to develop and implement a small business strategy to better leverage small businesses as a means to enhance or support mission execution. This section specifies that such a strategy should include plans to integrate small businesses into a holistic view of industry; to realign the Department's small business programs with agency mission under a unified management structure; and to clarify points of entry into the defense market.

The committee expects that this unified strategy would create expanded small business engagement in the defense sector by increasing entry points for non-traditional and innovative companies.

Section 852—Prompt Payments of Small Business Contractors

This section would direct Federal agencies to establish a prompt payment goal of 15 days for small business prime contractors. It would also extend the accelerated payment objective to other-than small prime contractors that subcontract with small businesses, and encourage these prime contractors to also accelerate payments to their small business subcontractors.

Section 853—Increased Participation in the Small Business Administration Microloan Program

This section would amend section 636(m)(3)(C) of title 15, United States Code, by increasing the total limit on outstanding loans from \$5.0 million to \$6.0 million.

This section would also amend section 636(m)(4)(E), which establishes the “25/75 Rule.” Currently, the 25/75 Rule prohibits a microloan intermediary from using more than 25 percent of the technical assistance grants they receive from the Small Business Administration (SBA) to provide pre-loan assistance to small business borrowers and third-party contracts. This section would amend the ratio from 25/75 to 50/50.

This section would also require the Administrator of SBA to submit a report to the Committee on Small Business of the House of Representatives and the Committee on Small Business and Entrepreneurship of the Senate, not later than 1 year after the date of the enactment of this Act, on why the program often has low participation rates among microlenders. The report shall gather a representative sample of eligible entities that participate in the program and those that do not, along with the reasons why entities do not partake, and offer recommendations on modifications that would increase participation.

Finally, this section would require the Comptroller General of the United States to submit a report to the Committee on Small Business of the House of Representatives and the Committee on Small Business and Entrepreneurship of the Senate, not later than 1 year after the date of the enactment of this Act, evaluating SBA oversight of the microloan program and the specific processes SBA uses to ensure compliance and track performance.

Section 854—Amendments to Small Business Innovation Research Program and Small Business Technology Transfer Program

This section would authorize the use of Small Business Innovation Research or Small Business Technology Transfer program funding for administrative costs and expand phase flexibility during fiscal years 2018 through 2022.

Section 855—Construction Contract Administration

This section would amend section 644 of title 15, United States Code, to require Federal agencies to provide prospective construction contractors with information about an agency’s policies and performance on the administration of change orders.

Section 856—Broadband and Emerging Information Technology Coordinator

This section would direct the Associate Administrator for the Office of Investment and Innovation of the Small Business Administration to designate a senior employee as the “Broadband and Emerging Information Technology Coordinator.” The Coordinator would be responsible for connecting small businesses with financing programs, and advising these businesses on how to acquire broadband and new information technology.

This section would also direct a biennial report on activities beginning 2 years after the first designation of a Coordinator to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives.

Section 857—Amendments to the Small Business Investment Act of 1958

This section would amend the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) by increasing the Individual Leverage Limit from \$150.0 million to \$175.0 million and by increasing the total amount of capital and surplus that a financial institution and Federal savings association can invest in a small business investment company from 5 percent to 15 percent.

Section 858—Consolidated Budget Justification for the Department of Defense Small Business Innovation Research Program and Small Business Technology Transfer Program

This section would direct the Secretary of Defense to submit to Congress a budget justification for all activities conducted under the Small Business Innovation Research Program or Small Business Technology Transfer Program during the previous fiscal year.

Section 859—Funding for Procurement Technical Assistance Program

This section would amend section 2413(b) of title 10, United States Code, to provide Procurement Technical Assistance Centers (PTACs) the resources necessary to conduct greater outreach and provide expanded support to small businesses. Division D of this Act would increase the topline budget for the Procurement Technical Assistance Program to \$50.0 million.

This section would increase the funding caps for PTACs operating on statewide, less than statewide, and eligible tribal locations. This section would also adjust the percentage of Federal funding for PTACs to 75 percent from 65 percent, and would adjust the community contribution to 25 percent from 35 percent.

Section 860—Exemption of Certain Contracts From the Periodic Inflation Adjustments to the Acquisition-Related Dollar Threshold

This section would amend subparagraph (B) of section 1908(b)(2) of title 41, United States Code, to exempt certain contracts from the periodic inflation adjustments to the acquisition-related dollar threshold.

SUBTITLE F—OTHER MATTERS

Section 871—Additional Requirements for Negotiations for Noncommercial Computer Software

This section would amend section 2322a of title 10, United States Code, and codify existing Defense Federal Acquisition Regulations on noncommercial software rights as well as mandate, to the maximum extent practicable, that specially negotiated licenses be used for weapon systems noncommercial software.

Section 872—Removal of Requirement for Risk and Sensitivity Analysis of Baseline Estimates in Selected Acquisition Reports

This section would amend section 2432(c)(1)(B) of title 10, United States Code, by removing the requirement for risk and sensitivity analysis to be included with baseline estimates in selected acquisition reports.

The committee notes that risk and sensitivity analyses help in understanding the effects of changing variables on cost estimates. However, this language has been interpreted as requiring analysis of the sensitivity of the information in selected acquisition reports, resulting in unwarranted barriers to dissemination.

Section 873—Prohibition on Acquisition of Sensitive Materials From Non-Allied Foreign Nations

This section would amend section 2533b of title 10, United States Code, by prohibiting acquisition of certain sensitive materials from non-allied foreign nations.

Section 874—Transfer or Possession of Defense Items for National Defense Purposes

This section would amend sections 922 and 925 of title 18, United States Code, to allow joint production, integration, and calibration of military-grade hardware by licensed contractors, transfers of defense items to government customers, and export of authorized weapons to foreign governments.

Section 875—Expedited Hiring Authority for Shortage Category Positions in the Acquisition Workforce

This section would expand and extend direct-hire authority for acquisition professionals, which permits an agency to appoint candidates to positions for which there is either a severe shortage of candidates or a critical hiring need. Section 1413 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108–136) authorized agency heads to determine, under regulations prescribed by the Office of Personnel Management (OPM), that certain Federal acquisition positions are shortage category positions in order to use direct-hire authorities. This section would extend the expiration date on those direct-hire authorities from September 30, 2017, to September 30, 2021. Additionally, this section would add the General Schedule Realty series (GS–1170) to the description of acquisition workforce found in section 1703 of title 41, United States Code, thereby including GS–1170 positions under the direct-hire authority extension established in this section.

The committee notes that the government depends on skilled acquisition and program personnel to understand complex market dynamics, develop clear requirements, negotiate in the best interest of the taxpayer, and hold contractors to high performance standards. The expediency that direct-hire authority allows can be helpful to an agency both in meeting critical initiatives that may require particular expertise, such as to support information technology modernization, cybersecurity efforts, and real property acquisition and disposal, as well as supporting the Federal Govern-

ment as it plans and executes on its agency and regulatory reform activities.

Section 876—Extension of Prohibition on Providing Funds to the Enemy

This section would amend section 841(n) of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291) to change from December 31, 2019, to December 31, 2021, the sunset date for the provisions of the prohibition on providing funds to the enemy.

Section 877—Repeal of Certain Determinations Required for Grants of Exceptions to Cost or Pricing Data Certification Requirements and Waivers of Cost Accounting Standards

This section would repeal section 817(b)(1) of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107–314) regarding certain determinations required for grants of exceptions to cost or pricing data certification requirements and waivers of cost accounting standards.

The committee notes that section 817(b) of Public Law 107–314 provides that a grant of an exception or waiver is appropriate only upon a determination that the property or services cannot reasonably be obtained under the contract, subcontract, or modification, as the case may be, without the grant of the exception or waiver, in addition to two other determinations. The committee believes that this requirement could unnecessarily limit the granting of exceptions or waivers in those instances in which, while cost and pricing data could be obtained, it would add little value and delay contract negotiations. For example, on a long-running production program, determination of a fair and reasonable price may be both possible and more efficiently performed without submission of certified cost and pricing data, and therefore meet two of the three conditions for grant of an exception or waiver. However, because the contractor is willing and able to provide such data, the condition at section 817(b)(1) would not be met and the exception or waiver could not be granted.

The committee believes that increasing the flexibility with which exceptions or waivers can be granted will help streamline the acquisition process. The committee expects the Secretary of Defense to promptly revise the Defense Federal Acquisition Regulation Supplement to reflect this repeal.

Section 878—Reporting on Projects Performed through Transactions Other Than Contracts, Cooperative Agreements, and Grants

This section would direct the Secretary of Defense to submit to the congressional defense committees, not later than December 31 of each year through 2021, a report on the Department of Defense’s use of transactions other than contracts, cooperative agreements, and grants, known as other transaction authority, to perform projects. The report would include, for transactions that provide for payments in a total amount in excess of \$5.0 million, information including the entities entering into the transaction, the amount of payment provided for, project goals and status, and key dates. The

report would also address mechanisms established to regulate use of this authority, including policies, guidance, and reporting requirements.

The committee remains committed to providing the Department of Defense the needed flexibility to acquire advanced capabilities through streamlined and expedited processes. The committee recognizes that other transaction authority has been an effective tool for research and development, particularly for execution of science, technology, and prototyping programs. It provides needed flexibility in terms of adherence to select Federal acquisition regulations. While the benefits of this flexibility are clear, the committee believes that it is still necessary to exercise effective oversight both to understand the ways in which the Department is properly leveraging the use of this authority and to prevent its abuse or misuse. The committee does not intend for this reporting requirement to cause the Department to seek additional approval for use of other transaction authority, beyond the congressional notification requirement already established in statute. Rather, it is designed to facilitate regular and consistent updates on use of this authority across the Department in order to facilitate proper assessment of effectiveness and success. The \$5.0 million threshold for reporting is consistent with the amount established in statute for inclusion of a clause that provides for the Comptroller General of the United States to examine the records of any party to an agreement entered into using other transaction authority.

Section 879—Standardization of Formatting and Public Accessibility of Department of Defense Reports to Congress

This section would direct the Secretary of Defense to provide a briefing not later than March 1, 2019, to the House Committee on Armed Services on a plan for implementing, not later than March 1, 2020, standardization of the formatting and public accessibility of unclassified Department of Defense reports required by Congress. The briefing shall address how the Department plans to ensure that reports are created in an open format that can be retrieved, downloaded, indexed, and searched by commonly used web search applications. An open format is one that is platform independent, machine readable, and made available to the public without restrictions that would impede reuse of that information. The briefing shall also address how the Department plans to provide a publicly accessible online repository of its unclassified reports to Congress required by provisions of law, including protocols for inclusion of reports which, although unclassified, may not be appropriate for public release in their entirety. The briefing shall address how the Department plans to include in the repository unclassified reports to Congress required by provisions of law issued since January 1, 2010.

Section 880—Defending United States Government Communications

This section would provide that, not later than January 1, 2021, no government agency may procure or obtain, nor extend or renew a contract to procure or obtain, nor enter into a contract with an entity that uses covered telecommunications equipment or services

with any covered entity. This section would define covered telecommunications equipment or services as that:

(1) produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of either company);

(2) telecommunications services provided by an entity using such equipment; or

(3) telecommunications equipment or services produced or provided by an entity that the head of an agency believes to be owned or controlled by, or otherwise connected to, the Government of the People's Republic of China.

This section would require the head of an agency to submit to the specified committees a plan to phase in the prohibition in this section, including with respect to the "white label" problem.

This section would also permit the head of an agency to provide an additional 2-year waiver if he determines it is appropriate to allow an entity to terminate its use of covered telecommunications equipment and he can demonstrate certain other conditions have been met. Additionally, the head of an agency would be permitted, subject to the receipt of a written assurance concerning any future use of Huawei or ZTE Corporation components, to permit an entity to continue to use components through the end of their reasonable life-cycle, if the component cannot be used to route or direct data traffic or provide visibility into any data or packets transmitted or manipulated by such components.

This section would further require the Director of National Intelligence (DNI), in coordination with the Director of the Federal Bureau of Investigation and the Secretaries of State, Homeland Security and Defense, to produce a report on the national security risks posed by use of technology produced by Huawei and ZTE technology, especially pertaining to evidence of malicious software or hardware that enables unauthorized network access. The DNI would further be required to develop a plan to share such report with U.S. allies, partners, and U.S. cleared defense contractors and telecommunications service providers. The Director would also be required to ensure an unclassified version of the report is available for U.S. allies and partners, and well as telecommunications companies, that do not have access to classified information.

In an April 12, 2018, House Committee on Armed Services hearing, the Secretary of Defense stated with respect to information and communications technology produced by companies linked to the People's Republic of China, namely Huawei and ZTE, that he does "not think that's wise" for the Department to allow equipment manufactured and maintained by those companies to be a part of its supply chain.

The committee is also aware that the Federal Communications Commission in an April 17, 2018, meeting voted unanimously to approve a proposed rule that would deny Universal Service Fund support to purchase equipment or services from companies posing a national security threat to the integrity of communications networks or the communications supply chain. The commission specifically cited the risks posed by Huawei and ZTE in the notice of proposed rulemaking.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

LEGISLATIVE PROVISIONS

SUBTITLE A—ORGANIZATION AND MANAGEMENT OF THE DEPARTMENT OF DEFENSE GENERALLY

Section 901—Authority of Secretary of Defense to Determine Command and Control Relationships

This section would amend section 113 of title 10, United States Code, to specify that the Secretary of Defense may define command and control relationships within the Department of Defense as necessary to support the Department's objectives and missions.

Section 902—Civilian Personnel Management

This section would amend section 129 of title 10, United States Code, to require the Secretary of Defense to consider the cost of the Department of Defense military and contract workforces, along with the cost of the civilian workforce, when managing the civilian personnel workforce of the Department.

Section 903—Performance of Civilian Functions by Military Personnel

This section would amend section 129a of title 10, United States Code, to require that when the Secretaries of the military departments determine that the performance of civilian functions by military personnel is cost effective, that they further consider whether the functions performed are consistent with the military occupational specialty for which the military personnel have been trained.

Section 904—Roles of Under Secretary of Defense for Policy and Under Secretary of Defense for Intelligence

This section would amend section 134 of title 10, United States Code, with respect to the authorities of the Under Secretary of Defense for Policy. It would amend the Under Secretary's responsibility for supervising and directing the activities of the Department with respect to export controls, to focus on policy making within the Department as it pertains to export controls.

This section would add a new authority to those of the Under Secretary of Defense for Policy, subject to the Secretary of Defense, with respect to the development, implementation, and integration across the Department of Defense of the National Defense Strategy and other strategic policy guidance for the activities of the Department across all geographic regions and military functions and domains. It would also provide the Under Secretary with the authority, subject to the Secretary of Defense, of integrating the activities of the Department of Defense within the interagency process with respect to the National Security Strategy of the United States.

The committee notes that the Summary to the 2018 National Defense Strategy stated that "the central challenge to U.S. prosperity and security is the reemergence of long-term strategic competition by what the National Security Strategy classifies as revisionist

powers.” The committee asserts that it is essential that a senior civilian official be responsible for, subject to the Secretary of Defense, the Department’s efforts with respect to strategic competition.

This section would also amend section 137 of title 10, United States Code, with respect to the authorities of the Under Secretary of Defense for Intelligence. The Under Secretary of Defense for Intelligence would assume the authority for supervising and directing the activities of the Department of Defense with respect to technology protection in the export controls process, other than the policy making activities that are the responsibility of the Under Secretary of Defense for Policy.

Numerous senior Department of Defense civilian and military officials have testified to the risk to U.S. military technological superiority and the committee believes that the Under Secretary of Defense for Policy and the Under Secretary of Defense for Intelligence, respectively, have specific roles in, and expertise with, protecting sensitive technologies.

Section 905—Designation of Navy Commanders

This section would amend section 5013 of title 10, United States Code, to require the Secretary of the Navy to designate a single commander within the Department of the Navy responsible for ensuring Navy forces are available for tasking and deployment, including those Navy forces that may be operating from a forward deployed location. This section would also require the Secretary to designate a single commander for all Navy shipyards, including any located overseas.

The committee notes that the Secretary of the Navy’s Strategic Readiness Review cited unclear command relationships as a contributing factor to the surface force accidents suffered by 7th Fleet ships in 2017. The committee encourages the Secretary to consider designating the Commander, Fleet Forces Command, as the responsible commander for tasking and deployment, as that official performs that function now for all naval forces excepting the Pacific Fleet.

The committee notes that the Commander, Naval Sea Systems Command, has the overall responsibility within the Department of the Navy for scheduling and maintaining Navy vessels in public and private shipyards, with the exception of the U.S. Naval Ship Repair Facility and Japan Regional Maintenance Center. The committee encourages the Secretary to consider designating the Commander, Naval Sea Systems Command, as the single commander of naval shipyards, including the facility located in Japan.

SUBTITLE B—COMPREHENSIVE PENTAGON BUREAUCRACY REFORM AND REDUCTION

Section 911—Authorities and Responsibilities of the Chief Management Officer of the Department of Defense

This section would authorize the Chief Management Officer (CMO) of the Department of Defense to carry out the elimination of agencies and activities (other than those established by statute and other than the Department of Defense Education Activity), and to maximize efficiency across the Department with respect to civil-

ian resource management, logistics, services contracting, and real estate management (other than with respect to the military departments). Section 132a of title 10, United States Code, would be further amended by requiring each Defense Agency and Department of Defense Field Activity to transmit their budgets to the CMO for review before submission to the Under Secretary of Defense (Comptroller). The CMO would submit a report concerning all proposed budgets to the Secretary of Defense not later than January 31 of the year preceding the budgets' fiscal year. The Secretary would submit a report by March 31 with a plan of action and proposed legislation for each budget the CMO did not certify. No Defense Agency or Department of Defense Field Activity funds, with respect to civilian resource, logistics, services contracting, and real estate management shall be obligated or expended until the CMO approves the plan; such process shall be conducted without impact to the processes carried out by the Director of National Intelligence.

The Department's Chief Management Officer would reduce or eliminate duplicative cross-enterprise functions across all Defense Agencies and Field Activities related to civilian resource, services contracting, logistics, or real estate management. Not later than March 1, 2020, the CMO would submit a plan to the congressional defense committees. The CMO would certify that the Department has achieved at least 25 percent savings of these functions within these Defense Agencies and Field Activities by January 1, 2021; the Government Accountability Office would verify and validate the CMO's certification. This would be a recurring requirement, each 5 years (beginning January 1, 2021), with the second iteration expanding the scope of the review to include the military departments.

Section 912—Authorities and Responsibilities of the Inspector General of the Department of Defense

This section would require the Department of Defense Inspector General (IG) to maximize efficiency among Department IGs with respect to any cross-enterprise IG activities. This section would require each organization or element IG to submit a budget to the Department of Defense IG for review before submission to the Under Secretary of Defense (Comptroller). The Department IG would submit a report about the budgets to the Secretary not later than January 31 of the year preceding the budget's fiscal year. The Secretary would submit a report to Congress about budgets the Department IG did not certify by March 31 each year, including a plan of action and recommended legislation. No IG funds may be obligated or expended until the Department IG certifies the IG's budget. The Department IG would submit a plan for compliance with the above not later than March 1, 2020.

The committee understands there are almost 30 different inspectors general (IGs) in the Department of Defense, including: the Department of Defense IG, the four military service IGs, the Special Inspector General for Afghanistan Reconstruction, the nine combatant commands, the Defense Media Activity, the Defense Contract Audit Agency, the Defense Contract Management Agency, Defense Information Systems Agency, Defense Logistics Agency, Defense Security Service, and Defense Threat Reduction Agency. The committee believes this proliferation of IG offices merits oversight from

a lead IG to determine if there are opportunities for elimination of waste, redundancy, and duplication.

Section 913—Transition of Certain Defense Agencies and Department of Defense Field Activities

This section would require the Secretary of Defense, acting through the Chief Management Officer (CMO), to submit a plan to the congressional defense committees not later than March 1, 2020, concerning the transfer and migration of all Defense Information Systems Agency information technology contracting and acquisition services, and senior leader communications functions, to other Department elements.

This section would require the CMO to eliminate the Washington Headquarters Service not later than January 1, 2021. The CMO would transfer any essential functions to other appropriate elements of the Office of the Secretary of Defense (OSD) and eliminate the others. The CMO would be required to submit a plan to the congressional defense committees to accomplish the above by March 1, 2020.

This section would also require the CMO to review the efficiency and effectiveness of each Defense Agency and Department of Defense Field Activity and to examine potential duplication among the agencies and activities. The CMO would be required to submit a report to the congressional defense committees on his findings not later than March 1, 2020, including any recommendations to eliminate an agency or activity or transfer some or all of its functions to another Department entity.

This section would also clarify the Secretary's authority to establish or terminate any Defense Agency or Department of Defense Field Activity, other than entities that are specifically established or terminated by act of Congress.

Section 914—Actions To Increase the Efficiency and Transparency of the Defense Logistics Agency

This section would require that the Director of the Defense Logistics Agency (DLA) and the Chief Management Officer (CMO) jointly implement a comprehensive system not later than January 1, 2021, that enables customers to view items and materials available to customers, the delivery status of items and materials in transit, and predictive analytics designed to improve the system's efficiency.

This section would also require the Director of DLA and the CMO to jointly reduce charged rates by at least 10 percent, eliminate duplication of services, and establish specific goals and metrics to ensure the agency is fulfilling its mission by January 1, 2021.

This section would also require the Director of DLA and the CMO to jointly submit a plan to accomplish the above to the congressional defense committees by March 1, 2020.

Section 915—Review of Functions of Defense Contract Audit Agency and Defense Contract Management Agency

This section would direct the Under Secretary of Defense for Acquisition and Sustainment and the Under Secretary of Defense

(Comptroller) to conduct a joint review of the Defense Contract Auditing Agency and Defense Contract Management Agency to validate their missions and functions and determine if any of their functions could be more appropriately performed by the other Agency, any other organization within the Department of Defense, or commercial providers. This review would also validate the continued need for two separate Agencies with oversight for defense contracting. The Secretary of Defense shall submit, not later than March 1, 2020, a report to the congressional defense committees that includes the results of this review.

Section 916—Streamlining of Defense Finance and Accounting Services

This section would require that, not later than January 1, 2021, the Chief Management Officer (CMO) and the Under Secretary of Defense (Comptroller) shall jointly carry out activities to make the Defense Finance and Accounting Services more efficient and effective.

This section would further require that, not later than March 1, 2020, the CMO and Comptroller shall jointly submit a plan for carrying out such activities to the congressional defense committees.

Section 917—Reduction in Number of Chief Information Officers in the Senior Executive Service

This section would require that, starting in calendar year 2021, there may not be more than five “Chief Information Officers” in the Department of Defense.

The committee understands that there are at least 60 Senior Executive Service grade positions in the Department of Defense with the position of “Chief Information Officer”.

The committee is concerned that this number of senior personnel with this same responsibility injects duplication, redundancy, and slows the Department’s ability to swiftly react to the requirements of the Department in terms of information technology and responding to the cyber domain of warfare.

Section 918—General Provisions

This section would provide authority for the Secretary of Defense and the Chief Management Officer of the Department of Defense to consolidate certain reporting requirements established in this Act.

This section would also define certain terms used in this Act and make certain conforming changes in title 10, United States Code.

SUBTITLE C—OTHER MATTERS

Section 921—Artificial Intelligence and Machine Learning Policy and Oversight Council

This section would direct the Under Secretary of Research and Engineering to establish an Artificial Intelligence and Machine Learning Policy and Oversight Council to continuously improve research, innovation, policy, joint processes, and procedures that facilitate the development, acquisition, integration, advancement,

and sustainment of artificial intelligence and machine learning throughout the Department of Defense.

Section 922—Limitation on Transfer of the Chemical, Biological, and Radiological Defense Division of the Navy

This section would require the Secretary of the Navy to provide a report to the congressional defense committees on the timeline, costs, risks, and benefits of transferring the Chemical, Biological, and Radiological Defense Division, Dahlgren, Virginia, to another location. The report would be required not later than 90 days after the date of the enactment of this Act. This section would further prohibit the Secretary of the Navy from transferring or preparing to transfer the Chemical, Biological, and Radiological Defense Division to another location until 45 days after submission of the report.

TITLE X—GENERAL PROVISIONS

ITEMS OF SPECIAL INTEREST

COUNTER-DRUG ACTIVITIES

Colombian Security and the U.S.-Colombian Partnership

The peace accords between the Government of Colombia and the Revolutionary Armed Forces of Colombia (FARC) in August 2016 was a landmark event that ended over 50 years of armed conflict in Colombia. As a result of the agreement, the Colombian legislature passed, and the Government of Colombia implemented, several portions of the peace accords, which included demobilization and reintegration processes for FARC members. The committee is encouraged by the progress of the Colombian people and its Government in implementing the peace accord legislation.

Colombian leadership has made great strides in bringing stability to the country, developing integration pathways for the FARC political party, disarming over 11,000 FARC members, implementing rural development, establishing rule of law, and reintegrating FARC members into society. The committee notes that complete implementation of other pieces of the peace accords, including land reform and combating FARC dissidents who have chosen not to disarm, will likely take decades.

The committee commends the Government of Colombia for its continued leadership in working to end decades of violence and instability with the FARC and other armed groups in Colombia. The committee is also aware that security issues remain a problem in Colombia, including transnational criminal organizations seizing territorial control post peace accords, FARC dissidents choosing not to disarm and continuing criminal behavior, and increasing coca production over the past 2 years.

Further, the committee commends the Colombian military on its professionalization, successes in bringing security to Colombia and being the exporters of security to global organizations such as the North Atlantic Treaty Organization, and regional neighbors including the Republic of Honduras, the Republic of Guatemala, and the United Mexican States.

Over the past 17 years, the U.S. has assisted Colombia in the fight for its security and stability. The committee has supported these efforts and acknowledges the continuing vital importance of the U.S.-Colombian relationship for bringing strength and stability to the hemisphere.

DOD Support to Combating the Opioid Epidemic

The committee is deeply concerned about the rising numbers of opioid-related deaths in the United States. This nationwide health epidemic affects millions of people and their families. The abuse of opioids, both prescription and illicit opioids, is a public health emergency as categorized by the President in January 2018. This crisis highlights national security concerns including illicit trafficking of opioids, synthetic opioids, to include Fentanyl, and precursors for the production of opioids by transnational criminal organizations (TCOs), and their networks which have supply chains that extend into south and east Asia. The committee believes that the Department of Defense can play a vital role in support of lead U.S. agencies to address this crisis.

Therefore, the committee directs the Secretary of Defense, no later than September 30, 2018, to submit a report to the House Committee on Armed Services with an assessment of the assistance the Department is providing to lead U.S. government agencies to combat the opioid crisis. This report should include an assessment of resources available to assist other U.S. government partners in their strategy to combat the opioid epidemic to include the United States Postal Service, and an analysis of potential opportunities for the Department to provide assistance in the future.

United States-Mexico Security Cooperation

The committee recognizes the importance of the relationship between the United States and the United Mexican States. The United States continues to face a nationwide epidemic of opioid addiction. Mexico continues to face violence, corruption, and instability as a result of transnational criminal organizations (TCOs) producing opioids and other illicit substances for distribution in the United States. The unlawful activity of the TCOs creates instability, violence, and insecurity in both the United States and Mexico.

The committee believes these shared security challenges can only be countered cooperatively as each nation addresses illicit trafficking, violence, and production and distribution of illicit narcotics. The strength of the military-to-military relationship between the United States and Mexico is vital in combating these challenges. The committee encourages efforts to continue the development of the strong relationship and partnership between the U.S. Armed Forces and the Mexican Armed Forces.

OTHER MATTERS

Assessment of Air National Guard and Air Force Reserve Involuntary Mobilization Plans to Support Special Operations Activities

During review of the fiscal year 2019 President's budget request and related activities in support of Air Force Special Operations

Command (AFSOC), the committee determined that a small number of Air National Guard units and all Air Force Reserve Command units that support AFSOC missions and force presentation requirements do not possess a current, validated involuntary mobilization plan that complies with various Department of Defense, Department of the Air Force, and Special Operations Command instructions or policies. The committee is concerned that without sufficient and validated involuntary mobilization plans that detail how the Air National Guard and the Air Force Reserve Command intend to support AFSOC as operational reserve units, should the need arise for Special Operations Command to fully mobilize forces in support of global special operations activities, the Air National Guard and Air Force Reserve Command may lack the capability and capacity to support the mission.

Therefore, the committee directs the Comptroller General of the United States to provide a briefing to the House Committee on Armed Services not later than March 1, 2019, that assesses involuntary mobilization plans for Air National Guard and Air Force Reserve Command units that support Air Force Special Operations missions and activities. The Comptroller General should assess, at a minimum:

- (1) the existence and recency of an involuntary mobilization plan;
- (2) the sufficiency and validity of the plan as compared to a unit's Designed Operational Capability statement, authorized and assigned manpower levels, authorized and assigned equipment, facilities, and support functions necessary to execute the plan;
- (3) comparison with existing Department of Defense policy and regulations governing mobilization-to-dwell and deployment-to-dwell goals and objectives;
- (4) any discrepancies, shortfalls, or gaps associated with the aforementioned areas of assessment; and
- (5) any additional information the Comptroller General would find useful to support the briefing.

Briefing on Ukrainian Special Operations Forces Training

The committee recognizes the critical role played by U.S. and partner assistance in training, advising, and equipping Ukrainian military and security forces over the last several years, especially at the International Peacekeeping and Security Center in Yavoriv, Ukraine. This training facility has facilitated the successful completion of numerous joint, combined exercises up to the battalion level and has better enabled multi-domain readiness of Ukrainian forces. By employing the instrumented training capability at this center, United States Army Europe has led the Joint Multinational Training Group-Ukraine in greatly enhancing the operational capability, performance, and professionalism of Ukrainian forces.

The committee further understands that such joint, combined training is scheduled to conclude in 2020 and that the Ukrainian General Staff is aware of acute needs, identified in October 2016 and restated in December 2017, to modernize the International Peacekeeping and Security Center before such training ends. These requirements include refurbishing and adding multiple integrated laser engagement systems, enhancing range and battlefield effects, and developing an urban operations training system.

Finally, the committee understands that since their establishment in 2016, Ukrainian special operations forces have grown in both numbers and capabilities with a focus on unconventional missions such as counterterrorism and drug interdiction operations. In addition, Ukrainian land forces have grown, requiring additional training to support skills development in support of combined exercises with NATO and U.S. forces. Therefore, the committee directs the Secretary of Defense to provide the congressional defense committees, not later than September 30, 2018, with a briefing on current and planned U.S. support to Ukrainian special operations and land forces training, including but not limited to: detailed assessments of both the training center at Berdychiv, Ukraine and a land forces training complex in the Mykolaiv District near Odessa, Ukraine; analysis of training requirements; and a plan for potential U.S. funding assistance to new or modernized training facilities.

Civil Support Team Information Management System

The committee is aware that the National Guard Bureau Weapons of Mass Destruction Civil Support Teams (CST) currently field the CST Information Management System (CIMS). CIMS provides a common operation picture and promotes information sharing and real-time collaboration. CIMS also supports the CST mission of assisting and advising first responders and facilitating communications with other Federal resources in an emergency.

The committee encourages the expansion of CIMS to establish an enterprise-wide capable tool, commonly referred to as the National Guard Chemical, Biological, Radiological, and Nuclear Response Enterprise Information Management System 2018+ (NG CIMS 2018+). The committee believes that expansion will increase the capabilities of the CIMS to support other National Guard Bureau forces, such as the Chemical, Biological, Radiological, Nuclear, and High-Explosive Enhanced Response Force Package and Homeland Defense Response Force units.

The committee notes that the timeline the Department of Defense previously presented to the committee in their September 8, 2015, report "Civil Support Team Information Management System" has been delayed. The committee, therefore, directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by October 1, 2018, on the plan for the development of NG CIMS 2018+, including a description of timelines, milestones, fielding, and completion dates.

Close Combat Lethality Task Force

The Committee understands that military operations still require our units to close with and destroy the enemy. The Committee also notes that, despite comprising a tiny fraction of total Department of Defense personnel, the ground close combat formations primarily tasked to close with and destroy the enemy bear a unique burden, reflected in them historically accounting for almost 90% of casualties.

The Committee is aware that the Secretary of Defense established the Close Combat Lethality Task Force (CCLTF) on February 8, 2018 in order to implement select initiatives identified by the 2017 Cost Assessment and Program Evaluation's Close Combat

Strategic Portfolio Review. The Committee also notes that the CCLTF further aims to improve the personnel policies, training methods, and equipment to update the training of ground close combat formations to reflect available technology, human factors science, and talent management best practices.

The Committee notes that, relative to the overall size of the Department budget, the cost of supporting modernization to equipment and training for ground close combat formations is relatively small. The Committee believes that increased investments in these units' personnel, equipment, readiness, and training offer outsize returns for our military's combat capabilities.

The Committee notes that greater tactical integration of existing unmanned aircraft—specifically medium-altitude, long-endurance aircraft—offers a unique opportunity to address deficiencies in close combat units organic sensing, load-bearing, communications extension, and lethality capabilities.

In addition, the Committee notes that, since 2001, special operations forces (SOF) have taken on an increasing share of global missions, driven by the responsiveness of their capabilities to combatant commander requirements. The Committee believes that the CCLTF's efforts to bring SOF capabilities and training methodologies to line close combat formations is an important element of the overall CCLTF effort.

In order to allow the Committee to fully support the efforts of the CCLTF, the Committee directs the Secretary of Defense to brief the House Committee on Armed Services not later than December 1, 2018 on the CCLTF's findings, including key focus areas for improvements in ground close combat equipment, training and readiness; proposals for rationalizing personnel management for ground close combat formations; the feasibility of establishing a Joint Close Combat Leader Center as a center of excellence for small-unit infantry leadership; the feasibility of making existing unmanned aircraft organic to ground close combat units; and the impact of improving line close combat formation capabilities and interoperability with SOF, as well as any other topics the Secretary deems appropriate.

Counter-Unmanned Aircraft System Authority for United States Facilities and Assets

The committee notes that the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) provided the Department of Defense a modest expansion of existing counter-unmanned aircraft system (C–UAS) authority in section 130i of title 10, United States Code, to address additional mission areas that the Department determined are critical, high-priority U.S. facilities and assets essential to the Department carrying out its mission. The committee appreciates the Department's deliberate and thoughtful implementation of the C–UAS authority to ensure the safety and security of Department assets and facilities, in addition to ensuring the safety of operations within the U.S. National Airspace System. The committee also notes that the Department, in conjunction with the Administrator, Federal Aviation Administration, is required to provide to relevant congressional committees a semiannual briefing on how the current C–UAS is being utilized

and implemented, and various other items of information pertaining to the authority.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than September 1, 2018, the date of the next scheduled semi-annual C-UAS briefing requirement to Congress. The briefing should include a list of capability gaps and shortfalls for C-UAS systems or mission areas of the Department that are not currently included in the existing C-UAS authority, but deemed to be high-priority or critical facilities or assets contributing to the success of the Department in executing its mission. The briefing should also include a list of existing Department research and development, or test and evaluation locations within the military services, that currently participate and specialize in C-UAS capabilities in the areas of detection and tracking, hard-kill defeat prediction, or improvised explosive/improvised explosive device performance assessment capability. The committee also encourages the Secretary of Defense to leverage existing deployment, operations, and test and evaluation activities and operational capabilities for C-UAS that are occurring at various U.S. overseas basing locations in order to determine what existing C-UAS technologies and capabilities could feasibly and viably be deployed to protect U.S. facility and asset locations requiring C-UAS capability.

Counterterrorism Effectiveness Research

The committee recognizes that basic research into the effectiveness of current counterterrorism policies and strategy is critical to informing and shaping future efforts. The committee understands that there is currently a wide range of social science research in these areas that should be leveraged, including better use of and integration with existing research by organizations maintaining databases of terrorism incidents globally.

For example, the National Consortium for the Study of Terrorism and Responses to Terrorism (START) is a university-based research and education center. The center is comprised of an international network of scholars committed to the scientific study of the causes and human consequences of terrorism in the United States and around the world. START supports the research efforts of leading social scientists at more than 50 academic and research institutions across the country and the globe.

The committee is aware the START program supports more than 14 terrorism and counterterrorism related datasets that are used across civilian and defense agencies, including the Department of Homeland Security and the Department of Defense, in order to directly inform international, Federal, State, and local training and educational programs.

However, the budget request for fiscal year 2019 did not include funding for this effort. The committee believes that it is within the purview of the Department of Defense, and specifically U.S. Special Operations Command (SOCOM) as the Coordinating Authority for Countering Violent Extremist Organizations, to foster academically rigorous studies of terrorism, like the START initiative, to provide a foundational understanding for how to assess the effectiveness of specific counterterrorism activities and programs, and best practices to inform counterterrorism policies. Further, the committee

believes that as the Coordinating Authority for Countering Weapons of Mass Destruction (CWMD), SOCOM may also derive similar benefits for the Department of Defense from research pertaining to CWMD strategies, policies, and programs, by leveraging and enhancing programs like START.

Therefore, the committee directs the Commander, U.S. Special Operations Command to provide a briefing to the House Committee on Armed Services by October 30, 2018, on the feasibility and advisability of funding programs like START.

Development and Procurement of Combat Equipment and Clothing for Female Servicemembers in Combat Occupations

The Committee notes that in June 2015 the Under Secretary of Defense for Acquisition, Logistics, and Technology provided guidance to the services to take immediate steps to ensure that combat equipment is properly designed and fitted for female servicemembers. In 2016, the Committee recognized that the Services had been conducting anthropometric studies on male and female servicemembers in order to properly outfit and equip their respective servicemembers. However, although more than 600 women have competed for and joined newly opened ground combat units in the Army and Marine Corps, the Committee is concerned that properly designed and fitted combat equipment, gear, and clothing is not consistently available to women warfighters. That concern also encompasses other women from all the services who continue to deploy to areas where they too need properly fitting combat and organizational gear. The Committee believes that female servicemembers in physically demanding occupations like infantry and armor are not positioned for success and their lethality and safety is compromised if they are required to train and perform in equipment not designed for their body type. Properly designed and fitted equipment for women should be available beginning with initial entry training through any and all deployments.

Therefore, the Committee directs the Secretary of Defense, in coordination with the service chiefs, to submit a report to the Committees on Armed Services no later than 180 days after the enactment of this Act. The report shall include:

(1) Information about the status of procuring and issuing the following to all females serving in or training for, infantry and armor occupations and to those from other units and occupations deploying to areas where they will require such equipment (from the beginning of training through any deployments): (1) personal protective equipment (2) organizational clothing and individual equipment (including for example tanker apparel, mechanics coveralls, tanker headsets, and ruck frames); and (3) the female urinary diverter;

(2) Information about timing, including the date on which such equipment will be available;

(3) What additional legislative and funding authorities are required to expedite procurement;

(4) The results of any surveys and studies that have addressed the availability, serviceability, and effectiveness of personal protective equipment, organizational clothing and individual equipment, and the female urinary diverter device.

Foreign Currency Fluctuation Account

In the committee reports accompanying the National Defense Authorization Act for Fiscal Year 2015 through 2017 (H. Rept. 113–446, H. Rept. 114–102, H. Rept. 114–537), the committee encouraged the Department of Defense to take into consideration the current balance within the Foreign Currency Fluctuation, Defense (FCF,D) account when determining foreign currency rates in future budget submissions.

When the FCF,D account has a balance close to or at the statutory cap of \$970.0 million, the committee believes the budgeted rates should be adjusted to generate losses within the account, thereby drawing down the FCF,D account balance. This would reduce the operation and maintenance (O&M) budget requirement for foreign goods and services, allowing excess funds to be allocated to other readiness programs without changing the budget topline. However, as the FCF,D account realizes a net gain, these gains remain in O&M and are used for purposes not originally requested in the annual budget submission to Congress. Without visibility of these transactions through a reprogramming request, the committee cannot determine whether funds remaining in the FCF,D account are being used to reduce current readiness shortfalls.

The committee observes that the Department continues to not take the current balance into account when determining foreign currency rates. Due to lack of the use of current balances to structure foreign currency rates, the committee recommends a reduction in the O&M budget for fiscal year 2019 as shown in section 4301 of this Act, a reduction in the Military Personnel budget for fiscal year 2019 as shown in section 4401 of this Act, and a reduction in the Defense Health Program budget for fiscal year 2019 as shown in section 4501 of this Act, and realigns those funds to support higher priority defense requirements throughout the Department.

Friendly Force Identification in Close Air Support

The committee is aware that tactical aircraft controllers use a multitude of commercial-off-the-shelf infrared (IR) strobes for friendly force identification in close combat operations, and that U.S. Special Operations Command (SOCOM) has validated and approved a Thermal-Identification, Friend or Foe (T-IFF) Capability Production Document (CPD) to improve existing capability. The committee notes the T-IFF program would provide for an “out of band” beacon which should align with current advanced targeting pods used on tactical aircraft. The committee also notes that SOCOM is planning two user evaluations in 2018 to assess potential commercial off-the-shelf solutions that could also potentially meet the requirements in the T-IFF CPD.

While the committee is supportive of these efforts and encourages their acceleration, it is concerned that current infrared marking strobes currently fielded to U.S. ground forces, to include U.S. Special Operation Forces, are not easily detectable to tactical aircraft performing close air support, and could result in fratricide. Additionally, the committee is aware of multiple programs in progress across the military services to address this requirement. These efforts and requirements must be coordinated and communicated across the military services and SOCOM to expeditiously

provide upgraded IR strobes that can be detected by advanced targeting pods.

The committee directs the Commander, U.S. Special Operations Command, in coordination with the Chief of Staff of the Army and the Chief of Staff of the Air Force, to provide a briefing to the House Committee on Armed Services by December 14, 2018, on their efforts to synchronize a friendly force identification mechanism, such as IR strobes, for use during combat close air support operations. The briefing should also include efforts to ensure that these mechanisms are detectable by advanced targeting pods used on current tactical aircraft.

Genetic and Medical Information Security

Recent advancements in information and computational capabilities, along with advancements in synthetic biology and genomics, have resulted in the convergence of data and life sciences. The committee is troubled by the potential risks posed by the proliferation of personal biological information, including DNA sequences, electronic medical records, medical claims processing data, pharmacy records, health information exchanges, and activity trackers. The committee recognizes this information is essential for the development of precision medicine, but is concerned about the potential lack of appropriate security control over the data of service members due to the growing efforts by adversaries to acquire this information. The committee believes acquisition of this information by adversaries may lead to the development of new biological threats.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by March 1, 2019, on the Department of Defense's effort to secure service members' genetic, medical, and lifestyle information. The briefing shall include information on the location, access control, and security protocols of all databases with this information; and offer policy recommendations for protecting this information.

The committee further directs the Director of the Defense Intelligence Agency to provide a briefing to the House Committee on Armed Services by March 1, 2019, on foreign intelligence services attempts to collect this information on Department of Defense personnel, including:

- (1) attempts by foreign intelligence services to collect genetic data, medical records, and any other personal health or biological information;
- (2) use of non-traditional intelligence collection techniques, to include foreign investment in commercial entities that offer genetic data analysis, medical record administration, and other health information services; and
- (3) use of this data lost through data breaches, unauthorized disclosures, or non-traditional collection techniques to enable targeting of U.S. persons.

MQ-9 Enterprise Supporting Air Combat Command and Air Force Special Operations Command Activities

After a detailed review, the committee has determined that a system to manage and develop MQ-9 specific remotely piloted aircraft (RPA) aircrews does not exist between Air Force Special Oper-

ations Command (AFSOC), Air Combat Command (ACC), and the Air Force Personnel Center. The committee is concerned that ACC is the Air Force's primary entity responsible for managing, assigning, and transitioning MQ-9 aircrews for AFSOC and that AFSOC may not have the visibility it needs into ACC "talent management" processes to sufficiently support AFSOC future planning and normalization of operations tempo. Moreover, the role of the Air Force Personnel Center's in managing and career-shaping MQ-9 aircrews is unclear.

Therefore, the committee directs the Commander of ACC, in coordination with the Commander of AFSOC and the Commander of the Air Force Personnel Center, to provide a briefing to the House Committee on Armed Services not later than October 19, 2018, on how MQ-9 aircrews are assigned, managed, and developed among ACC and AFSOC. The briefing should also include an update regarding the Air Force's MQ-9 Culture and Process Improvement Program activities for each command, and each command's progress for acquiring the necessary manpower authorizations, and actual assigned manpower, to achieve deployment to dwell operations tempo to comply with Department of Defense policies.

National Guard Access to Department of Defense Owned Unmanned Aircraft Systems

The committee notes that section 1084 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) required that not later than 1 year after the date of the enactment of Public Law 115-91, the Secretary of Defense, in coordination with the Chief of the National Guard Bureau, the Commander, U.S. Northern Command, and the Commander, U.S. Pacific Command, complete an efficiency and effectiveness review of the governance structure, coordination processes, documentation, and timing requirements stipulated in Department of Defense policy memorandum 15-002, "Guidance for the Domestic Use of Unmanned Aircraft Systems (UAS)." In addition, not later than 30 days after the policy review is completed, the Secretary of Defense is required to submit the results of the review to the congressional defense committees. The committee expects that during the policy review, Department of Defense officials will implement a processing timeline for reviewing National Guard UAS utilization requests that appropriately balances reviewing the request for compliance with established policy and reviewing the request in a timely manner that coincides with the responsiveness, urgency, and operational planning factors dictated by the specific mission the UAS capability is being requested to support.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than 30 days after the policy review required by section 1084 of Public Law 115-91 is completed. The briefing should include information related to the processing timeline that the Secretary established during the policy review and how the timeline will be implemented.

Preparedness of U.S. Forces To Counter North Korean Chemical and Biological Weapons

The committee is aware of reports of the Democratic People's Republic of Korea's pursuit of the essential laboratories, equipment, and skills for an advanced biological weapons program, in addition to reports of existing stockpiles of chemical weapons. The 2017 National Security Strategy states that North Korea is pursuing chemical and biological weapons, which could be delivered by missile. The strategy also states that the Department of Defense will ensure U.S. military forces can operate effectively in the face of biological weapons attacks, and that our troops and critical domestic and overseas installations are effectively protected against such threats.

To assist the committee in conducting its oversight of the preparedness of U.S. forces to respond to these threats, the committee directs the Comptroller General of the United States to review the extent to which Department of Defense military units deployed to the Republic of Korea and the Department's chemical and biological defense support units on the Korean peninsula, in the U.S. Pacific Command area of responsibility, and in the United States, are prepared to counter chemical and biological weapons, including:

- (1) detection and identification;
- (2) individual and collective protection;
- (3) medical countermeasures;
- (4) decontamination;
- (5) training and exercises; and
- (6) any other matters the Comptroller General deems relevant.

The committee also directs the Comptroller General to provide a briefing to the House Committee on Armed Services by March 1, 2019, on the preliminary results of the review, and submit a subsequent report by a date agreed to at the time of the briefing.

Report on NORTHCOM Response to Hurricane Maria

In 2017, the United States witnessed Hurricane Maria, which had a devastating impact on Puerto Rico and required a Federal Government response. Therefore, the committee directs the Secretary of Defense, in collaboration with the Secretary of Homeland Security and the Federal Emergency Management Agency Administrator, to submit a report by December 1, 2018 on the ongoing U.S. Government recovery effort of Hurricane Maria. The report shall include the following elements: (a) statistics on ongoing power outages; (b) the number of deaths in each U.S. state or territory affected; (c) measures to improve hurricane emergency response plans for insular areas and/or territories of the United States.

Review of National Guard Capabilities in Support of Incident Awareness and Assessment Mission Operations

The committee notes there is inconsistency among National Guard and Department of the Air Force officials in expressing what type of capabilities and which platforms are required to support the Incident Awareness and Assessment (IAA) mission of the National Guard. The committee requires clarification regarding the National Guard's current and future capability and capacity requirements to execute the IAA mission in support of Domestic Operations

(DOMOPS) when National Guard personnel are on duty or mobilized under title 32, United States Code, authority, and in support of Defense Support to Civil Authorities (DSCA) when National Guard personnel are on duty or mobilized under title 10, United States Code, authority. The committee believes it is critical for the Department of Defense to maintain a sufficient capability, capacity, and responsiveness among the Active and Reserve components of the Department when supporting missions related to homeland defense and responding to natural disasters or declared emergencies.

Therefore, the committee directs the Chief, National Guard Bureau, in coordination with the Commander, U.S. Northern Command, the Director, Air National Guard, and the Director, Army National Guard, to provide a report to the congressional defense committees by October 1, 2018, that provides an Incident Awareness and Assessment capability and capacity roadmap for the National Guard covering the 2019 to 2023 Future Years Defense Program (FYDP). The report should describe, at a minimum:

(1) the validated capability and capacity requirements defining the IAA mission in support of U.S. Northern Command, State Governors, and other Government agencies;

(2) the specific platforms and quantities of platforms the National Guard will leverage, maintain, or procure to support IAA capability and capacity requirements;

(3) a schedule depicting specific platforms that will be procured, maintained, or divested in support of IAA capabilities and capacity over the covered time period;

(4) a schedule depicting specific platforms and associated modernization and upgrades that will be accomplished over the covered time period;

(5) the required funding needed and currently programmed in the FYDP to support individual platforms within the IAA portfolio of capabilities; and

(6) any capability or capacity gaps or shortfalls that are identified over the covered time period.

Senior Civilian or Military Leaders in Charge of Audit and Financial Management

The committee has long maintained that a central factor of the department's audit progress has been clear leadership and accountability across the department. The committee is concerned that there are mid-level departments within the services and agencies that lack designated audit and financial management accountability of senior leaders by requiring this in official position duties. Therefore, the committee directs the department to provide a report no later than September 30, 2018, to the congressional armed services committees on the senior civilian or military leadership responsible for audit and financial management compliance of each respective department.

Soo Locks

The committee understands that the Soo Locks on the St. Marys River at Sault Ste. Marie, Michigan, are the only waterway connection from Lake Superior to the rest of the Lower Great Lakes and the St. Lawrence Seaway. The committee is concerned that of the

2 current operational locks, only the Poe Lock is large enough to accommodate the 1,000-foot carriers necessary to transport a majority of the iron ore used in domestic steel production. The committee notes that this lock is near the end of its 50-year useful lifespan and that the U.S. Army Corps of Engineers is reevaluating a past economic evaluation report to update the Soo Locks' benefit to cost ratio.

The committee believes that a failure at the Soo Locks would have drastic impacts on national security, in that the U.S. iron mining-integrated steel production-manufacturing supply chain is dependent on the Soo Locks, and there is no redundancy. Indeed, such a failure would cripple steel production that is used for national defense priorities. Therefore, the committee urges the Chief of the Corps of Engineers and all involved executive branch agencies to expedite necessary reviews, analysis, and approvals in order to speed the required upgrades at the Soo Locks.

LEGISLATIVE PROVISIONS

SUBTITLE A—FINANCIAL MATTERS

Section 1001—General Transfer Authority

This section would allow the Secretary of Defense, with certain limitations, to make transfers between amounts authorized for fiscal year 2019 in division A of this Act. This section would limit the total amount transferred under this authority to \$5.0 billion. This section would also require prompt notification to Congress of each transfer made.

Section 1002—Expertise in Audit Remediation

This section would amend section 252(b)(2) of chapter 9A of title 10, United States Code, directing the Secretary of Defense to report the number of professionals performing auditing and audit remediation services who hold certain qualifications.

Section 1003—Authority To Transfer Funds to Director of National Intelligence for CAPNET

This section would authorize the Secretary of Defense, consistent with the authority provided in section 1001 of this Act, to transfer an amount that does not exceed \$2.0 million to the Director of National Intelligence (DNI) to provide support for the operation of the CAPNET network.

The committee notes its belief that, per established procedures, the Department of Defense currently has the authority to provide support to the DNI for the operation of CAPNET.

Section 1004—Independent Public Accountant Audit of Financial Systems of the Department of Defense

This section would direct the Secretary of Defense to ensure new or altered financial systems meet applicable Federal requirements through a review performed by an independent public accountant.

SUBTITLE B—COUNTERDRUG ACTIVITIES

Section 1011—Department of Defense Support for Combating Opioid Trafficking and Abuse

This section would express the sense of Congress regarding the nationwide opioid epidemic affecting millions of U.S. citizens. The section would also increase, by \$20.0 million, Department of Defense National Guard counterdrug programs to support the Federal Government's efforts to combat the opioid crisis.

SUBTITLE C—NAVAL VESSELS AND SHIPYARDS

Section 1021—Inclusion of Operation and Sustainment Costs in Annual Naval Vessel Construction Plans

This section would incorporate operations and sustainment costs into the 30-year shipbuilding plan required by section 231 of title 10, United States Code.

Section 1022—Purchase of Vessels Using Funds in National Defense Sealift Fund

This section expands section 2218 of title 10, United States Code, and authorizes the Secretary of the Navy to procure up to 10 foreign-constructed ships if the Secretary certifies that the U.S. Navy has initiated an acquisition strategy for the construction of 10 new sealift vessels. Additionally, this section would limit 25 percent of the U.S. Navy Military Sealift Command's fiscal year 2019 expenditures until the Secretary of the Navy enters into a contract for the procurement of two used National Defense Reserve Fleet vessels, and completes the capability development document for the common hull multi-mission platform.

Section 1023—Purchase of Vessels Built in Foreign Shipyards With Funds in National Defense Sealift Fund

This section would modify section 2218 of title 10, United States Code, and require a 30-day notice to the congressional defense committees before entering into a contract for a used vessel authorized for procurement by section 2218 of title 10, United States Code.

Section 1024—Technical Corrections and Clarifications to Chapter 633 of Title 10, United States Code, and Other Provisions of Law Regarding Naval Vessels

This section updates chapter 633 of title 10, United States Code.

Section 1025—Retention of Navy Hospital Ship Capability

This section would require the Secretary of the Navy to retain two Mercy-class hospital ships until the Secretary has certified to the congressional defense committees that a replacement capability has been fielded.

SUBTITLE D—COUNTERTERRORISM

Section 1031—Definition of Sensitive Military Operation

This section would modify section 130f of title 10, United States Code, regarding notification requirements for sensitive military operations.

Section 1032—Prohibition on Use of Funds for Transfer or Release of Individuals Detained at United States Naval Station, Guantanamo Bay, Cuba, to the United States

This section would prohibit the use of any amounts authorized to be appropriated or otherwise made available for the Department of Defense during the period beginning on the date of the enactment of this Act and ending on December 31, 2019, to transfer or release detainees at U.S. Naval Station, Guantanamo Bay, Cuba, to or within the United States, its territories, or possessions.

Section 1033—Prohibition on Use of Funds to Construct or Modify Facilities in the United States to House Detainees Transferred from United States Naval Station, Guantanamo Bay, Cuba

This section would prohibit the use of any amounts authorized to be appropriated or otherwise made available for the Department of Defense during the period beginning on the date of the enactment of this Act and ending on December 31, 2019, to construct or modify any facility in the United States, its territories, or possessions to house any detainee transferred from U.S. Naval Station, Guantanamo Bay, Cuba, for the purposes of detention or imprisonment in the custody or under the effective control of the Department of Defense.

Section 1034—Prohibition on Use of Funds for Transfer or Release of Individuals Detained at United States Naval Station, Guantanamo Bay, Cuba, to Certain Countries

This section would prohibit the use of any amounts authorized to be appropriated or otherwise made available for the Department of Defense during the period beginning on the date of the enactment of this Act and ending on December 31, 2019, to transfer, release, or assist in the transfer or release of any individual detained at U.S. Naval Station, Guantanamo Bay, Cuba, to Libya, the Federal Republic of Somalia, the Syrian Arab Republic, or the Republic of Yemen.

SUBTITLE E—MISCELLANEOUS AUTHORITIES AND LIMITATIONS

Section 1041—Notification on the Provision of Defense Sensitive Support

This section would modify the current Defense Sensitive Support congressional notification procedures, to include a Secretary of Defense determination that the requesting Federal department has reasonably attempted to satisfy the requirement using internal resources, and that the Department of Defense is the most appropriate Federal agency or department to satisfy the request for support. This section would also add a congressional notification re-

quirement for Department of Defense requests for Reverse Defense Sensitive Support from other Federal departments or agencies.

Section 1042—Coordinating United States Response to Malign Foreign Influence Operations and Campaigns

This section would amend section 101 of the National Security Act of 1947 (50 U.S.C. 3021) to explicitly task the National Security Council (NSC) to coordinate the full U.S. Government response to malign foreign influence operations and campaigns, particularly those that are cyber-enabled. This section would define “malign foreign influence operations and campaigns,” and would request the President to task an NSC official with combating it, and further requires the President to submit a report to the designated congressional committees not later than 9 months after the date of the enactment of this Act on the whole-of-government strategy for combating malign foreign influence operations.

Section 1043—Workforce Issues for Military Realignments in the Pacific

This section would amend section 1806 of title 48, United States Code, to allow the continued employment of temporary workers on Guam engaged in the military realignment to Guam or to perform service as a health care worker. This section would also exempt returning workers from the cap on such workers in the event of a single departure and return to Guam.

Section 1044—Mitigation of Operational Risks Posed to Certain Military Aircraft by Automatic Dependent Surveillance-Broadcast Equipment

This section would enable the Secretary of Defense to mitigate the operational risk posed to certain military aircraft by the Federal Aviation Administration (FAA) next-generation airspace control mandate that takes effect on January 1, 2020, by accommodating certain fighter, bomber, and other sensitive mission aircraft until the Department of Defense and FAA agree on one or more solutions to address Automatic Dependent Surveillance-Broadcast Out security risks or incorporate mitigation for security risks into a memorandum of agreement.

The committee notes that the Department is working to meet the FAA mandate for its aircraft and supports its efforts to procure equipment and carry out modifications for its accommodated fighter, bomber, and special mission aircraft.

Section 1045—Limitation on Availability of Funds for Unmanned Surface Vehicles

This section would limit the availability of funds authorized to be appropriated by this Act, or otherwise made available for fiscal year 2019, until the Under Secretary of Defense for Research and Engineering certifies the Strategic Capabilities Office Ghost Fleet Overlord Unmanned Surface Vehicle program to the congressional defense committees.

Section 1046—Program for Department of Defense Controlled
Unclassified Information in the Hands of Industry

This section would require the Secretary of Defense to establish and implement a foreign ownership, control, or influence program for Department of Defense controlled unclassified information in the hands of industry.

The Secretary would be required to act to ensure that prior to any company receiving controlled unclassified information or classified information, or becoming a cleared defense contractor, the company would have to report to the Secretary any foreign direction or controlling interest in the company or any access to intellectual property relating to classified information or controlled unclassified information.

The Secretary would be required to make a determination on the basis of such a company's report whether the company should receive such information due to a risk to national security and whether such risk can be mitigated.

Section 1047—Protection of Emerging and Foundational
Technologies

This section would require the Secretary of Defense to establish and maintain a list of emerging and foundational technologies that are necessary for maintaining the national security technical advantage of the United States.

This section would require the Secretary to use that list to inform the activities carried out by the Secretary relating to technology protection, including under interagency processes.

SUBTITLE F—STUDIES AND REPORTS

Section 1051—Additional Matter for Inclusion in Annual Report on
Civilian Casualties in Connection With United States Military
Operations

This section would amend section 1057(b)(2) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) to include an annual reporting requirement on civilian casualties in connection with U.S. military operations.

Section 1052—Department of Defense Review and Assessment on
Advances in Artificial Intelligence and Machine Learning

This section would direct the Secretary of Defense, acting through the Defense Innovation Board and the Under Secretary of Defense for Research and Engineering, to carry out a review and assessment of the advances in artificial intelligence, related machine learning developments, and associated technologies for military applications. This section would also require the Secretary of Defense to submit an initial report to the congressional defense committees not later than 180 days after the date of the enactment of this Act, and a comprehensive report not later than 1 year after the date of the enactment of this Act.

Section 1053—Report on Joint Enterprise Defense Infrastructure

This section would prohibit certain funds authorized to be appropriated by this Act from being obligated or expended for the Joint Enterprise Defense Infrastructure until the Secretary of Defense provides a report to the congressional defense committees on the Joint Enterprise Defense Infrastructure.

Section 1054—Report on Proposed Consolidation of Department of Defense Global Messaging and Counter Messaging Capabilities

This section would limit the availability of funds authorized to be appropriated by this Act, or otherwise made available for fiscal year 2019, until the Secretary of Defense provides a report to the congressional defense committees on the Department of Defense Global Messaging and Counter Messaging program.

Section 1055—Comprehensive Review of Professionalism and Ethics Programs for Special Operations Forces

This section would direct the Secretary of Defense, in coordination with the Secretaries of the military departments, to conduct a comprehensive review of the ethics and professionalism programs of the U.S. Special Operations Command and the military departments for officers and other military personnel serving in special operations forces. This section would require the Secretary of Defense to submit the review to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2019.

Section 1056—Munitions Assessments and Future-Years Defense Program Requirements

This section would require the Under Secretary of Defense for Acquisition and Sustainment to provide all relevant documents related to the Department of Defense's munitions requirements process, as well as provide the planned funding and munitions requirements required for fiscal year 2020 and across the Future Years Defense Program for munitions across all military services and the Missile Defense Agency. This section would also require the Under Secretary to evaluate and identify supply chain risks, including qualified supplier shortages or single source supplier vulnerabilities for munitions production. The committee notes that munitions are defined as a complete device charged with explosives; propellants; pyrotechnics; initiating composition; or chemical, biological, radiological, or nuclear material for use in operations including demolitions, to include conventional ammunition.

Section 1057—Report on Establishment of Army Futures Command

This section would require the Secretary of the Army to provide a report to the congressional defense committees on the Army's plan for the establishment of Army Futures Command, to include a description of the authorities, mission, and organizational structure. This section does not prohibit the Secretary of the Army from proceeding forward with any current internal organizational changes in accordance with existing authorities related to the establishment of the Army Futures Command.

Section 1058—Assessment of Department of Defense
Electromagnetic Spectrum Warfare Enterprise

This section would require the Secretary of Defense, in consultation with the Chairman of the Joint Chiefs of Staff (CJCS), to develop an implementation plan to conduct joint campaign modeling and wargaming for joint electromagnetic spectrum operations (JEMSO) of the Department of Defense, and to submit that plan in the form of a report by February 18, 2019, to the congressional defense committees. This section would also require the Secretary and CJCS to provide various briefing presentations to the House Committee on Armed Services, not later than February 25, 2019, on essential topics and functions of the Department's JEMSO enterprise.

The committee is concerned that since the electronic warfare (EW) strategy document was released by the Department's Electronic Warfare Executive Committee in June 2017, subsequent efforts to strengthen, modernize, and create synergy of effort across the Department related to the JEMSO enterprise may have stagnated within the military services, the Office of the Secretary of Defense, and the Office of the Chairman of the Joint Chiefs of Staff. The committee seeks to gain a greater understanding of current JEMSO efforts since release of the EW strategy document, and the committee encourages those officials overseeing the JEMSO enterprise to reinvigorate efforts towards achieving the goals and objectives described in the EW strategy.

Section 1059—Report on Support for Non-Contiguous States and
Territories in the Event of Threats and Incidents

This section would direct the Department of Defense to provide a report on its preparedness to provide contiguous States with temporary relief and emergency work in the aftermath of an emergency incident.

Section 1060—Report on Low-Boom Flight Demonstration

This section would require the Administrator of the National Aeronautics and Space Administration to submit a report, not later than 90 days after the date of the enactment of this Act, to the Committee on Science, Space, and Technology of the House of Representatives describing the progress in development of the Low-Boom Flight Demonstration.

Section 1061—Report on Cyber-Enabled Information Operations

This section would require the President to provide the Committees on Armed Services and Foreign Affairs of the House of Representatives and the Committees on Armed Services and Foreign Relations of the Senate a report not later than 180 days after the date of the enactment of this Act on the effects of cyber-enabled information operations on the national security of the United States.

SUBTITLE G—OTHER MATTERS

Section 1071—Technical, Conforming, and Clerical Amendments

This section would make a number of technical, conforming, and clerical amendments of a non-substantive nature to existing law.

Section 1072—Principal Advisor on Countering Weapons of Mass Destruction

This section would direct the Secretary of Defense to designate, from among the personnel of the Office of the Secretary of Defense, a Principal Advisor on Countering Weapons of Mass Destruction (CWMD). Such individual shall act as the Principal Advisor to the Secretary on the activities of the Department of Defense relating to countering weapons of mass destruction. Further, this section would require a plan for realigning, restructuring, or reducing the current CWMD oversight framework of the Office of the Secretary of Defense.

Section 1073—Receipt of Firearm or Ammunition

This section would require for the purposes of Federal firearms laws that the residency of members of the Armed Forces and their spouses be determined in the same manner.

Section 1074—Federal Charter for Spirit of America

This section would designate Spirit of America, a nonprofit organization, as a federally chartered corporation.

Section 1075—Transfer of Aircraft to Other Departments

This section would amend section 1098 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66) to relieve the United States Air Force (USAF) from the mandate to modify United States Coast Guard (USCG) HC–130H aircraft with designated capabilities for use by the United States Forest Service (USFS).

The committee notes that officials from the USFS, USCG, and USAF notified the committee, and relevant other House of Representatives and Senate committees of jurisdiction, that a recently completed USFS cost-benefit analysis demonstrated it is more cost-effective, and provides greater firefighting capacity and responsiveness, to utilize contract service provided capability instead of owning and operating year-round a small, organic fleet of modified HC–130H aircraft.

Section 1076—Reauthorization of National Aviation Heritage Area

This section would amend title V of division J of the Consolidated Appropriations Act of 2005 (Public Law 108–447) to establish Dayton History as the entity responsible for managing the National Aviation Heritage Area.

Section 1077—Recognition of America's Veterans

This section would honor America's veterans, including those who have not yet been appropriately recognized for their service to

the Nation, by authorizing the Secretary of Defense to carry out a parade in their honor. The Secretary would be authorized to expend funds authorized to be appropriated under this Act for the display of small arms and munitions appropriate for customary ceremonial honors and for the participation of military units that perform customary ceremonial duties.

The committee believes that, as America approaches the 100th anniversary of the 1918 Armistice ending World War I, it is appropriate to honor a century of military service by the men and women who have sacrificed to secure America's freedom. The committee further believes that the world they made through their sacrifices is increasingly under threat from competitors like the Russian Federation and the People's Republic of China. The committee is concerned that far too many veterans, including veterans of the conflicts in Korea, Vietnam, Iraq, and Afghanistan, have been denied the public display of gratitude their service deserves and therefore the committee believes now is the right time to celebrate a century of patriotic sacrifice and service.

Section 1078—National Commission on Military Aviation Safety

This section would establish a National Commission on Military Aviation Safety. The commission would undertake a comprehensive study and deliver a report not later than June 1, 2019, on military aviation mishaps occurring between fiscal years 2013–18.

Section 1079—Target Practice and Marksmanship Training Support

This section would amend sections 669a, 669g, and 669h of title 16, United States Code, to expand opportunities for construction and sustainment of target practice and marksmanship training facilities at public target ranges on Federal and non-Federal land.

Section 1080—Sense of Congress on Adversary Air Capabilities

This section would express the sense of Congress that each Department of Defense facility housing an F-22 aircraft squadron should have adversary air capabilities to improve training of F-22 aircrews.

Section 1081—Sense of Congress Regarding Organic Attack Aviator Training Capability

This section would express the sense of Congress that the Army National Guard should retain rotary wing attack aviation units as well as organic training capacity such as the Western and Eastern Army Aviation Training Sites.

Section 1082—Sense of Congress on the Legacy, Contributions, and Sacrifices of American Indian and Alaska Natives in the Armed Forces

This section would express the sense of Congress on the legacy, contributions, and sacrifices of American Indian and Alaska Natives in the Armed Forces, and commits to ensuring progress for these groups with regard to representation in senior leadership po-

sitions, improved access to resources, and support for families and tribal communities.

Section 1083—Amateur Radio Parity

This section would require the Federal Communications Commission to amend section 97.15 of title 47, Code of Federal Regulations, to prohibit the application of any private land use restriction to amateur radio stations in a manner that would preclude communications in an amateur radio service.

Section 1084—Sense of Congress Regarding the International Borders of the United States

This section would express the sense of Congress that operational control of the international borders of the U.S. is critical to national security, the U.S. must devote adequate resources to securing the border, and the Department of Defense must have adequate resources to support the mission to secure the international borders of the U.S. while maintaining combat readiness.

Section 1085—Program To Commemorate 75th Anniversary of World War II

This section would require the Secretary of Defense to conduct a program to commemorate the 75th anniversary of World War II; such program would be authorized to include the provision of support to other Federal Government agencies, and to State and local governments.

The Secretary would be authorized to spend not more than \$2.0 million for fiscal year 2019 for the activities of the Department of Defense World War II Commemoration Fund.

TITLE XI—CIVILIAN PERSONNEL MATTERS

ITEMS OF SPECIAL INTEREST

Civilian Talent Recruitment

The committee recognizes that the Department of Defense and the military departments encounter difficulty recruiting highly specialized civilians in science, technology, engineering, and mathematics (STEM) fields due to pay and other compensation limitations imposed by the Office of Personnel Management general schedule pay scales.

Therefore, the committee directs the Secretary of Defense, in coordination with the Director of the Office of Management and Budget, to provide a briefing to the House Committee on Armed Services not later than January 31, 2019, on the challenges associated with the Department's efforts to hire organic civilians in the STEM fields.

The briefing must include the following elements:

(1) recommendations on how the Department can use professional pay incentives, such as special or incentive pay, like those provided to uniformed career fields such as pilots or medical professionals;

(2) impacts any delays in hiring have on the Department and the services' medium- and long-term technical capabilities; and

(3) an assessment of the average time it takes for the Department of Defense and the military services to hire STEM civilians and recommendations for how this process can be improved.

Direct Hiring Authority

The committee notes that section 1106 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) provides direct-hire authority to the Secretary of Defense for post-secondary students and recent graduates. Under this authority, the Secretary may recruit and appoint qualified recent graduates and current post-secondary students to competitive service positions in professional and administrative occupations within the Department of Defense. These appointments cannot exceed 15 percent of the number of hires made into professional and administrative occupations. Further, section 1110 of Public Law 114–328 allows for direct-hire authority for the Department for Financial Management Experts not exceeding 10 percent of the number of hires.

The committee recognizes that additional hiring challenges exist throughout the Department and at many installations, and notes that additional direct-hiring authority may allow for more efficient and effective hiring of talented personnel in the fields of cybersecurity, engineering, science, and cost analysis positions. Therefore, the committee directs the Secretary of Defense, in consultation with the military departments, to provide a briefing to the House Committee on Armed Services not later than January 31, 2019, on the effectiveness of existing direct-hire authority and recommendations for any necessary expansion of or changes to the existing authority to improve the Department's ability to hire technically skilled personnel in a timely manner.

Presidential Management Fellows Program

The committee recognizes that the Presidential Management Fellows (PMF) program has been one of the most successful means of recruiting the nation's top graduate students into U.S. government service. Consistent with the 2018 National Defense Strategy, the committee recognizes the PMF program's role in recruiting highly-qualified, talented, and innovative graduate students in order to create the "motivated, diverse, and highly skilled civilian workforce." In the committee's view, during the four decades since the program's founding, the Department of Defense has benefited greatly from the program. Despite this, the centrally managed process for hiring PMFs into the Office of the Secretary of Defense (OSD) has been suspended since 2015. While Department of Defense components are permitted to hire PMFs, unfortunately, they are unable to replicate the well-rounded experience created by the rotating assignments of the OSD program that is so crucial to leadership at the highest levels.

Therefore, the committee directs the Secretary of Defense to submit a report by January 31, 2019, on the PMF program. The report shall include the following elements: (a) a description of the PMF program historically and as it currently exists within the Department; (b) statistics on federal civilian employees who entered the

Department from the PMF program since its inception, including the overall number, their average length of tenure, the component by which they were hired, their entering and departing career civilian ranks, and an accounting for any notable subsequent leadership positions in the national security field; (c) an explanation for why the centrally managed process for hiring PMFs into the Office of the Secretary of Defense has been suspended and recommendations for any changes to policy, authorities, and resources required to resume it; (d) an assessment of the benefits and costs of resuming the use of and expanding the size of the PMF program across the Department; (e) recommendations for any changes to policy, authorities, and resources required to improve the program and expedite the on-boarding process for PMFs.

Recruitment and Hiring of Navy Astronomers

The Committee recognizes the critical missions of the U.S. Naval Observatory (USNO) and the Naval Observatory Flagstaff Station (NOFS) to the Department. The Committee is aware of challenges in recent years to recruitment and timely hiring of astronomers at NOFS, which risks key astronomical observation shifts going missed. The Committee directs the Secretary of the Navy to provide a briefing to the Committee on Armed Services of the House no later than December 31, 2018, outlining: the hiring process and timeline for astronomy positions at USNO and NOFS; identifying reasons for delays in approving positions and hiring for such positions; what the Navy is doing to shorten timelines; barriers and challenges to recruitment of individuals with relevant expertise; identifying impediments to hiring such individuals in a timely basis; and identifying impediments to recruiting and relocating individuals to NOFS.

Workplace Flexibility for Federal Civilians

The committee recognizes efforts taken by the military services to increase workplace flexibility to attract and retain talented personnel. The committee remains concerned, however, that a lack of professional flexibility in the civilian work force limits the ability of the Department of Defense and the military services to attract and retain highly trained mid-level career professionals. Family planning and an individual's desire to further their education are two frequently cited reasons why professionals seek more flexible work schedules.

The committee notes numerous private sector organizations started providing increased work flexibility to their employees, providing incentives that lure the skilled workforce away from the DoD and the services. Therefore, in order to preserve and enhance the DoD's civilian workforce the committee directs the Secretary of Defense, in coordination with the Secretaries of the military departments, to provide a briefing by January 31st, 2019 that identifies current policies that allow work-share, job-share, part-time, tele-work, and other flexibilities currently offered by the Department for civilian employees. The briefing should identify the frequency with which these policies are used by each pay-band and career-field, whether certain career-fields have been exempted from certain flexibility programs and the justification for exemption, the

number of employees who have been denied opportunities to do work-share, job-share, part-time work, or tele-work, and how many of these employees, as a result, have left the federal government.

LEGISLATIVE PROVISIONS

Section 1101—Direct Hire Authority for the Department of Defense for Certain Competitive Service Positions

This section would amend chapter 99 of title 5, United States Code, by adding a new section that would provide the Secretary of Defense authority to expedite hiring of civilian personnel into positions involving maintenance, depot maintenance, cybersecurity, acquisition, and science, technology, and engineering. This authority would expire on September 30, 2025.

Section 1102—Modification of Direct Hire Authority for the Department of Defense for Post-Secondary Students and Recent Graduates

This section would amend chapter 99 of title 5, United States Code, by adding a new section that would authorize the Secretary of Defense to recruit and hire recent graduates into competitive positions in the Department of Defense through September 30, 2025. This section would also repeal the more limited authority provided by section 1106 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328).

Section 1103—Extension of Overtime Rate Authority for Department of the Navy Employees Performing Work Aboard or Dockside in Support of the Nuclear-Powered Aircraft Carrier Forward Deployed in Japan

This section would amend section 5542 of title 5, United States Code, to extend until September 30, 2021, the authority of the Secretary of the Navy to pay overtime rates to civilian employees performing temporary duty in Japan in support of the forward deployed nuclear aircraft carrier.

Section 1104—One-Year Extension and Expansion of Authority to Waive Annual Limitation on Premium Pay and Aggregate Limitation on Pay for Federal Civilian Employees Working Overseas

This section would amend section 1101 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417) to extend the authority to waive the annual limitation on premium pay and aggregate limitation on pay for Federal civilian employees working overseas until September 30, 2019.

This section would also restrict the waiver limitation to the pay periods applicable, rather than the entire calendar year.

Section 1105—Appointment of Retired Members of the Armed Forces to Positions in or Under the Department of Defense

This section would provide the Secretary of Defense temporary authority to appoint retired members of the Armed Forces to Federal civilian positions within the Department of Defense imme-

diately upon retirement for certain categories of positions. This section would provide this authority to the Secretary for 5 years.

Section 1106—Extension of Authority to Conduct Telework Travel Expenses Test Programs

This section would amend section 5711 of title 5, United States Code, to extend the authority of the Administrator of the General Services Administration to conduct a test telework program until December 31, 2020.

Section 1107—Personnel Demonstration Projects

This section would amend section 4703 of title 5, United States Code, to deem that demonstration projects conducted under this authority lasting more than 10 years shall not count against the limit of 10 such projects ongoing at any time.

Section 1108—Expanded Flexibility in Selecting Candidates From Referral Lists

This section would amend subchapter I of chapter 33 of title 5, United States Code, to provide Federal agencies flexibility in setting the minimum number of candidates who must be considered on a referral list for each vacancy by amending sections 3317, 3318, and 3319 of such title.

Section 1109—Temporary and Term Appointments in the Competitive Service

This section would amend subchapter I of chapter 31 of title 5, United States Code, by adding a new section that would authorize the heads of Federal agencies to hire civilian personnel through temporary and term appointments. This section would also permit an agency head to make noncompetitive hires for up to 18 months to meet a critical need.

TITLE XII—MATTERS RELATING TO FOREIGN NATIONS

ITEMS OF SPECIAL INTEREST

Carrier Presence in the Middle East

The committee recognizes the importance of maintaining an aircraft carrier strike group in the U.S. Central Command (CENTCOM) area of operations to deter the Islamic Republic of Iran, support ongoing missions in the Republic of Iraq, the Syrian Arab Republic, and the Islamic Republic of Afghanistan, provide assurance to regional partners, and maintain the capacity to flexibly respond to a variety of crises across the volatile region. The Navy currently struggles to meet combatant commander presence requirements in CENTCOM and a recent gap in carrier presence there temporarily limited CENTCOM's capacity to address these security challenges. In an effort to more quickly reach the requirement for 12 aircraft carriers identified in the most recent Force Structure Assessment and to achieve greater cost savings, the committee authorized an acceleration of the next Ford-class aircraft

carrier designated CVN-81 in fiscal year 2019. The committee also recommends that the Navy assess options to extend the service life of USS Nimitz (CVN 68) to mitigate potential gaps, which could affect CENTCOM's regional force presence.

Casualty Evacuation in U.S. Africa Command Area of Operations

Given the vast distances and austere conditions affecting mobility on the African continent, the committee recognizes that personnel recovery and casualty evacuation are critical enablers to U.S. Africa Command's (AFRICOM's) conduct of operations. The committee is concerned, however, that current funding for contractor-owned, contractor-operated casualty evacuation capabilities is currently insufficient to support requirements. Therefore, the funding table in division D would authorize an additional \$15.0 million for contractor-owned, contractor-operated casualty evacuation capability in AFRICOM's area of operations.

Combined Joint Task Force-Horn of Africa

The committee has long been concerned about U.S. Africa Command (AFRICOM) Combined Joint Task Force-Horn of Africa's (CJTF-HOA) ability to execute assigned missions and taskings, as evidenced by section 1241 of the National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383), which required the Secretary of Defense, in consultation with the Secretary of State, to monitor and evaluate the impact of CJTF-HOA's activities to counter violent extremism in Africa and provide a report to Congress.

The committee continues to be concerned that CJTF-HOA's organizational structure, resourcing, command relationships, and lack of clearly defined role, responsibility, and authority have led to sub-optimal performance in executing its assigned missions as an operational headquarters and ensuring unified action in the region. The committee acknowledges that as the only major element of AFRICOM located on the continent, there may be value in maintaining and better enabling CJTF-HOA to synchronize, facilitate, and oversee its assigned missions. The committee notes, however, that options other than a joint task force may be more effective in accomplishing these missions.

Therefore, the committee directs the Secretary of Defense to evaluate the missions of CJTF-HOA and the operational environment to determine whether a joint task force provides the most effective headquarters option for command and control of operations. Further, the committee directs the Secretary to provide a briefing to the House Committee on Armed Services not later than October 31, 2018, on the results of the evaluation. The briefing shall include:

- (1) an evaluation of the costs and benefits of maintaining a permanent U.S. military presence in East Africa, and the potential locations for such presence;

- (2) an evaluation of the advantages and disadvantages of maintaining a combined joint task force structure to fulfill assigned missions and taskings;

(3) the range of headquarters options available for command and control of operations in East Africa and the advantages and disadvantages of each option;

(4) recommendations for the most effective headquarters structure, command relationships, and assignment of missions to improve the command and control of operations and to ensure unified action in East Africa; and

(5) any other matter the Secretary determines to be appropriate.

Coordinating Efforts To Counter the Malign Activities of the People's Republic of China and the Russian Federation Across Combatant Commands

The committee is concerned about the People's Republic of China and the Russian Federation's malign influence and activities that extend across all geographical regions and supports the Department's efforts to increase coordination across combatant commands in countering those activities. The committee believes that China and Russia's influence campaigns, economic investment and infrastructure, and security presence throughout the Indo-Pacific, Central Asia, Africa, Europe, and South America, have national security implications for the United States and its allies and partners. Therefore, the committee encourages all combatant commands to coordinate their respective efforts and use all appropriate authorities to include security cooperation activities, foreign military sales, and other equipment transfers to counter China and Russia's activities and to develop the capabilities of United States allies and partners. The committee notes that the combatant commands should align their efforts in accordance with section 1637 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), as appropriate.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by December 3, 2018, on the actions the combatant commands are taking to increase coordination and counter the activities posed by China and Russia.

Department of Defense Inspector General Audit of Foreign Military Sales

An efficient, thorough, and effective Foreign Military Sales (FMS) process is vital to U.S. foreign policy and national security, and contributes to the health of the U.S. defense industrial base. The committee is aware, however, of concerns raised by U.S. military leaders, the defense industry, and foreign partners that the FMS process is slow, cumbersome, and overly complicated.

Therefore, the committee directs the Inspector General of the Department of Defense to conduct an audit regarding Department of Defense implementation of FMS programs and, upon completion of the audit, to submit a final report to the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives. The committee further directs the Inspector General to meet with the House Committee on Armed Services and the House Committee on Foreign Affairs not later than June 30, 2018, to scope the audit fully. Addi-

tionally, the committee directs the Inspector General to provide an interim briefing to the House Committee on Armed Services and the House Committee on Foreign Affairs not later than November 30, 2018, on the manner that it intends to conduct such audit.

Foreign Military Sales

A key element of the 2018 National Defense Strategy is to “strengthen alliances and attract new partners.” The committee is aware that the Department of Defense is making progress instituting the security cooperation reforms contained in the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328). The committee remains concerned, however, that the execution of foreign military sales (FMS) is not coordinated holistically across the Department to prioritize resources and effort in support of U.S. national security objectives and the defense industrial base. Consequently, acquisition decisions continue to be made in a stovepiped manner and without sufficient regard for the role of FMS. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services and the House Committee on Foreign Affairs by October 31, 2018, on the procedures instituted by the Department to integrate FMS and other security cooperation activities into the planning process for defense acquisition.

Additionally, the committee notes that there are separate and disparate efforts across the Department that develop, negotiate, and implement foreign military sales for missile defense capability. This often leads to foreign partners not being provided price and availability for all potential systems that could meet their requirements, and the best solution to benefit both the partner nation and overall Department interests. Therefore, the committee directs the Under Secretary of Defense for Policy, in coordination with the Director of the Missile Defense Agency, Secretary of the Navy, and Secretary of the Army, to provide a briefing to the House Committee on Armed Services by November 30, 2018, on options to improve, consolidate, and streamline missile defense foreign military sales across the Department.

Further, the committee believes that production of additional foreign military sales variants may help mitigate risk to the supplier base and overall production capacity for precision guided munitions. Elsewhere in this report the committee encourages the Secretary of Defense to ensure that the AIM–120 advanced medium-range air-to-air missiles production line is kept at or near full capacity whenever possible, either by increasing production to fill U.S. military requirements or by supplementing production for the U.S. military with higher FMS production.

Improved Coordination of Activities in Africa With International Partners

The committee is aware that international partners such as the United Kingdom of Great Britain and Northern Ireland, the French Republic, Japan, and the United Arab Emirates, plus multinational organizations such as the European Union and African Union, and many others, conduct programs to build partner capacity in Africa. The committee is concerned that U.S. programs may be duplicative

or in conflict with international partners' activities, or that gaps in capabilities are unaddressed.

The committee directs the Secretary of Defense, in consultation with the Secretary of State, to provide a briefing to the House Committee on Armed Services and the House Committee on Foreign Affairs by October 31, 2018, on the steps being taken to coordinate security cooperation activities in Africa with international partners.

International Armaments Cooperation

The committee appreciates that international armaments cooperation (IAC) involves cooperative research, development, test, and evaluation of defense technologies, systems, or equipment; joint production and follow-on support of defense articles or equipment; and procurement of foreign technology, equipment, systems or logistics support. The committee further appreciates that the Office of the Director of International Cooperation and the IAC Directorate are charged with performing managerial roles with respect to these important functions. However, the committee questions whether IAC is sufficiently utilized for strategic purposes and questions whether the Office of the Director of International Cooperation and the IAC Directorate are optimally situated to contribute to long-term policy making and strategic oversight regarding Department of Defense security cooperation programs.

Therefore, the committee encourages the Secretary of Defense to evaluate the status of IAC within the Department of Defense and to consider the merits of realigning the Office of the Director of International Cooperation and the IAC Directorate from the Office of the Under Secretary of Defense for Acquisition and Sustainment to the Office of the Under Secretary of Defense for Policy. The committee also directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by October 31, 2018, on IAC, the Office of the Director of International Cooperation, and the IAC Directorate. At a minimum, the briefing shall include the following:

(1) a description of the dispositions, missions, roles, and responsibilities of all departmental offices with a role in IAC (to include the Office of the Director of International Cooperation, the IAC Directorate, and the Defense Security Cooperation Agency);

(2) an assessment of the advantages and disadvantages of the current organizational and operational structures related to IAC (to include the placement of the Office of the Director of International Cooperation and the IAC Directorate);

(3) an assessment of the merits of realigning the Office of the Director of International Cooperation or the IAC Directorate to the Office of the Under Secretary of Defense for Policy; and

(4) a discussion of the steps that have been, or may be, taken by the Department of Defense to improve IAC to achieve strategic objectives.

Multilateral Cooperation on the Korean Peninsula

The committee supports efforts between United States Forces Korea and the United Nations Command Sending States and cer-

tain countries to augment U.S. forces and forces of the Republic of Korea on the Korean peninsula.

The committee is pleased to see cooperation and participation among the United States, South Korea, United Nations Command Sending States, and certain countries in combined defense exercises. The committee further believes that these allies and partners can continue to play a vital role in contributing military assets for contingencies and capabilities in the naval and maritime domain as well as participating in training and exercises.

Therefore, the committee directs the Secretary of Defense, in coordination with the component commands, to provide a briefing to the Committee on Armed Services of the House of Representatives not later than December 1, 2018, on recommendations to strengthen coordination with liaison components and to broaden such cooperation, including information sharing, training and exercise opportunities, and integration and planning of multi-national forces into existing arrangements between the United States and South Korea.

Naval Mine Countermeasure Capability in the U.S. Central Command's Area of Operations

The committee recognizes the importance of the U.S. Navy's mine countermeasures (MCM) capability in protecting the free flow of commerce through the Suez Canal, the Strait of Hormuz, and the Bab al Mandeb Strait.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than September 30, 2018, on the MCM platforms that are capable of being readily deployed to U.S. Central Command's area of operations. This briefing should describe available MCM platforms, the time that would be required to clear relevant sea lanes of the mine threats posed by regional state and non-state actors including the Islamic Republic of Iran, the extent to which MCM training and exercises focus on potential mining contingencies in Middle Eastern waterways, and, if applicable, the extent to which U.S. MCM shortfalls could be covered by partner-country capabilities.

Non-Standard Acquisition in Foreign Military Sales

The committee is aware that foreign partners are increasingly considering U.S.-made capabilities through Foreign Military Sales (FMS) that are not currently a Department of Defense program of record. For FMS purposes, a non-standard article is one that the Department of Defense does not manage, either because an applicable end item has been retired or because it was never purchased for Department components; a non-standard service is one that the Department of Defense does not routinely provide for itself or for purchase. Likewise, the Department's building partner capacity (BPC) programs include acquisition of non-standard articles and services under defense security cooperation train and equip authorities. Consequently, there is an increasing need for the Department of Defense to provide adequate program-level support so that these systems can be sold to international partners and supported over the life-cycle of the program.

The committee is also aware that the military departments have, on a case-by-case basis, established program offices to support the foreign sale of certain non-standard articles. The committee is concerned, however, that these ad hoc efforts do not provide the support necessary to manage foreign partners' acquisition of non-standard articles and services across the Department of Defense in a holistic manner.

Therefore, the committee directs the Secretary of Defense to conduct a review of the acquisition of non-standard articles and services for FMS and BPC programs, and to provide a briefing to the House Committee on Armed Services and the House Committee on Foreign Affairs by October 31, 2018, on the results of the review. The briefing shall include the following with respect to foreign partners' acquisition of non-standard articles and services through FMS or BPC programs:

- (1) a description of current processes and procedures;
- (2) an overview of previous programs, and an assessment of future opportunities for such programs;
- (3) the various options the Department of Defense could use to address this issue, including the advantages and disadvantages of each and funding requirements;
- (4) statutory, regulatory, policy, or funding constraints related to the options in (3); and
- (5) any other matter the Secretary considers appropriate.

Report on New START Treaty

The committee notes that the New START Treaty entered into force in 2011 and is set to expire in 2021 but may be extended for a period of an additional five years. U.S. Strategic Command Commander General Hyten stated in March 2017 before the House Armed Services Committee that "I've stated for the record in the past, and I'll state again, that I'm a big supporter of the New START Agreement." In addition, the committee notes that Air Force deputy chief of staff for strategic deterrence General Weinstein also stated in March 2017 that "The reason you do a treaty is not to cut forces but to maintain strategic stability among world powers. And the New START Treaty allowed us to maintain [that stability]. I think there is a huge value with what the New START Treaty has provided . . . So I think the New START Treaty has been good, been good for us."

Therefore, the committee directs the Secretary of Defense, in coordination with the Chairman of Joint Chiefs of Staff, to provide a report to the congressional defense committees no later than November 15, 2018, on whether, and if so, the reasons that, the New START Treaty, and the extension of the treaty as of the date of the report, is in the national security interests of the United States.

Report on U.S. Casualty Estimates for Armed Conflict With North Korea

The committee directs the Secretary of Defense to provide a report to the House Committee on Armed Services, not later than September 30, 2018, and again 180 days thereafter, on the U.S. casualty estimates for likely scenarios of an armed conflict with

North Korea. The reports should be unclassified, but each may contain a classified annex.

Security and Stability in Venezuela

The committee is concerned about the degradation of democratic institutions, security and stability, and human rights violations in the Bolivarian Republic of Venezuela during the authoritarian rule of President Nicolás Maduro. President Maduro's leadership tenure has produced economic, political, and security instability in Venezuela.

The severe humanitarian crisis unfolding in Venezuela includes inflation exceeding 1,100 percent, massive shortages in food and medical supplies, and a near complete collapse of social services. The committee notes this crisis is directly impacting the Republic of Colombia with an estimated 500,000 Venezuelans seeking refuge there.

The committee recognizes that hundreds of thousands more vulnerable members of the Venezuelan population could potentially migrate to Colombia and other neighboring countries to seek safety and opportunity. This migration could have impacts on stability throughout South America.

Therefore, the committee urges the Department of Defense, in close conjunction with other U.S. agencies, to monitor the economic, security, and political situation in Venezuela closely and to continue working with the government of Colombia and other regional partners to assist the Venezuelan refugee population and resolve the crisis.

Support to Syrian Women

The committee notes the efforts of nongovernmental organizations that have successfully increased the inclusion of Syrian women in local and provincial governance. The committee further notes that women have been instrumental to humanitarian aid efforts at the local level in Syria, and have helped keep schools, hospitals, and basic services running in their communities. Women serve on local councils, advise local police departments, and are being trained to hold forums and town halls in their communities.

The committee directs the Secretary of Defense in coordination with the Secretary of State to provide the House Armed Services Committees no later than December 1, 2018 a briefing on any efforts to support appropriately vetted Syrian opposition forces as defined in section 1209 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3541) in their efforts to increase the inclusion of women in security and governance processes. Additionally, the briefing shall include any plans to initiate or expand such efforts in the future.

Tactical Wheeled Vehicle Support to the Afghan National Defense and Security Forces

The committee notes that the Department of Defense works closely with the Afghan National Defense and Security Forces (ANDSF) to provide protected mobility as well as a wide-range of other capabilities based on military requirements, including

ANDSF priorities as well as the ANDSF's capability to maintain and sustain such equipment. The committee understands the Combined Security Transition Command-Afghanistan (CSTC-A) conducted a tactical wheeled vehicle (TWV) optimization study in 2016 in support of the ANDSF with a focus on creating a sustainable, affordable, and effective fleet that would increase combat capability and force protection for occupants. It is unclear to the committee whether this study considered providing excess defense article mine resistant ambush protected (MRAP) vehicles to the ANDSF. The committee notes there are several thousand MRAP vehicles categorized as Excess Defense Articles (EDA) in the Department's inventory that could potentially be used to address protected mobility requirements for the ANDSF. The committee is aware the ANDSF are using MRAP vehicles and notes these vehicles provide for increased survivability and offensive power in combat operations. Further, the committee is aware of a recent letter of request by the Islamic Republic of Afghanistan for 738 MRAP vehicles.

Therefore, the committee directs the Under Secretary of Defense for Policy, in consultation with the Director, Defense Security Cooperation Agency, to provide a briefing to the House Committee on Armed Services by October 30, 2018, on the cost, operational survivability, and sustainability of EDA MRAP vehicles for the ANDSF, the status of the most recent letter of request for 738 MRAP vehicles for the ANDSF, and whether MRAP vehicles were considered as part of the most recent TWV optimization study conducted by CSTC-A. The briefing should also take into account cost, blast protection level, catastrophic losses to date of vehicles and numbers of Afghan soldiers killed in vehicles damaged by improvised explosive devices.

Trans-Saharan Counterterrorism Partnership (TSCTP)

The committee recognizes the threat posed by terrorist groups such as al-Qaeda in the Islamic Maghreb (AQIM), Boko Haram, and ISIS West Africa, and that such threat poses risks to the stabilization of countries in West Africa and the Sahel.

The committee emphasizes that countering terrorism throughout Western Africa and the Sahel requires enhancing regional border security, tracking illicit financial flows, building law enforcement capacity, and strengthening the rule of law. In order to promote stable and strong institutions throughout Western Africa and the Sahel, a whole of government approach is called for, leveraging State Department-led diplomatic efforts, military-to-military relationships developed and led by U.S. Africa Command (AFRICOM), and development projects carried out by the U.S. Agency for International Development (USAID).

The Trans-Saharan Counterterrorism Partnership (TSCTP) developed in 2005 by the Department of Defense (AFRICOM), Department of State, and USAID was created to support national and regional institutions in the region working with regional governments and European partners bordering the Mediterranean.

The committee encourages the Trans-Saharan Counterterrorism Partnership to continue with regular interagency coordination and engagement with regional partners and allies.

The Committee directs the Office of the Secretary of Defense, in coordination with the Secretary of State, to provide a briefing to

the House Committees on Armed Services and Foreign Affairs by March 1, 2019 on the Trans-Saharan Counterterrorism Partnership including any activities or partner engagement related to military, counter-terrorism, and law-enforcement capacity-building, as well as public diplomacy and information operations.

U.S. Military Education and Training Locations

The committee recognizes the importance of U.S. military leadership in advancing the North Atlantic Treaty Organization's mission to guarantee freedom and security in the alliance and around the world. As the 75th anniversary of D-Day and the allied invasion of Normandy, France, approaches, the committee notes the significance of this event in history. As such, the committee believes the Cotentin Peninsula could serve as a potential location for Department of Defense activities to grow global partnerships and alliances.

Therefore, the committee directs the Secretary of Defense to submit a report to the House Committee on Armed Services and the Senate Committee on Armed Services not later than December 1, 2018, on the feasibility (including cost and availability of any suitable locations for potential activities) of activities to grow global partnerships and alliances on the Cotentin Peninsula prior to the 75th anniversary of the D-Day invasion in June 2019.

Western Hemisphere Region Report on Strategy To Increase Engagement With Region

It is the sense of Congress that the security, stability, and prosperity of the Western Hemisphere region are vital to the national interests of the United States. The United States has a military capability in the Western Hemisphere region that builds goodwill and is able to project power, build partner capacity, deter acts of aggression, and respond, if necessary, to natural disasters, regional threats or to threats to the national security of the United States by the activities of actors, such as Iran, China, Russia, North Korea, transnational criminal organizations, or terrorist organizations in the region. The Committee believes continuing efforts by the Department of Defense to increase investments in the Western Hemisphere are necessary to build and maintain a robust United States commitment to the region.

Therefore, the Committee directs the Secretary of Defense, in coordination with the Secretary of State, to submit a report to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives by April 1, 2019, that contains a strategy on effective U.S. defense engagement with the Western Hemisphere region, a plan to implement that strategy, and any additional funding requirements to implement such strategy. The strategy shall address each of the following:

(1) The security challenges, including threats, emanating from the Western Hemisphere region, including from natural disasters, and any capability gaps in United States defense posture to the region;

(2) The security threats to the United States or to its interests in the Western Hemisphere region from the engagement of Iran,

China, Russia, and North Korea in the region, with a specific focus on Iran's engagement in the Tri-Border region of South America, Bolivia, and Venezuela and Russian engagement in Nicaragua, Cuba, and Venezuela;

(3) The counterintelligence threats to the United States from Cuba and the role of Cuba in supporting the Venezuelan government;

(4) The threats to the United States from transregional and transnational threat networks, including in drug trafficking, illegal mining, deforestation, human trafficking, and other illicit activities;

(5) The threats to the United States from the links of the Venezuelan government with drug trafficking and transnational criminal organizations and corrupt government actors in the region;

(6) Department of Defense plans, force posture, capabilities, and resources to address any gaps in intelligence, surveillance, reconnaissance, or counter-intelligence capabilities in the region; and

(7) The allies, partners, and other countries in the region that the Defense Department has prioritized for increased cooperation and a description of the areas of proposed increased cooperation.

LEGISLATIVE PROVISIONS

SUBTITLE A—ASSISTANCE AND TRAINING

Section 1201—Report on the Use of Security Cooperation Authorities

This section would express the sense of Congress that the Secretary of Defense should use appropriate security cooperation authorities to counter the malign influence campaigns that are directed at allies and partners and that pose a significant threat to the United States. This section would also require the Secretary of Defense to include a report on funding for this purpose with the consolidated budget materials for security cooperation required by section 381 of title 10, United States Code, in fiscal year 2020 through fiscal year 2025.

The committee recognizes that Department of Defense programs aimed at building partner capacity, such as those authorized under section 333(a) of title 10, United States Code, have largely focused on building counterterrorism capabilities in allies and partners. However, with the security cooperation reforms contained in the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328) and the evolving security environment, the committee urges the Department to develop capabilities with key allies and partners that will enable them to counter and mitigate the impact of malign influence campaigns by competitors or adversaries.

Section 1202—Clarification of Authority To Waive Certain Expenses for Activities of the Regional Centers for Security Studies

This section would amend section 342 of title 10, United States Code, to clarify that travel, transportation, and subsistence expenses are included among the costs of activities of the Regional Centers eligible for waiver of reimbursement.

Section 1203—NATO Strategic Communications Center of Excellence

This section would authorize the Secretary of Defense to provide funds for fiscal year 2019 for the purposes of supporting the NATO Strategic Communications Center of Excellence, and would direct the Secretary of Defense to assign executive agent responsibilities to an appropriate organization within the Department of Defense.

Section 1204—NATO Cooperative Cyber Defense Center of Excellence

This section would authorize the Secretary of Defense to provide funds for fiscal year 2019 for the purposes of supporting the NATO Cooperative Cyber Defense Center of Excellence, and would direct the Secretary of Defense to assign executive agent responsibilities to an appropriate organization within the Department of Defense.

Section 1205—Participation in and Support of the Inter-American Defense College

This section would make permanent the authority for U.S. participation in and support of the Inter-American Defense College and would transfer such authority to chapter 16 of title 10, United States Code. This section would further require that Department of Defense participation in, and host nation support of, the Inter-American Defense College shall be in accordance with a memorandum of understanding between the Department and the Inter-American Defense Board, with Secretary of State concurrence, and that such memorandum of understanding shall provide details of any cost-sharing or funding arrangements, a curriculum, and a plan for academic program development.

Section 1206—Increase in Cost Limitation for Small Scale Construction Related to Security Cooperation

This section would increase the limitation on small scale construction related to security cooperation from \$0.75 million to \$2.0 million.

Section 1207—Report on Security Cooperation With Haiti

This section would require the Secretary of Defense, with the concurrence of the Secretary of State, to submit a report on cooperation between the Department of Defense and the Government of the Republic of Haiti.

Section 1208—Review and Report on Processes and Procedures Used to Carry Out Section 362 of Title 10, United States Code

This section would require the Secretary of Defense, with the concurrence of the Secretary of State, to conduct a review of the processes and procedures used to carry out section 362 of title 10, United States Code, and submit a report to the appropriate congressional committees on such review. This section would also make conforming amendments to section 362 and to section 1206 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291).

SUBTITLE B—MATTERS RELATING TO AFGHANISTAN AND PAKISTAN

Section 1211—Extension of Authority To Transfer Defense Articles and Provide Defense Services to the Military and Security Forces of Afghanistan

This section would extend the authority to transfer defense articles being drawn down in the Islamic Republic of Afghanistan and the authority to provide defense services regarding such transfers to the military and security forces of Afghanistan.

Section 1212—Extension of Authority for Reimbursement of Certain Coalition Nations for Support Provided to United States Military Operations

This section would extend through December 31, 2019, the authority to make Coalition Support Fund (CSF) payments under section 1233 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181).

This section would also maintain the limitations enacted in section 1233 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), which provided that of the funds authorized for CSF, not more than \$700.0 million may be provided to the Islamic Republic of Pakistan, and of that amount, not more than \$350.0 million may be provided until the Secretary of Defense certified that Pakistan is taking demonstrable steps against the Haqqani Network.

The committee notes that elsewhere in this Act, it has fully authorized the President's budget request of \$900.0 million for fiscal year 2019 for CSF payments.

Section 1213—Extension and Modification of Commanders' Emergency Response Program

This section would extend the Commanders' Emergency Response Program through 2020 and would modify the eligibility to include Somalia, Yemen, and Libya.

Section 1214—Report on Assistance to Pakistan

This section would require the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the date of the enactment of this Act describing the manner in which the Department provides assistance to the Government of Pakistan.

SUBTITLE C—MATTERS RELATING TO SYRIA, IRAQ, AND IRAN

Section 1221—Extension and Modification of Authority To Provide Assistance to Counter the Islamic State of Iraq and Syria

This section would extend the authority to provide assistance to counter the Islamic State of Iraq and Syria. This section would also authorize a funding level of \$850.0 million for such support in Iraq.

The committee notes that some U.S.-provided equipment has inadvertently fallen into the hands of groups that operate outside of the control of the central Government of the Republic of Iraq and the Kurdish Regional Government. The committee urges the De-

partment of Defense to evaluate its current safeguards to ensure that equipment is properly stored and maintained.

Section 1222—Extension of Authority To Provide Assistance to the Vetted Syrian Opposition

This section would extend and modify section 1209 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291) by extending the “Syria train and equip” program and the reprogramming requirement through December 31, 2019.

Further, this section would require the President to submit to the congressional defense committees a plan at least 30 days prior to an initial reprogramming request in fiscal year 2019. The plan would describe the efforts the United States will take to train and build an appropriately vetted force; the nature of the force; the current effectiveness of the force; the conditions to be met for a determination that the Islamic State in Iraq and Syria has been adequately neutralized; the roles and contributions of partner countries; the concept of operations, timelines and types of training, equipment, stipends, sustainment, supplies to be provided by the United States (including measures for accountability); and a description of force posture.

Section 1223—Extension and Modification of Authority To Support Operations and Activities of the Office of Security Cooperation in Iraq

This section would extend the authority for the Office of Security Cooperation in Iraq (OSC-I) through December 31, 2019. The committee recognizes that OSC-I will manage U.S. security cooperation with the Republic of Iraq over the long term and expects the Department of Defense to ensure, to the extent practicable, that the Government of Iraq is able to sustain and maintain U.S.-provided equipment throughout the lifespan of such equipment.

Section 1224—Sense of Congress on Ballistic Missile Cooperation to Counter Iran

This section would express the sense of Congress that the Gulf Cooperation Council member countries should take meaningful steps to build an interoperable ballistic missile defense architecture with emphasis on information sharing, including early warning and tracking data, to defend against the Islamic Republic of Iran missile threat.

Section 1225—Strategy To Counter Destabilizing Activities of Iran

This section would authorize the Secretary of Defense, with concurrence of the Secretary of State, to develop and implement a strategy with foreign partners to counter the destabilizing activities of Iran. Under such a strategy, partners and allies would commit to collaborating with the United States on a variety of efforts, including but not limited to investing in intelligence, surveillance, and reconnaissance platforms, mine countermeasures resources, integrated air and missile defense, and cybersecurity; engaging in

combined planning, defense education, and institution building; and sharing information.

Further, this section would require the Secretary of Defense, in consultation with the Secretary of State, to submit a report to the congressional defense committees and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, on the strategy and the actions taken by partners and allies.

Section 1226—Report on Compliance of Iran Under the Chemical Weapons Convention

This section would require the Secretary of Defense, in consultation with the Secretary of State, to submit a report to the House Committee on Armed Services and the House Committee on Foreign Affairs by February 1, 2019, assessing the extent to which Iran is complying with its obligations under the Chemical Weapons Convention.

Section 1227—Report on Potential Release of Chemical Weapons or Chemical Weapons Precursors From Barzeh Research and Development Center and Him Shinshar Chemical Weapons Storage and Bunker Facilities in Homs Province of Syria

This section would require the Secretary of Defense to provide a report to the congressional defense committees within 30 days after the date of the enactment of this Act on the analysis for potential release of chemical weapons or chemical weapon precursors, conducted prior to U.S. and partner forces strikes on the Barzeh Research and Development Center and the Him Shinshar chemical weapons storage and bunker facilities in Homs province of Syria in April 2018.

Section 1228—Report on Cooperation Between Iran and the Russian Federation

This provision would require a report each year for the next 5 years on military and security cooperation between the Islamic Republic of Iran and the Russian Federation, particularly in respect to Syria. The report would further cover Russian and Iranian intelligence-sharing, joint naval exercises, joint cooperation on Iran's space and nuclear programs, Russian cooperation with Hezbollah, and the potential that Iran will adopt Russia's hybrid warfare model.

SUBTITLE D—MATTERS RELATING TO THE RUSSIAN FEDERATION

Section 1231—Prohibition on Availability of Funds Relating to Sovereignty of the Russian Federation over Crimea

This section would extend by 1 year the prohibition imposed by section 1245 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114-92), as amended by section 1232 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91). This section would prohibit the use of fiscal year 2019 funds to implement any activity that recognizes the sovereignty of the Russian Federation over Crimea. This section would also allow the Secretary of Defense, in concurrence with the Sec-

retary of State, to waive the prohibition if the Secretary determines that doing so would be in the national security interest of the United States and submits a notification to the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives.

Section 1232—Limitation on Availability of Funds Relating to
Implementation of the Open Skies Treaty

The committee is aware that the Department of State's 2018 arms control compliance report, also known as the "Report on Adherence to and Compliance with Arms Control, Nonproliferation, and Disarmament Agreements and Commitments", submitted pursuant to section 2593a of title 22, United States Code, continues to find the Russian Federation in violation of numerous provisions of the Treaty on Open Skies. Consistent with prior National Defense Authorization Acts, the committee believes legislation is appropriate and required to oversee the implementation of this treaty.

This section would prohibit the use of funding authorized in this Act for fiscal year 2019 for the purposes of upgrading or modernizing certain Treaty on Open Skies systems until such time as the President (or the Secretary of State) is able to certify that the President has imposed treaty violations responses and legal countermeasures.

This section would also limit the use of funding authorized in this Act or any other Act for fiscal year 2019 for the approval or adoption of any implementing decision in the Open Skies Consultative Commission concerning approval of a request by states parties to certify infra-red or synthetic aperture radar sensors under the treaty. Such funding would be restricted until:

(1) the Secretary of Defense, jointly with the relevant U.S. Government officials, submits a certification that an implementing decision would not be harmful or detrimental to the national security of the United States, as well as a report on certain matters has been submitted to the appropriate congressional committees; and

(2) the President has certified, not later than 90 days prior to a decision taking effect, that Russia is in complete compliance with the treaty, is allowing observation flights over certain specified regions, and it has agreed to certain conditions (including the extradition of Russian citizens involved in undertaking unlawful activities against the United States incident to the 2016 Presidential election, it has withdrawn from Crimea and ceased support to Russian proxies in Eastern Ukraine, and has ceased all military and financial support for any state that uses or has used against its civilian population any agent or substance banned by the Chemical Weapons Convention).

The President would be permitted to waive the limitation subject to certain conditions.

The section would also permit the Secretary to cease operation of treaty aircraft for safety of flight.

Section 1233—Comprehensive Response to the Russian Federation’s Material Breach of the INF Treaty

This section would state a series of findings concerning Russian Federation violations of the INF Treaty. This section would also state that it is the policy of the United States that Russia has defeated the object and purpose of the treaty, is in material breach of the treaty, and as a result the U.S. is legally entitled to suspend the operation of the treaty in whole or in part for so long as the Russian Federation continues to be in material breach of the treaty.

This section would additionally withhold 25 percent of the funding authorized to be appropriated by this Act for Department support to the Executive Office of the President, other than funding required for senior leader communications, until the President certifies that each requirement of section 1290 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) has been met; that the President has notified the appropriate congressional committees of the imposition of sanctions pursuant to section 1290 of that Act; and, that the President has submitted the report required by section 1244(c) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91).

The committee notes that because the requirements of section 1244(b)(2) of Public Law 115–91 have not been satisfied as of this report, the restriction on \$50.0 million in fiscal year 2018 authorized funding for the Special Mission Area of the Defense Information Systems Agency remains in place.

The committee is aware that the State Department’s 2018 arms control compliance report, also known as the Report on Adherence to and Compliance With Arms Control, Nonproliferation, and Disarmament Agreements and Commitments, submitted pursuant to section 2593a of title 22, United States Code, continues to find Russia in violation of the Treaty on the Elimination of Intermediate-Range and Shorter-Range Missiles (INF Treaty), specifically the obligations not to possess, produce, or flight-test a ground-launched missile with a range capability of 500 kilometers to 5,500 kilometers. Each National Defense Authorization Act since fiscal year 2014 has included measures to pressure Russia to return to compliance with the treaty and to ensure Russia cannot obtain a military advantage by its violations of the treaty. The committee believes time is running out for Russia to take actions that will allow for the preservation of the treaty.

Section 1234—Modification and Extension of Ukraine Security Assistance Initiative

This section would extend by 2 years section 1250 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92), most recently amended by section 1234 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), to authorize the Secretary of Defense to provide security assistance and intelligence support to the Government of Ukraine. This section would also authorize \$250.0 million to carry out this authority in fiscal year 2019.

The committee recognizes the essential role played by U.S. and partner assistance in training, advising, and equipping Ukrainian

military and security forces, including the invaluable contributions of the National Guard through the State Partnership Program, and urges the Defense Department to fully resource those efforts. As part of these efforts, the committee recognizes the contributions of training activities conducted at the International Peacekeeping and Security Center in Yavoriv, Ukraine, and similar locations.

The committee commends the administration for providing defensive lethal assistance through Foreign Military Financing in the past year to the Government of Ukraine to support its efforts to protect and defend its territorial integrity. The committee urges the Department to continue to use the Ukraine Security Assistance Initiative (USAI) for assistance to the Government of Ukraine and encourages the Department to consider USAI as a source of funds for future defensive lethal assistance.

Section 1235—Statement of Policy on United States Military Investment in Europe

This section would state that it is the policy of the United States to sustain credible deterrence against aggression by the Government of the Russian Federation.

The committee notes section 1273 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) required the Secretary of Defense to submit a report to the congressional defense committees detailing a Future Years Defense Program plan for resourcing and planning for the European Deterrence Initiative. Section 1273 also prohibited any further action with respect to sites identified for divestiture, but not yet divested, as part of the European Infrastructure Consolidation (EIC) initiative until the report was submitted to the congressional defense committees.

As the section 1273 report has not been submitted in compliance with the statutory requirement, the committee believes the limitation of the divestiture of sites under the EIC is still in place.

Section 1236—Imposition of Sanctions With Respect to Certain Persons Providing Sophisticated Goods, Services, or Technologies for Use in the Production of Major Defense Equipment or Advanced Conventional Weapons

This section would require the President to submit a report to the specified congressional committees within 120 days after the date of enactment of the Act; the report would list such persons as are described in section 1290 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328).

This section would also require the President to submit a report to the specified congressional committees within 120 days after the date of enactment of the Act; the report would provide information related to the supply chains for Russian arms sales programs.

The section would require the imposition of sanctions with respect to persons providing specified support to Russian industry, with a focus on targeting Russia's defense industry supply chain, involved with developing or producing major defense equipment or advanced conventional weapons. The sanctions available to the President would include, denial of sales or defense articles and services; licenses for export of an item on the United States Munitions List; or, exports controlled for national security under the Ex-

port Administration Regulations. It would also contain an enhanced sanction for governments of state-sponsors of terrorism that obtain such equipment from Russia. The President would be authorized to waive the imposition of sanctions with respect to the new sanctions provided in this section in certain specified circumstances.

This section would also amend section 231 of the Countering America's Adversaries Through Sanctions Act (Public Law 115-44), by providing an authority to suspend the imposition of sanctions under that Act for 180-day periods in the event a person demonstrates that they are directly supporting U.S. national security objectives and have taken specified steps, including terminating defense relationships with Russia, or reducing reliance upon the Russian defense or intelligence sectors.

Finally, all provisions or amendments made by this section would expire in 5 years.

Section 1237—Extension of Limitation on Military Cooperation Between the United States and the Russian Federation

This section would extend for 1-year section 1232(a) of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328), as most recently amended by section 1231 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91). This section would limit the use of fiscal year 2019 funds for bilateral military-to-military cooperation between the Government of the United States and the Russian Federation until the Secretary of Defense, in coordination with the Secretary of State, provides a certification to appropriate congressional committees relating to certain actions by Russia. This section would also allow the Secretary of Defense to waive the limitation under certain conditions.

Section 1238—Sense of Congress Regarding Russia's Violations of the Chemical Weapons Convention

This section would express the sense of Congress that the Russian Federation is in violation of the Chemical Weapons Convention.

Section 1239—United States Actions Regarding Material Breach of INF Treaty by the Russian Federation

This section would provide that, unless the President certifies to the specified congressional committees that the Russian Federation has returned to full and verifiable compliance with the INF Treaty within 1 year of the date of the enactment of this Act, the prohibitions set forth in Article VI of the Intermediate-range Nuclear Forces Treaty would no longer be binding upon the United States as a matter of U.S. law.

Section 1240—Limitation on Availability of Funds To Extend the Implementation of the New START Treaty

This section would limit the expenditure of funds for the Department of Defense to extend the implementation of the New START Treaty unless and until the President certifies that the President

has raised the issue of certain new Russian nuclear weapons systems under Article V of the New START Treaty and that the Russian Federation has responded in writing to the United States as to whether they will agree to declare such nuclear weapons systems pursuant to the Treaty. The President would be required to notify the specified congressional committees on whether the Russian position threatens the viability of the New START Treaty or requires political, economic, or military response by the United States.

SUBTITLE E—MATTERS RELATING TO THE INDO-PACIFIC REGION

Section 1251—Support for Indo-Pacific Stability Initiative

This section would express the sense of Congress in support of the Indo-Pacific Stability Initiative to increase and enhance U.S. force posture; improve military and defense infrastructure, basing, and logistics; and increase bilateral and multilateral training and exercises with allies and partner nations.

This section would require the Secretary of Defense to submit a requirement and resource plan to the congressional defense committees by March 1, 2019, that includes an analysis of the challenges faced by the United States to meet the objectives and activities outlined in the Indo-Pacific Stability Initiative and the resource requirements needed through fiscal year 2024 to address such challenges. This section also would require the Secretary to submit budget materials in support of the budget of the President for fiscal year 2020.

Section 1252—United States Strategy on China

This section would require the President to issue a strategy on the United States' whole-of-government approach to safeguard U.S. interests against Chinese industrial acquisitions, political influence, and regional and global military capabilities and presence that have defense and security implications for the United States and its allies and partners. The strategy and recommendations for implementation would be required to be submitted to the appropriate congressional committees as a written report not later than March 1, 2019.

Section 1253—Strengthening Taiwan's Force Readiness

This section would direct the Secretary of Defense to conduct a comprehensive assessment, in consultation with appropriate counterparts of Taiwan, on ways to enhance and reform Taiwan's military forces, particularly Taiwan's reserve forces. The assessment would also require the development of recommendations to strengthen bilateral cooperation and improve Taiwan's self-defense capabilities. The Secretary of Defense, in consultation with the Secretary of State, would be required to submit a report on the assessment and a list of recommendations and planned actions to the appropriate congressional committees not later than 1 year after the date of the enactment of this Act.

Section 1254—Modification, Redesignation, and Extension of Southeast Asia Maritime Security Initiative

This section would modify the Southeast Asia Maritime Security Initiative by amending the name to the Indo-Pacific Maritime Security Initiative. It would include India as a covered country and allow for the inclusion of additional countries in the Indo-Pacific region if the Secretary of Defense, in concurrence with the Secretary of State, determines and certifies to the appropriate committees of Congress that it is important for increasing maritime security and maritime domain awareness. This section would also extend the authority by 3 years from September 30, 2020, to September 30, 2023.

Section 1255—Missile Defense Exercises in the Indo-Pacific Region With United States Regional Allies and Partners

This section would express the sense of Congress that the United States should continue to develop and deploy robust missile defense in the Indo-Pacific region. This section would also express that the United States should increase coordination, conduct bilateral and multilateral missile defense exercises, and increase the capacity and integration of missile defense systems with allies and partners to move toward a more interoperable and integrated missile defense architecture.

This section would also state that the Secretary of Defense may conduct missile defense exercises in the Indo-Pacific region with U.S. regional allies and partners to improve interoperability.

Finally, this section would require the Secretary of Defense to provide a briefing to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives on the matters contained in subsection (c) not later than 120 days after the date of the enactment of this Act.

Section 1256—Quadrilateral Cooperation and Exercise

This section would express the sense of Congress on supporting quadrilateral cooperation among the United States, Japan, the Commonwealth of Australia, and the Republic of India, and others as appropriate.

This section would also state that the Secretary of Defense may conduct a quadrilateral naval military exercise and it would require the Secretary to provide a briefing to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives on matters contained in this section not later than 120 days after the date of the enactment of this Act.

Section 1257—Name of United States Indo-Pacific Command

This section would change the name of “United States Pacific Command” to “United States Indo-Pacific Command” beginning in January 1, 2020. This section also would make several conforming amendments pursuant to the name change.

The committee notes that changing the name from “United States Pacific Command” to “United States Indo-Pacific Command”

may involve some necessary administrative expenditures. The committee believes the Department of Defense should be prudent and minimize such costs to the extent practicable.

Section 1258—Requirement for Critical Languages and Expertise in Chinese, Korean, and Russian

This section would require the Secretary of Defense to provide a plan to address shortfalls in Chinese, Korean, and Russian language and expertise across the Department of Defense. Specifically, the plan shall provide a near-term and long-term plan for how the Department is building competency in these critical areas and the Secretary of Defense shall submit that plan to the congressional defense committees not later than 180 days after the date of the enactment of this Act.

Section 1259—Modification of Report Required Under Enhancing Defense and Security Cooperation With India

This section would amend subsection (a)(2) of section 1292 of the National Defense Authorization Act for Fiscal Year 2017 (114–328) by adding an additional reporting requirement. The new reporting requirement would include a description of the progress on enabling agreements between the United States and the Republic of India, any limitations that hinder or slow progress, measures to improve interoperability, and actions India is taking, or the Secretary of Defense or the Secretary of State believe India should take, to advance the relationship with the United States.

Section 1260—Statement of Policy on Naval Vessel Transfers to Japan

This section would express that it shall be the policy of the United States to support maritime defense cooperation with Japan.

Section 1261—Report and Public Notification on China’s Military, Maritime, and Air Activities in the Indo-Pacific Region

This section would state the sense of Congress that greater transparency of the People’s Republic of China provocative military, maritime, and air activities in the Indo-Pacific region would aid in raising awareness of these activities, enable regional security partners to more effectively protect their sovereignty and defend their rights under international law, and maintain stability within the region to enable constructive relations with China.

This section would also require Secretary of Defense, in consultation with the Director of National Intelligence and the Secretary of State, to submit a report to the appropriate congressional committees on a quarterly basis describing China’s activities in the Indo-Pacific region, and disseminate the report to regional allies and partners and provide public notification, as appropriate. The dissemination and availability of the report and public notification shall be made in a manner consistent with national security and the protection of classified national security information.

Section 1262—Senior Defense Engagement With Taiwan

This section would express the sense of Congress that, pursuant to the Taiwan Travel Act, a service secretary or member of the joint chiefs should visit Taiwan for a senior-level defense engagement. This section would require a briefing to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives on any plans of the Department to carry out senior-level defense engagement.

Section 1263—Limitation on Use of Funds To Reduce the Total Number of Members of the Armed Forces on Active Duty Who Are Deployed to the Republic of Korea

This section would limit the use of funds authorized to be appropriated by this Act to reduce the number of members of the Armed Forces serving on Active Duty in the Republic of Korea below 22,000 unless the Secretary of Defense first provides certification to the congressional defense committees that such a reduction is in the national security interest of the United States and will not significantly undermine the security of the United States allies in the region.

Section 1264—Enhancing Missile Defense Cooperation With Partners

This section would state the sense of Congress that the Secretary of Defense should seek to increase missile defense coordination and cooperation with U.S. partners.

This section would amend section 1292 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328) as amended by section 1258 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) by including missile defense cooperation as a priority of Department of Defense defense cooperation efforts with the Republic of India.

SUBTITLE F—OTHER MATTERS

Section 1271—Report on Status of the United States Relationship With the Republic of Turkey

This section would require the Secretary of Defense, in consultation with the Secretary of State, to submit a report on the U.S.-Turkish relationship to the congressional defense committees, the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, not later than 60 days after the date of the enactment of this Act.

This section would also prohibit any action to execute delivery of a foreign military sale for major defense equipment under section 36 of the Arms Export Control Act (22 U.S.C. 2761) to the Republic of Turkey until the required report is delivered to the specified congressional committees.

Section 1272—Sense of Congress on Unity of Gulf Cooperation Council Member Countries

This section would describe the sense of Congress that the member countries of the Gulf Cooperation Council (GCC) are important security cooperation partners of the United States, that GCC unity and cohesion is critical to facing the growing threats from the Islamic Republic of Iran, and that the timely normalization of diplomatic, security, and economic relationships is in the best interest of the United States.

Section 1273—Report on United States Government Police Training and Equipping Programs for Mexico

This section would require the President to submit a report to the congressional defense committees, the Committee on Foreign Relations of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Committee on the Judiciary of the Senate, and the Committee on Foreign Affairs of the House of Representatives, the Committee on Homeland Security of the House of Representatives, and the Committee on the Judiciary of the House of Representatives by July 1, 2019, on U.S. police training and equipping programs with the United States of Mexico.

Section 1274—Authority To Increase Engagement and Military-to-Military Cooperation With Western Balkans Countries

This section would authorize the Secretary of Defense to increase engagement and military-to-military cooperation utilizing authorized programs and activities under chapter 16 of title 10, United States Code, for the Western Balkans region including the Republic of Serbia, Bosnia and Herzegovina, the Republic of Kosovo, and the Republic of Macedonia.

The committee is concerned about long-term stability and security in the Western Balkans region. Ethnic tensions, economic challenges, and malign outside influences are contributing to the instability of the region. The committee remains concerned about the upcoming elections in Bosnia and Herzegovina. Since the signing of the Dayton Accords in 1995, Bosnia and Herzegovina has maintained growth in developing democratic institutions and elections. The committee encourages the Government of Bosnia and Herzegovina to promptly and effectively address their constitutional challenges and hold fair and free elections in October 2018.

The committee remains deeply concerned over the Russian Federation's intensifying efforts to assert its influence in the Western Balkans. The committee condemns Russia's involvement in the attempted coup against the Government of the newest member of the North Atlantic Treaty Organization (NATO), Montenegro, in October 2016. The committee is also concerned about Russian information operations in the Balkans including propaganda and efforts to highlight lingering ethnic tensions.

The committee is encouraged by the strong partnerships that continue to develop in the Western Balkans with the United States. These partnerships are vital to increase security, stability, and prosperity in the region. The committee also encourages European partners and allies to strengthen relationships in the region as well. The committee is hopeful about, and supportive of, the contin-

ued work of many in the region toward goals of integrating into the Euro-Atlantic community, including NATO and the European Union (EU). The continued forward progress by these nations toward accession into NATO and the EU provides a stable framework from which to achieve greater stability and security throughout Central Europe. The committee notes that the Department of Defense should continue to increase military-to-military cooperation and engagements in the region.

Section 1275—Technical Corrections Relating to Defense Security Cooperation Statutory Reorganization

This section would make technical corrections relating to defense security cooperation statutory reorganization.

Section 1276—United States-Israel Countering Unmanned Aerial Systems Cooperation

This section would modify section 1279 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) to authorize establishment of a cooperative research and development program with the State of Israel to develop capabilities for countering unmanned aerial systems through modification of the existing memorandum of agreement between the United States and Israel for anti-tunneling defense capabilities or through a new memorandum of agreement.

Section 1277—Three-Year Extension of Authorization of Non-Conventional Assisted Recovery Capabilities

This section would modify section 943(g) of the National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417), as most recently amended by section 1051(n) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91), authorization of non-conventional assisted recovery capabilities, by striking “2021” and inserting “2024”.

Section 1278—Revision of Statutory References to Former NATO Support Organizations and Related NATO Agreements

This section would amend section 2350d of title 10, United States Code, to update the statutory reference to reflect a reorganization of the North Atlantic Treaty Organization (NATO) with respect to the elimination of the NATO Support Organization and the establishment of the NATO Support and Procurement Organization. This section would also amend section 2350d to reflect that NATO supply and logistics support activities may extend to NATO operations outside of Europe.

Section 1279—Sense of the Congress Concerning Military-to-Military Dialogues

This section would state the sense of Congress regarding the parameters that lead to successful military-to-military dialogues.

Section 1280—Modifications to Global Engagement Center

This section would modify section 1287 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328).

Nothing in this section would alter the requirements of section 8119 of the Consolidated Appropriations Act of 2018 (Public Law 115–141) or any successor provision in an Appropriation Act.

Section 1281—Report on Acquisition and Cross-Servicing Agreements

This section would amend section 2342 of title 10, United States Code, with a requirement to report on cross-servicing agreements with NATO Allies and other countries. Reporting would include the country, date, text, dollar amount, and an assessment as to whether or not it falls within U.S. national security interests.

Section 1282—Prohibition on Provision of Weapons and Other Forms of Support to Certain Organizations

This section would prohibit funds authorized to be appropriated by this Act or otherwise made available to the Department of Defense for fiscal year 2019 from being used to provide weapons or any other form of support to certain organizations.

Section 1283—Certification and Authority To Terminate Funding for Academic Research Relating to Foreign Talent Programs

This section would require the Secretary of Defense to submit a plan to implement a certification requirement to ensure certain applicants for certain Department of Defense research funding provide the Secretary information concerning whether they have participated, or are currently participating, in foreign talent or expert recruitment programs of certain countries.

The Secretary would be required to implement such certification program not later than one year after the date of the enactment of this Act. The Secretary would have the authority to terminate the award of Department funds if an applicant or recipient of such funds is unable to provide the required certification.

Section 1284—Sense of Congress on Support for Georgia

This section would express the sense of Congress regarding the United States support for Georgia's sovereignty and territorial integrity as well as support for continued cooperation between the United States and Georgia.

Section 1285—Sense of Congress on Support for Estonia, Latvia, and Lithuania

This section would express the sense of Congress on U.S. support for the Republic of Estonia, the Republic of Latvia, and the Republic of Lithuania, including support for their sovereignty, concern over aggressive military actions of the Russian Federation against these nations, and encouragement for further defense cooperation between the United States and these nations.

Section 1286—Report on United States Strategy in Yemen

This section would require the Secretary of Defense to submit a report to the congressional defense committees not later than February 1, 2019, describing the strategy of the United States Armed Forces with respect to Yemen including a description of the U.S.

Armed Forces activity in Yemen, costs associated with such activity, key objectives of such activity, indicators of effectiveness, how current efforts align with such objectives, the estimated annual resources required through fiscal year 2022 to achieve such objectives, the applicable legal authorities, and any other matters the Secretary deems relevant.

Section 1287—Report on Hizballah

This section would require the President to submit to the Senate Committee on Armed Services, the House Committee on Armed Services, the congressional intelligence committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate a report on Hizballah no later than 90 days after the enactment of this act. The report would include accounting of Hizballah's known rocket arsenal, an evaluation of the impact of the United Nations Interim Force in Lebanon (UNIFIL), an evaluation of Hizballah's capabilities, a description of routes used by Hizballah to procure weapons illegally, an estimate of entities that support Hizballah's network, an assessment of Hizballah's involvement in regional conflicts, and an assessment of Hizballah's fundraising in territories where UNIFIL operates.

TITLE XIII—COOPERATIVE THREAT REDUCTION

ITEMS OF SPECIAL INTEREST

Future of the Cooperative Threat Reduction Program

The committee notes the successful history of the Nunn-Lugar Cooperative Threat Reduction (CTR) program, including the pivotal role it played in securing former Soviet Union nuclear material and delivery platforms, the destruction of Russian and Syrian chemical weapons, and the securing of sensitive biological laboratories around the world. In response to an evolving threat landscape, Congress has provided modifications to the original program to address current requirements for threat reduction and the proliferation of weapons of mass destruction (WMD) by state and non-state actors around the globe.

The committee is aware that additional opportunities may exist for enhanced cooperation with allies and partners to address emerging proliferation concerns and WMD threats, such as those on the Korean Peninsula. The committee notes, however, that interagency coordination, expeditious project approval, prioritization, measuring program effectiveness, and policy gaps continue to pose challenges to effective and efficient utilization of CTR by the Department of Defense, despite efforts for improvement.

Therefore, the committee directs the Secretary of Defense to provide a report to the House Committee on Armed Services by December 1, 2018, on how to strengthen the CTR program so that it may be better leveraged for emerging threat reduction and proliferation concerns in an efficient and expeditious manner.

LEGISLATIVE PROVISIONS

Section 1301—Funding Allocations

This section would allocate specific funding amounts for each program under the Department of Defense Cooperative Threat Reduction (CTR) Program from within the overall \$335.2 million that the committee would authorize for the CTR Program. The allocation under this section reflects the amount of the budget request for fiscal year 2019.

Section 1302—Specification of Cooperative Threat Reduction Funds

This section would specify that funds authorized to be appropriated to the Department of Defense for the Cooperative Threat Reduction Program, established under the Department of Defense Cooperative Threat Reduction Act (50 U.S.C. 3711), would be available for obligation in fiscal years 2019, 2020, and 2021.

TITLE XIV—OTHER AUTHORIZATIONS

LEGISLATIVE PROVISIONS

SUBTITLE A—MILITARY PROGRAMS

Section 1401—Working Capital Funds

This section would authorize appropriations for Defense Working Capital Funds at the levels identified in section 4501 of division D of this Act.

Section 1402—Chemical Agents and Munitions Destruction,
Defense

This section would authorize appropriations for Chemical Agents and Munitions Destruction, Defense at the levels identified in section 4501 of division D of this Act.

Section 1403—Drug Interdiction and Counter-Drug Activities,
Defense-Wide

This section would authorize appropriations for Drug Interdiction and Counter-Drug Activities, Defense-wide at the levels identified in section 4501 of division D of this Act.

Section 1404—Defense Inspector General

This section would authorize appropriations for the Office of the Inspector General at the levels identified in section 4501 of division D of this Act.

Section 1405—Defense Health Program

This section would authorize appropriations for the Defense Health Program at the levels identified in section 4501 of division D of this Act.

Section 1406—National Defense Sealift Fund

This section would authorize appropriations for the National Defense Sealift Fund at the levels identified in section 4501 of division D of this Act.

SUBTITLE B—OTHER MATTERS

Section 1411—Authority for Transfer of Funds to Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund for Captain James A. Lovell Health Care Center, Illinois

This section would authorize the transfer of funds from the Department of Defense to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund established by section 1704 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84).

Section 1412—Authorization of Appropriations for Armed Forces Retirement Home

This section authorizes appropriations for fiscal year 2019 from the Armed Forces Retirement Home Trust Fund for the operation of the Armed Forces Retirement Home.

Section 1413—Quarterly Briefing on Progress of Chemical Demilitarization Program

This section would modify section 1521 of title 50, United States Code, to require the Secretary of Defense to provide quarterly briefings to the congressional defense committees on the progress of the chemical demilitarization program, including contractor cost and schedule performance, destruction progress, and any other relevant information until stockpile destruction is complete. This section would also eliminate the semiannual written reports required in the section referenced above.

TITLE XV—AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR OVERSEAS CONTINGENCY OPERATIONS

ITEMS OF SPECIAL INTEREST

Cargo Inspections To Counter Vehicle Borne IED Threats

The Committee is encouraged that the Department of the Army is testing and planning to deploy new passive cargo inspection technologies to address a joint urgent operational need to counter Vehicle Borne Improvised Explosive Device (VBIED) threats. This disruptive technology, which utilizes naturally occurring cosmic ray muons and electrons, identifies shielded and unshielded nuclear and radioactive materials; detects smuggled contraband, including weapons, bombmaking materials, and illicit goods; and is proven safe for humans, animals, and food products. The Committee encourages the Army to continue with the current testing program and supports efforts to deploy the system at a major US military

facility. Further, the Committee requests a briefing 60 days after the enactment of this bill on the potential future deployments of these next generation inspection technologies inside and outside the continental United States. The briefing, which may be provided in a classified setting, shall include an assessment of current cargo inspection protocols and requirement gaps that may exist.

National Guard and Reserve Component Equipment Account

The budget request for Overseas Contingency Operations (OCO) contained no funding for a National Guard and Reserve Component equipment account. Elsewhere as reflected in division D of this Act, the committee notes that the base budget request contained \$3.4 billion for procurement of National Guard and Reserve Component equipment and \$219.9 million in the OCO request for Army National Guard and Army Reserve other procurement programs.

The committee remains concerned about the availability of equipment needed to sustain and modernize the National Guard and Reserve Components as an operational reserve and for their domestic support missions. The committee notes that National Guard and Reserve Components are often reliant upon overused and outdated equipment, creating a widening capability gap with the Active Component, and have been unable to maintain pace with rapid technological change. The committee believes additional funds are required to address identified equipment shortfalls and improve compatibility with Active Components. The committee expects these funds to be used for the purposes of, but not limited to, the procurement of rotorcraft; avionics and radar upgrades for legacy strike fighter aircraft to include Navy Reserve F-18 strike fighters; wheeled and tracked combat vehicles; tactical wheeled vehicles; ammunition; small arms; tactical radios (to include single channel ground and airborne radio systems); UH-72A Lakota survivability upgrades; UH-60 disaster response equipment, such as rescue hoists, water buckets, and radios; non-system training devices; vehicle convoy operations trainers; unstabilized gunnery trainers and virtual convoy operations trainers; sense and avoid system upgrades for unmanned air systems; and explosive ordnance disposal man-portable robots & lightweight X-ray systems and other unfunded procurement items for the National Guard and Reserve Components.

The committee recommends additional funding for a National Guard and Reserve Component equipment account within the Overseas Contingency Operations budget request. The committee also recommends \$3.4 billion, the full amount of the base budget request, for National Guard and Reserve Component equipment and also recommends \$219.9 million in the OCO request for Army National Guard and Army Reserve.

LEGISLATIVE PROVISIONS

SUBTITLE A—AUTHORIZATION OF APPROPRIATIONS

Section 1501—Purpose of Certain Authorizations of Appropriations

This section would establish the purpose of this title and make authorization of appropriations available upon enactment of this Act for the Department of Defense, in addition to amounts other-

wise authorized in this Act, to provide for additional authorization of funds due to overseas contingency operations and other additional funding requirements.

Section 1502—Procurement

This section would authorize additional appropriations for procurement at the levels identified in section 4102 of division D of this Act.

Section 1503—Research, Development, Test, and Evaluation

This section would authorize additional appropriations for research, development, test, and evaluation at the levels identified in section 4202 of division D of this Act.

Section 1504—Operation and Maintenance

This section would authorize additional appropriations for operation and maintenance programs at the levels identified in section 4302 of division D of this Act.

Section 1505—Military Personnel

This section would authorize additional appropriations for military personnel at the levels identified in section 4402 of division D of this Act.

Section 1506—Working Capital Funds

This section would authorize additional appropriations for Defense Working Capital Funds at the levels identified in section 4502 of division D of this Act.

Section 1507—Drug Interdiction and Counter-Drug Activities, Defense-Wide

This section would authorize additional appropriations for Drug Interdiction and Counter-Drug Activities, Defense-Wide, at the levels identified in section 4502 of division D of this Act.

Section 1508—Defense Inspector General

This section would authorize additional appropriations for the Office of the Inspector General at the levels identified in section 4502 of division D of this Act.

Section 1509—Defense Health Program

This section would authorize additional appropriations for the Defense Health Program at the levels identified in section 4502 of division D of this Act.

SUBTITLE B—FINANCIAL MATTERS

Section 1511—Treatment as Additional Authorizations

This section would state that amounts authorized to be appropriated by this title are in addition to amounts otherwise authorized to be appropriated by this Act.

Section 1512—Special Transfer Authority

This section would authorize the transfer of up to \$4.5 billion of additional war-related funding authorizations in this title among the accounts in this title.

SUBTITLE C—LIMITATIONS, REPORTS, AND OTHER MATTERS

Section 1521—Afghanistan Security Forces Fund

This section would extend the Afghanistan Security Forces Fund through December 31, 2019. This section would also set a goal of using \$18.0 million to support, to the extent practicable, the efforts of the Government of the Islamic Republic of Afghanistan to promote the recruitment, training, and integration of Afghan women into the Afghan National Defense and Security Forces and as security personnel for future elections.

This section would also require an assessment of the Government of Afghanistan's ability to manage, employ, and sustain equipment divested under the Afghan Security Forces Fund; if the results of said assessment are unfavorable, the Secretary of Defense, in consultation with the Secretary of State, would be authorized to withhold assistance under the Afghanistan Security Forces Fund.

Section 1522—Joint Improvised-Threat Defeat Fund

This section would amend subsections (b) and (c) of section 1514 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) to extend the use and transfer authority for the Joint Improvised-Threat Defeat Fund through fiscal year 2019. This section would also extend the authority for interdiction of improvised explosive device precursor chemicals to December 31, 2019.

This section would also direct the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2019, a plan to transition funding for the Joint Improvised-Threat Defeat Fund from Overseas Contingency Operations to the base budget.

TITLE XVI—STRATEGIC PROGRAMS, CYBER, AND INTELLIGENCE MATTERS

ITEMS OF SPECIAL INTEREST

SPACE ACTIVITIES

Briefing on Deployed Satellite Communications Terminals

The committee notes that currently deployed satellite communications terminals may not meet the performance, the agility, timeliness, and weight requirements needed to provide secure satellite communications to naval and expeditionary forces. The committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services by November 1, 2018, on the current validated requirements for the terminals and a plan, including applicability, operational capability and cost, for quickly fielding commercially available, secure, lightweight, satellite com-

munications terminals, equipped with rapidly deployable antennas, in support of warfighter operations.

Briefing on Supply Chain for In-Space Propulsion Thrusters

The committee is aware that the Department of Defense and its suppliers rely on U.S., allied, and non-allied manufacturers for procurement of in-space propulsion thrusters. These thrusters are used on critical military satellites and the Committee is concerned that the presence of Russian origin thrusters on these satellites may constitute a security risk, particularly as the Department of Defense shifts towards the use of commercial off the shelf satellites.

Therefore, the Committee directs the Secretary of the Air Force to provide a briefing on the supply chain for in-space propulsion thrusters, whether the presence of allied or non-allied thrusters increases risk, and if so how, options to mitigate any identified risks, and the cost implications of relying solely on U.S. sources to the House Committee on Armed Services by January 31, 2019.

Commercial Satellite Imagery

The committee continues to support the National Geospatial-Intelligence Agency's (NGA) continued acquisition of commercial satellite imagery in support of global geospatial-intelligence needs. The committee is also aware that NGA, working with the National Reconnaissance Office (NRO), is developing a joint transition plan to transfer commercial imagery pixel acquisition from NGA to NRO in fiscal year 2019, and expects continued focus and leveraging of these commercial capabilities to add to U.S. imagery capacity and capabilities.

As this transition occurs, the committee believes it is essential to maintain continuity of operation, quality of service, cost-effective services, and capability for the warfighter and other user communities.

Acquisition of commercial imagery should contract with several providers to leverage U.S. industry providers of global, high-resolution, and cost-effective services, with high revisit rates, and reliable performance including those that have demonstrated proven capability and those that are rapidly emerging within industry. Commercial synthetic aperture radar imagery can also provide day, night, and all-weather imagery in highly cloud covered regions.

The committee directs the NGA Director and the NRO Director to jointly provide a briefing to the congressional defense committees and the congressional intelligence committees by August 1, 2018, on agency plans for the transition from NGA to NRO, and planned funding beyond fiscal year 2019, and on an open and fair competitive acquisition process to leverage industry capabilities, including but not limited to plans following the EnhancedView contract.

Commercial Space Situational Awareness Capabilities

The committee continues to be concerned with the direction of the multiple programs seeking to address space situational awareness (SSA) requirements, including Joint Space Operations Center Mission System, the Enterprise Space Battle Management Com-

mand and Control System, and the SSA Operations at the National Space Defense Center. The committee expects the Air Force to operationalize existing best of breed commercial capabilities to meet warfighter requirements.

The committee supports the efforts being undertaken by the Air Force Research Laboratory and the Air Force Rapid Capabilities Office to develop common data standards and process commercial data to augment Department of Defense capabilities. The development of common data standards will be important to ensuring the broader multi-domain command and control efforts that are being undertaken within the Air Force.

Criteria for Launch Service Agreement Down-Select

The committee notes that the Secretary of the Air Force plans to make an initial down-select decision to three potential Expendable Evolved Launch Vehicle (EELV) launch providers for assured access to space in the summer of 2018, and plans to make a final award for launch service procurement contracts by the end of fiscal year 2019. The committee is aware that full-scale flight tests of new space launch vehicles may not occur until after this award is made.

The committee therefore directs the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services not later than October 1, 2018, on the criteria and sufficiency of test data that the Air Force will use to make the final launch service agreement awards by the end of fiscal year 2019, potentially ahead of fully integrated flight tests. The briefing should also include criteria and incentives that the Air Force will use to ensure that the contractors selected maintain schedule and fidelity in line with their contract bids.

GPS Backup Demonstration

The committee continues to support the demonstration of backup and complementary positioning, navigation, and timing capabilities of the Global Positioning System (GPS) as required by section 1606 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91). The committee encourages the Secretary of Defense, Secretary of Transportation, and Secretary of Homeland Security to continue to work together to jointly develop and implement a plan for carrying out this backup GPS capability demonstration in 2019 and 2020. Further, the committee expects the Secretaries to submit the final report next year as required by Public Law 115–91. The committee directs the Secretary of Defense to provide a briefing to the congressional defense committees by December 1, 2018, on the progress being made on this demonstration.

Launch Support and Infrastructure Modernization

The committee is aware that the Air Force's launch support and modernization program required by section 1609 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) covers the Eastern and Western Ranges, but does not include U.S. spaceports. Therefore, the committee directs the Secretary of the Air Force to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives not later

than September 14, 2018, on the potential benefits of including in this program U.S. spaceports and ranges that actively support national security missions, including benefits such as increasing resilience and rapid launch capability, and the estimated costs of including them.

Launch Vehicle Upper Stage Mission Enhancement

The committee is interested in the cost-effective development of advanced launch vehicle upper stages to be used for defense of our space assets. Advanced upper stages could increase the operational flexibility and on-orbit reusability of the holistic launch system while also allowing for greater delivery of mass to orbit.

The committee directs the Secretary of Defense to provide a briefing to the congressional defense committees by December 3, 2018, on the benefits, risks, costs, and operational opportunities for next generation upper stage technology. The briefing should examine as appropriate on-orbit reusability, cryogenic refueling, multiple engine restarts, and power generation to support secondary payloads that can support space resiliency.

Next Generation Overhead Persistent Infrared Satellites

The committee supports the Department of Defense's efforts to improve the affordability, resiliency, and agility of Overhead Persistent Infrared Satellite systems that can be rapidly fielded as the battlespace changes. As adversaries challenge this capability, the Department must respond with technology upgrades in a rapid fashion to counter the threat by pursuing affordable systems with lifetimes under 7 years; disaggregated strategic missile warning, missile defense tracking, and battlespace awareness missions; smaller bus sizes; resilient mission architectures that can survive a loss of system nodes/satellites and still provide primary mission capability through complementary mission capabilities and both on-orbit and ground spares with the ability to rapidly reconstitute.

The committee believes these efforts should be supported with robust prototyping to demonstrate the now disaggregated missions of strategic missile warning and battlespace awareness for increased resiliency: operational demonstrations to drive down operational interface risks and technical demonstrations to drive down technical risks so that technology insertion into our operational systems can be done in a low-risk fashion. Prototypes should have residual operational capability that can contribute immediately to the resilience of the mission.

Plan for Use of Allied Launch Services in Case of Emergency Need

The committee notes that a plan for the use of allied launch vehicles was mandated by section 1604 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328). This plan was to provide assured access to space should the Department of Defense be unable to meet that requirement for a limited period using only U.S. launch vehicles.

In 2017, the Air Force provided to Congress a report that analyzed the initial potential of using an allied nation's launch vehicle and services for U.S. national security space launches. The committee commends the Air Force for providing this analysis. The

committee notes the report identified a number of activities that have not been implemented, specifically regarding the pursuit of non-recurring design validation or certification of the allied launch system for specific payloads or reference missions, early integration studies of specific payloads, an environmental impact statement plus one year of standard mission integration and space-flight-worthiness assessment, and the pursuit of a pathfinder mission. The committee further notes that additional capabilities may be needed to use allied launch capability in the event of an emergency and inability of U.S. launch providers to provide assured access to space.

The committee directs the Secretary of Defense to provide a report to the House Committee on Armed Services by December 3, 2018, on an operational backup plan for assured access into space using allied launch vehicles. This plan shall include:

(1) an assessment of U.S. satellites that would be appropriate to be launched on an allied launch vehicle;

(2) relevant laws, regulations, and policies governing the launch of national security satellites;

(3) whether any legislative, regulatory, or policy actions or changes would be necessary to allow for the launch of a national security satellite on an allied launch vehicle; and

(4) the certification requirements for using allied launch vehicles pursuant to the plan and the estimated cost, schedule, and measures that would be necessary to certify allied launch vehicles.

When creating this backup plan, the committee expects the Secretary to leverage findings identified by the previous Air Force report.

Portable Satellite Data Receiver Status

The committee notes that the United States Air Force Research Laboratory's Small Business Initiative Research has provided funding for the development of a unique satellite communications receive suite for reliable, portable connection by the warfighter to the Global Broadcast System (GBS). The committee is aware that the Department of Defense joint program office now includes these portable receive suites as an approved solution for receive technology with military satellite communications on the existing GBS network. The committee encourages the Department of Defense and the Air Force to ensure that these suites are made available to the warfighter.

The committee directs the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services by November 1, 2018, on a plan, including applicability and cost, for rapidly fielding commercially available, secure, satellite, Suitcase Portable Receive Suites and Rucksack Portable Receive Suites in support of deployed warfighter operations.

Rapid Satellite Capability Reconstitution

The committee recognizes the value that rapid reconstitution may contribute to increasing resilience in the space domain. The committee directs the Under Secretary of Defense for Research and Engineering to submit a report to the House Committee on Armed Services by January 15, 2019, on the needs and capabilities of the

Department of Defense to rapidly reconstitute disaggregated Earth-orbiting satellite constellations. The report should include options for developing an approach for commercially acquiring, where cost effective, resilient and rapid launch services to support reconstitution, including but not limited to the feasibility of launching satellites within one week of need.

Satellite Communications

The committee is aware that the Consolidated Appropriations Act, 2018 (Public Law 115–141) added two more Wideband Global Satellite Communications System (WGS) satellites. The committee also notes the increasing demand for satellite communications (SATCOM) capacity and the potential for increased contribution from commercial SATCOM providers. In addition, recognizing the growing capacity and resilience requirements, the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) required that the pilot program required under section 1605 of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291) provide order-of-magnitude improvements in SATCOM capability.

The committee is aware of proven commercial SATCOM technology, including high capacity satellite communications technology, that delivers improvements in capacity and performance capabilities and supports operations in contested environments in a cost-effective manner. The committee supports the Department of Defense's request for multiyear procurement authority for these services.

Therefore, the committee directs the Secretary of Defense to submit a report to the Committee on Armed Services of the House of Representatives by December 1, 2018, including:

(1) the costs associated with the procurement, operations, and sustainment of the additional WGS satellites, including life-cycle costs, and costs related to operations and maintenance, and launch;

(2) an update on the status of the Air Force commercial SATCOM pilot and pathfinder programs, including an update on fulfilling the order-of-magnitude requirement, an explanation of the steps the Department is taking to expedite the integration of commercially available high capacity satellite communications to meet the growing capacity demand and counter accelerating adversary communications denial capabilities, and whether the Air Force plans to use its existing authorities to solicit and award annual services contracts; and

(3) a comprehensive plan to modernize terminals and networking capability needed to access and adopt new multi-domain commercial communications technologies, multi-mode terminals and network.

Space Flag Exercise and Responsive Launch

The committee is encouraged that the budget request proposed creating a dedicated Air Force Space Procurement funding line to acquire affordable, flexible launch services to deliver spacelift capability for small payloads to low Earth orbit through geostationary transfer orbit. The committee supports the proposed Rocket System Launch Program procurement and encourages sustained invest-

ment to further operationalize integration of new small launch services into the space enterprise.

The National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) also states that the Secretary of Defense should establish “an annual capstone training event” for space professionals to refine doctrine, operations, and training. This “Space Flag” exercise improves training to operate in the event of loss of space capabilities and to deter conflict in space. The U.S. Air Force concluded its second annual Space Flag exercise in August 2017 in Colorado Springs, Colorado.

Demonstrating overt resolve and ability to rapidly replenish diminished capabilities could contribute to increasing resilience in space as it relates to operations, tactics, and procedures for protecting and defending U.S. assets. In addition, integrating responsive launch capabilities into the annual Space Flag event could be an important step in evolving space mission operations, and to test, train, and operationalize these capabilities.

Accordingly, the committee directs the Secretary of the Air Force to provide a briefing to the congressional defense committees by December 1, 2018, on the value, plans, requirements, and benefits of aligning the small launch activities of the Rocket System Launch Program with the annual Space Flag training exercise.

Use of Commercial Items in Follow-On Wideband Communications System

The committee supports efforts to conduct an analysis of alternatives for a follow-on wideband communications system to the Wideband Global Satellite Communications System as required by section 1611 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92). The committee encourages the Department of Defense’s efforts to maximize the use of commercial satellite communications capabilities as required by section 2377 of title 10, United States Code.

Section 2377 of title 10, United States Code, requires that Federal agencies maximize the use of commercial items in determining requirements and soliciting for procurements. To prevent critical satellite communications capability gaps and to field a follow-on wideband communications system by 2021, the Department must ensure that its market research is fully investigating the ability of a commercial offeror to meet the requirements of the Air Force’s procurement needs on a commercial basis, in part or in full.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by June 30, 2018, on the Department’s efforts to comply with section 2377 of title 10, United States Code, and on its analysis of alternatives for a follow-on wideband communications system.

MISSILE DEFENSE PROGRAMS

Airborne Tracking and Targeting System

The Committee notes that the Missile Defense Agency has been working on technologies to develop and test ballistic missile tracking and surveillance using MQ–9 Reaper unmanned aerial vehicles under an experimental program. The Committee directs the Missile

Defense Agency, in coordination with Commander, Pacific Command and Commander, Central Command, to provide a brief to the House Armed Services Committee by December 31, 2018 on the addition of an operational fleet of advanced sensors deployed on MQ-9 Reaper systems to the ballistic missile defense system, to include integration and test efforts, operational value for regional and homeland defense, basing options, Warfighter concepts of operation, and total research, development, test and evaluation and operations and sustainment costs associated with deployment to the Pacific command and Central command areas of responsibility.

Cruise Missile Threat to Hawaii

The committee notes the cruise missile threat to the United States, including Hawaii, and notes that the ballistic missile defense review, which has been delayed, may address this issue. Therefore, the committee directs the Secretary of Defense, in consultation with the Director of National Intelligence, to provide to the Armed Services Committee of the House of Representatives a briefing no later than 45 days after the Ballistic Missile Defense Review is submitted to Congress, on the cruise missile defense threat to the United States, including Hawaii, including in the event of a conflict with Russia or China, the role of nuclear deterrence plays in the layered defense of the United States, and an assessment of the required architecture, development and deployment timeline, estimated costs and any relevant policy implications related to a potential cruise missile defense system to protect the United States, including specifically Hawaii.

Cybersecurity of Ballistic Missile Defense System

This committee notes the 2017 report from the Director, Operational Test and Evaluation, of the Department of Defense, on the cybersecurity testing gaps that exist for the Ballistic Missile Defense System (BMDS). The committee further notes that a plan is needed from the Missile Defense Agency and Director, Operational Test and Evaluation to conduct vulnerability assessments, cooperative vulnerability and penetration assessments, and adversarial assessments on all BMDS mission elements. Therefore, the committee directs the Director of the Missile Defense Agency, in coordination with the Director, Operational Test and Evaluation, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by December 31, 2018, on the BMDS cybersecurity testing road map. The briefing must include a comprehensive plan to improve the cybersecurity posture of the mission elements of the BMDS, including addressing the requirement to further enhance such posture through the integration and dissemination of left- and right-of-launch data, and what process the Director of the Missile Defense Agency will use to incorporate lessons learned from the cybersecurity assessments.

Hypersonic Defense

The committee directs the Director of the Missile Defense Agency to provide a briefing to the congressional defense committees by December 31, 2018, on the hypersonic defense analysis of alternatives and the integrated plan, including estimated costs to de-

liver hypersonic defense capabilities in a manner that is global, cost effective, persistent, and provides resilient tracking, in accordance with section 1687 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328). This briefing shall include an assessment on the required architecture, deployment timeline, and estimated costs for defense against hypersonic threats as demonstrated and/or pursued by Russia and China.

Maintenance of Patriot Batteries

The committee notes that an ongoing review by the Comptroller General of the United States of the Army's maintenance of the Patriot missile defense system has found that although the Army believes that the current pace of recapitalizing Patriot equipment incurs long-term risks to sustaining the system, the Army has concluded that it cannot increase the recapitalization pace without affecting current operational demands or without shifting resources from its integrated air and missile defense modernization priorities. In addition, the ongoing review by the Comptroller General has found that the return of reset equipment to Patriot units generally has not met the Army's timeliness goal and that delays in returning reset equipment can affect unit training. Therefore, the committee directs the Secretary of the Army to provide a briefing to the Committee on Armed Services of the House of Representatives not later than December 1, 2018, on a plan to conduct a comparative analysis of factors affecting Patriot reset timeliness and appropriate corrective actions to improve timeliness.

Options To Supplement Missile Defense of Hawaii

The committee notes that Hawaii is currently defended against missile threats from North Korea by the deployed ground-based interceptors located at Fort Greely, Alaska, and Vandenberg Air Force Base, California. Mindful of potential costs and untested capability of Standard Missile–3 (SM–3) interceptors against long-range missile threats, the committee directs the Secretary of the Navy, in consultation with the Director of the Missile Defense Agency, to provide a briefing to the Committee on Armed Services of the House of Representatives, not later than September 15, 2018, on the potential to supplement this defense by assigning a permanent Aegis ship patrol to increase a layered ballistic missile defense of Hawaii, with the assumption that SM–3 missiles might be effective against long-range threats. The briefing should address the technical capability, feasibility, benefits, risks, cost, and trade-offs of this option for the purpose of defending Hawaii.

In addition, mindful of the high demand for Terminal High Altitude Area Defense (THAAD) batteries and the untested capability of the THAAD weapon system against long-range threats, the committee also directs the Director of the Missile Defense Agency, in coordination with the Secretary of the Army, to provide a briefing to the Committee on Armed Services of the House of Representatives, not later than September 15, 2018, on the feasibility of stationing a permanent THAAD battery in Hawaii, and the technical capability, costs, benefits, and risks of testing a THAAD interceptor against an intercontinental ballistic missile.

Patriot Interceptor Inventory

The committee recognizes, given the reality of ever-increasing capabilities and quantities of ballistic missiles and air-breathing threats (such as cruise missiles and unmanned aerial vehicles), the importance of maintaining a full complement of interceptors for the Patriot system. Section 1678 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) directed the Army to submit a plan to maintain an inventory of interceptors necessary to retain the capability provided by Patriot interceptors. The committee notes that the report has not yet been received and will be delayed until July 2018.

Therefore, the committee directs the Secretary of the Army, in coordination with the Chief of Staff of the Army, to submit an amended report to the congressional defense committees by July 31, 2018, that addresses the value of maintaining use of Guidance Enhanced Missile (GEM–T) capabilities alongside Patriot Advanced Capability–3 (PAC–3) and PAC–3 Missile Segment Enhanced (MSE) to provide Patriot with a full complement of capability and capacity against current and evolving threats, including air-breathing and all other types of ballistic missiles. The report should also include the Army’s intent to recertify the aging GEM–T inventory and cite a desired date to commence this activity so as to minimize any negative consequences to Patriot munitions capacity.

Protection of Ballistic Missile Defense System Components

The committee notes an increase to land-based ballistic missile defense system (BMDS) components with the development and delivery of the Long Range Discriminating Radar, Homeland Defense Radar-Hawaii, Pacific Radar, and completion of the Aegis Ashore site in Poland. These new sites are in addition to already deployed terrestrial weapon system sites and radars. Responsibility for protection of these sites against threats such as cruise missiles, unmanned aerial vehicles, and electronic warfare falls under the combatant commander for which they are located.

The committee directs the Secretary of Defense, in coordination with the Commander, U.S. Strategic Command, and appropriate regional combatant commands, to provide a briefing to the congressional defense committees by November 30, 2018, detailing the current protections of deployed BMDS assets from cruise missile, unmanned aerial vehicle, and electronic warfare threats. The briefing should also include the requirements for protection of the future assets that are in the program of record, as well as any plans to increase protection of current and future assets, including costs and any mitigating measures in the event that a system is degraded or unavailable.

Standard Missile–3 Testing and Reliability

The committee is aware of the role and importance of the Standard Missile–3 (SM–3) interceptors in providing missile defense capability to the warfighter. The committee notes that failures of the SM–3 IB and SM–3 IIA revealed issues that may have been avoided with additional system engineering focus, and these recent challenges could have impacts on reliability assessments of these interceptors by the Director, Operational Test and Evaluation.

The committee also notes that section 1680 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) included a requirement to test the SM-3 IIA capability against a longer range threat. The committee directs the Director of the Missile Defense Agency to provide a briefing to the Committees on Armed Services of the House of Representatives and the Senate, not later than August 1, 2018, on how the recent SM-3 IIA test failure affects the planned test of this missile against an intercontinental ballistic missile-range target. This briefing should include implications such as changes to timeline of planned tests, requirements for additional tests, and changes in funding requirements.

The committee also directs the Director of the Missile Defense Agency, in coordination with the Director of the Office of Test and Evaluation, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives, not later than December 15, 2018, detailing how the Missile Defense Agency will ensure the contractor's systems engineering and ground testing procedures are adequate to support production of SM-3 IB and SM-3 IIA interceptors. The briefing should describe how ground test data from production interceptors supports SM-3 reliability estimates from the Missile Defense Agency and the Office of Test and Evaluation.

Warfighter Procedures for Responding to and Releasing Information Regarding an Inbound Ballistic Missile Threat

The committee notes that on January 13, 2018, the Hawaii Emergency Management Agency (HI-EMA) issued a false incoming ballistic missile alert that caused widespread panic and confusion in the State of Hawaii. The U.S. Pacific Command (PACOM) notified HI-EMA that no launch had occurred within minutes of the false alert being issued. Nevertheless, it took HI-EMA 38 minutes to retract the alert.

The committee notes the importance of clear and accurate communications and cooperation between PACOM and relevant federal and state entities responsible for communicating and alerting the public of an incoming threat. Therefore, the committee directs the Secretary of Defense, in coordination with the Chairman of the Joint Chiefs of Staff to provide a briefing to the Committee on Armed Services of the House of Representatives on ballistic missile alert procedure, warfighter coordination, plans, and timelines in the event of a legitimate incoming ballistic missile attack to the Homeland, including coordination, plans and timelines for releasing critical defense information to other Federal agencies, and state entities as appropriate, responsible for informing the general public. The briefing shall also include the DoD's role and process, if any, in retracting a false, misinformed, or unauthorized alert issued by a federal or state agency regarding an inbound ballistic missile threat.

NUCLEAR FORCES

Air Force Global Strike Command and Nuclear Deterrence
Institute

The committee continues to oversee Air Force Global Strike Command (AFGSC) as it leads and coordinates efforts across the Air Force for both nuclear deterrence operations and the National Leadership Command Capabilities/Nuclear Command, Control, and Communications system. The committee believes strong and sustained attention on these missions will be required as the Air Force carries out its portions of the nuclear modernization program.

The committee understands that the AFGSC's strategy to enhance science, technology, innovation, and collaboration related to its missions has successfully leveraged partnerships with local governments, academia, industry, and non-profits. This strategy also includes an intent to establish an institute dedicated to AFGSC's missions, further leverage these partnerships, and provide AFGSC an analytical foundation and direct access to expertise across its mission set. To better understand how the Air Force intends to proceed with this initiative, the committee directs the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services by November 30, 2018, on implementation of the AFGSC's strategy to enhance science, technology, innovation, and collaboration. The briefing should include:

- (1) the Secretary's decision regarding if, and if so, when and how, to establish the institute recommended by the strategy;
- (2) whether and how the institute could uniquely contribute to the nuclear deterrence operations mission of the Air Force without duplication of other capabilities and resources; and
- (3) the benefits and costs associated with the institute.

B83-1 Nuclear Gravity Bomb

The committee notes that the 2018 Nuclear Posture Review (NPR) proposes to retain the B83-1 nuclear gravity bomb in the U.S. nuclear stockpile, whereas it had previously been slated for retirement in the early 2020s. The NPR stated, "the B83-1 and B61-11 gravity bombs can hold at risk a variety of protected targets. As a result, both will be retained in the stockpile, at least until there is sufficient confidence in the B61-12 gravity bomb that will be available in 2020." The NPR elaborated, saying it proposes "sustaining the B83-1 past its currently planned retirement date until a suitable replacement is identified."

The committee also notes that in 2012, the National Nuclear Security Administration (NNSA) estimated that retaining the B83 gravity bomb would potentially require it to undergo an alteration in the 2020s and a life extension program in the 2030s, both of which would cost billions of dollars. Additionally, the NNSA may have planned to use certain materials from the B83 for currently planned life extension programs.

The committee believes further explanation for the decision to retain the B83 is warranted, particularly because such decision may require the B83 to undergo significant life extension activities and could impact other planned warhead modernization programs. The

committee also expects a fuller understanding of the military requirements associated with the B83-1 and its retention.

The committee therefore directs the Secretary of Defense, in coordination with the Commander of U.S. Strategic Command and the Administrator for Nuclear Security, to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by November 15, 2018, on the plan and rationale for, and implications of, retaining the B83-1. The report should address specific military requirements associated with the decision to now retain the B83-1, impacts on current or planned warhead programs including re-use of any materials, and potential risks, benefits, plans and costs associated with continued surveillance and potential life extension activities for the B83-1. The committee directs the report to be provided in unclassified form, with a classified annex as necessary.

Comptroller General Review of Plans To Swap B61 Bombs in Europe

The committee notes that the Department of Energy and the Department of Defense are carrying out a life extension program to maintain the safety, security, reliability, and credibility of B61 nuclear gravity bombs, and expect a first production unit of the updated B61-12 weapon to be available in late 2019. To swap legacy B61 bombs currently deployed in Europe in support of the North Atlantic Treaty Organization (NATO) for modern B61-12 bombs, the Air Force will conduct movements of nuclear weapons to and from Europe using certified military cargo aircraft. Initial planning for these movements is underway and the committee understands that such planning requires dialogue and close coordination with host nation governments.

To enable improved oversight of this planning, the committee directs the Comptroller General of the United States to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2019, containing a review and assessment of the Department of Defense plans to swap B61 nuclear gravity bombs in Europe, including the following:

- (1) readiness of the military forces responsible for conducting and supporting the weapon movements;
- (2) coordination between the United States and allied host nations regarding the movements;
- (3) any potential actions that may be considered or planned to enhance surety and survivability; and
- (4) the Department of Defense's identification and mitigation of any risks to these plans.

Nuclear Survivability and Hostile Environments Testing

To be a credible and effective deterrent, U.S. nuclear weapons are designed to operate in the most extreme hostile environments. The committee has no doubt that current U.S. nuclear forces and weapons meet these exacting requirements. However, as it has expressed in the past, the committee believes that the Department of Defense and the National Nuclear Security Administration (NNSA) must be mindful of how the threat environment and so-called "stockpile-to-target sequence" may evolve as adversaries continue

to advance their defensive capabilities. In particular, the committee believes the United States must ensure it has the capability to experimentally test materials, components, subsystems, and full systems in realistic environments that combine multiple extreme threats.

To better understand Department of Defense and NNSA efforts in this regard, the committee directs the Chairman of the Nuclear Weapons Council, in coordination with the Administrator for Nuclear Security, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by November 30, 2018, on nuclear weapon survivability requirements and related test capabilities. Such briefing should include:

- (1) current requirements related to survivability and the stockpile-to-target sequence;
- (2) the evolving threat environment and potential changes to such requirements over the next 20 years;
- (3) capabilities to test materials, components, subsystems, and systems in realistic, combined environments;
- (4) any risks or gaps in such experimental capabilities and any plans to address or mitigate such risks or gaps; and
- (5) any changes in concepts of operation that may be applicable.

Perimeter Security at NATO Nuclear Bases

The committee appreciates the importance of the North Atlantic Treaty Organization's (NATO) deterrence and defense mission, and the role that U.S. forward-deployed nuclear weapons play in the NATO Alliance. The committee notes its continuing interest in ensuring robust and consistent security for these weapons and that NATO, the United States, and individual host nations have engaged in a series of security enhancement and modernization projects in recent years. The committee applauds these steps and supports ongoing efforts to standardize requirements and security measures across NATO's nuclear bases but also recognizes that each base and host nation presents different challenges for implementation and standardization of upgrades. The committee believes that continued enhancements and progress towards standardization is an important endeavor, and that an area particularly ripe for further action is perimeter security.

The committee therefore directs the Secretary of Defense, in coordination with the Secretary of the Air Force, to provide a briefing to the Committees on Armed Services of the House of Representatives and the Senate by December 1, 2018, assessing and comparing perimeter security at all NATO nuclear bases. Such briefing should also contain the following:

- (1) a comparison of perimeter security at NATO nuclear bases versus each other and versus nuclear bases in the United States;
- (2) details on requirements and standards for perimeter security at NATO nuclear bases and nuclear bases in the United States; and
- (3) a plan for actions that the United States could propose and undertake to standardize and enhance perimeter security at NATO nuclear bases, including through bilateral engagements with host nations and multilateral engagement through NATO.

Plutonium Pit Production and Reuse

In 2008, the Secretary of Defense and the Secretary of Energy stated in a joint report, “at present the United States does not have the ability to produce new nuclear weapons,” particularly the ability to produce plutonium pits. In 2010, the Secretaries signed a Memorandum of Agreement that said the National Nuclear Security Administration (NNSA) would “plan and program to ramp up to a minimum of 50–80 pits/year.” In 2014, the Secretary of Defense said in a letter to the congressional defense committees that “the Department of Defense (DOD) has revalidated its requirement for 50–80 pits per year based on the demands of stockpile modernization, the commitments to a modern physical infrastructure, and the ability to hedge against technical or geopolitical risk.”

Section 3112 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291), put this requirement, and associated timeframes for production, into statute and included a Sense of Congress that “the requirement to create a modern, responsive nuclear infrastructure that includes the capability and capacity to produce, at minimum, 50 to 80 pits per year, is a national security priority.”

The 2018 Nuclear Posture Review (NPR) also discusses the need for a plutonium pit production capacity, saying “the United States does not have a sustained plutonium pit manufacturing capability needed to avoid stockpile age-out, support life extension programs (LEP), and prepare for future uncertainty . . . To avoid age-related risks, DOD requires NNSA to produce at least 80 plutonium pits per year by 2030, and to sustain the capacity for future LEPs and follow-on programs.”

The committee continues to believe a pit production capability is a national security priority, but seeks clarification on whether and why the 2018 NPR has modified the pit production requirement. Therefore, the committee directs the Secretary of Defense, in coordination with the Secretary of Energy and the Commander of U.S. Strategic Command, to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by November 30, 2018, on the annual pit production requirement, including any associated timelines. Such report should include a detailed rationale and justification for any changes to the requirement, the drivers behind the requirement, and associated costs. Such report should also include a detailed assessment of the potential to reuse plutonium pits that are currently in the inventory of the United States.

Tonopah Test Range Land Use Agreement

The committee understands that the Air Force and the National Nuclear Security Administration (NNSA) are currently negotiating an extension to a land use agreement at the Tonopah Test Range (TTR) which enables NNSA’s Sandia National Laboratories to utilize a portion of TTR for drop testing of inert nuclear gravity bombs. Sandia Labs has been operating at TTR since 1956, when it originally used 580 square miles of the range, and since the most recent update to the agreement in 2002 has been using 280 square miles. The current land use agreement expires in 2019 and is likely to make further reductions to make additional land available to the

Air Force. The committee supports efforts to provide additional land for the Air Force mission at TTR and nearby ranges, which are operating over capacity, but is mindful that Sandia and NNSA must be able to carry out their testing mission. The committee encourages and looks forward to a cooperative, mutually beneficial update to this agreement that enables both partners to carry out their important missions.

CYBER-RELATED MATTERS

Addressing Readiness Deficiencies Through the Hacking for Defense Innovation Education Program

The committee notes that the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) authorized the Secretary of Defense to support national security innovation and entrepreneurial education, including but not limited to, Hacking for Defense.

The committee notes that expansion of Hacking for Defense innovation and entrepreneurial education at U.S. and North Atlantic Treaty Organization (NATO) universities may optimize and enhance the Department's innovation efforts outlined in the 2018 National Defense Strategy. Developing a culture of rapid and meaningful innovation, and deploying advanced warfighter solutions, may remedy existing readiness deficiencies. The committee also notes that Hacking for Defense innovation education programs may benefit overall Department of Defense professional education such as at the National Defense University, the Defense Acquisition University, the Naval Postgraduate School, and other professional education programs.

Therefore, the committee directs the Under Secretary of Defense for Acquisition and Sustainment to provide a briefing to the House Committee on Armed Services not later than September 28, 2018 on how the Department may expand Hacking for Defense to support the Department's innovation and entrepreneurial education efforts, including a description of how the Hacking for Defense program is currently being employed within the Department of Defense and how it may be further leveraged to provide advanced warfighter solutions, address readiness deficiencies, and reinvigorate, modernize, and enhance the Department's innovation education with U.S. and NATO universities and professional education programs.

Comptroller General Review of Current Military Cyber Operations

The committee notes that in the last several years, the Department of Defense has employed cyber capabilities to achieve objectives in or through cyberspace. Unlike military operations that occur in the air and land domains, cyberspace operations and the effects of those operations are not always visible to Congress and the American people. The committee believes that as the Department continues to conduct cyberspace operations, it will be critical that operations are fully aligned with the appropriate authorities, policies and doctrine, rules of engagement, plans, oversight mechanisms, and lessons learned processes. It will also be important that the Department manages the number of organizations that are con-

ducting these operations, to ensure there are clearly defined roles and responsibilities, and that there are deconfliction mechanisms in place.

Therefore, the committee directs the Comptroller General of the United States to assess the Department of Defense's current military cyberspace operations. The assessment should identify:

(1) the types of cyberspace operations the Department has undertaken, activities undertaken to prepare for cyberspace operations, and the organizations conducting these operations;

(2) authorities, policies, doctrine, and rules of engagement for these operations;

(3) internal oversight and congressional reporting mechanisms;

(4) efforts to develop and synchronize cyberspace operations with combatant commanders' plans; and

(5) processes used to deconflict cyberspace operations or mitigate the impact of cyberspace operations on other military operations.

The committee directs the Comptroller General to provide a briefing to the House Committee on Armed Services by March 1, 2019, on preliminary findings, and submit a final report to the congressional defense committees at a date agreed to at the time of the briefing.

Comptroller General Review of Information Operations Strategy

The committee notes that information operations are a means for the United States to promote economic and political freedom, as well as countering all forms of extremism and adversarial influence. In June 2016, in response to a congressional requirement, the Department of Defense issued an information operations strategy to align departmental actions and ensure effective integration of Department of Defense efforts. These efforts contribute to the mission that the Department of State's Global Engagement Center was directed to lead, organize, and synchronize.

Section 1637 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) directed the Department of Defense to establish processes and procedures to integrate strategic information operations and cyber-enabled information operations across the relevant elements of the Department of Defense, including those responsible for military deception, public affairs, electronic warfare, and cyber operations. This section also directed the Department of Defense to coordinate regional information strategies and interagency coordination plans of the combatant commands with the appropriate Department of State officials and the Global Engagement Center, and to develop an implementation plan to support the Department of Defense Strategy for Operations in the Information Environment. However, the committee remains concerned about the lack of progress in developing the strategy, tools, and coordination mechanisms to counter adversarial influence.

Therefore, the committee directs the Comptroller General of the United States to assess the Department's information operations strategy and implementation efforts. The assessment shall:

(1) identify the Department of Defense's implementation of the 2016 strategy, integration of cyber and intelligence capabilities, and other activities, for information operations;

(2) identify roles, responsibilities, and coordination of activities within the Department of Defense, and between the Department and interagency partners;

(3) identify previous and planned investments by the Department to support and implement information operations; and

(4) any other matters the Comptroller General determines relevant.

The committee directs the Comptroller General to provide a briefing to the House Committee on Armed Services by March 1, 2019, on preliminary findings, with a report to follow at a time agreed to at the time of the briefing.

Cyber Scholarship Program

The budget request contained \$7.9 million in PE 33140D8Z, for the defense-wide Information Security Systems Program.

Section 1649 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) amended chapter 112 of title 10, United States Code, to establish the Department of Defense Cyber Scholarship Program. The committee believes the Cyber Scholarship program may alleviate the challenges the Department of Defense is experiencing in recruiting and retaining cybersecurity personnel. Additionally, the committee believes that providing additional opportunities under the program will be beneficial in addressing Department requirements for a qualified cyber workforce, especially if the Department focuses on educating the public and relevant academic institutions about this program. The committee also believes that Reserve Officer Training Corps (ROTC) programs at universities that offer degrees in cyber studies and related fields provide an opportunity to leverage and expand partnerships to assist in closing the gap of trained cyber warriors in the military.

Therefore, the committee recommends \$17.9 million, an increase of \$10.0 million, in PE 33140D8Z.

Further, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by February 1, 2019, on the implementation and utilization of the Cyber Scholarship Program, to include efforts to educate the public and focus on institutions with high-quality computer science, engineering, and cybersecurity programs, including historically black colleges and universities, and minority-serving institutions. The briefing should also include implementation and utilization of efforts to leverage ROTC at institutions with cyber studies as a way to expand the pool of talented technical applicants.

Information Security Continuous Monitoring and Comply-To-Connect Implementation

While the Committee understands that pursuant to the requirements established in Section 1653 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328), the Department of Defense included language relating to a Department-wide automated information security continuous monitoring capability and a comply-to-connect policy in its Fiscal Year 2019 budget request, the Committee is concerned that this language failed to adequately explain the Department's implementation strategy and the resources it will require. The Committee therefore directs the Di-

rector of Cost Assessment and Program Evaluation to provide the Committee on Armed Services of the House of Representatives, no later than December 1, 2018, a briefing specifically outlining the resources and any recommendations that will be required to fully address the requirements contained within Section 1653 of the National Defense Authorization Act for Fiscal Year 2017.

Joint Enterprise Defense Infrastructure

On September 13, 2017, the Deputy Secretary of Defense signed a memorandum establishing the Cloud Executive Steering Group to accelerate the adoption of enterprise-wide cloud architecture and services, known as the Joint Enterprise Defense Infrastructure, or JEDI.

A report provided to Congress by the Department of Defense on October 19, 2017, in response to the committee report (H. Rept. 114–577) accompanying the Department of Defense Appropriations Act, 2017, outlined several challenges impacting the Department's ability to expand commercial cloud service usage. These included accurately projecting costs for security and complex migrations, lack of consistent security requirements, and an inability to identify tangible cost-savings. Although the report outlined efforts to address these challenges, additional information has not been provided to the committee on progress to that end. The report also outlined several ongoing cloud computing activities.

The committee has long championed modernization of information technology to facilitate efficiencies and cost-savings, enhance performance, and provide our warfighters with cutting-edge capabilities on and off the battlefield. The committee is encouraged by the Department's renewed commitment to accelerate the adoption of cloud computing architecture and services.

However, the committee is concerned with the lack of information supporting the planned acquisition of JEDI from a single commercial provider. This includes lack of detail regarding security requirements and associated costs, anticipated cost-savings, migration costs, and how the Department intends to maintain the ability to leverage the latest cloud computing capabilities and preserve the ability to transition workloads and data to other providers.

Additionally, the committee has not been provided with details on customer capability requirements or how JEDI impacts current cloud computing services and other activities, such as those identified in the October 2017 report. The committee expects the Department to provide sufficient information necessary for the conduct of oversight responsibilities.

Mitigation of Autonomous Systems

The Committee notes the Department's increased reliance on autonomous systems and their associated datalinks and sensors. While the Committee supports increased investments in these systems, the rapid research, development, and deployment of autonomous equipment presents unique challenges to cyber vulnerability. Therefore, the committee directs the Secretary of Defense to provide a briefing by December 1, 2018 outlining the specific steps the Department is taking to protect autonomous systems from cyberattack, including mitigations resulting from the cyber vulner-

ability evaluations of major weapon systems that were conducted as directed by Section 1647 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92). The briefing should address layered cyber defense of associated datalinks, sensors, and onboard systems, technologies used to secure the communication architecture and RF links, and any other approaches used to improve the cyber security in these systems.

Network Protection

The committee is aware that open, highly scalable network protection platforms that allow for integration of both government and commercial off-the-shelf capabilities, may allow for the Department of Defense to keep pace with evolving threats. The committee believes expeditious detection and mitigation is critical, especially as the Department makes greater use of commercial cloud computing and other commercial capabilities.

Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than February 5, 2019, on the status and evolution of automated cyber defense capabilities, to include those that automatically detect and mitigate malware and other threats. The briefing should include a description of efforts to acquire an open, scalable platform that can integrate commercial and government off-the-shelf technologies, and an evaluation of the potential effectiveness of a capability that can be deployed within and across network boundaries and endpoints.

Operational Cyber Testing of Weapons Systems

The committee is aware of the challenges of performing operational cyber testing of weapon systems to understand the potential impacts of a cyber attack to the system's performance. The committee continues to believe in the importance of evaluating the cyber vulnerabilities of major Department of Defense weapons systems, as authorized in the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92). The committee recognizes that for some systems there are gaps in the capability of the operational test and evaluation infrastructure that prevent it from adequately completing tests and measuring the impacts on a weapon system of a realistic cyber threat. The committee is also aware of efforts within the Department to further develop the capabilities to provide the necessary test, modeling, and simulation capabilities to build a robust infrastructure to be able to perform comprehensive cybersecurity weapon systems testing. The committee encourages the Department to utilize collaboration between academia and the different test ranges and facilities to build a robust infrastructure to execute tactical cyber attack scenarios against weapon systems in an operationally realistic environment.

Plan to Enhance Coordination With Universities and Industry on Cyber Education

The committee notes that universities and private industry will continue to be critical partners in the education and training of our future cyber force. Traditional academic approaches to cyber training and cyber certifications such as Security + and CISSP are

based on preventing vulnerabilities, attacks, and gaps that have been identified in the past. The committee is concerned that the relevance of the training content of academic institutions could be immaterial depending on when the courseware was updated. Bridging the gap in cyber training between curriculum that has been built on legacy data versus training built on current real world cyberattacks is a meaningful area of cyber training research, curriculum development, and instruction delivery that must be addressed. Therefore, the committee directs the Secretary of Defense to present to the defense committees a plan on how the Department of Defense can leverage and partner with universities and industry on cyber education and training that addresses this gap by November 1, 2018. This plan shall include: current partnerships and ability to expand and leverage those partnerships; existing curriculum and recommended changes needed to ensure relevance to future threats; joint development of curriculum, courseware and research projects; availability and joint use of university facilities; and recommended changes to legislation to improve cyber education and training partnerships.

Securing Personally Identifiable Information

The committee recognizes that the Department of Defense takes extensive measures to protect the personally identifiable information (PII) of its Servicemembers and civilian employees but that more remains to be done, especially with advances in technological communications and evolving threats. For instance, the use of smartphone devices invites new security threats that could potentially exploit the integrity of PII. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by October 31, 2018 detailing information security technologies that the Department employs to protect the official unclassified email and official unclassified mobile communications of its employees.

Threat Cyberspace Operations

The committee notes the increasingly contested nature of the cyber domain and the growing reliance of the Department of Defense and the military services on information technology systems. The committee continues to believe in the importance of performing robust cyber security assessments to determine the potential vulnerabilities of a system to a cyber-attack. The committee is aware that these assessments are based on realistic adversarial threats, including intelligence-based cyber tactics, techniques, and procedures that are representative of the continually emerging adversary capabilities. The Army Threat Cyberspace Operations program maintains a threat intelligence-based test capability that is important in meeting these mission needs. Therefore, the committee urges the Department of the Army to ensure that this program is adequately funded in future years to maintain cyber threat capabilities in an environment where the threat is rapidly evolving.

INTELLIGENCE MATTERS

Foundational Intelligence Analysis Modernization

The committee believes the Department of Defense must ensure that the defense intelligence enterprise has modern tools that can quickly integrate new technologies to assist analysts providing intelligence to support operations and acquisition activities. The committee is aware of the Department's efforts to modernize intelligence capabilities; however, the committee is concerned by a lack of urgency in modernizing the defense intelligence enterprise's capabilities to provide foundational intelligence to the combatant commands and the military services. Therefore, the committee directs the Joint Staff Director for Intelligence, in coordination with the Under Secretary of Defense for Intelligence and the Director of the Defense Intelligence Agency (DIA), to develop a plan by October 1, 2018, to modernize systems used to provide foundational intelligence. Further, the committee directs the Joint Staff Director for Intelligence, in coordination with the DIA Director, to provide a briefing to the House Committee on Armed Services by November 1, 2018, on such plan to modernize foundational intelligence systems. If a determination is made that a new system is required, the committee expects the Battlespace Awareness Functional Capabilities Board to validate the requirements for any new system, and that the acquisition plan will follow best practices for the rapid acquisition and improvement of technology dependent systems.

Insider Threat Detection and User Activity Monitoring

The committee is aware that in June 2015, the Government Accountability Office recommended that the Department of Defense issue risk-assessment guidance and evaluate the ability of its insider threat programs to address capability gaps (GAO-15-544). The committee is also aware of the Department's efforts to rapidly detect and remedy cyber vulnerabilities through programs such as the Air Force's Automated Remediation and Asset Discovery Program. The committee believes that continuous network monitoring and greater network visibility can significantly improve security of the Department's classified information and systems. Therefore, the committee encourages the Department to perform cost and technical analyses of available commercial off-the-shelf and government off-the-shelf solutions for user activity monitoring and for rapid detection and remediation of cyber attacks, for the purposes of obtaining best value and performance to decrease risks.

Further, the committee directs the Chief Management Officer to provide a briefing to the House Committee on Armed Services by November 1, 2018, on the outcomes of its cost and technical analyses required by this report, and the Department's efforts to implement enterprise-wide programs and policies for insider threat detection, user activity monitoring, and cyber attack detection and remediation.

Insider Threat Risk Model Validation

The committee supports the Department of Defense continued efforts to improve vetting and screening of its workforce for potential threats. The committee commends the efforts to develop risk-rating

tools and to migrate department programs to a risk in person model in order to prioritize risk so that the Department can efficiently allocate resources against the riskiest populations inside the workforce. The committee encourages the Department to continue to evolve and mature insider threat and continuous vetting risk models and rating tools, especially those efforts to use artificial intelligence and machine learning to help identify potential sources of human investigative biases in current tools and algorithms. The committee believes artificial intelligence and machine learning have tremendous potential to assist in the identification of potential issues in time for commanders and other leaders to mitigate potential issues before they escalate into security vulnerabilities.

Intelligence Combat Support Agencies

The committee commends the work of the Under Secretary of Defense for Intelligence to answer a request in the Intelligence Authorization Act for Fiscal Year 2017 (division N of Public Law 115–31) to review the roles and missions of the Defense Intelligence Agency. The committee agrees with the Under Secretary’s finding identifying a gap in Department of Defense coordination of the functions of the Combat Support Agencies (CSA) that also are members of the intelligence community. The directors of these agencies report to both the Secretary of Defense and the Director of National Intelligence, but these agencies lack a framework to balance the resourcing and mission conflicts this bifurcated chain of command can occasionally cause. Therefore, not later than October 1, 2018, the committee directs the Secretary of Defense, in consultation with the Director of National Intelligence, to develop policies that outline the process to balance the missions under the Combat Support Agency role with the missions and functions assigned by the intelligence community. These policies must address a process for assigning and integrating any new missions assigned by the Department of Defense or the intelligence community. The committee further directs the Secretary of Defense, in consultation with the Director of National Intelligence, to provide a briefing to the House Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives not later than October 15, 2018, on the plan to develop these policies.

Intelligence Support to Cyber Operations

The committee is concerned about the Defense Intelligence Enterprise’s ability to provide the cyber community with all-source intelligence support, consistent with the support provided to operations in other domains. Therefore, the committee directs the Under Secretary of Defense for Intelligence, in coordination with the Defense Intelligence Agency and the military services, to provide a briefing to the House Committee on Armed Services and the House Permanent Select Committee on Intelligence by December 1, 2018, on intelligence support to cyber operations. The briefing should include efforts to standardize a common military intelligence lexicon and doctrine for intelligence preparation of the battlefield for cyber operations, efforts to develop all-source intelligence analysts with the capability to support cyber operations,

and efforts to fully resource intelligence analysis support elements at U.S. Cyber Command and the service cyber components.

Science, Technology, Engineering, and Math Careers in Defense Intelligence

The committee is concerned about the Defense Intelligence Agency's (DIA) ability to attract and maintain adequate science, technology, engineering, and math (STEM) professionals. Specifically, the committee is concerned about career progression in the science and technology intelligence (S&TI) field at the Service Intelligence Centers and the Missile and Space Intelligence Center. Therefore, the committee directs the Director of DIA to provide a briefing to the House Committee on Armed Services not later than December 1, 2018, on a plan to develop a STEM career program that attracts and maintains the defense intelligence cadre of S&TI analysts to meet tomorrow's threats.

Security and Intelligence Role in Export Control

The committee is concerned about the coordination of security and technology protection issues involved in the export control process managed for the Department of Defense by the Under Secretary of Defense for Policy. The committee understands export controls support the Department's broad policy objectives to build relationships with partner nations, but the committee believes the risks of technology transfer deserve close scrutiny by the intelligence and security communities. Therefore, the committee directs the Under Secretary of Defense for Policy, in coordination with the Under Secretary of Defense for Intelligence, to provide a briefing to the House Committee on Armed Services not later than October 1, 2018, on security support to export control.

Security Clearance Background Investigation Reciprocity

The committee remains interested in improving the efficiency, effectiveness and timeliness of background investigations for security clearances. The committee believes that the federal government must do more to address conditions that have caused the investigation backlog, including reciprocity issues across agencies and departments. The committee notes that the Intelligence Reform and Terrorism Prevention Act (IRTPA) (Public Law 108-458) mandated that investigations initiated by an authorized investigative agency shall be transferable to any other authorized investigative agency, but a December 2017 Government Accountability Office report found full implementation of investigative transferability has yet to occur. The committee strongly believes that ample time has passed since the passage of IRTPA for full implementation of investigative reciprocity between agencies, and the failure to implement transferability requirements is unacceptable. Not later than October 1, 2018, the committee directs the Secretary of Defense, in coordination with the Director of National Intelligence and the Director of the Office of Personnel Management to brief the committee on efforts to ensure seamless transition of investigations between authorized investigative agencies, as required by law.

The committee has received numerous briefings on the Department's plan to reassume the background investigation mission for

Department of Defense personnel from the National Background Investigations Bureau, and is encouraged by the efforts to move towards continuous evaluation and continuous vetting as a replacement for periodic reinvestigations to reduce the investigative backlog. The committee notes the lead role the Department is taking for continuous monitoring and continuous vetting across the federal government. The committee believes any solution to improve the efficiency, effectiveness and timeliness of background investigations must be applied across the federal government uniformly. Therefore, not later than November 1, 2018, the committee directs the Secretary of Defense, in coordination with the Director of National Intelligence and the Director of the Office of Personnel Management to brief the committee on efforts to ensure reciprocity is a consideration for implementation of continuous evaluation and continuous vetting across the federal government.

Strengthening Oversight of the Military Intelligence Program Budget

The committee is aware of a recent draft Government Accountability Office report on the Military Intelligence Program (MIP) that identifies a lack of clear and definitive guidance about which programs, projects, and activities should be assigned to the MIP. As a result, there may be intelligence and intelligence-related capabilities resourced outside of the MIP. Conversely, the committee believes there are MIP resources allocated to programs, projects, and activities that do not primarily support the Secretary of Defense's intelligence, counterintelligence, and related intelligence responsibilities and requirements. Thus, the Department of Defense's ability to make informed decisions to balance appropriate resources against programs, projects, or activities is limited.

The committee believes the Under Secretary of Defense for Intelligence (USDI) should take measures to more clearly define guidance about which programs, projects, or activities should be assigned to the MIP using the Joint Publication's definition of intelligence. Therefore, the committee directs USDI to review all of the Department's intelligence, counterintelligence, and related intelligence programs, projects, and activities supporting the Secretary's responsibilities and requirements. The review shall also include programs, projects, and activities potentially funded outside of the MIP. In conducting the review, the committee expects USDI to note that the committee believes resources for sensors integral to the function of weapon systems, sensors and systems developed for space and missile defense, and resources for activities and programs associated with Operational Preparation of the Environment and Nonconventional Assisted Recovery are in support of operational requirements, and should be excluded from designation to the MIP.

Further, the committee directs USDI to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2019, on the results of the review, including how the review will result in clear guidance on designation of programs, projects, and activities to the MIP.

LEGISLATIVE PROVISIONS

SUBTITLE A—SPACE ACTIVITIES

Section 1601—Improvements to Acquisition System, Personnel, and Organization of Space Forces

This section would direct the Deputy Secretary of Defense to develop a plan to establish a separate alternative acquisition system for defense space acquisitions, including with respect to space vehicles, ground segments, and terminals. The Deputy Secretary would be required to submit a report to the congressional defense committees by December 31, 2019, on such plan.

This section would also task the Secretary of the Air Force to develop and implement a plan to increase the number and improve the quality of the civilian and military space cadre within the Air Force. The Secretary would also be required to submit a report to the congressional defense committees by March 1, 2019, on such plan.

This section would also require the Secretary of the Air Force to establish a new numbered Air Force responsible for space warfighting operations. The Secretary would be required to submit a plan for doing so to the congressional defense committees by December 31, 2019.

Lastly, this section would amend chapter 6 of title 10, United States Code, by adding a new section that would establish a subordinate unified command for space under U.S. Strategic Command that would be responsible for joint space warfighting operations.

Section 1602—Rapid, Responsive, and Reliable Space Launch

This section would amend section 2273b of title 10, United States Code, regarding assured access to space to include consideration of rapid, responsive, and reliable space launches for national security space programs. It would also require the Secretary of Defense to provide for consideration of both reusable and expendable launch vehicles with respect to any solicitations occurring on or after March 1, 2019. Lastly, it would require the Secretary of Defense to conduct a risk and cost impact analysis with respect to reusable launch vehicles for national security payloads. The Secretary would be required to submit such analysis to the congressional defense committees within 180 days after the date of the enactment of this Act.

Section 1603—Provision of Space Situational Awareness Services and Information

This section would amend section 2274 of title 10, United States Code, by terminating the authority of the Department of Defense to provide space situational awareness (SSA) data to commercial and foreign entities on January 1, 2024. This section would further require the Secretary of Defense to enter into a contract with a federally funded research and development center to assess which department or departments should assume the authorities of section 2274 of title 10. This section would also direct the Secretary of Defense to develop a plan to ensure that one or more departments may provide space situational awareness services to non-United

States Government entities. Lastly, this section would direct the Secretary to submit a report to the appropriate congressional committees, as defined by this section, on such plan.

Section 1604—Budget Assessments for National Security Space Programs

This section would amend section 239b of title 10, United States Code, by extending the required budget assessments for national security space programs to fiscal year 2021 and by requiring the Secretary of Defense to submit a report on the budget for space programs to the congressional defense committees within 30 days after the date on which the President submits the budget request to Congress.

Section 1605—Enhancement of Positioning, Navigation, and Timing Capacity

This section would require the Secretary of the Air Force to ensure that military Global Positioning System user equipment terminals have the capability to receive Galileo and QZSS signals, starting with increment 2, including with appropriate mitigation efforts. This section would also require the terminals to have the capability to receive non-allied positioning, navigation, and timing signals if the Secretary of Defense, in consultation with the Commander, U.S. Strategic Command, determines that the benefits outweigh the risks or the risks can be appropriately mitigated. This section would also require engagement with relevant U.S. allies.

Section 1606—Use of Small- and Medium-Size Buses for Strategic and Tactical Satellite Payloads

This section would require the Secretary of Defense to conduct a study on the risks, benefits, and cost savings with respect to using small- and medium-size buses for strategic and tactical satellite payloads for protected satellite communications programs and next-generation overhead persistent infrared systems. This section would further require the Secretary to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives, not later than 180 after the date of the enactment of this Act, on such study.

This section would also require the Director of Cost Assessment and Program Evaluation to certify that future analysis of alternatives include materiel solutions for using small- and medium-size buses. Lastly, this section would require the Secretary of Defense, Secretary of the Air Force, and the Chairman of the Joint Chiefs of Staff to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives, not later than 240 days after the date of the enactment of this Act, on alternative space-based architectures using small-, medium-, and large-size buses.

Section 1607—Designation of Component of Department of Defense Responsible for Coordination of Modernization Efforts Relating to Military-Code Capable GPS Receiver Cards

This section would require the Secretary of Defense to designate a component of the Office of the Secretary of Defense to be responsible for coordinating common solutions for the Military-code modernization efforts among the military departments, Defense Agencies, and other appropriate elements of the Department of Defense by not later than 30 days after the date of enactment of this Act.

Section 1608—Designation of Component of Department of Defense Responsible for Coordination of Hosted Payload Information

This section would require the Secretary of Defense, in coordination with the Secretary of the Air Force, and other Secretaries of the military departments and the heads of Defense Agencies the Secretary determines appropriate, to designate a component of the Department of Defense or a military department to be responsible for coordinating information, processes, and lessons learned relating to using commercially hosted payloads across the military departments, Defense Agencies, and other appropriate elements of the Department of Defense not later than 30 days after the date of the enactment of this Act.

Section 1609—Limitation on Availability of Funds for Joint Space Operations Center Mission System

This section would limit obligation or expenditure of funds for the Joint Space Operations Center Mission System and Enterprise Space Battle Management Command and Control program until the Deputy Secretary of Defense provides to the congressional defense committees a certification that the Secretary of the Air Force has entered into a contract to operationalize existing, proven, best-in-breed commercial space situational awareness processing software to address warfighter requirements and fill gaps in current space situational awareness capabilities.

Section 1610—Evaluation and Enhanced Security of Supply Chain for Protected Satellite Communications Programs and Overhead Persistent Infrared Systems

This section would require the Secretary of Defense to develop a plan for and conduct evaluations of the supply chain vulnerabilities for protected satellite communications and next-generation overhead persistent infrared systems. Additionally, it would require the Secretary to develop risk mitigation strategies for the identified vulnerabilities. This section would require the Secretary to establish requirements to carry out the supply chain vulnerability evaluation and submit such requirements to the congressional defense committees not later than 120 days after the date of the enactment of this Act. Lastly, this section would require the Secretary to provide a briefing to the Committees on Armed Services of the Senate and House of Representatives not later than 180 days after the date of the enactment of this Act on the plan developed for carrying out such an evaluation.

Section 1611—Report on Protected Satellite Communications

This section would require the Secretary of Defense to submit a report to the congressional defense committees by December 31, 2018, on how specific protected satellite communications programs meet the requirements for resilience, mission assurance, and nuclear command, control, and communication missions of the Department of Defense.

Section 1612—Plan on Space Warfighting Readiness

This section would require the Secretary of Defense to develop a plan that identifies joint mission-essential tasks for space as a warfighting domain. This section would further require the Secretary to provide a briefing to the Committees on Armed Services of the House of Representatives and the Senate, within 60 days after the date of the enactment of this Act, on any authorities associated with such plan that the Secretary determines require legislative action.

Section 1613—Study on Space-Based Radio Frequency Mapping

This section would direct the Secretary of Defense and the Director of National Intelligence to jointly conduct a study on the capabilities of the private sector with respect to radio frequency mapping and services for space-based electromagnetic collections. This section would also require the Secretary, in coordination with the Director, to provide a report on the study to the congressional defense committees and congressional intelligence committees, not later than 90 days after the date of the enactment of this Act.

Section 1614—Plan To Provide Persistent Weather Imagery for United States Central Command

This section would require the Secretary of the Air Force to develop a plan to provide the U.S. Central Command with persistent weather imagery after 2025. The Secretary would be required to submit such plan to the congressional defense committees by March 1, 2019.

SUBTITLE B—DEFENSE INTELLIGENCE AND INTELLIGENCE-RELATED ACTIVITIES

Section 1621—Role of Under Secretary of Defense for Intelligence

This section would amend section 137 of title 10, United States Code, to clarify the responsibilities of the Under Secretary of Defense for Intelligence.

Section 1622—Security Clearance for Dual Nationals

This section would authorize the Secretary of Defense to apply additional security reviews to dual citizens seeking positions that require access to highly classified information. The committee expects that any additional security reviews will not further exacerbate background investigation backlogs.

Section 1623—Department of Defense Counterintelligence
Polygraph Program

This section would amend section 1564a of title 10, United States Code, by authorizing the Secretary of Defense to add dual citizens to Department of Defense counterintelligence polygraph program, for the purposes of assessing risk.

Section 1624—Defense Intelligence Business Management Systems

This section would require the Chief Management Officer of the Department of Defense, in coordination with the Under Secretary of Defense (Comptroller) and the Under Secretary of Defense for Intelligence, to provide a report to the congressional defense committees and the congressional intelligence committees, not later than March 1, 2019, outlining a plan to standardize the planning, programming, budgeting, and execution process for the Military Intelligence Program (MIP) across the Department of Defense. This section would also direct the implementation of the plan not later than October 1, 2020. This section would prohibit the use of program elements that contain both MIP and non-MIP resources. The committee is concerned with the Department's ability to provide sufficient oversight of the Military Intelligence Program budget.

Section 1625—Modification to Annual Briefing on the Intelligence,
Surveillance, and Reconnaissance Requirements of the Combatant
Commands

This section would require the Department of Defense to incorporate into the existing report required by section 1626 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) data related to the number of requests for intelligence, surveillance, and reconnaissance capability and capacity submitted to the Chairman of the Joint Chiefs of Staff (CJCS) by the combatant commanders, the number of requests formally validated by the CJCS, the quantity of validated requests tasked to the military services to fulfill, and the amount of validated requests actually fulfilled by the military services.

Section 1626—Prohibition on the Availability of Funds for Department
of Defense Assuming Background Investigation Mission for
the Federal Government

This section would prohibit the Department of Defense from assuming the background investigation mission for the entire Federal Government before December 31, 2019.

SUBTITLE C—CYBERSPACE-RELATED MATTERS

Section 1631—Amendments to Pilot Program Regarding Cyber
Vulnerabilities of Department of Defense Critical Infrastructure

This section would modify subsection (b) of section 1650 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328) to incorporate the Defense Digital Service (DDS) into pilot program authorities for identifying new, innovative methodologies or engineering approaches to evaluate cyber

vulnerabilities of Department of Defense critical infrastructure. The committee notes the success of the Defense Digital Service's "Hack the Pentagon" program, and encourages the Department to use this or similar DDS activities to more rapidly and effectively improve the cybersecurity of government owned and operated facilities.

Section 1632—Budget Display for Cyber Vulnerability Evaluations and Mitigation Activities for Major Weapon Systems of the Department of Defense

This section would require that the justification materials submitted to Congress by the Secretary of Defense in support of the President's annual budget request for the Department of Defense include a consolidated display for cyber vulnerability evaluations and mitigation activities for each major weapon system beginning in fiscal year 2021. The display for each major weapon system shall include the status of, funding required, and a description of planned activities to continue or complete the cyber vulnerability evaluations in accordance with section 1647 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114-92), and necessary mitigation activities for the Future Years Defense Program.

Section 1633—Transfer of Responsibility for the Department of Defense Information Network to United States Cyber Command

This section would mandate that the Secretary of Defense transfer of all roles, missions, and responsibilities of the Commander, Joint Force Headquarters-Department of Defense Information Networks from the Defense Information Support Agency to Commander, United States Cyber Command, by September 30, 2019. It would additionally require the Secretary of Defense to certify in writing to the congressional defense committees that such transfer shall not result in mission degradation.

Section 1634—Pilot Program Authority To Enhance Cybersecurity and Resiliency of Critical Infrastructure

This section would authorize the Secretary of Defense, in coordination with the Secretary of Homeland Security, to provide technical personnel to the Department of Homeland Security to enhance cooperation, collaboration, and unity of government efforts in support of the protection of critical infrastructure from cyber incidents and significant cyber incidents.

Section 1635—Pilot Program on Regional Cyber Security Training Center for the Army National Guard

This section would authorize the Secretary of the Army to carry out a pilot program to establish a National Guard cyber security training center for members of the Army National Guard.

Section 1636—Procedures and Reporting Requirement on Cybersecurity Breaches and Loss of Personally Identifiable Information

This section would require the Secretary of Defense to promptly notify the congressional defense committees in the event of a sig-

nificant loss of personally identifiable information of civilian or uniformed members of the Armed Forces in classified or unclassified formats.

Section 1637—Cyber Institutes at the Senior Military Colleges

This section would authorize the Secretary of Defense to establish a Cyber Institute at each of the senior military colleges.

Section 1638—Study and Report on Reserve Component Cyber Civil Support Teams

This section would require the Secretary of Defense and the Secretary of Homeland Security to conduct a study on the feasibility and advisability of establishing cyber civil support teams comprised of Reserve Component members, primarily operating under the command and control of the Governor of each State, to prepare for and respond to cyber incidents, cyber emergencies, and cyber attacks. The Secretaries concerned shall provide a report to the congressional defense committees, the Committee on Homeland Security of the House of Representatives, and the Committee on Homeland Security and Governmental Affairs of the Senate not later than 180 days after the date of the enactment of this Act on the results of the study, to include their final determination on the feasibility of, advisability and necessity of establishing Reserve Component cyber civil support teams for each State, and if so, proposed legislation.

SUBTITLE D—NUCLEAR FORCES

Section 1641—Under Secretary of Defense for Research and Engineering and the Nuclear Weapons Council

This section would amend section 179 of title 10, United States Code, to include the Under Secretary of Defense for Research and Engineering as a member of the Nuclear Weapons Council and make a technical correction to the title of the Under Secretary for Acquisition and Sustainment.

Section 1642—Long-Range Standoff Weapon Requirements

This section would amend section 217 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66) to enable the Secretary of the Air Force to retire the conventionally armed AGM–86 cruise missile and require the Secretary to ensure that a conventionally armed follow-on air-launched cruise missile, the long-range standoff weapon, achieves initial operating capability for conventional missions not later than 4 years after it achieves initial operating capability for nuclear missions.

Section 1643—Acceleration of Ground-Based Strategic Deterrent Program and Long-Range Standoff Weapon Program

This section would require the Under Secretary of Defense for Acquisition and Sustainment, in consultation with the Secretary of the Air Force, to develop and implement plans to accelerate the development, procurement, and fielding of the Ground Based Strategic Deterrent (GBSD) program and the Long-Range Standoff

cruise missile program. For GBSD, the plan would be required to recapitalize the full intercontinental ballistic missile system, without phasing or splitting the program. For both programs, the plans would be required to assess the benefits, risks, feasibility, costs, and cost savings of various options for accelerating the programs. The Under Secretary, in consultation with the Secretary of the Air Force, would be required to submit the plans to the congressional defense committees within 120 days after the date of the enactment of this Act. The Commander of U.S. Strategic Command would be required, within 160 days after the date of the enactment of this Act, to provide a briefing to the congressional defense committees on the views of the Commander regarding the plans.

Section 1644—Procurement Authority for Certain Parts of
Intercontinental Ballistic Missile Fuzes

This section would authorize \$9.8 million of the funds made available by this Act for Missile Procurement, Air Force, for the procurement of certain commercially available parts of intercontinental ballistic missile fuzes, notwithstanding section 1502(a) of title 31, United States Code, under contracts entered into under section 1645(a) of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291).

Section 1645—Prohibition on Reduction of the Intercontinental
Ballistic Missiles of the United States

This section would prohibit the Department of Defense from obligating or expending fiscal year 2019 funds to reduce the responsiveness, alert level, or quantity of deployed U.S. intercontinental ballistic missiles to less than 400. This section would provide an exception to this prohibition for activities related to maintenance and sustainment and activities to ensure safety, security, or reliability.

Section 1646—Extension of Prohibition on Availability of Funds for
Mobile Variant of Ground-Based Strategic Deterrent Missile

This section would amend section 1664 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) to extend, to fiscal year 2020, a prohibition on the availability of funds to retain the option for, or develop, a mobile variant of the Ground-Based Strategic Deterrent missile.

Section 1647—Independent Study on Nuclear Weapons Launch-
Under-Attack Option

This section would require the Secretary of Defense, within 30 days of enactment of this Act, to seek to enter into a contract with a federally funded research and development center (FFRDC) to conduct a study on the potential benefits and risks of reducing the role of the launch-under-attack option in U.S. nuclear weapons planning. The Secretary would not be allowed to award such contract to an FFRDC for which the Air Force is the primary sponsor. This section would require the FFRDC to submit the report to the Secretary not later than 270 days after enactment of this Act, and

would require the Secretary to submit the report to the congressional defense committees not later than 30 days after receiving it.

Section 1648—Extension of Annual Report on the Plan for the Nuclear Weapons Stockpile, Nuclear Weapons Complex, Nuclear Weapons Delivery Systems, and Nuclear Weapons Command and Control System

This section would amend section 1043 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112–81) to extend the expiration of a reporting requirement related to nuclear weapons from 2019 to 2022.

Section 1649—Sense of Congress on Nuclear Posture of the United States

This section would express a sense of Congress regarding the nuclear posture of the United States.

Section 1650—Sense of Congress on Extended Nuclear Deterrence in the Indo-Pacific Region

This section would express the sense of Congress concerning the nuclear weapons program of the Democratic People’s Republic of Korea and U.S. extended deterrence commitments to Indo-Pacific region allies and partners.

SUBTITLE E—MISSILE DEFENSE PROGRAMS

Section 1661—Development of Persistent Space-Based Sensor Architecture

This section would direct the Director of the Missile Defense Agency (MDA), in coordination with the Director of National Intelligence, the Commander of Air Force Space Command, and the Commander of U.S. Strategic Command, to complete a plan and initiate development in fiscal year 2019 for a space-based missile defense sensor architecture. This section would limit obligation or expenditure of funds to initiate the space-based missile defense layer program until the plan is submitted to Congress. This section would also amend section 1683 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) to require the Director of the MDA to submit a report to the congressional defense committees and congressional intelligence committees by January 31, 2019, on options to use other transactional authorities to accelerate development of this architecture.

Section 1662—Boost Phase Ballistic Missile Defense

This section would require the Director, Missile Defense Agency (MDA) to begin a program in fiscal year 2019 to develop boost phase intercept capabilities that are either air-launched or ship-based, cost effective, and that include a kinetic interceptor. This section would require an independent feasibility study to be conducted for delivering an initial or demonstrated boost phase capability by calendar year 2021 using unmanned aerial vehicles and kinetic interceptors.

This section would also provide support for directed energy efforts that would contribute to intercontinental ballistic missile boost phase intercept applications, and would direct MDA to continue developing this capability in fiscal year 2019 and leverage directed energy work by the Under Secretary of Defense for Research and Engineering. This section would require the Director of MDA to provide a briefing to the Committees on Armed Services of the House of Representatives and the Senate, and to any other congressional defense committee upon request, not later than February 28, 2019, on the criteria and parameters used to measure progress of such program.

Section 1663—Improvements to Research and Development and Acquisition Processes of Missile Defense Agency

This section would require the Under Secretary of Defense for Research and Engineering to transfer all research and development efforts and programs that have not yet reached milestone B to the Missile Defense Agency (MDA) if they are planned to be incorporated into the ballistic missile defense system or have explicit application for ballistic missile or hypersonic defense. This section would also require the Under Secretary to submit a report to the congressional defense committees by March 31, 2019, on the programs affected.

Further, this section would require the Secretary of Defense to notify the congressional defense committees before any of MDA's unique acquisition authorities are changed, and would prohibit changing the missile defense requirements generation process managed by U.S. Strategic Command.

This section would also require that MDA make the quarter and fiscal year for execution of planned flight tests unclassified. Lastly, this section would require the Deputy Secretary of Defense to update membership of the Missile Defense Executive Board, and would require that the Under Secretary of Defense for Acquisition and Sustainment be a standing member of the board and a co-chairman with respect to all decisions regarding acquisition and production milestone approvals, including other transaction authority contracts or transactions in excess of \$500.0 million.

Section 1664—Layered Defense of the United States Homeland

This section would express the sense of Congress in support of the Department of Defense's efforts to provide layered defense of the homeland, and would require the Director of the Missile Defense Agency, in coordination with the Under Secretary of Defense for Policy, Commander of U.S. Northern Command, and Commander of U.S. Pacific Command, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by January 31, 2019, on options to increase layered protection of the U.S. homeland, to include the continental United States, Hawaii, and Alaska, from both the Democratic People's Republic of Korea and the Islamic Republic of Iran.

Section 1665—Testing of Redesigned Kill Vehicle Prior to Production

This section would prohibit a lot production decision for the Redesigned Kill Vehicle until after a successful flight intercept test. This section would also provide a waiver for the Secretary of Defense to make such a decision prior to a successful flight test, if the specified conditions are met.

Section 1666—Requirements for Ballistic Missile Defense Capable Ships

This section would require the Secretary of the Navy to include ballistic missile defense ship requirements in all future force structure assessments.

Section 1667—Multiyear Procurement Authority for Standard Missile-3 Block IB Missiles

This section would authorize the Department of Defense to enter a multiyear procurement for Standard Missile-3 Block IB missiles.

Section 1668—Limitation on Availability of Funds for Army Lower Tier Air and Missile Defense Sensor

This section would limit obligation or expenditure of funds for the Lower Tier Air and Missile Defense Sensor until the Secretary of the Army provides a report detailing the rationale for any delay should the acquisition strategy delivered in September 2018 push initial operating capability past 2023. This section would also require the Secretary of the Army to ensure performance specifications of the sensor specify certain requirements.

Section 1669—Missile Defense Radar in Hawaii

This section would express the sense of Congress on maintaining or accelerating the schedule for the homeland missile defense in Hawaii. This section would further require alignment of the In-Flight Interceptor Communications System Data Terminal (IDT) with homeland defense radar in Hawaii by requiring the Director of the Missile Defense Agency to provide a certification that the contract for the homeland defense radar in Hawaii is on schedule to award the contract by not later than December 31, 2018, and that the radar and the IDT will reach initial operating capability not later than fiscal year 2023. Should the contract not be awarded by December 31, 2018, this section would direct the Director of the Missile Defense Agency to provide a briefing to the Committees on Armed Services of the House of Representatives and the Senate every other week until the date of award. This section would also require the Director of the Missile Defense Agency to provide semi-annual briefings to the Committees on Armed Services of the House of Representatives and the Senate on progress of the IDT and homeland missile defense radar in Hawaii, including updates on the environmental impact study process and acquisition of the radar and terminal.

Section 1670—Reports on Unfunded Priorities of the Missile Defense Agency

This section would require the Director of the Missile Defense Agency to submit a report to the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, and the congressional defense committees on the unfunded priorities of the Missile Defense Agency for fiscal years 2020 and 2021, within 10 days of the submission of the budget request to Congress for those fiscal years.

Section 1671—Report on Ballistic Missile Defense

This section would require the Secretary of Defense to submit a report on ballistic missile defense to the congressional defense committees not later than 30 days after the date of enactment of this Act.

Section 1672—Sense of Congress on Missile and Rocket Defense Cooperation Between the United States and Israel

This section would express the sense of Congress in support of the administration's 10-year memorandum of understanding starting in fiscal year 2019 between the United States and the State of Israel on missile defense cooperation.

SUBTITLE F—OTHER MATTERS

Section 1681—Extension of Commission To Assess the Threat to the United States From Electromagnetic Pulse Attacks and Similar Events

This section would amend section 1691 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) to extend several deadlines associated with the Commission to Assess the Threat to the United States from Electromagnetic Pulse Attacks and Similar Events.

Section 1682—Procurement of Ammonium Perchlorate and Other Chemicals for Use in Solid Rocket Motors

This section would require the Secretary of the Army and the Deputy Assistant Secretary of Defense for Manufacturing and Industrial Base Policy to jointly conduct a business case analysis of the Federal Government using a government-owned, contractor-operated model to ensure a robust domestic supply of specialty chemicals, including ammonium perchlorate, for use in solid rocket motors. The Secretary and Deputy Assistant Secretary would be required to submit this business case analysis to the congressional defense committees by March 1, 2019.

This section would also require the Secretary of Defense to use, to the extent practicable, full and open competition in awarding a contract for the sale of ammonium perchlorate from retired solid rocket motors. The Secretary would be required to notify the congressional defense committees 30 days after the date of any such award that does not use full and open competition.

Section 1683—Conventional Prompt Global Strike Hypersonic Capabilities

This section would require the Secretary of Defense to submit to the congressional defense committees by November 30, 2018, a validated requirement for ground-, sea-, or air-launched (or a combination thereof) conventional prompt global strike (CPGS) hypersonic capabilities.

This section would further require the Under Secretary of Defense for Acquisition and Sustainment to submit a report to the congressional defense committees by November 30, 2018, on the plan to deliver a CPGS capability in accordance with section 1693 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91). The report would also include options with cost estimates for accelerating delivery for such system, policy decisions needed to employ the capabilities, and details with respect to the assessed level of ambiguity and misinterpretation of risks, and how those risks would be addressed.

Section 1684—Report Regarding Industrial Base for Large Solid Rocket Motors

This section would require the Under Secretary of Defense for Acquisition and Sustainment, in consultation with the Secretaries of the military departments that the Under Secretary determines appropriate, to submit a report to the appropriate congressional committees by April 15, 2019, on whether, and if so, how, the Federal Government will sustain more than one supplier for large solid rocket motors. The report would be required to include an assessment of several matters, including risks, costs, and options for sustaining more than one supplier by leveraging various programs of the Department of Defense and the broader Federal Government. Finally, this section would require the Under Secretary to provide a briefing to the appropriate congressional committees by November 30, 2018, on the industrial base for large solid rocket motors.

As it has expressed in the past, the committee continues to support the GBSD program and efforts to recapitalize the nuclear triad. The committee continues to expect the Air Force and the Department of Defense to be mindful of the impacts GBSD and other large upcoming or ongoing programs have on the industrial base for large solid rocket motors in the near, medium, and longer terms. Due to the large volume of rocket motors that will be procured for GBSD, this program may have a particularly large impact on the health and vitality of this key element of the U.S. industrial base. The committee does not expect or encourage the GBSD program alone to be responsible for sustaining this industrial base, but does expect the Department of Defense to carefully consider its impacts, assessing risks, benefits, and costs.

Section 1685—National Intelligence Estimate With Respect to Russian and Chinese Interference in Democratic Countries

This section would direct the Director of National Intelligence to produce a National Intelligence Estimate on Russian and Chinese interference in democratic countries around the world.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

PURPOSE

Division B provides military construction, family housing, and related authorities in support of the military departments during fiscal year 2019. As recommended by the committee, division B would authorize appropriations in the amount of \$10,332,478,000 for construction in support of the Active Forces, Reserve Components, defense agencies, and the North Atlantic Treaty Organization security infrastructure fund for fiscal year 2019.

MILITARY CONSTRUCTION AND FAMILY HOUSING OVERVIEW

The Department of Defense requested \$8,612,447,000 for military construction, \$267,538,000 for Base Realignment and Closure activities, and \$1,582,632,000 for family housing for fiscal year 2019. The committee recommends authorization of appropriations of \$8,498,136,000 for military construction, \$322,868,000 for Base Realignment and Closure activities, and \$1,582,632,000 for family housing in fiscal year 2019. In addition, the committee recommends the inclusion of \$71,158,000 in undistributed savings from prior years. The Department of Defense also requested \$921,420,000 for Overseas Contingency Operations military construction for fiscal year 2019. The committee recommends authorization of appropriations of \$921,420,000 for Overseas Contingency Operations military construction within title XXIX.

Section 2001—Short Title

This section would cite division B of this Act as the “Military Construction Authorization Act for Fiscal Year 2019”.

Section 2002—Expiration of Authorizations and Amounts Required To Be Specified by Law

This section would ensure that the authorizations provided in titles XXI through XXVII and title XXIX of this Act shall expire on October 1, 2023, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 2024, whichever is later.

Section 2003—Effective Date

This section would provide that titles XXI through XXVII and title XXIX of this Act would take effect on October 1, 2018, or the date of the enactment of this Act, whichever is later.

TITLE XXI—ARMY MILITARY CONSTRUCTION

SUMMARY

The budget request contained \$1,011,768,000 for Army military construction and \$707,169,000 for family housing for fiscal year 2019. The committee recommends authorization of appropriations

of \$1,095,868,000 for military construction and \$707,169,000 for family housing for the Army in fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee recommends the inclusion of funding for several projects requested by the Department of the Army but not contained in the budget request for military construction and family housing. These increases include:

(1) \$18.0 million for a Microgrid and Power Plant at Fort Campbell, Kentucky;

(2) \$16.5 million for Cantonment Area Roads at Fort Meade, Maryland; and (3) \$9.6 million for a Supply Support Activity at Fort Hood, Texas.

The committee also recommends the inclusion of \$50.0 million for the Secretary of the Army, with prior notification to Congress, to carry out projects intended to enhance force protection and safety. The committee recommends the Secretary use this authority to alleviate deficiencies in access control points, air traffic control towers, fire stations, and anti-terrorism and force protection.

Finally, the committee recommends a reduction of funding for a project contained in the budget request submitted by the Department of the Army for military construction and family housing. This reduction is:

(1) \$10.0 million for Command and Control Facility, Increment 4 at Fort Shafter, Hawaii. While the committee supports the requirement for this incrementally funded project, the committee notes this is the second consecutive year the Army has reported cost increases associated with this project. The committee believes the Department did not provide sufficient justification for the most recent cost increase associated with this project. Therefore, the committee recommends \$95.0 million, a reduction of \$10.0 million, for this project.

LEGISLATIVE PROVISIONS

Section 2101—Authorized Army Construction and Land Acquisition Projects

This section would contain the list of authorized Army construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2102—Family Housing

This section would authorize new construction and planning and design of family housing units for the Army for fiscal year 2019.

Section 2103—Authorization of Appropriations, Army

This section would authorize appropriations for Army military construction at the levels identified in section 4601 of division D of this Act.

Section 2104—Extension of Authorizations of Certain Fiscal Year
2015 Projects

This section would extend the authorization of a certain project originally authorized by section 2101 of the Military Construction Authorization Act for Fiscal Year 2015 (division B of Public Law 113–291) until October 1, 2019, or the date of the enactment of an act authorizing funds for military construction for fiscal year 2020, whichever is later.

TITLE XXII—NAVY MILITARY CONSTRUCTION

SUMMARY

The budget request contained \$2,543,189,000 for Navy and Marine Corps military construction and \$419,117,000 for family housing for fiscal year 2019. The committee recommends authorization of appropriations of \$2,538,898,000 for military construction and \$419,117,000 for family housing for the Navy and Marine Corps in fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee recommends the inclusion of funding for several projects requested by the Department of the Navy but not contained in the budget request for military construction and family housing. These increases include:

- (1) \$78.8 million for an Aircraft Paint Complex at Naval Base Coronado, California;
- (2) \$75.6 million for X-Ray Wharf Improvements (Berth 2) at Naval Base Guam, Guam;
- (3) \$51.3 million for 2nd Radio Battalion Complex, Phase 2 at Camp Lejeune, North Carolina;
- (4) \$31.9 million for a Welding and Body Repair Shop Facility at Marine Corps Base Albany, Georgia;
- (5) \$22.3 million for Expeditionary Combat Skills Student Berthing at Naval Construction Battalion Center, Gulfport, Mississippi;
- (6) \$21.8 million for Missile Magazines at Naval Weapons Station Seal Beach, California;
- (7) \$19.7 million for a Consolidated Fire Station at Naval Station Guantanamo Bay, Cuba;
- (8) \$19.5 million for LCS Mission Module Readiness Center at Naval Base San Diego, California;
- (9) \$16.6 million for a Supply Warehouse SOI–West at Camp Pendleton, California;
- (10) \$14.9 million for a Communications Line Ops to Admin at Naval Air Station Lemoore, California;
- (11) \$14.8 million for Missile Motor Magazines and U&SI at Camp Navajo, Arizona
- (12) \$13.1 million for Ammunition Supply Point Upgrade, Phase 2 at Marine Corps Base Quantico, Virginia;
- (13) \$10.0 million for Air Traffic Control Tower (North Field) at Naval Air Station Whiting Field, Florida; and (14) \$6.3 million for

a Cryogenics Facility Marine Corps Air Station Beaufort, South Carolina.

The committee also recommends the inclusion of \$50.0 million for the Secretary of the Navy, with prior notification to Congress, to carry out projects intended to enhance force protection and safety. The committee recommends the Secretary use this authority to alleviate deficiencies in access control points, air traffic control towers, fire stations, and anti-terrorism and force protection.

Finally, the committee recommends a reduction of funding for several projects contained in the budget request submitted by the Department of the Navy for military construction and family housing. These reductions include:

(1) \$73.97 million for an Aircraft Maintenance Hangar at Marine Corps Air Station Cherry Point, North Carolina. The committee supports the requirement for this project and provides the full project authorization of \$133.97 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$60.0 million, a reduction of \$73.97 million, for this project.

(2) \$71.287 million for a Machine Gun Range at Joint Region Marianas, Guam. The committee supports the requirement for this project and provides the full project authorization of \$141.287 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$70.0 million, a reduction of \$71.287 million, for this project.

(3) \$59.353 million for Pier 8 Replacement at Naval Base San Diego, California. The committee supports the requirement for this project and provides the full project authorization of \$108.1 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$47.747 million, a reduction of \$59.353 million, for this project.

(4) \$55.6 million for the Master Time Clocks & Operations Facility at the Naval Observatory, District of Columbia. The committee supports the requirement for this project and provides the full project authorization of \$115.6 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. There-

fore, the committee recommends an authorization of appropriation of \$60.0 million, a reduction of \$55.6 million, for this project.

(5) \$58.321 million for Dry Dock #1 Superflood Basin at the Portsmouth Navy Yard, Maine. The committee supports the requirement for this project and provides the full project authorization of \$109.96 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$51.639 million, a reduction of \$58.321 million, for this project.

(6) \$51.86 million for Flightline Utility Modernization at Marine Corps Air Station Cherry Point, North Carolina. The committee supports the requirement for this project and provides the full project authorization of \$106.86 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that the Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$55.0 million, a reduction of \$51.86 million, for this project.

(7) \$50.52 million for a D5 Missile Motor Receipt/Storage Facility at Hill Air Force Base, Utah. The committee supports the requirement for this project and provides the full project authorization of \$105.52 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that Department of the Navy cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$55.0 million, a reduction of \$50.52 million, for this project.

(8) \$21.98 million for a TBS Fire Station at Marine Corps Base Quantico, Virginia. The committee notes this project was authorized in the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) and a subsequent appropriations was included for this project in the Consolidated Appropriations Act, 2018 (Public Law 115–141). The committee does not believe an additional authorization of appropriations for fiscal year 2019 is required for this project and therefore recommends a reduction of \$21.98 million, for this project.

(9) \$8.0 million for Planning and Design. The committee recommends an authorization of appropriation of \$177.542 million, a reduction of \$8.0 million, for planning and design activities.

Aegis Ashore Poland Austere Housing

The committee notes that the U.S. Navy has made the decision to maintain austere housing accommodations for the Aegis Ashore site in Redzikowo, Republic of Poland. This decision was made despite the committee's concerns about the impact that these conditions could have on the quality of life for the sailors manning the site.

Aegis Ashore Poland will provide critical missile defense capability to defend our deployed forces, allies, partners, and friends from missile defense threats. The site will be manned 24/7 by sailors on rotating, unaccompanied tours. The Commander of Naval Installations Command determined that the Aegis Ashore site located in Redzikowo, Poland, warranted “austere” housing, and the Chief of Naval Operations approved this determination. Under this determination, the housing accommodation guidelines will place up to 4 persons in each berthing room.

The committee is concerned that the austere housing may have a negative impact on quality of life for the sailors manning the site as they execute a critical missile defense mission. Therefore, the committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services by November 30, 2018, on options to improve housing standards for sailors at the Aegis Ashore Poland site, including estimated costs and schedule for completing the possible improvements.

Infrastructure in Support of Submarine Training and Operational Requirements

The committee supports the Navy’s development of the *Columbia*-class to serve as the Navy’s future ballistic missile submarine. While the first submarine delivery is projected outside of the current Future Years Defense Program, the committee believes it is important for infrastructure requirements to be properly identified, programmed, and synchronized to support the training and operational requirements of this new class of submarine. The committee notes that the military departments have struggled in the past to align military construction and infrastructure investments with delivery of new weapon systems. The committee encourages the Secretary of the Navy to review the Navy’s current infrastructure plans to ensure proper alignment with the *Columbia*-class program. Finally, the committee notes the importance of continuing to make appropriate investments in the infrastructure capabilities and capacity necessary to meet the training and certification of crews supporting the current fleet of *Ohio*-class submarines.

Public Shipyard Infrastructure

The committee acknowledges that it has received the report related to Naval Shipyard Development Plans required by the committee report (H. Rept. 115–200) accompanying the National Defense Authorization Act for Fiscal Year 2018. The report identified a number of infrastructure-related configuration, age, condition, and capacity issues that adversely impact nuclear submarine and aircraft carrier depot maintenance throughput. The Navy’s report identifies approximately \$21.0 billion in infrastructure investments through 2040 that will be needed in the shipyards, to include \$14.0 billion for construction to provide the optimal layout of facilities in order to increase production capacity, \$4.0 billion for improvements of the dry docks to provide needed capability and capacity for future classes of ships, and \$3.0 billion for capital equipment. The committee believes the public shipyards are key elements that support our national defense. As such, the committee encourages the Secretary of the Navy to plan, program, and budget appropriate in-

vestments in the public shipyards to ensure those shipyards have the capabilities and capacity necessary to efficiently and effectively support the Navy fleet of today as well as the future.

Red Hill Bulk Underground Fuel Storage Facility

The committee is aware that the Navy and Defense Logistics Agency (DLA) have entered into an enforceable agreement with the Environmental Protection Agency (EPA) and the Hawaii Department of Health known as an Administrative Order on Consent (AOC). The AOC has opportunities for stakeholder involvement at every milestone. The committee notes that the EPA and Hawaii Department of Health regulate the Red Hill Underground Fuel Storage Facility and must approve work on AOC milestones including tank inspection, repair, and maintenance; tank upgrade alternatives using Best Available Practicable Technology (BAPT); release detection and tank tightness testing; corrosion and metal fatigue practices; investigation and remediation of releases; groundwater protection and evaluation; and a risk and vulnerability assessment. The committee encourages the Navy and DLA to continue to work with Federal and State regulators to meet all compliance deadlines related to the AOC. Furthermore, the committee encourages the Navy and DLA to consider increasing community outreach efforts, to include holding more public events such as town halls, to keep the community and local stakeholders informed on milestones and compliance with the AOC.

Furthermore, the committee continues to recognize the strategic value of the Red Hill Underground Fuel Storage Facility and the support it provides to U.S. Pacific Command (PACOM) operations in peacetime and for contingencies. This facility is a national strategic asset that supports combatant commander theater security requirements, contingency operations, and routine movements in the Indo-Asia-Pacific region. Moving the fuel to another storage facility in the Indo-Asia-Pacific region would have implications for the U.S. military force structure in the region. If the facility were closed, the ability of the U.S. Armed Forces to support the National Defense Strategy would be significantly undermined. The committee appreciates the ongoing dialogue with the Department of Defense and Department of the Navy on this topic while they continue to comply with the requirements of the AOC. The committee will continue to provide congressional oversight on compliance with the AOC and the planning, programming, budgeting, and execution for the BAPT solutions and overall recapitalization plan for the Red Hill Underground Fuel Storage Facility.

Tijuana Sewage Runoff

The committee is aware that discharges of raw sewage into the Tijuana River have required Navy in-water military training in the vicinity of Coronado, California, to be temporarily shifted to another location due to health and safety concerns. In addition, sewage spills and debris such as discarded tires often clog the river channel causing substantial erosion along the perimeter of the Naval Outlying Landing Field Imperial Beach (NOLFIB). The erosion has threatened the installation's perimeter fencing and resulted in the Navy developing a project to reinforce the riverbank

and relocate portions of Navy fencing. The committee is aware that such discharges also cause secondary impacts to local Navy operations, such as beach closures at Naval Base Coronado in areas that are prime nesting grounds for the Western Snowy Plover and the California Least Tern. Increased regulatory actions by State and Federal environmental protection agencies may be levied if the quality and safety of these species' nesting areas are affected, which will negatively constrain military activities in these areas.

The committee is concerned that future spills, discharges, and debris from the Tijuana River may have more significant impacts on the military installations and operations in the San Diego region. Therefore, the committee directs the Secretary of the Navy to provide a briefing to the House Committee on Armed Services and other committees of jurisdiction in the House, not later than December 1, 2018, detailing whether such spills, discharges, and debris have any impact on the national security interests of the United States; whether there is a need to avoid future spills to prevent impacts to training, installations, and operations; and what actions might be taken to resolve or mitigate these impacts. As necessary, the Secretary is encouraged to coordinate with the Department of State, the Environmental Protection Agency, the Department of Homeland Security (to include U.S. Customs and Border Patrol and the U.S. Coast Guard), the International Boundary and Water Commission, and the Department of the Interior on this briefing requirement.

LEGISLATIVE PROVISIONS

Section 2201—Authorized Navy Construction and Land Acquisition Projects

This section would contain the list of authorized Navy construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2202—Family Housing

This section would authorize new construction and planning and design of family housing units for the Department of the Navy for fiscal year 2019.

Section 2203—Improvements to Military Family Housing Units

This section would authorize the Secretary of the Navy to make improvements to existing units of family housing for fiscal year 2019.

Section 2204—Authorization of Appropriations, Navy

This section would authorize appropriations for Navy military construction at the levels identified in section 4601 of division D of this Act.

TITLE XXIII—AIR FORCE MILITARY CONSTRUCTION

SUMMARY

The budget request contained \$1,725,707,000 for Air Force military construction and \$395,720,000 for family housing for fiscal year 2019. The committee recommends authorization of appropriations of \$1,570,773,000 for military construction and \$395,720,000 for family housing for the Air Force in fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee recommends the inclusion of funding for several projects requested by the Department of the Air Force but not contained in the budget request for military construction and family housing. These increases include:

(1) \$26.0 million for a Dormitory (168 personnel) at Little Rock Air Force Base, Arkansas;

(2) \$26.0 million for a Composite Aircraft Antenna Calibration facility at Hill Air Force Base, Utah;

(3) \$15.0 million for an AGE Facility at Davis-Monthan Air Force Base, Arizona;

(4) \$14.2 million for Anti-Terrorism Perimeter Security/Entry Control Point at Rome Laboratory, New York;

(5) \$14.0 million for Add-Alter Joint Personnel Recovery Agency Command and Control Mission Support Facility at Fairchild Air Force Base—White Bluff, Washington;

(6) \$13.0 million for a Child Development Center at Joint Base Andrews, Maryland;

(7) \$12.25 million for an Entrance Road and Gate Complex at Barksdale Air Force Base, Louisiana;

(8) \$9.0 million for a Main Gate at Patrick Air Force Base, Florida;

(9) \$8.0 million for a Military Working Dog Facility at Joint Base Andrews, Maryland; and

(10) \$7.0 million for Wyoming Gate Upgrade for Anti-Terrorism Compliance at Kirtland Air Force Base, New Mexico.

The committee also recommends the inclusion of \$50.0 million for the Secretary of the Air Force, with prior notification to Congress, to carry out projects intended to enhance force protection and safety. The committee recommends the Secretary use this authority to alleviate deficiencies in access control points, air traffic control towers, fire stations, and anti-terrorism and force protection.

Finally, the committee recommends reduction of funding for several projects contained in the budget request submitted by the Department of the Air Force for military construction and family housing. These reductions include:

(1) \$185.0 million for the MIT—Lincoln Laboratory (West Lab CSL/MIF) at Hanscom Air Force Base, Massachusetts. The committee supports the requirement for this project and provides the full project authorization of \$225.0 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Depart-

ment to execute in the year of the authorization for appropriations. For this project, the committee believes that Department of the Air Force cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$40.0 million, a reduction of \$185.0 million, for this project.

(2) \$55.1 million for the ADAL Intelligence Production Complex (NASIC) at Wright-Patterson Air Force Base, Ohio. The budget request included \$116.1 million to construct the first phase of the construction of additional workspace for intelligence analysis and production to support the National Air and Space Intelligence Center. The committee supports the requirement for this project and is aware that a \$66.0 million second phase is planned in a future program but is needed to support the full mission requirement. The committee believes it is more appropriate to authorize the full scope of a military construction requirement and provide incremental funding as opposed to bifurcating a construction project into separate phases. Therefore, the committee recommends combining the two phases into a single project and provides a total authorization of \$182.0 million for the ADAL Intelligence Production Complex at Wright-Patterson Air Force Base, Ohio. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that Department of the Air Force cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$61.0 million, a reduction of \$55.1 million, for this project.

(3) \$40.0 million for a Personnel Deployment Processing facility at Al Udeid, Qatar. The committee supports this requirement. However, the committee recommends no funds in the base budget, a reduction of \$40.0 million, for this project in order to transfer this project to Title XXIX, Overseas Contingency Operations Military Construction.

(4) \$30.884 million for the Presidential Aircraft Recap Complex, Increment 2 at Andrews Air Force Base, Maryland. The committee supports the requirement for this project, but notes that an additional \$24.884 million was provided in the Consolidated Appropriations Act, 2018 (Public Law 115–141), which was signed into law after the budget request for fiscal year 2019 was submitted. In addition, the committee notes an additional \$6.0 million was included in the project for site preparation work that is no longer required. Therefore, the committee recommends an authorization of appropriation of \$123.116 million, a reduction of \$30.884 million, for this project.

(5) \$30.4 million for Flightline Support facilities at Al Udeid, Qatar. The committee supports this requirement. However, the committee recommends no funds in the base budget, a reduction of \$30.4 million, for this project in order to transfer this project to Title XXIX, Overseas Contingency Operations Military Construction.

(6) \$8.0 million for Planning and Design. The committee recommends an authorization of appropriation of \$187.577 million, a reduction of \$8.0 million, for planning and design activities.

Infrastructure Investments in Support of Research and Development Contracts

The committee notes that section 2353 of title 10, United States Code, provides the secretary of a military department the authority to provide for the acquisition or construction of facilities and equipment by either the Government or the contractor that the secretary concerned determines to be necessary for the performance of a contract for research, development, or both. However, the committee notes that the Air Force Instruction (AFI) approval process currently used to approve projects seeking to use this authority may not be appropriate for the circumstances at certain research facilities. Specifically, the committee notes that the current AFI-32 series is used for traditional military construction projects, and does not adequately address construction funded through contracts for research, development, or both. Therefore, the addition of language to AFIs pertinent to acquisition and construction of facilities and equipment authorized by section 2353 of title 10, United States Code, may be more appropriate and necessary for the implementation of this authority. The committee believes the Secretary of the Air Force should closely examine this issue and issue a revised AFI, as appropriate, that better supports the use of section 2353 of title 10, United States Code.

Therefore, the committee directs the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services not later than September 30, 2018, on the results of a review of the authorities that support the acquisition or construction of facilities and equipment for research and development contracts, the supporting AFIs to carry out such projects, and any plans to update the AFI to better utilize the existing authorities.

LEGISLATIVE PROVISIONS

Section 2301—Authorized Air Force Construction and Land Acquisition Projects

This section would contain the list of authorized Air Force construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2302—Family Housing

This section would authorize new construction and planning and design of family housing units for the Air Force for fiscal year 2019.

Section 2303—Improvements to Military Family Housing Units

This section would authorize the Secretary of the Air Force to make improvements to existing units of family housing for fiscal year 2019.

Section 2304—Authorization of Appropriations, Air Force

This section would authorize appropriations for Air Force military construction at the levels identified in section 4601 of division D of this Act.

Section 2305—Modification of Authority To Carry Out Certain Phased Project Authorized in Fiscal Years 2015, 2016, and 2017

This section would modify the authority provided by section 2301(b) of the Military Construction Authorization Act for Fiscal Year 2015 (division B of Public Law 113–291), the authority provided by section 2301(b) of the Military Construction Authorization Act for Fiscal Year 2016 (division B of Public Law 114–92), and the authority provided by section 2301(b) of the Military Construction Authorization Act for Fiscal Year 2017 (division B of Public Law 114–328) to authorize the Secretary of the Air Force to modify the location of three previously authorized construction phases of the project.

Section 2306—Modification of Authority To Carry Out Certain Fiscal Year 2017 Project

This section would modify the authority provided by section 2301 of the Military Construction Authorization Act for Fiscal Year 2017 (division B of Public Law 114–328) and authorize the Secretary of the Air Force to make certain modifications to the scope and authorized cost of a previously authorized construction project.

Section 2307—Modification of Authority To Carry Out Certain Fiscal Year 2018 Project

This section would modify the authority provided by section 2301 of the Military Construction Authorization Act for Fiscal Year 2018 (division B of Public Law 115–91) and authorize the Secretary of the Air Force to make certain modifications to the scope of a previously authorized construction project.

Section 2308—Additional Authority To Carry Out Certain Fiscal Year 2019 Projects

This section would provide the Secretary of the Air Force additional authority to carry out certain fiscal year 2019 projects pursuant to the Defense Laboratory Modernization Pilot Program established by section 2803 of the Military Construction Authorization Act for Fiscal Year 2016 (division B of Public Law 114–92).

Section 2309—Additional Authority To Carry Out Project at Travis Air Force Base, California, in Fiscal Year 2019

This section would provide specific authorization for a construction project at Travis Air Force Base.

TITLE XXIV—DEFENSE AGENCIES MILITARY CONSTRUCTION

SUMMARY

The budget request contained \$2,693,324,000 for defense agency military construction and \$58,373,000 for family housing for fiscal year 2019. The committee recommends authorization of appropriations of \$2,473,338,000 for military construction and \$58,373,000 for family housing for defense agencies for fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee notes the budget request submitted by the Department of Defense for military construction and family housing included \$150.0 million for the Energy Resilience and Conservation Investment Program. The committee supports this program and encourages the Department of Defense to continue to emphasize projects that will support increased resiliency of military installations and mission critical functions. Therefore, the committee recommends an authorization of appropriation of \$165.0 million, an increase of \$15.0 million, for this program.

In addition, the committee recommends reduction of funding for several projects contained in the budget request submitted by the Department of Defense for military construction and family housing. These reductions include:

(1) \$130.386 million for Kinnick High School at Yokosuka, Japan. The committee supports the requirement for this project and provides the full project authorization of \$170.386 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that Department of Defense cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$40.0 million, a reduction of \$130.386 million, for this project.

(2) \$44.0 million for Long Range Discrimination Radar System Complex, Phase 2 at Clear Air Force Station, Alaska. The committee supports the requirement for this project and provides the full project authorization of \$174.0 million included in the budget request. However, the committee supports the authorization of appropriations in an amount equivalent to the ability of the Department to execute in the year of the authorization for appropriations. For this project, the committee believes that Department of the Defense cannot fully expend the funding in fiscal year 2019. Therefore, the committee recommends an authorization of appropriation of \$130.0 million, a reduction of \$44.0 million, for this project.

(3) \$32.6 million for Next NGA West (N2W) Complex, Phase 1, Increment 2 in St. Louis, Missouri. The committee supports the requirement for this project, but notes that an additional \$25.0 million was provided in the Consolidated Appropriations Act, 2018 (Public Law 115–141), which was signed into law after the budget request for fiscal year 2019 was submitted. In addition, the com-

mittee notes that the Office of Management and Budget has directed the National Geospatial-Intelligence Agency not to award the project until receiving the full appropriation for both increments, resulting in a cost increase of \$7.6 million due to the delay in award. As noted elsewhere in this report, the committee believes such a policy is not in the best interest of the Department of Defense or the taxpayer. Therefore, the committee recommends an authorization of appropriation of \$181.0 million, a reduction of \$32.6 million, for this project.

(4) \$10.0 million for an Ambulatory Care Center Addition/Alteration at RAF Croughton, United Kingdom. The committee notes this facility may be early-to-need based on an ongoing analysis of alternatives related to a separate military construction requirement. Therefore, the committee recommends no funds, a reduction of \$10.0 million, for this project.

(5) \$10.0 million for Contingency Construction at Unspecified Worldwide Locations. The budget request included \$10.0 million to support contingency construction requirements not previously authorized by law. While the committee notes this authority was used for a project in fiscal year 2018, unobligated balances remain available in the military construction account and other authorities exist to construct projects that are in keeping with a national security interest. As such, the committee recommends no funds, a reduction of \$10.0 million, for this program.

(6) \$8.0 million for Missile Field #1 Expansion at Fort Greely, Alaska. The committee notes that the Continuing Appropriations Act, 2018 and Supplemental Appropriations for Disaster Relief Requirements Act, 2017 (Public Law 115-56) provided \$200.0 million for the construction of an additional 20 silos at Missile Field #4. The committee questions why the requirement for the additional expansion of Missile Field #1 was not included in the previous request. In addition, the committee notes that this project could be carried out as a minor military construction project and does not require specific authorization. Therefore, the committee recommends no funds, a reduction of \$8.0 million, for this project.

LEGISLATIVE PROVISIONS

Section 2401—Authorized Defense Agencies Construction and Land Acquisition Projects

This section would contain the list of authorized defense agencies' construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The state list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2402—Authorized Energy Conservation Projects

This section would authorize the Secretary of Defense to carry out energy resilience and conservation projects.

Section 2403—Authorization of Appropriations, Defense Agencies

This section would authorize appropriations for defense agencies' military construction at the levels identified in section 4601 of division D of this Act.

Section 2404—Extension of Authorizations of Certain Fiscal Year
2015 Projects

This section would extend the authorization of certain projects originally authorized by section 2401 of the Military Construction Authorization Act for Fiscal Year 2015 (division B of Public Law 113–291) until October 1, 2019, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 2020, whichever is later.

TITLE XXV—INTERNATIONAL PROGRAMS

SUMMARY

The budget request contained \$171,064,000 for the North Atlantic Treaty Organization Security Investment Program (NSIP) for fiscal year 2019. The committee recommends authorization of appropriations of \$171,064,000 for NSIP for fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Facilities and Infrastructure for U.S. Military Personnel at North
Atlantic Treaty Organization Host Nation Bases

The committee appreciates its ongoing and cooperative dialogue with the Department of Defense regarding efforts to improve infrastructure and facilities for U.S. military personnel stationed at North Atlantic Treaty Organization (NATO) host nation bases. As NATO continues to strengthen and update its posture in response to increasing threats, the committee believes that the United States, NATO, and individual host nations must recapitalize facilities and infrastructure that support the NATO mission.

Based on site visits and direct oversight, the committee is pleased that the Kingdom of Belgium has taken several unilateral steps and applied its own funding to improve the security posture at several bases hosting U.S. personnel. However, the committee is disappointed that longstanding plans to recapitalize certain facilities at Belgian bases have not yet been executed. The committee understands that, over a decade ago, NATO allocated common funding to construct several new, modern facilities in Belgium to replace inadequate, decades-old buildings. But, due to bureaucratic delays outside of the control of NATO and the U.S. Government, the new facilities have not yet been built and U.S. personnel continue to work and operate in antiquated, substandard, and potentially unsafe facilities. The committee is aware of recent discussions between senior officials from the U.S. and Belgium on this issue, and is pleased that officials from both nations are working together to execute recapitalization plans. The committee encourages Belgium, NATO, and the U.S. Government to find and execute a near-term solution to this serious problem.

LEGISLATIVE PROVISIONS

SUBTITLE A—NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

Section 2501—Authorized NATO Construction and Land Acquisition Projects

This section would authorize the Secretary of Defense to make contributions to the North Atlantic Treaty Organization Security Investment Program in an amount not to exceed the sum of the amount specifically authorized in section 2502 of this Act and the amount collected from the North Atlantic Treaty Organization as a result of construction previously financed by the United States.

Section 2502—Authorization of Appropriations, NATO

This section would authorize appropriations for the North Atlantic Treaty Organization Security Investment Program at the levels identified in section 4601 of division D of this Act.

SUBTITLE B—HOST COUNTRY IN-KIND CONTRIBUTIONS

Section 2511—Republic of Korea Funded Construction Projects

This section would authorize the Secretary of Defense to accept 16 military construction projects totaling \$518.6 million pursuant to agreement with the Republic of Korea for required in-kind contributions.

TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES

SUMMARY

The budget request contained \$467,395,000 for military construction of National Guard and Reserve facilities for fiscal year 2019. The committee recommends authorization of appropriations of \$648,195,000 for military construction for fiscal year 2019.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee recommends the inclusion of funding for several projects requested by the Department of the Army and Department of the Air Force for their reserve components but not contained in the budget request for military construction and family housing. These increases include:

- (1) \$42.6 million for a Regional ISO Maintenance Hangar at Westover Air Reserve Base, Massachusetts;
- (2) \$24.0 million for a NORTHCOM—Construct Alter Facilities at Naval Air Station Joint Reserve Base New Orleans, Louisiana;
- (3) \$24.0 million for an HC-130J Maintenance Hangar at Patrick Air Force Base, Florida;
- (4) \$23.0 million for an ECS Modified TEMF at Yakima Training Center, Washington;

(5) \$13.0 million for Replace Fire Station at Mansfield Lahm Airport, Ohio;

(6) \$11.0 million for an Aircraft Vehicle Storage Building at Lexington, Oklahoma;

(7) \$9.4 million for an Aerial Port Facility at Grissom Air Reserve Base, Indiana;

(8) \$9.0 million for Construct Aircraft Apron at Great Falls International Airport, Montana;

(9) \$8.8 million for Relocate Main Gate at Youngstown Air Reserve Station, Ohio;

(10) \$8.0 million for Construct Small Arms Range at Rickenbacker International Airport, Ohio; and

(11) \$8.0 million for Construct Small Arms Range at Duluth International Airport, Minnesota.

LEGISLATIVE PROVISIONS

SUBTITLE A—PROJECT AUTHORIZATIONS AND AUTHORIZATION OF APPROPRIATIONS

Section 2601—Authorized Army National Guard Construction and Land Acquisition Projects

This section would contain the list of authorized Army National Guard construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2602—Authorized Army Reserve Construction and Land Acquisition Projects

This section would contain the list of authorized Army Reserve construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2603—Authorized Navy Reserve and Marine Corps Reserve Construction and Land Acquisition Projects

This section would contain the list of authorized Navy Reserve and Marine Corps Reserve construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2604—Authorized Air National Guard Construction and Land Acquisition Projects

This section would contain the list of authorized Air National Guard construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2605—Authorized Air Force Reserve Construction and
Land Acquisition Projects

This section would contain the list of authorized Air Force Reserve construction projects for fiscal year 2019. The authorized amounts are listed on an installation-by-installation basis. The State list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

Section 2606—Authorization of Appropriations, National Guard
and Reserve

This section would authorize appropriations for the National Guard and Reserve military construction at the levels identified in section 4601 of division D of this Act.

SUBTITLE B—OTHER MATTERS

Section 2611—Modification of Authority To Carry Out Certain
Fiscal Year 2016 Project

This section would modify the authority provided by section 2603 of the Military Construction Authorization Act for Fiscal Year 2016 (division B of Public Law 114–92) to authorize the Secretary of the Navy to modify the location of a previously authorized construction project.

Section 2612—Modification of Authority To Carry Out Certain
Fiscal Year 2018 Project

This section would modify the authority provided by section 2601 of the Military Construction Authorization Act for Fiscal Year 2018 (division B of Public Law 115–91) to authorize the Secretary of the Army to make certain modifications to the scope of a previously authorized construction project.

Section 2613—Additional Authority To Carry Out Certain Fiscal
Year 2019 Project

This section would authorize the Secretary of the Navy to carry out a military construction project and acquire land at Pittsburgh, Pennsylvania, for the construction of a reserve training center. The Secretary may use available, unobligated Navy military construction reserve funds for the project.

**TITLE XXVII—BASE REALIGNMENT AND
CLOSURE ACTIVITIES**

SUMMARY

The budget request contained \$267,538,000 for activities related to Base Realignment and Closure (BRAC) activities. The committee recommends authorization of appropriations of \$322,868,000 for BRAC activities.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee notes the budget request submitted by the Department of Defense for activities related to Base Realignment and Closure (BRAC) included \$322.868 million for the activities related to recommendations from the previous BRAC rounds. The committee notes that additional resources may allow for the acceleration of certain activities. Therefore, the committee recommends additional authorization of appropriations of \$18.11 million for Base Realignment and Closure—Army, \$19.11 million for Base Realignment and Closure—Navy, and \$18.11 million for Base Realignment and Closure—Air Force.

LEGISLATIVE PROVISIONS

Section 2701—Authorization of Appropriations for Base Realignment and Closure Activities Funded through Department of Defense Base Closure Account

This section would authorize appropriations for ongoing activities that are required to implement the base realignment and closure activities authorized by the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510), at the levels identified in section 4601 of division D of this Act.

Section 2702—Additional Authority To Realign or Close Certain Military Installations

This section would provide the Secretary of Defense with authority to close or realign a military installation if the Secretary receives notification from the Governor of a State or territory that recommends the realignment or closure of a military installation within the Governor's State or territory.

Section 2703—Prohibition on Conducting Additional Base Realignment and Closure (BRAC) Round

This section would affirm that nothing in this Act shall be construed to authorize an additional Base Realignment and Closure round.

TITLE XXVIII—MILITARY CONSTRUCTION
GENERAL PROVISIONS

ITEMS OF SPECIAL INTEREST

Allied Pilot Training on Advanced Pilot Trainer

The committee understands that as the U.S. Air Force evaluates proposals for the Advanced Pilot Trainer (T-X) to make a final award in 2018, it will also be conducting an analysis of each undergraduate pilot training base to determine when the T-X will replace the T-38C Talon currently in service at those bases. Undergraduate pilot training lays the foundation for all pilots that will fly advanced fighter aircraft, including pilots from allies and partners who will fly American fighter aircraft variants. It is critical

that pilots from allies and partners also receive opportunities to adequately prepare to fly these aircraft. Therefore, the committee recommends that the Secretary of the Air Force, when evaluating locations for basing the T-X, consider the importance of locations that also provide training to allies and partners.

Comptroller General Review of Utilities Privatization

The committee continues to support the utility privatization program and other alternative financing arrangements to achieve greater efficiencies, improve reliability and resiliency of utility systems, and reduce operating costs to the Department of Defense. While the Department has leveraged this authority for approximately 20 years, the committee notes with concern the amount of time it can take to complete a utility privatization project, from initial feasibility review by the military department to award of a contract to a utility provider. The committee is aware of instances where the process took more than 5 years from analysis to award. After two decades of experience with utilities privatization, the committee is concerned that procedures have not improved. The Department's protracted process for awarding privatization contracts deters potential utility providers from considering such a contract.

Therefore, the committee directs the Comptroller General of the United States to review the Department's utility privatization program and submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than September 30, 2019, on his findings and recommendations. Specifically, the report shall address the following for each military service:

- (1) the specific steps of the utility privatization process, the average amount of time to complete each step, and the contributing factors for the time each step takes;
- (2) the extent to which best practices have been identified and are shared between the services and the Defense Logistics Agency, and other stakeholders to improve the process; and
- (3) any recommendations to help improve the process as determined to be appropriate by the Comptroller General.

Core Sampling at Joint Base San Antonio

The Committee notes that Joint Base San Antonio is served by a wastewater pipeline, known as W-6 that is subject to a Consent Decree with the Environmental Protection Agency requiring its replacement. The local utility providing wastewater service is the San Antonio Water System, an agency of the City of San Antonio, Texas. This pipeline is critical to the functional wastewater system of Joint Base San Antonio, the City of San Antonio, and Bexar County. The Committee believes that the timely replacement of the pipeline is in the best interests of both Joint Base San Antonio and the community. The proposed route of the replacement pipeline would traverse a part of the base that contains capped and closed landfills with uncertain contents. The committee understands that the Air Force and the City are currently at an impasse on the liability for any contamination discovered during site investigations of the proposed pipeline route and during construction and subse-

quent maintenance and operation of a new pipeline. Given the hazards posed by the condition of the existing pipeline to the population on Joint Base San Antonio, and the legal requirements for replacing the pipeline under the Consent Decree, the Committee encourages the Secretary of the Air Force to work with the City of San Antonio toward an amicable and rapid resolution.

To establish an estimate of liability that will allow informed decisions, the Committee encourages the Secretary of the Air Force to conduct core sampling along the proposed route of the new pipe to determine if any regulated or hazardous substances are present in the soil along the proposed route and the concentrations of any such substances. Furthermore, the committee directs the Secretary of the Air Force to provide a briefing to the House Armed Services Committee, not later than September 30, 2018, on the whether or not the Air Force performed such core sampling and the results of the core sampling performed. If the Air Force did not perform such core sampling, the briefing shall include a detailed explanation for the reasons such sampling was not performed. At the time of the briefing, the Secretary should also provide an update on the status of negotiations with the San Antonio Water System and proposed way-ahead for the site investigations and construction of the W-6 replacement pipeline.

Department of Defense Lands Leases in Hawaii

The Department of Defense has multiple land leases in Hawaii that require renegotiation and renewal within the next 15 years, including the Pohakuloa Training Area, Kahuku Training Area, Makua Military Reservation, and Poamoho Training Area. Therefore, the committee directs the Secretary of Defense to report to the House Committee on Armed Services on efforts to renew Department of Defense leases in Hawaii by July 31, 2018.

Incremental Funding of Military Construction Projects

As noted elsewhere in this report, the committee continues to believe in the value and appropriateness of incrementally authorizing appropriations for certain military construction projects. The committee notes that the Office of Management and Budget has directed the Department of Defense to not plan, program, or request incremental funded projects. However, the committee believes that allowing the Department to seek incremental funding for certain projects ensures more stability and predictability in the planning process, reduces acquisition costs, and enables the Department to execute more work in place on other infrastructure requirements in the fiscal year. Furthermore, the committee believes that incremental funding of large and complex military construction projects ensures continuous oversight and opportunities to adjust the authorization of appropriation level for projects should issues arise or requirements change over the course of construction. To date, the committee is not aware of any example where a military construction project has been left with inadequate funding or has not been executable as a result of an incremental funding approach. The committee expects the Secretary of Defense and the Director of the Office of Management and Budget to work with the House Committee on Armed Services, and the other appropriate congressional

oversight committees, to develop a framework that enables the planning, programming, budgeting, and execution of incrementally funded military construction projects.

Naval Academy Dairy Farm

The committee is aware the Secretary of the Navy is currently prohibited by section 6976 of title 10, United States Code from disposing of 875 acres of real property containing the Naval Academy dairy farm located in Gambrills, Maryland. The committee notes that this prohibition has been in place for more than twenty years and believes that it should be reexamined. Therefore, the committee directs the Secretary of the Navy to provide a report to the House Armed Services Committee, not later than September 30, 2018, regarding the real property containing the Naval Academy dairy farm. At minimum, the report shall address the current use and activities taking place on the property, an assessment of the continued need for the property to be retained by the Navy, and an evaluation of potential future uses for the property, including conveyance to a local county or municipality. In addition, the report should address how the Navy would continue supporting the functions and activities that benefit from the proceeds of current leases of the real property.

Operational Energy Technologies

The committee is aware of a variety of technologies that may improve operational flexibility, enhance logistics, and reduce supply lines for forces operating in deployed environments, to include the ability to convert natural gas to tactical fuels, improve power generation, distribution, and storage in deployed environments, and increase the range and capability of tactical vehicles. The committee is supportive of these efforts and encourages the Department of Defense to transition such natural gas to tactical fuel technologies from the research and development stage in support of operational requirements. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Armed Services Committee, not later than March 1, 2019, that outlines steps the Department is taking, to include resourcing and timelines for maturation of operational energy technologies, to transition such technologies to full scale demonstrations and commercial production.

Privatization of On-Base Lodging

The committee supports the ongoing efforts of the Secretary of Defense to make Department of Defense business operations more efficient. As the Secretary of Defense noted in his February 2017 Memorandum, this efficiency will free up resources to enable “a larger, more capable and more lethal Joint force.” One of the ways to accomplish this is to find savings in areas that may no longer merit individual military department approaches, particularly in non-core functions. To that end, the committee notes that the Army has privatized its on-base lodging operations and understands this effort has resulted in upgraded on-base lodging facilities, an improved experience for the military traveler, annual savings for the Army, and a self-sustaining lodging program. The committee is

aware that the Department is considering options to consolidate and privatize Navy and Air Force on-base lodging.

Therefore, the committee directs the Secretary of the Navy and the Secretary of the Air Force to provide a briefing to the House Committee on Armed Services, not later than March 1, 2019, on how the Navy and Air Force will ensure holistic sustainability and affordability of their lodging programs. At a minimum, the briefing shall include details on capital investment needs to correct facility configuration and capacity deficiencies, provision of adequate long-term sustainment of facilities, and the implementation of best practices that will maximize reductions in government manpower and operational costs for Navy and Air Force on-base lodging programs.

Relocation of Defense Non-Tactical Generator and Rail Equipment Center, Hill Air Force Base, Utah

The committee is aware of the Department of the Army's decision to relocate the Defense Non-Tactical Generator and Rail Equipment Center (DGRC) from Hill Air Force Base, Utah, to Anniston Army Depot, Alabama. The committee is also aware the Utah Department of Transportation plans to construct a new interchange at the current site of the DGRC and State funding is programmed in 2022. The committee understands that the Army, Air Force, and State of Utah must undertake a number of actions before the DGRC parcel may be transferred and encourages the Secretary of the Air Force to begin discussions as soon as practicable with the Utah Department of Transportation to ensure the orderly transfer of the property by 2022.

Furthermore, the committee directs the Secretary of the Army, in coordination with the Secretary of the Air Force, to submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than January 31, 2019, on the detailed plan for executing the relocation of the DGRC and all actions necessary to ultimately transfer property to the Utah Department of Transportation. The report shall provide a detailed plan and timeline to relocate this mission to Anniston Army Depot and all necessary construction or renovation of facilities at Anniston Army Depot. The report should also include all actions necessary to enable transfer of Air Force property on Hill Air Force Base to the Utah Department of Transportation, to include the demolition of facilities, the construction or renovation of facilities, environmental remediation required, funding programmed to facilitate the transfer of the property to the Utah Department of Transportation, and any constraints to the execution of the transfer of the property by 2022.

Wireless Communications on Base

The committee recognizes that some military installations are located in rural areas with limited wireless communications coverage. There are also installations that cover such a large amount of land that communications infrastructure outside the fence line is unable to provide consistent or optimal service to portions of the installation. The committee believes that wireless communications coverage on military installations not only provide valuable support for the quality of life for service members and their families, but

also can support military requirements related to force protection, logistics, training, or operations. The committee is aware that the Navy is considering using real estate agreements, such as easements and enhanced use leases, to allow commercial industry to develop communications infrastructure on its installations to improve service and connectivity. The committee is aware that the Army and Air Force have also expressed a desire to improve wireless communications capabilities on military installations but may not be taking the same approach as the Navy. Therefore, the committee directs the service secretaries to provide a briefing to the House Armed Services Committee, not later than September 30, 2018, on each of the military departments' requirements, plans, and timelines for improving communications coverage and capabilities on its installations.

Yucca Mountain

Pursuant to the Nuclear Waste Policy Act, the Department of Energy (DOE) plans to permanently dispose of high-level nuclear waste at Yucca Mountain, Nevada, located on DOE's Nevada National Security Site (NNSS), which would require transportation of nuclear waste to the repository. The committee has been briefed on DOE's proposed route to transport the waste to Yucca Mountain, and understands the route is located near DOE activities at NNSS and Department of Defense (DOD) activities at the Nevada Test and Training Range (NTTR). In 2017, Secretary of the Air Force Heather Wilson stated that, "if Yucca Mountain becomes a storage area it needs to operate without impacting the ability of the country to defend itself," and, "there is no route across the range that would not impact testing and training." Documents provided to the committee by the Air Force indicate that although the proposed route is located outside of the boundaries of NTTR, several sections of the route would border the range, and this siting of the rail line was confirmed in a DOE Record of Decision and Environmental Impact Statement.

The NTTR provides the largest air and ground military training space in the contiguous United States, free from commercial aircraft interference, and stores 75 percent of stateside Air Force live munitions. The NNSS provides DOE and other government agencies unique, high-hazard testing environments. Both facilities are national assets.

The committee directs the Secretary of Defense, in coordination with the Secretary of Energy, to submit a report to the congressional defense committees, not later than January 15, 2019, describing any impacts that the Yucca Mountain Project would have on DOD and DOE activities at NNSS, NTTR, and any other defense facilities in proximity to Yucca Mountain or the proposed transportation route.

LEGISLATIVE PROVISIONS

SUBTITLE A—MILITARY CONSTRUCTION PROGRAM AND MILITARY FAMILY HOUSING

Section 2801—Commercial Construction Standards for Facilities on Leased Property

This section would amend section 2667 of title 10, United States Code, to allow the use of commercial construction standards when a private developer is constructing facilities on military land for commercial use under an enhanced use lease agreement.

Section 2802—Extension of Temporary, Limited Authority To Use Operation and Maintenance Funds for Construction Projects Outside the United States

This section would provide continued authority for the Secretary of Defense to use funds appropriated for operation and maintenance for military construction to meet temporary operational requirements during a time of declared war, national emergency, or contingency operation through the end of fiscal year 2019.

Section 2803—Small Business Set-Aside for Contracts for Architectural and Engineering Services and Construction Design

This section would amend section 2855 of title 10, United States Code, to increase the threshold for small business set-asides for architectural and engineering services and construction design contracts from \$300,000 to \$1.0 million.

Section 2804—Authority To Obtain Architectural and Engineering Services and Construction Design for Defense Laboratory Modernization Program

This section would amend section 2803 of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) to clarify that the Secretary of the military department concerned may use amounts available for research, development, testing, and evaluation funding to obtain architectural and engineering services to carry out a construction project under this authority. This section would also extend the period of the Defense Laboratory Modernization Pilot Program until October 1, 2023.

Section 2805—Repeal of Limitation on Certain Guam Project

This section would amend section 2879 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) by repealing the requirement that the Secretary of the Navy award five military construction projects prior to awarding the “Replace Andersen Housing Phase II” project.

Section 2806—Enhancing Force Protection and Safety on Military Installations

This section would authorize the Secretaries of the military departments to carry out military construction projects to enhance force protection and safety on military installations. This section would require a notification to the congressional defense commit-

tees prior to obligating or expending funds to carry out a project under this authority.

Section 2807—Limitation on Use of Funds for Acquisition of
Furnished Energy for New Medical Center in Germany

This section would prohibit the Secretary of Defense or Secretary of any military department from using funds to enter into a contract for the acquisition of energy for the proposed Rhine Ordnance Barracks Army Medical Center until the Secretary of Defense submits certain certifications regarding the source of energy supply and the design of the medical center.

Section 2808—Treatment of Leases of Non-Excess Property
Entered Into With Insured Depository Institutions

This section would amend section 2667 of title 10, United States Code, to direct the Secretary concerned to accept financial services provided by an insured depository institution to service members and employees of the Department of Defense as sufficient in-kind consideration to cover all lease, services, and utilities costs assessed with regard to the leased property.

SUBTITLE B—REAL PROPERTY AND FACILITIES ADMINISTRATION

Section 2811—Optional Participation in Collection of Information
on Unutilized and Underutilized Military Installation Properties
Available for Homeless Assistance

This provision would amend section 11411 of title 42, United States Code, to provide the Department of Defense discretion on the reporting of surplus facilities for possible assistance for the homeless. Since most facilities owned by the Department require credentialed access, few if any facilities have been transferred for adaptive reuse by homeless organizations.

Section 2812—Force Structure Plans and Infrastructure
Capabilities Necessary To Support the Force Structure

This section would require the Secretary of Defense to submit a force structure plan for each military service not later than February 3, 2021, accompanied by a categorical model of installation capabilities required to support force structure and an assessment of the adequacy of the Department of Defense's existing infrastructure inventory to support force structure plans.

Section 2813—Retrofitting Existing Windows in Military Family
Housing Units To Be Equipped With Fall Prevention Devices

This section would amend section 2879 of title 10, United States Code, to authorize the Secretaries of the military departments to create a grant program from which privatized housing entities and military installations may request funds to retrofit or install window fall prevention devices in privatized and military-owned housing.

Section 2814—Updating Prohibition on Use of Certain Assessment of Public Schools on Department of Defense Installations to Supersede Funding of Certain Projects

This section would freeze a portion of the Public Schools on Military Installations List required in the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) to ensure that the original top 38 schools do not lose priority due to any reassessment.

SUBTITLE C—LAND CONVEYANCES

Section 2821—Authority for Transfer of Administrative Jurisdiction Over Certain Lands, Marine Corps Air Ground Combat Center Twentynine Palms, California, and Marine Corps Air Station Yuma, Arizona

This section would authorize the Secretary of the Navy to transfer acquired State and privately owned lands to the Secretary of the Interior for inclusion as public lands withdrawn and reserved by section 2941 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66). This section would also allow the Secretary of the Interior to transfer certain parcels of land at Marine Corps Air Station Yuma to the Secretary of the Navy.

Section 2822—Public Inventory of Guam Land Parcels for Transfer to Government of Guam

This section would require the Secretary of the Navy to establish, maintain, and regularly update an inventory of real property located on Guam owned by the U.S. Government and administered by the Department of the Navy which the Secretary of the Navy expects to transfer to the Government of Guam. Such inventory shall be available online and accessible to the public and include specific information about each parcel of land included in the inventory. This section would also establish a formal process for the Governor of Guam to petition the Secretary of the Navy to add parcels to the inventory.

Section 2823—Land Conveyance, Naval Academy Dairy Farm, Gambrills, Maryland

This section would authorize conveyance of 40 acres of land from the United States Naval Academy Dairy Farm to Anne Arundel County, Maryland, contingent on certain conditions and considerations.

Section 2824—Technical Correction of Description of Limestone Hills Training Area Land Withdrawal and Reservation, Montana

This section would amend section 2931 of the Military Construction Authorization Act for Fiscal Year 2014 (division B of Public Law 113–66) to adjust the acreage of withdrawn public land in Broadwater County, Montana.

Section 2825—Land Conveyance, Wasatch-Cache National Forest,
Rich County, Utah

This section would direct the Secretary of Agriculture to transfer ownership of 80 acres of public land to the Utah State University Research Foundation, a 501(c)(3) non-profit.

SUBTITLE D—MILITARY LAND WITHDRAWALS

Section 2831—Indefinite Duration of Certain Military Land Withdrawals and Reservations and Improved Management of Withdrawn and Reserved Lands

This section would amend statutory authority for several military land withdrawals to extend the withdrawals indefinitely. This section would also amend section 670a of title 16, United States Code, to require the Secretary of the Interior and the concerned Secretary of a military department to continuously review such withdrawals and would establish a public comment process regarding the resource management plans and military use of such lands.

Section 2832—Designation of Potential Wilderness Area

This section would allow the Secretary of the Interior to permit a microwave communications site on one acre of land within a federally protected wilderness area.

SUBTITLE E—OTHER MATTERS

Section 2841—Defense Community Infrastructure Program

This section would amend section 2391 of title 10, United States Code, to authorize the Secretary of Defense to make grants, conclude cooperative agreements, and supplement funds available under other Federal programs to assist States and local governments in addressing deficiencies in community infrastructure projects or facilities which are located outside of military installations but which support military installations.

Section 2842—Restrictions on Use of Funds for Development of Public Infrastructure in Commonwealth of Northern Mariana Islands

This section would require the Secretary of Defense to convene an Economic Adjustment Committee meeting and describe assistance necessary to support changes in Department of Defense activities in the Commonwealth of the Northern Mariana Islands in a report to the congressional defense committees. This section would also prohibit the Department of Defense from carrying out any grant, transfer, cooperative agreement, or supplemental funding that will result in the development of public infrastructure unless such project is included in the Economic Adjustment Committee report and specifically authorized by law.

Section 2843—Study and Report on Coleman Bridge, York River,
Virginia

This section would require the Commander, U.S. Transportation Command, to review the feasibility of including the George P. Cole-

man Memorial Bridge near Naval Weapons Station, Yorktown, Virginia, in the Strategic Highways Network and to report his findings to the congressional defense committees not later than 180 days after the date of the enactment of this Act.

Section 2844—Certifications Required Prior to Transfer of Certain Veterans Memorial Object

This section would amend section 2864 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91); it would provide language clarifying the certification requirement and require a report prior to the return of certain veterans memorial objects.

TITLE XXIX—OVERSEAS CONTINGENCY OPERATIONS MILITARY CONSTRUCTION

SUMMARY

The budget request contained \$921,420,000 for Overseas Contingency Operations military construction for fiscal year 2019. The committee recommends authorization of appropriations of \$921,420,000 for Overseas Contingency Operations military construction for fiscal year 2019.

ITEMS OF SPECIAL INTEREST

EXPLANATION OF FUNDING ADJUSTMENTS

The committee recommends reduction of funding for a project contained in the Overseas Contingency Operations budget request submitted by the Department of Defense for military construction. This reduction is:

(1) \$69.0 million for a High Value Detention Facility at Guantanamo Bay, Cuba. The Department of Defense did not provide the committee sufficient justification for the need to construct a new, permanent facility with increased capacity and capabilities. In addition, the committee notes that while the current facility may not be ideally configured, it is still capable of meeting current and foreseeable detention requirements. Therefore, the committee recommends no funds, a reduction of \$69.0 million, for this project.

As noted earlier in this report, the committee recommended a reduction in funding for several projects included in the base budget request in order to transfer them to the Overseas Contingency Operations title of this Act. Therefore, the committee recommends a commensurate increase in the Overseas Contingency Operations account to support these projects. Specifically, these projects include:

(1) \$40.0 million for a Personnel Deployment Processing facility at Al Udeid, Qatar; and

(2) \$30.4 million for Flightline Support facilities at Al Udeid, Qatar.

LEGISLATIVE PROVISIONS

Section 2901—Authorized Army Construction and Land Acquisition Projects

This section would contain the list of certain authorized Army construction projects for fiscal year 2019. These projects represent a binding list of the specific projects authorized at these locations.

Section 2902—Authorized Navy Construction and Land Acquisition Projects

This section would contain the list of authorized Navy construction projects for fiscal year 2019. These projects represent a binding list of the specific projects authorized at these locations.

Section 2903—Authorized Air Force Construction and Land Acquisition Projects

This section would contain the list of certain authorized Air Force construction projects for fiscal year 2019. These projects represent a binding list of the specific projects authorized at these locations.

Section 2904—Authorized Defense Agencies Construction and Land Acquisition Projects

This section would contain the list of authorized defense agencies' construction projects for fiscal year 2019. These projects represent a binding list of the specific projects authorized at these locations.

Section 2905—Authorization of Appropriations

This section would authorize appropriations for Overseas Contingency Operations military construction at the levels identified in section 4602 of division D.

Section 2906—Restrictions on Use of Funds for Planning and Design Costs of European Deterrence Initiative Projects

This section would limit the ability of the secretaries concerned from using any of the amounts authorized to be appropriated for planning and design of military construction projects requested under the European Deterrence Initiative until the Secretary of Defense submits a list of the military construction projects to support the European Deterrence Initiative that are anticipated during fiscal year 2019 and at least the four succeeding fiscal years. The committee notes its support for the European Deterrence Initiative and the military construction program that supports it. However, the committee believes that it is important for Congress to have a clear understanding of the overall military construction plan for Europe and the construction projects that will be supported with this planning and design funding.

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

OVERVIEW

The budget request for fiscal year 2019 contained \$21.60 billion for atomic energy defense activities. The committee recommends \$21.96 billion, an increase of \$357.0 million to the budget request.

ITEMS OF SPECIAL INTEREST

NATIONAL NUCLEAR SECURITY ADMINISTRATION

Overview

The budget request for fiscal year 2019 contained \$15.09 billion for the programs of the National Nuclear Security Administration. The committee recommends \$15.40 billion, an increase of \$307.0 million to the budget request.

Weapons Activities

Defense Nuclear Security and related construction projects

The budget request contained \$690.6 million for Defense Nuclear Security at the National Nuclear Security Administration (NNSA). This funding supports day-to-day security operations across the nuclear security enterprise, as well as sustainment and recapitalization of physical security infrastructure and equipment. This does not include certain major line item construction projects that would result in significant security improvements.

The committee continues to emphasize the need for sustained and focused NNSA and Department of Energy leadership attention on physical security efforts within the nuclear security enterprise. The security certifications required by section 2657 of title 50, United States Code, were intended to ensure the Administrator for Nuclear Security and the Secretary of Energy focus significant personal attention on the issue and are accountable for both progress and problems. Further, the congressionally mandated Center for Security Technology, Analysis, Response, and Testing, the Security Management Improvement Plan, and Security Infrastructure Revitalization Program have helped provide a solid knowledge base of physical security expertise and clear direction for a program that must be continuously vigilant and improving. The committee commends these steps, but continues to seek further progress on two major line item construction projects that will support both improved security and accomplishment of NNSA's mission deliverables: the West End Protected Area Reduction Project at the Y-12 National Security Complex, and the Material Staging Facility at the Pantex Plant.

The committee recommends \$701.6 million for Defense Nuclear Security, an increase of \$11.0 million to the budget request, \$9.0

million for the West End Protected Area Reduction project, and \$24.0 million for the Material Staging Facility.

Directed Stockpile Work

The budget request included \$4.67 billion for Directed Stockpile Work (DSW), including life extension programs (LEP) and major alterations, stockpile systems, stockpile services, and strategic materials. The committee continues to believe the National Nuclear Security Administration (NNSA) must emphasize these programs and capabilities that directly support and enable NNSA's deliverables to the Department of Defense.

The W76-1 LEP will soon complete production and its successful delivery to the Navy is a notable achievement. This weapon will soon comprise approximately 70 percent of the nation's operationally deployed strategic warheads. Production engineering on the B61-12 LEP continues, and the committee will closely oversee capacity and throughput challenges to ensure it stays on track for delivery of a first production unit and associated capabilities by December 2019. This weapon will be both a tangible and credible extended deterrent for U.S. allies, as well as form an important component of the United States' own strategic deterrent. The W88 ALT 370, with its refresh of components and high explosives, will produce a modernized warhead that will ensure its reliability for decades. And the W80-4 LEP will produce a warhead for the future long-range standoff (LRSO) cruise missile, which supports the air leg of the strategic triad. The committee will continue to track alignment between the W80-4 LEP and the LRSO program itself. Finally, the W76-2 program will produce a lower-yield submarine-launched ballistic missile warhead, as proposed by the 2018 Nuclear Posture Review. Aligning initial production of the W76-2 with the end of production of the W76-1 will help minimize costs and ensure timely production and deployment.

The committee recommends \$4.66 billion for Directed Stockpile Work, a decrease of \$8.0 million to the budget request.

Domestic uranium

The committee understands that recent market trends, foreign competition, and other factors have had significant negative impacts on the nation's domestic uranium industry. For instance, the domestic uranium mining industry has diminished such that in recent years domestic suppliers provide less than 5 percent of U.S. demand for uranium. Additionally, all domestically owned uranium enrichment facilities have been closed.

The National Nuclear Security Administration (NNSA) is conducting an analysis of alternatives (AOA), due for completion in 2020, regarding if and how to reconstitute a domestic uranium enrichment capability for national security purposes. In its review of NNSA's AOA guidance, the Comptroller General of the United States found that NNSA's mission needs statement was limited in scope, showed preference toward a particular solution, and did not include the potential for enrichment facilities that meet multiple mission needs beyond just tritium production. The Comptroller General also found that NNSA's cost estimates for two potential enrichment technologies, which ranged from \$3.8 billion to \$14.0 billion depending on the technology and assumptions, only partially

or minimally met best practice standards for being comprehensive, credible, well-documented, and accurate.

The committee also notes that policy changes must be considered as part of the AOA, including changes that would enable the current supply of unobligated fuel to last longer and changes that would revise domestic policies or international agreements regarding limitations on the use of obligated fuel. The committee believes this AOA must be comprehensive and data-driven, and expects NNSA to update the mission needs statement and AOA guidance to address the Government Accountability Office's recommendations.

While the AOA is underway, the committee believes NNSA must be mindful of ensuring U.S. technical expertise for uranium does not atrophy and that both mature and less-mature technology options continue to be advanced. The committee also believes NNSA and the wider Federal Government must be mindful of any short- or long-term implications for national security if the domestic uranium industry as a whole is moribund.

To enable its oversight of these issues, the committee directs the Administrator for Nuclear Security, in consultation with appropriate officials from the Department of Energy and other agencies, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by November 30, 2018, on the state of the domestic uranium industry in general, its impacts on national security, and the status of NNSA's ongoing analysis of alternatives related to domestic uranium enrichment. Such briefing should include:

(1) an assessment of commercial market trends, Department of Energy excess uranium sales, Federal regulations and policies, enrichment capacity, and foreign imports;

(2) details on how NNSA is sustaining technical expertise in domestically owned uranium enrichment technologies while its analysis of alternatives is ongoing and no domestically owned source of enriched uranium is operational;

(3) NNSA's plans to revise and clarify the mission needs statement, as recommended by the Comptroller General;

(4) how NNSA intends to consider a comprehensive range of options in the AOA, including policy changes such as reexamining the mixture of obligated and unobligated fuel used in reactors in proportion to tritium production and energy production, and revisions regarding limitations on the use of obligated fuel;

(5) how NNSA will ensure that cost estimates of all options are consistent with best practices, and how the cost estimates are aligned with the updated scope of need.

Fusion technology pathways

The committee is aware of several different paths that may, some day, lead to viable fusion-based energy production and believes such a breakthrough would have extraordinary implications for energy security, national security, and the world in general. The committee is also cognizant that fusion-based energy production has been a long-sought outcome of the high energy density physics community, but has yet to yield anticipated results. The committee understands that tokamak technology is of particular interest in the

scientific community for its potential to achieve viability for fusion energy production.

To better understand the state of science and technology development in this field, the committee directs the Administrator for Nuclear Security, in coordination with the directors of appropriate national laboratories and appropriate officials of the Department of Energy, to provide a briefing to the Committee on Armed Services of the House of Representatives by February 1, 2019, on fusion energy technology development. Such briefing should review and assess all potential fusion technology paths, particularly technologies related to the tokamaks and the use of divertor test facilities to better understand remaining challenges for dealing with hot plasma exhaust. In addition, the briefing should assess fusion technology paths, their viability as a potential future power source, remaining risks and challenges associated with such technologies, any complementary research and development that is needed or ongoing, any implications of such research and technologies for the programs of the National Nuclear Security Administration, and any other matters the Administrator determines appropriate to enhance the committee's oversight and understanding.

Inertial Confinement Fusion

The budget request included \$418.9 million for the Inertial Confinement Fusion (ICF) Ignition and High Yield program at the National Nuclear Security Administration (NNSA).

In the absence of nuclear explosive testing, this program provides for specialized expertise and unique facilities to better understand high energy density science and the operation of nuclear weapons. The budget request proposed a significant decrease in funding for ICF, including initiation of "a three-year ramp-down in NNSA's financial commitment to . . . the Omega Laser Facility, resulting in the cessation of the financial assistance agreement," and reductions in funding for both ignition and non-ignition experiments at the National Ignition Facility.

The committee is encouraged by NNSA's proposal to rebalance and prioritize funding for programs and capabilities that directly support NNSA's deliverables to the Department of Defense, recapitalize NNSA's aging infrastructure, and prepare for an uncertain future. The committee also notes that the ICF program has, so far, failed to achieve fusion ignition, an outcome that was long-promised on specific timelines. However, the committee also believes that NNSA must carefully consider the impacts of its deep proposed reduction to the ICF program, particularly on the long-term pipeline of expertise and the sustainment of unique capabilities upon which certification of the U.S. nuclear stockpile has depended since the cessation of nuclear explosive testing.

To better understand these impacts and deliverables, the committee directs the Administrator for Nuclear Security to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by September 1, 2018, on NNSA's plans for the ICF program. Such briefing should include the impacts of the proposed budget reductions, any risks and risk mitigation options, the sustainability of facilities and infrastructure related to the ICF program, plans for maintaining a robust pipeline of experts in high energy density science and ICF at NNSA, clear

criteria and milestones for measuring ICF program performance against measurable goals, an evaluation of ICF lines of efforts against stated goals, and such other matters as the Administrator determines relevant.

The committee recommends \$467.9 million, an increase of \$49.0 million, for the ICF program.

Infrastructure

The budget request includes \$540.7 million for Recapitalization and \$365.0 million for Maintenance and Repair of Facilities. These programs fund efforts to reduce the large backlog of deferred maintenance across the nuclear security enterprise and preventative maintenance activities. Combined, these programs and the large line item construction projects are critical to arresting and reversing the declining state of the National Nuclear Security Administration's (NNSA) infrastructure.

Section 3111 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91) directed the Administrator for Nuclear Security to establish the Infrastructure Modernization Initiative (IMI) with a goal of reducing the backlog of deferred maintenance and repair needs at NNSA by 30 percent by 2025. The committee believes that achieving this goal is critical to accomplishing NNSA's national security mission and to the safety and well-being of NNSA's workforce. Section 3111 and section 3119 of Public Law 115–91 also provided the Administrator new and enhanced statutory authorities to accelerate and streamline action on these infrastructure problems. The committee agrees with NNSA's view that infrastructure risk is becoming safety risk and mission risk and will closely monitor NNSA's progress in implementing the IMI and leveraging its associated authorities. The committee continues to note the importance of adequately resourcing preventative and sustaining maintenance to extend the life and increase the safety of its facilities. The committee encourages the Administrator to work closely with Congress as it prepares and executes the long-term NNSA infrastructure strategy.

The committee recommends \$611.7 million for Recapitalization, an increase of \$71.0 million to the budget request, and \$404.0 million for Maintenance and Repair of Facilities, an increase of \$39.0 million to the budget request.

Lithium and tritium

The committee continues to conduct oversight of the National Nuclear Security Administration's (NNSA) approach to managing and ensuring a sustainable supply of key strategic materials, and recognizes NNSA's efforts to bring coherency and stability to what were previously scattered and decentralized efforts. The committee believes that a clear, long-term plan to ensure access to these materials is important for the credibility of the nuclear deterrent.

Although NNSA's plans for all of its strategic materials would benefit from further clarification and refinement, the committee in particular desires increased detail and clarity on NNSA's plans with regard to tritium and lithium. As the Nuclear Posture Review (NPR) states, "U.S. production of tritium . . . is now insufficient to meet the forthcoming U.S. nuclear force sustainment demands, or to hedge against unforeseen developments. Programs are planned,

but not yet fully funded, to ease these critical production shortfalls.” And as the NPR states with regards to lithium: “The U.S. is also unable to produce or process a number of other critical materials, including lithium . . . For instance, the United States largely relies on dismantling retired warheads to recover lithium to sustain and produce deployable warheads. This may be inadequate to support the nuclear force replacement program and any supplements to it.”

The committee therefore directs the Administrator for Nuclear Security to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by November 1, 2018, on NNSA’s plans to meet near- and long-term requirements for tritium and lithium. Such briefing should include the requirements, the options and plans to meet such requirements, costs associated with these options and plans, and the status of any actions underway.

Report on IW-1 and W78 replacement

The committee notes that the recent Nuclear Posture Review (NPR) proposes “advancing the W78 warhead replacement one year to FY19 to support fielding on [the] Ground Based Strategic Deterrent (GBSD) by 2030.” The NPR also discusses “exploring future ballistic missile warhead requirements based on the threats and vulnerabilities of potential adversaries, including the possibility of common reentry systems between the Air Force and Navy,” but does not directly mention the Interoperable Warhead-1 (IW-1) program.

However, the fiscal year 2019 budget request for the National Nuclear Security Administration includes \$53.0 million for the IW-1 restart of the Phase 6.2 work (Feasibility Study & Design Options) on this program. The budget request justification materials further say that the IW-1 program “will replace the W78 warhead by 2030 and support fielding of the U.S. Air Force GBSD missile system planned to replace the current Minuteman III ICBM force. Additionally, the program will investigate the feasibility of deploying the replacement warhead’s nuclear explosive package in a US Navy flight body.”

To clarify and better understand the direction of this program, the committee directs the Administrator for Nuclear Security, in coordination with the Chairman of the Nuclear Weapons Council, to provide a report to the congressional defense committees no later than January 15, 2019, on the status of the W78 replacement, also referenced as the IW-1 program. Specifically, the report should include, since deferral of the program or due to the NPR, any changes in requirements, program plans and schedules, assumptions, and options and designs being considered or that are preferred.

Secure transportation asset and Mobile Guardian Transporter

The budget request includes \$278.6 million for the National Nuclear Security Administration’s (NNSA) Secure Transportation Asset. Run by the NNSA Office of Secure Transportation, this program provides for the safe and secure transportation of nuclear weapons, weapons components, and special nuclear materials.

Within this amount, \$51.8 million was requested to continue development of the Mobile Guardian Transporter (MGT) program, which is developing and procuring new highly-secure trailers to replace existing Safeguards Transporter (SGT) trailers that are nearing the end of their 20-year service life. The committee understands that several SGTs are beginning to show signs of significant rusting and structural degradation in key locations, that mitigation of this issue is not cost effective, and that at least one SGT has been removed from the fleet earlier than planned due to this problem.

The committee is concerned that this issue, or similar unexpected issues, if widespread, could undermine NNSA's planned risk reduction effort to keep a portion of the SGT fleet in operation beyond their 20-year service life while MGT is developed. Coupled with NNSA's reduction in its planned fiscal year 2019 budget request for MGT, NNSA's ability to meet surging transportation requirements in the 2020s could be at risk. The committee will oversee the SGT risk reduction effort, the MGT development and prototyping effort, and the Secure Transportation more broadly to track these important efforts.

The committee recommends \$278.6 million for the Secure Transportation Asset, the amount of the budget request.

Streamlined and innovative approaches to non-nuclear construction projects

Section 3111 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) created the Infrastructure Modernization Initiative (IMI) at the National Nuclear Security Administration (NNSA) to accelerate and streamline efforts to reduce the large backlog of deferred maintenance and repair needs across the infrastructure of the nuclear security enterprise. As part of IMI, the Secretary of Energy is required to provide an enhanced and streamlined process to the Administrator for Nuclear Security to construct and demolish non-nuclear facilities that cost less than \$100.0 million.

The committee continues to endorse and encourage efforts of the Department of Energy (DOE) and NNSA to streamline approaches and processes related to constructing these types of facilities using commercial standards and best practices, as well as efforts to employ innovative approaches. For example, new office buildings, light laboratories, fire stations, and emergency operations centers currently being planned at sites across the nuclear enterprise may be constructed at less cost and more quickly if streamlined, commercially-based, or more innovative approaches are utilized.

The committee believes continued focus and action is needed. Therefore, the committee directs the Administrator for Nuclear Security to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by January 15, 2019, on the actions taken by NNSA and DOE to implement the IMI, and in particular to carry out a streamlined process to construct or demolish non-nuclear facilities costing less than \$100.0 million. Such briefing should include options for further streamlining and accelerating associated processes (while retaining applicable safety standards), identification of any innovative approaches

or pilot programs to accelerate construction of such facilities, and such other matters as the Administrator determines appropriate.

Weapons Activities and the Future Years Nuclear Security Program

The budget request contained \$11.02 billion for the Weapons Activities of the National Nuclear Security Administration (NNSA). These programs support NNSA's central mission of ensuring and sustaining the safety, security, reliability, and credibility of the U.S. nuclear weapon stockpile.

In previous years, the committee has highlighted the comments of senior administration and military officials that have expressed concern that NNSA's 5-year, Future Years Nuclear Security Program (FYNSP) budget profile was inadequate to meet NNSA's programmatic needs. The committee believes NNSA has taken noteworthy steps in this regard within its recent budget requests and the FYNSP submitted to Congress with the budget request for fiscal year 2019. Recent increases have made significant strides to address the inadequacy in NNSA funding identified by the Secretary of Energy in a December 23, 2015, letter to the Director of the White House Office of Management and Budget, which said NNSA's 5-year, Future Years Nuclear Security Program budget profile, "does not reflect the funding that we estimate is necessary to meet [NNSA] requirements over the period . . . we estimate that an additional \$5.2 billion over FY2018–2021 is needed to establish a viable and sustainable program portfolio."

Elsewhere in this title, the committee discusses its recommendations for increased funding and prioritization for several programs within Weapons Activities, including for infrastructure, defense nuclear security, and inertial confinement fusion.

The committee recommends \$11.22 billion for Weapons Activities, an increase of \$198.0 million to the budget request.

Defense Nuclear Nonproliferation

Future nuclear proliferation challenges

The committee continues to focus on the challenges associated with the detection, evaluation, and response to emerging nuclear threats, including emerging technologies that could lead to technological surprise. Recent advancements in materials, manufacturing, computing, and cyber interconnectivity indicate that robust efforts are needed to identify and develop solutions to ensure the United States can continue to reliably detect, define, deter, delay, deny, and defeat these threats.

The committee therefore directs the Administrator for Nuclear Security, in coordination with the directors of relevant national security laboratories, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by November 15, 2018, on emerging nuclear proliferation threats and the state of our capabilities to address these threats. Such briefing should include options for novel solutions to meet these challenging threats, leverage on-going efforts within the national security laboratories, and include an estimate of the resources required to respond effectively and stay ahead of any emerging threats.

Nuclear Counterterrorism and Incident Response program

The budget request contained \$319.2 million for the Nuclear Counterterrorism and Incident Response program of the National Nuclear Security Administration (NNSA). This program is responsible for countering nuclear threats, responding to nuclear incidents worldwide, and providing for the Department of Energy's emergency management capability.

The committee continues to highlight the importance and value of these programs that leverage the unique capabilities and knowledge at NNSA's laboratories for national-level response efforts. Though a smaller and often-overlooked part of NNSA's portfolio of responsibilities, the personnel within this program ensure the nation's warfighters and first responders are able to detect, evaluate, and take decisive and technically informed action against all types of nuclear threats and incidents.

The budget request includes \$32.5 million to procure three fixed-wing Aerial Measuring System (AMS) aircraft in fiscal year 2019. These aircraft will replace antiquated and increasingly difficult to sustain aircraft, and provide NNSA enhanced capability to support national and international events involving radiological releases. Based on the completed analysis of alternatives for AMS, the committee supports this recapitalization.

The committee recommends \$319.2 million, the amount of the budget request, for the Nuclear Counterterrorism and Incident Response program.

Naval Reactors

Naval Reactors program

The budget request contained \$1.79 billion for the Naval Reactors program. Naval Reactors is responsible for all aspects of naval nuclear propulsion efforts, including reactor plant technology design and development, reactor plant operation and maintenance, and reactor retirement and disposal. The program ensures the safe and reliable operation of reactor plants in nuclear-powered submarines and aircraft carriers that comprise over 45 percent of the Navy's major combatants.

The committee has long been supportive of the Naval Reactors program and believes it is an exceptional example of a nuclear-related government program that is mission-driven, safety-focused, and well-managed. Due to this success, the committee will continue to have very high expectations for performance by Naval Reactors, particularly as it develops and delivers the life-of-ship reactor for the Columbia-class submarines. The committee is encouraged by the strong actions taken by Naval Reactors to address a manufacturing problem with the prototype electric-drive motor for the Columbia class but is mindful that there is no schedule margin remaining for delivering this prototype, the reactor, and the Columbia itself. The committee notes that, as work on the Columbia-class Reactor System Development program ramps down over the 5-year Future Years Nuclear Security Program, Naval Reactors is planning increases in its Naval Reactors Development funding. The committee expects Naval Reactors to more clearly justify these proposed increases within future budget requests.

The budget request includes a significant, long-planned increase in funding for Naval Reactors to begin construction of the Spent Fuel Handling Recapitalization Project in Idaho and refueling of the S8G land-based prototype reactor in New York. The committee appreciates Naval Reactors' transparency and adherence to its planned budget profile.

The committee recommends \$1.79 billion for the Naval Reactors program, the amount of the budget request.

Federal Salaries and Expenses

Management and operating contracts for national security laboratories

The committee notes that the National Nuclear Security Administration (NNSA) continues to implement its plans to compete its large management and operating (M&O) contracts for running the laboratories and plants of the nuclear security enterprise. The committee has long conducted oversight of these plans to ensure the costs and benefits of the M&O contract competitions and overall contracting strategy are appropriately weighed. Last year, the committee included section 3138 in the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) to continue this oversight and require an independent organization to review NNSA's contracting strategy. Among other matters, this review is required to assess the current for-profit contracting model for NNSA's nuclear security laboratories.

The committee is aware that the State of New Mexico recently considered legislation that would require NNSA and its M&O laboratory contractors to continue paying certain State taxes as a for-profit entity, even if the M&O contract is awarded to a non-profit entity. The committee cautions that such an approach may be counterproductive and inappropriately interfere with the Federal Government's ability to manage its national security laboratories to provide maximum value and benefit to national security and U.S. taxpayers. The committee understands the important role that these laboratories play in their local communities and States, and highlights other means, such as payments in lieu of taxes, that the Federal Government may leverage to support such local communities.

Security clearance investigations for the nuclear security enterprise

The committee notes that, while the Office of Personnel Management (OPM) has undertaken significant steps to improve the security clearance investigation process, the backlog of security clearance investigations continues to prevent the Federal Government, including the National Nuclear Security Administration's (NNSA) nuclear security enterprise, from hiring qualified personnel in a timely manner. This problem is particularly acute for NNSA as elements of the nuclear security enterprise continue to execute robust hiring plans to support the increased workload associated with the nation's nuclear modernization program. In a recent report on the state of the nuclear weapons stockpile, the director of one of national security laboratories highlighted this challenge, saying that for his laboratory, "1,011 staff were hired in 2016, and about 1,000 new hires are expected by the end of 2017. This hiring rate is ex-

pected to continue . . . However, technical mentoring, particularly by experienced senior staff who are on the verge of retiring, is virtually impossible if newly hired staff are unable to obtain a security clearance in a timely manner.” The director further noted that 1,300 DOE “Q” clearances were awaiting approval.

The committee understands the complexity of this issue and continues to seek solutions that enable a robust background review but also timely completion. To enhance its oversight, the committee directs the Administrator for Nuclear Security, in consultation with the Director of the Office of Personnel Management, to provide a briefing to the Committees on Armed Services of the Senate and the House of Representatives by December 1, 2018, on efforts to streamline and improve the security clearance investigation and adjudication process for the nuclear security enterprise. Such briefing should include actions taken by NNSA and OPM, any planned actions, options for future action, and any recommendations of the Administrator regarding statutory changes or other Congressional action.

ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

Overview

The budget request for fiscal year 2019 contained \$6.51 billion for environmental and other defense activities. The committee recommends \$6.56 billion, an increase of \$50.0 million to the budget request.

Defense Environmental Cleanup

Briefings on vapor events at Hanford Site

The committee is concerned about the continuing reports of toxic vapors emanating from nuclear waste tanks at the Hanford Site being inhaled by workers. Over the past several years, many workers have reported suspicious odors and subsequent health effects. The committee notes that additional protective measures and guidance have been implemented at the site, but that reported events continue. The committee therefore directs the Secretary of Energy, acting through the Assistant Secretary of Energy for Environmental Management, to provide semiannual briefings to the Committee on Armed Services of the House of Representatives, starting on August 31, 2018, and continuing during fiscal year 2019, on waste tank vapor incidents at the Hanford Site. Such briefings should include details on recent vapor inhalation events, any technical data regarding the vapors, any health problems caused by the vapors, mitigation measures in place to protect workers from the vapors, engineered or administrative controls being considered to prevent such events, and any other information the Secretary determines to be relevant.

LEGISLATIVE PROVISIONS

SUBTITLE A—NATIONAL SECURITY PROGRAMS AND AUTHORIZATIONS

Section 3101—National Nuclear Security Administration

This section would authorize appropriations for the National Nuclear Security Administration for fiscal year 2019, including funds for weapons activities, defense nuclear nonproliferation programs, naval reactor programs, and Federal Salaries and Expenses, at the levels specified in the funding table in division D of this Act.

This section would also authorize several new plant projects for the National Nuclear Security Administration.

Section 3102—Defense Environmental Cleanup

This section would authorize appropriations for defense environmental cleanup activities for fiscal year 2019 at the levels specified in the funding table in division D of this Act.

Section 3103—Other Defense Activities

This section would authorize appropriations for Other Defense Activities for the Department of Energy for fiscal year 2019 at the levels specified in the funding table in division D of this Act.

Section 3104—Nuclear Energy

This section would authorize appropriations for certain nuclear energy programs for the Department of Energy for fiscal year 2019 at the levels specified in the funding table in division D of this Act.

SUBTITLE B—PROGRAM AUTHORIZATIONS, RESTRICTIONS, AND LIMITATIONS

Section 3111—Security Clearance for Dual Nationals Employed by National Nuclear Security Agency

This section would authorize the Secretary of Energy to apply additional security reviews to dual citizens seeking positions that require access to highly classified information. The committee expects that any additional security reviews will not further exacerbate background investigation backlogs.

Section 3112—Department of Energy Counterintelligence Polygraph Program

This section would amend section 4504b of the Atomic Energy Defense Act (50 U.S.C 2654b) by authorizing the Secretary of Energy to add dual citizens to the Department of Energy counterintelligence polygraph program, for the purposes of assessing risk.

Section 3113—Extension of Enhanced Procurement Authority To Manage Supply Chain Risk

This section would extend the authority provided by section 2786 of title 50, U.S. Code, for an additional 5 years, to June 30, 2023. This authority enables the Secretary of Energy to take certain procurement actions to help protect the supply chain for certain crit-

ical national security technologies. This section would also make a technical correction to section 2786 of title 50, U.S. Code.

Section 3114—Low-Yield Nuclear Weapons

This section would repeal section 3116 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108–136) related to low-yield nuclear weapons. This section would also authorize the Secretary of Energy, acting through the Administrator for Nuclear Security, to carry out the engineering development phase, and any subsequent phase, to modify or develop a low-yield nuclear warhead for submarine-launched ballistic missiles.

Section 3115—Use of Funds for Construction and Project Support Activities Relating to MOX Facility

This section would require the Secretary of Energy to carry out construction and project support activities relating to the Mixed Oxide Fuel Fabrication Facility with any funds authorized to be appropriated by this Act or otherwise made available for such purposes for fiscal year 2019. The Secretary would be allowed to waive this requirement if the Secretary submits to the congressional defense committees the matters described under section 3121(b)(1) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91).

Section 3116—Prohibition on Availability of Funds for Programs in Russian Federation

This section would provide that none of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2019 for atomic energy defense activities may be obligated or expended to enter into a contract with, or otherwise provide assistance to, the Russian Federation. The Secretary of Energy, without delegation, would be provided the authority to waive this prohibition if the Secretary determines, in writing, that a nuclear-related threat in Russia must be addressed urgently and that it is necessary to waive the prohibition to address that threat. The waiver could only be used if the Secretary of State and the Secretary of Defense concur in that determination, and the Secretary of Energy submits a report to the appropriate congressional committees containing notification that such waiver is in the national security interest of the United States, a justification for such waiver, a description of the activities to be carried out pursuant to the waiver, and a period of 7 days elapses. The prohibition and waiver contained in this section would not apply to up to \$3.0 million that the Secretary of Energy may make available for the Department of Energy's Russian Health Studies Program.

Section 3117—Prohibition on Availability of Funds for Research and Development of Advanced Naval Nuclear Fuel System Based on Low-Enriched Uranium

This section would prohibit any funds authorized to be appropriated by this Act for fiscal year 2019 or otherwise made available to the Department of Energy or the Department of Defense from being obligated or expended to plan or carry out research and de-

velopment of an advanced naval nuclear fuel system based on low-enriched uranium. The section would provide an exception to this prohibition and require that, in accordance with section 7319 of title 10, United States Code, that \$10.0 million of the funds authorized for defense nuclear nonproliferation within the National Nuclear Security Administration's atomic energy defense activities shall be made available to the Deputy Administrator for Naval Reactors for low-enriched uranium activities.

Section 3118—Limitation on Availability of Funds Relating to Submission of Annual Reports on Unfunded Priorities

This section would amend section 4716 of the Atomic Energy Defense Act (50 U.S.C. 2756) to provide that, for any of fiscal years 2020 through 2024 in which the Administrator fails to submit a report pursuant to such section 4716 that contains at least one unfunded priority of the National Nuclear Security Administration (NNSA), the Administrator for Nuclear Security would be prohibited from obligating or expending funds for travel and transportation of persons under the NNSA's Federal Salaries and Expenses account until the date on which such a report is submitted.

SUBTITLE C—REPORTS

Section 3121—Notification Regarding Release of Contamination at Hanford Site

This section would require the Assistant Secretary of Energy for Environmental Management to promptly notify and provide a briefing to the congressional defense committees after any improper release of contamination resulting from defense waste at the Hanford Site.

SUBTITLE D—OTHER MATTERS

Section 3131—Inclusion of Capital Assets Acquisition Projects in Activities by Director for Cost Estimating and Program Evaluation

This section would amend section 3221 of the National Nuclear Security Administration Act (50 U.S.C. 2411) to include capital assets in the definition of major atomic energy defense acquisition programs regarding the authorities of the Director for Cost Estimating and Program Evaluation.

The committee clarifies that this section does not affect the role of the Department of Energy (DOE) Office of Project Management in overseeing implementation of DOE Order 413.3B.

Section 3132—Whistleblower Protections

This section would make a series of findings and express the sense of Congress regarding nuclear safety and whistleblowers. This section would also require the Secretary of Energy, including by acting through the Administrator for Nuclear Security as appropriate, to impose civil penalties, as the Secretary or the Administrator determine appropriate, on contractors, subcontractors, and suppliers for violations of Department of Energy rules, regulations, and orders relating to nuclear safety and radiation protection.

This section would also require the Secretary to define, within 120 days of enactment of this Act, what constitutes evidence of a chilled work environment with respect to employees and contractors making a whistleblower complaint and would require an annual congressional notification on the imposition of any penalties related to violations of rules, regulations, and orders by contractors, subcontractors, and suppliers.

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

LEGISLATIVE PROVISIONS

Section 3201—Authorization

The budget request contained \$31.2 million for the Defense Nuclear Facilities Safety Board for fiscal year 2019. The committee recommends \$31.2 million, the amount of the budget request.

TITLE XXXIV—NAVAL PETROLEUM RESERVES

LEGISLATIVE PROVISIONS

Section 3401—Authorization of Appropriations

This section would authorize \$10.0 million for fiscal year 2019 for operation and maintenance of the Naval Petroleum Reserves.

TITLE XXXV—MARITIME MATTERS

ITEMS OF SPECIAL INTEREST

Maritime Security Program

The committee remains deeply concerned by the decrease in our merchant mariner fleet. The committee notes that the U.S. commercial presence in the international maritime domain has been on a steady decline since its peak in World War II and is currently at the lowest level in American history. Of some 40,000 large, oceangoing commercial vessels in the world today, just 181 sail under the U.S. flag, including 81 vessels operating exclusively in international trade. A robust commercial shipping industry is vital to the U.S. military's ability to project power around the world. The Maritime Security Program (MSP) is critical to U.S. sustainment capability and supporting the pool of highly trained Mariners necessary to support our government owned Ready Reserve Force fleet when activated. Created in 1996, the program helps maintain an active, privately-owned, U.S.-flag and U.S.-crewed fleet of 60 militarily useful commercial ships operating in international trade. MSP participants receive an annual stipend and their ships are available "on-call" to support DOD's global transportation needs. The MSP supports employment for 2,400 U.S. merchant mariners, and provides DOD with assured access to the critical multibillion-dollar global network of intermodal facilities and transport systems maintained by MSP participants. Recent agreements such as the 2016 US-Israel Memorandum of Understanding (MOU) and the de-

cision to end foreign military financing (FMF) funding for jet fuel purchases may affect the ability to project forces in times of future contingencies because of the potential diminution of government-impelled cargo.

Therefore, the committee directs the Secretary of the Navy, in consultation with the Secretary of Transportation, to provide a briefing to the House Armed Services Committee by September 1, 2018 as to the MSP impact, if any, of the 2016 U.S.-Israel (MOU). Such a briefing shall specifically include an assessment of the loss of merchant mariners and the national security impact associated with the long-term sustainment of the Ready Reserve Force in times of conflict.

LEGISLATIVE PROVISIONS

SUBTITLE A—MARITIME ADMINISTRATION

Section 3501—Authorization of the Maritime Administration

This section would authorize appropriations for the national security aspects of the merchant marine for fiscal year 2019.

Section 3502—Compliance by Ready Reserve Fleet Vessels With SOLAS Lifeboats and Fire Suppression Requirements

This section would require the Secretary of Defense to incorporate lifeboat and fire suppression standards associated with the International Convention for the Safety of Life at Sea for Ready Reserve Fleet vessels that are planned to be retained by the Secretary beyond October 1, 2026.

Section 3503—Maritime Administration National Security Multi-Mission Vessel Program

This section would limit the Maritime Administration from procuring used training vessels for the National Security Multi-Mission Vessel Program.

The committee notes that the Maritime Administration requested authority to procure two used vessels and is concerned that such a short-term strategy would not support the long-term maritime academies' interests. The committee continues to support the new construction of these training vessels in the United States.

Section 3504—Permanent Authority of Secretary of Transportation To Issue Vessel War Risk Insurance

This section would amend chapter 539 of title 46, United States Code, to make permanent the authority of the Secretary of Transportation to provide vessel war risk insurance.

Section 3505—Use of State Maritime Academy Training Vessels

This section would require the Secretary of Transportation to implement a program to share maritime academy training vessels with the State maritime academies.

SUBTITLE B—COAST GUARD

Section 3521—Alignment with Department of Defense and Sea Services Authorities

This section would require the Coast Guard to notify the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on August 26, 2018, if there is not in effect any general order or regulation prohibiting sexual harassment by members of the Coast Guard and that the violation of such order or regulation is punishable in accordance with the Uniform Code of Military Justice. The notification is required to include the status of the drafting of such a regulation, the projected implementation timeline, and an explanation of any barriers to implementation. The subsection also amends section 217 of the Coast Guard Authorization Act of 2010 (Public Law 111–281) to include sexual harassment in the annual report on sexual assaults reported to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

This section would amend chapter 29 of title 14 by adding a new section, Annual Performance Report, to require the Coast Guard to submit to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate an update on Coast Guard mission performance during the previous fiscal year, and make it available on a public website.

Section 3522—Preliminary Development and Demonstration

This section would amend section 573 of title 14, United States Code, to clarify the process to report safety concerns found either by an independent third party or a Government employee for acquisition programs or projects or a capability or asset or any subsystem of a capability or asset not previously identified during operational test and evaluation of a capability or asset already in low, initial or full-rate production.

Section 3523—Contract Termination

This section would amend chapter 17 of title 14, United States Code, by inserting a new section 657 to establish a process for contract cancellation, including requiring the Coast Guard to notify each vendor when it terminates a procurement or acquisition contract with a total value of more than \$1.0 million and that such vendors are required to maintain all work product related to the contract for at least 1 year. Additionally, the Coast Guard shall provide an annual report to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on terminated contracts.

Section 3524—Reimbursement for Travel Expenses

This section would amend section 518 of title 14, United States Code, to state that a covered beneficiary and their dependents re-

siding on an island located in the 48 contiguous States and the District of Columbia that lacks public access roads to the mainland, shall be reimbursed for reasonable travel expenses for medical services when referred by a primary care physician to a physician on the mainland or the Coast Guard medical regional manager for the area determines medical services cannot be provided on the island.

Section 3525—Capital Investment Plan

This section would amend section 2902(a) of title 14, United States Code, to change the date when the Capital Investment shall be reported to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate to require reporting on projected commissioning and decommissioning dates for each asset.

Section 3526—Major Acquisition Program Risk Assessment

This section would amend chapter 29 of title 14, United States Code, to add a section on major acquisition program risk assessment stating that twice a year the Coast Guard shall provide to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a briefing regarding a current assessment of risks associated with all current major acquisition programs, including breach of program schedule or costs.

Section 3527—Marine Safety Implementation Status

This section would state that the Coast Guard shall submit a report on the date on which the President submits to Congress a budget for fiscal year 2020 and for the following two years to the Committee of Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on the implementation of each action outlined in the Commandant's final action memo from December 19, 2017.

Section 3528—Retirement of Vice Commandant

This section would amend section 46 of title 14, United States Code, to state that a Vice Commandant who is not reappointed or appointed Commandant shall retire with the grade of admiral.

Section 3529—Large Commercial Yacht Code

This section would require the Secretary of the department in which the Coast Guard is operating through the Commandant of the Coast Guard to establish a code for certification of certain large commercial yachts.

SUBTITLE C—COAST GUARD AND SHIPPING TECHNICAL
CORRECTIONS

CHAPTER 1—COAST GUARD

Section 3531—Commandant Defined

This section amends chapter 1 of title 14, U.S. Code, to add a section with the definition of the Commandant as the “Commandant of the Coast Guard”. Throughout title 14, “Commandant of the Coast Guard” is replaced with “Commandant”.

Section 3532—Training Course on Workings of Congress

This section would amend section 60(d) of title 14, U.S. Code, by striking an outdated training requirement and stating that a Coast Guard flag officer or Coast Guard Senior Executive Service employee working in the National Capital Region shall complete a training course on the workings of Congress not later than 60 days after reporting for duty.

Section 3533—Miscellaneous

This section would amend multiple sections of title 14, U.S. Codes with various technical changes.

Section 3534—Department of Defense Consultation

This section would amend section 566 of title 14, U.S. Code, to change “enter into” to “maintain” the memorandum of understanding with the Navy for technical assistance. This section would also amend section 566 of title 14, U.S. Code, to remove language for an already delivered one-time report on Coast Guard acquisitions.

Section 3535—Repeal

This section would strike section 568 of title 14, U.S. Code, to remove guidance on excessive pass-through charges related to the long-defunct Deepwater acquisition program.

Section 3536—Mission Need Statement

This section would amend section 569 of title 14, U.S. Code, to appear after section 2904 and renumber this section. This section would also amend subsection (a) in section 2904 of title 14, U.S. Code, as so redesignated, to strike “, on the date on which the President submits to Congress a budget for fiscal year 2019 under such section,” and replaces “for fiscal year 2016” with “for fiscal year 2019”.

Section 3537—Continuation on Active Duty

This section would amend section 290(a) of title 14, U.S. Code, to change “Officers, other than the Commandant, serving” to “Officers serving” in or above the grade of vice admiral are not subject to consideration for continuation under this subsection.

Section 3538—System Acquisition Authorization

This section would amend section 2701(2) of title 14, U.S. Code, to change “and aircraft” to “aircraft, and systems” for the requirement for prior authorization of appropriations. This section would also amend section 2702(2) of title 14, U.S. Code, to change “and aircraft” to “aircraft, and systems” for the appropriations.

Section 3539—Inventory of Real Property

This section would amend section 679(a) of title 14, U.S. Code, to change “not later than September 30, 2015, the Commandant shall establish” to “The Commandant shall maintain” the inventory of real property. This section would also amend section 679(b) of title 14, U.S. Code, to state that the Commandant shall update inventory of real property not later than 30 days after any change to control of such property.

CHAPTER 2—MARITIME TRANSPORTATION

Section 3541—Definitions

This section would amend section 2101 of title 46, U.S. Code, to add the definition of the Commandant as the “Commandant of the Coast Guard”, re-designate existing definitions, and update all cross-references to the definitions in 46 U.S.C. 2101 throughout the code.

Section 3542—Authority to Exempt Vessels

This section would amend section 2113 of title 46, U.S. Code, to strike subsections (4) and (5) and replace with a new subsection (4) to state that the Secretary may maintain different structural fire protection, manning, operating, and equipment requirements for vessels.

Section 3543—Passenger Vessels

This section would amend section 3507 of title 46, U.S. Code, to strike subsection (a)(3) pertaining to an expired effective date, clarify subsection (e)(2) by changing “services confidential” to “services as confidential”, and, in subsection (i), replace “Within 6 months after the date of enactment of the Cruise Vessel Security and Safety Act of 2010, the Secretary shall issue” with “The Secretary shall maintain” for procedures related to passenger vessel security and safety requirements.

This section would also amend section 3508 of title 46, U.S. Code, to strike subsection (d) and removes outdated requirements in subsections (a), (c), and (e), as redesignated by the section.

Section 3544—Tank Vessels

This section would amend section 3703a, 3705 and 3706 of title 46, U.S. Code, to remove outdated requirements. Amends section 1001(32)(A) of the Oil Pollution Act of 1990 (33 U.S.C. 2701(32)(a)) to remove an outdated cross-reference.

Section 3545—Grounds for Denial or Revocation

This section would amend section 7503a and 7704 of title 46, U.S. Code, to renumber the subsections after striking previously repealed subsection (a) in each section.

Section 3546—Miscellaneous Corrections to Title 46, U.S.C.

This section would amend miscellaneous sections of title 46, U.S. Code, to remove outdated requirements, re-designate subsections, and update cross-references.

Section 3547—Miscellaneous Corrections to Oil Pollution Act of 1990

This section would amend the Oil Pollution Act of 1990 (33 U.S.C. 2701) to remove outdated requirements, re-designate subsections, and update cross-references.

Section 3548—Miscellaneous Corrections

This section would amend: section 1 of the Act of June 15, 1917 (chapter 30; 50 U.S.C. 191) to replace the “Secretary of Transportation” with the “Secretary of the department in which the Coast Guard is operating.”; section 5(b) of the Act entitled “An Act to regulate the construction of bridges over navigable waters”, approved March 23, 1906 (chapter 1130; 33 U.S.C. 495(b)) to remove outdated requirements; and section 5(f) of the Act to Prevent Pollution from Ships (33 U.S.C. 1904(f)) to remove outdated cross-references.

DIVISION D—FUNDING TABLES

Section 4001—Authorization of Amounts in Funding Tables

This section would provide for the allocation of funds among programs, projects, and activities in accordance with the tables in division D of this Act, subject to reprogramming guidance in accordance with established procedures.

Consistent with the previously expressed views of the committee, this section would also require that a decision by an agency head to commit, obligate, or expend funds to a specific entity on the basis of such funding tables be based on merit-based selection procedures in accordance with the requirements of section 2304(k) and section 2374 of title 10, United States Code, and other applicable provisions of law.

SUMMARY OF NATIONAL DEFENSE AUTHORIZATIONS FOR FISCAL YEAR 2019

(In Thousands of Dollars)

| | FY 2019 Request | House Change | House Authorized |
|---|--------------------|------------------|---------------------|
| DISCRETIONARY AUTHORIZATIONS WITHIN THE JURISDICTION OF THE ARMED SERVICES COMMITTEE | | | |

DEPARTMENT OF DEFENSE AUTHORIZATION REQUEST

The Department of Defense requested legislation, in accordance with the program of the President, as illustrated by the correspondence set out below:

MARCH 9, 2018.

Hon. PAUL D. RYAN,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Enclosed please find a draft of proposed legislation, titled the "National Defense Authorization Act for Fiscal Year 2019", which the Department of Defense requests be enacted during the second session of the 115th Congress.

The purpose of each provision in the proposed bill is stated in the accompanying section-by-section analysis.

The Department is currently working with the Administration on additional legislative initiatives, which the Department hopes to transmit to Congress for its consideration in the coming weeks.

The Office of Management and Budget advises that there is no objection, from the standpoint of the Administration's program, to the presenting of these legislative proposals for your consideration and the consideration of Congress.

Sincerely,

ROBERT R. HOOD.

Enclosure: As Stated.

MARCH 16, 2018.

Hon. PAUL D. RYAN,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Enclosed please find additional legislative proposals that the Department of Defense requests be enacted during the second session of the 115th Congress. The purpose of each proposal is stated in the accompanying section-by-section analysis. The Department submits these proposals as a follow-on to the earlier transmittal of our request for enactment of proposed legislation titled the "National Defense Authorization Act for Fiscal Year 2019".

The Department is currently working with the Administration on additional legislative initiatives, which the Department hopes to transmit to Congress for its consideration in the coming weeks.

The Office of Management and Budget advises that there is no objection, from the standpoint of the Administration's program, to the presenting of these legislative proposals for your consideration and the consideration of Congress.

Sincerely,

ROBERT R. HOOD.

Enclosure: As Stated.

MARCH 26, 2018.

Hon. PAUL D. RYAN,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Enclosed please find additional legislative proposals that the Department of Defense requests be enacted during the second session of the 115th Congress. The purpose of each proposal is stated in the accompanying section-by-section analysis. The Department submits these proposals as a follow-on to the earlier transmittal of our request for enactment of proposed legislation titled the "National Defense Authorization Act for Fiscal Year 2019".

The Department is currently working with the Administration on additional legislative initiatives, which the Department hopes to transmit to Congress for its consideration in the coming weeks.

The Office of Management and Budget advises that there is no objection, from the standpoint of the Administration's program, to the presenting of these legislative proposals for your consideration and the consideration of Congress.

Sincerely,

ROBERT R. HOOD.

Enclosure: As Stated.

APRIL 3, 2018.

Hon. PAUL D. RYAN,
Speaker of the House of Representatives,
Washington, DC.

COMMUNICATIONS FROM OTHER COMMITTEES

HOUSE OF REPRESENTATIVES,
COMMITTEE ON THE BUDGET,
Washington, DC, May 10, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN THORNBERRY: I am writing regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. This legislation contains subject matter within the jurisdiction of the Committee on the Budget. However, in order to expedite floor consideration of this important legislation, the Committee waives consideration of the bill.

The Committee on the Budget takes this action only with the understanding that the Committee's jurisdictional interests over this and similar legislation are in no way diminished or altered. I also ask that the Committee on the Budget be appropriately consulted and involved as this bill or similar legislation moves forward so that the Committee may address any remaining issues that fall within its jurisdiction.

The Committee also reserves the right to seek appointment to any House-Senate conference on this legislation and requests your support if such a request is made. I would appreciate your response to this letter, confirming this understanding with respect to H.R. 5515 and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during House Floor consideration. Thank you for your attention to these matters.

Sincerely,

STEVE WOMACK,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. STEVE WOMACK,
*Chairman, Committee on the Budget,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on the Budget has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on the Budget is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, May 11, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN THORNBERRY: I write in regard to H.R. 5515, the "National Defense Authorization Act for Fiscal Year 2019." Although the Committee on Energy and Commerce has jurisdictional interests in the bill, I wanted to notify you that we will forgo action on the bill so that it may proceed expeditiously to the House floor for consideration.

This is done with the understanding that the Committee on Energy and Commerce's jurisdictional interests over this and similar legislation are in no way diminished or altered. In addition, the Committee reserves the right to seek conferees on H.R. 5515 and requests your support when such a request is made.

I would appreciate your response confirming this understanding with respect to H.R. 5515 and ask that a copy of our exchange of letters on this matter be included in the *Congressional Record* during consideration of the bill on the House floor.

Sincerely,

GREG WALDEN,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. GREG WALDEN,
*Chairman, Committee on Energy and Commerce,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on Energy and Commerce has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on Energy and Commerce is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON FINANCIAL SERVICES,
Washington, DC, May 14, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN THORNBERRY: I am writing to you regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. There are certain provisions of H.R. 5515 which fall within the Rule X jurisdiction of the Committee on Financial Services.

In the interest of permitting your committee to have the House expeditiously consider H.R. 5515, I am writing to waive this Committee's right to sequential referral. I do so with the understanding that by waiving consideration of the bill the Committee on Financial Services does not waive any future jurisdictional claim over the subject matters contained in H.R. 5515 which fall within its Rule X jurisdiction. I request that you urge the Speaker to name members of the Committee on Financial Services to any conference committee which is named to consider such provisions.

Please place this letter into the committee report on H.R. 5515 and into the *Congressional Record* during consideration of the measure on the House floor. Thank you for your attention to these important matters.

Sincerely,

JEB HENSARLING,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. JEB HENSARLING,
Chairman, Committee on Financial Services
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on Financial Services has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on Financial Services is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON FOREIGN AFFAIRS,
Washington, DC, May 14, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: I write to confirm our mutual understanding regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019, which contains substantial matter that falls within the Rule X legislative jurisdiction of the Foreign Affairs Committee. I appreciate the cooperation that allowed us to work out mutually agreeable text on numerous matters prior to your markup.

Based on that cooperation and our associated understandings, the Foreign Affairs Committee will not seek a sequential referral or object to floor consideration of the bill text approved at your Committee markup. This decision in no way diminishes or alters the jurisdictional interests of the Foreign Affairs Committee in this bill, any subsequent amendments, or similar legislation. I request your support for the appointment of House Foreign Affairs conferees during any House-Senate conference on this legislation.

Finally, I respectfully request that you include this letter and your response in your committee report on the bill and in the *Congressional Record* during consideration of H.R. 5515 on the House floor.

Sincerely,

EDWARD R. ROYCE,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. EDWARD R. ROYCE,
*Chairman, Committee on Foreign Affairs,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on Foreign Affairs has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on Foreign Affairs is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON HOMELAND SECURITY,
Washington, DC, May 10, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR MR. THORNBERRY: I am writing to you concerning H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. There are certain provisions in this legislation which fall within the Rule X jurisdiction of the Committee on Homeland Security.

In the interest of permitting your committee to proceed expeditiously to floor consideration of this important bill, I am willing to waive this committee's right to sequential referral. However, I do so with the understanding that by waiving consideration of the bill, the Committee on Homeland Security does not waive any future jurisdictional claim over the subject matters contained in the bill which fall within its Rule X jurisdiction. I request that you urge the Speaker to name members of this committee to any conference committee which is named to consider such provisions.

Please place this letter into the committee report on H.R. 5515 and into the *Congressional Record* during consideration of the measure on the House floor. Thank you for the cooperative spirit in which you and your staff have worked regarding this matter and others between our respective committees.

Sincerely,

MICHAEL T. McCAUL,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. MICHAEL T. MCCAUL,
*Chairman, Committee on Homeland Security,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on Homeland Security has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on Homeland Security is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON THE JUDICIARY,
Washington, DC, May 14, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN THORNBERRY: I write with respect to H.R. 5515, the "National Defense Authorization Act for Fiscal Year 2019." As a result of your having consulted with us on provisions within H.R. 5515 that fall within the Rule X jurisdiction of the Committee on the Judiciary, I forego any further consideration of this bill so that it may proceed expeditiously to the House floor for consideration.

The Judiciary Committee takes this action with our mutual understanding that by foregoing consideration of H.R. 5515 at this time, we do not waive any jurisdiction over subject matter contained in this or similar legislation and that our committee will be appropriately consulted and involved as this bill or similar legislation moves forward so that we may address any remaining issues in our jurisdiction. Our committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation and asks that you support any such request.

I would appreciate a response to this letter confirming this understanding with respect to H.R. 5515 and would ask that a copy of our exchange of letters on this matter be included your committee report and in the *Congressional Record* during floor consideration of H.R. 5515.

Sincerely,

BOB GOODLATTE,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. BOB GOODLATTE,
*Chairman, Committee on the Judiciary,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on the Judiciary has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. I agree that by foregoing a sequential referral, the Committee on the Judiciary is not waiving its jurisdiction. Further, this exchange of letters will be included in the committee report on the bill.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON NATURAL RESOURCES,
Washington, DC, May 14, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR MR. THORNBERRY: I am writing to you concerning the bill H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. There are certain provisions in the legislation which fall within the Rule X jurisdiction of the Committee on Natural Resources.

In the interest of permitting your committee to proceed expeditiously to floor consideration of this important bill, I am willing to waive this committee's right to sequential referral. I do so with the understanding that by waiving consideration of the bill the Committee on Natural Resources does not waive any future jurisdictional claim over the subject matters contained in the bill which fall within its Rule X jurisdiction. I request that you urge the Speaker to name members of this committee to any conference committee which is named to consider such provisions.

Please place this letter into the committee report on H.R. 5515 and into the Congressional Record during consideration of the measure on the House floor. Thank you for the cooperative spirit in which you have worked regarding this matter and others between our respective committees.

Sincerely,

ROB BISHOP,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, May 14, 2018.

Hon. ROB BISHOP,
*Chairman, Committee on Natural Resources,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019. I agree that the Committee on Natural Resources has valid jurisdictional claims to certain provisions in this important legislation, and I am most appreciative of your decision not to request a referral in the interest of expediting consideration of the bill. HOUSE OF REPRESENTATIVES,
COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM,
Washington, DC, May 14, 2018.

HON. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: I write concerning H.R. 5515, *the National Defense Authorization Act for Fiscal Year 2019*. This bill contains provisions within the jurisdiction of the Committee on Oversight and Government Reform. As a result of your having consulted with me concerning the provisions of the bill that fall within our Rule X jurisdiction, I agree to forgo consideration of the bill, so the bill may proceed expeditiously to the House floor.

The Committee takes this action with our mutual understanding that by foregoing consideration of H.R. 5515 we do not waive any jurisdiction over the subject matter contained in this or similar legislation, and we will be appropriately consulted and involved as the bill or similar legislation moves forward so we may address any remaining issues within our Rule X jurisdiction. Further, I request your support for the appointment of conferees from the Committee on Oversight and Government Reform during any House-Senate conference on this or related legislation.

Finally, I would appreciate a response confirming this understanding and ask that a copy of our exchange of letters on this matter be included in the bill report filed by the Committee on Armed Services, as well as in the *Congressional Record* during floor consideration thereof.

Sincerely,

TREY GOWDY,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE,
Washington, DC, May 14, 2018.

Hon. WILLIAM M. "MAC" THORNBERRY,
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR MR. THORNBERRY: I am writing to you concerning the jurisdictional interest of the Committee on Transportation and Infrastructure in matters being considered in H.R. 5515, the *National Defense Authorization Act for Fiscal Year 2019*.

Our committee recognizes the importance of H.R. 5515 and the need for the legislation to move expeditiously. Therefore, while we have a valid claim to jurisdiction over the bill, I do not intend to request a sequential referral. This, of course, is conditional on our mutual understanding that nothing in this legislation or my decision to forego a sequential referral waives, reduces or otherwise affects the jurisdiction of the Committee on Transportation and Infrastructure, and that a copy of this letter and your response acknowledging our jurisdictional interest will be included in the Committee Report and as part of the Congressional Record during consideration of this bill by the House.

The Committee on Transportation and Infrastructure also asks that you support our request to be conferees on the provisions over which we have jurisdiction during any House-Senate conference.

Thank you for your consideration in this matter.

Sincerely,

BILL SHUSTER,
Chairman.

Sincerely,

WILLIAM M. "MAC" THORNBERRY,
Chairman.

CONGRESSIONAL BUDGET OFFICE ESTIMATE

In compliance with clause 3(c)(3) of rule XIII of the House of Representatives, the cost estimate prepared by the Congressional Budget Office and submitted pursuant to section 402 of the Congressional Budget Act of 1974 is as follows:

CONGRESSIONAL BUDGET OFFICE PRELIMINARY COST ESTIMATE

MAY 14, 2018.

Hon. MAC THORNBERRY
*Chairman, Committee on Armed Services,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has completed a preliminary estimate of the direct spending and revenue effects of H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019, as ordered reported by the House Committee on Armed Services on May 10, 2018. This preliminary estimate is based on the Committee Print 115-70 of H.R. 5515 that was posted to the website of the House Committee on Rules on May 11, 2018. CBO's complete cost estimate for H.R. 5515, including discretionary costs, will be provided shortly.

Several provisions of the legislation would have insignificant effects (some positive; some negative) on direct spending. Those budgetary changes would result primarily from provisions that would:

- Authorize the Department of Defense to accept and spend contributions for specific purposes,
- Increase eligibility for military retirement, and
- Change the timing of small amounts of outlays from appropriations that are currently available.

On a preliminary basis, CBO estimates that enacting H.R. 5515 would affect net direct spending by less than \$500,000 over the 2019–2028 period.

The bill also would increase certain civil and criminal fines and would impose sanctions on entities that engage in certain transactions with Russia. Those fines and penalties, which are classified as revenues, would total less than \$500,000 over the next 10 years, CBO estimates. Because enacting the bill would affect direct spending and revenues, pay-as-you-go procedures apply.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is David Newman, who can be reached at 226–2840.

Sincerely,

KEITH HALL,
Director.

STATEMENT REQUIRED BY THE CONGRESSIONAL BUDGET ACT

Pursuant to clause (3)(c)(2) of rule XIII of the Rules of the House of Representatives, and section 308(a) of the Congressional Budget Act of 1974 (Public Law 93–344):

(1) this legislation does not provide budget authority subject to an allocation made pursuant to section 302(b) of Public Law 93–344;

(2) the Congressional Budget Office (CBO) Estimate included in this report pursuant to clause (3)(c)(3) of rule XIII of the Rules of the House of Representatives contains CBO’s projection of how this legislation will affect the levels of budget authority, budget outlays, revenues, and tax expenditures for fiscal year 2019 and for the ensuing 5 fiscal years; and

(3) the CBO Estimate does not identify any new budget authority for assistance to state and local governments by this measure at the time that this report was filed.

COMMITTEE COST ESTIMATE

Pursuant to clause (3)(d)(2)(B) of rule XIII of the Rules of the House of Representatives, the Congressional Budget Office Estimate included in this report satisfies the requirement for the committee to include an estimate by the committee of the costs incurred in carrying out this bill.

ADVISORY OF EARMARKS

The committee finds that H.R. 5515, the National Defense Authorization Act for Fiscal Year 2019, as reported, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI of the Rules of the House of Representatives.

OVERSIGHT FINDINGS

With respect to clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, this legislation results from hearings and other oversight activities conducted by the committee pursuant

to clause 2(b)(1) of rule X. The findings are reflected in the body of this report.

GENERAL PERFORMANCE GOALS AND OBJECTIVES

With respect to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the general goal and objective of H.R. 5515 is to maintain our national defense, to prepare the warfighter for current and future threats, and to do so in a fiscally responsible manner.

Our country continues to face national security challenges: the Russian Federation continues its overt and covert attempts to undermine democratic institutions and the international rules-based order; the People's Republic of China is pursuing a foreign policy that is increasingly aggressive toward U.S. interests; the Islamic Republic of Iran is seeking to destabilize areas in the Middle East; the Democratic People's Republic of Korea maintains a nuclear program that undermines peace and security in East Asia; and terrorist groups continue to threaten U.S. citizens at home and abroad.

This legislation is a continuation of the efforts of the Committee on Armed Services to provide for the common defense by responding to these, and other, national security challenges. The bill provides \$617.1 billion to support core Department of Defense requirements, a number consistent with the President's Budget Request and the Bipartisan Budget Act of 2018 (Public Law 115–123). It also includes an additional \$69.0 billion of Overseas Contingency Operations, also matching the request. This includes money to fully fund the 2.6 percent pay raise for troops, to expand funding for maintenance and readiness, and to deter America's adversaries.

This bill also seeks to continue the committee's focus on reform to create savings by cutting unnecessary waste. This legislation includes numerous reforms to streamline the Department of Defense. The bill reforms the definition of commercial item to simplify Government purchasing, requires the Department to examine its bureaucracy to identify redundant activities for potential savings, and begins a process of updating acquisition statutes to reduce unnecessary confusion and red tape.

This bill continues the committee's work to ensure the military is both adequately resourced and prepared to maintain our national defense, and thereby fulfills the committee's duties under Article I, Section 8, of the Constitution.

STATEMENT OF FEDERAL MANDATES

Pursuant to section 423 of Public Law 104–4, this legislation contains no Federal mandates with respect to state, local, and tribal governments, nor with respect to the private sector. Similarly, the bill provides no Federal intergovernmental mandates.

FEDERAL ADVISORY COMMITTEE STATEMENT

Consistent with the requirements of section 5(b) of the Federal Advisory Committee Act, the committee finds that the functions of the proposed advisory committee authorized in the bill are not currently being nor could they be performed by one or more agencies,

an advisory committee already in existence or by enlarging the mandate of an existing advisory committee.

APPLICABILITY TO THE LEGISLATIVE BRANCH

The committee finds that this legislation does not relate to the terms and conditions of employment or access to public services or accommodations within the meaning of section 102(b)(3) of the Congressional Accountability Act (Public Law 104-1).

DUPLICATION OF FEDERAL PROGRAMS

No provision of H.R. 5515 establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

DISCLOSURE OF DIRECTED RULE MAKINGS

The committee estimates that H.R. 5515 requires three instances of directed rule makings. They are contained in the following provisions:

- (1) section 582
- (2) section 830; and
- (3) section 1610.

COMMITTEE VOTES

In accordance with clause 3(b) of rule XIII of the Rules of the House of Representatives, record votes were taken with respect to the committee's consideration of H.R. 5515. The record of these votes is contained in the following pages.

The committee ordered H.R. 5515 to be reported to the House with a favorable recommendation by a vote of 60-1, a quorum being present.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

The committee has taken steps to make available the analysis of changes in existing law made by the bill, as required by clause 3(e)

of rule XIII of the Rules of the House of Representatives, and will make the analysis available as soon as possible.

ADDITIONAL VIEWS OF MR. LARSEN

The Fiscal Year (FY) 2019 National Defense Authorization Act (NDAA) addresses many of the threats the nation faces in a clear and constructive manner. I am pleased that many of my proposals were included in the bill, including \$50 million in budget authority for DoD Supplemental Impact Aid, a pilot program intended to address combat-related infertility, and accelerating research into quieter jet engines. I will work with Chairman Thornberry and Ranking Member Smith to ensure these and other priorities remain in the final text of the legislation.

However, there is one area where I believe the FY 19 NDAA is particularly deficient, and I intend to work with my colleagues in the House and the Senate to address these concerns before this bill becomes law. In its current form, the FY 19 NDAA authorizes funding for new low-yield nuclear weapons proposed by the 2018 Nuclear Posture Review (NPR). But the NPR fails to make a convincing case for the utility of these weapons, and fails to address legitimate concerns about the consequences of fielding these new nuclear capabilities.

The NPR recommends fielding of two new low-yield nuclear weapons: a version of the existing D5 submarine launched ballistic missile (SLBM) and a nuclear-armed sea launched cruise missile (SLCM). The FY 2019 NDAA authorizes \$65 million for development of the low-yield D5.

While supporters of this program have been emphatic that these new weapons will not lower the nuclear threshold, the arguments for their development advanced in the NPR and in this committee have contradicted this assertion. The NPR envisions a scenario where the Russians use a low-yield weapon because they believe this action would not be met with a nuclear response because the U.S. lacks a tailored deterrent and the President would be unwilling to use a strategic nuclear weapon. With the development of new low-yield weapons, the NPR asserts, the U.S. could now use low yield weapons to deter low yield weapons, and America would no longer be self-deterred. This is dangerous thinking.

First, the U.S. already possesses low-yield nuclear weapons, including the variable yield B-61. If these weapons are not effective deterrents, this Committee should examine why before exploring new capabilities. Second, the NPR implies a scenario where both parties respond to a nuclear detonation by taking the time to determine the size and yield of the weapon employed before deciding whether and how to respond. In reality, escalation would be difficult, if not impossible to avoid. And finally, this concept of operations employs the sub-based leg of the triad, the most survivable leg, in the opening stages of a nuclear conflict, putting submarines at risk conducting a mission they were not intended for.

Additionally, the Committee considered this legislation prior to the release of the forthcoming Ballistic Missile Defense Review (BMDR). Based on comments from the President and other members of the administration, I believe it is reasonable to anticipate a significant change to the role of missile defense in national security.

Missile defense and the nuclear deterrent both play a pivotal role in strategic stability. I am concerned that too often this committee treats these as two separate issues. America's adversaries consider both our missile defense and strategic deterrent when planning. This committee should as well.

When the BMDR is released, it is my hope that this committee will evaluate the report not only discretely, but based on the combined effect on strategic stability of both the BMDR and NPR.

I commend Chairman Thornberry and Ranking Member Smith for their leadership on this legislation and this committee, and look forward to working with them further on the FY 19 NDAA.

RICK LARSEN.

CONGRESSMAN JOHN GARAMENDI'S ADDITIONAL VIEWS
FOR H.R. 5515, THE NATIONAL DEFENSE AUTHORIZATION
ACT FOR FISCAL YEAR 2019

I congratulate Chairman Thornberry and Ranking Member Smith on the passage of the committee mark for the 58th National Defense Authorization Act. I also appreciate the efforts of the House Armed Services Committee to prepare a committee mark that aims to ensure that our men and women in uniform have the means to protect our nation and advance American interests. However, there are several areas of concern that I have with this bill, and I look forward to our continued work to improve this critically important legislation.

One of the most concerning elements of this bill is the endorsement of the Trump Administration's Nuclear Posture Review (NPR). In addition to the planned modernization of our current force structure, the NPR proposes the development of supplemental capabilities, namely a low-yield warhead for submarine-launched ballistic missiles (SLBM) and a sea-launched cruise missile (SLCM). Not only does this bill repeal a 15-year ban on developing and producing low-yield nuclear warheads absent Congressional authorization, but it also authorizes \$65 million for the development of such. Fielding low-yield warheads on SLBMs will dramatically alter the way in which we utilize our nuclear submarine force, greatly increasing the risk of miscalculation and further fueling a dangerous arms race. We must thoughtfully consider the potential impact these weapons will have on strategic stability.

Furthermore, we're already on track to spend \$1.2 trillion over the next thirty years to operate, maintain, and recapitalize our nuclear arsenal, and that figure does not include the "supplemental capabilities" described in the recent NPR. I remain deeply concerned that excessive nuclear weapons spending will put significant pressure on the rest of the procurement budget in the middle of next decade when other areas of our national defense will also require recapitalization.

Lastly, while I am pleased that there are already several provisions in the bill that promote U.S. shipbuilding, I believe this bill could go much further. It is in the national security interests of the U.S. to maintain our domestic manufacturing base. Buy America requirements ensure we have a domestic, reliable source of critical equipment, and I will continue working with my colleagues to strengthen these key requirements.

As the process continues, I look forward to working on these important issues with my colleagues on the Armed Services Committee.

JOHN GARAMENDI.

DISSENTING VIEWS

Section 314: To prohibit the Greater Sage Grouse and Lesser Prairie Chicken from being listed under the Endangered Species Act (ESA) for a period of 10 years and to reverse a 1989 determination of endangered status for the American Burying Beetle, and for other purposes.

Section 314 of the National Defense Authorization Act as reported out of the House Armed Services Committee prohibits the Greater Sage Grouse and Lesser Prairie Chicken from being listed under the Endangered Species Act (ESA) for a period of 10 years, reverses a 1989 determination of endangered status for the American Burying Beetle, and would further exempt this provision from judicial review.

ESA listing decisions should be made with the best-available-science and not by a Congressional mandate. Sections 314 undermine science-based decision-making and State and Federal cooperative efforts to protect imperiled species. Furthermore, Section 314 set a terrible precedent for the management of species in need of conservation by having Congress micromanage specific species.

Pursuant to the Rules of the House of Representatives, the House Natural Resources Committee—not the House Armed Services Committee—has jurisdiction over wildlife and conservation, so it is only appropriate that any proposed legislative changes pertaining to the ESA, wildlife, or conservation go through the appropriate authorizing committee.

The language should be struck from the bill as it is non-germane. The Department of Defense has stated that it already has sufficient statutory authorities to protect the interest of the Department and its training and readiness activities. We should not jeopardize the progress of this bill with unnecessary environmental riders.

DISSENTING VIEWS OF CONGRESSWOMAN COLLEEN
HANABUSA ON SECTION 903 OF THE NATIONAL DEFENSE
AUTHORIZATION ACT FOR FISCAL YEAR 2019

I congratulate Chairman Thornberry and Ranking Member Smith on the passage of the committee mark for the 57th National Defense Authorization Act. However, I dissent with this bill's change in the command and control in the most challenging area, the Indo-Asia-Pacific.

Let there be no question, we are all saddened and distressed by the deaths of our sailors who were on the USS *Fitzgerald* and the USS *John McCain*. This resulted with the Comprehensive Review of Recent Surface Force Incidents (CR) by Admiral Philip S. Davidson for the Chief of Naval Operations. Admiral Davidson has been recently confirmed as the new Commander of Pacific Command (PACOM). The Secretary of the Navy subsequently tasked Michael Bayer and Admiral Roughead (Ret. and former CNO) with a Strategic Readiness Review (SRR) of tragic incidents involving the 7th Fleet. The SRR independently examined the findings of the CR and concurred in most part with one exception being the establishment of "a single Echelon II" to determine the readiness of the force structure.

The SRR stated clearly that it does not concur with the recommendation to "[e]stablish a single Echelon II higher headquarters responsible for the readiness generation of all Navy forces." It instead made recommendations that would "meet the same objective, while retaining separate fleet responsibilities and authorities for managing readiness in the east and west coast fleets."

It is important to note that in April of 2018 as part of his confirmation hearing, Admiral Davidson states that "[he] would not support any changes to command and control of Naval Forces in the Pacific that would limit the speed, flexibility, and agility of a response or place into question U.S. resolve and commitment to the Indo-Pacific."

The amendment I offered identified as "Hanabusa 301" did exactly what the SRR recommended. The amendment provided that "the Secretary of the Navy may not make available for tasking by an operational commander any vessel, including any forward deployed naval vessel, until the Commander of Surface Forces Atlantic submits to the Commander of the United States Fleet Forces Command or the Commander of Surface Forces Pacific submits to the Commander of the United States Pacific Fleet, as appropriate based on the region to which such vessel is proposed to be tasked, certification that such surface vessel in properly manned, trained, and equipped." In the present geopolitical climate that the United States of America and its military finds itself in, no area presents the threats to our democracy as the Indo-Asia-Pacific region. The

PACOM AOR is just about fifty-five percent of this earth's surface. The actions of North Korea, China, and Russia have caused us all to have heightened concerns.

The initial language, which gave to the Asia-Pacific Region its command and control structure was called the "Inouye Amendment" and has existed since May of 2005. There is no one who is as respected or decorated as Senator Daniel K. Inouye. He clearly understood what was needed for the U.S. to meet the challenges that the PACOM AOR would present. My amendment brings into line the need for the speed, flexibility and agility that this region requires, while also addressing command and control structure improvements recommended by the CR and SRR—a position clearly advocated by the new PACOM Commander. I look forward to working with this committee to ensure that the necessary tools and command and control structure is in place to ensure the success of the new PACOM Commander in the largest AOR of this military.

COLLEEN HANABUSA.

DISSENTING VIEWS—SECTION 312 OF H.R. 5515: NATIONAL
DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2019

Section 312 of the National Defense Authorization Act would amend the Marine Mammal Protection Act to require the Department of Defense to obtain authorizations from the National Marine Fisheries Service (NMFS) every ten years, instead of the current five-year requirement, for activities that can harm marine mammals.

Section 312 is not required for military readiness and national security, yet it will weaken essential protections for whales, dolphins, and other marine mammals.

Enacted 45 years ago with strong bipartisan support, the MMPA protects marine mammals from “take,” meaning human activities that “hunt, harass, capture, or kill” these iconic species of ocean wildlife. The law applies in U.S. waters and to U.S. citizens and conveyances on the high seas. Due to the protections provided by this bedrock conservation statute, no marine mammals in U.S. waters have subsequently gone extinct, and some species that once suffered severe declines have increased in numbers.

The Department of Defense is required under the MMPA to obtain authorizations from the NMFS every five years for activities that can harm marine mammals, most notably the Navy’s use of sonar and underwater explosives for training and military readiness purposes. The purpose of these authorizations is to ensure that the activities conducted by the Navy do not undermine the health of marine mammal populations, and to establish mitigation measures to achieve the “least practicable adverse impact” on the affected species.

The law requires frequent reviews because marine mammals—especially whales, dolphins, and porpoises, which live exclusively in the ocean—are difficult to study and monitor in the wild. These animals live for decades, reproduce slowly, and often range over great distances. A 2007 study by NMFS biologists found that scientists would be unlikely to detect precipitous declines in most of the country’s marine mammal populations at current levels of monitoring.

Section 312 would extend the authorization period for Department of Defense activities from five years to 10 years under the MMPA, curtailing critical oversight of the Navy’s impacts, which are already considerable. During its most recent round of environmental reviews, the Navy has estimated that over five years it would kill more than 250 whales and other marine mammals, cause permanent injury to another 3,000, and disrupt foraging and other vital behaviors more than 30 million times.

The Navy has conducted ground-breaking research on marine mammals and acoustics in recent years to comply with the MMPA. This research has helped ensure that the best-available-science is

used to review Navy activities and improve mitigation of harm to marine mammals. These research activities and mitigation measures should be increased and strengthened, rather than weakened or removed.

The MMPA already contains ample accommodations for national security. It was amended in 2003 to limit mitigation of military readiness activities to what is “practicable,” taking into account personnel safety, practicability of implementation, and effects on military readiness. The Navy’s requests for authorization to harm marine mammals have never been rejected. Furthermore, the MMPA provides a two-year exemption from compliance that the Secretary of Defense can invoke, at his discretion, for national security purposes, and can renew for subsequent two-year intervals as needed.

We are, as you know, deeply committed to our nation’s national security. We also believe it is necessary and achievable to protect our natural heritage, and therefore we oppose the inclusion of Section 312 in the FY19 National Defense Authorization Act.

Testimony of
Jim Holmes
Before the
Military Construction and Veterans Affairs Subcommittee
of the
House Committee on Appropriations
On
PFAS Contamination at Patrick Air Force Base
March 11, 2020

Thank you for the opportunity to testify. My name is Jim Holmes and I recently retired from the United States Army Reserve. During my twenty-five plus years I served both on active duty and in the reserve component, performing multiple combat deployments that ranged from Operation Desert Shield / Desert Storm to Operation Iraqi Freedom. From the day I enlisted on December 8, 1988 I knew that there was certain risk associated with my service in the Armed Forces. I knew that I was signing a contract that require me to risk my own physical health, mental health, personal safety and up to my life in defense of the Nation. I fully understood and willingly accepted these risks. What I did not sign up for is the risking of my daughter's health, wellbeing and ultimately her life as a result of my service.

On January 10, 2018 I was flying Hurricane Maria recovery missions when I received a phone call from my family doctor that would forever change the lives of myself, my wife and my daughter. My wife took Kaela to the Eye doctor because she was having blurred vision. We thought she just needed new glasses. What we found out is that Kaela had an extremely rare and aggressive form of brain cancer called DIPG. DIPG is a form of brain cancer that forms inside the brain stem and affects 150-300 children annually in the United States. It is difficult to treat and 100 percent fatal.

Kaela was a beautiful, intelligent, loving daughter who loved her Army family with all her heart. She made a positive impact on everyone she ever encountered, excelled in school and never disappointed me once in her seventeen years of life.

Kaela bravely fought the cancer for fifteen months. During this time, she displayed a mental and physical toughness that few people in this world know. Unfortunately, on March 29, 2019, three days after her seventeenth birthday, Kaela passed away with my wife, our family dog and myself at her side.

What hurt almost as bad as Kaela's passing was finding out a few months after her death that her cancer was possibly caused by a water contamination at Patrick Air Force Base, Florida. We had lived on South Housing at Patrick from 2004-2005 and at Central Housing from 2008-2013. Kaela also attended Sea Park Elementary for five years, went to the Patrick Air Force Base after school program and Satellite High School all of which are in Satellite Beach, FL just south of the Base.

Not once in the sixteen years we've lived in the Patrick Air Force Base/Satellite Beach, FL area were we ever made aware that the ground water was severely contaminated with a hazardous substance called PFAS. The Air Force and 45th Space Wing never publicly disclosed to those of us living on and around Patrick that their own water samples had shown that they were 57,000 times above the EPA's safe drinking water level of 70 parts per trillion. The failure to disclose such critical information show a complete lack of care for the health and safety of the service members, dependents and civilians that live on and around Patrick Air Force Base.

The PFAS contamination at Patrick has been attributed to the reckless deployment of Aqueous Film-Forming Foam Concentrates (AFFF) during training exercises over the past forty years. The Department of Defense created and patented AFFF in the late 1960's and knew by the early 1970's that it was toxic to fish and by the 1980's it was also shown to be toxic to animals. By the 2000's PFAS was found to be building up in our blood. During this time the residents of Satellite Beach, Fl have experienced a much higher rate of brain and breast cancers than the general population. Even as residents were raising alarms over the high rate of cancer in the local area the Air Force stood quiet.

Fortunately, Congress stepped in recently and banned the use of AFFF during training exercises. This is a commonsense action that should have been taken by the Department of Defense decades ago. The fact that congress had to make the DOD discontinue using AFFF in training exercises once again shows the DOD's complete lack of concern for the health of the general public.

The next step in this PFAS journey is to make the water safe for the service members, dependents and civilian population that resides around Patrick Air Force Base. The Air Force will lead you to believe that all is well because they use City of Melbourne water. What they don't tell you is that the infrastructure at Patrick Air Force Base and Satellite Beach is extremely old. Broken water mains happen regularly on the base and Beach side communities. Each time a drop in water pressure occurs the pipes are flooded with this toxic mess. The Air Force and the City of Melbourne currently do not test the water after pressure drops to ensure that PFAS levels are below the EPA's 70 parts per trillion safe drinking level. This once again shows an extreme lack of concern for the health and care for all that reside around Patrick Air Force Base.

The people of Satellite Beach, FL need Congress to immediately ban all use of AFFF firefighting foams that contain PFAS and PFBS and force the United States Air Force to take responsibility for polluting our water with toxic chemicals over the years. Every home in Satellite Beach, Patrick Air Force Base and Cocoa Beach, FL should be equipped with a point of entry filtration system, provided through a pilot program funded by the federal government, to ensure that safe

drinking water is being provided after water main brakes, routine system maintenance and pressure drops.

The time since Kaela passed away has been difficult. I lost my only child due to being poisoned by the same military that I faithfully served and fought for. When I learned of the connection of PFAS and Kaela's cancer I got rid of all my awards, certificates and uniforms. The only thing I own with a military connection is my retired ID card. I will have to live the rest of my life knowing that my decision to serve in the military and reside on a United States Air Force Base resulted in the death of my beautiful daughter. I pray that no other service member will ever have to unknowingly sacrifice the life of their child by serving their country.

Thank you for the opportunity to testify and allow my families tragedy to be heard. When Kaela was born on March 26, 2002 the War on Terror had just begun. My biggest worry was that I would be injured or killed in combat and that Kaela would grow up without a father. I spent every free moment I had building a lifelong connection with my daughter and making sure that she knew for certain that her father loved her. I trained hard, bought life insurance and did my best to ensure that she would be taken cared of if something happened to me. I never imagined that she would be the one paying the ultimate price for my service.

| TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS—Continued | |
| Subtitle A—Pay and Allowances—Continued | |
| Reductions on account of earnings from work performed while entitled to an annuity supplement (sec. 608) | 0000 |
| Increase in basic pay (sec. 609) | 0000 |
| Subtitle B—Bonuses and Special Incentive Pays | 0000 |
| One-year extension of certain expiring bonus and special pay authorities (sec. 611) | 0000 |
| Subtitle C—Family and Survivor Benefits | 0000 |
| Expansion of eligibility for exceptional transitional compensation for dependents to dependents of current members (sec. 621) | 0000 |
| Phase-out of reduction of Survivor Benefit Plan survivor annuities by amount of dependency and indemnity compensation (sec. 622) .. | 0000 |
| Death gratuity for ROTC graduates (sec. 623) | 0000 |
| Expansion of authority to provide financial assistance to civilian providers of child care services or youth program services who provide such services to survivors of members of the Armed Forces who die in combat in the line of duty (sec. 624) | 0000 |
| Casualty assistance for survivors of deceased ROTC graduates (sec. 625) | 0000 |
| Subtitle D—Defense Resale Matters | 0000 |
| Defense resale system matters (sec. 631) | 0000 |
| Procurement by commissary stores of certain locally sourced products (sec. 632) | 0000 |
| GAO review of defense resale optimization study (sec. 633) | 0000 |
| Subtitle E—Morale, Welfare, and Recreation Privileges | 0000 |
| Extension of certain morale, welfare, and recreation privileges to Foreign Service officers on mandatory home leave (sec. 641) | 0000 |
| Extension of pilot program on a Government lodging program (sec. 642) | 0000 |
| Subtitle F—Reports and Other Matters | 0000 |
| Annual reports on approval of employment or compensation of retired general or flag officers by foreign governments for emoluments clause purposes (sec. 651) | 0000 |
| Report regarding transition from overseas housing allowance to basic allowance for housing for servicemembers in the territories (sec. 652) | 0000 |
| Report on extension to members of the reserve components of the Armed Forces of special and incentive pays for members of the Armed Forces not currently payable to members of the reserve components (sec. 653) | 0000 |
| Study regarding recoupment of separation pay, special separation benefits, and voluntary separation incentive payments from members of the Armed Forces and veterans who receive disability compensation under laws administered by the Secretary of Veterans Affairs (sec. 654) | 0000 |
| Report on implementation of contributions to the Department of Defense Military Retirement Fund based on pay costs per Armed Force rather than on Armed Forces-wide basis (sec. 655) | 0000 |
| Report on food insecurity among members of the Armed Forces and their dependents (sec. 656) | 0000 |
| Legislative Provisions Not Adopted | 0000 |
| Basic allowance for housing for a member without dependents when relocation would financially disadvantage the member | 0000 |
| Annual adjustment of basic pay | 0000 |
| Space-available travel on military aircraft for children and surviving spouses of members who die of hostile action or training duty | 0000 |
| Report regarding management of military commissaries and exchanges | 0000 |
| Treatment of fees on services provided as supplemental funds for commissary operations | 0000 |
| TITLE VII—HEALTH CARE PROVISIONS | 0000 |
| Subtitle A—Tricare and Other Health Care Benefits | 0000 |
| Modification of eligibility for TRICARE Reserve Select for certain members of the Selected Reserve (sec. 701) | 0000 |

| | Page |
|---|------|
| TITLE VII—HEALTH CARE PROVISIONS—Continued | |
| Subtitle A—Tricare and Other Health Care Benefits—Continued | |
| TRICARE payment options for retirees and their dependents (sec. 702) | 0000 |
| Lead level screening and testing for children (sec. 703) | 0000 |
| Exposure to open burn pits and toxic airborne chemicals or other airborne contaminants as part of periodic health assessments and other physical examinations (sec. 704) | 0000 |
| Enhancement of recordkeeping with respect to exposure by members of the Armed Forces to certain occupational and environmental hazards while deployed overseas (sec. 705) | 0000 |
| Modifications to post-deployment mental health assessments for members of the Armed Forces deployed in support of a contingency operation (sec. 706) | 0000 |
| Provision of blood testing for firefighters of Department of Defense to determine exposure to perfluoroalkyl and polyfluoroalkyl substances (sec. 707) | 0000 |
| Subtitle B—Health Care Administration | 0000 |
| Modification of organization of military health system (sec. 711) | 0000 |
| Support by military health system of medical requirements of combatant commands (sec. 712) | 0000 |
| Requirements for certain prescription drug labels (sec. 713) | 0000 |
| Officers authorized to command Army dental units (sec. 714) | 0000 |
| Improvements to interagency program office of the Department of Defense and the Department of Veterans Affairs (sec. 715) | 0000 |
| Expansion of strategy to improve acquisition of managed care support contracts under TRICARE program (sec. 716) | 0000 |
| Inclusion of blast exposure history in medical records of members of the Armed Forces (sec. 717) | 0000 |
| Comprehensive policy for provision of mental health care to members of the Armed Forces (sec. 718) | 0000 |
| Limitation on the realignment or reduction of military medical manning end strength (sec. 719) | 0000 |
| Strategy to recruit and retain mental health providers (sec. 720) | 0000 |
| Development of partnerships to improve combat casualty care for personnel of the Armed Forces (sec. 721) | 0000 |
| Modification to referrals for mental health services (sec. 722) | 0000 |
| Subtitle C—Reports and Other Matters | 0000 |
| Authorization of claims by members of the uniformed services against the United States for personal injury or death caused by medical malpractice (sec. 731) | 0000 |
| Extension and clarification of authority for Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund (sec. 732) | 0000 |
| Appointment of non-ex officio members of the Henry M. Jackson Foundation for the Advancement of Military Medicine (sec. 733) | 0000 |
| Establishment of Academic Health System in National Capital Region (sec. 734) | 0000 |
| Provision of veterinary services by veterinary professionals of the Department of Defense in emergencies (sec. 735) | 0000 |
| Three-year extension of authority to continue the DOD–VA Health Care Sharing Incentive Fund (sec. 736) | 0000 |
| Preservation of resources of the Army Medical Research and Materiel Command and continuation as Center of Excellence (sec. 737) | 0000 |
| Encouragement of participation in Women’s Health Transition Training pilot program (sec. 738) | 0000 |
| National Guard suicide prevention pilot program (sec. 739) | 0000 |
| Pilot program on civilian and military partnerships to enhance interoperability and medical surge capability and capacity of National Disaster Medical System (sec. 740) | 0000 |
| Reports on suicide among members of the Armed Forces and suicide prevention programs and activities of the Department of Defense (sec. 741) | 0000 |
| Modification of requirements for longitudinal medical study on blast pressure exposure of members of the Armed Forces and collection of exposure information (sec. 742) | 0000 |

| TITLE XXVII—BASE REALIGNMENT AND CLOSURE ACTIVITIES | 0000 |
| Summary | 0000 |
| Authorization of appropriations for base realignment and closure activities funded through Department of Defense base closure account (sec. 2701) | 0000 |
| Prohibition on conducting additional base realignment and closure (BRAC) round (sec. 2702) | 0000 |
| TITLE XXVIII—MILITARY CONSTRUCTION AND GENERAL PROVISIONS | 0000 |
| Subtitle A—Military Construction Program | 0000 |
| Military installation resilience plans and projects (sec. 2801) | 0000 |
| Improved consultation with tribal governments when proposed military construction projects potentially impact Indian tribes (sec. 2802) | 0000 |
| Increased authority for use of certain appropriations amounts for restoration or replacement of damaged or destroyed facilities (sec. 2803) | 0000 |
| Amendment of Unified Facilities Criteria to promote military installation resilience, energy resilience, energy and climate resiliency, and cyber resilience (sec. 2804) | 0000 |
| Modification to Department of Defense Form 1391 regarding consideration of potential long-term adverse environmental effects (sec. 2805) | 0000 |
| Improved flood risk disclosure for military construction (sec. 2806) | 0000 |
| Prioritization of projects in annual report on unfunded requirements for laboratory military construction projects (sec. 2807) | 0000 |
| Technical corrections and improvements to defense access road resilience (sec. 2808) | 0000 |
| Military construction projects for child development centers at military installations (sec. 2809) | 0000 |
| Prohibition on use of funds to reduce air base resiliency or demolish protected aircraft shelters in the European theater without creating a similar protection from attack (sec. 2810) | 0000 |
| Prohibition on use of funds to close or return certain bases to the host nation (sec. 2811) | 0000 |
| Subtitle B—Real Property and Facilities Administration | 0000 |
| Improved energy security for main operating bases in Europe (sec. 2821) | 0000 |
| Access to Department of Defense installations for credentialed transportation workers (sec. 2822) | 0000 |
| Improved recording and maintaining of Department of Defense real property data (sec. 2823) | 0000 |
| Subtitle C—Land Conveyances | 0000 |
| Land conveyance, Hill Air Force Base, Ogden, Utah (sec. 2831) | 0000 |
| Release of interests retained in Camp Joseph T. Robinson, Arkansas, for use of such land as a veterans cemetery (sec. 2832) | 0000 |
| Modification of authorized uses of certain property conveyed by the United States in Los Angeles, California (sec. 2833) | 0000 |
| Transfer of administrative jurisdiction over certain parcels of Federal land in Arlington, Virginia (sec. 2834) | 0000 |
| Subtitle D—Military Land Withdrawals | 0000 |
| Public notice regarding upcoming periods of Secretary of the Navy management of Shared Use Area of the Johnson Valley Off-Highway Vehicle Recreation Area (sec. 2841) | 0000 |
| Subtitle E—White Sands National Park and White Sands Missile Range .. | 0000 |
| White Sands Missile Range Land Enhancements (sec. 2851) | 0000 |
| Subtitle F—Other Matters | 0000 |
| Installation and maintenance of fire extinguishers in Department of Defense facilities (sec. 2861) | 0000 |
| Definition of community infrastructure for purposes of military base reuse studies and community planning assistance (sec. 2862) | 0000 |
| Temporary authority for acceptance and use of contributions for certain design and construction projects mutually beneficial to the Department of Defense and the Republic of Korea (sec. 2863) | 0000 |
| Black start exercises at military installations (sec. 2864) | 0000 |
| Pilot program to extend service life of roads and runways under the jurisdiction of the Secretary of Defense (sec. 2865) | 0000 |

| | Page |
|---|------|
| TITLE XXVIII—MILITARY CONSTRUCTION AND GENERAL PROVISIONS—Continued | |
| Subtitle F—Other Matters—Continued | |
| Restrictions on rehabilitation of Over-the-Horizon Backscatter Radar System receiving station, Modoc County, California (sec. 2866) | 0000 |
| Designation of Sumpter Smith Joint National Guard Base (sec. 2867) | 0000 |
| Santa Ynez Band of Chumash Indians land affirmation (sec. 2868) | 0000 |
| Lands to be taken into trust as part of the reservation of the Lytton Rancheria (sec. 2869) | 0000 |
| Little Shell Tribe of Chippewa Indians of Montana (sec. 2870) | 0000 |
| Sense of Congress on restoration of Tyndall Air Force Base (sec. 2871) | 0000 |
| Legislative Provisions Not Adopted | 0000 |
| Prohibition on use of military construction funds for construction of a wall, fence, or other physical barrier along the southern border of the United States | 0000 |
| Modification and clarification of construction authority in the event of a declaration of war or national emergency | 0000 |
| Modification of requirements relating to land acquisition in Arlington County, Virginia | 0000 |
| Equal treatment of insured depository institutions and credit unions operating on military installations | 0000 |
| Prohibition on use of funds to privatize temporary lodging on installations of Department of Defense | 0000 |
| Report on encroachment challenges on military installations posed by non-military aircraft | 0000 |
| Report on capacity of Department of Defense to provide survivors of natural disasters with emergency short-term housing | 0000 |
| Continued Department of Defense use of heating, ventilation, and air conditioning systems utilizing variable refrigerant flow | 0000 |
| Report on Department of Defense use of intergovernmental support agreements | 0000 |
| Report on vulnerabilities from sea level rise to certain military installations located outside the continental United States | 0000 |
| Report on projects awaiting approval from the Realty Governance Board | 0000 |
| Report on lead service lines at military installations | 0000 |
| Renaming of Lejeune High School in honor of Congressman Walter B. Jones | 0000 |
| Operation, maintenance, and preservation of Mare Island Naval Cemetery, Vallejo, California | 0000 |
| TITLE XXIX—AUTHORIZATION OF OVERSEAS CONTINGENCY OPERATIONS MILITARY CONSTRUCTION AND EMERGENCY MILITARY CONSTRUCTION | 0000 |
| Subtitle A—Overseas Contingency Operations Military Construction | 0000 |
| Summary | 0000 |
| Authorized Army construction and land acquisition projects (sec. 2901) | 0000 |
| Authorized Navy construction and land acquisition projects (sec. 2902) | 0000 |
| Authorized Air Force construction and land acquisition projects (sec. 2903) | 0000 |
| Authorized Defense Agencies construction and land acquisition projects (sec. 2904) | 0000 |
| Authorization of appropriations (sec. 2905) | 0000 |
| Subtitle B—Emergency Military Construction | 0000 |
| Authorization of emergency Navy construction and land acquisition projects (sec. 2911) | 0000 |
| Authorization of emergency Air Force construction and land acquisition projects (sec. 2912) | 0000 |
| Authorization of emergency Army National Guard construction and land acquisition projects (sec. 2913) | 0000 |
| Authorization of emergency Defense Agencies construction and land acquisition projects (sec. 2914) | 0000 |
| Authorization of emergency supplemental appropriations for military construction projects (sec. 2915) | 0000 |

| | Page |
|--|------|
| TITLE XXIX—AUTHORIZATION OF OVERSEAS CONTINGENCY OPERATIONS MILITARY CONSTRUCTION AND EMERGENCY MILITARY CONSTRUCTION—Continued | |
| Legislative Provisions Not Adopted | 0000 |
| Replenishment of certain military constructions funds | 0000 |
| TITLE XXX—MILITARY HOUSING PRIVATIZATION REFORM | 0000 |
| Definitions (sec. 3001) | 0000 |
| Subtitle A—Addition of New Reform Subchapter | 0000 |
| Improved accountability and oversight of privatized military housing and protections and responsibilities for tenants of privatized military housing (sec. 3011) | 0000 |
| Designation of Chief Housing Officer for privatized military housing (sec. 3012) | 0000 |
| Additional requirements relating to contracts for privatized military housing (sec. 3013) | 0000 |
| Additional requirements relating to management of privatized military housing (sec. 3014) | 0000 |
| Consideration of contractor history in contracts for privatized military housing (sec. 3015) | 0000 |
| Additional improvements for management of privatized military housing (sec. 3016) | 0000 |
| Maintenance work order system for privatized military housing (sec. 3017) | 0000 |
| Access by tenants of privatized military housing to maintenance work order system (sec. 3018) | 0000 |
| Access by tenants to historical maintenance information for privatized military housing (sec. 3019) | 0000 |
| Prohibition on requirement to disclose personally identifiable information in certain requests for maintenance of privatized military housing (sec. 3020) | 0000 |
| Treatment of incentive fees for landlords of privatized military housing for failure to remedy a health or environmental hazard (sec. 3021) | 0000 |
| Dispute resolution process for landlord-tenant disputes regarding privatized military housing and requests to withhold payments during dispute resolution process (sec. 3022) | 0000 |
| Investigation of reports of reprisals relating to privatized military housing and congressional notification (sec. 3023) | 0000 |
| Prohibition on use of nondisclosure agreements in connection with leases of privatized military housing (sec. 3024) | 0000 |
| Subtitle B—Other Amendatory Provisions | 0000 |
| Installation of carbon monoxide detectors in military family housing (sec. 3031) | 0000 |
| Authority to furnish certain services in connection with use of alternative authority for acquisition and improvement of military housing (sec. 3032) | 0000 |
| Treatment of breach of contract for privatized military housing (sec. 3033) | 0000 |
| Modification to requirements for window fall prevention devices in military family housing units (sec. 3034) | 0000 |
| Expansion of direct hire authority for Department of Defense for childcare services providers for Department child development centers to include direct hire authority for installation military housing office personnel (sec. 3035) | 0000 |
| Modification of authority to make payments to lessors of privatized military housing (sec. 3036) | 0000 |
| Technical correction to definition used to make payments to lessors of privatized military housing (sec. 3037) | 0000 |
| Subtitle C—One-Time Reporting Requirements | 0000 |
| Report on civilian personnel shortages for appropriate oversight of management of military housing constructed or acquired using alternative authority for acquisition and improvement of military housing (sec. 3041) | 0000 |
| Plans for creation of councils on privatized military housing (sec. 3042) | 0000 |
| Plan for establishment of Department of Defense jurisdiction over off-base privatized military housing (sec. 3043) | 0000 |

| | Page |
|--|------|
| TITLE XXX—MILITARY HOUSING PRIVATIZATION REFORM—Continued | |
| Subtitle C—One-Time Reporting Requirements—Continued | |
| Inspector General review of Department of Defense oversight of privatized military housing (sec. 3044) | 0000 |
| Information on legal services provided to members of the Armed Forces harmed by health or environmental hazards at military housing (sec. 3045) | 0000 |
| Subtitle D—Development of Housing Reform Standards and Processes | 0000 |
| Uniform code of basic standards for privatized military housing and plan to conduct inspections and assessments (sec. 3051) | 0000 |
| Tool for assessment of hazards in Department of Defense housing (sec. 3052) | 0000 |
| Process to identify and address environmental health hazards in Department of Defense housing (sec. 3053) | 0000 |
| Department of Defense policy on lead-based paint testing on military installations (sec. 3054) | 0000 |
| Standard for minimum credentials for health and environmental inspectors of privatized military housing (sec. 3055) | 0000 |
| Requirements relating to move-in, move-out, and maintenance of privatized military housing (sec. 3056) | 0000 |
| Standardized documentation, templates, and forms for privatized military housing (sec. 3057) | 0000 |
| Satisfaction survey for tenants of military housing (sec. 3058) | 0000 |
| Subtitle E—Other Housing Reform Matters | 0000 |
| Radon testing of privatized military housing (sec. 3061) | 0000 |
| Mitigation of risks posed by certain items in military family housing units (sec. 3062) | 0000 |
| Suspension of Resident Energy Conservation Program and related programs for privatized military housing (sec. 3063) | 0000 |
| Department of the Army pilot program to build and monitor use of single family homes (sec. 3064) | 0000 |
| Legislative Provisions Not Adopted | 0000 |
| Command oversight of military privatized housing as element of performance evaluations | 0000 |
| DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS | 0000 |
| TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS | 0000 |
| Subtitle A—National Security Programs Authorizations | 0000 |
| National Nuclear Security Administration (sec. 3101) | 0000 |
| Defense environmental cleanup (sec. 3102) | 0000 |
| Other defense activities (sec. 3103) | 0000 |
| Nuclear energy (sec. 3104) | 0000 |
| Subtitle B—Program Authorizations, Restrictions, and Limitations | 0000 |
| Personnel matters at National Nuclear Security Administration (sec. 3111) | 0000 |
| Estimation of costs of meeting defense environmental cleanup milestones required by consent orders (sec. 3112) | 0000 |
| Office of Cost Estimating and Program Evaluation (sec. 3113) | 0000 |
| Clarification of certain Stockpile Responsiveness Program objectives (sec. 3114) | 0000 |
| Elimination of limitation on availability of funds relating to submission of annual reports on unfunded priorities (sec. 3115) | 0000 |
| Modification to certain requirements relating to plutonium pit production capacity (sec. 3116) | 0000 |
| Annual certification of shipments to Waste Isolation Pilot Plant (sec. 3117) | 0000 |
| Extension and modification of pilot program on unavailability for overhead costs of amounts specified for laboratory-directed research and development (sec. 3118) | 0000 |
| Modification to limitation on availability of funds for acceleration of nuclear weapons dismantlement (sec. 3119) | 0000 |
| Implementation of common financial reporting system for nuclear security enterprise (sec. 3120) | 0000 |
| Limitation relating to reclassification of high-level waste (sec. 3121) .. | 0000 |
| National Laboratory Jobs ACCESS Program (sec. 3122) | 0000 |
| Subtitle C—Reports and Other Matters | 0000 |

NATIONAL DEFENSE AUTHORIZATION ACT FOR 2020

_____, 2019.—Ordered to be printed

Mr. Smith of Washington, from the committee of conference,
submitted the following

CONFERENCE REPORT

[To accompany S. 1790]

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 1790), to authorize appropriations for fiscal year 2020 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment, insert the following:

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “National Defense Au-
3 thorization Act for Fiscal Year 2020”.

4 **SEC. 2. ORGANIZATION OF ACT INTO DIVISIONS; TABLE OF**
5 **CONTENTS.**

6 (a) DIVISIONS.—This Act is organized into four divi-
7 sions as follows:

8 (1) Division A—Department of Defense Au-
9 thorizations.

10 (2) Division B—Military Construction Author-
11 izations.

12 (3) Division C—Department of Energy Na-
13 tional Security Authorizations and Other Authoriza-
14 tions.

15 (4) Division D—Funding Tables.

16 (5) Division E—Intelligence Authorizations for
17 Fiscal Years 2018, 2019, and 2020.

18 (6) Division F—Other Matters.

19 (b) TABLE OF CONTENTS.—The table of contents for
20 this Act is as follows:

- Sec. 1. Short title.
- Sec. 2. Organization of Act into divisions; table of contents.
- Sec. 3. Congressional defense committees.
- Sec. 4. Budgetary effects of this Act.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

Subtitle A—Authorization Of Appropriations

Sec. 101. Authorization of appropriations.

Subtitle B—Army Programs

Sec. 111. Authority of the Secretary of the Army to waive certain limitations related to the Distributed Common Ground System-Army Increment 1.

Subtitle C—Navy Programs

- Sec. 121. Ford-class aircraft carrier cost limitation baselines.
- Sec. 122. Modification of annual report on cost targets for certain aircraft carriers.
- Sec. 123. Refueling and complex overhauls of the U.S.S. John C. Stennis and U.S.S. Harry S. Truman.
- Sec. 124. Ford class aircraft carrier support for F-35C aircraft.
- Sec. 125. Prohibition on use of funds for reduction of aircraft carrier force structure.
- Sec. 126. Modification of prohibition on availability of funds for Navy waterborne security barriers.
- Sec. 127. LHA Replacement Amphibious Assault Ship Program.
- Sec. 128. Strategic sealift fleet vessel.
- Sec. 129. Design and construction of amphibious transport dock designated LPD-31.
- Sec. 130. Limitation on availability of funds for the Littoral Combat Ship.
- Sec. 131. Limitation on the next new class of Navy large surface combatants.
- Sec. 132. Limitation on availability of funds pending quarterly updates on the CH-53K King Stallion helicopter program.
- Sec. 133. Limitation on availability of funds for VH-92A helicopter.
- Sec. 134. Report on carrier wing and aviation combat element composition.

Subtitle D—Air Force Programs

- Sec. 141. Modification of requirement to preserve certain C-5 aircraft.
- Sec. 142. OC-135B aircraft recapitalization program.
- Sec. 143. Requirement to align Air Force aviation force structure with National Defense Strategy.
- Sec. 144. Prohibition on availability of funds for reduction in KC-10 primary mission aircraft inventory.
- Sec. 145. Limitation on availability of funds for F-15EX aircraft.
- Sec. 146. Limitation on availability of funds for VC-25B aircraft.
- Sec. 147. Limitation on availability of funds for RC-26B aircraft.
- Sec. 148. Limitation on availability of funds for retirement of RC-135 aircraft.
- Sec. 149. Air Force aggressor squadron modernization.
- Sec. 150. Air Force plan for Combat Rescue Helicopter fielding.
- Sec. 151. Report on feasibility of multiyear contract for procurement of JASSM-ER missiles.
- Sec. 152. Report on aircraft fleet of the Civil Air Patrol.
- Sec. 153. Sense of Congress on the light attack aircraft initiative of the Air Force.

Subtitle E—Defense-wide, Joint, and Multiservice Matters

Sec. 161. Economic order quantity contracting and buy-to-budget acquisition for F-35 aircraft program.

- Sec. 162. Relief from contractors for failure to deliver ready-for-issue spare parts for the F-35 aircraft program.
- Sec. 163. Limitation on availability of funds for reallocation of Turkish F-35A aircraft to the United States.
- Sec. 164. Requirement to establish the use of an Agile DevOps software development solution as an alternative for Joint Strike Fighter Autonomic Logistics Information System.
- Sec. 165. F-35 sustainment cost.
- Sec. 166. Reports on the progress and performance of the F-35 aircraft program.
- Sec. 167. Other reports on the F-35 aircraft program.
- Sec. 168. Limitation on availability of funds for communications systems lacking certain resiliency features.
- Sec. 169. Repeal of tactical unmanned vehicle common data link requirement.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Subtitle A—Authorization of Appropriations

- Sec. 201. Authorization of appropriations.

Subtitle B—Program Requirements, Restrictions, and Limitations

- Sec. 211. Program on enhancement of preparation of dependents of members of Armed Forces for careers in science, technology, engineering, and mathematics.
- Sec. 212. Updates to the Department of Defense personnel management authority to attract experts in science and engineering.
- Sec. 213. Establishment of joint reserve detachment of the Defense Innovation Unit.
- Sec. 214. Research and educational programs and activities for Historically Black Colleges and Universities and Minority-Serving Institutions of Higher Education.
- Sec. 215. Modification of authority for prizes for advanced technology achievements.
- Sec. 216. Joint hypersonics transition office.
- Sec. 217. Modification of proof of concept commercialization program.
- Sec. 218. Modification of authority and addition of technology areas for expedited access to technical talent.
- Sec. 219. Expansion of coordination in support of national security innovation and entrepreneurial education.
- Sec. 220. Modification of defense quantum information science and technology research and development program.
- Sec. 221. Understanding of investments in artificial intelligence and development of capabilities by adversaries.
- Sec. 222. Advisory role of JASON scientific advisory group.
- Sec. 223. Direct Air Capture and Blue Carbon Removal Technology Program.
- Sec. 224. Requiring defense microelectronics products and services meet trusted supply chain and operational security standards.
- Sec. 225. Development and acquisition strategy to procure secure, low probability of detection data link network capability.
- Sec. 226. Establishment of secure next-generation wireless network (5G) infrastructure for the Nevada Test and Training Range and base infrastructure.
- Sec. 227. Administration of manufacturing innovation institutes funded by the Department of Defense.

- Sec. 228. Research program on foreign malign influence operations.
- Sec. 229. Diversification of the research and engineering workforce of the Department of Defense.
- Sec. 230. Policy on the talent management of digital expertise and software professionals.
- Sec. 231. Digital engineering capability to automate testing and evaluation.
- Sec. 232. Process to align policy formulation and emerging technology development.
- Sec. 233. Improvement of the Strategic Capabilities Office of the Department of Defense.
- Sec. 234. Pilot program on enhanced civics education.
- Sec. 235. Technology and national security fellowship.
- Sec. 236. Documentation relating to the Advanced Battle Management System.
- Sec. 237. Sensor data integration for fifth generation aircraft.
- Sec. 238. Sense of Congress on future vertical lift technologies.
- Sec. 239. Use of funds for Strategic Environmental Research Program, Environmental Security Technical Certification Program, and Operational Energy Capability Improvement.
- Sec. 240. Limitation and report on Indirect Fire Protection Capability Increment 2 capability.

Subtitle C—Plans, Reports, and Other Matters

- Sec. 251. Master plan for implementation of authorities relating to science and technology reinvention laboratories.
- Sec. 252. Infrastructure to support research, development, test, and evaluation missions.
- Sec. 253. Energetics plan.
- Sec. 254. Strategy and implementation plan for fifth generation information and communications technologies.
- Sec. 255. Department-wide software science and technology strategy.
- Sec. 256. Artificial intelligence education strategy.
- Sec. 257. Cyber science and technology activities roadmap and reports.
- Sec. 258. Report on B-52 commercial engine replacement program.
- Sec. 259. Commercial edge computing technologies and best practices for Department of Defense warfighting systems.
- Sec. 260. Biannual report on the Joint Artificial Intelligence Center.
- Sec. 261. Quarterly updates on the Optionally Manned Fighting Vehicle program.
- Sec. 262. National Study on Defense Research At Historically Black Colleges and Universities and Other Minority Institutions.
- Sec. 263. Study on national security emerging biotechnologies for the Department of Defense.
- Sec. 264. Independent study on optimizing resources allocated to Combating Terrorism Technical Support Office.
- Sec. 265. Independent assessment of electronic warfare plans and programs.
- Sec. 266. Technical correction to Global Research Watch Program.

TITLE III—OPERATION AND MAINTENANCE

Subtitle A—Authorization of Appropriations

- Sec. 301. Authorization of appropriations.

Subtitle B—Energy and Environment

- Sec. 311. Timeline for Clearinghouse review of applications for energy projects that may have an adverse impact on military operations and readiness.
- Sec. 312. Authority to accept contributions of funds from applicants for energy projects for mitigation of impacts on military operations and readiness.
- Sec. 313. Use of proceeds from sale of recyclable materials.
- Sec. 314. Disposal of recyclable materials.
- Sec. 315. Department of Defense improvement of previously conveyed utility systems serving military installations.
- Sec. 316. Modification of Department of Defense environmental restoration authorities to include Federal Government facilities used by National Guard.
- Sec. 317. Use of operational energy cost savings of Department of Defense.
- Sec. 318. Sale of electricity from alternate energy and cogeneration production facilities.
- Sec. 319. Energy resilience programs and activities.
- Sec. 320. Technical and grammatical corrections and repeal of obsolete provisions relating to energy.
- Sec. 321. Transfer authority for funding of study and assessment on health implications of per- and polyfluoroalkyl substances contamination in drinking water by Agency for Toxic Substances and Disease Registry.
- Sec. 322. Replacement of fluorinated aqueous film-forming foam with fluorine-free fire-fighting agent.
- Sec. 323. Prohibition of uncontrolled release of fluorinated aqueous film-forming foam at military installations.
- Sec. 324. Prohibition on use of fluorinated aqueous film forming foam for training exercises.
- Sec. 325. Real-time sound-monitoring at Navy installations where tactical fighter aircraft operate.
- Sec. 326. Development of extreme weather vulnerability and risk assessment tool.
- Sec. 327. Removal of barriers that discourage investments to increase military installation resilience.
- Sec. 328. Budgeting of Department of Defense relating to extreme weather.
- Sec. 329. Prohibition on Perfluoroalkyl Substances and Polyfluoroalkyl Substances in Meals Ready-to-Eat Food Packaging.
- Sec. 330. Disposal of materials containing per- and polyfluoroalkyl substances or aqueous film-forming foam.
- Sec. 331. Agreements to share monitoring data relating to perfluoroalkyl and polyfluoroalkyl substances and other contaminants of concern.
- Sec. 332. Cooperative agreements with States to address contamination by perfluoroalkyl and polyfluoroalkyl substances.
- Sec. 333. Plan to phase out use of burn pits.
- Sec. 334. Information relating to locations of burn pit use.
- Sec. 335. Data quality review of radium testing conducted at certain locations of the Department of the Navy.
- Sec. 336. Reimbursement of Environmental Protection Agency for certain costs in connection with the Twin Cities Army Ammunition Plant, Minnesota.
- Sec. 337. Pilot program for availability of working-capital funds for increased combat capability through energy optimization.
- Sec. 338. Report on efforts to reduce high energy intensity at military installations.

Subtitle C—Treatment of Contaminated Water Near Military Installations

- Sec. 341. Short title.
- Sec. 342. Definitions.
- Sec. 343. Provision of water uncontaminated with perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS) for agricultural purposes.
- Sec. 344. Acquisition of real property by Air Force.
- Sec. 345. Remediation plan.

Subtitle D—Logistics and Sustainment

- Sec. 351. Materiel readiness metrics and objectives.
- Sec. 352. Clarification of authority regarding use of working-capital funds for unspecified minor military construction projects related to revitalization and recapitalization of defense industrial base facilities.
- Sec. 353. Modification to limitation on length of overseas forward deployment of naval vessels.
- Sec. 354. Extension of temporary installation reutilization authority for arsenals, depots, and plants.
- Sec. 355. F-35 Joint Strike Fighter sustainment.
- Sec. 356. Report on strategic policy for prepositioned materiel and equipment.
- Sec. 357. Pilot program to train skilled technicians in critical shipbuilding skills.
- Sec. 358. Requirement for military department inter-service depot maintenance.
- Sec. 359. Strategy to improve infrastructure of certain depots of the Department of Defense.

Subtitle E—Reports

- Sec. 361. Readiness reporting.
- Sec. 362. Technical correction to deadline for transition to Defense Readiness Reporting System Strategic.
- Sec. 363. Report on Navy ship depot maintenance budget.
- Sec. 364. Report on Runit Dome.
- Sec. 365. Prohibition on subjective upgrades by commanders of unit ratings in monthly readiness reporting on military units.
- Sec. 366. Requirement to include foreign language proficiency in readiness reporting systems of Department of Defense.

Subtitle F—Other Matters

- Sec. 371. Prevention of encroachment on military training routes and military operations areas.
- Sec. 372. Expansion and enhancement of authorities on transfer and adoption of military animals.
- Sec. 373. Extension of authority for Secretary of Defense to use Department of Defense reimbursement rate for transportation services provided to certain non-Department of Defense entities.
- Sec. 374. Extension of authority of Secretary of Transportation to issue non-premium aviation insurance.
- Sec. 375. Defense personal property program.
- Sec. 376. Public events about Red Hill Bulk Fuel Storage Facility.
- Sec. 377. Sense of Congress regarding Innovative Readiness Training program.
- Sec. 378. Detonation chambers for explosive ordnance disposal.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

Subtitle A—Active Forces

- Sec. 401. End strengths for active forces.
- Sec. 402. Revisions in permanent active duty end strength minimum levels.

Subtitle B—Reserve Forces

- Sec. 411. End strengths for Selected Reserve.
- Sec. 412. End strengths for Reserves on active duty in support of the reserves.
- Sec. 413. End strengths for military technicians (dual status).
- Sec. 414. Maximum number of reserve personnel authorized to be on active duty for operational support.
- Sec. 415. Authorized strengths for Marine Corps Reserves on active duty.
- Sec. 416. Modification of authorized strength of Air Force Reserve serving on full-time reserve component duty for administration of the reserves or the National Guard.

Subtitle C—Authorization of Appropriations

- Sec. 421. Military personnel.

TITLE V—MILITARY PERSONNEL POLICY

Subtitle A—Officer Personnel Policy

- Sec. 501. Maker of original appointments in a regular or reserve component of commissioned officers previously subject to original appointment in other type of component.
- Sec. 502. Furnishing of adverse information on officers to promotion selection boards.
- Sec. 503. Limitation on number of officers recommendable for promotion by promotion selection boards.
- Sec. 504. Expansion of authority for continuation on active duty of officers in certain military specialties and career tracks.
- Sec. 505. Management policies for joint qualified officers.
- Sec. 506. Modification of authorities on management of deployments of members of the Armed Forces and related unit operating and personnel tempo matters.
- Sec. 507. Personnel tempo of the Armed Forces and the United States Special Operations Command during periods of inapplicability of high-deployment limitations.
- Sec. 508. Permanent authority to defer past age 64 the retirement of chaplains in general and flag officer grades.
- Sec. 509. Higher grade in retirement for officers following reopening of determination or certification of retired grade.
- Sec. 510. Authority of promotion boards to recommend that officers of particular merit be placed higher on promotion list.
- Sec. 510A. Availability on the internet of certain information about officers serving in general or flag officer grades.
- Sec. 510B. Functional badge or insignia upon commission for chaplains.

Subtitle B—Reserve Component Management

- Sec. 511. Modification of grade level threshold for Junior Reserve Officers' Training Corps.

- Sec. 512. Inclusion of STEM in courses of instruction for the Junior Reserve Officers' Training Corps.
- Sec. 513. Inclusion of homeschooled students in Junior Reserve Officers' Training Corps units.
- Sec. 514. Clarification of eligibility to serve as Commander, Marine Forces Reserve.
- Sec. 515. Extension and periodic evaluation of suicide prevention and resilience program for the reserve components.
- Sec. 516. Authority to defer mandatory separation at age 68 of officers in medical specialties in the reserve components.
- Sec. 517. Modernization of inspection authorities applicable to the National Guard.
- Sec. 518. Consultation with Chief of the National Guard Bureau in the appointment or designation of National Guard property and fiscal officers.
- Sec. 519. Coast Guard Junior Reserve Officers' Training Corps.
- Sec. 520. Repeal of requirement for review of certain Army Reserve officer unit vacancy promotions by commanders of associated active duty units.
- Sec. 520A. Report on methods to enhance domestic response to large scale, complex and catastrophic disasters.
- Sec. 520B. Report and briefing on the Senior Reserve Officers' Training Corps.
- Sec. 520C. Sense of Congress on increase in number of Junior Reserve Officers' Training Corps units.

Subtitle C—General Service Authorities and Correction of Military Records

- Sec. 521. Advice and counsel of trauma experts in review by boards for correction of military records and discharge review boards of certain claims.
- Sec. 522. Reduction in required number of members of discharge review boards.
- Sec. 523. Establishment of process to review a request for upgrade of discharge or dismissal.
- Sec. 524. Prohibition on reduction in the number of personnel assigned to duty with a service review agency.
- Sec. 525. Training of members of boards for correction of military records and discharge review boards on sexual trauma, intimate partner violence, spousal abuse, and related matters.
- Sec. 526. Time requirements for certification of honorable service.
- Sec. 527. Correction of certain discharge characterizations.
- Sec. 528. Development of guidelines for use of unofficial sources of information to determine eligibility of members and former members of the Armed Forces for decorations when the service records are incomplete because of damage to the official record.
- Sec. 529. Strategic plan for diversity and inclusion.
- Sec. 530. Study regarding screening individuals who seek to enlist in the Armed Forces.
- Sec. 530A. Feasibility study regarding notification to Secretary of Homeland Security of honorable discharges of non-citizens.
- Sec. 530B. Sense of Congress regarding accession physicals.

Subtitle D—Military Justice

- Sec. 531. Expansion of pre-referral matters reviewable by military judges and military magistrates in the interest of efficiency in military justice.

- Sec. 532. Command influence.
- Sec. 533. Statute of limitations for certain offenses.
- Sec. 534. Public access to dockets, filings, and court records of courts-martial or other records of trial of the military justice system.
- Sec. 535. Extension of Defense Advisory Committee on Investigation, Prosecution, and Defense of Sexual Assault in the Armed Forces.
- Sec. 536. Authority for return of personal property to victims of sexual assault who file a Restricted Report before conclusion of related proceedings.
- Sec. 537. Guidelines on sentences for offenses committed under the Uniform Code of Military Justice.
- Sec. 538. Notification of significant events and documentation of preference for prosecution jurisdiction for victims of sexual assault.
- Sec. 539. Increase in number of digital forensic examiners for certain military criminal investigative organizations.
- Sec. 540. Increase in investigative personnel and Victim Witness Assistance Program liaisons.
- Sec. 540A. Training for sexual assault initial disposition authorities on exercise of disposition authority for sexual assault and collateral offenses.
- Sec. 540B. Training for commanders in the Armed Forces on their role in all stages of military justice in connection with sexual assault.
- Sec. 540C. Timely disposition of nonprosecutable sex-related offenses.
- Sec. 540D. Department of Defense-wide policy and military department-specific programs on reinvigoration of the prevention of sexual assault involving members of the Armed Forces.
- Sec. 540E. Recommendations on separate punitive article in the Uniform Code of Military Justice on sexual harassment.
- Sec. 540F. Report on military justice system involving alternative authority for determining whether to prefer or refer changes for felony offenses under the Uniform Code of Military Justice.
- Sec. 540G. Report on standardization among the military departments in collection and presentation of information on matters within the military justice system.
- Sec. 540H. Report on expansion of Air Force safe to report policy across the Armed Forces.
- Sec. 540I. Assessment of racial, ethnic, and gender disparities in the military justice system.
- Sec. 540J. Pilot programs on defense investigators in the military justice system.
- Sec. 540K. Report on preservation of recourse to restricted report on sexual assault for victims of sexual assault following certain victim or third-party communications.
- Sec. 540L. Report on establishment of guardian ad litem program for certain military dependents who are a victim or witness of an offense under the Uniform Code of Military Justice involving abuse or exploitation.
- Sec. 540M. Comptroller General of the United States report on implementation by the Armed Forces of recent statutory requirements on sexual assault prevention and response in the military.
- Sec. 540N. Sense of Congress on the Port Chicago 50.

Subtitle E—Other Legal Matters

- Sec. 541. Improvement of certain Special Victims' Counsel authorities.

- Sec. 542. Availability of Special Victims' Counsel at military installations.
- Sec. 543. Notification of issuance of military protective order to civilian law enforcement.
- Sec. 544. Copyright protection for civilian faculty of certain accredited institutions.
- Sec. 545. Termination of leases of premises and motor vehicles of servicemembers who incur catastrophic injury or illness or die while in military service.
- Sec. 546. Military orders required for termination of leases pursuant to the Servicemembers Civil Relief Act.
- Sec. 547. Preservation of right to bring class action under Servicemembers Civil Relief Act.
- Sec. 548. Legal counsel for victims of alleged domestic violence offenses.
- Sec. 549. Notice to victims of alleged sexual assault of pendency of further administrative action following a determination not to refer to trial by court-martial.
- Sec. 550. Treatment of information in Catch a Serial Offender Program for certain purposes.
- Sec. 550A. Policies and procedures on registration at military installations of civilian protective orders applicable to members of the Armed Forces assigned to such installations and certain other individuals.
- Sec. 550B. Defense Advisory Committee for the Prevention of Sexual Misconduct.
- Sec. 550C. Training for Special Victims' Counsel on civilian criminal justice matters in the States of the military installations to which assigned.
- Sec. 550D. Enhancing the capability of military criminal investigative organizations to prevent and combat child sexual exploitation.
- Sec. 550E. Feasibility study on establishment of database of military protective orders.
- Sec. 550F. GAO review of USERRA and SCRA.

Subtitle F—Member Education

- Sec. 551. Authority for detail of certain enlisted members of the Armed Forces as students at law schools.
- Sec. 552. Inclusion of Coast Guard in Department of Defense STARBASE Program.
- Sec. 553. Degree granting authority for United States Army Armament Graduate School; limitation on establishment of certain educational institutions.
- Sec. 554. Prohibition on off-duty employment for cadets and midshipmen completing obligated service after graduation.
- Sec. 555. Consideration of request for transfer of a cadet or midshipman at a military service academy who is the victim of a sexual assault or related offense.
- Sec. 556. Redesignation of the Commandant of the United States Air Force Institute of Technology as the Director and Chancellor of such Institute.
- Sec. 557. Eligibility of additional enlisted members for associate degree programs of the Community College of the Air Force.
- Sec. 558. Speech disorders of cadets and midshipmen.
- Sec. 559. Requirement to continue provision of tuition assistance for members of the Armed Forces.

- Sec. 560. Information on institutions of higher education participating in the Department of Defense Tuition Assistance Program.
- Sec. 560A. Inclusion of information on free credit monitoring in annual financial literacy briefing.
- Sec. 560B. Programs to facilitate the award of private pilot's certificates.

Subtitle G—Member Training and Transition

- Sec. 561. Requirement to provide information regarding benefits claims to members during TAP counseling.
- Sec. 562. Participation of other Federal agencies in the SkillBridge apprenticeship and internship program for members of the Armed Forces.
- Sec. 563. First modification of elements of report on the improved Transition Assistance Program.
- Sec. 564. Second modification of elements of report on the improved Transition Assistance Program.
- Sec. 565. Prohibition on gender-segregated training at Marine Corps Recruit Depots.
- Sec. 566. Assessment of deaths of recruits under the jurisdiction of the Secretaries of the military departments.
- Sec. 567. Review of Department of Defense training programs regarding disinformation campaigns.
- Sec. 568. Command matters in connection with transition assistance programs.
- Sec. 569. Machine readability and electronic transferability of Certificate of Release or Discharge from Active Duty (DD Form 214).
- Sec. 570. Records of service for Reserves.
- Sec. 570A. Limitations and requirements in connection with separations for members of the Armed Forces who suffer from mental health conditions in connection with a sex-related, intimate partner violence-related, or spousal-abuse offense.
- Sec. 570B. Prohibition on involuntary separation of certain members of the Armed Forces; consideration of military service in removal determinations.
- Sec. 570C. Inclusion of question regarding immigration status on preseparation counseling checklist (DD Form 2648).
- Sec. 570D. Counseling for members of the Armed Forces who are not citizens of the United States on naturalization in the United States.
- Sec. 570E. Pilot program on information sharing between Department of Defense and designated relatives and friends of members of the Armed Forces regarding the experiences and challenges of military service.
- Sec. 570F. Connections of members retiring or separating from the Armed Forces with community-based organizations and related entities.
- Sec. 570G. Pilot program regarding online application for the Transition Assistance Program.

Subtitle H—Military Family Readiness and Dependents' Education

- Sec. 571. Authorizing members to take leave for a birth or adoption in more than one increment.
- Sec. 572. Deferred deployment for members who give birth.
- Sec. 573. Authority of the Secretary concerned to transport remains of a covered decedent to no more than two places selected by the person designated to direct disposition of the remains.

- Sec. 574. Military funeral honors matters.
- Sec. 575. Improvement of occupational license portability for relocated spouses of members of the uniformed services.
- Sec. 576. Continued eligibility for education and training opportunities for spouses of promoted members.
- Sec. 577. Modification to authority to reimburse for State licensure and certification costs of a spouse of a servicemember arising from relocation.
- Sec. 578. Clarification regarding eligibility to transfer entitlement under Post-9/11 Educational Assistance Program.
- Sec. 579. Annual State report card.
- Sec. 580. Improvements to child care for members of the Armed Forces.
- Sec. 580A. Transportation of remains of casualties; travel expenses for next of kin.
- Sec. 580B. Meetings of officials of the Department of Defense with representative groups of survivors of deceased members of the Armed Forces.
- Sec. 580C. Information and opportunities for registration for voting and absentee ballot requests for members of the Armed Forces undergoing deployment overseas.
- Sec. 580D. Study on two-way military ballot barcode tracking.
- Sec. 580E. Assistance to schools with military dependent students.
- Sec. 580F. First expansion of the My Career Advancement Account program for military spouses.
- Sec. 580G. Second expansion of the My Career Advancement Account program for military spouses.
- Sec. 580H. Report on training and support available to military spouses.
- Sec. 580I. Ri'katak Guest Student Program at United States Army Garrison – Kwajalein Atoll.

Subtitle I—Decorations and Awards

- Sec. 581. Modification of authorities on eligibility for and replacement of gold star lapel buttons.
- Sec. 582. Standardization of honorable service requirement for award of military decorations.
- Sec. 583. Authorization for award of the Medal of Honor to John J. Duffy for acts of valor in Vietnam.
- Sec. 584. Review of World War I valor medals.

Subtitle J—Miscellaneous Reports and Other Matters

- Sec. 591. Clarification of the term “assault” for purposes of Workplace and Gender Relations Surveys.
- Sec. 592. Inclusion of certain veterans on temporary disability or permanent disabled retirement lists in military adaptive sports programs.
- Sec. 593. Questions in surveys regarding extremist activity in the workplace.
- Sec. 594. Study on best practices for providing financial literacy education for separating members of the Armed Forces.
- Sec. 595. Report on oversight of authorized strengths of certain grades of commissioned regular and reserve officers of the Armed Forces.
- Sec. 596. Report on certain waivers.
- Sec. 597. Notifications on manning of afloat naval forces.
- Sec. 598. Report regarding use of aerial systems of the Department of Defense to support agencies of States, Territories, and the Federal Government.

- Sec. 599. Information for members of the Armed Forces on availability of services of the Department of Veterans Affairs relating to sexual trauma.
- Sec. 599A. Authority to issue an honorary promotion to Colonel Charles E. McGee, United States Air Force (ret.), to the grade of brigadier general.
- Sec. 599B. Authority to issue an honorary and posthumous promotion to Lieutenant Colonel Richard Cole, United States Air Force (ret.), to the grade of colonel.
- Sec. 599C. Sense of Congress on the honorable and distinguished service of General Joseph F. Dunford, United States Marine Corps, to the United States.

TITLE VI—MILITARY COMPENSATION

Subtitle A—Pay and Allowances

- Sec. 601. Clarification of continuation of pays during hospitalization and rehabilitation resulting from wounds, injury, or illness incurred while on duty in a hostile fire area or exposed to an event of hostile fire or other hostile action.
- Sec. 602. Continued entitlements while a member of the Armed Forces participates in a career intermission program.
- Sec. 603. Exemption from repayment of voluntary separation pay.
- Sec. 604. Consideration of service on active duty to reduce age of eligibility for retired pay for non-regular service.
- Sec. 605. Temporary adjustment of rates of basic allowance for housing following determination that local civilian housing costs significantly differ from such rates.
- Sec. 606. Reinvestment of travel refunds by the Department of Defense.
- Sec. 607. Addition of partial dislocation allowance to allowable travel and transportation expenses for servicemembers.
- Sec. 608. Reductions on account of earnings from work performed while entitled to an annuity supplement.
- Sec. 609. Increase in basic pay.

Subtitle B—Bonuses and Special Incentive Pays

- Sec. 611. One-year extension of certain expiring bonus and special pay authorities.

Subtitle C—Family and Survivor Benefits

- Sec. 621. Expansion of eligibility for exceptional transitional compensation for dependents to dependents of current members.
- Sec. 622. Phase-out of reduction of Survivor Benefit Plan survivor annuities by amount of dependency and indemnity compensation.
- Sec. 623. Death gratuity for ROTC graduates.
- Sec. 624. Expansion of authority to provide financial assistance to civilian providers of child care services or youth program services who provide such services to survivors of members of the Armed Forces who die in combat in the line of duty.
- Sec. 625. Casualty assistance for survivors of deceased ROTC graduates.

Subtitle D—Defense Resale Matters

- Sec. 631. Defense resale system matters.

- Sec. 632. Procurement by commissary stores of certain locally sourced products.
- Sec. 633. GAO review of defense resale optimization study.

Subtitle E—Morale, Welfare, and Recreation Privileges

- Sec. 641. Extension of certain morale, welfare, and recreation privileges to Foreign Service officers on mandatory home leave.
- Sec. 642. Extension of pilot program on a Government lodging program.

Subtitle F—Reports and Other Matters

- Sec. 651. Annual reports on approval of employment or compensation of retired general or flag officers by foreign governments for emoluments clause purposes.
- Sec. 652. Report regarding transition from overseas housing allowance to basic allowance for housing for servicemembers in the territories.
- Sec. 653. Report on extension to members of the reserve components of the Armed Forces of special and incentive pays for members of the Armed Forces not currently payable to members of the reserve components.
- Sec. 654. Study regarding recoupment of separation pay, special separation benefits, and voluntary separation incentive payments from members of the Armed Forces and veterans who receive disability compensation under laws administered by the Secretary of Veterans Affairs.
- Sec. 655. Report on implementation of contributions to the Department of Defense Military Retirement Fund based on pay costs per Armed Force rather than on Armed Forces-wide basis.
- Sec. 656. Report on food insecurity among members of the Armed Forces and their dependents.

TITLE VII—HEALTH CARE PROVISIONS

Subtitle A—TRICARE and Other Health Care Benefits

- Sec. 701. Modification of eligibility for TRICARE Reserve Select for certain members of the Selected Reserve.
- Sec. 702. TRICARE payment options for retirees and their dependents.
- Sec. 703. Lead level screening and testing for children.
- Sec. 704. Exposure to open burn pits and toxic airborne chemicals or other airborne contaminants as part of periodic health assessments and other physical examinations.
- Sec. 705. Enhancement of recordkeeping with respect to exposure by members of the Armed Forces to certain occupational and environmental hazards while deployed overseas.
- Sec. 706. Modifications to post-deployment mental health assessments for members of the Armed Forces deployed in support of a contingency operation.
- Sec. 707. Provision of blood testing for firefighters of Department of Defense to determine exposure to perfluoroalkyl and polyfluoroalkyl substances.

Subtitle B—Health Care Administration

- Sec. 711. Modification of organization of military health system.

- Sec. 712. Support by military health system of medical requirements of combatant commands.
- Sec. 713. Requirements for certain prescription drug labels.
- Sec. 714. Officers authorized to command Army dental units.
- Sec. 715. Improvements to interagency program office of the Department of Defense and the Department of Veterans Affairs.
- Sec. 716. Expansion of strategy to improve acquisition of managed care support contracts under TRICARE program.
- Sec. 717. Inclusion of blast exposure history in medical records of members of the Armed Forces.
- Sec. 718. Comprehensive policy for provision of mental health care to members of the Armed Forces.
- Sec. 719. Limitation on the realignment or reduction of military medical manning end strength.
- Sec. 720. Strategy to recruit and retain mental health providers.
- Sec. 721. Development of partnerships to improve combat casualty care for personnel of the Armed Forces.
- Sec. 722. Modification to referrals for mental health services.

Subtitle C—Reports and Other Matters

- Sec. 731. Authorization of claims by members of the uniformed services against the United States for personal injury or death caused by medical malpractice.
- Sec. 732. Extension and clarification of authority for Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund.
- Sec. 733. Appointment of non-ex officio members of the Henry M. Jackson Foundation for the Advancement of Military Medicine.
- Sec. 734. Establishment of Academic Health System in National Capital Region.
- Sec. 735. Provision of veterinary services by veterinary professionals of the Department of Defense in emergencies.
- Sec. 736. Three-year extension of authority to continue the DOD-VA Health Care Sharing Incentive Fund.
- Sec. 737. Preservation of resources of the Army Medical Research and Materiel Command and continuation as Center of Excellence.
- Sec. 738. Encouragement of participation in Women's Health Transition Training pilot program.
- Sec. 739. National Guard suicide prevention pilot program.
- Sec. 740. Pilot Program on civilian and military partnerships to enhance interoperability and medical surge capability and capacity of National Disaster Medical System.
- Sec. 741. Reports on suicide among members of the Armed Forces and suicide prevention programs and activities of the Department of Defense.
- Sec. 742. Modification of requirements for longitudinal medical study on blast pressure exposure of members of the Armed Forces and collection of exposure information.
- Sec. 743. Study and plan on the use of military-civilian integrated health delivery systems.
- Sec. 744. Study on case management in the military health system.
- Sec. 745. Report on Global Health Security Strategy and the National Bio-defense Security.
- Sec. 746. Study on establishment of wounded warrior service dog program.

- Sec. 747. GAO report on Department of Defense quality assurance program and impacts of medical malpractice actions.
- Sec. 748. Reports on Millennium Cohort Study relating to women members of the Armed Forces.
- Sec. 749. Study on effects of sleep deprivation on readiness of members of the Armed Forces.
- Sec. 750. Study and report on traumatic brain injury mitigation efforts.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT,
AND RELATED MATTERS

Subtitle A—Acquisition Policy and Management

- Sec. 800. Authority for continuous integration and delivery of software applications and upgrades to embedded systems.
- Sec. 801. Pilot program on intellectual property evaluation for acquisition programs.
- Sec. 802. Pilot program to use alpha contracting teams for complex requirements.
- Sec. 803. Failure to provide other than certified cost or pricing data upon request.
- Sec. 804. Comptroller General report on price reasonableness.
- Sec. 805. Limitation on transfer of funds related to cost overruns and cost underruns.
- Sec. 806. Standardizing data collection and reporting on use of source selection procedures by Federal agencies.
- Sec. 807. Department of Defense use of fixed-price contracts.
- Sec. 808. Repeal of continuation of data rights during challenges.
- Sec. 809. Repeal of authority to waive acquisition laws to acquire vital national security capabilities.
- Sec. 810. Repeal of the Defense Cost Accounting Standards Board.

Subtitle B—Amendments to General Contracting Authorities, Procedures, and
Limitations

- Sec. 815. Modification of Director of Operational Test and Evaluation report.
- Sec. 816. Modification of written approval requirement for task and delivery order single contract awards.
- Sec. 817. Responsibility for data analysis and requirements validation for services contracts.
- Sec. 818. Documentation of market research related to commercial item determinations.
- Sec. 819. Availability of data on the use of other transaction authority and report on the use of authority to carry out prototype projects.
- Sec. 820. Notification of Navy procurement production disruptions.
- Sec. 821. Modification to acquisition authority of the Commander of the United States Cyber Command.
- Sec. 822. Extension of Never Contract With the Enemy.
- Sec. 823. Modification of justification and approval requirement for certain Department of Defense contracts.
- Sec. 824. Extension of sunset relating to Federal Data Center Consolidation Initiative.
- Sec. 825. Pilot program to accelerate contracting and pricing processes.
- Sec. 826. Uniformity in application of micro-purchase threshold to certain task or delivery orders.

Sec. 827. Requirement for cost estimates on models of commercial e-commerce portal program.

Subtitle C—Provisions Relating to Major Defense Acquisition Programs

Sec. 830. Modification of requirements for reporting to Congress on certain acquisition programs.

Sec. 831. Pilot program to streamline decision-making processes for weapon systems.

Sec. 832. Analysis of alternatives pursuant to materiel development decisions.

Sec. 833. Naval vessel certification required before Milestone B approval.

Subtitle D—Provisions Relating to the Acquisition System

Sec. 835. Extramural acquisition innovation and research activities.

Sec. 836. Report on realignment of the defense acquisition system to implement acquisition reforms.

Sec. 837. Report and limitation on the availability of funds relating to the “middle tier” of acquisition programs.

Sec. 838. Report on intellectual property policy and the cadre of intellectual property experts.

Sec. 839. Guidance and reports relating to covered defense business systems.

Sec. 840. Implementation guidance for use of a modular open system approach.

Sec. 841. Limitation on availability of funds for the Office of the Chief Management Officer of the Department of Defense.

Subtitle E—Industrial Base Matters

Sec. 845. Modernization of acquisition processes to ensure integrity of industrial base.

Sec. 846. Report requirements for the national technology and industrial base.

Sec. 847. Mitigating risks related to foreign ownership, control, or influence of Department of Defense contractors or subcontractors.

Sec. 848. Prohibition on operation or procurement of foreign-made unmanned aircraft systems.

Sec. 849. Modification of prohibition on acquisition of sensitive materials from non-allied foreign nations.

Sec. 850. Acquisition and disposal of certain rare earth materials.

Sec. 851. Pilot program for development of technology-enhanced capabilities with partnership intermediaries.

Sec. 852. Authorized official to carry out the procurement technical assistance cooperative agreement program.

Sec. 853. Requirement that certain ship components be manufactured in the national technology and industrial base.

Sec. 854. Addition of domestically produced stainless steel flatware and dinnerware to the Berry Amendment.

Sec. 855. Application of miscellaneous technology base policies and programs to the Columbia-class submarine program.

Sec. 856. Application of limitation on procurement of goods other than United States goods to the FFG—Frigate Program.

Sec. 857. Sense of Congress regarding consideration of price in procurement of the FFG(X) frigate.

Subtitle F—Provisions Relating to Acquisition Workforce

Sec. 860. Establishment of Defense Civilian Training Corps.

- Sec. 861. Defense acquisition workforce certification, education, and career fields.
- Sec. 862. Software development and software acquisition training and management programs.
- Sec. 863. Modification of temporary assignments of Department of Defense employees to a private-sector organization.
- Sec. 864. Incentives and consideration for qualified training programs.
- Sec. 865. Use of qualified apprentices by military construction contractors.

Subtitle G—Small Business Matters

- Sec. 870. Requirements relating to credit for certain small business concern subcontractors.
- Sec. 871. Inclusion of best in class designations in annual report on small business goals.
- Sec. 872. Reauthorization and improvement of Department of Defense Mentor-Protege Program.
- Sec. 873. Accelerated payments applicable to contracts with certain small business concerns under the Prompt Payment Act.
- Sec. 874. Postaward explanations for unsuccessful offerors for certain contracts.
- Sec. 875. Small business contracting credit for subcontractors that are Puerto Rico businesses or covered territory businesses.
- Sec. 876. Technical amendment regarding treatment of certain surviving spouses under the definition of small business concern owned and controlled by service-disabled veterans.
- Sec. 877. Extension of loan assistance and deferral eligibility to reservists and members of the National Guard beyond periods of military conflict.
- Sec. 878. Modification to the Defense Research and Development Rapid Innovation Program.
- Sec. 879. Alignment of the Department of Defense Small Business Innovation Research Program and Small Business Technology Transfer Program with the National Defense Science and Technology Strategy.
- Sec. 880. Assistance for small business concerns participating in the SBIR and STTR programs.
- Sec. 881. Cybersecurity technical assistance for SBIR and STTR programs.
- Sec. 882. Funding for defense research activities of small business concerns.
- Sec. 883. Modifications to budget display requirements for the Department of Defense Small Business Innovation Research Program and Small Business Technology Transfer Program.
- Sec. 884. Pilot program for domestic investment under the SBIR program.

Subtitle H—Other Matters

- Sec. 885. Review of guidance to contractors on nondiscrimination on the basis of sex.
- Sec. 886. Comptroller General report on contractor violations of certain labor laws.
- Sec. 887. Comptroller General report on contingency contracting.
- Sec. 888. Policies and procedures for contractors to report gross violations of internationally recognized human rights.
- Sec. 889. Comptroller General report on oversight of contractors providing private security functions.

- Sec. 890. Prohibition on contracting with persons that have business operations with the Maduro regime.
- Sec. 891. Report on the Combating Trafficking in Persons initiative.
- Sec. 892. Improved management of information technology and cyberspace investments.
- Sec. 893. Modification to requirements for purchase of commercial leasing services pursuant to multiple award contracts.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

Subtitle A—Office of the Secretary of Defense and Related Matters

- Sec. 901. Headquarters activities of the Department of Defense matters.
- Sec. 902. Clarifying the roles and responsibilities of the Under Secretary of Defense for Acquisition and Sustainment and the Under Secretary of Defense for Research and Engineering.
- Sec. 903. Return to Chief Information Officer of the Department of Defense of responsibility for business systems and related matters.
- Sec. 904. Assessments of responsibilities and authorities of the Chief Management Officer of the Department of Defense.
- Sec. 905. Senior Military Advisor for Cyber Policy and Deputy Principal Cyber Advisor.
- Sec. 906. Exclusion from limitations on personnel in the Office of the Secretary of Defense and Department of Defense headquarters of fellows appointed under the John S. McCain Defense Fellows Program.

Subtitle B—Organization and Management of Other Department of Defense Offices and Elements

- Sec. 911. Codification of Assistant Secretaries for Energy, Installations, and Environment of the Army, Navy, and Air Force.

Subtitle C—Other Department of Defense Organization and Management Matters

- Sec. 921. Prohibition on ownership or trading of stocks in certain companies by certain officials of the Department of Defense.
- Sec. 922. Limitation on consolidation of Defense Media Activity.
- Sec. 923. Report on resources to implement the civilian casualty policy of the Department of Defense.

Subtitle D—United States Space Force

- Sec. 951. Short title.
- Sec. 952. The Space Force.
- Sec. 953. Chief of Space Operations.
- Sec. 954. Space Force Acquisition Council.
- Sec. 955. Assistant Secretary of Defense for Space Policy.
- Sec. 956. Assistant Secretary of the Air Force for Space Acquisition and Integration.
- Sec. 957. Service Acquisition Executive of the Department of the Air Force for Space Systems and Programs.
- Sec. 958. Conforming amendments and clarification of authorities.
- Sec. 959. Effects on military installations.
- Sec. 960. Availability of funds.

Sec. 961. Implementation.

TITLE X—GENERAL PROVISIONS

Subtitle A—Financial Matters

- Sec. 1001. General transfer authority.
- Sec. 1002. Defense Business Audit Remediation Plan.
- Sec. 1003. Financial improvement and audit remediation plan.
- Sec. 1004. Reporting requirements relating to Department of Defense audits.
- Sec. 1005. Inclusion of certain military construction projects in annual reports on unfunded priorities of the Armed Forces and the combatant commands.
- Sec. 1006. Prohibition on delegation of responsibility for submittal to Congress of Out-Year Unconstrained Total Munitions Requirements and Out-Year Inventory numbers.
- Sec. 1007. Annual budget justification display for service-common and other support and enabling capabilities for special operations forces.
- Sec. 1008. Element in annual reports on the Financial Improvement and Audit Remediation Plan on activities with respect to classified programs.
- Sec. 1009. Plan of the Department of Defense for financial management information.
- Sec. 1010. Update of authorities and renaming of Department of Defense Acquisition Workforce Development Fund.
- Sec. 1011. Transparency of accounting firms used to support Department of Defense audit.
- Sec. 1012. Modification of required elements of annual reports on emergency and extraordinary expenses of the Department of Defense.

Subtitle B—Counterdrug Activities

- Sec. 1021. Modification of authority to support a unified counterdrug and counterterrorism campaign in Colombia.
- Sec. 1022. Extension of authority for joint task forces to provide support to law enforcement agencies conducting counter-terrorism activities.
- Sec. 1023. Sense of Congress regarding Department of Defense counterdrug activities in the transit zone and Caribbean basin.
- Sec. 1024. Assessment of impact of any planned or proposed border wall on volume of illegal narcotics.

Subtitle C—Naval Vessels

- Sec. 1031. Modification of authority to purchase vessels using funds in National Defense Sealift Fund.
- Sec. 1032. Use of National Defense Sealift Fund for procurement of two used vessels.
- Sec. 1033. Transportation by sea of supplies for the Armed Forces and Defense Agencies.
- Sec. 1034. Senior Technical Authority for each naval vessel class.
- Sec. 1035. Permanent authority for sustaining operational readiness of littoral combat ships on extended deployment.
- Sec. 1036. Formal training for shipboard system programs of record.
- Sec. 1037. Report on shipbuilder training and the defense industrial base.
- Sec. 1038. Use of competitive procedures for CVN-80 and CVN-81 dual aircraft carrier contract.
- Sec. 1039. Report on expanding naval vessel maintenance.

Subtitle D—Counterterrorism

- Sec. 1041. Modification of support of special operations to combat terrorism.
- Sec. 1042. Extension of prohibition on use of funds for transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba, to certain countries.
- Sec. 1043. Extension of prohibition on use of funds for transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba, to the United States.
- Sec. 1044. Extension of prohibition on use of funds to construct or modify facilities in the United States to house detainees transferred from United States Naval Station, Guantanamo Bay, Cuba.
- Sec. 1045. Extension of prohibition on use of funds to close or relinquish control of United States Naval Station, Guantanamo Bay, Cuba.
- Sec. 1046. Chief Medical Officer at United States Naval Station, Guantanamo Bay, Cuba.
- Sec. 1047. Independent assessment on gender and countering violent extremism.

Subtitle E—Miscellaneous Authorities and Limitations

- Sec. 1051. Scheduling of Department of Defense executive aircraft controlled by Secretaries of military departments.
- Sec. 1052. Explosive ordnance defense disposal program.
- Sec. 1053. Technical correction and extension of reporting requirement regarding enhancement of information sharing and coordination of military training between Department of Homeland Security and Department of Defense.
- Sec. 1054. Notification on the provision of defense sensitive support.
- Sec. 1055. Revision to authorities relating to mail service for members of the Armed Forces and Department of Defense civilians overseas.
- Sec. 1056. Access to and use of military post offices by United States citizens employed overseas by the North Atlantic Treaty Organization who perform functions in support of military operations of the Armed Forces.
- Sec. 1057. Expenditure of funds for Department of Defense intelligence and counterintelligence activities.
- Sec. 1058. Limitation on use of funds for the inactivation of Army watercraft units.

TITLE XI—CIVILIAN PERSONNEL MATTERS

Subtitle A—General Provisions

- Sec. 1101. Defense Advanced Research Projects Agency personnel management authority.
- Sec. 1102. Report on the probationary period for Department of Defense employees.
- Sec. 1103. Civilian personnel management.
- Sec. 1104. One-year extension of temporary authority to grant allowances, benefits, and gratuities to civilian personnel on official duty in a combat zone.
- Sec. 1105. One-year extension of authority to waive annual limitation on premium pay and aggregate limitation on pay for Federal civilian employees working overseas.
- Sec. 1106. Performance of civilian functions by military personnel.

- Sec. 1107. Extension of direct hire authority for domestic industrial base facilities and Major Range and Test Facilities Base.
- Sec. 1108. Authority to provide additional allowances and benefits for certain Defense Clandestine Service employees.
- Sec. 1109. Modification of direct hire authorities for the Department of Defense.
- Sec. 1110. Designating certain FEHBP and FEGLI services provided by Federal employees as excepted services under the Anti-Deficiency Act.
- Sec. 1111. Continuing supplemental dental and vision benefits and long-term care insurance coverage during a Government shutdown.
- Sec. 1112. Limitation on transfer of Office of Personnel Management.
- Sec. 1113. Assessment of Accelerated Promotion Program suspension.
- Sec. 1114. Reimbursement for Federal, State, and local income taxes incurred during travel, transportation, and relocation.
- Sec. 1115. Clarification of limitation on expedited hiring authority for post-secondary students.
- Sec. 1116. Modification of temporary assignments of Department of Defense employees to a private-sector organization.
- Sec. 1117. Extension of authority for part-time reemployment.

Subtitle B—Fair Chance Act

- Sec. 1121. Short title.
- Sec. 1122. Prohibition on criminal history inquiries prior to conditional offer for Federal employment.
- Sec. 1123. Prohibition on criminal history inquiries by contractors prior to conditional offer.
- Sec. 1124. Report on employment of individuals formerly incarcerated in Federal prisons.

Subtitle C—ATC Hiring Reform

- Sec. 1131. Short title; definition.
- Sec. 1132. Hiring of air traffic control specialists.
- Sec. 1133. Ensuring hiring preference for applicants with experience at an air traffic control facility of the National Guard.
- Sec. 1134. FAA reports on air traffic controller hiring and training.
- Sec. 1135. DOT Inspector General review and report.

TITLE XII—MATTERS RELATING TO FOREIGN NATIONS

Subtitle A—Assistance and Training

- Sec. 1201. Modification of authority to build capacity of foreign security forces.
- Sec. 1202. Modification and extension of cross servicing agreements for loan of personnel protection and personnel survivability equipment in coalition operations.
- Sec. 1203. Modifications of authorities relating to acquisition and cross-servicing agreements.
- Sec. 1204. Modification of quarterly report on obligation and expenditure of funds for security cooperation programs and activities.
- Sec. 1205. Gender perspectives and participation by women in security cooperation activities.

- Sec. 1206. Plan to provide consistency of administration of authorities relating to vetting of units of security forces of foreign countries; modification of assessment, monitoring, and evaluation of security cooperation programs and activities.
- Sec. 1207. Extension of authority for support of special operations for irregular warfare.
- Sec. 1208. Extension and modification of Commanders' Emergency Response Program and elimination of certain payments to redress injury and loss.
- Sec. 1209. Two-year extension of program authority for Global Security Contingency Fund.
- Sec. 1210. Legal institutional capacity building initiative for foreign defense institutions.
- Sec. 1210A. Department of Defense support for stabilization activities in national security interest of the United States.

Subtitle B—Matters Relating to Afghanistan and Pakistan

- Sec. 1211. Extension of authority to transfer defense articles and provide defense services to the military and security forces of Afghanistan.
- Sec. 1212. Extension and modification of authority to acquire products and services produced in countries along a major route of supply to Afghanistan.
- Sec. 1213. Authority for certain payments to redress injury and loss.
- Sec. 1214. Extension and modification of semiannual report on enhancing security and stability in Afghanistan.
- Sec. 1215. Special Immigrant Visa program reporting requirement.
- Sec. 1216. Meaningful inclusion of Afghan women in peace negotiations.
- Sec. 1217. Extension and modification of authority for reimbursement of certain coalition nations for support provided to United States military operations.
- Sec. 1218. Support for reconciliation activities led by the Government of Afghanistan.
- Sec. 1219. Modification and extension of the Afghan Special Immigrant Visa Program.

Subtitle C—Matters Relating to Syria, Iraq, and Iran

- Sec. 1221. Modification of authority and limitation on use of funds to provide assistance to counter the Islamic State of Iraq and Syria.
- Sec. 1222. Extension and modification of authority to provide assistance to vetted Syrian groups and individuals.
- Sec. 1223. Modification of authority to support operations and activities of the Office of Security Cooperation in Iraq.
- Sec. 1224. Establishing a coordinator for detained ISIS members and relevant displaced populations in Syria.
- Sec. 1225. Report on lessons learned from efforts to liberate Mosul and Raqqah from control of the Islamic State of Iraq and Syria.
- Sec. 1226. Expansion of availability of financial assets of Iran to victims of terrorism.
- Sec. 1227. Report on the status of deconfliction channels with Iran.
- Sec. 1228. Prohibition on provision of weapons and other forms of support to certain organizations.

Subtitle D—Matters Relating to the Russian Federation

- Sec. 1231. Extension of limitation on military cooperation between the United States and Russia.
- Sec. 1232. Prohibition on availability of funds relating to sovereignty of Russia over Crimea.
- Sec. 1233. Sense of Congress on updating and modernizing existing agreements to avert miscalculation between the United States and Russia.
- Sec. 1234. United States participation in Open Skies Treaty.
- Sec. 1235. Modifications of briefing, notification, and reporting requirements relating to non-compliance by the Russian Federation with its obligations under the INF Treaty.
- Sec. 1236. Report on treaties relating to nuclear arms control.
- Sec. 1237. Reports relating to the New START Treaty.
- Sec. 1238. Report on military activities of the Russian Federation and the People's Republic of China in the Arctic region.
- Sec. 1239. Updated strategy to counter the threat of malign influence by the Russian Federation and other countries.

Subtitle E—Matters Relating to Europe and NATO

- Sec. 1241. Sense of Congress on support for the North Atlantic Treaty Organization.
- Sec. 1242. Prohibition on the use of funds to suspend, terminate, or provide notice of denunciation of the North Atlantic Treaty.
- Sec. 1243. Future years plans and planning transparency for the European Deterrence Initiative.
- Sec. 1244. Modification and extension of Ukraine Security Assistance Initiative.
- Sec. 1245. Limitation on transfer of F-35 aircraft to Turkey.
- Sec. 1246. Baltic defense assessment; extension and modification of security assistance for Baltic countries for joint program for interoperability and deterrence against aggression.
- Sec. 1247. Extension of authority for and report on training for Eastern European national security forces in the course of multilateral exercises.
- Sec. 1248. Extension and modification of NATO Special Operations Headquarters.
- Sec. 1249. North Atlantic Treaty Organization Joint Force Command.
- Sec. 1250. Report on North Atlantic Treaty Organization Readiness Initiative.
- Sec. 1250A. Repeal of prohibition on transfer of articles on the United States munitions list to the Republic of Cyprus.

Subtitle F—Matters Relating to the Indo-Pacific Region

- Sec. 1251. Modification of Indo-Pacific Maritime Security Initiative.
- Sec. 1252. Expansion of Indo-Pacific Maritime Security Initiative and limitation on use of funds.
- Sec. 1253. Report on resourcing United States defense requirements for the Indo-Pacific region and study on competitive strategies.
- Sec. 1254. Limitation on use of funds to reduce the total number of members of the Armed Forces serving on active duty who are deployed to South Korea.
- Sec. 1255. Report on direct, indirect, and burden-sharing contributions of Japan and South Korea.
- Sec. 1256. Sense of Congress on security commitments to the Governments of Japan and the Republic of Korea and trilateral cooperation among the United States, Japan, and the Republic of Korea.
- Sec. 1257. Sense of Congress on North Korea.

- Sec. 1258. Statement of policy and sense of Congress on, and strategy to fulfill obligations under, Mutual Defense Treaty with the Republic of the Philippines.
- Sec. 1259. Report on security cooperation with the Philippine National Police.
- Sec. 1260. Modification of annual report on military and security developments involving the People's Republic of China.
- Sec. 1260A. Report on foreign military activities in Pacific Island countries.
- Sec. 1260B. Report on cybersecurity activities with Taiwan.
- Sec. 1260C. Review and report related to the Taiwan Relations Act.
- Sec. 1260D. Sense of Congress on enhancement of the United States-Taiwan defense relationship.
- Sec. 1260E. Chinese foreign direct investment in countries of the Arctic region.
- Sec. 1260F. Sense of Congress on policy toward Hong Kong.
- Sec. 1260G. Sense of Congress on enhancing defense and security cooperation with the Republic of Singapore.
- Sec. 1260H. Authority to transfer funds for Bien Hoa dioxin cleanup.
- Sec. 1260I. Limitation on removal of Huawei Technologies Co. Ltd. from entity list of Bureau of Industry and Security.
- Sec. 1260J. Report on ZTE compliance with Superseding Settlement Agreement and Superseding Order.
- Sec. 1260K. Report on the lay-down of United States Marines in the Indo-Pacific Region.

Subtitle G—Other Matters

- Sec. 1261. Modification to report on legal and policy frameworks for the use of military force.
- Sec. 1262. Independent review of sufficiency of resources available to United States Southern Command and United States Africa Command.
- Sec. 1263. United States Central Command posture assessment and review.
- Sec. 1264. Limitation on production of nuclear proliferation assessment statements.
- Sec. 1265. Western Hemisphere resource assessment.
- Sec. 1266. Human rights in Brazil.
- Sec. 1267. Certification relating to assistance for Guatemala.
- Sec. 1268. Independent analysis of human rights situation in Honduras.
- Sec. 1269. Briefing on strategy to improve the efforts of the Nigerian military to prevent, mitigate, and respond to civilian harm.
- Sec. 1270. Report on implications of Chinese military presence in Djibouti.
- Sec. 1271. Rule of construction on the permanent stationing of United States Armed Forces in Somalia.
- Sec. 1272. Defense and diplomatic strategy for Libya.
- Sec. 1273. Prohibition on in-flight refueling to non-United States aircraft that engage in hostilities in the ongoing civil war in Yemen.
- Sec. 1274. Report on Saudi-led coalition strikes in Yemen.
- Sec. 1275. Reports on expenses incurred for in-flight refueling of Saudi coalition aircraft conducting missions relating to civil war in Yemen.
- Sec. 1276. Report on Saudi Arabia's human rights record.
- Sec. 1277. Report on intelligence community assessment relating to the killing of Washington Post columnist Jamal Khashoggi.
- Sec. 1278. United States-Israel cooperation to counter unmanned aerial systems.

- Sec. 1279. Extension and modification of authority for United States-Israel anti-tunnel cooperation activities.
- Sec. 1280. Report on cost imposition strategy.
- Sec. 1281. Modification of initiative to support protection of national security academic researchers from undue influence and other security threats.
- Sec. 1282. Modification of responsibility for policy on civilian casualty matters.
- Sec. 1283. Report on export of certain satellites to entities with certain beneficial ownership structures.
- Sec. 1284. Rule of construction relating to the use of military force.
- Sec. 1285. Reports and briefings on use of military force and support of partner forces.

TITLE XIII—COOPERATIVE THREAT REDUCTION

- Sec. 1301. Funding allocations; specification of cooperative threat reduction funds.

TITLE XIV—OTHER AUTHORIZATIONS

Subtitle A—Military Programs

- Sec. 1401. Working capital funds.
- Sec. 1402. Chemical agents and munitions destruction, defense.
- Sec. 1403. Drug interdiction and counter-drug activities, defense-wide.
- Sec. 1404. Defense inspector general.
- Sec. 1405. Defense health program.

Subtitle B—Other Matters

- Sec. 1411. Authority for transfer of funds to joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund for Captain James A. Lovell Health Care Center, Illinois.
- Sec. 1412. Authorization of appropriations for Armed Forces Retirement Home.

TITLE XV—AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR OVERSEAS CONTINGENCY OPERATIONS

- Sec. 1501. Purpose.
- Sec. 1502. Treatment as additional authorizations.

Subtitle A—Authorization of Appropriations for Overseas Contingency Operations

- Sec. 1511. Overseas contingency operations.
- Sec. 1512. Procurement.
- Sec. 1513. Research, development, test, and evaluation.
- Sec. 1514. Operation and maintenance.
- Sec. 1515. Military personnel.
- Sec. 1516. Working capital funds.
- Sec. 1517. Drug interdiction and counter-drug activities, defense-wide.
- Sec. 1518. Defense inspector general.
- Sec. 1519. Defense health program.
- Sec. 1520. Afghanistan security forces fund.
- Sec. 1520A. Special transfer authority.

Subtitle B—Authorization of Appropriations for Emergency Funds for
Recovery and Restoration

- Sec. 1521. Procurement.
- Sec. 1522. Research, development, test, and evaluation.
- Sec. 1523. Operation and maintenance.
- Sec. 1524. Restriction on transfer of funds authorized by this subtitle.

TITLE XVI—STRATEGIC PROGRAMS, CYBER, AND INTELLIGENCE
MATTERS

Subtitle A—Space Activities

- Sec. 1601. Repeal of requirement to establish United States Space Command as a subordinate unified command of the United States Strategic Command.
- Sec. 1602. Coordination of modernization efforts relating to military-code capable GPS receiver cards.
- Sec. 1603. Demonstration of backup and complementary positioning, navigation, and timing capabilities of Global Positioning System.
- Sec. 1604. Annual determination on plan on full integration and exploitation of overhead persistent infrared capability.
- Sec. 1605. Space-based environmental monitoring mission requirements.
- Sec. 1606. Resilient enterprise ground architecture.
- Sec. 1607. Prototype program for multi-global navigation satellite system receiver development.
- Sec. 1608. Commercial space situational awareness capabilities.
- Sec. 1609. Program to enhance and improve launch support and infrastructure.
- Sec. 1610. Preparation to implement plan for use of allied launch vehicles.
- Sec. 1611. Independent study on plan for deterrence in space.
- Sec. 1612. Study on leveraging diverse commercial satellite remote sensing capabilities.
- Sec. 1613. Annual report on Space Command and Control program.
- Sec. 1614. Report on space debris.

Subtitle B—Defense Intelligence and Intelligence-Related Activities

- Sec. 1621. Redesignation of Under Secretary of Defense for Intelligence as Under Secretary of Defense for Intelligence and Security.
- Sec. 1622. Modifications to ISR Integration Council and annual briefing requirements.
- Sec. 1623. Modification of annual authorization of appropriations for National Flagship Language Initiative.
- Sec. 1624. Improving the onboarding methodology for intelligence personnel.
- Sec. 1625. Defense Counterintelligence and Security Agency activities on facilitating access to local criminal records historical data.
- Sec. 1626. Survey and report on alignment of intelligence collections capabilities and activities with Department of Defense requirements.
- Sec. 1627. Reports on Consolidated Adjudication Facility of the Defense Counterintelligence and Security Agency.
- Sec. 1628. Report on the expanded purview of the Defense Counterintelligence and Security Agency.
- Sec. 1629. Termination of requirement for Department of Defense facility access clearances for joint ventures composed of previously-cleared entities.

Subtitle C—Cyberspace-Related Matters

- Sec. 1631. Matters relating to military operations in the information environment.
- Sec. 1632. Notification requirements for sensitive military cyber operations.
- Sec. 1633. Evaluation of cyber vulnerabilities of major weapon systems of the Department of Defense.
- Sec. 1634. Quarterly assessments of the readiness of Cyber Mission Forces.
- Sec. 1635. Cyber posture review.
- Sec. 1636. Modification of elements of assessment required for termination of dual-hat arrangement for Commander of the United States Cyber Command.
- Sec. 1637. Modification of cyber scholarship program.
- Sec. 1638. Tier 1 exercise of support to civil authorities for a cyber incident.
- Sec. 1639. Extension of the Cyberspace Solarium Commission.
- Sec. 1640. Authority to use operation and maintenance funds for cyber operations-peculiar capability development projects.
- Sec. 1641. Role of Chief Information Officer in improving enterprise-wide cybersecurity.
- Sec. 1642. Notification of delegation of authorities to the Secretary of Defense for military operations in cyberspace.
- Sec. 1643. Limitation of funding for Consolidated Afloat Networks and Enterprise Services.
- Sec. 1644. Annual military cyberspace operations report.
- Sec. 1645. Annual report on cyber attacks and intrusions against the Department of Defense by certain foreign entities.
- Sec. 1646. Control and analysis of Department of Defense data stolen through cyberspace.
- Sec. 1647. Use of National Security Agency cybersecurity expertise to support evaluation of commercial cybersecurity products.
- Sec. 1648. Framework to enhance cybersecurity of the United States defense industrial base.
- Sec. 1649. Report on cybersecurity training programs.
- Sec. 1650. National Security Presidential Memorandums relating to Department of Defense operations in cyberspace.
- Sec. 1651. Reorientation of Big Data Platform program.
- Sec. 1652. Zero-based review of Department of Defense cyber and information technology personnel.
- Sec. 1653. Study on improving cyber career paths in the Navy.
- Sec. 1654. Accreditation standards and processes for cybersecurity and information technology products and services.
- Sec. 1655. Study on future cyber warfighting capabilities of Department of Defense.
- Sec. 1656. Study to determine the optimal strategy for structuring and manning elements of the Joint Force Headquarters–Cyber Organizations, Joint Mission Operations Centers, and Cyber Operations–Integrated Planning Elements.
- Sec. 1657. Cyber governance structures and Principal Cyber Advisors on military cyber force matters.
- Sec. 1658. Designation of test networks for testing and accreditation of cybersecurity products and services.
- Sec. 1659. Consortia of universities to advise Secretary of Defense on cybersecurity matters.
- Sec. 1660. Joint assessment of Department of Defense cyber red team capabilities, capacity, demand, and requirements.

Subtitle D—Nuclear Forces

- Sec. 1661. Conforming amendment to Council on Oversight of the National Leadership Command, Control, and Communications System.
- Sec. 1662. Modification of authorities relating to nuclear command, control, and communications system.
- Sec. 1663. Briefings on meetings held by Nuclear Weapons Council.
- Sec. 1664. Consideration of budget matters at meetings of Nuclear Weapons Council.
- Sec. 1665. Improvement to annual report on the modernization of the nuclear weapons enterprise.
- Sec. 1666. Expansion of officials required to conduct biennial assessments of delivery platforms for nuclear weapons and nuclear command and control system.
- Sec. 1667. Extension of annual briefing on costs of forward-deploying nuclear weapons in Europe.
- Sec. 1668. Elimination of conventional requirement for long-range standoff weapon.
- Sec. 1669. Briefing on long-range standoff weapon and sea-launched cruise missile.
- Sec. 1670. Extension of prohibition on availability of funds for mobile variant of ground-based strategic deterrent missile.
- Sec. 1671. Reports on development of ground-based strategic deterrent weapon.
- Sec. 1672. Prohibition on reduction of the intercontinental ballistic missiles of the United States.
- Sec. 1673. Independent study on policy of no-first-use of nuclear weapons.
- Sec. 1674. Independent study on risks of nuclear terrorism and nuclear war.
- Sec. 1675. Report on military-to-military dialogue to reduce risks of miscalculation leading to nuclear war.
- Sec. 1676. Report on nuclear forces of the United States and near-peer countries.
- Sec. 1677. Report on operation of conventional forces of military departments under employment or threat of employment of nuclear weapons.
- Sec. 1678. Report on operation of conventional forces of certain combatant commands under employment or threat of employment of nuclear weapons.
- Sec. 1679. Briefings on plan for future-systems-level architecture of nuclear command, control, and communications systems.
- Sec. 1680. Sense of Congress on nuclear deterrence commitments of the United States.

Subtitle E—Missile Defense Programs

- Sec. 1681. National missile defense policy.
- Sec. 1682. Development of space-based ballistic missile intercept layer.
- Sec. 1683. Development of hypersonic and ballistic missile tracking space sensor payload.
- Sec. 1684. Modifications to required testing by Missile Defense Agency of ground-based midcourse defense element of ballistic missile defense system.
- Sec. 1685. Iron Dome short-range rocket defense system and Israeli cooperative missile defense program co-development and co-production.
- Sec. 1686. Limitation on availability of funds for lower tier air and missile defense sensor.
- Sec. 1687. Plan for the redesigned kill vehicle replacement.
- Sec. 1688. Organization, authorities, and billets of the Missile Defense Agency.

- Sec. 1689. Annual assessment of ballistic missile defense system.
- Sec. 1690. Command and control, battle management, and communications program.
- Sec. 1691. Missile defense interceptor site in contiguous United States.
- Sec. 1692. Independent study on impacts of missile defense development and deployment.
- Sec. 1693. Report and briefing on multi-volume kill capability.

Subtitle F—Other Matters

- Sec. 1694. Extension of authorization for protection of certain facilities and assets from unmanned aircraft.
- Sec. 1695. Repeal of requirement for commission on electromagnetic pulse attacks and similar events.
- Sec. 1696. Repeal of review requirement for ammonium perchlorate report.
- Sec. 1697. Transferability of conventional prompt global strike weapon system technologies to surface-launched platforms.
- Sec. 1698. Prohibition on availability of funds for certain offensive ground-launched ballistic or cruise missile systems.
- Sec. 1699. Hard and deeply buried targets.

TITLE XVII—REPORTS AND OTHER MATTERS

Subtitle A—Studies and Reports

- Sec. 1701. Modification of annual reporting requirements on defense manpower.
- Sec. 1702. Termination of requirement for submittal to Congress of certain recurring reports.
- Sec. 1703. Modification of annual report on civilian casualties in connection with United States military operations.
- Sec. 1704. Extension of requirement for briefings on the national biodefense strategy.
- Sec. 1705. Authorization of appropriations for title III of the Defense Production Act of 1950.
- Sec. 1706. Report on the Department of Defense plan for mass-casualty disaster response operations in the Arctic.
- Sec. 1707. Transmittal to Congress of requests for assistance from other departments of the Federal Government that are approved by the Department of Defense.
- Sec. 1708. Report and briefing on implementation of national defense strategy.
- Sec. 1709. Actions to increase analytic support.
- Sec. 1710. Inclusion of certain individuals investigated by Inspectors General in the semiannual report.
- Sec. 1711. Annual report on Joint Military Information Support Operations Web Operations Center.
- Sec. 1712. Mobility capability requirements study.
- Sec. 1713. Assessment of special operations force structure.
- Sec. 1714. Army aviation strategic plan and modernization roadmap.
- Sec. 1715. Report on ground-based long-range artillery to counter land and maritime threats.
- Sec. 1716. Independent review of transportation working-capital fund.
- Sec. 1717. Geographic command risk assessment of proposed use of certain aircraft capabilities.
- Sec. 1718. Report on backlog of personnel security clearance adjudications.

- Sec. 1719. Report regarding outstanding Government Accountability Office recommendations.
- Sec. 1720. Report on National Guard and United States Northern Command capacity to meet homeland defense and security incidents.
- Sec. 1721. Assessment of standards, processes, procedures, and policy relating to civilian casualties.
- Sec. 1722. Report on transfers of equipment to prohibited entities.
- Sec. 1723. Annual report on strikes undertaken by the United States against terrorist targets outside areas of active hostilities.
- Sec. 1724. Review and assessment of mitigation of military helicopter noise.

Subtitle B—Other Matters

- Sec. 1731. Technical, conforming, and clerical amendments.
- Sec. 1732. Establishment of lead Inspector General for an overseas contingency operation based on Secretary of Defense notification.
- Sec. 1733. Clarification of authority of Inspectors General for overseas contingency operations.
- Sec. 1734. Employment status of annuitants for Inspectors General for overseas contingency operations.
- Sec. 1735. Extension of National Security Commission on Artificial Intelligence.
- Sec. 1736. Exemption from calculation of monthly income, for purposes of bankruptcy laws, of certain payments from the Department of Veterans Affairs and the Department of Defense.
- Sec. 1737. Extension of postage stamp for breast cancer research.
- Sec. 1738. National Commission on Military Aviation Safety.
- Sec. 1739. Guarantee of residency for spouses of members of the uniformed services.
- Sec. 1740. Electromagnetic pulses and geomagnetic disturbances.
- Sec. 1741. Improvements to Manufacturing USA Program.
- Sec. 1742. Regional innovation program.
- Sec. 1743. Aviation workforce development.
- Sec. 1744. Oversight of Department of Defense execute orders.
- Sec. 1745. Processes and procedures for notifications regarding special operations forces.
- Sec. 1746. Securing American science and technology.
- Sec. 1747. Standardized policy guidance for calculating aircraft operation and sustainment costs.
- Sec. 1748. Special Federal Aviation Regulation Working Group.
- Sec. 1749. Prohibition on names related to the Confederacy.
- Sec. 1750. Support for National Maritime Heritage Grants program.
- Sec. 1751. Support for world language advancement and readiness.
- Sec. 1752. Designation of Department of Defense strategic Arctic ports.
- Sec. 1753. Independent studies regarding potential cost savings with respect to the nuclear security enterprise and force structure .
- Sec. 1754. Comprehensive Department of Defense policy on collective self-defense.
- Sec. 1755. Policy regarding the transition of data and applications to the cloud.
- Sec. 1756. Integrated public alert and warning system.
- Sec. 1757. Improving quality of information in background investigation request packages.
- Sec. 1758. Parole in place for members of the Armed Forces and certain military dependents.

- Sec. 1759. Report on reducing the backlog in legally required historical declassification obligations of the Department of Defense.
- Sec. 1760. Military type certification for light attack experimentation aircraft.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

- Sec. 2001. Short title.
- Sec. 2002. Expiration of authorizations and amounts required to be specified by law.
- Sec. 2003. Effective date.

TITLE XXI—ARMY MILITARY CONSTRUCTION

- Sec. 2101. Authorized Army construction and land acquisition projects.
- Sec. 2102. Family housing.
- Sec. 2103. Authorization of appropriations, Army.
- Sec. 2104. Modification of authority to carry out certain fiscal year 2019 projects.

TITLE XXII—NAVY MILITARY CONSTRUCTION

- Sec. 2201. Authorized Navy construction and land acquisition projects.
- Sec. 2202. Family housing.
- Sec. 2203. Improvements to military family housing units.
- Sec. 2204. Authorization of appropriations, Navy.
- Sec. 2205. Modification of authority to carry out certain fiscal year 2017 project.

TITLE XXIII—AIR FORCE MILITARY CONSTRUCTION

- Sec. 2301. Authorized Air Force construction and land acquisition projects.
- Sec. 2302. Family housing.
- Sec. 2303. Improvements to military family housing units.
- Sec. 2304. Authorization of appropriations, Air Force.
- Sec. 2305. Modification of authorities to carry out phased Joint Intelligence Analysis Complex consolidation.
- Sec. 2306. Modification of authority to carry out certain fiscal year 2016 project.
- Sec. 2307. Modification of authority to carry out certain fiscal year 2017 project.
- Sec. 2308. Modification of authority to carry out certain fiscal year 2018 projects.
- Sec. 2309. Modification of authority to carry out certain fiscal year 2019 projects.

TITLE XXIV—DEFENSE AGENCIES MILITARY CONSTRUCTION

- Sec. 2401. Authorized Defense Agencies construction and land acquisition projects.
- Sec. 2402. Authorized Energy Resilience and Conservation Investment Program projects.
- Sec. 2403. Authorization of appropriations, Defense Agencies.

TITLE XXV—INTERNATIONAL PROGRAMS

Subtitle A—North Atlantic Treaty Organization Security Investment Program

- Sec. 2501. Authorized NATO construction and land acquisition projects.

Sec. 2502. Authorization of appropriations, NATO.

Subtitle B—Host Country In-kind Contributions

Sec. 2511. Republic of Korea funded construction projects.

TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES

Sec. 2601. Authorized Army National Guard construction and land acquisition projects.

Sec. 2602. Authorized Army Reserve construction and land acquisition projects.

Sec. 2603. Authorized Navy Reserve and Marine Corps Reserve construction and land acquisition projects.

Sec. 2604. Authorized Air National Guard construction and land acquisition projects.

Sec. 2605. Authorized Air Force Reserve construction and land acquisition projects.

Sec. 2606. Authorization of appropriations, National Guard and Reserve.

TITLE XXVII—BASE REALIGNMENT AND CLOSURE ACTIVITIES

Sec. 2701. Authorization of appropriations for base realignment and closure activities funded through Department of Defense base closure account.

Sec. 2702. Prohibition on conducting additional base realignment and closure (BRAC) round.

TITLE XXVIII—MILITARY CONSTRUCTION GENERAL PROVISIONS

Subtitle A—Military Construction Program

Sec. 2801. Military installation resilience plans and projects.

Sec. 2802. Improved consultation with tribal governments when proposed military construction projects potentially impact Indian tribes.

Sec. 2803. Increased authority for use of certain appropriations amounts for restoration or replacement of damaged or destroyed facilities.

Sec. 2804. Amendment of Unified Facilities Criteria to promote military installation resilience, energy resilience, energy and climate resiliency, and cyber resilience.

Sec. 2805. Modification to Department of Defense Form 1391 regarding consideration of potential long-term adverse environmental effects.

Sec. 2806. Improved flood risk disclosure for military construction.

Sec. 2807. Prioritization of projects in annual report on unfunded requirements for laboratory military construction projects.

Sec. 2808. Technical corrections and improvements to defense access road resilience.

Sec. 2809. Military construction projects for child development centers at military installations.

Sec. 2810. Prohibition on use of funds to reduce air base resiliency or demolish protected aircraft shelters in the European theater without creating a similar protection from attack.

Sec. 2811. Prohibition on use of funds to close or return certain bases to the host nation.

Subtitle B—Real Property and Facilities Administration

Sec. 2821. Improved energy security for main operating bases in Europe.

Sec. 2822. Access to Department of Defense installations for credentialed transportation workers.

Sec. 2823. Improved recording and maintaining of Department of Defense real property data.

Subtitle C—Land Conveyances

Sec. 2831. Land conveyance, Hill Air Force Base, Ogden, Utah.

Sec. 2832. Release of interests retained in Camp Joseph T. Robinson, Arkansas, for use of such land as a veterans cemetery.

Sec. 2833. Modification of authorized uses of certain property conveyed by the United States in Los Angeles, California.

Sec. 2834. Transfer of administrative jurisdiction over certain parcels of Federal land in Arlington, Virginia.

Subtitle D—Military Land Withdrawals

Sec. 2841. Public notice regarding upcoming periods of Secretary of the Navy management of Shared Use Area of the Johnson Valley Off-Highway Vehicle Recreation Area.

Subtitle E—White Sands National Park and White Sands Missile Range

Sec. 2851. White Sands Missile Range Land Enhancements.

Subtitle F—Other Matters

Sec. 2861. Installation and maintenance of fire extinguishers in Department of Defense facilities.

Sec. 2862. Definition of community infrastructure for purposes of military base reuse studies and community planning assistance.

Sec. 2863. Temporary authority for acceptance and use of contributions for certain design and construction projects mutually beneficial to the Department of Defense and the Republic of Korea.

Sec. 2864. Black start exercises at military installations.

Sec. 2865. Pilot program to extend service life of roads and runways under the jurisdiction of the Secretary of Defense.

Sec. 2866. Restrictions on rehabilitation of Over-the-Horizon Backscatter Radar System receiving station, Modoc County, California.

Sec. 2867. Designation of Sumpter Smith Joint National Guard Base.

Sec. 2868. Santa Ynez Band of Chumash Indians land affirmation.

Sec. 2869. Lands to be taken into trust as part of the reservation of the Lytton Rancheria.

Sec. 2870. Little Shell Tribe of Chippewa Indians of Montana.

Sec. 2871. Sense of Congress on restoration of Tyndall Air Force Base.

TITLE XXIX—AUTHORIZATION OF OVERSEAS CONTINGENCY OPERATIONS MILITARY CONSTRUCTION AND EMERGENCY MILITARY CONSTRUCTION

Subtitle A—Overseas Contingency Operations Military Construction

Sec. 2901. Authorized Army construction and land acquisition projects.

Sec. 2902. Authorized Navy construction and land acquisition projects.

Sec. 2903. Authorized Air Force construction and land acquisition projects.

Sec. 2904. Authorized Defense Agencies construction and land acquisition projects.

Sec. 2905. Authorization of appropriations.

Subtitle B—Emergency Military Construction

- Sec. 2911. Authorization of emergency Navy construction and land acquisition projects.
- Sec. 2912. Authorization of emergency Air Force construction and land acquisition projects.
- Sec. 2913. Authorization of emergency Army National Guard construction and land acquisition projects.
- Sec. 2914. Authorization of emergency Defense Agencies construction and land acquisition projects.
- Sec. 2915. Authorization of emergency supplemental appropriations for military construction projects.

TITLE XXX—MILITARY HOUSING PRIVATIZATION REFORM

- Sec. 3001. Definitions.

Subtitle A—Addition of New Reform Subchapter

- Sec. 3011. Improved accountability and oversight of privatized military housing and protections and responsibilities for tenants of privatized military housing.
- Sec. 3012. Designation of Chief Housing Officer for privatized military housing.
- Sec. 3013. Additional requirements relating to contracts for privatized military housing.
- Sec. 3014. Additional requirements relating to management of privatized military housing.
- Sec. 3015. Consideration of contractor history in contracts for privatized military housing.
- Sec. 3016. Additional improvements for management of privatized military housing.
- Sec. 3017. Maintenance work order system for privatized military housing.
- Sec. 3018. Access by tenants of privatized military housing to maintenance work order system.
- Sec. 3019. Access by tenants to historical maintenance information for privatized military housing.
- Sec. 3020. Prohibition on requirement to disclose personally identifiable information in certain requests for maintenance of privatized military housing.
- Sec. 3021. Treatment of incentive fees for landlords of privatized military housing for failure to remedy a health or environmental hazard.
- Sec. 3022. Dispute resolution process for landlord-tenant disputes regarding privatized military housing and requests to withhold payments during dispute resolution process.
- Sec. 3023. Investigation of reports of reprisals relating to privatized military housing and congressional notification.
- Sec. 3024. Prohibition on use of nondisclosure agreements in connection with leases of privatized military housing.

Subtitle B—Other Amendatory Provisions

- Sec. 3031. Installation of carbon monoxide detectors in military family housing.
- Sec. 3032. Authority to furnish certain services in connection with use of alternative authority for acquisition and improvement of military housing.
- Sec. 3033. Treatment of breach of contract for privatized military housing.

- Sec. 3034. Modification to requirements for window fall prevention devices in military family housing units.
- Sec. 3035. Expansion of direct hire authority for Department of Defense for childcare services providers for Department child development centers to include direct hire authority for installation military housing office personnel.
- Sec. 3036. Modification of authority to make payments to lessors of privatized military housing.
- Sec. 3037. Technical correction to definition used to make payments to lessors of privatized military housing.

Subtitle C—One-Time Reporting Requirements

- Sec. 3041. Report on civilian personnel shortages for appropriate oversight of management of military housing constructed or acquired using alternative authority for acquisition and improvement of military housing.
- Sec. 3042. Plans for creation of councils on privatized military housing.
- Sec. 3043. Plan for establishment of Department of Defense jurisdiction over off-base privatized military housing.
- Sec. 3044. Inspector General review of Department of Defense oversight of privatized military housing.
- Sec. 3045. Information on legal services provided to members of the Armed Forces harmed by health or environmental hazards at military housing.

Subtitle D—Development of Housing Reform Standards and Processes

- Sec. 3051. Uniform code of basic standards for privatized military housing and plan to conduct inspections and assessments.
- Sec. 3052. Tool for assessment of hazards in Department of Defense housing.
- Sec. 3053. Process to identify and address environmental health hazards in Department of Defense housing.
- Sec. 3054. Department of Defense policy on lead-based paint testing on military installations.
- Sec. 3055. Standard for minimum credentials for health and environmental inspectors of privatized military housing.
- Sec. 3056. Requirements relating to move-in, move-out, and maintenance of privatized military housing.
- Sec. 3057. Standardized documentation, templates, and forms for privatized military housing.
- Sec. 3058. Satisfaction survey for tenants of military housing.

Subtitle E—Other Housing Reform Matters

- Sec. 3061. Radon testing of privatized military housing.
- Sec. 3062. Mitigation of risks posed by certain items in military family housing units.
- Sec. 3063. Suspension of Resident Energy Conservation Program and related programs for privatized military housing.
- Sec. 3064. Department of the Army pilot program to build and monitor use of single family homes.

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Subtitle A—National Security Programs and Authorizations

- Sec. 3101. National Nuclear Security Administration.
- Sec. 3102. Defense environmental cleanup.
- Sec. 3103. Other defense activities.
- Sec. 3104. Nuclear energy.

Subtitle B—Program Authorizations, Restrictions, and Limitations

- Sec. 3111. Personnel matters at National Nuclear Security Administration.
- Sec. 3112. Estimation of costs of meeting defense environmental cleanup milestones required by consent orders.
- Sec. 3113. Office of Cost Estimating and Program Evaluation.
- Sec. 3114. Clarification of certain Stockpile Responsiveness Program objectives.
- Sec. 3115. Elimination of limitation on availability of funds relating to submission of annual reports on unfunded priorities.
- Sec. 3116. Modification to certain requirements relating to plutonium pit production capacity.
- Sec. 3117. Annual certification of shipments to Waste Isolation Pilot Plant.
- Sec. 3118. Extension and modification of pilot program on unavailability for overhead costs of amounts specified for laboratory-directed research and development.
- Sec. 3119. Modification to limitation on availability of funds for acceleration of nuclear weapons dismantlement.
- Sec. 3120. Implementation of common financial reporting system for nuclear security enterprise.
- Sec. 3121. Limitation relating to reclassification of high-level waste.
- Sec. 3122. National Laboratory Jobs ACCESS Program.

Subtitle C—Reports and Other Matters

- Sec. 3131. Civil penalties for violations of certain whistleblower protections.
- Sec. 3132. Repeal of assessments of adequacy of budget requests relating to nuclear weapons stockpile.
- Sec. 3133. Repeal of requirement for review relating to enhanced procurement authority.
- Sec. 3134. Improvements to Energy Employees Occupational Illness Compensation Program Act of 2000.
- Sec. 3135. Replacement of W78 warhead.
- Sec. 3136. Independent review of capabilities for detection, verification, and monitoring of nuclear weapons and fissile material.
- Sec. 3137. Assessment of high energy density physics.
- Sec. 3138. Determination of effect of treaty obligations with respect to producing tritium.
- Sec. 3139. Technical corrections to National Nuclear Security Administration Act and Atomic Energy Defense Act.

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

- Sec. 3201. Authorization.
- Sec. 3202. Improvements to Defense Nuclear Facilities Safety Board.
- Sec. 3203. Membership of Defense Nuclear Facilities Safety Board.

TITLE XXXIV—NAVAL PETROLEUM RESERVES

Sec. 3401. Authorization of appropriations.

TITLE XXXV—MARITIME MATTERS

Subtitle A—Maritime Administration

- Sec. 3501. Authorization of the Maritime Administration.
- Sec. 3502. Reauthorization of Maritime Security Program.
- Sec. 3503. Maritime technical assistance program.
- Sec. 3504. Appointment of candidates attending sponsored preparatory school.
- Sec. 3505. General support program.
- Sec. 3506. Improvements to the maritime guaranteed loan program.
- Sec. 3507. Requirement for small shipyard grantees.
- Sec. 3508. Salvage recoveries of cargoes.
- Sec. 3509. Salvage recoveries for subrogated ownership of vessels and cargoes.
- Sec. 3510. Maritime Occupational Safety and Health Advisory Committee.
- Sec. 3511. Military to mariner.
- Sec. 3512. Department of Transportation Inspector General Report.
- Sec. 3513. Independent study on the United States Merchant Marine Academy.
- Sec. 3514. Port operations, research, and technology.
- Sec. 3515. Assessment and report on strategic seaports.
- Sec. 3516. Technical corrections.
- Sec. 3517. United States Merchant Marine Academy sexual assault prevention and response program.
- Sec. 3518. Report on vessels for emerging offshore energy infrastructure.
- Sec. 3519. Report on United States flagged fuel tanker vessel capacity.

Subtitle B—Cable Security Fleet

Sec. 3521. Establishment of Cable Security Fleet.

Subtitle C—Maritime SAFE Act

- Sec. 3531. Short titles.
- Sec. 3532. Definitions.
- Sec. 3533. Purposes.
- Sec. 3534. Statement of policy.

PART I—PROGRAMS TO COMBAT IUU FISHING AND INCREASE MARITIME SECURITY

- Sec. 3541. Coordination with international organizations.
- Sec. 3542. Engagement of diplomatic missions of the United States.
- Sec. 3543. Assistance by Federal agencies to improve law enforcement within priority regions and priority flag states.
- Sec. 3544. Expansion of existing mechanisms to combat IUU fishing.
- Sec. 3545. Improvement of transparency and traceability programs.
- Sec. 3546. Technology programs.
- Sec. 3547. Savings clause.

PART II—ESTABLISHMENT OF INTERAGENCY WORKING GROUP ON IUU FISHING

- Sec. 3551. Interagency Working Group on IUU Fishing.
- Sec. 3552. Strategic plan.
- Sec. 3553. Reports.
- Sec. 3554. Gulf of Mexico IUU Fishing Subworking Group.

PART III—COMBATING HUMAN TRAFFICKING IN CONNECTION WITH THE
CATCHING AND PROCESSING OF SEAFOOD PRODUCTS

- Sec. 3561. Finding.
- Sec. 3562. Adding the Secretary of Commerce to the Interagency Task Force to Monitor and Combat Trafficking.
- Sec. 3563. Human trafficking in the seafood supply chain report.

PART IV—AUTHORIZATION OF APPROPRIATIONS

- Sec. 3571. Authorization of appropriations.
- Sec. 3572. Accounting of funds.

DIVISION D—FUNDING TABLES

- Sec. 4001. Authorization of amounts in funding tables.

TITLE XLI—PROCUREMENT

- Sec. 4101. Procurement.
- Sec. 4102. Procurement for overseas contingency operations.
- Sec. 4103. Procurement for emergency requirements.

TITLE XLII—RESEARCH, DEVELOPMENT, TEST, AND
EVALUATION

- Sec. 4201. Research, development, test, and evaluation.
- Sec. 4202. Research, development, test, and evaluation for overseas contingency operations.
- Sec. 4203. Research, development, test, and evaluation for emergency requirements.

TITLE XLIII—OPERATION AND MAINTENANCE

- Sec. 4301. Operation and maintenance.
- Sec. 4302. Operation and maintenance for overseas contingency operations.
- Sec. 4303. Operation and maintenance for emergency requirements.

TITLE XLIV—MILITARY PERSONNEL

- Sec. 4401. Military personnel.
- Sec. 4402. Military personnel for overseas contingency operations.

TITLE XLV—OTHER AUTHORIZATIONS

- Sec. 4501. Other authorizations.
- Sec. 4502. Other authorizations for overseas contingency operations.

TITLE XLVI—MILITARY CONSTRUCTION

- Sec. 4601. Military construction.
- Sec. 4602. Military construction for overseas contingency operations.
- Sec. 4603. Military construction for emergency requirements.

TITLE XLVII—DEPARTMENT OF ENERGY NATIONAL SECURITY
PROGRAMS

- Sec. 4701. Department of Energy national security programs.

DIVISION E—INTELLIGENCE AUTHORIZATIONS FOR FISCAL
YEARS 2018, 2019, AND 2020

- Sec. 5001. Short title.
- Sec. 5002. Subdivisions and table of contents.
- Sec. 5003. Definitions.

SUBDIVISION 1—INTELLIGENCE AUTHORIZATIONS FOR FISCAL YEAR 2020

- Sec. 5100. Table of contents.

TITLE LI—INTELLIGENCE ACTIVITIES

- Sec. 5101. Authorization of appropriations.
- Sec. 5102. Classified schedule of authorizations.
- Sec. 5103. Intelligence community management account.

TITLE LII—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND
DISABILITY SYSTEM

- Sec. 5201. Authorization of appropriations.

TITLE LIII—INTELLIGENCE COMMUNITY MATTERS

Subtitle A—General Intelligence Community Matters

- Sec. 5301. Restriction on conduct of intelligence activities.
- Sec. 5302. Increase in employee compensation and benefits authorized by law.
- Sec. 5303. Expansion of scope of protections for identities of covert agents.
- Sec. 5304. Required counterintelligence assessments, briefings, notifications, and reports.
- Sec. 5305. Inclusion of security risks in program management plans required for acquisition of major systems in National Intelligence Program.
- Sec. 5306. Intelligence community public-private talent exchange.
- Sec. 5307. Assessment of contracting practices to identify certain security and counterintelligence concerns.

Subtitle B—Office of the Director of National Intelligence

- Sec. 5321. Establishment of Climate Security Advisory Council.
- Sec. 5322. Foreign Malign Influence Response Center.
- Sec. 5323. Encouragement of cooperative actions to detect and counter foreign influence operations.
- Sec. 5324. Transfer of National Intelligence University to the Office of the Director of National Intelligence.

Subtitle C—Inspector General of the Intelligence Community

- Sec. 5331. Definitions.
- Sec. 5332. Inspector General external review panel.
- Sec. 5333. Harmonization of whistleblower processes and procedures.
- Sec. 5334. Oversight by Inspector General of the Intelligence Community over intelligence community whistleblower matters.
- Sec. 5335. Report on cleared whistleblower attorneys.

Subtitle D—Central Intelligence Agency

- Sec. 5341. Clarification of certain authority of the Central Intelligence Agency.

TITLE LIV—SECURITY CLEARANCES

- Sec. 5401. Improving visibility into the security clearance process.
- Sec. 5402. Making certain policies and execution plans relating to personnel clearances available to industry partners.

TITLE LV—MATTERS RELATING TO FOREIGN COUNTRIES

Subtitle A—Matters Relating to Russia

- Sec. 5501. Annual reports on influence operations and campaigns in the United States by the Russian Federation.
- Sec. 5502. Assessment of legitimate and illegitimate financial and other assets of Vladimir Putin.
- Sec. 5503. Assessments of intentions of political leadership of the Russian Federation.

Subtitle B—Matters Relating to China

- Sec. 5511. Annual reports on influence operations and campaigns in the United States by the Communist Party of China.
- Sec. 5512. Report on repression of ethnic Muslim minorities in the Xinjiang region of the People's Republic of China.
- Sec. 5513. Report on efforts by People's Republic of China to influence election in Taiwan.

Subtitle C—Matters Relating to Other Countries

- Sec. 5521. Sense of Congress and report on Iranian efforts in Syria and Lebanon.
- Sec. 5522. Assessments regarding the Northern Triangle and Mexico.

TITLE LVI—FEDERAL EFFORTS AGAINST DOMESTIC TERRORISM

- Sec. 5601. Definitions.
- Sec. 5602. Strategic intelligence assessment of and reports on domestic terrorism.

TITLE LVII—REPORTS AND OTHER MATTERS

Subtitle A—Reports and Briefings

- Sec. 5701. Modification of requirements for submission to Congress of certain reports.
- Sec. 5702. Increased transparency regarding counterterrorism budget of the United States.
- Sec. 5703. Study on role of retired and former personnel of intelligence community with respect to certain foreign intelligence operations.
- Sec. 5704. Collection, analysis, and dissemination of workforce data.
- Sec. 5705. Plan for strengthening the supply chain intelligence function.
- Sec. 5706. Comprehensive economic assessment of investment in key United States technologies by companies or organizations linked to China.
- Sec. 5707. Report by Director of National Intelligence on fifth-generation wireless network technology.
- Sec. 5708. Report on use by intelligence community of facial recognition technology.

- Sec. 5709. Report on deepfake technology, foreign weaponization of deepfakes, and related notifications.
- Sec. 5710. Annual report by Comptroller General of the United States on cybersecurity and surveillance threats to Congress.
- Sec. 5711. Analysis of and periodic briefings on major initiatives of intelligence community in artificial intelligence and machine learning.
- Sec. 5712. Report on best practices to protect privacy and civil liberties of Chinese Americans.
- Sec. 5713. Oversight of foreign influence in academia.
- Sec. 5714. Report on death of Jamal Khashoggi.
- Sec. 5715. Report on terrorist screening database.
- Sec. 5716. Report containing threat assessment on terrorist use of conventional and advanced conventional weapons.
- Sec. 5717. Assessment of homeland security vulnerabilities associated with certain retired and former personnel of the intelligence community.
- Sec. 5718. Study on feasibility and advisability of establishing Geospatial-Intelligence Museum and learning center.

Subtitle B—Other Matters

- Sec. 5721. Whistleblower disclosures to Congress and committees of Congress.
- Sec. 5722. Task force on illicit financing of espionage and foreign influence operations.
- Sec. 5723. Establishment of fifth-generation technology prize competition.
- Sec. 5724. Establishment of deepfakes prize competition.
- Sec. 5725. Identification of and countermeasures against certain International Mobile Subscriber Identity-catchers.
- Sec. 5726. Securing energy infrastructure.

SUBDIVISION 2—INTELLIGENCE AUTHORIZATIONS FOR FISCAL YEARS 2018 AND 2019

- Sec. 6100. Table of contents.

TITLE LXI—INTELLIGENCE ACTIVITIES

- Sec. 6101. Authorization of appropriations.
- Sec. 6102. Intelligence Community Management Account.

TITLE LXII—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

- Sec. 6201. Authorization of appropriations.
- Sec. 6202. Computation of annuities for employees of the Central Intelligence Agency.

TITLE LXIII—GENERAL INTELLIGENCE COMMUNITY MATTERS

- Sec. 6301. Restriction on conduct of intelligence activities.
- Sec. 6302. Increase in employee compensation and benefits authorized by law.
- Sec. 6303. Modification of special pay authority for science, technology, engineering, or mathematics positions and addition of special pay authority for cyber positions.
- Sec. 6304. Modification of appointment of Chief Information Officer of the Intelligence Community.

- Sec. 6305. Director of National Intelligence review of placement of positions within the intelligence community on the Executive Schedule.
- Sec. 6306. Supply Chain and Counterintelligence Risk Management Task Force.
- Sec. 6307. Consideration of adversarial telecommunications and cybersecurity infrastructure when sharing intelligence with foreign governments and entities.
- Sec. 6308. Cyber protection support for the personnel of the intelligence community in positions highly vulnerable to cyber attack.
- Sec. 6309. Elimination of sunset of authority relating to management of supply-chain risk.
- Sec. 6310. Limitations on determinations regarding certain security classifications.
- Sec. 6311. Joint Intelligence Community Council.
- Sec. 6312. Intelligence community information technology environment.
- Sec. 6313. Report on development of secure mobile voice solution for intelligence community.
- Sec. 6314. Policy on minimum insider threat standards.
- Sec. 6315. Submission of intelligence community policies.
- Sec. 6316. Expansion of intelligence community recruitment efforts.

TITLE LXIV—MATTERS RELATING TO ELEMENTS OF THE INTELLIGENCE COMMUNITY

Subtitle A—Office of the Director of National Intelligence

- Sec. 6401. Authority for protection of current and former employees of the Office of the Director of National Intelligence.
- Sec. 6402. Designation of the program manager-information-sharing environment.
- Sec. 6403. Technical modification to the executive schedule.
- Sec. 6404. Chief Financial Officer of the Intelligence Community.
- Sec. 6405. Chief Information Officer of the Intelligence Community.

Subtitle B—Central Intelligence Agency

- Sec. 6411. Central Intelligence Agency subsistence for personnel assigned to austere locations.
- Sec. 6412. Special rules for certain monthly workers' compensation payments and other payments for Central Intelligence Agency personnel.
- Sec. 6413. Expansion of security protective service jurisdiction of the Central Intelligence Agency.
- Sec. 6414. Repeal of foreign language proficiency requirement for certain senior level positions in the Central Intelligence Agency.

Subtitle C—Office of Intelligence and Counterintelligence of Department of Energy

- Sec. 6421. Consolidation of Department of Energy Offices of Intelligence and Counterintelligence.
- Sec. 6422. Repeal of Department of Energy Intelligence Executive Committee and budget reporting requirement.

Subtitle D—Other Elements

- Sec. 6431. Plan for designation of counterintelligence component of Defense Security Service as an element of intelligence community.

- Sec. 6432. Notice not required for private entities.
- Sec. 6433. Establishment of advisory board for National Reconnaissance Office.
- Sec. 6434. Collocation of certain Department of Homeland Security personnel at field locations.

TITLE LXV—ELECTION MATTERS

- Sec. 6501. Report on cyber attacks by foreign governments against United States election infrastructure.
- Sec. 6502. Review of intelligence community's posture to collect against and analyze Russian efforts to influence the Presidential election.
- Sec. 6503. Assessment of foreign intelligence threats to Federal elections.
- Sec. 6504. Strategy for countering Russian cyber threats to United States elections.
- Sec. 6505. Assessment of significant Russian influence campaigns directed at foreign elections and referenda.
- Sec. 6506. Information sharing with State election officials.
- Sec. 6507. Notification of significant foreign cyber intrusions and active measures campaigns directed at elections for Federal offices.
- Sec. 6508. Designation of counterintelligence officer to lead election security matters.

TITLE LXVI—SECURITY CLEARANCES

- Sec. 6601. Definitions.
- Sec. 6602. Reports and plans relating to security clearances and background investigations.
- Sec. 6603. Improving the process for security clearances.
- Sec. 6604. Goals for promptness of determinations regarding security clearances.
- Sec. 6605. Security Executive Agent.
- Sec. 6606. Report on unified, simplified, Governmentwide standards for positions of trust and security clearances.
- Sec. 6607. Report on clearance in person concept.
- Sec. 6608. Reports on reciprocity for security clearances inside of departments and agencies.
- Sec. 6609. Intelligence community reports on security clearances.
- Sec. 6610. Periodic report on positions in the intelligence community that can be conducted without access to classified information, networks, or facilities.
- Sec. 6611. Information-sharing program for positions of trust and security clearances.
- Sec. 6612. Report on protections for confidentiality of whistleblower-related communications.
- Sec. 6613. Reports on costs of security clearance background investigations.

TITLE LXVII—REPORTS AND OTHER MATTERS

Subtitle A—Matters Relating to Russia and Other Foreign Powers

- Sec. 6701. Limitation relating to establishment or support of cybersecurity unit with the Russian Federation.
- Sec. 6702. Assessment of threat finance relating to Russia.
- Sec. 6703. Notification of an active measures campaign.
- Sec. 6704. Notification of travel by accredited diplomatic and consular personnel of the Russian Federation in the United States.

- Sec. 6705. Report and annual briefing on Iranian expenditures supporting foreign military and terrorist activities.
- Sec. 6706. Expansion of scope of committee to counter active measures.

Subtitle B—Reports

- Sec. 6711. Technical correction to Inspector General study.
- Sec. 6712. Reports on authorities of the Chief Intelligence Officer of the Department of Homeland Security.
- Sec. 6713. Review of intelligence community whistleblower matters.
- Sec. 6714. Report on role of Director of National Intelligence with respect to certain foreign investments.
- Sec. 6715. Report on surveillance by foreign governments against United States telecommunications networks.
- Sec. 6716. Biennial report on foreign investment risks.
- Sec. 6717. Modification of certain reporting requirement on travel of foreign diplomats.
- Sec. 6718. Semiannual reports on investigations of unauthorized disclosures of classified information.
- Sec. 6719. Congressional notification of designation of covered intelligence officer as persona non grata.
- Sec. 6720. Reports on intelligence community participation in vulnerabilities equities process of Federal Government.
- Sec. 6721. Inspectors General reports on classification.
- Sec. 6722. Reports and briefings on national security effects of global water insecurity and emerging infectious disease and pandemics.
- Sec. 6723. Annual report on memoranda of understanding between elements of intelligence community and other entities of the United States Government regarding significant operational activities or policy.
- Sec. 6724. Study on the feasibility of encrypting unclassified wireline and wireless telephone calls.
- Sec. 6725. Reports on intelligence community loan repayment and related programs.
- Sec. 6726. Repeal of certain reporting requirements.
- Sec. 6727. Inspector General of the Intelligence Community report on senior executives of the Office of the Director of National Intelligence.
- Sec. 6728. Briefing on Federal Bureau of Investigation offering permanent residence to sources and cooperators.
- Sec. 6729. Intelligence assessment of North Korea revenue sources.
- Sec. 6730. Report on possible exploitation of virtual currencies by terrorist actors.

Subtitle C—Other Matters

- Sec. 6741. Public Interest Declassification Board.
- Sec. 6742. Technical and clerical amendments to the National Security Act of 1947.
- Sec. 6743. Bug bounty programs.
- Sec. 6744. Technical amendments related to the Department of Energy.
- Sec. 6745. Sense of Congress on notification of certain disclosures of classified information.
- Sec. 6746. Sense of Congress on consideration of espionage activities when considering whether or not to provide visas to foreign individuals to be accredited to a United Nations mission in the United States.

Sec. 6747. Sense of Congress on WikiLeaks.

DIVISION F—OTHER MATTERS

TITLE LXXI—SANCTIONS WITH RESPECT TO NORTH KOREA

Sec. 7101. Short title.

Subtitle A—Sanctions With Respect to North Korea

Sec. 7111. Sense of Congress.

Sec. 7112. Definitions.

PART I—EXPANSION OF SANCTIONS AND RELATED MATTERS

Sec. 7121. Sanctions with respect to foreign financial institutions that provide financial services to certain sanctioned persons.

Sec. 7122. Mandatory designations under North Korea Sanctions and Policy Enhancement Act of 2016.

Sec. 7123. Extension of applicability period of proliferation prevention sanctions.

Sec. 7124. Opposition to assistance by the international financial institutions.

Sec. 7125. Support for capacity of the International Monetary Fund to prevent money laundering and financing of terrorism.

Sec. 7126. Report and briefings on compliance, penalties, and technical assistance.

Sec. 7127. Sense of Congress on identification and blocking of property of North Korean officials.

Sec. 7128. Modification of report on implementation of United Nations Security Council resolutions by other governments.

Sec. 7129. Report on use by the Government of North Korea of beneficial ownership rules to access the international financial system.

PART II—CONGRESSIONAL REVIEW AND OVERSIGHT

Sec. 7131. Notification of termination or suspension of sanctions.

Sec. 7132. Reports on certain licensing actions.

Sec. 7133. Report and briefings on financial networks and financial methods of the Government of North Korea.

Sec. 7134. Report on countries of concern with respect to transshipment, re-exportation, or diversion of certain items to North Korea.

PART III—GENERAL MATTERS

Sec. 7141. Rulemaking.

Sec. 7142. Authority to consolidate reports.

Sec. 7143. Waivers, exemptions, and termination.

Sec. 7144. Procedures for review of classified and certain other information.

Sec. 7145. Briefing on resourcing of sanctions programs.

Sec. 7146. Briefing on proliferation financing.

Sec. 7147. Exception relating to importation of goods.

Subtitle B—Financial Industry Guidance to Halt Trafficking

Sec. 7151. Short title.

Sec. 7152. Sense of Congress.

Sec. 7153. Coordination of human trafficking issues by the Office of Terrorism and Financial Intelligence.

- Sec. 7154. Strengthening the role of anti-money laundering and other financial tools in combating human trafficking.
- Sec. 7155. Sense of Congress on resources to combat human trafficking.

TITLE LXXII—SANCTIONS WITH RESPECT TO FOREIGN
TRAFFICKERS OF ILLICIT SYNTHETIC OPIOIDS

- Sec. 7201. Short title.
- Sec. 7202. Sense of Congress.
- Sec. 7203. Definitions.

Subtitle A—Sanctions With Respect to Foreign Opioid Traffickers

- Sec. 7211. Identification of foreign opioid traffickers.
- Sec. 7212. Imposition of sanctions.
- Sec. 7213. Description of sanctions.
- Sec. 7214. Waivers.
- Sec. 7215. Procedures for judicial review of classified information.
- Sec. 7216. Briefings on implementation.
- Sec. 7217. Inclusion of additional material in International Narcotics Control Strategy Report.

Subtitle B—Commission on Combating Synthetic Opioid Trafficking

- Sec. 7221. Commission on combating synthetic opioid trafficking.

Subtitle C—Other Matters

- Sec. 7231. Director of National Intelligence program on use of intelligence resources in efforts to sanction foreign opioid traffickers.
- Sec. 7232. Authorization of appropriations.
- Sec. 7233. Regulatory authority.
- Sec. 7234. Termination.
- Sec. 7235. Exception relating to importation of goods.

TITLE LXXIII—PFAS

- Sec. 7301. Short title.
- Sec. 7302. Definition of Administrator.

Subtitle A—Drinking Water

- Sec. 7311. Monitoring and detection.
- Sec. 7312. Drinking water state revolving funds.

Subtitle B—PFAS Release Disclosure

- Sec. 7321. Additions to toxics release inventory.

Subtitle C—USGS Performance Standard

- Sec. 7331. Definitions.
- Sec. 7332. Performance standard for the detection of highly fluorinated compounds.
- Sec. 7333. Nationwide sampling.
- Sec. 7334. Data usage.
- Sec. 7335. Collaboration.

Subtitle D—Emerging Contaminants

- Sec. 7341. Definitions.
- Sec. 7342. Research and coordination plan for enhanced response on emerging contaminants.

Subtitle E—Toxic Substances Control Act

- Sec. 7351. PFAS data call.
- Sec. 7352. Significant new use rule for long-chain PFAS.

Subtitle F—Other Matters

- Sec. 7361. PFAS destruction and disposal guidance.
- Sec. 7362. PFAS research and development.

TITLE LXXIV—CAESAR SYRIA CIVILIAN PROTECTION ACT OF 2019

- Sec. 7401. Short title.
- Sec. 7402. Statement of policy.

Subtitle A—Additional Actions in Connection With the National Emergency
With Respect to Syria

- Sec. 7411. Measures with respect to Central Bank of Syria.
- Sec. 7412. Sanctions with respect to foreign persons that engage in certain transactions.
- Sec. 7413. Strategy relating to areas of Syria in which civilians are subject to forced displacement.

Subtitle B—Assistance for the People of Syria

- Sec. 7421. Sense of Congress.
- Sec. 7422. Briefing on monitoring and evaluating of ongoing assistance programs in Syria and to the Syrian people.
- Sec. 7423. Assessment of potential methods to enhance the protection of civilians.
- Sec. 7424. Assistance to support entities taking actions relating to gathering evidence for investigations into war crimes or crimes against humanity in Syria since March 2011.
- Sec. 7425. Codification of certain services in support of nongovernmental organizations' activities authorized.
- Sec. 7426. Briefing on strategy to facilitate humanitarian assistance.

Subtitle C—General Provisions

- Sec. 7431. Suspension of sanctions.
- Sec. 7432. Waivers and exemptions.
- Sec. 7433. Implementation and regulatory authorities.
- Sec. 7434. Exception relating to importation of goods.
- Sec. 7435. Cost limitation.
- Sec. 7436. Rule of construction.
- Sec. 7437. Prohibition on construction of provisions of this title as an authorization for use of military force.
- Sec. 7438. Sunset.

TITLE LXXV—PROTECTING EUROPE'S ENERGY SECURITY

- Sec. 7501. Short title.
- Sec. 7502. Sense of Congress.

Sec. 7503. Imposition of sanctions with respect to provision of certain vessels for the construction of certain Russian energy export pipelines.

TITLE LXXVI—OTHER MATTERS

Subtitle A—Federal Employee Paid Leave Act

- Sec. 7601. Short title.
- Sec. 7602. Paid parental leave under title 5.
- Sec. 7603. Paid parental leave for congressional employees.
- Sec. 7604. Conforming amendment to Family and Medical Leave Act for GAO and Library of Congress employees.
- Sec. 7605. Clarification for members of the National Guard and Reserves.
- Sec. 7606. Conforming amendment for certain TSA employees.

Subtitle B—Other Matters

- Sec. 7611. Liberian refugee immigration fairness.
- Sec. 7612. Pensacola Dam and Reservoir, Grand River, Oklahoma.
- Sec. 7613. Limitation on certain rolling stock procurements; cybersecurity certification for rail rolling stock and operations.

1 **SEC. 3. CONGRESSIONAL DEFENSE COMMITTEES.**

2 In this Act, the term “congressional defense commit-
3 tees” has the meaning given that term in section
4 101(a)(16) of title 10, United States Code.

5 **SEC. 4. BUDGETARY EFFECTS OF THIS ACT.**

6 The budgetary effects of this Act, for the purposes
7 of complying with the Statutory Pay-As-You-Go Act of
8 2010, shall be determined by reference to the latest state-
9 ment titled “Budgetary Effects of PAYGO Legislation”
10 for this Act, jointly submitted for printing in the Congres-
11 sional Record by the Chairmen of the House and Senate
12 Budget Committees, provided that such statement has
13 been submitted prior to the vote on passage in the House
14 acting first on the conference report or amendment be-
15 tween the Houses.

1 **DIVISION A—DEPARTMENT OF**
2 **DEFENSE AUTHORIZATIONS**
3 **TITLE I—PROCUREMENT**

Subtitle A—Authorization Of Appropriations

Sec. 101. Authorization of appropriations.

Subtitle B—Army Programs

Sec. 111. Authority of the Secretary of the Army to waive certain limitations related to the Distributed Common Ground System-Army Increment 1.

Subtitle C—Navy Programs

Sec. 121. Ford-class aircraft carrier cost limitation baselines.

Sec. 122. Modification of annual report on cost targets for certain aircraft carriers.

Sec. 123. Refueling and complex overhauls of the U.S.S. John C. Stennis and U.S.S. Harry S. Truman.

Sec. 124. Ford class aircraft carrier support for F-35C aircraft.

Sec. 125. Prohibition on use of funds for reduction of aircraft carrier force structure.

Sec. 126. Modification of prohibition on availability of funds for Navy waterborne security barriers.

Sec. 127. LHA Replacement Amphibious Assault Ship Program.

Sec. 128. Strategic sealift fleet vessel.

Sec. 129. Design and construction of amphibious transport dock designated LPD-31.

Sec. 130. Limitation on availability of funds for the Littoral Combat Ship.

Sec. 131. Limitation on the next new class of Navy large surface combatants.

Sec. 132. Limitation on availability of funds pending quarterly updates on the CH-53K King Stallion helicopter program.

Sec. 133. Limitation on availability of funds for VH-92A helicopter.

Sec. 134. Report on carrier wing and aviation combat element composition.

Subtitle D—Air Force Programs

Sec. 141. Modification of requirement to preserve certain C-5 aircraft.

Sec. 142. OC-135B aircraft recapitalization program.

Sec. 143. Requirement to align Air Force aviation force structure with National Defense Strategy.

Sec. 144. Prohibition on availability of funds for reduction in KC-10 primary mission aircraft inventory.

Sec. 145. Limitation on availability of funds for F-15EX aircraft.

Sec. 146. Limitation on availability of funds for VC-25B aircraft.

Sec. 147. Limitation on availability of funds for RC-26B aircraft.

Sec. 148. Limitation on availability of funds for retirement of RC-135 aircraft.

Sec. 149. Air Force aggressor squadron modernization.

Sec. 150. Air Force plan for Combat Rescue Helicopter fielding.

Sec. 151. Report on feasibility of multiyear contract for procurement of JASSM-ER missiles.

Sec. 152. Report on aircraft fleet of the Civil Air Patrol.

Sec. 153. Sense of Congress on the light attack aircraft initiative of the Air Force.

Subtitle E—Defense-wide, Joint, and Multiservice Matters

Sec. 161. Economic order quantity contracting and buy-to-budget acquisition for F-35 aircraft program.

Sec. 162. Relief from contractors for failure to deliver ready-for-issue spare parts for the F-35 aircraft program.

Sec. 163. Limitation on availability of funds for reallocation of Turkish F-35A aircraft to the United States.

Sec. 164. Requirement to establish the use of an Agile DevOps software development solution as an alternative for Joint Strike Fighter Autonomous Logistics Information System.

Sec. 165. F-35 sustainment cost.

Sec. 166. Reports on the progress and performance of the F-35 aircraft program.

Sec. 167. Other reports on the F-35 aircraft program.

Sec. 168. Limitation on availability of funds for communications systems lacking certain resiliency features.

Sec. 169. Repeal of tactical unmanned vehicle common data link requirement.

1 **Subtitle A—Authorization Of**
2 **Appropriations**

3 **SEC. 101. AUTHORIZATION OF APPROPRIATIONS.**

4 Funds are hereby authorized to be appropriated for
5 fiscal year 2020 for procurement for the Army, the Navy
6 and the Marine Corps, the Air Force, and Defense-wide
7 activities, as specified in the funding table in section 4101.

8 **Subtitle B—Army Programs**

9 **SEC. 111. AUTHORITY OF THE SECRETARY OF THE ARMY**
10 **TO WAIVE CERTAIN LIMITATIONS RELATED**
11 **TO THE DISTRIBUTED COMMON GROUND**
12 **SYSTEM-ARMY INCREMENT 1.**

13 Section 113(d) of the National Defense Authorization
14 Act for Fiscal Year 2017 (Public Law 114–328; 130 Stat.
15 2028) is amended by striking “Secretary of Defense” both
16 places it appears and inserting “Secretary of the Army”.

1 **Subtitle C—Navy Programs**

2 **SEC. 121. FORD-CLASS AIRCRAFT CARRIER COST LIMITA-**
3 **TION BASELINES.**

4 (a) IN GENERAL.—Chapter 863 of title 10, United
5 States Code, is amended by adding at the end the fol-
6 lowing new section:

7 **“§ 8692. Ford-class aircraft carriers: cost limitation**
8 **baselines**

9 “(a) LIMITATION.—The total amounts obligated or
10 expended from funds authorized to be appropriated or oth-
11 erwise made available for Shipbuilding and Conversion,
12 Navy, or for any other procurement account, may not ex-
13 ceed the following amounts for the following aircraft car-
14 riers:

15 “(1) \$13,224,000,000 for the construction of
16 the aircraft carrier designated CVN–78.

17 “(2) \$11,398,000,000 for the construction of
18 the aircraft carrier designated CVN–79.

19 “(3) \$12,202,000,000 for the construction of
20 the aircraft carrier designated CVN–80.

21 “(4) \$12,451,000,000 for the construction of
22 the aircraft carrier designated CVN–81.

23 “(b) EXCLUSION OF BATTLE AND INTERIM SPARES
24 FROM COST LIMITATION.—The Secretary of the Navy

1 shall exclude from the determination of the amounts set
2 forth in subsection (a) the costs of the following items:

3 “(1) CVN-78 class battle spares.

4 “(2) Interim spares.

5 “(3) Increases attributable to economic inflation
6 after December 1, 2018, not otherwise included in
7 the amounts listed in subsection (a).

8 “(c) WRITTEN NOTICE AND BRIEFING ON CHANGE
9 IN AMOUNT.—The Secretary of the Navy may adjust an
10 amount listed in subsection (a) not fewer than 15 days
11 after submitting written notice and providing a briefing
12 to the congressional defense committees, each of which
13 shall include the amount and rationale of any change and
14 the resulting amount after such change.”.

15 (b) CLERICAL AMENDMENT.—The table of sections
16 at the beginning of chapter 863 of such title is amended
17 by inserting after the item relating to section 8691 the
18 following new item:

“8692. Ford-class aircraft carriers: cost limitation baselines.”.

19 (c) REPEAL OF SUPERSEDED PROVISION.—Section
20 122 of the John Warner National Defense Authorization
21 Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat.
22 2104) is repealed.

1 **SEC. 122. MODIFICATION OF ANNUAL REPORT ON COST**
2 **TARGETS FOR CERTAIN AIRCRAFT CAR-**
3 **RIERS.**

4 Section 126(c) of the National Defense Authorization
5 Act for Fiscal Year 2017 (Public Law 114–328; 130 Stat.
6 2035) is amended—

7 (1) in the subsection heading, by striking “AND
8 CVN–80” and inserting “, CVN–80, AND CVN–81”;

9 (2) in paragraph (1)—

10 (A) by striking “2021” and inserting
11 “2032”; and

12 (B) by striking “costs described in sub-
13 section (b) for the CVN–79 and CVN–80” and
14 inserting “cost targets for the CVN–79, the
15 CVN–80, and the CVN–81”; and

16 (3) in paragraph (2)—

17 (A) in the matter preceding subparagraph
18 (A), by striking “ and the CVN–80” and insert-
19 ing “, the CVN–80, and the CVN–81”

20 (B) in subparagraph (A), by striking
21 “costs described in subsection (b)” and insert-
22 ing “cost targets”;

23 (C) in subparagraph (F), by striking
24 “costs specified in subsection (b)” and inserting
25 “cost targets”; and

1 (D) in subparagraph (G), by striking
2 “costs specified in subsection (b)” and inserting
3 “cost targets”.

4 **SEC. 123. REFUELING AND COMPLEX OVERHAULS OF THE**
5 **U.S.S. JOHN C. STENNIS AND U.S.S. HARRY S.**
6 **TRUMAN.**

7 (a) REFUELING AND COMPLEX OVERHAUL.—The
8 Secretary of the Navy shall carry out the nuclear refueling
9 and complex overhaul of the U.S.S. John C. Stennis
10 (CVN-74) and U.S.S. Harry S. Truman (CVN-75).

11 (b) USE OF INCREMENTAL FUNDING.—With respect
12 to any contract entered into under subsection (a) for the
13 nuclear refueling and complex overhauls of the U.S.S.
14 John C. Stennis (CVN-74) and U.S.S. Harry S. Truman
15 (CVN-75), the Secretary may use incremental funding for
16 a period not to exceed six years after advance procurement
17 funds for such nuclear refueling and complex overhaul ef-
18 fort are first obligated.

19 (c) CONDITION FOR OUT-YEAR CONTRACT PAY-
20 MENTS.—Any contract entered into under subsection (a)
21 shall provide that any obligation of the United States to
22 make a payment under the contract for a fiscal year after
23 fiscal year 2020 is subject to the availability of appropria-
24 tions for that purpose for that later fiscal year.

1 **SEC. 124. FORD CLASS AIRCRAFT CARRIER SUPPORT FOR**
2 **F-35C AIRCRAFT.**

3 Before completing the post-shakedown availability of
4 the Ford class aircraft carrier designated CVN-79, the
5 Secretary of the Navy shall ensure that the aircraft carrier
6 is capable of operating and deploying with the F-35C air-
7 craft.

8 **SEC. 125. PROHIBITION ON USE OF FUNDS FOR REDUCTION**
9 **OF AIRCRAFT CARRIER FORCE STRUCTURE.**

10 None of the funds authorized to be appropriated by
11 this Act or otherwise made available for fiscal year 2020
12 for the Department of Defense may be obligated or ex-
13 pended to reduce the number of operational aircraft car-
14 riers of the Navy below the number specified in section
15 8062(b) of title 10, United States Code.

16 **SEC. 126. MODIFICATION OF PROHIBITION ON AVAIL-**
17 **ABILITY OF FUNDS FOR NAVY WATERBORNE**
18 **SECURITY BARRIERS.**

19 Section 130 of the John S. McCain National Defense
20 Authorization Act for Fiscal Year 2019 (Public Law 115-
21 232) is amended—

22 (1) in subsection (a) by striking “for fiscal year
23 2019 may be obligated or expended to procure leg-
24 acy waterborne security barriers for Navy ports”
25 and inserting “for fiscal year 2019 or fiscal year
26 2020 may be obligated or expended to procure leg-

1 acy waterborne security barriers for Navy ports, in-
2 cluding as replacements for legacy barriers”;

3 (2) in subsection (c)(1), by inserting “of not
4 more than 30 percent” after “replacement”; and

5 (3) by adding at the end the following new sub-
6 section:

7 “(d) NOTIFICATION.—Not later than 15 days after
8 an exception is made pursuant to subsection (c)(2), the
9 Secretary of the Navy shall submit a written notification
10 to the congressional defense committees that includes—

11 “(1) the name and position of the government
12 official who determined exigent circumstances exist;

13 “(2) a description of the exigent circumstances;
14 and

15 “(3) a description of how waterborne security
16 will be maintained until new waterborne security
17 barriers are procured and installed.”.

18 **SEC. 127. LHA REPLACEMENT AMPHIBIOUS ASSAULT SHIP**
19 **PROGRAM.**

20 (a) **AUTHORITY TO USE INCREMENTAL FUNDING.—**

21 The Secretary of the Navy may enter into and incremen-
22 tally fund a contract for detail design and construction
23 of the LHA replacement ship designated LHA 9 and, sub-
24 ject to subsection (b), funds for payments under the con-
25 tract may be provided from amounts authorized to be ap-

1 appropriated for the Department of Defense for Shipbuilding
2 and Conversion, Navy, for fiscal years 2019 through 2025.

3 (b) **CONDITION FOR OUT-YEAR CONTRACT PAY-**
4 **MENTS.**—A contract entered into under subsection (a)
5 shall provide that any obligation of the United States to
6 make a payment under the contract for any subsequent
7 fiscal year is subject to the availability of appropriations
8 for that purpose for such subsequent fiscal year.

9 (c) **REPEAL OF OBSOLETE AUTHORITY.**—Section
10 125 of the John Warner National Defense Authorization
11 Act for Fiscal Year 2007 (Public Law 109–364; 120 Stat.
12 2106) is repealed.

13 **SEC. 128. STRATEGIC SEALIFT FLEET VESSEL.**

14 (a) **IN GENERAL.**—Subject to the availability of ap-
15 propriations, the Secretary of the Navy shall seek to enter
16 into a contract for the construction of one sealift vessel.

17 (b) **DELIVERY DATE.**—The contract entered into
18 under subsection (a) shall specify a delivery date for the
19 sealift vessel of not later than September 30, 2026.

20 (c) **DESIGN AND CONSTRUCTION REQUIREMENTS.**—

21 (1) **USE OF EXISTING DESIGN.**—The design of
22 the sealift vessel shall be based on a domestic or for-
23 eign design that exists as of the date of the enact-
24 ment of this Act.

1 (2) COMMERCIAL STANDARDS AND PRAC-
2 TICES.—Subject to paragraph (1), the sealift vessel
3 may be constructed using commercial design stand-
4 ards and commercial construction practices that are
5 consistent with the best interests of the Federal
6 Government.

7 (3) DOMESTIC SHIPYARD.—The sealift vessel
8 shall be constructed in a shipyard that is located in
9 the United States.

10 (d) CERTIFICATE AND ENDORSEMENT.—The sealift
11 vessel shall meet the requirements necessary to receive a
12 certificate of documentation and a coastwise endorsement
13 under chapter 121 of title 46, United States Code, and the
14 Secretary of the Navy shall ensure that the completed ves-
15 sel receives such a certificate and endorsement.

16 (e) EXECUTIVE AGENT.—

17 (1) IN GENERAL.—The Secretary of the Navy
18 may seek to enter into a contract or other agreement
19 with a private-sector entity under which the entity
20 may act as executive agent for the Secretary for pur-
21 poses of the contract under subsection (a).

22 (2) RESPONSIBILITIES.—The executive agent
23 described in paragraph (1) may be responsible for—

24 (A) selecting a shipyard for the construc-
25 tion of the sealift vessel;

1 (B) managing and overseeing the construc-
2 tion of the sealift vessel; and

3 (C) such other matters as the Secretary of
4 the Navy determines to be appropriate

5 (f) USE OF INCREMENTAL FUNDING.—With respect
6 to the contract entered into under subsection (a), the Sec-
7 retary of the Navy may use incremental funding to make
8 payments under the contract.

9 (g) SEALIFT VESSEL DEFINED.—In this section, the
10 term “sealift vessel” means the sealift vessel constructed
11 pursuant to the contract entered into under subsection (a).

12 **SEC. 129. DESIGN AND CONSTRUCTION OF AMPHIBIOUS**
13 **TRANSPORT DOCK DESIGNATED LPD-31.**

14 (a) IN GENERAL.—Using funds authorized to be ap-
15 propriated for the Department of Defense for Shipbuilding
16 and Conversion, Navy, the Secretary of the Navy may
17 enter into a contract, beginning with the fiscal year 2020
18 program year, for the design and construction of the am-
19 phibious transport dock designated LPD-31.

20 (b) USE OF INCREMENTAL FUNDING.—With respect
21 to the contract entered into under subsection (a), the Sec-
22 retary may use incremental funding to make payments
23 under the contract.

24 (c) CONDITION FOR OUT-YEAR CONTRACT PAY-
25 MENTS.—The contract entered into under subsection (a)

1 shall provide that any obligation of the United States to
2 make a payment under such contract for any fiscal year
3 after fiscal year 2020 is subject to the availability of ap-
4 propriations for that purpose for such later fiscal year.

5 **SEC. 130. LIMITATION ON AVAILABILITY OF FUNDS FOR**
6 **THE LITTORAL COMBAT SHIP.**

7 (a) LIMITATIONS.—None of the funds authorized to
8 be appropriated by this Act for fiscal year 2020 for the
9 Department of Defense may be used to exceed, and the
10 Department may not otherwise exceed, the total procure-
11 ment quantity of thirty-five Littoral Combat Ships, unless
12 the Under Secretary of Defense for Acquisition and
13 Sustainment submits to the congressional defense commit-
14 tees the certification described in subsection (b).

15 (b) CERTIFICATION.—The certification described in
16 this subsection is a certification by the Under Secretary
17 that awarding a contract for the procurement of a Littoral
18 Combat Ship that exceeds the total procurement quantity
19 listed in revision five of the Littoral Combat Ship acqui-
20 sition strategy—

21 (1) is in the national security interests of the
22 United States;

23 (2) will not result in exceeding the low-rate ini-
24 tial production quantity approved in the Littoral

1 Combat Ship acquisition strategy in effect as of the
2 date of the certification; and

3 (3) is necessary to maintain a full and open
4 competition for the Guided Missile Frigate
5 (FFG(X)) with a single source award in fiscal year
6 2020.

7 **SEC. 131. LIMITATION ON THE NEXT NEW CLASS OF NAVY**
8 **LARGE SURFACE COMBATANTS.**

9 (a) IN GENERAL.—Milestone B approval may not be
10 granted for the next new class of Navy large surface com-
11 batants unless the class of Navy large surface combatants
12 incorporates prior to such approval—

13 (1) design changes identified during the full du-
14 ration of the combat system ship qualification trials
15 and operational test periods of the first Arleigh
16 Burke-class destroyer in the Flight III configuration
17 to complete such events; and

18 (2) final results of test programs of engineering
19 development models or prototypes for critical sys-
20 tems specified by the Senior Technical Authority
21 pursuant to section 8669b of title 10, United States
22 Code, as added by section 1034 of this Act, in their
23 final form, fit, and function and in a realistic envi-
24 ronment, which shall include a land-based engineer-
25 ing site for the propulsion system.

1 (b) LIMITATION.—The Secretary of the Navy may
2 not release a detail design or construction request for pro-
3 posals or obligate funds from the Shipbuilding and Con-
4 version, Navy account for the next new class of Navy large
5 surface combatants until the class of Navy large surface
6 combatants receives Milestone B approval and the mile-
7 stone decision authority notifies the congressional defense
8 committees, in writing, of the actions taken to comply with
9 the requirements under subsection (a).

10 (c) DEFINITIONS.—In this section:

11 (1) The term “Milestone B approval” has the
12 meaning given the term in section 2366(e)(7) of title
13 10, United States Code.

14 (2) The term “milestone decision authority”
15 means the official within the Department of Defense
16 designated with the overall responsibility and au-
17 thority for acquisition decisions for the program, in-
18 cluding authority to approve entry of the program
19 into the next phase of the acquisition process.

20 (3) The term “large surface combatants”
21 means Navy surface ships that are designed pri-
22 marily to engage in attacks against airborne, sur-
23 face, subsurface, and shore targets, excluding frig-
24 ates and littoral combat ships.

1 **SEC. 132. LIMITATION ON AVAILABILITY OF FUNDS PEND-**
2 **ING QUARTERLY UPDATES ON THE CH-53K**
3 **KING STALLION HELICOPTER PROGRAM.**

4 (a) **LIMITATION.**—Of the funds authorized to be ap-
5 propriated by this Act or otherwise made available for fis-
6 cal year 2020 for aircraft procurement, Navy, for the CH-
7 53K King Stallion helicopter program, not more than 50
8 percent may be obligated or expended until a period of
9 30 days has elapsed following the date on which the Sec-
10 retary of the Navy provides the first briefing required
11 under subsection (b).

12 (b) **QUARTERLY BRIEFINGS REQUIRED.**—

13 (1) **IN GENERAL.**—Beginning not later than 30
14 days after the date of the enactment of this Act, and
15 on a quarterly basis thereafter through the end of
16 fiscal year 2022, the Secretary of the Navy shall
17 provide to the Committees on Armed Services of the
18 Senate and the House of Representatives a briefing
19 on the progress of the CH-53K King Stallion heli-
20 copter program.

21 (2) **ELEMENTS.**—Each briefing under para-
22 graph (1) shall include, with respect to the CH-53K
23 King Stallion helicopter program, the following:

24 (A) An overview of the program schedule.

25 (B) A statement of the total cost of the
26 program as of the date of the briefing, includ-

1 ing the costs of development, testing, and pro-
2 duction.

3 (C) A comparison of the total cost of the
4 program relative to the approved acquisition
5 program baseline.

6 (D) An assessment of flight testing under
7 the program, including identification of the
8 number of test events that have been conducted
9 on-time in accordance with the joint integrated
10 program schedule.

11 (E) An update on the correction of tech-
12 nical deficiencies under the program, includ-
13 ing—

14 (i) identification of the technical defi-
15 ciencies that have been corrected as of the
16 date of the briefing;

17 (ii) identification of the technical defi-
18 ciencies that have been discovered, but not
19 corrected, as of such date;

20 (iii) an estimate of the total cost of
21 correcting technical deficiencies under the
22 program; and

23 (iv) an explanation of any significant
24 deviations from the testing and program
25 schedule that are anticipated due to the

1 discovery and correction of technical defi-
2 ciencies.

3 **SEC. 133. LIMITATION ON AVAILABILITY OF FUNDS FOR**
4 **VH-92A HELICOPTER.**

5 (a) LIMITATION.—Of the funds authorized to be ap-
6 propriated by this Act or otherwise made available for fis-
7 cal year 2020 for procurement for the VH-92A helicopter,
8 not more than 80 percent may be obligated or expended
9 until the date on which the Secretary of Navy submits to
10 the Committees on Armed Services of the Senate and the
11 House of Representatives the report required under sub-
12 section (b).

13 (b) REPORT REQUIRED.—The Secretary of the Navy
14 shall submit to the Committees on Armed Services of the
15 Senate and the House of Representatives a report assess-
16 ing the status of the VH-92A helicopter program indus-
17 trial base and the potential impact of proposed manufac-
18 turing base changes on the acquisition program. The re-
19 port shall include a description of—

20 (1) estimated effects on the manufacturing
21 readiness level of the VH-92 program due to poten-
22 tial changes to the program manufacturing base;

23 (2) the estimated costs and assessment of cost
24 risk to the program due to potential changes to the
25 program manufacturing base;

1 (3) any estimated schedule impacts, including
2 impacts on delivery dates for the remaining low-rate
3 initial production lots and full rate production, re-
4 sulting from any changes to the manufacturing base;

5 (4) an assessment of the effect of changes to
6 the manufacturing base on VH-92A sustainment;
7 and

8 (5) the impact of such changes on production
9 and sustainment capacity for the MH-60 and CH-
10 53K helicopters of the Navy.

11 **SEC. 134. REPORT ON CARRIER WING AND AVIATION COM-**
12 **BAT ELEMENT COMPOSITION.**

13 (a) IN GENERAL.—Not later than May 1, 2020, the
14 Secretary of the Navy shall submit to the congressional
15 defense committees a report on the optimal composition
16 of the carrier air wing (CVW) on aircraft carriers and
17 aviation combat element (ACE) embarked on amphibious
18 ships in 2030 and 2040, including alternative force design
19 concepts.

20 (b) ELEMENTS.—The report required under sub-
21 section (a) shall include the following elements for the
22 CVW and ACE:

23 (1) Analysis and justification for the Depart-
24 ment of the Navy's stated goal of a 50/50 mix of 4th
25 and 5th generation aircraft for 2030.

1 (2) Analysis and justification for an optimal
2 mix of aircraft for 2040.

3 (3) A plan for incorporating unmanned aerial
4 vehicles and associated communication capabilities to
5 effectively implement the future force design.

6 (4) Analysis of the support equipment require-
7 ment for each aircraft type and the space needed to
8 accommodate such equipment.

9 (5) A description of existing and potential ship
10 designs or design changes that would enable greater
11 commonality and interoperability of embarked naval
12 aircraft, including aircraft arresting gear and launch
13 catapults.

14 (c) BRIEFING.—Not later than March 1, 2020, the
15 Secretary of the Navy shall provide the congressional de-
16 fense committees a briefing on the report required under
17 subsection (a).

18 **Subtitle D—Air Force Programs**

19 **SEC. 141. MODIFICATION OF REQUIREMENT TO PRESERVE** 20 **CERTAIN C-5 AIRCRAFT.**

21 Section 141(d) of the National Defense Authorization
22 Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat.
23 1661) is amended—

24 (1) in paragraph (1), by striking “until the date
25 that is 30 days after the date on which the briefing

1 under section 144(b) of the National Defense Au-
2 thorization Act for Fiscal Year 2018 is provided to
3 the congressional defense committees” and inserting
4 “until the date that is 30 days after the date on
5 which the final report and briefing required under
6 section 1712(c)(2) of the National Defense Author-
7 ization Act for Fiscal Year 2020 have each been pro-
8 vided to the congressional defense committees”; and
9 (2) in paragraph (2)(A), by striking “can be re-
10 turned to service” and inserting “is inducted into or
11 maintained in type 1000 recallable storage”.

12 **SEC. 142. OC-135B AIRCRAFT RECAPITALIZATION PRO-**
13 **GRAM.**

14 The Secretary of the Air Force shall ensure that any
15 request for proposals for the procurement of an OC-135B
16 aircraft under a recapitalization program for such aircraft
17 meets the requirements for full and open competition as
18 set forth in section 2304 of title 10, United States Code,
19 and includes, as part of such request for proposals, consid-
20 eration of proposals for the provision of new production
21 aircraft and recently manufactured aircraft.

1 **SEC. 143. REQUIREMENT TO ALIGN AIR FORCE AVIATION**
2 **FORCE STRUCTURE WITH NATIONAL DE-**
3 **FENSE STRATEGY.**

4 (a) **REQUIRED SUBMISSION OF STRATEGY.**—Not
5 later than March 1, 2020, the Secretary of the Air Force
6 shall submit to the congressional defense committees an
7 aviation force structure acquisition strategy that aligns
8 with the stated capability and capacity requirements of the
9 Department of the Air Force to meet the National Defense
10 Strategy.

11 (b) **ALIGNMENT WITH STRATEGY.**—The Secretary of
12 the Air Force may not deviate from the strategy submitted
13 under subsection (a) until—

14 (1) the Secretary receives a waiver from the
15 Secretary of Defense, in consultation with the Chair-
16 man of the Joint Chiefs of Staff; and

17 (2) the Secretary of Defense provides the con-
18 gressional defense committees with the waiver ap-
19 proval documentation.

20 **SEC. 144. PROHIBITION ON AVAILABILITY OF FUNDS FOR**
21 **REDUCTION IN KC-10 PRIMARY MISSION AIR-**
22 **CRAFT INVENTORY.**

23 None of the funds authorized to be appropriated by
24 this Act or otherwise made available for fiscal year 2020
25 for the Air Force may be obligated or expended to reduce

1 the number of KC-10 aircraft in the primary mission air-
2 craft inventory of the Air Force.

3 **SEC. 145. LIMITATION ON AVAILABILITY OF FUNDS FOR F-**
4 **15EX AIRCRAFT.**

5 (a) LIMITATION.—Except as provided in subsection
6 (b), none of the funds authorized to be appropriated by
7 this Act or otherwise made available for fiscal year 2020
8 for the Air Force may be obligated or expended to procure
9 any F-15EX aircraft, other than the first two prototypes
10 of such aircraft, until a period of 15 days has elapsed fol-
11 lowing the date on which the Secretary of the Air Force
12 submits to the congressional defense committees a report
13 on the following topics relating to the F-15EX program:

- 14 (1) Acquisition strategy.
15 (2) Cost and schedule estimates.
16 (3) Test and evaluation strategy.
17 (4) Logistics strategy.
18 (5) Post-production fielding strategy.

19 (b) EXCEPTION FOR LONG-LEAD ITEMS.—

20 (1) IN GENERAL.—Notwithstanding subsection
21 (a), the Secretary of the Air Force may use the
22 funds described in paragraph (2) to procure long-
23 lead items for up to six additional F-15EX aircraft
24 beyond the first two prototypes of such aircraft.

1 Air Force notifies the congressional defense committees of
2 the intent of the Secretary to authorize such work.

3 (b) EXCEPTION.—The limitation under subsection
4 (a) shall not apply to over and above work carried out—

5 (1) to repair or replace items damaged during
6 the testing of the VC–25B aircraft; or

7 (2) to make changes necessary to meet oper-
8 ational requirements.

9 (c) DEFINITIONS.—In this section:

10 (1) The term “operational requirements” means
11 any of the operational requirements for the VC–25B
12 aircraft described in the capability development doc-
13 ument or the system requirements document for the
14 Presidential Aircraft Recapitalization Program.

15 (2) The term “over and above work” means
16 work performed pursuant to line 0012 (CLIN 0012)
17 of the contract for Presidential Aircraft Recapital-
18 ization entered into between the Department of the
19 Air Force and the Boeing Company (contract num-
20 ber FA8625–16–C–6599).

21 **SEC. 147. LIMITATION ON AVAILABILITY OF FUNDS FOR**
22 **RC–26B AIRCRAFT.**

23 (a) LIMITATION.—Except as provided in subsection
24 (b), none of the funds authorized to be appropriated by
25 this Act or otherwise made available for fiscal year 2020

1 for the Air Force may be obligated or expended to retire,
2 divest, realign, or place in storage or on backup aircraft
3 inventory status, or prepare to retire, divest, realign, or
4 place in storage or backup inventory status, any RC-26B
5 aircraft until the date on which the Secretary of the Air
6 Force submits to the congressional defense committees—

7 (1) the report required under subsection (c);

8 and

9 (2) the certification required under subsection
10 (d).

11 (b) EXCEPTION.—The limitation in subsection (a)
12 shall not apply to individual RC-26B aircraft that the
13 Secretary of the Air Force determines, on a case-by-case
14 basis, to be no longer mission capable because of mishaps
15 or other damage.

16 (c) REPORT REQUIRED.—Not later than 90 days
17 after the date of the enactment of this Act, the Secretary
18 of the Air Force shall submit to the congressional defense
19 committees a report that includes the following:

20 (1) A survey of any requirements for the Air
21 Force to provide intelligence, surveillance, and re-
22 connaissance support to other military forces and
23 civil authorities that the Air Force and the Air Na-
24 tional Guard meet using the RC-26B aircraft.

1 (2) An assessment of the extent to which such
2 requirements are appropriate for the Air Force to
3 fulfill.

4 (3) The manner in which the Secretary would
5 meet such requirements if the RC-26B aircraft were
6 to be retired.

7 (4) A comparison of costs and effectiveness of
8 alternative means of providing intelligence, surveil-
9 lance, and reconnaissance support to other military
10 forces and civil authorities.

11 (5) An assessment of the utility of entering into
12 one or more memoranda of agreement with other
13 military forces and civil authorities to govern the
14 process for providing intelligence, surveillance, and
15 reconnaissance support to those forces and authori-
16 ties.

17 (d) CERTIFICATION REQUIRED.—Not later than 60
18 days after the date on which the Secretary of the Air
19 Force submits the report required under subsection (c),
20 the Secretary shall certify to the congressional defense
21 committees—

22 (1) whether there are requirements for the Air
23 Force to provide intelligence, surveillance, and re-
24 connaissance support to other military forces and

1 civil authorities that the Air Force meets using the
2 RC-26B aircraft; and

3 (2) whether the Secretary has identified meth-
4 ods of meeting such requirements that are more ef-
5 fective and more efficient than meeting such require-
6 ments through the use of the RC-26B aircraft.

7 **SEC. 148. LIMITATION ON AVAILABILITY OF FUNDS FOR RE-**
8 **TIREMENT OF RC-135 AIRCRAFT.**

9 (a) LIMITATION.—Except as provided in subsection
10 (b), none of the funds authorized to be appropriated by
11 this Act or otherwise made available for fiscal year 2020
12 for the Air Force may be obligated or expended to retire,
13 or prepare to retire, any RC-135 aircraft until a period
14 of 60 days has elapsed following the date on which the
15 Secretary of Defense certifies to the congressional defense
16 committees that—

17 (1) technologies other than the RC-135 aircraft
18 provide capacity and capabilities equivalent to the
19 capacity and capabilities of the RC-135 aircraft;
20 and

21 (2) the capacity and capabilities of such other
22 technologies meet the requirements of combatant
23 commanders with respect to indications and warn-
24 ing, intelligence preparation of the operational envi-

1 (1) IN GENERAL.—The Secretary of the Air
2 Force may not transfer any low-rate initial produc-
3 tion F-35 aircraft for use as aggressor aircraft until
4 the Chief of Staff of the Air Force submits to the
5 congressional defense committees a comprehensive
6 plan and report on the strategy for modernizing its
7 organic aggressor fleet.

8 (2) ELEMENTS.—The report required under
9 paragraph (1) shall include the following elements:

10 (A) Potential locations for F-35A aggressor
11 aircraft, including an analysis of installa-
12 tions that—

13 (i) have the size and availability of
14 airspace necessary to meet flying oper-
15 ations requirements;

16 (ii) have sufficient capacity and avail-
17 ability of range space;

18 (iii) are capable of hosting advanced-
19 threat training exercises; and

20 (iv) meet or require minimal addition
21 to the environmental requirements associ-
22 ated with the basing action.

23 (B) An analysis of the potential cost and
24 benefits of expanding aggressor squadrons cur-

1 rently operating 18 Primary Assigned Aircraft
2 (PAA) to a level of 24 PAA each.

3 (C) An analysis of the cost and timelines
4 associated with modernizing the current Air
5 Force aggressor squadrons to include upgrading
6 aircraft radar, infrared search-and-track sys-
7 tems, radar warning receiver, tactical datalink,
8 threat-representative jamming pods, and other
9 upgrades necessary to provide a realistic ad-
10 vanced adversary threat.

11 **SEC. 150. AIR FORCE PLAN FOR COMBAT RESCUE HELI-**
12 **COPTER FIELDING.**

13 (a) SENSE OF CONGRESS.—It is the sense of Con-
14 gress that, given delays to Operational Loss Replacement
15 (OLR) program fielding and the on-time fielding of Com-
16 bat Rescue Helicopter (CRH), the Air National Guard
17 should retain additional HH–60G helicopters at Air Na-
18 tional Guard locations to meet their recommended primary
19 aircraft authorized (PAA) per the Air Force’s June 2018
20 report on Air National Guard HH–60 requirements.

21 (b) REPORT ON FIELDING PLAN.—

22 (1) IN GENERAL.—Not later than 45 days after
23 the date of the enactment of this Act, the Secretary
24 of the Air Force shall submit to the congressional

1 defense committees a report on its fielding plan for
2 the CRH program.

3 (2) ELEMENTS.—The report required under
4 paragraph (1) shall include the following elements:

5 (A) A description of the differences in ca-
6 pabilities between the HH-60G, OLR, and
7 CRH helicopters.

8 (B) A description of the costs and risks as-
9 sociated with changing the CRH fielding plan
10 to reduce or eliminate inventory shortfalls.

11 (C) A description of the measures for ac-
12 celerating the program available within the cur-
13 rent contract.

14 (D) A description of the operational risks
15 and benefits associated with fielding the CRH
16 to the active component first, including—

17 (i) how the differing fielding plan may
18 affect deployment schedules;

19 (ii) what capabilities active-component
20 units deploying with the CRH will have
21 that reserve component units deploying
22 with OLR will not; and

23 (iii) an analysis of the potential costs
24 and benefits that could result from accel-
25 erating CRH fielding to all units through

1 additional funding in the future years de-
2 fense program.

3 (c) REPORT ON TRAINING PLAN.—

4 (1) IN GENERAL.—Not later than 45 days after
5 the date of the enactment of this Act, the Secretary
6 of the Air Force shall submit to the congressional
7 defense committees a report on the plan to sustain
8 training for initial-entry reserve component HH–
9 60G pilots once the active component of the Air
10 Force has received all of its CRH helicopters.

11 (2) ELEMENTS.—The report required under
12 paragraph (1) shall include the following elements:

13 (A) Projected reserve component aircrew
14 initial HH–60G/OLR qualification training re-
15 quirements, by year.

16 (B) The number of legacy HH–60G/OLR
17 helicopters required to continue providing initial
18 HH–60G qualification training through the
19 150th Special Operations Wing at Kirtland Air
20 Force Base.

21 (C) The number of personnel required to
22 continue providing initial HH–60G/OLR quali-
23 fication training through the 150th Special Op-
24 erations Wing at Kirtland Air Force Base.

1 (D) The number of flying hours required
2 per pilot to perform “differences training” at
3 home station for initial entry HH–60 pilots re-
4 ceiving CRH training at Kirtland Air Force
5 Base to become qualified in the HH–60G/OLR
6 at their home station.

7 (E) The projected effect of using local fly-
8 ing training hours at reserve component units
9 on overall unit training readiness and ability to
10 meet Ready Aircrew Program requirements.

11 **SEC. 151. REPORT ON FEASIBILITY OF MULTIYEAR CON-**
12 **TRACT FOR PROCUREMENT OF JASSM-ER**
13 **MISSILES.**

14 (a) IN GENERAL.—Not later than March 31, 2020,
15 the Secretary of the Air Force shall submit a report to
16 the congressional defense committees assessing the feasi-
17 bility of entering into a multiyear contract for procure-
18 ment of JASSM–ER missiles starting in fiscal year 2022.

19 (b) ELEMENTS.—The report required under sub-
20 section (a) shall include the following elements:

21 (1) An initial assessment of cost savings to the
22 Air Force from a multiyear contract.

23 (2) An analysis of at least two different
24 multiyear contract options that vary in either dura-
25 tion or quantity, at least one of which assumes a

1 maximum procurement of 550 missiles per year for
2 5 years.

3 (3) An assessment of how a multiyear contract
4 will impact the industrial base.

5 (4) An assessment of how a multiyear contract
6 will impact the Long Range Anti-Ship Missile.

7 (5) An assessment of how a multiyear contract
8 will impact the ability of the Air Force to develop
9 additional capabilities for the JASSM-ER missile.

10 **SEC. 152. REPORT ON AIRCRAFT FLEET OF THE CIVIL AIR**
11 **PATROL.**

12 (a) REPORT.—Not later than 90 days after the date
13 of the enactment of this Act, the Secretary of the Air
14 Force shall submit to the congressional defense commit-
15 tees a report on the aircraft fleet of the Civil Air Patrol.

16 (b) ELEMENTS.—The report required by subsection
17 (a) shall include an assessment of each of the following:

18 (1) Whether the number of aircraft, types of
19 aircraft, and operating locations that comprise the
20 Civil Air Patrol fleet are suitable for the missions
21 and responsibilities assigned to the Civil Air Patrol,
22 including—

23 (A) flight proficiency and training;

24 (B) operational mission training; and

1 (C) support for cadet orientation and cadet
2 flight training programs in the Civil Air Patrol
3 wing of each State.

4 (2) The ideal overall size of the Civil Air Patrol
5 aircraft fleet, including a description of the factors
6 used to determine that ideal size.

7 (3) The process used by the Civil Air Patrol
8 and the Air Force to determine the number and lo-
9 cation of aircraft operating locations and whether
10 State Civil Air Patrol wing commanders are appro-
11 priately involved in that process.

12 (4) The process used by the Civil Air Patrol,
13 the Air Force, and other relevant entities to deter-
14 mine the type and number of aircraft that are need-
15 ed to support the emergency, operational, and train-
16 ing missions of the Civil Air Patrol.

17 **SEC. 153. SENSE OF CONGRESS ON THE LIGHT ATTACK AIR-**
18 **CRAFT INITIATIVE OF THE AIR FORCE.**

19 It is the sense of the Congress that—

20 (1) The United States Special Operations Com-
21 mand has a mission requirement to support foreign
22 internal defense training and a light attack aircraft
23 platform could potentially facilitate meeting that re-
24 quirement.

1 (2) The Secretary of the Air Force should co-
2 ordinate with the Commander of the United States
3 Special Operations Command to assess how general
4 purpose forces and special operations forces can le-
5 verage the light attack aircraft phase three experi-
6 mentation activities of the Air Force.

7 (3) The Secretary of the Air Force, in coordina-
8 tion with the Commander of the United States Spe-
9 cial Operations Command, should explore options for
10 coordinating light attack aircraft experiment activi-
11 ties between general purpose forces and special oper-
12 ations forces to maximize efficiency and effectiveness
13 and to further the mission requirements of both
14 forces, including options to transfer a portion of
15 funds authorized for Air Force light attack aircraft
16 experiments to procure aircraft for supporting the
17 combat air advisor mission of the Special Operations
18 Command.

19 **Subtitle E—Defense-wide, Joint,**
20 **and Multiservice Matters**

21 **SEC. 161. ECONOMIC ORDER QUANTITY CONTRACTING AND**
22 **BUY-TO-BUDGET ACQUISITION FOR F-35 AIR-**
23 **CRAFT PROGRAM.**

24 (a) ECONOMIC ORDER QUANTITY CONTRACT AU-
25 THORITY.—

1 (1) IN GENERAL.—Subject to paragraphs (2)
2 through (4), from amounts made available for obli-
3 gation under the F-35 aircraft program, the Sec-
4 retary of Defense may enter into one or more con-
5 tracts, beginning with the fiscal year 2020 program
6 year, for the procurement of economic order quan-
7 tities of material and equipment that has completed
8 formal hardware qualification testing for the F-35
9 aircraft program for use in procurement contracts to
10 be awarded for such program during fiscal years
11 2021, 2022, and 2023.

12 (2) LIMITATION.—The total amount obligated
13 under all contracts entered into under paragraph (1)
14 shall not exceed \$574,000,000.

15 (3) PRELIMINARY FINDINGS.—Before entering
16 into a contract under paragraph (1), the Secretary
17 of Defense shall make each of the following findings
18 with respect to such contract:

19 (A) The use of such a contract will result
20 in significant savings of the total anticipated
21 costs of carrying out the program through an-
22 nual contracts.

23 (B) The minimum need for the property to
24 be procured is expected to remain substantially
25 unchanged during the contemplated contract

1 period in terms of production rate, procurement
2 rate, and total quantities.

3 (C) There is a reasonable expectation that,
4 throughout the contemplated contract period,
5 the Secretary will request funding for the con-
6 tract at the level required to avoid contract can-
7 cellation.

8 (D) That there is a stable, certified, and
9 qualified design for the property to be procured
10 and that the technical risks and redesign risks
11 associated with such property are low.

12 (E) The estimates of both the cost of the
13 contract and the anticipated cost avoidance
14 through the use of an economic order quantity
15 contract are realistic.

16 (F) Entering into the contract will pro-
17 mote the national security interests of the
18 United States.

19 (4) CERTIFICATION REQUIREMENT.—The Sec-
20 retary of Defense may not enter into a contract
21 under paragraph (1) until a period of 30 days has
22 elapsed following the date on which the Secretary
23 certifies to the congressional defense committees, in
24 writing, that each of the following conditions is sat-
25 isfied:

1 (A) A sufficient number of end items of
2 the system being acquired under such contract
3 have been delivered at or within the most re-
4 cently available estimates of the program acqui-
5 sition unit cost or procurement unit cost for
6 such system to determine that the estimates of
7 the unit costs are realistic.

8 (B) During the fiscal year in which such
9 contract is to be awarded, sufficient funds will
10 be available to perform the contract in such fis-
11 cal year, and the future-years defense program
12 submitted to Congress under section 221 of
13 title 10, United States Code, for that fiscal year
14 will include the funding required to execute the
15 program without cancellation.

16 (C) The contract is a fixed-price type con-
17 tract.

18 (D) The proposed contract provides for
19 production at not less than minimum economic
20 rates given the existing tooling and facilities.

21 (E) The Secretary has determined that
22 each of the conditions described in subpara-
23 graphs (A) through (F) of paragraph (3) will be
24 met by such contract and has provided the

1 basis for such determination to the congres-
2 sional defense committees.

3 (b) BUY-TO-BUDGET ACQUISITION.—Subject to sec-
4 tion 2308 of title 10, United States Code, the Secretary
5 of Defense may procure a quantity of F-35 aircraft in
6 excess of the quantity authorized by this Act.

7 **SEC. 162. RELIEF FROM CONTRACTORS FOR FAILURE TO**
8 **DELIVER READY-FOR-ISSUE SPARE PARTS**
9 **FOR THE F-35 AIRCRAFT PROGRAM.**

10 (a) REQUIREMENT TO SEEK RELIEF.—Consistent
11 with the findings and recommendations of the Inspector
12 General of the Department of Defense in the report titled
13 “Audit of F-35 Ready-For-Issue Spare Parts and
14 Sustainment Performance Incentive Fees” (DODIG–
15 2019–094) and dated June 13, 2019, the Secretary of De-
16 fense shall seek relief, as described in subsection (b), from
17 prime contractors that delivered noncompliant ready-for-
18 issue spare parts pursuant a contract under the F-35 air-
19 craft program.

20 (b) RELIEF DESCRIBED.—The relief sought by the
21 Secretary of Defense under subsection (a) may include the
22 following:

23 (1) Specific performance.

24 (2) Compensation for costs incurred by the De-
25 partment of Defense as a result of the contractor’s

1 failure to deliver compliant ready-for-issue spare
2 parts under the contract.

3 (3) Any other form of remediation or compensa-
4 tion the Secretary determines to be appropriate.

5 (c) RULE OF CONSTRUCTION.—Nothing in this sec-
6 tion shall be construed—

7 (1) to alter the terms of a contract under the
8 F-35 aircraft program; or

9 (2) to authorize the Secretary of Defense to
10 seek forms of relief beyond those otherwise available
11 under law.

12 **SEC. 163. LIMITATION ON AVAILABILITY OF FUNDS FOR RE-**
13 **ALLOCATION OF TURKISH F-35A AIRCRAFT**
14 **TO THE UNITED STATES.**

15 (a) LIMITATION.—None of the funds authorized to
16 be appropriated by this Act or otherwise made available
17 for fiscal year 2020 for the Air Force may be obligated
18 or expended to procure a covered F-35A aircraft for the
19 United States Air Force until a period of 15 days has
20 elapsed following the date on which the Secretary of De-
21 fense certifies to the congressional defense committees
22 that—

23 (1) ancillary mission equipment, initial spare
24 parts and materials, technical data, and publications

1 will be procured for each covered F-35A aircraft de-
2 livered to the Air Force; and

3 (2) each such aircraft will be delivered to the
4 Air Force in a common configuration that may be
5 operated and integrated within the fleet of F-35A
6 aircraft of the Air Force.

7 (b) COVERED F-35A AIRCRAFT DEFINED.—In this
8 section, the term “covered F-35A aircraft” means an F-
9 35A aircraft previously procured by or on behalf of the
10 Government of the Republic of Turkey in F-35 production
11 lot 12, 13, or 14.

12 **SEC. 164. REQUIREMENT TO ESTABLISH THE USE OF AN**
13 **AGILE DEVOPS SOFTWARE DEVELOPMENT**
14 **SOLUTION AS AN ALTERNATIVE FOR JOINT**
15 **STRIKE FIGHTER AUTONOMIC LOGISTICS IN-**
16 **FORMATION SYSTEM.**

17 (a) COMPETITIVE ANALYSIS.—The Secretary of De-
18 fense shall conduct a competitive analysis of the perform-
19 ance and design architecture enhancement efforts between
20 the currently fielded Autonomic logistics Information Sys-
21 tem, Autonomic Logistics Information System-Next, and
22 the Department of the Air Force Agile Development Oper-
23 ations Madhatter initiative efforts, including system tech-
24 nology transition opportunities and timelines.

1 (c) BRIEFING.—Not later than September 30, 2020,
2 the Secretary of Defense shall provide the congressional
3 defense committees a briefing on the findings of the com-
4 petitive analysis carried out under subsection (a).

5 **SEC. 165. F-35 SUSTAINMENT COST.**

6 (a) QUARTERLY UPDATE.—The Under Secretary of
7 Defense for Acquisition and Sustainment shall include in
8 the quarterly report required under section 155 of the
9 John S. McCain National Defense Authorization Act for
10 Fiscal Year 2019 (Public Law 115–232)—

11 (1) sustainment cost data related to the F–35
12 program, including a comparison in itemized format
13 of the cost of legacy aircraft and the cost of the F–
14 35 program, based on a standardized set of criteria;
15 and

16 (2) an evaluation and metrics on the extent to
17 which the goals developed pursuant to subsection (b)
18 are being achieved.

19 (b) COST REDUCTION PLAN.—

20 (1) IN GENERAL.—The Under Secretary of De-
21 fense for Acquisition and Sustainment shall develop
22 and implement a plan for achieving significant re-
23 ductions in the costs to operate, maintain, and sus-
24 tain the F–35 system.

1 (2) ELEMENTS.—The plan required under
2 paragraph (1) shall include the following elements:

3 (A) Specific changes in the management
4 and execution of operation and support (O&S)
5 cost elements to engender continuous and meas-
6 urable process improvements.

7 (B) Specific actions the Department will
8 implement in the near, mid, and long terms to
9 reduce O&S costs.

10 (C) Firm and achievable timelines for im-
11 plementing the specific actions and process
12 changes.

13 (3) REPORT.—Not later than 180 days after
14 the date of the enactment of this Act, the Under
15 Secretary shall submit to the congressional defense
16 committees a report on the baseline plan developed
17 pursuant to paragraph (1).

18 **SEC. 166. REPORTS ON THE PROGRESS AND PERFORMANCE**
19 **OF THE F-35 AIRCRAFT PROGRAM.**

20 (a) F-35 BLOCK 4 AND CONTINUOUS CAPABILITY
21 DEVELOPMENT AND DELIVERY PROGRAM.—The Sec-
22 retary of Defense shall include with the annual report re-
23 quired by section 224(d) of the National Defense Author-
24 ization Act for Fiscal Year 2017 (Public Law 114–328;
25 130 Stat. 2059) an integrated master schedule and past

1 performance assessment for each planned phase of the F–
2 35 Block 4 Upgrade and Continuous Capability Develop-
3 ment and Delivery Program.

4 (b) COMPTROLLER GENERAL REPORTS.—

5 (1) ANNUAL REPORT REQUIRED.—Not later
6 than 30 days after the date on which the budget of
7 the President is submitted to Congress under section
8 1105(a) of title 31, United States Code, for each of
9 fiscal years 2021 through 2025, the Comptroller
10 General of the United States shall submit to the
11 congressional defense committees a report on the F–
12 35 aircraft program.

13 (2) ELEMENTS.—Each report under paragraph
14 (1) shall include, with respect to the F–35 aircraft
15 program, the following:

16 (A) An assessment of the progress of man-
17 ufacturing processes improvement under the
18 program.

19 (B) The progress and results of the F–35
20 Block 4 Upgrade and Continuous Capability
21 Development and Delivery Program and other
22 follow-on modernization development and test-
23 ing efforts.

1 (C) An assessment of the Department's
2 schedule for delivering software upgrades in six-
3 month, scheduled increments.

4 (D) The progress and results of any other
5 significant hardware development and fielding
6 efforts necessary for the F-35 Block 4 Upgrade
7 and Continuous Capability Development and
8 Delivery Program.

9 (E) Any other issues the Comptroller Gen-
10 eral determines to be appropriate.

11 (c) F-35 BLOCK 4 DEFINED.—In this section, the
12 term “F-35 Block 4 Upgrade and Continuous Capability
13 Development and Delivery Program” means Block 4 capa-
14 bility upgrades for the F-35 aircraft program as described
15 in the Selected Acquisition Report for the program sub-
16 mitted to Congress in March 2019, pursuant to section
17 2432 of title 10, United States Code.

18 **SEC. 167. OTHER REPORTS ON THE F-35 AIRCRAFT PRO-**
19 **GRAM.**

20 (a) REPORT ON F-35 RELIABILITY AND MAINTAIN-
21 ABILITY METRICS.—The Secretary of Defense shall sub-
22 mit to the congressional defense committees a report on
23 the reliability and maintainability metrics for the F-35
24 aircraft. The report shall include the following:

1 (1) The results of a review and assessment,
2 conducted by the program office for the F-35 air-
3 craft program, of the reliability and maintainability
4 metrics for the aircraft as set forth in the most re-
5 cent operational requirements document for the pro-
6 gram.

7 (2) A determination of whether the reliability
8 and maintainability metrics for the aircraft, as set
9 forth in the most recent operational requirements
10 document for the program, are feasible and attain-
11 able, and what changes, if any, will be made to up-
12 date the metrics.

13 (3) A certification that the program office for
14 the F-35 aircraft program has revised the reliability
15 and maintainability improvement plan for the air-
16 craft—

17 (A) to identify specific and measurable re-
18 liability and maintainability objectives in the
19 improvement plan guidance; and

20 (B) to identify and document which
21 projects included in the improvement plan will
22 achieve the objectives identified under subpara-
23 graph (A).

1 (b) REPORT ON F-35 BLOCK 4 UPGRADE AND CON-
2 TINUOUS CAPABILITY DEVELOPMENT AND DELIVERY
3 PROGRAM.—

4 (1) IN GENERAL.—The Secretary of Defense
5 shall submit to the congressional defense committees
6 a report on the F-35 Block 4 Upgrade and Contin-
7 uous Capability Development and Delivery Program.
8 The report shall include the following:

9 (A) The results of the independent cost es-
10 timate for the Program conducted by the Direc-
11 tor of Cost Assessment and Program Evalua-
12 tion.

13 (B) An approved test and evaluation mas-
14 ter plan that addresses the adequacy of testing
15 resources, testing aircraft shortfalls, and testing
16 funding.

17 (C) A review of the feasibility and schedule
18 of the continuous capability development and
19 delivery strategy for fielding technologies under
20 the Program as conducted by the Under Sec-
21 retary of Defense for Research and Engineer-
22 ing.

23 (2) F-35 BLOCK 4 DEFINED.—In this sub-
24 section, the term “F-35 Block 4 Upgrade and Con-
25 tinuous Capability Development and Delivery Pro-

1 gram” has the meaning given that term in section
2 166.

3 (c) REPORT ON F-35 AUTONOMIC LOGISTICS INFOR-
4 MATION SYSTEM.—The Secretary of Defense shall submit
5 to the congressional defense committees a report on the
6 autonomic logistics information system of the F-35 air-
7 craft. The report shall include a description of each of the
8 following:

9 (1) All shortfalls, capability gaps, and defi-
10 ciencies in the system that have been identified as
11 of the date of the enactment of this Act.

12 (2) The strategy and performance requirements
13 that will be implemented to improve the system.

14 (3) The strategy, implementation plan, sched-
15 ule, and estimated costs of developing and fielding—

16 (A) the next generation of the system; or

17 (B) future increments of the system.

18 (d) F-35 LIFE-CYCLE COST ESTIMATES.—

19 (1) JOINT COST ESTIMATE.—The Secretary of
20 the Air Force and the Secretary of the Navy shall
21 jointly develop a joint service cost estimate for the
22 life-cycle costs of the F-35 aircraft program.

23 (2) INDEPENDENT COST ESTIMATE.—The Di-
24 rector of Cost Assessment and Program Evaluation

1 shall develop an independent cost estimate for the
2 life-cycle costs of the F-35 aircraft program.

3 (e) DEADLINE FOR SUBMITTAL.—The reports re-
4 quired under subsections (a) through (d) shall be sub-
5 mitted to the congressional defense committees not later
6 than 180 days after the date of the enactment of this Act.

7 **SEC. 168. LIMITATION ON AVAILABILITY OF FUNDS FOR**
8 **COMMUNICATIONS SYSTEMS LACKING CER-**
9 **TAIN RESILIENCY FEATURES.**

10 (a) IN GENERAL.—Except as provided under sub-
11 section (b), none of the funds authorized to be appro-
12 priated by this Act or otherwise made available for fiscal
13 year 2020 for the Department of Defense may be obli-
14 gated or expended for the procurement of a current or
15 future Department of Defense communications program
16 of record, and the Department may not otherwise procure
17 a current or future communications program of record,
18 unless the communications equipment—

19 (1) mitigates geolocation of a transmission that
20 would allow a like echelon enemy force to target the
21 user;

22 (2) securely communicates classified informa-
23 tion in a contested communications environment
24 that includes operationally representative jamming;

1 tion and Sustainment shall submit to the congress-
2 sional defense committees a report on the status of
3 the Common Data Link program and plans to meet
4 new and emerging manned and unmanned intel-
5 ligence, surveillance, and reconnaissance (ISR) vehi-
6 cle secure and interoperable communication require-
7 ments.

8 (2) ELEMENTS.—The report required under
9 paragraph (1) shall include the following elements:

10 (A) A description of each Common Data
11 Link (CDL) waveform in use and which plat-
12 forms or systems utilize each CDL waveform.

13 (B) A list of manned and unmanned ISR
14 platforms or systems in development requiring
15 networked, secure, low latency communications,
16 and an assessment of the suitability of CDL to
17 meet the requirements of each planned pro-
18 gram.

19 (C) A description of in-progress or planned
20 technology development efforts to address net-
21 working requirements for manned and un-
22 manned ISR systems operating in contested
23 and denied environments.

1 (b) REPEAL.—Section 157 of the National Defense
2 Authorization Act for Fiscal Year 2013 (Public Law 112–
3 239; 126 Stat. 1667) is hereby repealed.

4 **TITLE II—RESEARCH, DEVELOP-**
5 **MENT, TEST, AND EVALUA-**
6 **TION**

Subtitle A—Authorization of Appropriations

Sec. 201. Authorization of appropriations.

Subtitle B—Program Requirements, Restrictions, and Limitations

Sec. 211. Program on enhancement of preparation of dependents of members of Armed Forces for careers in science, technology, engineering, and mathematics.

Sec. 212. Updates to the Department of Defense personnel management authority to attract experts in science and engineering.

Sec. 213. Establishment of joint reserve detachment of the Defense Innovation Unit.

Sec. 214. Research and educational programs and activities for Historically Black Colleges and Universities and Minority-Serving Institutions of Higher Education.

Sec. 215. Modification of authority for prizes for advanced technology achievements.

Sec. 216. Joint hypersonics transition office.

Sec. 217. Modification of proof of concept commercialization program.

Sec. 218. Modification of authority and addition of technology areas for expedited access to technical talent.

Sec. 219. Expansion of coordination in support of national security innovation and entrepreneurial education.

Sec. 220. Modification of defense quantum information science and technology research and development program.

Sec. 221. Understanding of investments in artificial intelligence and development of capabilities by adversaries.

Sec. 222. Advisory role of JASON scientific advisory group.

Sec. 223. Direct Air Capture and Blue Carbon Removal Technology Program.

Sec. 224. Requiring defense microelectronics products and services meet trusted supply chain and operational security standards.

Sec. 225. Development and acquisition strategy to procure secure, low probability of detection data link network capability.

Sec. 226. Establishment of secure next-generation wireless network (5G) infrastructure for the Nevada Test and Training Range and base infrastructure.

Sec. 227. Administration of manufacturing innovation institutes funded by the Department of Defense.

Sec. 228. Research program on foreign malign influence operations.

Sec. 229. Diversification of the research and engineering workforce of the Department of Defense.

- Sec. 230. Policy on the talent management of digital expertise and software professionals.
- Sec. 231. Digital engineering capability to automate testing and evaluation.
- Sec. 232. Process to align policy formulation and emerging technology development.
- Sec. 233. Improvement of the Strategic Capabilities Office of the Department of Defense.
- Sec. 234. Pilot program on enhanced civics education.
- Sec. 235. Technology and national security fellowship.
- Sec. 236. Documentation relating to the Advanced Battle Management System.
- Sec. 237. Sensor data integration for fifth generation aircraft.
- Sec. 238. Sense of Congress on future vertical lift technologies.
- Sec. 239. Use of funds for Strategic Environmental Research Program, Environmental Security Technical Certification Program, and Operational Energy Capability Improvement.
- Sec. 240. Limitation and report on Indirect Fire Protection Capability Increment 2 capability.

Subtitle C—Plans, Reports, and Other Matters

- Sec. 251. Master plan for implementation of authorities relating to science and technology reinvention laboratories.
- Sec. 252. Infrastructure to support research, development, test, and evaluation missions.
- Sec. 253. Energetics plan.
- Sec. 254. Strategy and implementation plan for fifth generation information and communications technologies.
- Sec. 255. Department-wide software science and technology strategy.
- Sec. 256. Artificial intelligence education strategy.
- Sec. 257. Cyber science and technology activities roadmap and reports.
- Sec. 258. Report on B-52 commercial engine replacement program.
- Sec. 259. Commercial edge computing technologies and best practices for Department of Defense warfighting systems.
- Sec. 260. Biannual report on the Joint Artificial Intelligence Center.
- Sec. 261. Quarterly updates on the Optionally Manned Fighting Vehicle program.
- Sec. 262. National Study on Defense Research At Historically Black Colleges and Universities and Other Minority Institutions.
- Sec. 263. Study on national security emerging biotechnologies for the Department of Defense.
- Sec. 264. Independent study on optimizing resources allocated to Combating Terrorism Technical Support Office.
- Sec. 265. Independent assessment of electronic warfare plans and programs.
- Sec. 266. Technical correction to Global Research Watch Program.

1 **Subtitle A—Authorization of** 2 **Appropriations**

3 **SEC. 201. AUTHORIZATION OF APPROPRIATIONS.**

4 Funds are hereby authorized to be appropriated for
5 fiscal year 2020 for the use of the Department of Defense

1 for research, development, test, and evaluation, as speci-
2 fied in the funding table in section 4201.

3 **Subtitle B—Program Requirements, Restrictions, and Limita-**
4 **ments, Restrictions, and Limita-**
5 **tions**

6 **SEC. 211. PROGRAM ON ENHANCEMENT OF PREPARATION**
7 **OF DEPENDENTS OF MEMBERS OF ARMED**
8 **FORCES FOR CAREERS IN SCIENCE, TECH-**
9 **NOLOGY, ENGINEERING, AND MATHEMATICS.**

10 (a) PROGRAM REQUIRED.—Chapter 111 of title 10,
11 United States Code, is amended by inserting after section
12 2192a the following new section:

13 **“§ 2192b. Program on enhancement of preparation of**
14 **dependents of members of armed forces**
15 **for careers in science, technology, engi-**
16 **neering, and mathematics**

17 “(a) PROGRAM REQUIRED.—The Secretary of De-
18 fense shall carry out a program to—

19 “(1) enhance the preparation of students at
20 covered schools for careers in science, technology,
21 engineering, and mathematics; and

22 “(2) provide assistance to teachers at covered
23 schools to enhance preparation described in para-
24 graph (1).

1 “(b) COORDINATION.—In carrying out the program,
2 the Secretary shall coordinate with the following:

3 “(1) The Secretaries of the military depart-
4 ments.

5 “(2) The Secretary of Education.

6 “(3) The National Science Foundation.

7 “(4) Other organizations as the Secretary of
8 Defense considers appropriate.

9 “(c) ACTIVITIES.—Activities under the program may
10 include the following:

11 “(1) Establishment of targeted internships and
12 cooperative research opportunities at defense labora-
13 tories and other technical centers for students and
14 teachers at covered schools.

15 “(2) Establishment of scholarships and fellow-
16 ships for students at covered schools.

17 “(3) Efforts and activities that improve the
18 quality of science, technology, engineering, and
19 mathematics educational and training opportunities
20 for students and teachers at covered schools, includ-
21 ing with respect to improving the development of
22 curricula at covered schools.

23 “(4) Development of travel opportunities, dem-
24 onstrations, mentoring programs, and informal

1 science education for students and teachers at cov-
2 ered schools.

3 “(d) METRICS.—The Secretary shall establish out-
4 come-based metrics and internal and external assessments
5 to evaluate the merits and benefits of activities conducted
6 under the program with respect to the needs of the De-
7 partment of Defense.

8 “(e) COVERED SCHOOLS DEFINED.—In this section,
9 the term ‘covered schools’ means elementary or secondary
10 schools at which the Secretary determines a significant
11 number of dependents of members of the armed forces are
12 enrolled.”.

13 (b) CLERICAL AMENDMENT.—The table of sections
14 at the beginning of such chapter is amended by inserting
15 after the item relating to section 2192a the following new
16 item:

“2192b. Program on enhancement of preparation of dependents of members of
armed forces for careers in science, technology, engineering,
and mathematics.”.

17 (c) CONFORMING REPEAL.—Section 233 of the Carl
18 Levin and Howard P. “Buck” McKeon National Defense
19 Authorization Act for Fiscal Year 2015 (Public Law 113–
20 291; 10 U.S.C. 2193a note) is repealed.

1 **SEC. 212. UPDATES TO THE DEPARTMENT OF DEFENSE**
2 **PERSONNEL MANAGEMENT AUTHORITY TO**
3 **ATTRACT EXPERTS IN SCIENCE AND ENGI-**
4 **NEERING.**

5 (a) IN GENERAL.—Subsection (a) of section 1599h
6 of title 10, United States Code, is amended by adding at
7 the end the following new paragraph:

8 “(6) JOINT ARTIFICIAL INTELLIGENCE CEN-
9 TER.—The Director of the Joint Artificial Intel-
10 ligence Center may carry out a program of personnel
11 management authority provided in subsection (b) in
12 order to facilitate recruitment of eminent experts in
13 science or engineering for the Center. The authority
14 to carry out the program under this paragraph shall
15 terminate on December 31, 2024.”

16 (b) SCOPE OF APPOINTMENT AUTHORITY.—Sub-
17 section (b)(1) of such section is amended—

18 (1) in subparagraph (D), by striking “and” at
19 the end;

20 (2) in subparagraph (E), by adding “and” at
21 the end; and

22 (3) by adding at the end the following new sub-
23 paragraph:

24 “(F) in the case of the Joint Artificial In-
25 telligence Center, appoint scientists and engi-

1 neers to a total of not more than 5 scientific
2 and engineering positions in the Center;”.

3 (c) **EXTENSION OF TERMS OF APPOINTMENT.**—Sub-
4 section (c)(2) of such section is amended by striking “or
5 the Defense Innovation Unit Experimental” and inserting
6 “the Defense Innovation Unit, or the Joint Artificial Intel-
7 ligence Center”.

8 (d) **UPDATE TO ORGANIZATIONAL NAME.**—Such sec-
9 tion is further amended—

10 (1) in subsection (a)(5)—

11 (A) in the subsection heading by striking
12 “DIUX” and inserting “DIU”; and

13 (B) by striking “Experimental”; and

14 (2) in subsection (b)(1)(E), by striking “Exper-
15 imental”.

16 **SEC. 213. ESTABLISHMENT OF JOINT RESERVE DETACH-**
17 **MENT OF THE DEFENSE INNOVATION UNIT.**

18 (a) **IN GENERAL.**—

19 (1) **ESTABLISHMENT OF JOINT RESERVE DE-**
20 **TACHMENT OF THE DEFENSE INNOVATION UNIT.**—

21 Chapter 139 of title 10, United States Code, is
22 amended by inserting after section 2358a the fol-
23 lowing new section:

1 **“§ 2358b. Joint reserve detachment of the Defense In-**
2 **novation Unit**

3 “(a) ESTABLISHMENT.—The Secretary of Defense, in
4 consultation with the Secretaries of the military depart-
5 ments, may establish a joint reserve detachment (referred
6 to in this section as the ‘Detachment’) composed of mem-
7 bers of the reserve components described in subsection (b)
8 to be assigned to each office of the Defense Innovation
9 Unit to—

10 “(1) support engagement and collaboration with
11 private-sector industry and the community sur-
12 rounding the location of such office; and

13 “(2) to accelerate the use and adoption of com-
14 mercially-developed technologies for national security
15 purposes.

16 “(b) MEMBERS.—Each Secretary of a military de-
17 partment shall select for the Detachment, and make ef-
18 forts to retain, members of the reserve components who
19 possess relevant private-sector experience in the fields of
20 business, acquisition, intelligence, engineering, technology
21 transfer, science, mathematics, program management, lo-
22 gistics, cybersecurity, or such other fields as determined
23 by the Under Secretary of Defense for Research and Engi-
24 neering.

25 “(c) DUTIES.—The Detachment shall have the fol-
26 lowing duties:

1 “(1) Providing the Department of Defense
2 with—

3 “(A) expertise on and analysis of commer-
4 cially-developed technologies;

5 “(B) commercially-developed technologies
6 to be used as alternatives for technologies in
7 use by the Department; and

8 “(C) opportunities for greater engagement
9 and collaboration between the Department and
10 private-sector industry on innovative tech-
11 nologies.

12 “(2) On an ongoing basis—

13 “(A) partnering with the military depart-
14 ments, the combatant commands, and other De-
15 partment of Defense organizations to—

16 “(i) identify and rapidly prototype
17 commercially-developed technologies; and

18 “(ii) use alternative contracting mech-
19 anisms to procure such technologies;

20 “(B) increasing awareness of—

21 “(i) the work of the Defense Innova-
22 tion Unit; and

23 “(ii) the technology requirements of
24 the Department of Defense as identified in
25 the National Defense Science and Tech-

1 nology Strategy developed under section
2 218 of the John S. McCain National De-
3 fense Authorization Act for Fiscal Year
4 2019 (Public Law 115–232; 132 Stat.
5 1679); and

6 “(C) using the investment in research and
7 development made by private-sector industry in
8 assessing and developing dual-use technologies.

9 “(3) Carrying out other activities as directed by
10 the Under Secretary of Defense for Research and
11 Engineering.

12 “(d) JOINT DUTY.—Assignment to a Detachment
13 shall not qualify as a joint duty assignment, as defined
14 in section 668(b)(1) of title 10, United States Code, unless
15 approved by the Secretary of Defense.”.

16 (2) CLERICAL AMENDMENT.—The table of sec-
17 tions at the beginning of such chapter is amended
18 by inserting after the item relating to section 2358a
19 the following new item:

“2358b. Joint reserve detachment of the Defense Innovation Unit.”.

20 (b) IMPLEMENTATION REPORT.—Not later than 120
21 days after the date of the enactment of this Act, the Under
22 Secretary of Defense for Research and Engineering, in
23 consultation with the Director of the Defense Innovation
24 Unit and the Secretaries of the military departments, shall

1 submit to the congressional defense committees a report
2 that includes—

3 (1) an organizational plan and the estimated
4 costs for establishing the joint reserve detachment
5 required under section 2358b of title 10, United
6 States Code (as added by subsection (a)); and

7 (2) a timeline specifying when such detachment
8 will attain initial operational capability and full oper-
9 ational capability, respectively.

10 **SEC. 214. RESEARCH AND EDUCATIONAL PROGRAMS AND**
11 **ACTIVITIES FOR HISTORICALLY BLACK COL-**
12 **LEGES AND UNIVERSITIES AND MINORITY-**
13 **SERVING INSTITUTIONS OF HIGHER EDU-**
14 **CATION.**

15 Section 2362 of title 10, United States Code, is
16 amended—

17 (1) by redesignating subsections (d) and (e) as
18 subsections (e) and (f), respectively; and

19 (2) by inserting after subsection (c) the fol-
20 lowing new subsection:

21 “(d) INCENTIVES.—The Secretary of Defense may
22 develop incentives to encourage research and educational
23 collaborations between covered educational institutions
24 and other institutions of higher education.”.

1 **SEC. 215. MODIFICATION OF AUTHORITY FOR PRIZES FOR**
2 **ADVANCED TECHNOLOGY ACHIEVEMENTS.**

3 Section 2374a(a) of title 10, United States Code, is
4 amended by striking “Assistant Secretary of Defense for
5 Research and Engineering” and inserting “Under Sec-
6 retary of Defense for Research and Engineering, the
7 Under Secretary of Defense for Acquisition and
8 Sustainment,”.

9 **SEC. 216. JOINT HYPERSONICS TRANSITION OFFICE.**

10 Section 218 of the John Warner National Defense
11 Authorization Act for Fiscal Year 2007 (Public Law 109–
12 364; 10 U.S.C. 2358 note) is amended—

13 (1) in subsection (a), by striking “the program
14 required under subsection (b), and shall” and insert-
15 ing “the program and activities described in sub-
16 sections (b) through (f), and shall”;

17 (2) by redesignating subsections (c) through (e)
18 as subsections (d) through (f), respectively;

19 (3) by inserting after subsection (b) the fol-
20 lowing new subsection (c):

21 “(c) UNIVERSITY EXPERTISE.—

22 “(1) ARRANGEMENT WITH INSTITUTIONS OF
23 HIGHER EDUCATION.—Using the authority specified
24 in section 217 of the National Defense Authorization
25 Act for Fiscal Year 2018 (Public Law 115–91; 10
26 U.S.C. 2358 note) or another similar authority, the

1 Office shall seek to enter into an arrangement with
2 one or more institutions of higher education (as de-
3 fined in section 101 of the Higher Education Act of
4 1965 (20 U.S.C. 1001)) under which such institu-
5 tions may provide the Office with—

6 “(A) access to research, technology devel-
7 opment, and workforce development expertise to
8 support the mission of the Office; and

9 “(B) foundational and applied hypersonic
10 research, development, and workforce support
11 in areas that the Office determines to be rel-
12 evant for the Department of Defense.

13 “(2) AVAILABILITY OF INFORMATION.—The Of-
14 fice shall ensure that the results of any research and
15 reports produced pursuant to an arrangement under
16 paragraph (1) are made available to the Federal
17 Government, the private sector, academia, and inter-
18 national partners consistent with appropriate secu-
19 rity classification guidance.”;

20 (4) in subsection (d), as so redesignated—

21 (A) in paragraph (4), by striking the
22 comma before the period; and

23 (B) in paragraph (5), by striking “certified
24 under subsection (e) as being consistent with
25 the roadmap under subsection (d)” and insert-

1 ing “certified under subsection (f) as being con-
2 sistent with the roadmap under subsection (e)”;
3 (5) in subsection (e), as so redesignated, by
4 adding at the end the following new paragraph:

5 “(4) SUBMITTAL TO CONGRESS.—

6 “(A) INITIAL SUBMISSION.—Not later than
7 180 days after the date of the enactment of this
8 paragraph, the Secretary of Defense shall sub-
9 mit to the congressional defense committees the
10 most recent roadmap developed under para-
11 graph (1).

12 “(B) SUBSEQUENT SUBMISSIONS.—The
13 Secretary of Defense shall submit to the con-
14 gressional defense committees each roadmap re-
15 vised under paragraph (1) together with the
16 budget submitted to Congress under section
17 1105 of title 31, United States Code, for the
18 fiscal year concerned.”; and

19 (6) in subsection (f), as so redesignated—

20 (A) by striking “subsection (d)” each place
21 it appears and inserting “subsection (e)”;

22 (B) in paragraph (3), by striking “2016”
23 and inserting “2026”.

1 **SEC. 217. MODIFICATION OF PROOF OF CONCEPT COMMER-**
2 **IALIZATION PROGRAM.**

3 (a) **EXTENSION OF PROGRAM.**—Section 1603(g) of
4 the National Defense Authorization Act for Fiscal Year
5 2014 (Public Law 113–66; 10 U.S.C. 2359 note) is
6 amended by striking “2019” and inserting “2024”.

7 (b) **ADDITIONAL IMPROVEMENTS.**—Section 1603 of
8 such Act, as amended by subsection (a), is further amend-
9 ed—

10 (1) in the section heading, by inserting “**OF**
11 **DUAL-USE TECHNOLOGY**” after “**COMMER-**
12 **IALIZATION**”;

13 (2) in subsection (a)—

14 (A) by inserting “of Dual-Use Technology”
15 after “Commercialization”; and

16 (B) by inserting “with a focus on priority
17 defense technology areas that attract public and
18 private sector funding, as well as private sector
19 investment capital, including from venture cap-
20 ital firms in the United States,” before “in ac-
21 cordance”;

22 (3) in subsection (c)(4)(A)(iv), by inserting “,
23 which may include access to venture capital” after
24 “award”;

25 (4) by striking subsection (d);

1 (5) by redesignating subsection (e) as sub-
2 section (d);

3 (6) by inserting after subsection (d), as so re-
4 designated, the following new subsection (e):

5 “(e) AUTHORITIES.—In carrying out this section, the
6 Secretary may use the following authorities:

7 “(1) Section 1599g of title 10 of the United
8 States Code, relating to public-private talent ex-
9 changes.

10 “(2) Section 2368 of such title, relating to Cen-
11 ters for Science, Technology, and Engineering Part-
12 nerships.

13 “(3) Section 2374a of such title, relating to
14 prizes for advanced technology achievements.

15 “(4) Section 2474 of such title, relating to Cen-
16 ters of Industrial and Technical Excellence.

17 “(5) Section 2521 of such title, relating to the
18 Manufacturing Technology Program.

19 “(6) Section 225 of the National Defense Au-
20 thorization Act for Fiscal Year 2018 (Public Law
21 115–91; 10 U.S.C. 2359 note).

22 “(7) Section 1711 of such Act (Public Law
23 115–91; 10 U.S.C. 2505 note), relating to a pilot
24 program on strengthening manufacturing in the de-
25 fense industrial base.

1 “(8) Section 12 of the Stevenson-Wydler Tech-
2 nology Innovation Act of 1980 (15 U.S.C. 3710a)
3 and section 6305 of title 31, United States Code, re-
4 lating to cooperative research and development
5 agreements.”.

6 (7) by striking subsection (f); and

7 (8) by redesignating subsection (g) as sub-
8 section (f).

9 **SEC. 218. MODIFICATION OF AUTHORITY AND ADDITION OF**
10 **TECHNOLOGY AREAS FOR EXPEDITED AC-**
11 **CESS TO TECHNICAL TALENT.**

12 (a) **MODIFICATION OF AUTHORITY.**—Subsection
13 (a)(1) of section 217 of the National Defense Authoriza-
14 tion Act for Fiscal Year 2018 (Public Law 115–91; 10
15 U.S.C. 2358 note) is amended by striking “The Secretary
16 of Defense shall, acting through the secretaries of the mili-
17 tary departments, establish” and inserting “Not later than
18 180 days after the date of the enactment of the National
19 Defense Authorization Act for Fiscal Year 2020, the Sec-
20 retary of Defense shall direct the secretaries of the mili-
21 tary departments to establish”.

22 (b) **ADDITIONAL TECHNOLOGY AREAS.**—Subsection
23 (e) of such section is amended—

24 (1) by redesignating paragraph (27) as para-
25 graph (30); and

1 (2) by inserting after paragraph (26) the fol-
2 lowing new paragraph (27):

3 “(27) Rapid prototyping.

4 “(28) Infrastructure resilience.

5 “(29) Hypersonics.”.

6 **SEC. 219. EXPANSION OF COORDINATION IN SUPPORT OF**
7 **NATIONAL SECURITY INNOVATION AND EN-**
8 **TREPRENEURIAL EDUCATION.**

9 Section 225(e) of the National Defense Authorization
10 Act for Fiscal Year 2018 (Public Law 115–91; 10 U.S.C.
11 2359 note) is amended by adding at the end the following
12 new paragraph:

13 “(18) The Lab-Embedded Entrepreneurship
14 Programs of the Department of Energy.”.

15 **SEC. 220. MODIFICATION OF DEFENSE QUANTUM INFORMA-**
16 **TION SCIENCE AND TECHNOLOGY RESEARCH**
17 **AND DEVELOPMENT PROGRAM.**

18 Section 234 of the John S. McCain National Defense
19 Authorization Act for Fiscal Year 2019 (Public Law 115–
20 232; 10 U.S.C. 2358 note) is amended—

21 (1) in subsection (b)—

22 (A) in paragraph (2), by striking “private
23 sector entities” and inserting “private sector
24 and international entities”; and

1 (B) in paragraph (6), by striking “facilities
2 and infrastructure” and inserting “facilities,
3 workforce, and infrastructure”;

4 (2) in subsection (c)—

5 (A) in paragraph (2), by striking “quan-
6 tum sciences;” and inserting “quantum infor-
7 mation sciences, including through consultation
8 with—

9 “(A) the National Quantum Coordination
10 Office;

11 “(B) the subcommittee on Quantum Infor-
12 mation Science of the National Science and
13 Technology Council;

14 “(C) other organizations and elements of
15 the Department of Defense;

16 “(D) other Federal agencies; and

17 “(E) appropriate private sector organiza-
18 tions;”;

19 (B) by redesignating paragraphs (3) and
20 (4) as paragraphs (6) and (7), respectively;

21 (C) by inserting after paragraph (2), the
22 following new paragraphs:

23 “(3) in consultation with the entities listed in
24 paragraph (2), develop plans for—

1 “(A) the development of the quantum in-
2 formation science and technology workforce;

3 “(B) enhancing awareness of quantum in-
4 formation science and technology;

5 “(C) reducing the risk of cybersecurity
6 threats posed by quantum information science
7 technology; and

8 “(D) development of ethical guidelines for
9 the use of quantum information science tech-
10 nology;

11 “(4) in consultation with the National Institute
12 of Standards and Technology and other appropriate
13 Federal entities, develop a quantum information
14 science taxonomy and standards and requirements
15 for quantum information technology;

16 “(5) support efforts to increase the technology
17 readiness level of quantum information science tech-
18 nologies under development in the United States;”;

19 (D) in paragraph (6), as so redesignated,
20 by striking “quantum science” and inserting
21 “quantum information science”; and

22 (E) in paragraph (7), as so redesignated,
23 by striking “for meeting the long-term chal-
24 lenges and achieving the specific technical

1 goals” and inserting “for carrying out the pro-
2 gram under subsection (a)”;

3 (3) by redesignating subsection (d) as sub-
4 section (e);

5 (4) by inserting after subsection (c) the fol-
6 lowing new subsection (d):

7 “(d) QUANTUM INFORMATION SCIENCE RESEARCH
8 CENTERS.—The Secretary of each military department
9 may establish or designate a defense laboratory or estab-
10 lish activities to engage with appropriate public and pri-
11 vate sector organizations, including academic organiza-
12 tions, to enhance and accelerate the research, develop-
13 ment, and deployment of quantum information sciences
14 and quantum information science-enabled technologies
15 and systems. The Secretary of Defense shall ensure that
16 not less than one such laboratory or center is established
17 or designated.”; and

18 (5) in paragraph (2) of subsection (e), as so re-
19 designated—

20 (A) in subparagraph (A), by inserting “in-
21 formation” before “sciences”;

22 (B) in subparagraph (B),

23 (i) by inserting “information” before
24 “sciences”; and

1 (ii) by inserting “, including a discus-
2 sion of likely impacts of quantum informa-
3 tion science and technology on military ca-
4 pabilities” before the period at the end;

5 (C) in subparagraph (C), by inserting “in-
6 formation” before “sciences”;

7 (D) by redesignating subparagraph (E) as
8 subparagraph (F); and

9 (E) by striking subparagraph (D) and in-
10 sserting the following new subparagraphs:

11 “(D) A description of the activities carried
12 out in accordance with this section, including,
13 for each such activity—

14 “(i) a roadmap for the activity;

15 “(ii) a summary of the funding pro-
16 vided for the activity; and

17 “(iii) an estimated timeline for the de-
18 velopment and military deployment of
19 quantum technologies supported through
20 the activity.

21 “(E) A description of the efforts of the De-
22 partment of Defense to update classification
23 and cybersecurity practices relating to quantum
24 technology, including—

1 “(i) security processes and require-
2 ments for engagement with allied coun-
3 tries; and

4 “(ii) a plan for security-cleared gov-
5 ernment and contractor workforce develop-
6 ment.”.

7 **SEC. 221. UNDERSTANDING OF INVESTMENTS IN ARTIFI-**
8 **CIAL INTELLIGENCE AND DEVELOPMENT OF**
9 **CAPABILITIES BY ADVERSARIES.**

10 Section 238(c)(2)(I) of the John S. McCain National
11 Defense Authorization Act for Fiscal Year 2019 (Public
12 Law 115–232) is amended—

13 (1) in clause (i), by striking “; and” and insert-
14 ing a semicolon;

15 (2) in clause (ii), by striking the period at the
16 end and inserting “; and”; and

17 (3) by adding at the end the following new
18 clause:

19 “(iii) that appropriate entities in the
20 Department are reviewing all open source
21 publications from both the United States
22 and outside the United States that con-
23 tribute to, affect, or advance—

24 “(I) artificial intelligence re-
25 search and development; or

1 “(II) the understanding of the
2 Secretary concerning the investments
3 by adversaries of the United States in
4 artificial intelligence and the develop-
5 ment by such adversaries of capabili-
6 ties relating to artificial intelligence.”.

7 **SEC. 222. ADVISORY ROLE OF JASON SCIENTIFIC ADVISORY**
8 **GROUP.**

9 (a) ONGOING ENGAGEMENT OF CERTAIN SCIENTIFIC
10 ADVISORY PERSONNEL.—

11 (1) IN GENERAL.—The Secretary of Defense
12 shall seek to engage the members of the inde-
13 pendent, private scientific advisory group known as
14 “JASON” as advisory personnel to provide advice,
15 on an ongoing basis, on matters involving science,
16 technology, and national security, including methods
17 to defeat existential and technologically-amplified
18 threats to national security.

19 (2) AVAILABILITY TO OTHER FEDERAL AGEN-
20 CIES.—At the request of a Federal agency outside
21 the Department of Defense, the Secretary of De-
22 fense shall seek to make personnel engaged under
23 paragraph (1) available to such agency for the pur-
24 pose of providing advice to the agency on the mat-
25 ters described in such subsection.

1 (b) ARRANGEMENT FOR CONDUCT OF NATIONAL SE-
2 CURITY STUDIES AND ANALYSIS.—

3 (1) IN GENERAL.—Pursuant to subsection (a),
4 the Secretary of Defense, acting through the Under
5 Secretary of Defense for Acquisition and
6 Sustainment, shall seek to enter into an arrange-
7 ment under which JASON may provide national se-
8 curity research studies and other analyses to the De-
9 partment of Defense and other Federal agencies to
10 meet mission requirements and agency needs.

11 (2) FORM OF ARRANGEMENT.—The arrange-
12 ment entered into under paragraph (1) shall be in
13 a form the Under Secretary of Defense for Acquisi-
14 tion and Sustainment determines to be appropriate
15 for the Department of Defense, which may include
16 a contract, a grant, a cooperative agreement, the use
17 of other transaction authority under section 2371 of
18 title 10, United States Code, or another such ar-
19 rangement.

20 (3) TIMING OF ARRANGEMENT.—The Secretary
21 of Defense shall seek to enter into the arrangement
22 under paragraph (1) not later than 120 days after
23 the date of the enactment of this Act.

24 (4) TERMS OF ARRANGEMENT.—The arrange-
25 ment entered into under paragraph (1) shall—

1 (A) if specifically negotiated as part of the
2 arrangement, provide for the Department of
3 Defense to reimburse the entity supporting
4 JASON for all or a portion of the overhead
5 costs incurred in support of the arrangement;

6 (B) allow Federal Government entities out-
7 side the Department of Defense with respon-
8 sibilities relating to national security to seek to
9 engage JASON to perform individual studies
10 relating to national security matters as part of
11 the arrangement; and

12 (C) require that a Federal agency that en-
13 gages JASON to perform a study under the ar-
14 rangement will fully fund such study, including
15 a proportional percentage to the total overhead
16 costs incurred under the arrangement.

17 (5) LIMITATION ON TERMINATION.—

18 (A) IN GENERAL.—The Secretary of De-
19 fense may not terminate the arrangement under
20 paragraph (1) until a period of 180 days has
21 elapsed following the date on which the Sec-
22 retary—

23 (i) notifies the congressional defense
24 committees of the intent of the Secretary
25 to terminate the arrangement; and

1 (ii) submits the report required under
2 subparagraph (B).

3 (B) REPORT REQUIRED.—

4 (i) IN GENERAL.—If the Secretary of
5 Defense determines that the arrangement
6 under paragraph (1) should be terminated,
7 the Secretary shall submit to the congress-
8 sional defense committees a report on the
9 proposed termination of the arrangement.

10 (ii) ELEMENTS.—The report required
11 under clause (i) shall include the following:

12 (I) A summary of the execution
13 of research projects conducted by
14 JASON over the four fiscal years pre-
15 ceding the date of the report, includ-
16 ing the projects requested by the De-
17 partment of Defense and the projects
18 requested by other Federal agencies.

19 (II) An analysis of the costs to
20 the Department of Defense of main-
21 taining the arrangement under which
22 JASON provided national security re-
23 search studies, including any overhead
24 costs incurred by the Department or
25 shared among Federal agencies over

1 the four fiscal years preceding the
2 date of the report.

3 (III) A timeline for the potential
4 transition or termination of the activi-
5 ties, functions, and expertise provided
6 by JASON under the arrangement.

7 (IV) An assessment of the impact
8 that the termination of the arrange-
9 ment with JASON will have on de-
10 fense research studies and analytical
11 capabilities, including a mitigation
12 plan that identifies where alternative
13 and comparable scientific advice and
14 expertise is available and a compari-
15 son of the costs associated with each
16 alternative.

17 (iii) FORM OF REPORT.—The report
18 required under clause (i) may be submitted
19 in unclassified or classified form.

20 (6) ANNUAL SUMMARY REPORT.—Not later
21 than March 1 of each year beginning after the date
22 of the enactment of this Act, the Secretary of De-
23 fense shall submit to the congressional defense com-
24 mittees a report that includes—

1 (A) a summary of expenditures made
2 under the arrangement with JASON under
3 paragraph (1); and

4 (B) a summary of the studies and other
5 activities carried out by JASON pursuant to
6 such arrangement in the preceding calendar
7 year.

8 **SEC. 223. DIRECT AIR CAPTURE AND BLUE CARBON RE-**
9 **MOVAL TECHNOLOGY PROGRAM.**

10 (a) PROGRAM REQUIRED.—

11 (1) IN GENERAL.—The Secretary of Defense, in
12 coordination with the Secretary of Homeland Secu-
13 rity, the Secretary of Energy, and the heads of such
14 other Federal agencies as the Secretary of Defense
15 considers appropriate, shall carry out a program on
16 research, development, testing, evaluation, study,
17 and demonstration of technologies related to blue
18 carbon capture and direct air capture.

19 (2) PROGRAM GOALS.—The goals of the pro-
20 gram established under paragraph (1) are as follows:

21 (A) To develop technologies that capture
22 carbon dioxide from seawater and the air to
23 turn such carbon dioxide into clean fuels to en-
24 hance fuel and energy security.

1 (B) To develop and demonstrate tech-
2 nologies that capture carbon dioxide from sea-
3 water and the air to reuse such carbon dioxide
4 to create products for military uses.

5 (C) To develop direct air capture tech-
6 nologies for use—

7 (i) at military installations or facilities
8 of the Department of Defense; or

9 (ii) in modes of transportation by the
10 Navy or the Coast Guard.

11 (3) PHASES.—The program established under
12 paragraph (1) shall be carried out in two phases as
13 follows:

14 (A) The first phase shall consist of re-
15 search and development and shall be carried out
16 as described in subsection (b).

17 (B) The second phase shall consist of test-
18 ing and evaluation and shall be carried out as
19 described in subsection (c), if the Secretary de-
20 termines that the results of the research and
21 development phase justify implementing the
22 testing and evaluation phase.

23 (4) DESIGNATION.—The program established
24 under paragraph (1) shall be known as the “Direct
25 Air Capture and Blue Carbon Removal Technology

1 Program” (in this section referred to as the “Pro-
2 gram”).

3 (b) RESEARCH AND DEVELOPMENT PHASE.—

4 (1) IN GENERAL.—During the research and de-
5 velopment phase of the Program, the Secretary of
6 Defense shall conduct research and development in
7 pursuit of the goals set forth in subsection (a)(2).

8 (2) DIRECT AIR CAPTURE.—The research and
9 development phase of the Program may include, with
10 respect to direct air capture, a front end engineering
11 and design study that includes an evaluation of di-
12 rect air capture designs to produce fuel for use—

13 (A) at military installations or facilities of
14 the Department of Defense; or

15 (B) in modes of transportation by the
16 Navy or the Coast Guard.

17 (3) COMMENCEMENT.—The Secretary shall
18 commence carrying out the research and develop-
19 ment phase of the Program not later than 90 days
20 after the date of the enactment of this Act.

21 (4) GRANTS AUTHORIZED.—The Secretary may
22 carry out the research and development phase of the
23 Program through the award of grants to private per-
24 sons and eligible laboratories.

1 (5) REPORT REQUIRED.—Not later than 180
2 days after the date of the completion of the research
3 and development phase of the Program, the Sec-
4 retary shall submit to Congress a report on the re-
5 search and development carried out under the Pro-
6 gram.

7 (c) TESTING AND EVALUATION PHASE.—

8 (1) IN GENERAL.—During the testing and eval-
9 uation phase of the Program, the Secretary shall, in
10 pursuit of the goals set forth in subsection (a)(2),
11 conduct tests and evaluations of the technologies re-
12 searched and developed during the research and de-
13 velopment phase of the Program.

14 (2) DIRECT AIR CAPTURE.—The testing and
15 evaluation phase of the Program may include dem-
16 onstration projects for direct air capture to produce
17 fuels for use—

18 (A) at military installations or facilities of
19 the Department of Defense; or

20 (B) in modes of transportation by the
21 Navy or the Coast Guard.

22 (3) COMMENCEMENT.—Subject to subsection
23 (a)(3)(B), the Secretary shall commence carrying
24 out the testing and evaluation phase of the Program
25 on the date of the completion of the research and

1 development phase described in subsection (b), ex-
2 cept that the testing and evaluation phase of the
3 Program with respect to direct air capture may com-
4 mence at such time after a front end engineering
5 and design study demonstrates to the Secretary that
6 commencement of such phase is appropriate.

7 (4) GRANTS AUTHORIZED.—The Secretary may
8 carry out the testing and evaluation phase of the
9 Program through the award of grants to private per-
10 sons and eligible laboratories.

11 (5) LOCATIONS.—The Secretary shall carry out
12 the testing and evaluation phase of the Program at
13 military installations or facilities of the Department
14 of Defense.

15 (6) REPORT REQUIRED.—Not later than Sep-
16 tember 30, 2026, the Secretary shall submit to Con-
17 gress a report on the findings of the Secretary with
18 respect to the effectiveness of the technologies tested
19 and evaluated under the Program.

20 (d) DEFINITIONS.—In this section:

21 (1) The term “blue carbon capture” means the
22 removal of dissolved carbon dioxide from seawater
23 through engineered or inorganic processes, including
24 filters, membranes, or phase change systems.

1 (2)(A) The term “direct air capture”, with re-
2 spect to a facility, technology, or system, means that
3 the facility, technology, or system uses carbon cap-
4 ture equipment to capture carbon dioxide directly
5 from the air.

6 (B) The term “direct air capture” does not in-
7 clude any facility, technology, or system that cap-
8 tures carbon dioxide—

9 (i) that is deliberately released from a nat-
10 urally occurring subsurface spring; or

11 (ii) using natural photosynthesis.

12 (3) The term “eligible laboratory” means—

13 (A) a National Laboratory (as defined in
14 section 2 of the Energy Policy Act of 2005 (42
15 U.S.C. 15801));

16 (B) a science and technology reinvention
17 laboratory designated under section 1105 of the
18 National Defense Authorization Act for Fiscal
19 Year 2010 (Public Law 111–84; 10 U.S.C.
20 2358 note);

21 (C) the Major Range and Test Facility
22 Base (as defined in section 2358a(f) of title 10,
23 United States Code); or

24 (D) any other facility that supports the re-
25 search, development, test, and evaluation activi-

1 ties of the Department of Defense or the De-
2 partment of Energy.

3 **SEC. 224. REQUIRING DEFENSE MICROELECTRONICS**
4 **PRODUCTS AND SERVICES MEET TRUSTED**
5 **SUPPLY CHAIN AND OPERATIONAL SECURITY**
6 **STANDARDS.**

7 (a) PURCHASES.—To protect the United States from
8 intellectual property theft and to ensure national security
9 and public safety in the application of new generations of
10 wireless network technology and microelectronics, begin-
11 ning no later than January 1, 2023, the Secretary of De-
12 fense shall ensure that each microelectronics product or
13 service that the Department of Defense purchases on or
14 after such date meets the applicable trusted supply chain
15 and operational security standards established pursuant to
16 subsection (b), except in a case in which the Department
17 seeks to purchase a microelectronics product or service
18 but—

19 (1) no such product or service is available for
20 purchase that meets such standards; or

21 (2) no such product or service is available for
22 purchase that—

23 (A) meets such standards; and

24 (B) is available at a price that the Sec-
25 retary does not consider prohibitively expensive.

1 (b) TRUSTED SUPPLY CHAIN AND OPERATIONAL SE-
2 CURITY STANDARDS.—

3 (1) STANDARDS REQUIRED.—(A) Not later
4 than January 1, 2021, the Secretary shall establish
5 trusted supply chain and operational security stand-
6 ards for the purchase of microelectronics products
7 and services by the Department.

8 (B) For purposes of this section, a trusted sup-
9 ply chain and operational security standard—

10 (i) is a standard that systematizes best
11 practices relevant to—

12 (I) manufacturing location;

13 (II) company ownership;

14 (III) workforce composition;

15 (IV) access during manufacturing,
16 suppliers' design, sourcing, manufacturing,
17 packaging, and distribution processes;

18 (V) reliability of the supply chain; and

19 (VI) other matters germane to supply
20 chain and operational security; and

21 (ii) is not a military standard (also known
22 as “MIL-STD”) or a military specification (also
23 known as “MIL-SPEC”) for microelectronics
24 that—

1 (I) specifies individual features for
2 Department of Defense microelectronics; or

3 (II) otherwise inhibits the acquisition
4 by the Department of securely manufac-
5 tured, commercially-available products.

6 (2) CONSULTATION REQUIRED.—In developing
7 standards under paragraph (1), the Secretary shall
8 consult with the following:

9 (A) The Secretary of Homeland Security,
10 the Secretary of State, the Secretary of Com-
11 merce, and the Director of the National Insti-
12 tute of Standards and Technology.

13 (B) Suppliers of microelectronics products
14 and services from the United States and allies
15 and partners of the United States.

16 (C) Representatives of major United States
17 industry sectors that rely on a trusted supply
18 chain and the operational security of microelec-
19 tronics products and services.

20 (D) Representatives of the United States
21 insurance industry.

22 (3) TIERS OF TRUST AND LEVELS OF SECURITY
23 AUTHORIZED.—In carrying out paragraph (1), the
24 Secretary may establish tiers and levels of trust and
25 security within the supply chain and operational se-

1 security standards for microelectronics products and
2 services.

3 (4) GENERAL APPLICABILITY.—The standards
4 established pursuant to paragraph (1) shall be, to
5 the greatest extent practicable, generally applicable
6 to the trusted supply chain and operational security
7 needs and use cases of the United States Govern-
8 ment and commercial industry, such that the stand-
9 ards could be widely adopted by government agen-
10 cies, commercial industry, and allies and partners of
11 the United States as the basis for procuring micro-
12 electronics products and services.

13 (5) ANNUAL REVIEW.—Not later than October
14 1 of each year, the Secretary shall, in consultation
15 with persons and entities set forth under paragraph
16 (2), review the standards established pursuant to
17 paragraph (1) and issue updates or modifications as
18 the Secretary considers necessary or appropriate.

19 (c) ENSURING ABILITY TO SELL COMMERCIALY.—

20 (1) IN GENERAL.—The Secretary shall, to the
21 greatest extent practicable, ensure that suppliers of
22 microelectronics products and services for the De-
23 partment of Defense subject to subsection (a) are
24 able and incentivized to sell products commercially
25 and to governments of allies and partners of the

1 United States that are produced on the same pro-
2 duction lines as the microelectronics products sup-
3 plied to the Department of Defense.

4 (2) EFFECT OF REQUIREMENTS AND ACQUI-
5 TIONS.—The Secretary shall, to the greatest extent
6 practicable, ensure that the requirements of the De-
7 partment and the acquisition by the Department of
8 microelectronics enable the success of a dual-use
9 microelectronics industry.

10 (d) MAINTAINING COMPETITION AND INNOVATION.—
11 The Secretary shall take such actions as the Secretary
12 considers necessary and appropriate, within the Sec-
13 retary's authorized activities to maintain the health of the
14 defense industrial base, to ensure that—

15 (1) providers of microelectronics products and
16 services that meet the standards established under
17 subsection (b) are exposed to competitive market
18 pressures to achieve competitive pricing and sus-
19 tained innovation; and

20 (2) the industrial base of microelectronics prod-
21 ucts and services that meet the standards estab-
22 lished under subsection (b) includes providers manu-
23 facturing in the United States or in countries that
24 are allies or partners of the United States.

1 **SEC. 225. DEVELOPMENT AND ACQUISITION STRATEGY TO**
2 **PROCURE SECURE, LOW PROBABILITY OF DE-**
3 **TECTION DATA LINK NETWORK CAPABILITY.**

4 (a) STRATEGY REQUIRED.—Not later than March 1,
5 2020, the Chief of Staff of the Air Force, the Chief of
6 Naval Operations, and the Chief of Staff of the Army shall
7 jointly submit to the congressional defense committees a
8 joint development and acquisition strategy to procure a
9 secure, low probability of detection data link network ca-
10 pability, with the ability to effectively operate in hostile
11 jamming environments while preserving the low observ-
12 ability characteristics of the relevant platforms, including
13 both existing and planned platforms.

14 (b) NETWORK CHARACTERISTICS.—The data link
15 network capability to be procured pursuant to the develop-
16 ment and acquisition strategy submitted under subsection
17 (a) shall—

18 (1) ensure that any network made with such ca-
19 pability will be low risk and affordable, with minimal
20 impact or change to existing host platforms and
21 minimal overall integration costs;

22 (2) use a non-proprietary and open systems ap-
23 proach compatible with the Rapid Capabilities Office
24 Open Mission Systems initiative of the Air Force,
25 the Future Airborne Capability Environment initia-

1 tive of the Navy, and the Modular Open Systems Ar-
2 chitecture initiative of the Army; and

3 (3) provide for an architecture to connect, with
4 operationally relevant throughput and latency—

5 (A) fifth-generation combat aircraft;

6 (B) fifth-generation and fourth-generation
7 combat aircraft;

8 (C) fifth-generation and fourth-generation
9 combat aircraft and appropriate support air-
10 craft and other network nodes for command,
11 control, communications, intelligence, surveil-
12 lance, and reconnaissance purposes; and

13 (D) fifth-generation and fourth-generation
14 combat aircraft and their associated network-
15 enabled precision weapons.

16 (c) LIMITATION.—Of the funds authorized to be ap-
17 propriated by this Act for fiscal year 2020 for operation
18 and maintenance for the Office of the Secretary of the
19 Air Force, for operation and maintenance for the Office
20 of the Secretary of the Navy, and for operations and main-
21 tenance for the Office of the Secretary of the Army, not
22 more than 50 percent may be obligated or expended until
23 the date that is 15 days after the date on which the Chief
24 of Staff of the Air Force, the Chief of Naval Operations,
25 and the Chief of Staff of the Army, respectively, submit

1 the development and acquisition strategy required by sub-
2 section (a).

3 **SEC. 226. ESTABLISHMENT OF SECURE NEXT-GENERATION**
4 **WIRELESS NETWORK (5G) INFRASTRUCTURE**
5 **FOR THE NEVADA TEST AND TRAINING**
6 **RANGE AND BASE INFRASTRUCTURE.**

7 (a) ESTABLISHMENT REQUIRED.—Not later than
8 one year after the date of the enactment of this Act, the
9 Secretary of Defense shall establish secure fifth-generation
10 wireless network components and capabilities at no fewer
11 than two Department of Defense installations in accord-
12 ance with this section.

13 (b) INSTALLATIONS.—

14 (1) LOCATIONS.—The Secretary shall establish
15 components and capabilities under subsection (a) at
16 the following:

17 (A) The Nevada Test and Training Range,
18 which shall serve as a Major Range and Test
19 Facility Base (MRTFB) for fifth-generation
20 wireless networking.

21 (B) Such Department installations or
22 other installations as the Secretary considers
23 appropriate for the purpose set forth in para-
24 graph (2).

1 (2) PURPOSE.—The purpose of the establish-
2 ment of components and capabilities under sub-
3 section (a) at the locations described in paragraph
4 (1) of this subsection is to demonstrate the fol-
5 lowing:

6 (A) The potential military utility of high
7 bandwidth, scalable, and low latency fifth-gen-
8 eration wireless networking technology.

9 (B) Advanced security technology that is
10 applicable to fifth-generation networks as well
11 as legacy Department command and control
12 networks.

13 (C) Secure interoperability with fixed and
14 wireless systems (legacy and future systems).

15 (D) Enhancements such as spectrum and
16 waveform diversity, frequency hopping and
17 spreading, and beam forming for military re-
18 quirements.

19 (E) Technology for dynamic network slic-
20 ing for specific use cases and applications re-
21 quiring varying levels of latency, scale, and
22 throughput.

23 (F) Technology for dynamic spectrum
24 sharing and network isolation.

1 (G) Base infrastructure installation of high
2 bandwidth, scalable, and low latency fifth-gen-
3 eration wireless networking technology.

4 (H) Applications for secure fifth-genera-
5 tion wireless network capabilities for the De-
6 partment, such as the following:

7 (i) Interactive augmented reality or
8 synthetic training environments.

9 (ii) Internet of things devices.

10 (iii) Autonomous systems.

11 (iv) Advanced manufacturing through
12 the following:

13 (I) Department-sponsored centers
14 for manufacturing innovation (as de-
15 fined in section 34(c) of the National
16 Institute of Standards and Tech-
17 nology Act (15 U.S.C. 278s(e))).

18 (II) Department research and de-
19 velopment organizations.

20 (III) Manufacturers in the de-
21 fense industrial base of the United
22 States.

1 **SEC. 227. ADMINISTRATION OF MANUFACTURING INNOVA-**
2 **TION INSTITUTES FUNDED BY THE DEPART-**
3 **MENT OF DEFENSE.**

4 (a) IN GENERAL.—The Secretary of Defense shall
5 make such changes to the administration of covered insti-
6 tutes so as—

7 (1) to encourage covered institutes to leverage
8 existing workforce development programs across the
9 Federal Government and State governments in order
10 to build successful workforce development programs;

11 (2) to develop metrics to evaluate the workforce
12 development performed by the covered institutes, in-
13 cluding metrics on job quality, career pathways,
14 wages and benefits, and efforts to support veterans,
15 and progress in aligning workforce skillsets with the
16 current and long-term needs of the Department of
17 Defense and the defense industrial base;

18 (3) to allow metrics to vary between covered in-
19 stitutes and be updated and evaluated continuously
20 in order to more accurately evaluate covered insti-
21 tutes with different goals and missions;

22 (4) to encourage covered institutes to consider
23 developing technologies that were previously funded
24 by Federal Government investment for early-stage
25 research and development and expand cross-govern-

1 ment coordination and collaboration to achieve this
2 goal;

3 (5) to provide an opportunity for increased De-
4 partment of Defense input and oversight from sen-
5 ior-level military and civilian personnel on future
6 technology roadmaps produced by covered institutes;

7 (6) to reduce the barriers to collaboration be-
8 tween and among multiple covered institutes;

9 (7) to use contracting vehicles that can increase
10 flexibility, reduce barriers for contracting with sub-
11 ject-matter experts and small and medium enter-
12 prises, enhance partnerships between covered insti-
13 tutes, and reduce the time to award contracts at
14 covered institutes; and

15 (8) to overcome barriers to the adoption of
16 manufacturing processes and technologies developed
17 by the covered institutes by the defense and com-
18 mercial industrial base, particularly small and me-
19 dium enterprises, by engaging with public and pri-
20 vate sector partnerships and appropriate government
21 programs and activities, including the Hollings Man-
22 ufacturing Extension Partnership.

23 (b) COORDINATION WITH OTHER ACTIVITIES.—The
24 Secretary shall carry out this section in coordination with
25 activities undertaken under—

1 (1) the Manufacturing Technology Program es-
2 tablished under section 2521 of title 10, United
3 States Code;

4 (2) the Manufacturing Engineering Education
5 Program established under section 2196 of such
6 title;

7 (3) the Defense Manufacturing Community
8 Support Program established under section 846 of
9 the John S. McCain National Defense Authorization
10 Act for Fiscal Year 2019 (Public Law 115–232);

11 (4) manufacturing initiatives of the Secretary of
12 Commerce, the head of the National Office of the
13 Manufacturing USA Network, the Secretary of En-
14 ergy, and such other government and private sector
15 organizations as the Secretary of Defense considers
16 appropriate; and

17 (5) such other activities as the Secretary con-
18 siders appropriate.

19 (c) DEFINITION OF COVERED INSTITUTE.—In this
20 section, the term “covered institute” means a manufac-
21 turing innovation institute that is funded by the Depart-
22 ment of Defense.

1 **SEC. 228. RESEARCH PROGRAM ON FOREIGN MALIGN IN-**
2 **FLUENCE OPERATIONS.**

3 (a) PROGRAM AUTHORIZED.—The Secretary of De-
4 fense, acting through the Under Secretary of Defense for
5 Research and Engineering, may carry out a research pro-
6 gram on foreign malign influence operations as part of the
7 university research programs of the Department of De-
8 fense.

9 (b) PROGRAM OBJECTIVES.—The objectives of a re-
10 search program carried out under subsection (a) should
11 include the following:

12 (1) Enhance the understanding of foreign ma-
13 lign influence operations, including activities con-
14 ducted on social media platforms.

15 (2) Facilitate the analysis of publicly available
16 or voluntarily provided indicators of foreign malign
17 influence operations.

18 (3) Promote collaborative research and informa-
19 tion exchange with relevant entities within the De-
20 partment of Defense and with other agencies or non-
21 governmental organizations relating to foreign ma-
22 lign influence operations, as appropriate.

23 (c) NOTICE TO CONGRESS.—Not later than 30 days
24 before initiating a research program under subsection (a),
25 the Secretary of Defense shall submit to the congressional

1 defense committees notice of the intent of the Secretary
2 to initiate such a program, which shall include—

3 (1) a detailed description of the program and
4 any related research activities;

5 (2) the estimated cost and duration of the pro-
6 gram; and

7 (3) any other matters the Secretary determines
8 to be relevant.

9 **SEC. 229. DIVERSIFICATION OF THE RESEARCH AND ENGI-**
10 **NEERING WORKFORCE OF THE DEPARTMENT**
11 **OF DEFENSE.**

12 (a) ASSESSMENT REQUIRED.—

13 (1) IN GENERAL.—The Secretary of Defense,
14 acting through the Under Secretary of Defense for
15 Research and Engineering and in consultation with
16 the Under Secretary of Defense for Personnel and
17 Readiness, shall conduct an assessment of critical
18 skillsets required across, and the diversity of, the re-
19 search and engineering workforce of the Department
20 of Defense, including the science and technology re-
21 invention laboratories, to support emerging and fu-
22 ture warfighter technologies.

23 (2) ELEMENTS.—The assessment required by
24 paragraph (1) shall include analysis of the following:

1 (A) The percentage of women and minori-
2 ties employed in the research and engineering
3 workforce of the Department of Defense as of
4 the date of the assessment.

5 (B) Of the individuals hired into the re-
6 search and engineering workforce of the De-
7 partment in the five years preceding the date of
8 the assessment, the percentage of such individ-
9 uals who are women and minorities.

10 (C) The effectiveness of existing hiring, re-
11 cruitment, and retention incentives for women
12 and minorities in the research and engineering
13 workforce of the Department.

14 (D) The effectiveness of the Department in
15 recruiting women and minorities into the lab-
16 oratory workforce after such individuals com-
17 plete work on Department-funded research,
18 projects, grant projects, fellowships, and STEM
19 programs.

20 (E) The geographical diversity of the work-
21 force across various geographic regions.

22 (b) PLAN REQUIRED.—

23 (1) IN GENERAL.—Based on the results of the
24 assessment conducted under subsection (a), the Sec-
25 retary of Defense, acting through the Under Sec-

1 retary of Defense for Research and Engineering and
2 in consultation with the Secretaries of the military
3 departments, shall develop and implement a plan to
4 diversify and strengthen the research and engineer-
5 ing workforce of the Department of Defense.

6 (2) ELEMENTS.—The plan required by para-
7 graph (1) shall—

8 (A) align with science and technology
9 strategy priorities of the Department of De-
10 fense, including the emerging and future
11 warfighter technology requirements identified
12 by the Department;

13 (B) except as provided in subsection (c)(2),
14 set forth steps for the implementation of each
15 recommendation included in the 2013 report of
16 the RAND corporation titled “First Steps To-
17 ward Improving DoD STEM Workforce Diver-
18 sity”;

19 (C) harness the full range of the Depart-
20 ment’s STEM programs and other Department
21 sponsored programs to develop and attract top
22 talent;

23 (D) use existing authorities to attract and
24 retain students, academics, and other talent;

1 (E) establish and use contracts, agree-
2 ments, or other arrangements with institutions
3 of higher education (as defined in section 101
4 of the Higher Education Act of 1965 (20
5 U.S.C. 1001)), including historically black col-
6 leges and universities and other minority-serv-
7 ing institutions (as described in section 371(a)
8 of such Act (20 U.S.C. 1067q(a)) to enable
9 easy and efficient access to research and re-
10 searchers for Government sponsored basic and
11 applied research and studies at each institution,
12 including contracts, agreements, and other au-
13 thorized arrangements such as those authorized
14 under—

15 (i) section 217 of the National De-
16 fense Authorization Act for Fiscal Year
17 2018 (Public Law 115–91; 10 U.S.C. 2358
18 note); and

19 (ii) such other authorities as the Sec-
20 retary determines to be appropriate; and

21 (F) include recommendations for changes
22 in authorities, regulations, policies, or any other
23 relevant areas that would support the achieve-
24 ment of the goals set forth in the plan.

1 (3) SUBMITTAL TO CONGRESS.—Not later than
2 one year after the date of the enactment of this Act,
3 the Secretary of Defense shall submit to the con-
4 gressional defense committees a report that in-
5 cludes—

6 (A) the plan developed under paragraph
7 (1); and

8 (B) with respect to each recommendation
9 described in paragraph (2)(B) that the Sec-
10 retary has implemented or expects to imple-
11 ment—

12 (i) a summary of actions that have
13 been taken to implement the recommenda-
14 tion; and

15 (ii) a schedule, with specific mile-
16 stones, for completing the implementation
17 of the recommendation.

18 (c) DEADLINE FOR IMPLEMENTATION.—

19 (1) IN GENERAL.—Except as provided in para-
20 graph (2), not later than 18 months after the date
21 of the enactment of this Act the Secretary of De-
22 fense shall carry out activities to implement the plan
23 developed under subsection (b).

24 (2) EXCEPTION FOR IMPLEMENTATION OF CER-
25 TAIN RECOMMENDATIONS.—

1 (A) DELAYED IMPLEMENTATION.—The
2 Secretary of Defense may commence implemen-
3 tation of a recommendation described in sub-
4 section (b)(2)(B) after the date specified in
5 paragraph (1) if the Secretary provides the con-
6 gressional defense committees with a specific
7 justification for the delay in implementation of
8 such recommendation on or before such date.

9 (B) NONIMPLEMENTATION.—The Sec-
10 retary of Defense may opt not to implement a
11 recommendation described in subsection
12 (b)(2)(B) if the Secretary provides to the con-
13 gressional defense committees, on or before the
14 date specified in paragraph (1)—

15 (i) a specific justification for the deci-
16 sion not to implement the recommendation;
17 and

18 (ii) a summary of the alternative ac-
19 tions the Secretary plans to take to ad-
20 dress the issues underlying the rec-
21 ommendation.

22 (d) STEM DEFINED.—In this section, the term
23 “STEM” means science, technology, engineering, and
24 mathematics.

1 **SEC. 230. POLICY ON THE TALENT MANAGEMENT OF DIG-**
2 **ITAL EXPERTISE AND SOFTWARE PROFES-**
3 **SIONALS.**

4 (a) POLICY.—

5 (1) IN GENERAL.—It shall be a policy of the
6 Department of Defense to promote and maintain
7 digital expertise and software development as core
8 competencies of civilian and military workforces of
9 the Department, and as a capability to support the
10 National Defense Strategy, which policy shall be
11 achieved by—

12 (A) the recruitment, development, and
13 incentivization of retention in and to the civilian
14 and military workforce of the Department of in-
15 dividuals with aptitude, experience, proficient
16 expertise, or a combination thereof in digital ex-
17 pertise and software development;

18 (B) at the discretion of the Secretaries of
19 the military departments, the development and
20 maintenance of civilian and military career
21 tracks related to digital expertise, and related
22 digital competencies for members of the Armed
23 Forces, including the development and mainte-
24 nance of training, education, talent manage-
25 ment, incentives, and promotion policies in sup-

1 port of members at all levels of such career
2 tracks; and

3 (C) the development and application of ap-
4 propriate readiness standards and metrics to
5 measure and report on the overall capability,
6 capacity, utilization, and readiness of digital en-
7 gineering professionals to develop and deliver
8 operational capabilities and employ modern
9 business practices.

10 (2) DIGITAL ENGINEERING DEFINED.—For
11 purposes of this section, the term “digital engineer-
12 ing” means the discipline and set of skills involved
13 in the creation, processing, transmission, integra-
14 tion, and storage of digital data, including data
15 science, machine learning, software engineering,
16 software product management, and artificial intel-
17 ligence product management.

18 (b) IMPLEMENTATION PLAN.—Not later than May 1,
19 2020, the Secretary of Defense shall submit to the Com-
20 mittees on Armed Services of the Senate and the House
21 of Representatives a plan that describes how the Depart-
22 ment of Defense will execute the policy described in sub-
23 section (a).

24 (c) RESPONSIBILITY.—

1 (1) APPOINTMENT OF OFFICER.—Not later
2 than 270 days after the date of enactment of this
3 Act, the Secretary of Defense may appoint a civilian
4 official responsible for the development and imple-
5 mentation of the policy and implementation plan set
6 forth in subsections (a) and (b), respectively. The of-
7 ficial shall be known as the “Chief Digital Engineer-
8 ing Recruitment and Management Officer of the De-
9 partment of Defense”.

10 (2) EXPIRATION OF APPOINTMENT.—The ap-
11 pointment of the Officer under paragraph (1) shall
12 expire on September 30, 2024.

13 **SEC. 231. DIGITAL ENGINEERING CAPABILITY TO AUTO-**
14 **MATE TESTING AND EVALUATION.**

15 (a) DIGITAL ENGINEERING CAPABILITY.—

16 (1) IN GENERAL.—The Secretary of Defense
17 shall establish a digital engineering capability to be
18 used—

19 (A) for the development and deployment of
20 digital engineering models for use in the de-
21 fense acquisition process; and

22 (B) to provide testing infrastructure and
23 software to support automated approaches for
24 testing, evaluation, and deployment throughout
25 the defense acquisition process.

1 (2) REQUIREMENTS.—The capability developed
2 under subsection (a) shall meet the following re-
3 quirements:

4 (A) The capability will be accessible to,
5 and useable by, individuals throughout the De-
6 partment of Defense who have responsibilities
7 relating to capability design, development, test-
8 ing, evaluation, and operation.

9 (B) The capability will provide for the de-
10 velopment, validation, use, curation, and main-
11 tenance of technically accurate digital systems,
12 models of systems, subsystems, and their com-
13 ponents, at the appropriate level of fidelity to
14 ensure that test activities adequately simulate
15 the environment in which a system will be de-
16 ployed.

17 (C) The capability will include software to
18 automate testing throughout the program life
19 cycle, including to satisfy developmental test re-
20 quirements and operational test requirements.
21 Such software may be developed in accordance
22 with the authorities provided under section 800,
23 and shall support—

24 (i) security testing that includes vul-
25 nerability scanning and penetration testing

1 performed by individuals, including threat-
2 based red team exploitations and assess-
3 ments with zero-trust assumptions; and

4 (ii) high-confidence distribution of
5 software to the field on a time-bound, re-
6 peatable, frequent, and iterative basis.

7 (b) DEMONSTRATION ACTIVITIES.—

8 (1) IN GENERAL.—In developing the capability
9 required under subsection (a), the Secretary of De-
10 fense shall carry out activities to demonstrate digital
11 engineering approaches to automated testing that—

12 (A) enable continuous software develop-
13 ment and delivery;

14 (B) satisfy developmental test require-
15 ments for the software-intensive programs of
16 the Department of Defense; and

17 (C) satisfy operational test and evaluation
18 requirements for such programs.

19 (2) PROGRAM SELECTION.—Not later than 180
20 days after the date of the enactment of this Act, the
21 Secretary of Defense shall assess and select not
22 fewer than four and not more than ten programs of
23 the Department of Defense to participate in the
24 demonstration activities under paragraph (1), in-
25 cluding—

1 (A) at least one program participating in
2 the pilot program authorized under section 873
3 of the National Defense Authorization Act for
4 Fiscal Year 2018 (Public Law 115–91; 10
5 U.S.C. 2223a note);

6 (B) at least one program participating in
7 the pilot program authorized under section 874
8 of such Act (Public Law 115–91; 10 U.S.C.
9 2302 note);

10 (C) at least one major defense acquisition
11 program (as defined in section 2430 of title 10,
12 United States Code);

13 (D) at least one command and control pro-
14 gram;

15 (E) at least one defense business system
16 (as defined in section 2222(i) of title 10, United
17 States Code); and

18 (F) at least one program from each mili-
19 tary service.

20 (3) **ADDITIONAL REQUIREMENTS.**—As part of
21 the demonstration activities under paragraph (1),
22 the Secretary shall—

23 (A) conduct a comparative analysis that
24 assesses the risks and benefits of the digital en-
25 gineering supported automated testing ap-

1 proaches of the programs participating in the
2 demonstration activities relative to traditional
3 testing approaches that are not supported by
4 digital engineering;

5 (B) ensure that the intellectual property
6 strategy for each of the programs participating
7 in the demonstration activities is best aligned to
8 meet the goals of the program; and

9 (C) develop a workforce and infrastructure
10 plan to support any new policies and guidance
11 implemented in connection with the demonstra-
12 tion activities, including any policies and guid-
13 ance implemented after the completion of such
14 activities.

15 (c) POLICIES AND GUIDANCE REQUIRED.—Not later
16 than one year after the date of the enactment of this Act,
17 based on the results of the demonstration activities carried
18 out under subsection (b), the Secretary of Defense shall
19 issue or modify policies and guidance to—

20 (1) promote the use of digital engineering capa-
21 bilities for development and for automated testing;
22 and

23 (2) address roles, responsibilities, and proce-
24 dures relating to such capabilities.

25 (d) STEERING COMMITTEE.—

1 (1) IN GENERAL.—The Secretary of Defense
2 shall establish a steering committee to assist the
3 Secretary in carrying out subsections (a) through
4 (c).

5 (2) MEMBERSHIP.—The steering committee
6 shall be composed of the following members or their
7 designees:

8 (A) The Under Secretary of Defense for
9 Research and Engineering.

10 (B) The Under Secretary of Defense for
11 Acquisition and Sustainment.

12 (C) The Chief Information Officer.

13 (D) The Director of Operational Test and
14 Evaluation.

15 (E) The Director of Cost Assessment and
16 Program Evaluation.

17 (F) The Service Acquisition Executives.

18 (G) The Service testing commands.

19 (H) The Director of the Defense Digital
20 Service.

21 (e) REPORTS REQUIRED.—

22 (1) IMPLEMENTATION.—Not later than March
23 15, 2020, the Secretary of Defense shall submit to
24 the congressional defense committees a report on the
25 progress of the Secretary in implementing sub-

1 sections (a) through (c). The report shall include an
2 explanation of how the results of the demonstration
3 activities carried out under subsection (b) will be in-
4 corporated into the policy and guidance required
5 under subsection (c), particularly the policy and
6 guidance of the members of the steering committee
7 established under subsection (d).

8 (2) LEGISLATIVE RECOMMENDATIONS.—Not
9 later than October 15, 2020, the Secretary of De-
10 fense shall provide to the congressional defense com-
11 mittees a briefing that identifies any changes to ex-
12 isting law that may be necessary to facilitate the im-
13 plementation of subsections (a) through (c).

14 (f) INDEPENDENT ASSESSMENT.—

15 (1) IN GENERAL.—Not later than March 15,
16 2021, the Defense Innovation Board and the De-
17 fense Science Board shall jointly complete an inde-
18 pendent assessment of the progress of the Secretary
19 in implementing subsections (a) through (c). The
20 Secretary of Defense shall ensure that the Defense
21 Innovation Board and the Defense Science Board
22 have access to the resources, data, and information
23 necessary to complete the assessment.

24 (2) INFORMATION TO CONGRESS.—Not later
25 than 30 days after the date on which the assessment

1 under paragraph (1) is completed, the Defense Inno-
2 vation Board and the Defense Science Board shall
3 jointly provide to the congressional defense commit-
4 tees—

5 (A) a report summarizing the assessment;

6 and

7 (B) a briefing on the findings of the as-
8 sessment.

9 **SEC. 232. PROCESS TO ALIGN POLICY FORMULATION AND**
10 **EMERGING TECHNOLOGY DEVELOPMENT.**

11 (a) **ALIGNMENT OF POLICY AND TECHNOLOGICAL**
12 **DEVELOPMENT.**—Not later than 180 days after the date
13 of the enactment of this Act, the Secretary of Defense
14 shall establish a process to ensure that the policies of the
15 Department of Defense relating to emerging technology
16 are formulated and updated continuously as such tech-
17 nology is developed by the Department.

18 (b) **ELEMENTS.**—As part of the process established
19 under subsection (a), the Secretary shall—

20 (1) specify the role of each covered official in
21 ensuring that the formulation of policies relating to
22 emerging technology is carried out concurrently with
23 the development of such technology; and

24 (2) incorporate procedures for the continuous
25 legal review of—

1 (A) weapons and other defense systems
2 that incorporate or use emerging technology;
3 and

4 (B) treaties that may be affected by such
5 technology.

6 (c) BRIEFING REQUIRED.—Not later than 30 days
7 after the date on which the Secretary of Defense estab-
8 lishes the process required under subsection (a), the Sec-
9 retary shall provide to the congressional defense commit-
10 tees a briefing on such process.

11 (d) DEFINITIONS.—In this section:

12 (1) The term “covered official” means the fol-
13 lowing:

14 (A) The Chairman of the Joint Chiefs of
15 Staff.

16 (B) The Under Secretary of Defense for
17 Research and Engineering.

18 (C) The Under Secretary of Defense for
19 Acquisition and Sustainment.

20 (D) The Under Secretary of Defense for
21 Policy.

22 (E) The commanders of combatant com-
23 mands with responsibilities involving the use of
24 weapons or other defense systems that incor-

1 (3) DELEGATION.—In exercising authority and
2 direction over the Office under subsection (a), the
3 Deputy Secretary of Defense may delegate adminis-
4 trative, management, and other duties to the Direc-
5 tor of the Defense Advanced Research Projects
6 Agency, as needed, to effectively and efficiently exe-
7 cute the mission of the Office.

8 (b) CROSS-FUNCTIONAL TEAMS.—

9 (1) ESTABLISHMENT.—Not later than 180 days
10 after the date of enactment of this Act, the Deputy
11 Secretary of Defense shall establish the following
12 cross-functional teams to improve the effectiveness
13 of the Office:

14 (A) A transition cross-functional team to
15 improve the efficiency and effectiveness with
16 which the programs of the Office may be
17 transitioned into—

18 (i) research and development pro-
19 grams of the military services and other
20 agencies of the Department of Defense;
21 and

22 (ii) programs of such services and
23 agencies in operational use.

24 (B) A technical cross functional team to
25 improve the continuous technical assessment

1 (3) Interest in employment, and careers, in
2 public service.

3 (4) Understanding of United States law, his-
4 tory, and Government.

5 (5) The ability of participants to collaborate
6 and compromise with others to solve problems.

7 (c) CONSIDERATIONS.—In carrying out the pilot pro-
8 gram, the Secretary of Defense shall consider innovative
9 approaches for improving civics education.

10 (d) METRICS AND EVALUATIONS.—The Secretary of
11 Defense shall establish metrics and undertake evaluations
12 to determine the effectiveness of the pilot program, includ-
13 ing each of the activities carried out under subsection (e).

14 (e) TYPES OF SUPPORT AUTHORIZED.—Under the
15 pilot program the Secretary of Defense—

16 (1) shall provide support to eligible entities to
17 address, at a minimum—

18 (A) the development or modification of
19 curricula relating to civics education;

20 (B) classroom activities, thesis projects, in-
21 dividual or team projects, internships, or com-
22 munity service activities relating to civics;

23 (C) collaboration with government entities,
24 nonprofit organizations, or consortia of such en-

1 tities and organizations to provide participants
2 with civics-related experiences;

3 (D) civics-related faculty development pro-
4 grams;

5 (E) recruitment of educators who are high-
6 ly qualified in civics education to teach civics or
7 to assist with the development of curricula for
8 civics education;

9 (F) presentation of seminars, workshops,
10 and training for the development of skills asso-
11 ciated with civic engagement;

12 (G) activities that enable participants to
13 interact with government officials and entities;

14 (H) expansion of civics education programs
15 and outreach for members of the Armed
16 Forces, dependents and children of such mem-
17 bers, and employees of the Department of De-
18 fense; and

19 (I) opportunities for participants to obtain
20 work experience in fields relating to civics; and

21 (2) may provide any other form of support the
22 Secretary determines to be appropriate to enhance
23 the civics education taught by eligible entities.

24 (f) REPORT.—Not later than 180 days after the con-
25 clusion of the first full academic year during which the

1 pilot program is carried out, the Secretary of Defense shall
2 submit to the congressional defense committees a report
3 that includes—

4 (1) a description of the pilot program, including
5 the a description of the specific activities carried out
6 under subsection (e); and

7 (2) the metrics and evaluations used to assess
8 the effectiveness of the program as required under
9 subsection (d).

10 (g) DEFINITIONS.—In this section:

11 (1) The term “civics education program” means
12 an educational program that provides participants
13 with—

14 (A) knowledge of law, government, and the
15 rights of citizens; and

16 (B) skills that enable participants to re-
17 sponsibly participate in democracy.

18 (2) The term “eligible entity” means any of fol-
19 lowing:

20 (A) A local education agency that hosts a
21 unit of the Junior Reserve Officers’ Training
22 Corps.

23 (B) A school operated by the Department
24 of Defense Education Activity.

1 **SEC. 235. TECHNOLOGY AND NATIONAL SECURITY FELLOW-**
2 **SHIP.**

3 (a) FELLOWSHIP PROGRAM.—

4 (1) IN GENERAL.—The Secretary of Defense,
5 acting through the Under Secretary of Defense for
6 Research and Engineering, may establish a civilian
7 fellowship program designed to place eligible individ-
8 uals within the Department of Defense and Con-
9 gress to increase the number of national security
10 professionals with science, technology, engineering,
11 and mathematics credentials employed by the De-
12 partment.

13 (2) DESIGNATION.—The fellowship program es-
14 tablished under paragraph (1) shall be known as the
15 “Technology and National Security Fellowship” (in
16 this section referred to as the “fellows program”).

17 (3) ASSIGNMENTS.—Each individual selected
18 for participation in the fellows program shall be as-
19 signed to a one year position within—

20 (A) the Department of Defense; or

21 (B) a congressional office with emphasis
22 on defense and national security matters.

23 (4) PAY AND BENEFITS.—To the extent prac-
24 ticable, each individual assigned to a position under
25 paragraph (3)—

1 (A) shall be compensated at a rate of basic
2 pay that is equivalent to the rate of basic pay
3 payable for a position at level 10 of the General
4 Schedule; and

5 (B) shall be treated as an employee of the
6 United States during the assignment.

7 (b) ELIGIBLE INDIVIDUALS.—

8 (1) ELIGIBILITY FOR DOD ASSIGNMENT.—Sub-
9 ject to subsection (e), an individual eligible for an
10 assignment in the Department of Defense under
11 subsection (a)(3)(A) is an individual who—

12 (A) is a citizen of the United States; and

13 (B) either—

14 (i) expects to be awarded a bachelor's
15 degree, associate's degree, or graduate de-
16 gree that, as determined by the Secretary,
17 focuses on science, technology, engineering,
18 or mathematics course work not later than
19 180 days after the date on which the indi-
20 vidual submits an application for participa-
21 tion in the fellows program;

22 (ii) possesses a bachelor's degree, as-
23 sociate's degree, or graduate degree that,
24 as determined by the Secretary, focuses on

1 science, technology, engineering, or mathe-
2 matics course work; or

3 (iii) is an employee of the Department
4 of Defense and possesses a bachelor's de-
5 gree, associate's degree, or graduate degree
6 that, as determined by the Secretary, fo-
7 cuses on science, technology, engineering,
8 or mathematics course work.

9 (2) ELIGIBILITY FOR CONGRESSIONAL ASSIGN-
10 MENT.—Subject to subsection (e), an individual eli-
11 gible for an assignment in a congressional office
12 under subsection (a)(3)(B) is an individual who—

13 (A) meets the requirements specified in
14 paragraph (1); and

15 (B) has not less than 3 years of relevant
16 work experience in the field of science, tech-
17 nology, engineering, or mathematics.

18 (c) APPLICATION.—Each individual seeking to par-
19 ticipate in the fellows program shall submit to the Sec-
20 retary an application therefor at such time and in such
21 manner as the Secretary shall specify.

22 (d) COORDINATION.—In carrying out this section, the
23 Secretary may consider working through the following en-
24 tities:

25 (1) The National Security Innovation Network.

1 (2) Universities.

2 (3) Science and technology reinvention labora-
3 tories and test and evaluation centers of the Depart-
4 ment of Defense.

5 (4) Other organizations of the Department of
6 Defense or public and private sector organizations,
7 as determined appropriate by the Secretary.

8 (e) MODIFICATIONS TO FELLOWS PROGRAM.—The
9 Secretary may modify the terms and procedures of the fel-
10 lows program in order to better achieve the goals of the
11 program and to support workforce needs of the Depart-
12 ment of Defense.

13 (f) CONSULTATION.—The Secretary may consult with
14 the heads of the agencies, components, and other elements
15 of the Department of Defense, Members and committees
16 of Congress, and such institutions of higher education and
17 private entities engaged in work on national security and
18 emerging technologies as the Secretary considers appro-
19 priate for purposes of the fellows program, including with
20 respect to assignments in the fellows program.

21 **SEC. 236. DOCUMENTATION RELATING TO THE ADVANCED**
22 **BATTLE MANAGEMENT SYSTEM.**

23 (a) DOCUMENTATION REQUIRED.—Not later than
24 the date specified in subsection (b), the Secretary of the
25 Air Force shall submit to the congressional defense com-

1 mitted the following documentation relating to the Ad-
2 vanced Battle Management System:

3 (1) A list that identifies each program, project,
4 and activity that contributes to the architecture of
5 the Advanced Battle Management System.

6 (2) The final analysis of alternatives for the
7 Advanced Battle Management System.

8 (3) The requirements for the networked data
9 architecture necessary for the Advanced Battle Man-
10 agement System to provide multidomain command
11 and control and battle management capabilities and
12 a development schedule for such architecture.

13 (b) DATE SPECIFIED.—The date specified in this
14 subsection is the earlier of—

15 (1) the date that is 180 days after the date on
16 which the final analysis of alternatives for the Ad-
17 vanced Battle Management System is completed; or

18 (2) June 1, 2020.

19 (c) ADVANCED BATTLE MANAGEMENT SYSTEM DE-
20 FINED.—In this section, the term “Advanced Battle Man-
21 agement System” means the Advanced Battle Manage-
22 ment System of Systems capability of the Air Force, in-
23 cluding each program, project, and activity that contrib-
24 utes to such capability.

1 **SEC. 237. SENSOR DATA INTEGRATION FOR FIFTH GENERA-**
2 **TION AIRCRAFT.**

3 (a) F-35 SENSOR DATA.—The Secretary of Defense
4 shall ensure that—

5 (1) information collected by the passive and ac-
6 tive on-board sensors of the F-35 Joint Strike
7 Fighter aircraft is capable of being shared, in real
8 time, with joint service users in cases in which the
9 Joint Force Commander determines that sharing
10 such information would be operationally advan-
11 tageous; and

12 (2) the Secretary has developed achievable, ef-
13 fective, and suitable concepts and supporting tech-
14 nical architectures to collect, store, manage, and dis-
15 seminate information collected by such sensors.

16 (b) GAO STUDY AND REPORT.—

17 (1) STUDY.—The Comptroller General of the
18 United States shall conduct a study of the sensor
19 data collection and dissemination capability of fifth
20 generation aircraft of the Department of Defense.

21 (2) ELEMENTS.—The study required by para-
22 graph (1) shall include an assessment of the fol-
23 lowing—

24 (A) the extent to which the Department
25 has established doctrinal, organizational, or
26 technological methods of managing the large

1 amount of sensor data that is currently col-
2 lected and which may be collected by existing
3 and planned advanced fifth generation aircraft;

4 (B) the status of the existing sensor data
5 collection, storage, dissemination, and manage-
6 ment capability and capacity of fifth generation
7 aircraft, including the F-35, the F-22, and the
8 B-21; and

9 (C) the ability of the F-35 aircraft and
10 other fifth generation aircraft to share informa-
11 tion collected by the aircraft in real-time with
12 other joint service users as described in sub-
13 section (a)(1).

14 (3) STUDY RESULTS.—

15 (A) INTERIM BRIEFING.—Not later than
16 180 days after the date of the enactment of this
17 Act, the Comptroller General shall provide to
18 the congressional defense committees a briefing
19 on the preliminary findings of the study con-
20 ducted under this subsection.

21 (B) FINAL RESULTS.—The Comptroller
22 General shall provide the final results of the
23 study conducted under this subsection to the
24 congressional defense committees at such time
25 and in such format as is mutually agreed upon

1 by the committees and the Comptroller General
2 at the time of the briefing under subparagraph
3 (A).

4 **SEC. 238. SENSE OF CONGRESS ON FUTURE VERTICAL LIFT**
5 **TECHNOLOGIES.**

6 It is the sense of Congress that the Army should con-
7 tinue to invest in research, development, test, and evalua-
8 tion programs to mature future vertical lift technologies,
9 including programs to improve pilot situational awareness,
10 increase flight operations safety, and reduce operation and
11 maintenance costs.

12 **SEC. 239. USE OF FUNDS FOR STRATEGIC ENVIRONMENTAL**
13 **RESEARCH PROGRAM, ENVIRONMENTAL SE-**
14 **CURITY TECHNICAL CERTIFICATION PRO-**
15 **GRAM, AND OPERATIONAL ENERGY CAPA-**
16 **BILITY IMPROVEMENT.**

17 Of the funds authorized to be appropriated for fiscal
18 year 2020 for the use of the Department of Defense for
19 research, development, test, and evaluation, as specified
20 in the funding table in section 4201 for the Strategic En-
21 vironmental Research Program, Operational Energy Ca-
22 pability Improvement, and the Environmental Security
23 Technical Certification Program, the Secretary of Defense
24 shall, acting through the Under Secretary of Defense for
25 Acquisition and Sustainment, expend amounts as follows:

1 (1) Not less than \$10,000,000 on the develop-
2 ment and demonstration of long duration on-site en-
3 ergy battery storage for distributed energy assets.

4 (2) Not less than \$10,000,000 on the develop-
5 ment, demonstration, and validation of non-fluorine
6 based firefighting foams.

7 (3) Not less than \$10,000,000 on the develop-
8 ment, demonstration, and validation of secure
9 microgrids for both installations and forward oper-
10 ating bases.

11 (4) Not less than \$1,000,000 on the develop-
12 ment, demonstration, and validation of technologies
13 that can harvest potable water from air.

14 **SEC. 240. LIMITATION AND REPORT ON INDIRECT FIRE**
15 **PROTECTION CAPABILITY INCREMENT 2 CA-**
16 **PABILITY.**

17 (a) LIMITATION AND REPORT ON INDIRECT FIRE
18 PROTECTION CAPABILITY INCREMENT 2.—Not more than
19 50 percent of the funds authorized to be appropriated by
20 this Act or otherwise made available for fiscal year 2020
21 for the Army may be obligated or expended for research,
22 development, test, and evaluation for the Indirect Fire
23 Protection Capability Increment 2 capability until the Sec-
24 retary of the Army submits to the congressional defense

1 committees a report on the Indirect Fire Protection Capa-
2 bility Increment 2 program that contains the following:

3 (1) An assessment of whether the requirements
4 previously established for the enduring program
5 meet the anticipated threat at the time of planned
6 initial operating capability and fully operating capa-
7 bility.

8 (2) A list of candidate systems considered to
9 meet the Indirect Fire Protection Capability Incre-
10 ment 2 enduring requirement, including those field-
11 ed or in development by the Army and other ele-
12 ments of the Department of Defense.

13 (3) An assessment of each candidate system's
14 capability against representative threats.

15 (4) An assessment of other relevant specifica-
16 tions of each candidate system, including cost of de-
17 velopment, cost per round if applicable, technological
18 maturity, and logistics and sustainment.

19 (5) A plan for how the Army will integrate the
20 chosen system or systems into the Integrated Air
21 and Missile Defense Battle Command System.

22 (6) An assessment of the results of the per-
23 formance, test, evaluation, integration, and inter-
24 operability of batteries one and two of the interim
25 solution.

1 (b) NOTIFICATION REQUIRED.—Not later than 10
2 days after the date on which the President submits the
3 annual budget request of the President for fiscal year
4 2021 pursuant to section 1105 of title 31, United States
5 Code, the Secretary of the Defense shall, without delega-
6 tion, submit to the congressional defense committees a no-
7 tification identifying the military services or agencies that
8 will be responsible for the conduct of air and missile de-
9 fense in support of joint campaigns as it applies to defense
10 against current and emerging missile threats. The notifi-
11 cation shall identify the applicable programs of record to
12 address such threats, including each class of cruise missile
13 threat.

14 **Subtitle C—Plans, Reports, and**
15 **Other Matters**

16 **SEC. 251. MASTER PLAN FOR IMPLEMENTATION OF AU-**
17 **THORITIES RELATING TO SCIENCE AND**
18 **TECHNOLOGY REINVENTION LABORATORIES.**

19 (a) PLAN REQUIRED.—The Secretary of Defense,
20 jointly with the Secretaries of the military departments
21 and in consultation with the Under Secretary of Defense
22 for Research and Engineering, shall develop a master plan
23 for using existing authorities to strengthen and modernize
24 the workforce and capabilities of the science and tech-
25 nology reinvention laboratories of the Department of De-

1 fense (referred to in this section as the “laboratories”) to
2 enhance the ability of the laboratories to execute missions
3 in the most efficient and effective manner.

4 (b) ELEMENTS.—The master plan required under
5 subsection (a) shall include, with respect to the labora-
6 tories, the following:

7 (1) A summary of hiring and staffing defi-
8 ciencies at laboratories, by location, and the effect of
9 such deficiencies on the ability of the laboratories—

10 (A) to meet existing and future require-
11 ments of the Department of Defense; and

12 (B) to recruit and retain qualified per-
13 sonnel.

14 (2) A summary of existing and emerging mili-
15 tary research, development, test, and evaluation mis-
16 sion areas requiring the use of the laboratories.

17 (3) An explanation of the laboratory staffing
18 capabilities required for each mission area identified
19 under paragraph (2).

20 (4) Identification of specific projects, including
21 hiring efforts and management reforms, that will be
22 carried out—

23 (A) to address the deficiencies identified in
24 paragraph (1); and

1 (B) to support the existing and emerging
2 mission areas identified in paragraph (2).

3 (5) For each project identified under paragraph
4 (4)—

5 (A) a summary of the plan for the project;

6 (B) a description of the resources that will
7 be applied to the project; and

8 (C) a schedule of required investments that
9 will be made as part of the project.

10 (6) A description of how the Department, in-
11 cluding each military department concerned, will
12 carry out the projects identified in paragraph (4)
13 using existing authorities.

14 (7) Identification of any statutory, regulatory,
15 or management-related barriers to implementing the
16 master plan and a description of policy and legisla-
17 tive options that may be applied to address such
18 barriers.

19 (c) CONSULTATION.—In developing the master plan
20 required under subsection (a), the Secretary of Defense,
21 the Secretaries of the military departments, and the
22 Under Secretary of Defense for Research and Engineering
23 shall consult with—

24 (1) the Service Acquisition Executives with re-
25 sponsibilities relevant to the laboratories;

1 (2) the commander of each military command
2 with responsibilities relating to research and engi-
3 neering that is affected by the master plan; and

4 (3) any other officials determined to be relevant
5 by the Secretary of Defense, the Secretaries of the
6 military departments, and the Under Secretary of
7 Defense for Research and Engineering.

8 (d) FINAL REPORT.—Not later than October 30,
9 2020, the Secretary of Defense, jointly with the Secre-
10 taries of the military departments and in consultation with
11 the Under Secretary of Defense for Research and Engi-
12 neering, shall submit to the congressional defense commit-
13 tees—

14 (1) the master plan developed under subsection
15 (a);

16 (2) a report on the activities carried out under
17 this section; and

18 (3) a report that identifies any barriers that
19 prevent the full use and implementation of existing
20 authorities, including any barriers presented by the
21 policies, authorities, and activities of—

22 (A) organizations and elements of the De-
23 partment of Defense; and

24 (B) organizations outside the Department.

1 **SEC. 252. INFRASTRUCTURE TO SUPPORT RESEARCH, DE-**
2 **VELOPMENT, TEST, AND EVALUATION MIS-**
3 **SIONS.**

4 (a) **MASTER PLAN REQUIRED.**—The Secretary of
5 Defense, acting through the Under Secretary of Defense
6 for Research and Engineering and in coordination with
7 the Secretaries of the military departments, shall develop
8 and implement a master plan that addresses the research,
9 development, test, and evaluation infrastructure and mod-
10 ernization requirements of the Department of Defense, in-
11 cluding the science and technology reinvention laboratories
12 and the facilities of the Major Range and Test Facility
13 Base.

14 (b) **ELEMENTS.**—The master plan required under
15 subsection (a) shall include, with respect to the research,
16 development, test, and evaluation infrastructure of the De-
17 partment of Defense, the following:

18 (1) A summary of deficiencies in the infrastruc-
19 ture, by location, and the effect of the deficiencies
20 on the ability of the Department—

21 (A) to meet current and future military re-
22 quirements identified in the National Defense
23 Strategy;

24 (B) to support science and technology de-
25 velopment and acquisition programs; and

1 (C) to recruit and train qualified per-
2 sonnel.

3 (2) A summary of existing and emerging mili-
4 tary research, development, test, and evaluation mis-
5 sion areas, by location, that require modernization
6 investments in the infrastructure—

7 (A) to improve operations in a manner
8 that may benefit all users;

9 (B) to enhance the overall capabilities of
10 the research, development, test, and evaluation
11 infrastructure, including facilities and re-
12 sources;

13 (C) to improve safety for personnel and fa-
14 cilities; and

15 (D) to reduce the long-term cost of oper-
16 ation and maintenance.

17 (3) Identification of specific infrastructure
18 projects that are required to address the infrastruc-
19 ture deficiencies identified under paragraph (1) or to
20 support the existing and emerging mission areas
21 identified under paragraph (2).

22 (4) For each project identified under paragraph
23 (3)—

24 (A) a description of the scope of work;

25 (B) a cost estimate;

1 (C) a summary of the plan for the project;

2 (D) an explanation of the level of priority
3 that will be given to the project; and

4 (E) a schedule of required infrastructure
5 investments.

6 (5) A description of how the Department, in-
7 cluding each military department concerned, will
8 carry out the infrastructure projects identified in
9 paragraph (3) using the range of authorities and
10 methods available to the Department, including—

11 (A) military construction authority under
12 section 2802 of title 10, United States Code;

13 (B) unspecified minor military construction
14 authority under section 2805(a) of such title;

15 (C) laboratory revitalization authority
16 under section 2805(d) of such title;

17 (D) the authority to carry out facility re-
18 pair projects, including the conversion of exist-
19 ing facilities, under section 2811 of such title;

20 (E) the authority provided under the De-
21 fense Laboratory Modernization Pilot Program
22 under section 2803 of the National Defense Au-
23 thorization Act for Fiscal Year 2016 (Public
24 Law 114–92; 10 U.S.C. 2358 note);

1 (F) methods that leverage funding from
2 entities outside the Department, including pub-
3 lic-private partnerships, enhanced use leases
4 and real property exchanges;

5 (G) the authority to conduct commercial
6 test and evaluation activities at a Major Range
7 and Test Facility Installation, under section
8 2681 of title 10, United States Code; and

9 (H) any other authorities and methods de-
10 termined to be appropriate by the Secretary of
11 Defense.

12 (6) Identification of any regulatory or policy
13 barriers to the effective and efficient implementation
14 of the master plan.

15 (c) CONSULTATION AND COORDINATION.—In devel-
16 oping and implementing the plan required under sub-
17 section (a), the Secretary of Defense shall—

18 (1) consult with existing and anticipated cus-
19 tomers and users of the capabilities of the Major
20 Range and Test Facility Base and science and tech-
21 nology reinvention laboratories;

22 (2) ensure consistency with the science and
23 technology roadmaps and strategies of the Depart-
24 ment of Defense and the Armed Forces; and

1 (3) ensure consistency with the strategic plan
2 for test and evaluation resources required by section
3 196(d) of title 10, United States Code.

4 (d) SUBMITTAL TO CONGRESS.—Not later than Jan-
5 uary 1, 2021, the Secretary of Defense, in coordination
6 with the Secretaries of the military departments, shall
7 submit to the congressional defense committees the master
8 plan developed under subsection (a).

9 (e) RESEARCH, DEVELOPMENT, TEST, AND EVALUA-
10 TION INFRASTRUCTURE DEFINED.—In this section, the
11 term “research, development, test, and evaluation infra-
12 structure” means the infrastructure of—

13 (1) the science and technology reinvention lab-
14 oratories (as designated under section 1105 of the
15 National Defense Authorization Act for Fiscal Year
16 2010 (Public Law 111–84; 10 U.S.C. 2358 note));

17 (2) the Major Range and Test Facility Base (as
18 defined in section 2358a(f)(3) of title 10, United
19 States Code); and

20 (3) other facilities that support the research de-
21 velopment, test, and evaluation activities of the De-
22 partment.

23 **SEC. 253. ENERGETICS PLAN.**

24 (a) PLAN REQUIRED.—The Under Secretary of De-
25 fense for Research and Engineering shall, in coordination

1 (1) a strategy for harnessing fifth generation
2 (commonly known as “5G”) information and com-
3 munications technologies to enhance military capa-
4 bilities, maintain a technological advantage on the
5 battlefield, and accelerate the deployment of new
6 commercial products and services enabled by 5G net-
7 works throughout the Department of Defense; and

8 (2) a plan for implementing the strategy devel-
9 oped under paragraph (1).

10 (b) ELEMENTS.—The strategy required under sub-
11 section (a) shall include the following elements:

12 (1) Adoption and use of secure fourth genera-
13 tion (commonly known as “4G”) communications
14 technologies and the transition to advanced and se-
15 cure 5G communications technologies for military
16 applications and for military infrastructure.

17 (2) Science, technology, research, and develop-
18 ment efforts to facilitate the advancement and adop-
19 tion of 5G technology and new uses of 5G systems,
20 subsystems, and components, including—

21 (A) 5G testbeds for developing military
22 and dual-use applications; and

23 (B) spectrum-sharing technologies and
24 frameworks.

1 (3) Strengthening engagement and outreach
2 with industry, academia, international partners, and
3 other departments and agencies of the Federal Gov-
4 ernment on issues relating to 5G technology and the
5 deployment of such technology, including develop-
6 ment of a common industrial base for secure micro-
7 electronics.

8 (4) Defense industrial base supply chain risk,
9 management, and opportunities.

10 (5) Preserving the ability of the Joint Force to
11 achieve objectives in a contested and congested spec-
12 trum environment.

13 (6) Strengthening the ability of the Joint Force
14 to conduct full spectrum operations that enhance the
15 military advantages of the United States.

16 (7) Securing the information technology and
17 weapon systems of the Department against malicious
18 activity.

19 (8) Advancing the deployment of secure 5G net-
20 works nationwide.

21 (9) Such other matters as the Secretary of De-
22 fense determines to be relevant.

23 (c) CONSULTATION.—In developing the strategy and
24 implementation plan required under subsection (a), the
25 Secretary of Defense shall consult with the following:

1 (1) The Chief Information Officer of the De-
2 partment of Defense.

3 (2) The Under Secretary of Defense for Re-
4 search and Engineering.

5 (3) The Under Secretary of Defense for Acqui-
6 sition and Sustainment.

7 (4) The Under Secretary of Defense for Intel-
8 ligence.

9 (5) Service Acquisition Executives of each mili-
10 tary service.

11 (d) PERIODIC BRIEFINGS.—

12 (1) IN GENERAL.—Not later than March 15,
13 2020, and not less frequently than once every three
14 months thereafter through March 15, 2022, the Sec-
15 retary of Defense shall provide to the congressional
16 defense committees a briefing on the development
17 and implementation of the strategy required under
18 subsection (a), including an explanation of how the
19 Department of Defense—

20 (A) is using secure 5G wireless network
21 technology;

22 (B) is reshaping the Department's policy
23 for producing and procuring secure microelec-
24 tronics; and

1 (C) is working in the interagency and
2 internationally to develop common policies and
3 approaches.

4 (2) ELEMENTS.—Each briefing under para-
5 graph (1) shall include information on—

6 (A) efforts to ensure a secure supply chain
7 for 5G wireless network equipment and micro-
8 electronics;

9 (B) the continued availability of electro-
10 magnetic spectrum for warfighting needs;

11 (C) planned implementation of 5G wireless
12 network infrastructure in warfighting networks,
13 base infrastructure, defense-related manufac-
14 turing, and logistics;

15 (D) steps taken to work with allied and
16 partner countries to protect critical networks
17 and supply chains; and

18 (E) such other topics as the Secretary of
19 Defense considers relevant.

20 **SEC. 255. DEPARTMENT-WIDE SOFTWARE SCIENCE AND**
21 **TECHNOLOGY STRATEGY.**

22 (a) DESIGNATION OF SENIOR OFFICIAL.—Not later
23 than 180 days after the date of the enactment of this Act,
24 the Secretary of Defense, acting through the Under Sec-
25 retary of Defense for Research and Engineering and in

1 consultation with the Under Secretary of Defense for Ac-
2 quisition and Sustainment and appropriate public and pri-
3 vate sector organizations, shall designate a single official
4 or existing entity within the Department of Defense as
5 the official or entity (as the case may be) with principal
6 responsibility for guiding the development of science and
7 technology activities related to next generation software
8 and software reliant systems for the Department, includ-
9 ing—

10 (1) research and development activities on new
11 technologies for the creation of highly secure, scal-
12 able, reliable, time-sensitive, and mission-critical
13 software;

14 (2) research and development activities on new
15 approaches and tools to software development and
16 deployment, testing, integration, and next generation
17 software management tools to support the rapid in-
18 sertation of such software into defense systems;

19 (3) foundational scientific research activities to
20 support advances in software;

21 (4) technical workforce and infrastructure to
22 support defense science and technology and software
23 needs and mission requirements;

24 (5) providing capabilities, including tech-
25 nologies, systems, and technical expertise to support

1 improved acquisition of software reliant business and
2 warfighting systems; and

3 (6) providing capabilities, including tech-
4 nologies, systems, and technical expertise to support
5 defense operational missions which are reliant on
6 software.

7 (b) DEVELOPMENT OF STRATEGY.—The official or
8 entity designated under subsection (a) shall develop a De-
9 partment-wide strategy for the research and development
10 of next generation software and software reliant systems
11 for the Department of Defense, including strategies for—

12 (1) types of software-related activities within
13 the science and technology portfolio of the Depart-
14 ment;

15 (2) investment in new approaches to software
16 development and deployment, and next generation
17 management tools;

18 (3) ongoing research and other support of aca-
19 demic, commercial, and development community ef-
20 forts to innovate the software development, engineer-
21 ing, and testing process, automated testing, assur-
22 ance and certification for safety and mission critical
23 systems, large scale deployment, and sustainment;

1 (4) to the extent practicable, implementing or
2 continuing the implementation of the recommenda-
3 tions set forth in—

4 (A) the final report of the Defense Innova-
5 tion Board submitted to the congressional de-
6 fense committees under section 872 of the Na-
7 tional Defense Authorization Act for Fiscal
8 Year 2018 (Public Law 115–91; 131 Stat.
9 1497);

10 (B) the final report of the Defense Science
11 Board Task Force on the Design and Acquisi-
12 tion of Software for Defense Systems described
13 in section 868 of the John S. McCain National
14 Defense Authorization Act for Fiscal Year 2019
15 (Public Law 115–232; 10 U.S.C. 2223 note);
16 and

17 (C) other relevant studies on software re-
18 search, development, and acquisition activities
19 of the Department of Defense.

20 (5) supporting the acquisition, technology devel-
21 opment, testing, assurance, and certification and
22 operational needs of the Department through the de-
23 velopment of capabilities, including personnel and re-
24 search and production infrastructure, and programs
25 in—

1 (A) the science and technology reinvention
2 laboratories (as designated under section 1105
3 of the National Defense Authorization Act for
4 Fiscal Year 2010 (Public Law 111–84; 10
5 U.S.C. 2358 note));

6 (B) the facilities of the Major Range and
7 Test Facility Base (as defined in section
8 2358a(f)(3) of title 10, United States Code);

9 (C) the Defense Advanced Research
10 Projects Agency; and

11 (D) universities, federally funded research
12 and development centers, and service organiza-
13 tions with activities in software engineering;
14 and

15 (6) the transition of relevant capabilities and
16 technologies to relevant programs of the Depart-
17 ment, including software-reliant cyber-physical sys-
18 tems, tactical systems, enterprise systems, and busi-
19 ness systems.

20 (e) SUBMITTAL TO CONGRESS.—Not later than one
21 year after the date of the enactment of this Act, the offi-
22 cial or entity designated under subsection (a) shall submit
23 to the congressional defense committees the strategy de-
24 veloped under subsection (b).

1 **SEC. 256. ARTIFICIAL INTELLIGENCE EDUCATION STRAT-**
2 **EGY.**

3 (a) STRATEGY REQUIRED.—

4 (1) IN GENERAL.—The Secretary of Defense
5 shall develop a strategy for educating
6 servicemembers in relevant occupational fields on
7 matters relating to artificial intelligence.

8 (2) ELEMENTS.—The strategy developed under
9 subsection (a) shall include a curriculum designed to
10 give servicemembers a basic knowledge of artificial
11 intelligence. The curriculum shall include instruction
12 in—

13 (A) artificial intelligence design;

14 (B) software coding;

15 (C) potential military applications for arti-
16 ficial intelligence;

17 (D) the impact of artificial intelligence on
18 military strategy and doctrine;

19 (E) artificial intelligence decisionmaking
20 via machine learning and neural networks;

21 (F) ethical issues relating to artificial in-
22 telligence;

23 (G) the potential biases of artificial intel-
24 ligence;

25 (H) potential weakness in artificial intel-
26 ligence technology;

1 (I) opportunities and risks; and

2 (J) any other matters the Secretary of De-
3 fense determines to be relevant.

4 (b) IMPLEMENTATION PLAN.—The Secretary of De-
5 fense shall develop a plan for implementing the strategy
6 developed under subsection (a).

7 (c) SUBMITTAL TO CONGRESS.—Not later than 270
8 days after the date of the enactment of this Act, the Sec-
9 retary of Defense shall submit to the congressional defense
10 committees—

11 (1) the strategy developed under subsection (a);
12 and

13 (2) the implementation plan developed under
14 subsection (b).

15 **SEC. 257. CYBER SCIENCE AND TECHNOLOGY ACTIVITIES**

16 **ROADMAP AND REPORTS.**

17 (a) ROADMAP FOR SCIENCE AND TECHNOLOGY AC-
18 TIVITIES TO SUPPORT DEVELOPMENT OF CYBER CAPA-
19 BILITIES.—

20 (1) ROADMAP REQUIRED.—The Secretary of
21 Defense, acting through the Under Secretary of De-
22 fense for Research and Engineering, shall develop a
23 roadmap for science and technology activities of the
24 Department of Defense to support development of

1 cyber capabilities to meet Department needs and
2 missions.

3 (2) GOAL OF CONSISTENCY.—The Secretary
4 shall develop the roadmap required by paragraph (1)
5 to ensure consistency with appropriate Federal inter-
6 agency, industry, and academic activities.

7 (3) SCOPE.—The roadmap required by para-
8 graph (1) shall—

9 (A) cover the development of capabilities
10 that will likely see operational use within the
11 next 25 years or earlier; and

12 (B) address cyber operations and cyberse-
13 curity.

14 (4) CONSULTATION.—The Secretary shall de-
15 velop the roadmap required by paragraph (1) in con-
16 sultation with the following:

17 (A) The Chief Information Officer of the
18 Department.

19 (B) The secretaries and chiefs of the mili-
20 tary departments.

21 (C) The Director of Operational Test and
22 Evaluation.

23 (D) The Commander of the United States
24 Cyber Command.

1 (E) The Director of the National Security
2 Agency.

3 (F) The Director of the Defense Informa-
4 tion Systems Agency.

5 (G) The Director of the Defense Advanced
6 Research Projects Agency.

7 (H) The Director of the Defense Digital
8 Service.

9 (I) Such interagency partners as the Sec-
10 retary considers appropriate.

11 (5) FORM.—The Secretary shall develop the
12 roadmap required by paragraph (1) in unclassified
13 form, but may include a classified annex.

14 (6) PUBLICATION.—The Secretary shall make
15 available to the public the unclassified form of the
16 roadmap developed pursuant to paragraph (1).

17 (b) ANNUAL REPORT ON CYBER SCIENCE AND
18 TECHNOLOGY ACTIVITIES.—

19 (1) ANNUAL REPORTS REQUIRED.—In fiscal
20 years 2021, 2022, and 2023, the Under Secretary of
21 Defense for Research and Engineering shall submit
22 to the congressional defense committees a report on
23 the science and technology activities within the De-
24 partment of Defense relating to cyber matters dur-

1 ing the previous fiscal year, the current fiscal year,
2 and the following fiscal year.

3 (2) CONTENTS.—Each report submitted pursu-
4 ant to paragraph (1) shall include, for the period
5 covered by the report, a description and listing of
6 the science and technology activities of the Depart-
7 ment relating to cyber matters, including the fol-
8 lowing:

9 (A) Extramural science and technology ac-
10 tivities.

11 (B) Intramural science and technology ac-
12 tivities.

13 (C) Major and minor military construction
14 activities.

15 (D) Major prototyping and demonstration
16 programs.

17 (E) A list of agreements and activities to
18 transition capabilities to acquisition activities,
19 including—

20 (i) national security systems;

21 (ii) business systems; and

22 (iii) enterprise and network systems.

23 (F) Efforts to enhance the national tech-
24 nical cybersecurity workforce, including specific

1 programs to support education, training, intern-
2 ships, and hiring.

3 (G) Efforts to perform cooperative activi-
4 ties with international partners.

5 (H) Efforts under the Small Business In-
6 novation Research and the Small Business
7 Technology Transfer Program, including esti-
8 mated amounts to be expected in the following
9 fiscal year.

10 (I) Efforts to encourage partnerships be-
11 tween the Department of Defense and univer-
12 sities participating in the National Centers of
13 Academic Excellence in Cyber Operations and
14 Cyber Defense.

15 (3) TIMING.—Each report submitted pursuant
16 to paragraph (1) shall be submitted concurrently
17 with the annual budget request of the President sub-
18 mitted pursuant to section 1105 of title 31, United
19 States Code.

20 (4) FORM.—The report submitted under para-
21 graph (1) shall be submitted in unclassified form,
22 but may include a classified annex.

1 **SEC. 258. REPORT ON B-52 COMMERCIAL ENGINE REPLACE-**
2 **MENT PROGRAM.**

3 (a) DOCUMENTATION REQUIRED.—The Secretary of
4 the Air Force shall submit to the congressional defense
5 committees a report on the B-52 commercial engine re-
6 placement program of the Air Force.

7 (b) CONTENTS.—The report submitted under sub-
8 section (a) shall include the following:

9 (1) The acquisition strategy of the Secretary
10 for the program.

11 (2) The cost and schedule estimates of the Sec-
12 retary for the program.

13 (3) The key performance parameters or equiva-
14 lent requirements document for the program.

15 (4) The test and evaluation strategy of the Sec-
16 retary for the program.

17 (5) The logistics strategy of the Secretary for
18 the program.

19 (6) The post-production fielding strategy of the
20 Secretary for the program.

21 (7) An assessment of the potential for the com-
22 mercial engine replacement to achieve nuclear sys-
23 tem certification.

24 (c) LIMITATION.—Of the funds authorized to be ap-
25 propriated by this Act or otherwise made available for fis-
26 cal year 2020 for the Air Force, not more than 75 percent

1 may be obligated or expended until the date on which the
2 Secretary of the Air Force submits to the congressional
3 defense committees the report required by subsection (a).

4 **SEC. 259. COMMERCIAL EDGE COMPUTING TECHNOLOGIES**
5 **AND BEST PRACTICES FOR DEPARTMENT OF**
6 **DEFENSE WARFIGHTING SYSTEMS.**

7 (a) REPORT REQUIRED.—Not later than 120 days
8 after the date of the enactment of this Act, the Under
9 Secretary of Defense for Acquisition and Sustainment
10 shall submit to the congressional defense committees a re-
11 port on commercial edge computing technologies and best
12 practices for Department of Defense warfighting systems.

13 (b) CONTENTS.—The report submitted under sub-
14 section (a) shall include the following:

15 (1) Identification of initial warfighting system
16 programs of record that will benefit most from accel-
17 erated insertion of commercial edge computing tech-
18 nologies and best practices, resulting in significant
19 near-term improvement in system performance and
20 mission capability.

21 (2) The plan of the Department of Defense to
22 provide additional funding for the systems identified
23 in paragraph (1) to achieve fielding of accelerated
24 commercial edge computing technologies before or
25 during fiscal year 2021.

1 (3) The plan of the Department to identify,
2 manage, and provide additional funding for commer-
3 cial edge computing technologies more broadly over
4 the next four fiscal years where appropriate for—

5 (A) command, control, communications,
6 and intelligence systems;

7 (B) logistics systems; and

8 (C) other mission-critical systems.

9 (4) A detailed description of the policies, proce-
10 dures, budgets, and accelerated acquisition and con-
11 tracting mechanisms of the Department for near-
12 term insertion of commercial edge computing tech-
13 nologies and best practices into military mission-crit-
14 ical systems.

15 **SEC. 260. BIENNIAL REPORT ON THE JOINT ARTIFICIAL IN-**
16 **TELLIGENCE CENTER.**

17 (a) **REPORTS REQUIRED.**—Not later than 180 days
18 after the date of the enactment of this Act and biennially
19 thereafter through the end of 2023, the Secretary of De-
20 fense shall submit to the congressional defense committees
21 a report on the Joint Artificial Intelligence Center (re-
22 ferred to in this section as the “Center”).

23 (b) **ELEMENTS.**—Each report under subsection (a)
24 shall include the following:

1 (1) Information relating to the mission and ob-
2 jectives of the Center.

3 (2) A description of the National Mission Initia-
4 tives, Component Mission Initiatives, and any other
5 initiatives of the Center, including a description of—

6 (A) the activities carried out under the ini-
7 tiatives;

8 (B) any investments made or contracts en-
9 tered into under the initiatives; and

10 (C) the progress of the initiatives.

11 (3) A description of how the Center has sought
12 to leverage lessons learned, share best practices,
13 avoid duplication of efforts, and transition artificial
14 intelligence research efforts into operational capabili-
15 ties by—

16 (A) collaborating with other organizations
17 and elements of the Department of Defense, in-
18 cluding the Defense Agencies and the military
19 departments; and

20 (B) deconflicting the activities of the Cen-
21 ter with the activities of other organizations
22 and elements of the Department.

23 (4) A description of any collaboration be-
24 tween—

1 (A) the Center and the private sector, na-
2 tional laboratories, and academia; and

3 (B) the Center and international allies and
4 partners.

5 (5) The total number of military, contractor,
6 and civilian personnel who are employed by the Cen-
7 ter, assigned to the Center, and performing func-
8 tions in support of the Center.

9 (6) A description of the organizational structure
10 and staffing of the Center.

11 (7) A detailed description of the frameworks,
12 metrics, and capabilities established to measure the
13 effectiveness of the Center and the Center's invest-
14 ments in the National Mission Initiatives and Com-
15 ponent Mission Initiatives.

16 (8) A description of any new policies, stand-
17 ards, or guidance relating to artificial intelligence
18 that have been issued by the Chief Information Offi-
19 cer of the Department.

20 (9) Identification of any ethical guidelines ap-
21 plicable to the use of artificial intelligence by the
22 Department.

23 (10) A description of any steps taken by the
24 Center to protect systems that use artificial intel-
25 ligence from any attempts to misrepresent or alter

1 information used or provided by artificial intel-
2 ligence.

3 (c) JOINT ARTIFICIAL INTELLIGENCE CENTER DE-
4 FINED.—In this section, the term “Joint Artificial Intel-
5 ligence Center” means the Joint Artificial Intelligence
6 Center of the Department of Defense established pursuant
7 to section 238 of the John S. McCain National Defense
8 Authorization Act for Fiscal Year 2019 (Public Law 115–
9 232; 10 U.S.C. 2358 note).

10 **SEC. 261. QUARTERLY UPDATES ON THE OPTIONALLY**
11 **MANNED FIGHTING VEHICLE PROGRAM.**

12 (a) IN GENERAL.—Beginning not later than Decem-
13 ber 1, 2019, and on a quarterly basis thereafter through
14 October 1, 2022, the Assistant Secretary shall provide to
15 the Committees on Armed Services of the Senate and the
16 House of Representatives a briefing on the progress of the
17 Optionally Manned Fighting Vehicle program of the
18 Army.

19 (b) ELEMENTS.—Each briefing under subsection (a)
20 shall include, with respect to the Optionally Manned
21 Fighting Vehicle program, the following elements:

22 (1) An overview of funding for the program, in-
23 cluding identification of—

24 (A) any obligations and expenditures that
25 have been made under the program; and

1 (B) any obligations and expenditures that
2 are planned for the program.

3 (2) An overview of the program schedule.

4 (3) An assessment of the status of the program
5 with respect to—

6 (A) the development and approval of tech-
7 nical requirements;

8 (B) technological maturity;

9 (C) testing;

10 (D) delivery; and

11 (E) program management.

12 (4) Any other matters that the Assistant Sec-
13 retary considers relevant to a full understanding of
14 the status and plans of the program.

15 (c) ASSISTANT SECRETARY DEFINED.—In this sec-
16 tion, the term “Assistant Secretary” means the Assistant
17 Secretary of the Army for Acquisition, Logistics, and
18 Technology (or the designee of the Assistant Secretary),
19 in consultation with the Commander of the Army Futures
20 Command (or the designee of the Commander).

1 **SEC. 262. NATIONAL STUDY ON DEFENSE RESEARCH AT**
2 **HISTORICALLY BLACK COLLEGES AND UNI-**
3 **VERSITIES AND OTHER MINORITY INSTITU-**
4 **TIONS.**

5 (a) **STUDY REQUIRED.**—The Secretary of Defense
6 shall seek to enter into an agreement with the National
7 Academies of Sciences, Engineering, and Medicine (re-
8 ferred to in this section as the “National Academies”)
9 under which the National Academies will conduct a study
10 on the status of defense research at covered institutions
11 and the methods and means necessary to advance research
12 capacity at covered institutions to comprehensively ad-
13 dress the national security and defense needs of the
14 United States.

15 (b) **DESIGNATION.**—The study conducted under sub-
16 section (a) shall be known as the “National Study on De-
17 fense Research At Historically Black Colleges and Univer-
18 sities and Other Minority Institutions”.

19 (c) **ELEMENTS.**—The study conducted under sub-
20 section (a) shall include an examination of each of the fol-
21 lowing:

22 (1) The degree to which covered institutions are
23 successful in competing for and executing Depart-
24 ment of Defense contracts and grants for defense re-
25 search.

1 (2) Best practices for advancing the capacity of
2 covered institutions to compete for and conduct re-
3 search programs related to national security and de-
4 fense.

5 (3) The advancements and investments nec-
6 essary to elevate covered institutions to R2 status or
7 R1 status on the Carnegie Classification of Institu-
8 tions of Higher Education, consistent with the cri-
9 teria of the classification system.

10 (4) The facilities and infrastructure for defense-
11 related research at covered institutions as compared
12 to the facilities and infrastructure at institutions
13 classified as R1 status on the Carnegie Classification
14 of Institutions of Higher Education.

15 (5) Incentives to attract, recruit, and retain
16 leading research faculty to covered institutions.

17 (6) Best practices of institutions classified as
18 R1 status on the Carnegie Classification of Institu-
19 tions of Higher Education, including best practices
20 with respect to—

21 (A) the establishment of a distinct legal
22 entity to—

23 (i) enter into contracts or receive
24 grants from the Department;

1 (ii) lay the groundwork for future re-
2 search opportunities;

3 (iii) develop research proposals;

4 (iv) engage with defense research
5 funding organizations; and

6 (v) execute the administration of
7 grants; and

8 (B) determining the type of legal entity, if
9 any, to establish for the purposes described in
10 subparagraph (A).

11 (7) The ability of covered institutions to de-
12 velop, protect, and commercialize intellectual prop-
13 erty created through defense-related research.

14 (8) The total amount of defense research fund-
15 ing awarded to all institutions of higher education,
16 including covered institutions, through contracts and
17 grants for each of fiscal years 2010 through 2019
18 and, with respect to each such institution—

19 (A) whether the institution established a
20 distinct legal entity to enter into contracts or
21 receive grants from the Department and, if so,
22 the type of legal entity that was established;

23 (B) the total value of contracts and grants
24 awarded to the institution of higher education
25 for each of fiscal years 2010 through 2019;

1 (C) the overhead rate of the institution of
2 higher education for fiscal year 2019;

3 (D) the institution's classification on the
4 Carnegie Classification of Institutions of Higher
5 Education; and

6 (E) whether the institution qualifies as a
7 covered institution.

8 (9) Recommendations for strengthening and en-
9 hancing the programs executed under section 2362
10 of title 10, United States Code.

11 (10) Recommendations to enhance the capacity
12 of covered institutions to transition research prod-
13 ucts into defense acquisition programs or commer-
14 cialization.

15 (11) Previous executive or legislative actions by
16 the Federal Government to address imbalances in
17 Federal research funding, including such programs
18 as the Defense Established Program to Stimulate
19 Competitive Research (commonly known as
20 "DEPSCoR").

21 (12) The effectiveness of the Department in at-
22 tracting and retaining students specializing in
23 science, technology, engineering, and mathematics
24 fields from covered institutions for the Department's
25 programs on emerging capabilities and technologies.

1 (13) Recommendations for the development of
2 incentives to encourage research and educational col-
3 laborations between covered institutions and other
4 institutions of higher education.

5 (14) Any other matters the Secretary of De-
6 fense determines to be relevant to advancing the de-
7 fense research capacity of covered institutions.

8 (d) REPORTS.—

9 (1) INITIAL REPORT.—Not later than 180 days
10 after the date of the enactment of this Act, the Sec-
11 retary of Defense shall submit to the President and
12 the appropriate congressional committees an initial
13 report that includes—

14 (A) the findings of the study conducted
15 under subsection (a); and

16 (B) any recommendations that the Na-
17 tional Academies may have for action by the ex-
18 ecutive branch and Congress to improve the
19 participation of covered institutions in Depart-
20 ment of Defense research and any actions that
21 may be carried out to expand the research ca-
22 pacity of such institutions.

23 (2) FINAL REPORT.—Not later than December
24 31, 2021, the Secretary of Defense shall submit to
25 the President and the appropriate congressional

1 committees a comprehensive report on the results of
2 the study required under subsection (a).

3 (3) FORM OF REPORTS.—Each report sub-
4 mitted under this subsection shall be made publicly
5 available.

6 (e) IMPLEMENTATION REQUIRED.—

7 (1) IN GENERAL.—Except as provided in para-
8 graph (2), not later than March 1, 2022, the Sec-
9 retary of Defense shall commence implementation of
10 each recommendation included in the final report
11 submitted under subsection (d)(2).

12 (2) EXCEPTIONS.—

13 (A) DELAYED IMPLEMENTATION.—The
14 Secretary of Defense may commence implemen-
15 tation of a recommendation described para-
16 graph (1) later than March 1, 2022, if—

17 (i) the Secretary submits to the con-
18 gressional defense committees written no-
19 tice of the intent of the Secretary to delay
20 implementation of the recommendation;
21 and

22 (ii) includes, as part of such notice, a
23 specific justification for the delay in imple-
24 menting the recommendation.

1 (B) NONIMPLEMENTATION.—The Sec-
2 retary of Defense may elect not to implement a
3 recommendation described in paragraph (1),
4 if—

5 (i) the Secretary submits to the con-
6 gressional defense committees written no-
7 tice of the intent of the Secretary not to
8 implement the recommendation; and

9 (ii) includes, as part of such notice—

10 (I) the reasons for the Sec-
11 retary's decision not to implement the
12 recommendation; and

13 (II) a summary of alternative ac-
14 tions the Secretary will carry out to
15 address the purposes underlying the
16 recommendation.

17 (3) IMPLEMENTATION PLAN.—For each rec-
18 ommendation that the Secretary implements under
19 this subsection, the Secretary shall submit to the
20 congressional defense committees an implementation
21 plan that includes—

22 (A) a summary of actions that have been,
23 or will be, carried out to implement the rec-
24 ommendation; and

1 (B) a schedule, with specific milestones,
2 for completing the implementation of the rec-
3 ommendation.

4 (f) LIST OF COVERED INSTITUTIONS.—The Sec-
5 retary of Defense, in consultation with the Secretary of
6 Education and the Presidents of the National Academies,
7 shall make available a list identifying each covered institu-
8 tion examined as part of the study under subsection (a).
9 The list shall be made available on a publicly accessible
10 website and shall be updated not less frequently than once
11 annually until the date on which the final report is sub-
12 mitted under subsection (d)(2).

13 (g) DEFINITIONS.—In this section:

14 (1) The term “appropriate congressional com-
15 mittees” means—

16 (A) the congressional defense committees;

17 (B) the Committee on Health, Education,
18 Labor, and Pensions of the Senate; and

19 (C) the Committee on Education and
20 Labor of the House of Representatives.

21 (2) The term “covered institution” means—

22 (A) a part B institution (as that term is
23 defined in section 322(2) of the Higher Edu-
24 cation Act of 1965 (20 U.S.C. 1061(2)); or

1 (B) any other institution of higher edu-
2 cation (as that term is defined in section 101
3 of such Act (20 U.S.C. 1001)) at which not less
4 than 50 percent of the total student enrollment
5 consists of students from ethnic groups that are
6 underrepresented in the fields of science and
7 engineering.

8 **SEC. 263. STUDY ON NATIONAL SECURITY EMERGING BIO-**
9 **TECHNOLOGIES FOR THE DEPARTMENT OF**
10 **DEFENSE.**

11 (a) STUDY REQUIRED.—

12 (1) IN GENERAL.—Not later than 30 days after
13 the date of the enactment of this Act, the Secretary
14 of Defense shall direct the Defense Science Board to
15 carry out a study on emerging biotechnologies perti-
16 nent to national security.

17 (2) PARTICIPATION.—Participants in the study
18 shall include the following:

19 (A) Such members of the Board as the
20 Chairman of the Board considers appropriate
21 for the study.

22 (B) Such additional temporary members or
23 contracted support as the Secretary—

1 (i) selects from those recommended by
2 the Chairman for purposes of the study;
3 and

4 (ii) considers to have significant tech-
5 nical, policy, or military expertise.

6 (3) ELEMENTS.—The study conducted pursu-
7 ant to paragraph (1) shall include the following:

8 (A) A review of the military understanding
9 and relevancy of applications of emerging bio-
10 technologies to national security requirements
11 of the Department of Defense, including—

12 (i) a review of all research and devel-
13 opment relating to emerging biotech-
14 nologies within the Department of Defense,
15 including areas that demand further pri-
16 ority and investment;

17 (ii) a review of interagency coopera-
18 tion and collaboration on research and de-
19 velopment relating to emerging biotech-
20 nologies between—

21 (I) the Department;

22 (II) other departments and agen-
23 cies in the Federal Government; and

24 (III) appropriate private sector
25 entities that are involved in research

1 and development relating to emerging
2 biotechnologies;

3 (iii) an assessment of current bio-
4 technology research in the commercial sec-
5 tor, institutions of higher education, the
6 intelligence community, and civilian agen-
7 cies of the Federal Government relevant to
8 critical Department of Defense applications
9 of this research;

10 (iv) an assessment of the potential na-
11 tional security risks of emerging biotech-
12 nologies, including risks relating to foreign
13 powers advancing their use of emerging
14 biotechnologies for military applications
15 and other purposes faster than the Depart-
16 ment; and

17 (v) an assessment of the knowledge
18 base of the Department with respect to
19 emerging biotechnologies, including sci-
20 entific expertise and infrastructure in the
21 Department and the capacity of the De-
22 partment to integrate emerging biotech-
23 nologies into its operational concepts, capa-
24 bilities, and forces.

1 (B) An assessment of the technical basis
2 within the Department used to inform the intel-
3 ligence community of the Department's collec-
4 tion and analysis needs relating to emerging
5 biotechnologies.

6 (C) Development of a recommendation on
7 a definition of emerging biotechnologies, as ap-
8 propriate for the Department.

9 (D) Development of such recommendations
10 as the Board may have for legislative or admin-
11 istrative action relating to national security
12 emerging biotechnologies for the Department.

13 (4) ACCESS TO INFORMATION.—The Secretary
14 shall provide the Board with timely access to appro-
15 priate information, data, resources, and analysis so
16 that the Board may conduct a thorough and inde-
17 pendent analysis as required under this section.

18 (5) REPORT.—(A) Not later than one year after
19 the date on which the Secretary directs the Board
20 to conduct the study pursuant to paragraph (1), the
21 Board shall transmit to the Secretary a final report
22 on the study.

23 (B) Not later than 30 days after the date on
24 which the Secretary receives the final report under
25 subparagraph (A), the Secretary shall submit to the

1 congressional defense committees such report and
2 such comments as the Secretary considers appro-
3 priate.

4 (b) BRIEFING REQUIRED.—Not later than 90 days
5 after the date of the enactment of this Act, the Secretary
6 of Defense shall provide the congressional defense commit-
7 tees a briefing on potential national security risks of
8 emerging biotechnologies, including risks relating to for-
9 eign powers advancing their use of emerging biotech-
10 nologies for military applications and other purposes fast-
11 er than the Department.

12 **SEC. 264. INDEPENDENT STUDY ON OPTIMIZING RE-**
13 **SOURCES ALLOCATED TO COMBATING TER-**
14 **RORISM TECHNICAL SUPPORT OFFICE.**

15 (a) INDEPENDENT STUDY.—Not later than 30 days
16 after the date of the enactment of this Act, the Secretary
17 of Defense shall seek to enter into a contract with a feder-
18 ally funded research and development center under which
19 the center will conduct a study on the optimal use of re-
20 sources allocated to the Combating Terrorism Technical
21 Support Office.

22 (b) ELEMENTS OF STUDY.—In carrying out the
23 study referred to in subsection (a), the federally funded
24 research and development center with which the Secretary
25 enters into a contract under such subsection shall—

1 (1) evaluate the current mission and organiza-
2 tion of the Combating Terrorism Technical Support
3 Office and its relation to the objectives outlined in
4 the National Defense Strategy;

5 (2) assess the extent to which the activities of
6 the Combating Terrorism Technical Support Office
7 are complementary to and coordinated with other
8 relevant activities by other Department of Defense
9 entities, including activities of the Under Secretary
10 of Defense for Research and Engineering, the Under
11 Secretary of Defense for Acquisition and
12 Sustainment, United States Special Operations
13 Command, and the military departments; and

14 (3) identify opportunities to improve the effi-
15 ciency and effectiveness of the Combating Terrorism
16 Technical Support Office, including through in-
17 creased coordination, realignment, or consolidation
18 with other entities of the Department of Defense, if
19 appropriate.

20 (c) SUBMISSION TO DEPARTMENT OF DEFENSE.—

21 Not later than 180 days after the date of the enactment
22 of this Act, the federally funded research and development
23 center that conducts the study under subsection (a) shall
24 submit to the Secretary of Defense a report on the results
25 of the study in both classified and unclassified form.

1 (d) SUBMISSION TO CONGRESS.—Not later than 30
2 days after the date on which the Secretary of Defense re-
3 ceives the report under subsection (c), the Secretary shall
4 submit to the congressional defense committees an
5 unaltered copy of the report in both classified and unclas-
6 sified form, and such comments as the Secretary may have
7 with respect to the report.

8 **SEC. 265. INDEPENDENT ASSESSMENT OF ELECTRONIC**
9 **WARFARE PLANS AND PROGRAMS.**

10 (a) ASSESSMENT.—Not later than 120 days after the
11 date of the enactment of this Act and pursuant to the ar-
12 rangement entered into under section 222, the Secretary
13 of Defense shall seek to engage the private scientific advi-
14 sory group known as “JASON” to carry out an inde-
15 pendent assessment of electronic warfare plans and pro-
16 grams.

17 (b) ELEMENTS.—In carrying out the assessment
18 under subsection (a), JASON shall—

19 (1) assess the strategies, programs, order of
20 battle, and doctrine of the Department of Defense
21 related to the electronic warfare mission area and
22 electromagnetic spectrum operations;

23 (2) assess the strategies, programs, order of
24 battle, and doctrine of potential adversaries, such as

1 China, Iran, and the Russian Federation, related to
2 the such mission area and operations;

3 (3) develop recommendations for improvements
4 to the strategies, programs, and doctrine of the De-
5 partment of Defense in order to enable the United
6 States to achieve and maintain superiority in the
7 electromagnetic spectrum in future conflicts; and

8 (4) develop recommendations for the Secretary
9 of Defense, Congress, and such other Federal enti-
10 ties as JASON considers appropriate, including rec-
11 ommendations for—

12 (A) closing technical, policy, or resource
13 gaps;

14 (B) improving cooperation and appropriate
15 integration within the Department of Defense
16 entities;

17 (C) improving cooperation between the
18 United States and other countries and inter-
19 national organizations as appropriate; and

20 (D) such other important matters identi-
21 fied by JASON that are directly relevant to the
22 strategies of the Department of Defense de-
23 scribed in paragraph (3).

1 (c) LIAISONS.—The Secretary of Defense shall ap-
2 point appropriate liaisons to JASON to support the timely
3 conduct of the services covered by this section.

4 (d) MATERIALS.—The Secretary of Defense shall
5 provide access to JASON to materials relevant to the serv-
6 ices covered by this section, consistent with the protection
7 of sources and methods and other critically sensitive infor-
8 mation.

9 (e) CLEARANCES.—The Secretary of Defense shall
10 ensure that appropriate members and staff of JASON
11 have the necessary clearances, obtained in an expedited
12 manner, to conduct the services covered by this section.

13 (f) REPORT.—Not later than October 1, 2020, the
14 Secretary of Defense shall submit to the congressional de-
15 fense committees a report on the results of the assessment
16 carried out under subsection (a), including—

17 (1) the results of the assessment with respect to
18 each element described in subsection (b);

19 (2) the recommendations developed by JASON
20 pursuant to such subsection.

21 (g) RELATIONSHIP TO OTHER LAW.—The assess-
22 ment required under subsection (a) is separate and inde-
23 pendent from the assessment described in section 255 of
24 the John S. McCain National Defense Authorization Act
25 for Fiscal Year 2019 (Public Law 115–232; 132 Stat.

1 1705) and shall be carried out without regard to any
2 agreement entered into under that section or the results
3 of any assessment conducted pursuant to such agreement.

4 **SEC. 266. TECHNICAL CORRECTION TO GLOBAL RESEARCH**
5 **WATCH PROGRAM.**

6 Section 2365 of title 10, United States Code, is
7 amended—

8 (1) in subsections (a) and (d)(2), by striking
9 “Assistant Secretary of Defense for Research and
10 Engineering” both places it appears and inserting
11 “Under Secretary of Defense for Research and En-
12 gineering”;

13 (2) in subsections (d)(3) and (e), by striking
14 “Assistant Secretary” both places it appears and in-
15 serting “Under Secretary of Defense for Research
16 and Engineering”; and

17 (3) in subsection (d), by striking “Assistant
18 Secretary” both places it appears and inserting
19 “Under Secretary”.

20 **TITLE III—OPERATION AND**
21 **MAINTENANCE**

Subtitle A—Authorization of Appropriations

Sec. 301. Authorization of appropriations.

Subtitle B—Energy and Environment

Sec. 311. Timeline for Clearinghouse review of applications for energy projects
that may have an adverse impact on military operations and
readiness.

- Sec. 312. Authority to accept contributions of funds from applicants for energy projects for mitigation of impacts on military operations and readiness.
- Sec. 313. Use of proceeds from sale of recyclable materials.
- Sec. 314. Disposal of recyclable materials.
- Sec. 315. Department of Defense improvement of previously conveyed utility systems serving military installations.
- Sec. 316. Modification of Department of Defense environmental restoration authorities to include Federal Government facilities used by National Guard.
- Sec. 317. Use of operational energy cost savings of Department of Defense.
- Sec. 318. Sale of electricity from alternate energy and cogeneration production facilities.
- Sec. 319. Energy resilience programs and activities.
- Sec. 320. Technical and grammatical corrections and repeal of obsolete provisions relating to energy.
- Sec. 321. Transfer authority for funding of study and assessment on health implications of per- and polyfluoroalkyl substances contamination in drinking water by Agency for Toxic Substances and Disease Registry.
- Sec. 322. Replacement of fluorinated aqueous film-forming foam with fluorine-free fire-fighting agent.
- Sec. 323. Prohibition of uncontrolled release of fluorinated aqueous film-forming foam at military installations.
- Sec. 324. Prohibition on use of fluorinated aqueous film forming foam for training exercises.
- Sec. 325. Real-time sound-monitoring at Navy installations where tactical fighter aircraft operate.
- Sec. 326. Development of extreme weather vulnerability and risk assessment tool.
- Sec. 327. Removal of barriers that discourage investments to increase military installation resilience.
- Sec. 328. Budgeting of Department of Defense relating to extreme weather.
- Sec. 329. Prohibition on Perfluoroalkyl Substances and Polyfluoroalkyl Substances in Meals Ready-to-Eat Food Packaging.
- Sec. 330. Disposal of materials containing per- and polyfluoroalkyl substances or aqueous film-forming foam.
- Sec. 331. Agreements to share monitoring data relating to perfluoroalkyl and polyfluoroalkyl substances and other contaminants of concern.
- Sec. 332. Cooperative agreements with States to address contamination by perfluoroalkyl and polyfluoroalkyl substances.
- Sec. 333. Plan to phase out use of burn pits.
- Sec. 334. Information relating to locations of burn pit use.
- Sec. 335. Data quality review of radium testing conducted at certain locations of the Department of the Navy.
- Sec. 336. Reimbursement of Environmental Protection Agency for certain costs in connection with the Twin Cities Army Ammunition Plant, Minnesota.
- Sec. 337. Pilot program for availability of working-capital funds for increased combat capability through energy optimization.
- Sec. 338. Report on efforts to reduce high energy intensity at military installations.

Subtitle C—Treatment of Contaminated Water Near Military Installations

- Sec. 341. Short title.
- Sec. 342. Definitions.
- Sec. 343. Provision of water uncontaminated with perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS) for agricultural purposes.
- Sec. 344. Acquisition of real property by Air Force.
- Sec. 345. Remediation plan.

Subtitle D—Logistics and Sustainment

- Sec. 351. Materiel readiness metrics and objectives.
- Sec. 352. Clarification of authority regarding use of working-capital funds for unspecified minor military construction projects related to revitalization and recapitalization of defense industrial base facilities.
- Sec. 353. Modification to limitation on length of overseas forward deployment of naval vessels.
- Sec. 354. Extension of temporary installation reutilization authority for arsenals, depots, and plants.
- Sec. 355. F-35 Joint Strike Fighter sustainment.
- Sec. 356. Report on strategic policy for prepositioned materiel and equipment.
- Sec. 357. Pilot program to train skilled technicians in critical shipbuilding skills.
- Sec. 358. Requirement for military department inter-service depot maintenance.
- Sec. 359. Strategy to improve infrastructure of certain depots of the Department of Defense.

Subtitle E—Reports

- Sec. 361. Readiness reporting.
- Sec. 362. Technical correction to deadline for transition to Defense Readiness Reporting System Strategic.
- Sec. 363. Report on Navy ship depot maintenance budget.
- Sec. 364. Report on Runit Dome.
- Sec. 365. Prohibition on subjective upgrades by commanders of unit ratings in monthly readiness reporting on military units.
- Sec. 366. Requirement to include foreign language proficiency in readiness reporting systems of Department of Defense.

Subtitle F—Other Matters

- Sec. 371. Prevention of encroachment on military training routes and military operations areas.
- Sec. 372. Expansion and enhancement of authorities on transfer and adoption of military animals.
- Sec. 373. Extension of authority for Secretary of Defense to use Department of Defense reimbursement rate for transportation services provided to certain non-Department of Defense entities.
- Sec. 374. Extension of authority of Secretary of Transportation to issue non-premium aviation insurance.
- Sec. 375. Defense personal property program.
- Sec. 376. Public events about Red Hill Bulk Fuel Storage Facility.
- Sec. 377. Sense of Congress regarding Innovative Readiness Training program.
- Sec. 378. Detonation chambers for explosive ordnance disposal.

1 **Subtitle A—Authorization of**
2 **Appropriations**

3 **SEC. 301. AUTHORIZATION OF APPROPRIATIONS.**

4 Funds are hereby authorized to be appropriated for
5 fiscal year 2020 for the use of the Armed Forces and other
6 activities and agencies of the Department of Defense for
7 expenses, not otherwise provided for, for operation and
8 maintenance, as specified in the funding table in section
9 4301.

10 **Subtitle B—Energy and**
11 **Environment**

12 **SEC. 311. TIMELINE FOR CLEARINGHOUSE REVIEW OF AP-**
13 **PLICATIONS FOR ENERGY PROJECTS THAT**
14 **MAY HAVE AN ADVERSE IMPACT ON MILI-**
15 **TARY OPERATIONS AND READINESS.**

16 Section 183a(c)(1) of title 10, United States Code,
17 is amended by striking “60 days” and inserting “75
18 days”.

19 **SEC. 312. AUTHORITY TO ACCEPT CONTRIBUTIONS OF**
20 **FUNDS FROM APPLICANTS FOR ENERGY**
21 **PROJECTS FOR MITIGATION OF IMPACTS ON**
22 **MILITARY OPERATIONS AND READINESS.**

23 Section 183a(f) of title 10, United States Code, is
24 amended by striking “for a project filed with the Secretary

1 of Transportation pursuant to section 44718 of title 49”
2 and inserting “for an energy project”.

3 **SEC. 313. USE OF PROCEEDS FROM SALE OF RECYCLABLE**
4 **MATERIALS.**

5 Section 2577(c) of title 10, United States Code, is
6 amended by striking “\$2,000,000” and inserting
7 “\$10,000,000”.

8 **SEC. 314. DISPOSAL OF RECYCLABLE MATERIALS.**

9 Section 2577(a) of title 10, United States Code, is
10 amended by adding at the end the following new para-
11 graph:

12 “(3) In this section, the term ‘recyclable materials’
13 may include any quality recyclable material provided to
14 the Department by a State or local government entity, if
15 such material is authorized by the Office of the Secretary
16 of Defense and identified in the regulations prescribed
17 under paragraph (1).”.

18 **SEC. 315. DEPARTMENT OF DEFENSE IMPROVEMENT OF**
19 **PREVIOUSLY CONVEYED UTILITY SYSTEMS**
20 **SERVING MILITARY INSTALLATIONS.**

21 Section 2688 of title 10, United States Code, is
22 amended—

23 (1) by redesignating subsection (k) as sub-
24 section (l); and

1 (2) by inserting after subsection (j) the fol-
2 lowing new subsection (k):

3 “(k) IMPROVEMENT OF CONVEYED UTILITY SYS-
4 TEMS.—In the case of a utility system that is conveyed
5 under this section and that only provides utility services
6 to a military installation, the Secretary concerned may use
7 amounts authorized to be appropriated for military con-
8 struction to improve the reliability, resilience, efficiency,
9 physical security, or cybersecurity of the utility system.”.

10 **SEC. 316. MODIFICATION OF DEPARTMENT OF DEFENSE**
11 **ENVIRONMENTAL RESTORATION AUTHORI-**
12 **TIES TO INCLUDE FEDERAL GOVERNMENT**
13 **FACILITIES USED BY NATIONAL GUARD.**

14 (a) IN GENERAL.—Section 2707 of title 10, United
15 States Code, is amended by adding at the end the fol-
16 lowing new subsection:

17 “(e) AUTHORITY FOR NATIONAL GUARD
18 PROJECTS.—Notwithstanding subsection (a) of this sec-
19 tion and section 2701(c)(1) of this title, the Secretary con-
20 cerned may use funds described in subsection (c) to carry
21 out an environmental restoration project at a facility in
22 response to perfluorooctanoic acid or perfluorooctane
23 sulfonate contamination under this chapter or
24 CERCLA.”.

1 (b) DEFINITION OF FACILITY.—Section 2700(2) of
2 such title is amended—

3 (1) by striking “The terms” and inserting “(A)
4 The terms”; and

5 (2) by adding at the end the following new sub-
6 paragraph:

7 “(B) The term ‘facility’ includes real property
8 that is owned by, leased to, or otherwise possessed
9 by the United States at locations at which military
10 activities are conducted under this title or title 32
11 (including real property owned or leased by the Fed-
12 eral Government that is licensed to and operated by
13 a State for training for the National Guard).”.

14 (c) INCLUSION OF POLLUTANTS AND CONTAMINANTS
15 IN ENVIRONMENTAL RESPONSE ACTIONS.—Section
16 2701(c) of such title is amended by inserting “or pollut-
17 ants or contaminants” after “hazardous substances” each
18 place it appears.

19 (d) SAVINGS CLAUSE.—Nothing in this section, or
20 the amendments made by this section, shall affect any re-
21 quirement or authority under the Comprehensive Environ-
22 mental Response, Compensation, and Liability Act of
23 1980 (42 U.S.C. 9601 et seq.).

1 **SEC. 317. USE OF OPERATIONAL ENERGY COST SAVINGS OF**
2 **DEPARTMENT OF DEFENSE.**

3 Section 2912 of title 10, United States Code, is
4 amended—

5 (1) in subsection (a), by striking “subsection
6 (b)” and inserting “subsection (b) or (c), as the case
7 may be,”;

8 (2) in subsection (b), in the matter preceding
9 paragraph (1), by striking “The Secretary of De-
10 fense” and inserting “Except as provided in sub-
11 section (c) with respect to operational energy cost
12 savings, the Secretary of Defense”;

13 (3) by redesignating subsection (c) as sub-
14 section (d); and

15 (4) by inserting after subsection (b) the fol-
16 lowing new subsection (c):

17 “(c) USE OF OPERATIONAL ENERGY COST SAV-
18 INGS.—The amount that remains available for obligation
19 under subsection (a) that relates to operational energy
20 cost savings realized by the Department shall be used for
21 the implementation of additional operational energy resil-
22 ience, efficiencies, mission assurance, energy conservation,
23 or energy security within the department, agency, or in-
24 strumentality that realized that savings.”.

1 **SEC. 318. SALE OF ELECTRICITY FROM ALTERNATE EN-**
2 **ERGY AND COGENERATION PRODUCTION FA-**
3 **CILITIES.**

4 Section 2916(b)(3)(B) of title 10, United States
5 Code, is amended—

6 (1) by striking “shall be available” and all that
7 follows and inserting “shall be provided directly to
8 the commander of the military installation in which
9 the geothermal energy resource is located to be used
10 for—”; and

11 (2) by adding at the end the following new
12 clauses:

13 “(i) military construction projects de-
14 scribed in paragraph (2) that benefit the mili-
15 tary installation where the geothermal energy
16 resource is located; or

17 “(ii) energy or water security projects
18 that—

19 “(I) benefit the military installation
20 where the geothermal energy resource is lo-
21 cated;

22 “(II) the commander of the military
23 installation determines are necessary; and

24 “(III) are directly coordinated with
25 local area energy or groundwater governing
26 authorities.”.

1 **SEC. 319. ENERGY RESILIENCE PROGRAMS AND ACTIVI-**
2 **TIES.**

3 (a) **MODIFICATION OF ANNUAL ENERGY MANAGE-**
4 **MENT AND RESILIENCE REPORT.**—Section 2925(a) of
5 title 10, United States Code, is amended—

6 (1) in the subsection heading, by inserting
7 “AND READINESS” after “MISSION ASSURANCE”;

8 (2) in the matter preceding paragraph (1), by
9 inserting “The Secretary shall ensure that mission
10 operators of critical facilities provide to personnel of
11 military installations any information necessary for
12 the completion of such report.” after “by the Sec-
13 retary.”;

14 (3) in paragraph (4), in the matter preceding
15 subparagraph (A), by striking “megawatts” and in-
16 serting “electric and thermal loads”; and

17 (4) in paragraph (5), by striking “megawatts”
18 and inserting “electric and thermal loads”.

19 (b) **FUNDING FOR ENERGY PROGRAM OFFICES.**—

20 (1) **IN GENERAL.**—Not later than 180 days
21 after the date of the enactment of this Act, the Sec-
22 retaries of the military departments shall submit to
23 the congressional defense committees a report stat-
24 ing whether the program offices specified in para-
25 graph (2) are funded—

1 (A) at proper levels to ensure that the en-
2 ergy resilience requirements of the Department
3 of Defense are met; and

4 (B) at levels that are not less than in any
5 previous fiscal year.

6 (2) PROGRAM OFFICES SPECIFIED.—The pro-
7 gram offices specified in this paragraph are the fol-
8 lowing:

9 (A) The Power Reliability Enhancement
10 Program of the Army.

11 (B) The Office of Energy Initiatives of the
12 Army.

13 (C) The Office of Energy Assurance of the
14 Air Force.

15 (D) The Resilient Energy Program Office
16 of the Navy.

17 (3) FUNDING PLAN.—

18 (A) IN GENERAL.—The Secretaries of the
19 military departments shall include in the report
20 submitted under paragraph (1) a funding plan
21 for the next five fiscal years beginning after the
22 date of the enactment of this Act to ensure that
23 funding levels are, at a minimum, maintained
24 during that period.

1 (B) ELEMENTS.—The funding plan under
2 subparagraph (A) shall include, for each fiscal
3 year covered by the plan, an identification of
4 the amounts to be used for the accomplishment
5 of energy resilience goals and objectives.

6 (c) ESTABLISHMENT OF TARGETS FOR WATER
7 USE.—The Secretary of Defense shall, where life-cycle
8 cost-effective, improve water use efficiency and manage-
9 ment by the Department of Defense, including storm
10 water management, by—

11 (1) installing water meters and collecting and
12 using water balance data of buildings and facilities
13 to improve water conservation and management;

14 (2) reducing industrial, landscaping, and agri-
15 cultural water consumption in gallons by two percent
16 annually through fiscal year 2030 relative to a base-
17 line of such consumption by the Department in fiscal
18 year 2010; and

19 (3) installing appropriate sustainable infra-
20 structure features on installations of the Depart-
21 ment to help with storm water and wastewater man-
22 agement.

1 **SEC. 320. TECHNICAL AND GRAMMATICAL CORRECTIONS**
2 **AND REPEAL OF OBSOLETE PROVISIONS RE-**
3 **LATING TO ENERGY.**

4 (a) TECHNICAL AND GRAMMATICAL CORRECTIONS.—

5 (1) TECHNICAL CORRECTIONS.—Title 10,
6 United States Code, is amended—

7 (A) in section 2913(c), by striking “gov-
8 ernment” and inserting “government or”; and

9 (B) in section 2926(d)(1), in the second
10 sentence, by striking “Defense Agencies” and
11 inserting “the Defense Agencies”.

12 (2) GRAMMATICAL CORRECTIONS.—Such title is
13 further amended—

14 (A) in section 2922a(d), by striking “resil-
15 ience are prioritized and included” and insert-
16 ing “energy resilience are included as critical
17 factors”; and

18 (B) in section 2925(a)(3), by striking “im-
19 pacting energy” and all that follows through
20 the period at the end and inserting “degrading
21 energy resilience at military installations (ex-
22 cluding planned outages for maintenance rea-
23 sons), whether caused by on- or off-installation
24 disruptions, including the total number of out-
25 ages and their locations, the duration of each
26 outage, the financial effect of each outage,

1 whether or not the mission was affected, the
2 downtimes (in minutes or hours) the mission
3 can afford based on mission requirements and
4 risk tolerances, the responsible authority man-
5 aging the utility, and measures taken to miti-
6 gate the outage by the responsible authority.”.

7 (b) CLARIFICATION OF APPLICABILITY OF CON-
8 FLICTING AMENDMENTS MADE BY 2018 DEFENSE AU-
9 THORIZATION ACT.—Section 2911(e) of such title is
10 amended—

11 (1) by striking paragraphs (1) and (2) and in-
12 serting the following new paragraphs:

13 “(1) Opportunities to reduce the current rate of
14 consumption of energy, the future demand for en-
15 ergy, and the requirement for the use of energy.

16 “(2) Opportunities to enhance energy resilience
17 to ensure the Department of Defense has the ability
18 to prepare for and recover from energy disruptions
19 that affect mission assurance on military installa-
20 tions.”; and

21 (2) by striking the second paragraph (13).

22 (c) CONFORMING AND CLERICAL AMENDMENTS.—

23 (1) HEADING AMENDMENT.—The heading of
24 section 2926 of such title is amended to read as fol-
25 lows:

1 **“§ 2926. Operational energy”.**

2 (2) CLERICAL AMENDMENT.—The table of sec-
3 tions at the beginning of chapter 173 of such title
4 is amended by striking the item relating to section
5 2926 and inserting the following new item:

“2926. Operational energy.”.

6 **SEC. 321. TRANSFER AUTHORITY FOR FUNDING OF STUDY**
7 **AND ASSESSMENT ON HEALTH IMPLICATIONS**
8 **OF PER- AND POLYFLUOROALKYL SUB-**
9 **STANCES CONTAMINATION IN DRINKING**
10 **WATER BY AGENCY FOR TOXIC SUBSTANCES**
11 **AND DISEASE REGISTRY.**

12 Section 316(a)(2)(B)(ii) of the National Defense Au-
13 thorization Act for Fiscal Year 2018 (Public Law 115–
14 91; 131 Stat. 1350), as amended by section 315(a) of the
15 John S. McCain National Defense Authorization Act for
16 Fiscal Year 2019 (Public Law 115–232), is amended by
17 striking “2019 and 2020” and inserting “2019, 2020, and
18 2021”.

19 **SEC. 322. REPLACEMENT OF FLUORINATED AQUEOUS**
20 **FILM-FORMING FOAM WITH FLUORINE-FREE**
21 **FIRE-FIGHTING AGENT.**

22 (a) USE OF FLUORINE-FREE FOAM AT MILITARY IN-
23 STALLATIONS.—

24 (1) MILITARY SPECIFICATION.—Not later than
25 January 31, 2023, the Secretary of the Navy shall

1 publish a military specification for a fluorine-free
2 fire-fighting agent for use at all military installa-
3 tions and ensure that such agent is available for use
4 by not later than October 1, 2023.

5 (2) REPORT TO CONGRESS.—Concurrent with
6 publication of the military specification under para-
7 graph (1), the Secretary of Defense shall submit to
8 the congressional defense committees a report con-
9 taining a detailed plan for implementing the transi-
10 tion to a fluorine-free fire-fighting agent by not later
11 than October 1, 2023. The report shall include—

12 (A) a detailed description of the progress
13 of the Department of Defense to identify a fluo-
14 rine-free fire-fighting agent for use as a re-
15 placement fire-fighting agent at military instal-
16 lations;

17 (B) a description of any technology and
18 equipment required to implement the replace-
19 ment fire-fighting agent;

20 (C) funding requirements, by fiscal year, to
21 implement the replacement fire-fighting agent,
22 including funding for the procurement of a re-
23 placement fire-fighting agent, required equip-
24 ment, and infrastructure improvements;

1 (D) a detailed timeline of remaining re-
2 quired actions to implement such replacement.

3 (b) LIMITATION.—No amount authorized to be ap-
4 propriated or otherwise made available for the Depart-
5 ment of Defense may be obligated or expended after Octo-
6 ber 1, 2023, to procure fire-fighting foam that contains
7 in excess of one part per billion of perfluoroalkyl sub-
8 stances and polyfluoroalkyl substances.

9 (c) PROHIBITION ON USE.—Fluorinated aqueous
10 film-forming foam may not be used at any military instal-
11 lation on or after the earlier of the following dates:

12 (1) October 1, 2024.

13 (2) The date on which the Secretary determines
14 that compliance with the prohibition under this sub-
15 section is possible.

16 (d) EXEMPTION FOR SHIPBOARD USE.—Subsections
17 (b) and (c) shall not apply to firefighting foam for use
18 solely onboard ocean-going vessels.

19 (e) WAIVER.—

20 (1) IN GENERAL.—Subject to the limitations
21 under paragraph (2), the Secretary of Defense may
22 waive the prohibition under subsection (c) with re-
23 spect to the use of fluorinated aqueous film-forming
24 foam, if, by not later than 60 days prior to issuing
25 the waiver, the Secretary—

1 (A) provides to the congressional defense
2 committees a briefing on the basis for the waiv-
3 er and the progress to develop and field a fluo-
4 rine-free fire-fighting agent that meets the mili-
5 tary specifications issued pursuant to sub-
6 section (a), which includes—

7 (i) detailed data on the progress made
8 to identify a replacement fluorine-free fire-
9 fighting agent;

10 (ii) a description of the range of tech-
11 nology and equipment-based solutions ana-
12 lyzed to implement replacement;

13 (iii) a description of the funding, by
14 fiscal year, applied towards research, devel-
15 opment, test, and evaluation of replace-
16 ment firefighting agents and equipment-
17 based solutions;

18 (iv) a description of any completed
19 and projected infrastructure changes;

20 (v) a description of acquisition actions
21 made in support of developing and fielding
22 the fluorine-free fire-fighting agent;

23 (vi) an updated timeline for the com-
24 pletion of the transition to use of the fluo-
25 rine-free fire-fighting agent; and

1 (vii) a list of the categories of installa-
2 tion infrastructure or specific mobile fire-
3 fighting equipment sets that require the
4 waiver along with the justification;

5 (B) submits to the congressional defense
6 committees certification in writing, that—

7 (i) the waiver is necessary for either
8 installation infrastructure, mobile fire-
9 fighting equipment, or both;

10 (ii) the waiver is necessary for the
11 protection of life and safety;

12 (iii) no agent or equipment solutions
13 are available that meet the military specific
14 issued pursuant to subsection (a);

15 (iv) the military specification issued
16 pursuant to subsection (a) is still valid and
17 does not require revision; and

18 (v) includes details of the measures in
19 place to minimize the release of and expo-
20 sure to fluorinated compounds in
21 fluorinated aqueous film-forming foam;
22 and

23 (C) provides for public notice of the waiv-
24 er.

1 (2) LIMITATION.—The following limitations
2 apply to a waiver issued under this subsection:

3 (A) Such a waiver shall apply for a period
4 that does not exceed one year.

5 (B) The Secretary may extend such a
6 waiver once for an additional period that does
7 not exceed one year, if the requirements under
8 paragraph (1) are met as of the date of the ex-
9 tension of the waiver.

10 (C) The authority to grant a waiver under
11 this subsection may not be delegated below the
12 level of the Secretary of Defense.

13 (f) DEFINITIONS.—In this section:

14 (1) The term “perfluoroalkyl substances”
15 means aliphatic substances for which all of the H
16 atoms attached to C atoms in the nonfluorinated
17 substance from which they are notionally derived
18 have been replaced by F atoms, except those H
19 atoms whose substitution would modify the nature of
20 any functional groups present.

21 (2) The term “polyfluoroalkyl substances”
22 means aliphatic substances for which all H atoms
23 attached to at least one (but not all) C atoms have
24 been replaced by F atoms, in such a manner that

1 they contain the perfluoroalkyl moiety C_nF_{2n+1} __
2 (for example, $C_8F_{17}CH_2CH_2OH$).

3 **SEC. 323. PROHIBITION OF UNCONTROLLED RELEASE OF**
4 **FLUORINATED AQUEOUS FILM-FORMING**
5 **FOAM AT MILITARY INSTALLATIONS.**

6 (a) PROHIBITION.—Except as provided by subsection
7 (b), the Secretary of Defense shall prohibit the uncon-
8 trolled release of fluorinated aqueous film-forming foam
9 (hereinafter in this section referred to as “AFFF”) at
10 military installations.

11 (b) EXCEPTIONS.—Notwithstanding subsection (a),
12 fluorinated AFFF may be released at military installa-
13 tions as follows:

14 (1) AFFF may be released for purposes of an
15 emergency response.

16 (2) A non-emergency release of AFFF may be
17 made for the purposes of testing of equipment or
18 training of personnel, if complete containment, cap-
19 ture, and proper disposal mechanisms are in place to
20 ensure no AFFF is released into the environment.

1 **SEC. 324. PROHIBITION ON USE OF FLUORINATED AQUE-**
2 **OUS FILM FORMING FOAM FOR TRAINING EX-**
3 **ERCISES.**

4 The Secretary of Defense shall prohibit the use of
5 fluorinated aqueous film forming foam for training exer-
6 cises at military installations.

7 **SEC. 325. REAL-TIME SOUND-MONITORING AT NAVY IN-**
8 **STALLATIONS WHERE TACTICAL FIGHTER**
9 **AIRCRAFT OPERATE.**

10 (a) MONITORING.—The Secretary of the Navy shall
11 conduct real-time sound-monitoring at no fewer than two
12 Navy installations and their associated outlying landing
13 fields on the west coast of the United States where Navy
14 combat coded F/A-18, E/A-18G, or F-35 aircraft are
15 based and operate and noise contours have been developed
16 through noise modeling. Sound monitoring under such
17 study shall be conducted—

18 (1) during times of high, medium, and low ac-
19 tivity over the course of a 12-month period; and

20 (2) along and in the vicinity of flight paths used
21 to approach and depart the selected installations and
22 their outlying landing fields.

23 (b) PLAN FOR ADDITIONAL MONITORING.—Not later
24 than 90 days after the date of the enactment of this Act,
25 the Secretary of the Navy shall submit to the congres-
26 sional defense committees a plan for real-time sound moni-

1 toring described in subsection (a) in the vicinity of train-
2 ing areas predominantly overflowed by tactical fighter air-
3 craft from the selected installations and outlying landing
4 fields, including training areas that consist of real prop-
5 erty administered by the Federal Government (including
6 Department of Defense, Department of Interior, and De-
7 partment of Agriculture), State and local governments,
8 and privately owned land with the permission of the
9 owner.

10 (c) REPORT REQUIRED.—Not later than December
11 1, 2020, the Secretary of the Navy shall submit to the
12 congressional defense committees a report on the moni-
13 toring required under subsection (a). Such report shall in-
14 clude—

15 (1) the results of such monitoring;

16 (2) a comparison of such monitoring and the
17 noise contours previously developed with the analysis
18 and modeling methods previously used;

19 (3) an overview of any changes to the analysis
20 and modeling process that have been made or are
21 being considered as a result of the findings of such
22 monitoring; and

23 (4) any other matters that the Secretary deter-
24 mines appropriate.

1 (d) PUBLIC AVAILABILITY OF MONITORING RE-
2 SULTS.—The Secretary shall make the results of the moni-
3 toring required under subsection (a) publicly available on
4 a website of the Department of Defense.

5 **SEC. 326. DEVELOPMENT OF EXTREME WEATHER VULNER-**
6 **ABILITY AND RISK ASSESSMENT TOOL.**

7 (a) IN GENERAL.—The Secretary of Defense shall
8 consult with the entities described in subsection (b) to de-
9 termine whether an existing climate vulnerability and risk
10 assessment tool is available or can be adapted to be used
11 to quantify the risks associated with extreme weather
12 events and the impact of such events on networks, sys-
13 tems, installations, facilities, and other assets to inform
14 mitigation planning and infrastructure development.

15 (b) CONSULTATION.—In determining the availability
16 of an appropriate tool to use or adapt for use under sub-
17 section (a), the Secretary shall consult with the Adminis-
18 trator of the Environmental Protection Agency, the Sec-
19 retary of Energy, the Secretary of the Interior, the Admin-
20 istrator of the National Oceanic and Atmospheric Admin-
21 istration, the Administrator of the Federal Emergency
22 Management Agency, the Commander of the Army Corps
23 of Engineers, the Administrator of the National Aero-
24 nautics and Space Administration, a federally funded re-
25 search and development center, and the heads of such

1 other relevant Federal agencies as the Secretary of De-
2 fense determines appropriate.

3 (c) BEST AVAILABLE SCIENCE.—Before choosing a
4 tool for use or adaptation for use under subsection (a),
5 the Secretary shall obtain from a federally funded research
6 and development center with which the Secretary has con-
7 sulted under subsection (b) a certification in writing that
8 the tool relies on the best publicly available science for
9 the prediction of extreme weather risk and effective miti-
10 gation of that risk.

11 (d) REPORT.—Not later than one year after the date
12 of the enactment of this Act, the Secretary shall submit
13 to the congressional defense committees a report on the
14 implementation of this section. Such report shall include—

15 (1) in the case that a tool has been chosen
16 under subsection (a) before the date of the submittal
17 of the report, a description of the tool and how such
18 tool will be used by the Department; or

19 (2) in the case that the Secretary determines
20 that no available tool meets the requirements of the
21 Department as described in subsection (a) or is
22 readily adaptable for use, a plan for the development
23 of such a tool, including the estimated cost and
24 timeframe for development of such a tool.

1 **SEC. 327. REMOVAL OF BARRIERS THAT DISCOURAGE IN-**
2 **VESTMENTS TO INCREASE MILITARY INSTAL-**
3 **LATION RESILIENCE.**

4 (a) IN GENERAL.—The Secretary of Defense shall—

5 (1) identify and seek to remove barriers that
6 discourage investments to increase military installa-
7 tion resilience;

8 (2) reform policies and programs that uninten-
9 tionally increased the vulnerability of systems to re-
10 lated extreme weather events; and

11 (3) develop, and update at least once every four
12 years, an adaptation plan to assess how climate im-
13 pacts affected the ability of the Department of De-
14 fense to accomplish its mission, and the short-and
15 long- term actions the Department can take to en-
16 sure military installation resilience.

17 (b) MILITARY INSTALLATION RESILIENCE.—In this
18 section, the term “military installation resilience” has the
19 meaning given such term in section 101(e)(8) of title 10,
20 United States Code.

21 **SEC. 328. BUDGETING OF DEPARTMENT OF DEFENSE RE-**
22 **LATING TO EXTREME WEATHER.**

23 (a) IN GENERAL.—The Secretary of Defense shall in-
24 clude in the annual budget submission of the President
25 under section 1105(a) of title 31, United States Code—

1 (1) a dedicated budget line item for adaptation
2 to, and mitigation of, effects of extreme weather on
3 military networks, systems, installations, facilities,
4 and other assets and capabilities of the Department
5 of Defense; and

6 (2) an estimate of the anticipated adverse im-
7 pacts to the readiness of the Department and the fi-
8 nancial costs to the Department during the year cov-
9 ered by the budget of the loss of, or damage to, mili-
10 tary networks, systems, installations, facilities, and
11 other assets and capabilities of the Department, in-
12 cluding loss of or obstructed access to training
13 ranges, as a result extreme weather events.

14 (b) DISAGGREGATION OF IMPACTS AND COSTS.—The
15 estimate under subsection (a)(2) shall set forth the ad-
16 verse readiness impacts and financial costs under that
17 subsection by military department, Defense Agency, and
18 other component or element of the Department.

19 (c) EXTREME WEATHER DEFINED.—In this section,
20 the term “extreme weather” means recurrent flooding,
21 drought, desertification, wildfires, and thawing perma-
22 frost.

1 **SEC. 329. PROHIBITION ON PERFLUOROALKYL SUB-**
2 **STANCES AND POLYFLUOROALKYL SUB-**
3 **STANCES IN MEALS READY-TO-EAT FOOD**
4 **PACKAGING.**

5 (a) PROHIBITION.—Not later than October 1, 2021,
6 the Director of the Defense Logistics Agency shall ensure
7 that any food contact substances that are used to assemble
8 and package meals ready-to-eat (MREs) procured by the
9 Defense Logistics Agency do not contain any
10 perfluoroalkyl substances or polyfluoroalkyl substances.

11 (b) DEFINITIONS.—In this section:

12 (1) PERFLUOROALKYL SUBSTANCE.—The term
13 “perfluoroalkyl substance” means a man-made
14 chemical of which all of the carbon atoms are fully
15 fluorinated carbon atoms.

16 (2) POLYFLUOROALKYL SUBSTANCE.—The
17 term “polyfluoroalkyl substance” means a man-made
18 chemical containing a mix of fully fluorinated carbon
19 atoms, partially fluorinated carbon atoms, and
20 nonfluorinated carbon atoms.

21 **SEC. 330. DISPOSAL OF MATERIALS CONTAINING PER- AND**
22 **POLYFLUOROALKYL SUBSTANCES OR AQUE-**
23 **OUS FILM-FORMING FOAM.**

24 (a) IN GENERAL.—The Secretary of Defense shall
25 ensure that when materials containing per- and
26 polyfluoroalkyl substances (referred to in this section as

1 “PFAS”) or aqueous film forming foam (referred to in
2 this section as “AFFF”) are disposed—

3 (1) all incineration is conducted at a tempera-
4 ture range adequate to break down PFAS chemicals
5 while also ensuring the maximum degree of reduc-
6 tion in emission of PFAS, including elimination of
7 such emissions where achievable;

8 (2) all incineration is conducted in accordance
9 with the requirements of the Clean Air Act (42 USC
10 7401 et seq.), including controlling hydrogen fluo-
11 ride;

12 (3) any materials containing PFAS that are
13 designated for disposal are stored in accordance with
14 the requirement under part 264 of title 40, Code of
15 Federal Regulations; and

16 (4) all incineration is conducted at a facility
17 that has been permitted to receive waste regulated
18 under subtitle C of the Solid Waste Disposal Act (42
19 USC 6921 et seq.).

20 (b) SCOPE OF APPLICATION.—The requirements in
21 subsection (a) only apply to all legacy AFFF formulations
22 containing PFAS, materials contaminated by AFFF re-
23 lease, and spent filters or other PFAS contaminated mate-
24 rials resulting from site remediation or water filtration
25 that—

1 (1) have been used by the Department of De-
2 fense or a military department; or

3 (2) are being discarded for disposal by means
4 of incineration by the Department of Defense or a
5 military department; or

6 (3) are being removed from sites or facilities
7 owned or operated by the Department of Defense.

8 **SEC. 331. AGREEMENTS TO SHARE MONITORING DATA RE-**
9 **LATING TO PERFLUOROALKYL AND**
10 **POLYFLUOROALKYL SUBSTANCES AND**
11 **OTHER CONTAMINANTS OF CONCERN.**

12 (a) IN GENERAL.—The Secretary of Defense shall
13 seek to enter into agreements with municipalities or mu-
14 nicipal drinking water utilities located adjacent to military
15 installations under which both the Secretary and the mu-
16 nicipalities and utilities would share monitoring data relat-
17 ing to perfluoroalkyl substances, polyfluoroalkyl sub-
18 stances, and other emerging contaminants of concern col-
19 lected at the military installation.

20 (b) PUBLICLY AVAILABLE WEBSITE.—The Secretary
21 of Defense shall maintain a publicly available website that
22 provides a clearinghouse for information about the expo-
23 sure of members of the Armed Forces, their families, and
24 their communities to per- and polyfluoroalkyl substances.
25 The information provided on the website shall include in-

1 formation on testing, clean-up, and recommended avail-
2 able treatment methodologies.

3 (c) PUBLIC COMMUNICATION.—An agreement under
4 subsection (a) does not negate the responsibility of the
5 Secretary to communicate with the public about drinking
6 water contamination from perfluoroalkyl substances,
7 polyfluoroalkyl substances, and other contaminants.

8 (d) MILITARY INSTALLATION DEFINED.—In this sec-
9 tion, the term “military installation” has the meaning
10 given that term in section 2801(c) of title 10, United
11 States Code.

12 **SEC. 332. COOPERATIVE AGREEMENTS WITH STATES TO**
13 **ADDRESS CONTAMINATION BY**
14 **PERFLUOROALKYL AND POLYFLUOROALKYL**
15 **SUBSTANCES.**

16 (a) COOPERATIVE AGREEMENTS.—

17 (1) IN GENERAL.—Upon request from the Gov-
18 ernor or chief executive of a State, the Secretary of
19 Defense shall work expeditiously, pursuant to section
20 2701(d) of title 10, United States Code, to finalize
21 a cooperative agreement, or amend an existing coop-
22 erative agreement to address testing, monitoring, re-
23 moval, and remedial actions relating to the contami-
24 nation or suspected contamination of drinking, sur-
25 face, or ground water from PFAS originating from

1 activities of the Department of Defense by providing
2 the mechanism and funding for the expedited review
3 and approval of documents of the Department re-
4 lated to PFAS investigations and remedial actions
5 from an active or decommissioned military installa-
6 tion, including a facility of the National Guard.

7 (2) MINIMUM STANDARDS.—A cooperative
8 agreement finalized or amended under paragraph
9 (1) shall meet or exceed the most stringent of the
10 following standards for PFAS in any environmental
11 media:

12 (A) An enforceable State standard, in ef-
13 fect in that State, for drinking, surface, or
14 ground water, as described in section
15 121(d)(2)(A)(ii) of the Comprehensive Environ-
16 mental Response, Compensation, and Liability
17 Act of 1980 (42 U.S.C. 9621(d)(2)(A)(ii)).

18 (B) An enforceable Federal standard for
19 drinking, surface, or ground water, as described
20 in section 121(d)(2)(A)(i) of the Comprehensive
21 Environmental Response, Compensation, and
22 Liability Act of 1980 (42 U.S.C.
23 9621(d)(2)(A)(i)).

1 (C) A health advisory under section
2 1412(b)(1)(F) of the Safe Drinking Water Act
3 (42 U.S.C. 300g-1(b)(1)(F)).

4 (3) OTHER AUTHORITY.—In addition to the re-
5 quirements for a cooperative agreement under para-
6 graph (1), when otherwise authorized to expend
7 funds for the purpose of addressing ground or sur-
8 face water contaminated by a perfluorinated com-
9 pound, the Secretary of Defense may, to expend
10 those funds, enter into a grant agreement, coopera-
11 tive agreement, or contract with—

12 (A) the local water authority with jurisdic-
13 tion over the contamination site, including—

14 (i) a public water system (as defined
15 in section 1401 of the Safe Drinking
16 Water Act (42 U.S.C. 300f)); and

17 (ii) a publicly owned treatment works
18 (as defined in section 212 of the Federal
19 Water Pollution Control Act (33 U.S.C.
20 1292)); or

21 (B) a State, local, or Tribal government.

22 (b) REPORT.—Beginning on February 1, 2020, if a
23 cooperative agreement is not finalized or amended under
24 subsection (a) within one year after the request from the
25 Governor or chief executive under that subsection, and an-

1 nually thereafter, the Secretary of Defense shall submit
2 to the appropriate committees and Members of Congress
3 a report—

4 (1) explaining why the agreement has not been
5 finalized or amended, as the case may be; and

6 (2) setting forth a projected timeline for final-
7 izing or amending the agreement.

8 (c) DEFINITIONS.—In this section:

9 (1) APPROPRIATE COMMITTEES AND MEMBERS
10 OF CONGRESS.—The term “appropriate committees
11 and Members of Congress” means—

12 (A) the congressional defense committees;

13 (B) the Senators who represent a State
14 impacted by PFAS contamination described in
15 subsection (a)(1); and

16 (C) the Members of the House of Rep-
17 resentatives who represent a district impacted
18 by such contamination.

19 (2) FULLY FLUORINATED CARBON ATOM.—The
20 term “fully fluorinated carbon atom” means a car-
21 bon atom on which all the hydrogen substituents
22 have been replaced by fluorine.

23 (3) PFAS.—The term “PFAS” means
24 perfluoroalkyl and polyfluoroalkyl substances that

1 are man-made chemicals with at least one fully
2 fluorinated carbon atom.

3 (4) STATE.—The term “State” has the mean-
4 ing given the term in section 101 of the Comprehen-
5 sive Environmental Response, Compensation, and
6 Liability Act of 1980 (42 U.S.C. 9601).

7 **SEC. 333. PLAN TO PHASE OUT USE OF BURN PITS.**

8 Not later than one year after the date of the enact-
9 ment of this Act, the Secretary of Defense shall submit
10 to the congressional defense committees a plan to phase
11 out the use of the burn pits identified in the Department
12 of Defense Open Burn Pit Report to Congress dated April
13 2019.

14 **SEC. 334. INFORMATION RELATING TO LOCATIONS OF**
15 **BURN PIT USE.**

16 The Secretary of Defense shall provide to the Sec-
17 retary of Veterans Affairs and to Congress a list of all
18 locations where open-air burn pits have been used by the
19 Secretary of Defense, for the purposes of augmenting the
20 research, healthcare delivery, disability compensation, and
21 other activities of the Secretary of Veterans Affairs.

1 **SEC. 335. DATA QUALITY REVIEW OF RADIUM TESTING**
2 **CONDUCTED AT CERTAIN LOCATIONS OF THE**
3 **DEPARTMENT OF THE NAVY.**

4 (a) REVIEW OF RADIUM TESTING.—Except as pro-
5 vided in subsection (b), the Secretary of the Navy shall
6 provide for an independent third-party data quality review
7 of all radium testing completed by contractors of the De-
8 partment of the Navy at a covered location.

9 (b) EXCEPTION.—In the case of a covered location
10 for which an independent third-party data quality review
11 of all radium testing completed by contractors of the De-
12 partment has been conducted prior to the date of the en-
13 actment of this Act, the requirement under subsection (a)
14 shall not apply if the Secretary of the Navy submits to
15 the congressional defense committees a report con-
16 taining—

17 (1) a certification that such review has been
18 conducted for such covered location; and

19 (2) a description of the results of such review.

20 (c) COVERED LOCATION DEFINED.—In this section,
21 the term “covered location” means any of the following:

22 (1) Naval Weapons Industrial Reserve Plant,
23 Bethpage, New York.

24 (2) Hunter’s Point Naval Shipyard, San Fran-
25 cisco, California.

1 **SEC. 336. REIMBURSEMENT OF ENVIRONMENTAL PROTEC-**
2 **TION AGENCY FOR CERTAIN COSTS IN CON-**
3 **NECTION WITH THE TWIN CITIES ARMY AM-**
4 **MUNITION PLANT, MINNESOTA.**

5 (a) TRANSFER AMOUNT.—Notwithstanding section
6 2215 of title 10, United States Code, the Secretary of De-
7 fense may transfer to the Administrator of the Environ-
8 mental Protection Agency—

9 (1) in fiscal year 2020, not more than
10 \$890,790; and

11 (2) in each of fiscal years 2021 through 2026,
12 not more than \$150,000.

13 (b) PURPOSE OF REIMBURSEMENT.—The amount
14 authorized to be transferred under subsection (a) is to re-
15 imburse the Environmental Protection Agency for costs
16 the Agency has incurred and will incur relating to the re-
17 sponse actions performed at the Twin Cities Army Ammu-
18 nition Plant, Minnesota, through September 30, 2025.

19 (c) INTERAGENCY AGREEMENT.—The reimburse-
20 ment described in subsection (b) is intended to satisfy cer-
21 tain terms of the interagency agreement entered into by
22 the Department of the Army and the Environmental Pro-
23 tection Agency for the Twin Cities Army Ammunition
24 Plant that took effect in December 1987 and that pro-
25 vided for the recovery of expenses by the Agency from the
26 Department of the Army.

1 **SEC. 337. PILOT PROGRAM FOR AVAILABILITY OF WORK-**
2 **ING-CAPITAL FUNDS FOR INCREASED COM-**
3 **BAT CAPABILITY THROUGH ENERGY OPTIMI-**
4 **ZATION.**

5 (a) IN GENERAL.—Notwithstanding section 2208 of
6 title 10, United States Code, the Secretary of Defense and
7 the military departments may use a working capital fund
8 established pursuant to that section for expenses directly
9 related to conducting a pilot program for energy optimiza-
10 tion initiatives described in subsection (b).

11 (b) ENERGY OPTIMIZATION INITIATIVES.—Energy
12 optimization initiatives covered by the pilot program in-
13 clude the research, development, procurement, installa-
14 tion, and sustainment of technologies or weapons system
15 platforms, and the manpower required to do so, that would
16 improve the efficiency and maintainability, extend the use-
17 ful life, lower maintenance costs, or provide performance
18 enhancement of the weapon system platform or major end
19 item.

20 (c) LIMITATION ON CERTAIN PROJECTS.—Funds
21 may not be used pursuant to subsection (a) for—

22 (1) any product improvement that significantly
23 changes the performance envelope of an end item; or

24 (2) any single component with an estimated
25 total cost in excess of \$10,000,000.

1 (d) LIMITATION IN FISCAL YEAR PENDING TIMELY
2 REPORT.—If during any fiscal year the report required
3 by paragraph (1) of subsection (e) is not submitted by
4 the date specified in paragraph (2) of that subsection,
5 funds may not be used pursuant to subsection (a) during
6 the period—

7 (1) beginning on the date specified in such
8 paragraph (2); and

9 (2) ending on the date of the submittal of the
10 report.

11 (e) ANNUAL REPORT.—

12 (1) IN GENERAL.—The Secretary of Defense
13 shall submit an annual report to the congressional
14 defense committees on the use of the authority
15 under subsection (a) during the preceding fiscal
16 year.

17 (2) DEADLINE FOR SUBMITTAL.—The report
18 required by paragraph (1) in a fiscal year shall be
19 submitted not later than 60 days after the date of
20 the submittal to Congress of the budget of the Presi-
21 dent for the succeeding fiscal year pursuant to sec-
22 tion 1105 of title 31, United States Code.

23 (3) RECOMMENDATION.—In the case of the re-
24 port required to be submitted under paragraph (1)
25 during fiscal year 2020, the report shall include the

1 recommendation of the Secretary of Defense and the
2 military departments regarding whether the author-
3 ity under subsection (a) should be made permanent.

4 (f) SUNSET.—The authority under subsection (a)
5 shall expire on October 1, 2024.

6 **SEC. 338. REPORT ON EFFORTS TO REDUCE HIGH ENERGY**
7 **INTENSITY AT MILITARY INSTALLATIONS.**

8 (a) REPORT.—

9 (1) REPORT REQUIRED.—Not later than Sep-
10 tember 1, 2020, the Under Secretary of Defense for
11 Acquisition and Sustainment, in conjunction with
12 the assistant secretaries responsible for installations
13 and environment for the military departments and
14 the Defense Logistics Agency, shall submit to the
15 congressional defense committees a report detailing
16 the efforts to achieve cost savings at military instal-
17 lations with high energy intensity.

18 (2) ELEMENTS.—The report required under
19 paragraph (1) shall include the following elements:

20 (A) A comprehensive, installation-specific
21 assessment of feasible and mission-appropriate
22 energy initiatives supporting energy production
23 and consumption at military installations with
24 high energy intensity.

1 (B) An assessment of current sources of
2 energy in areas with high energy intensity and
3 potential future sources that are technologically
4 feasible, cost-effective, and mission-appropriate
5 for military installations.

6 (C) A comprehensive implementation strat-
7 egy to include required investment for feasible
8 energy efficiency options determined to be the
9 most beneficial and cost-effective, where appro-
10 priate, and consistent with priorities of the De-
11 partment of Defense.

12 (D) An explanation on how the military de-
13 partments are working collaboratively in order
14 to leverage lessons learned on potential energy
15 efficiency solutions.

16 (E) An assessment of the extent to which
17 activities administered under the Federal En-
18 ergy Management Program of the Department
19 of Energy could be used to assist with the im-
20 plementation strategy under subparagraph (C).

21 (F) An assessment of State and local part-
22 nership opportunities that could achieve effi-
23 ciency and cost savings, and any legislative au-
24 thorities required to carry out such partner-
25 ships or agreements.

1 (3) COORDINATION WITH STATE, LOCAL, AND
2 OTHER ENTITIES.—In preparing the report required
3 under paragraph (1), the Under Secretary of De-
4 fense for Acquisition and Sustainment may work in
5 conjunction and coordinate with the States con-
6 taining areas of high energy intensity, local commu-
7 nities, and other Federal agencies.

8 (b) DEFINITION.—In this section, the term “high en-
9 ergy intensity” means costs for the provision of energy by
10 kilowatt of electricity or British Thermal Unit of heat or
11 steam for a military installation in the United States that
12 is in the highest 20 percent of all military installations
13 for a military department.

14 **Subtitle C—Treatment of Contami-**
15 **nated Water Near Military In-**
16 **stallations**

17 **SEC. 341. SHORT TITLE.**

18 This subtitle may be cited as the “Prompt and Fast
19 Action to Stop Damages Act of 2019”.

20 **SEC. 342. DEFINITIONS.**

21 In this subtitle:

22 (1) PFOA.—The term “PFOA” means
23 perfluorooctanoic acid.

24 (2) PFOS.—The term “PFOS” means
25 perfluorooctane sulfonate.

1 **SEC. 343. PROVISION OF WATER UNCONTAMINATED WITH**
2 **PERFLUOROOCCTANOIC ACID (PFOA) AND**
3 **PERFLUOROOCCTANE SULFONATE (PFOS) FOR**
4 **AGRICULTURAL PURPOSES.**

5 (a) AUTHORITY.—

6 (1) IN GENERAL.—Using amounts authorized
7 to be appropriated or otherwise made available for
8 operation and maintenance for the military depart-
9 ment concerned, or for operation and maintenance
10 Defense-wide in the case of the Secretary of De-
11 fense, the Secretary concerned may provide water
12 sources uncontaminated with perfluoroalkyl and
13 polyfluoroalkyl substances, including PFOA and
14 PFOS, or treatment of contaminated waters, for ag-
15 ricultural purposes used to produce products des-
16 tined for human consumption in an area in which a
17 water source has been determined pursuant to para-
18 graph (2) to be contaminated with such compounds
19 by reason of activities on a military installation
20 under the jurisdiction of the Secretary concerned.

21 (2) APPLICABLE STANDARD.—For purposes of
22 paragraph (1), an area is determined to be contami-
23 nated with PFOA or PFOS if—

24 (A) the level of contamination is above the
25 Lifetime Health Advisory for contamination
26 with such compounds issued by the Environ-

1 mental Protection Agency and printed in the
2 Federal Register on May 25, 2016; or

3 (B) on or after the date the Food and
4 Drug Administration sets a standard for PFOA
5 and PFOS in raw agricultural commodities and
6 milk, the level of contamination is above such
7 standard.

8 (b) SECRETARY CONCERNED DEFINED.—In this sec-
9 tion, the term “Secretary concerned” means the following:

10 (1) The Secretary of the Army, with respect to
11 the Army.

12 (2) The Secretary of the Navy, with respect to
13 the Navy, the Marine Corps, and the Coast Guard
14 (when it is operating as a service in the Navy).

15 (3) The Secretary of the Air Force, with re-
16 spect to the Air Force.

17 (4) The Secretary of Defense, with respect to
18 the Defense Agencies.

19 **SEC. 344. ACQUISITION OF REAL PROPERTY BY AIR FORCE.**

20 (a) AUTHORITY.—

21 (1) IN GENERAL.—The Secretary of the Air
22 Force may acquire one or more parcels of real prop-
23 erty within the vicinity of an Air Force base that
24 has shown signs of contamination from PFOA and
25 PFOS due to activities on the base and which would

1 extend the contiguous geographic footprint of the
2 base and increase the force protection standoff near
3 critical infrastructure and runways.

4 (2) IMPROVEMENTS AND PERSONAL PROP-
5 ERTY.—The authority under paragraph (1) to ac-
6 quire real property described in that paragraph shall
7 include the authority to purchase improvements and
8 personal property located on that real property.

9 (3) RELOCATION EXPENSES.—The authority
10 under paragraph (1) to acquire real property de-
11 scribed in that paragraph shall include the authority
12 to provide Federal financial assistance for moving
13 costs, relocation benefits, and other expenses in-
14 curred in accordance with the Uniform Relocation
15 Assistance and Real Property Acquisition Policies
16 Act of 1970 (42 U.S.C. 4601 et seq.).

17 (b) ENVIRONMENTAL ACTIVITIES.—The Air Force
18 shall conduct such activities at a parcel or parcels of real
19 property acquired under subsection (a) as are necessary
20 to remediate contamination from PFOA and PFOS re-
21 lated to activities at the Air Force base.

22 (c) FUNDING.—Funds for the land acquisitions au-
23 thorized under subsection (a) shall be derived from
24 amounts authorized to be appropriated for fiscal year
25 2020 for military construction or the unobligated balances

1 of appropriations for military construction that are en-
2 acted after the date of the enactment of this Act.

3 (d) **RULE OF CONSTRUCTION.**—The authority under
4 this section constitutes authority to carry out land acqui-
5 sitions for purposes of section 2802 of title 10, United
6 States Code.

7 **SEC. 345. REMEDIATION PLAN.**

8 (a) **IN GENERAL.**—Not later than 180 days after the
9 date of the enactment of this Act, the Secretary of Defense
10 shall submit to Congress a remediation plan for cleanup
11 of all water at or adjacent to a military installation that
12 is contaminated with PFOA or PFOS.

13 (b) **STUDY.**—In preparing the remediation plan
14 under subsection (a), the Secretary shall conduct a study
15 on the contamination of water at military installations
16 with PFOA or PFOS.

17 (c) **BUDGET AMOUNT.**—The Secretary shall ensure
18 that each budget of the President submitted to Congress
19 under section 1105(a) of title 31, United States Code, re-
20 quests funding in amounts necessary to address remedi-
21 ation efforts under the remediation plan submitted under
22 subsection (a).

1 **Subtitle D—Logistics and**
2 **Sustainment**

3 **SEC. 351. MATERIEL READINESS METRICS AND OBJEC-**
4 **TIVES.**

5 (a) ANNUAL REPORT ON MAJOR WEAPONS SYSTEMS
6 SUSTAINMENT.—

7 (1) IN GENERAL.—Chapter 2 of title 10, United
8 States Code, is amended by inserting after section
9 117 the following new section:

10 **“§ 118. Annual report on major weapons systems**
11 **sustainment**

12 “Not later than five days after the date on which the
13 Secretary of Defense submits to Congress the materials
14 in support of the budget of the President for a fiscal year,
15 the Secretary of Defense shall submit to the congressional
16 defense committees an annual report on major weapons
17 systems sustainment for the period covered by the future
18 years defense program specified by section 221 of this
19 title. Such report shall include—

20 “(1) an assessment of the materiel availability,
21 materiel reliability, and mean down time metrics for
22 each major weapons system;

23 “(2) a detailed explanation of any factors that
24 could preclude the Department of Defense or any of

1 the military departments from meeting applicable
2 readiness goals or objectives; and

3 “(3) an assessment of the validity and effective-
4 ness of the definitions used to determine defense
5 readiness, including the terms ‘major weapons sys-
6 tem’, ‘covered asset’, ‘total and required inventory’,
7 ‘materiel and operational availability’, ‘materiel and
8 operational capability’, ‘materiel and operational re-
9 liability’.”.

10 (2) CLERICAL AMENDMENT.—The table of sec-
11 tions at the beginning of such chapter is amended
12 by inserting after the item relating to section 117
13 the following new item:

“118. Annual report on major weapons systems sustainment.”.

14 (b) ASSESSMENT OF MATERIEL READINESS AND
15 WEAPONS SYSTEM SUSTAINMENT.—

16 (1) ASSESSMENT REQUIRED.—Not later than
17 March 1, 2020, the Secretary of Defense shall com-
18 plete a comprehensive assessment of the materiel
19 readiness and weapons systems sustainment of the
20 Department of Defense across the Department or-
21 ganic industrial base and industry partners.

22 (2) CONTENTS.—The assessment required by
23 paragraph (1) shall include—

24 (A) an assessment of the overall readiness
25 strategy of the Department of Defense and the

1 capability of such strategy to measure, track,
2 and assess the readiness of major weapons sys-
3 tems;

4 (B) an assessment of the use of objectives
5 and metrics;

6 (C) a description of applicable reporting
7 requirements; and

8 (D) applicable definitions and common
9 usage of relevant terms, including the terms
10 “major weapons system”, “covered asset”,
11 “total and required inventory”, “materiel and
12 operational availability”, “materiel and oper-
13 ational capability”, “materiel and operational
14 reliability”, and “maintenance costs”.

15 (3) SUBMISSION TO CONGRESS.—The Secretary
16 shall provide to the congressional defense commit-
17 tees—

18 (A) a briefing on the assessment required
19 by paragraph (1) by not later than March 1,
20 2020; and

21 (B) a final report on such assessment by
22 not later than April 1, 2020.

1 **SEC. 352. CLARIFICATION OF AUTHORITY REGARDING USE**
2 **OF WORKING-CAPITAL FUNDS FOR UNSPEC-**
3 **IFIED MINOR MILITARY CONSTRUCTION**
4 **PROJECTS RELATED TO REVITALIZATION**
5 **AND RECAPITALIZATION OF DEFENSE INDUS-**
6 **TRIAL BASE FACILITIES.**

7 Section 2208(u) of title 10, United States Code, is
8 amended—

9 (1) in paragraph (1), by striking “carry out”
10 and inserting “fund”;

11 (2) in paragraph (2)—

12 (A) by striking “Section 2805” and insert-
13 ing “(A) Except as provided in subparagraph
14 (B), section 2805”;

15 (B) by striking “carried out with” and in-
16 serting “funded using”; and

17 (C) by adding at the end the following new
18 subparagraph:

19 “(B) For purposes of applying subparagraph (A), the
20 dollar limitation specified in subsection (a)(2) of section
21 2805 of this title, subject to adjustment as provided in
22 subsection (f) of such section, shall apply rather than the
23 dollar limitation specified in subsection (c) of such sec-
24 tion.”; and

25 (3) in paragraph (4), by striking “carry out”
26 and inserting “fund”.

1 **SEC. 353. MODIFICATION TO LIMITATION ON LENGTH OF**
2 **OVERSEAS FORWARD DEPLOYMENT OF**
3 **NAVAL VESSELS.**

4 Section 323 of the John S. McCain National Defense
5 Authorization Act for Fiscal Year 2019 (Public Law 115–
6 232) is amended—

7 (1) by redesignating subsection (c) as sub-
8 section (d); and

9 (2) by inserting after subsection (b) the fol-
10 lowing new subsection (c):

11 “(c) **EXTENSION OF LIMITATION ON LENGTH OF**
12 **OVERSEAS FORWARD DEPLOYMENT FOR U.S.S. SHILOH**
13 **(CG–67).**—Notwithstanding subsection (b), the Secretary
14 of the Navy shall ensure that the U.S.S. Shiloh (CG–67)
15 is assigned a homeport in the United States by not later
16 than September 30, 2023.”.

17 **SEC. 354. EXTENSION OF TEMPORARY INSTALLATION RE-**
18 **UTILIZATION AUTHORITY FOR ARSENALS,**
19 **DEPOTS, AND PLANTS.**

20 Section 345(d) of the National Defense Authorization
21 Act for Fiscal Year 2018 (Public Law 115–91; 10 U.S.C.
22 2667 note) is amended by striking “September 30, 2020”
23 and inserting “September 30, 2025”.

24 **SEC. 355. F-35 JOINT STRIKE FIGHTER SUSTAINMENT.**

25 (a) **LIMITATION ON USE OF FUNDS.**—Of the
26 amounts authorized to be appropriated or otherwise made

1 available in this Act for the Office of the Under Secretary
2 of Defense for Acquisition and Sustainment for fiscal year
3 2020, not more than 75 percent may be obligated or ex-
4 pended until the date on which the Under Secretary sub-
5 mits the report required by subsection (b).

6 (b) REPORT REQUIRED.—The Under Secretary of
7 Defense for Acquisition and Sustainment shall submit to
8 the Committees on Armed Services of the Senate and
9 House of Representatives a report on steps being taken
10 to improve the availability and accountability of F-35
11 parts within the supply chain. At a minimum, the report
12 shall include a detailed plan for each of the following ele-
13 ments:

14 (1) How the accountable property system of
15 record will be updated with information from the
16 prime contractors supplying such parts on required
17 cost and related data with respect to the parts and
18 how the F-35 Program Office will ensure such con-
19 tractors are adhering to contractual requirements
20 for the management, reporting, visibility, and ac-
21 countability of all such parts supplied by the prime
22 contractors.

23 (2) How the accountability property system of
24 record will have interfaces that allow the F-35 Pro-
25 gram Office and other authorized entities to have

1 proper accountability of assets in accordance with
2 applicable Department of Defense Instructions, De-
3 partment of Defense Manuals, and other applicable
4 regulations.

5 (3) How the F-35 Program Office, in coordina-
6 tion with the military departments, will ensure busi-
7 ness rules for the prioritization of F-35 parts across
8 all program participants are sufficient, effective, and
9 responsive.

10 (4) Steps being taken to ensure parts within
11 the base, afloat, and deployment spares packages are
12 compatible for deploying F-35 aircraft and account
13 for updated parts demand.

14 **SEC. 356. REPORT ON STRATEGIC POLICY FOR**
15 **PREPOSITIONED MATERIEL AND EQUIP-**
16 **MENT.**

17 Not later than March 1, 2020, the Assistant Sec-
18 retary of Defense for Sustainment, in coordination with
19 the Joint Staff, shall submit to the Committees on Armed
20 Services of the Senate and House of Representatives a re-
21 port on the implementation plan for prepositioned materiel
22 and equipment required by section 321(b) of the National
23 Defense Authorization Act for Fiscal Year 2014 (Public
24 Law 113-66; 127 Stat. 730; 10 U.S.C. 2229 note). Such
25 report shall include each of the following:

1 (1) A comprehensive list of the prepositioned
2 materiel and equipment programs of the Department
3 of Defense.

4 (2) A detailed description of how the plan will
5 be implemented.

6 (3) A description of the resources required to
7 implement the plan, including the amount of funds
8 and personnel.

9 (4) A description of how the plan will be re-
10 viewed and assessed to monitor progress.

11 (5) Guidance on applying a consistent definition
12 of prepositioning across the Department, including
13 the military departments, the combatant commands,
14 and the Defense Agencies.

15 (6) A detailed description of how the Secretary
16 will implement a joint oversight approach of the
17 prepositioning programs of the military departments.

18 **SEC. 357. PILOT PROGRAM TO TRAIN SKILLED TECHNI-**
19 **CIANS IN CRITICAL SHIPBUILDING SKILLS.**

20 (a) **ESTABLISHMENT.**—The Secretary of the Navy
21 may carry out a pilot program to train individuals to be-
22 come skilled technicians in critical shipbuilding skills such
23 as welding, metrology, quality assurance, machining, and
24 additive manufacturing.

1 (b) PARTNERSHIPS.—In carrying out the pilot pro-
2 gram under this section, the Secretary may partner with
3 existing Federal or State projects relating to investment
4 and infrastructure in training and education or workforce
5 development, such as the National Network for Manufac-
6 turing Innovation, the Industrial Base Analysis and
7 Sustainment program of the Department of Defense, and
8 the National Maritime Educational Council.

9 (c) TERMINATION.—The authority to carry out a
10 pilot program under this section shall terminate on Sep-
11 tember 30, 2025.

12 (d) BRIEFINGS.—If the Secretary carries out a pilot
13 program under this section, the Secretary shall provide
14 briefings to the Committees on Armed Services of the Sen-
15 ate and the House of Representatives as follows:

16 (1) Not later than 30 days before beginning to
17 implement the pilot program, the Secretary shall
18 provide a briefing on the plan, cost estimate, and
19 schedule for the pilot program.

20 (2) Not less frequently than annually during
21 the period when the pilot program is carried out, the
22 Secretary shall provide briefings on the progress of
23 the Secretary in carrying out the pilot program.

1 **SEC. 358. REQUIREMENT FOR MILITARY DEPARTMENT**
2 **INTER-SERVICE DEPOT MAINTENANCE.**

3 (a) **JOINT PROCESS FOR TECHNICAL COMPLIANCE**
4 **AND QUALITY CONTROL.**—If the Secretary of a military
5 department transfers any maintenance action on a plat-
6 form to a depot under the jurisdiction of the Secretary
7 of another military department, the two Secretaries shall
8 develop and implement a process to ensure the technical
9 compliance and quality control for the work performed.

10 (b) **REQUIREMENTS.**—A process developed under
11 subsection (a) shall include the following requirements—

12 (1) The Secretary of the military department
13 with jurisdiction over the depot to which the mainte-
14 nance action is transferred shall—

15 (A) ensure that the technical specifica-
16 tions, requirements, and standards for work to
17 be performed are provided to such action or
18 depot; and

19 (B) implement procedures to ensure that
20 completed work complies with such specifica-
21 tions, requirements and standards.

22 (2) The Secretary who transfers the mainte-
23 nance activity or depot shall ensure that—

24 (A) the technical specifications and re-
25 quirements are clearly understood; and

1 (B) the work performed is completed to
2 the technical specifications, requirements, and
3 standards prescribed under paragraph (1), and
4 that the Secretary of the military department
5 with jurisdiction over the depot is informed of
6 any shortcoming or discrepancy.

7 (c) REPORTS.—Not later than 180 days after the
8 date of the enactment of this Act, the Under Secretary
9 of Defense for Acquisition and Sustainment shall submit
10 to the congressional defense committees a report con-
11 taining a certification that sufficient policy and procedures
12 are in place to ensure quality control when the depot or
13 maintenance activities of one military department support
14 another. The report shall include a description of known
15 shortfalls in existing policies and procedures and actions
16 the Department of Defense is taking to address such
17 shortfalls.

18 **SEC. 359. STRATEGY TO IMPROVE INFRASTRUCTURE OF**
19 **CERTAIN DEPOTS OF THE DEPARTMENT OF**
20 **DEFENSE.**

21 (a) STRATEGY REQUIRED.—Not later than October
22 1, 2020, the Secretary of Defense shall submit to the con-
23 gressional defense committees a comprehensive strategy
24 for improving the depot infrastructure of the military de-
25 partments with the objective of ensuring that all covered

1 depots have the capacity and capability to support the
2 readiness and material availability goals of current and fu-
3 ture weapon systems of the Department of Defense.

4 (b) ELEMENTS.—The strategy under subsection (a)
5 shall include the following:

6 (1) A comprehensive review of the conditions
7 and performance at each covered depot, including
8 the following:

9 (A) An assessment of the current status of
10 the following elements:

11 (i) Cost and schedule performance of
12 the depot.

13 (ii) Material availability of weapon
14 systems supported at the depot and the
15 impact of the performance of the depot on
16 that availability.

17 (iii) Work in progress and non-oper-
18 ational items awaiting depot maintenance.

19 (iv) The condition of the depot.

20 (v) The backlog of restoration and
21 modernization projects at the depot.

22 (vi) The condition of equipment at the
23 depot.

24 (vii) the vulnerability of the depot to
25 adverse environmental conditions and, if

1 necessary, the investment required to with-
2 stand those conditions.

3 (B) An identification of analytically based
4 goals relating to the elements identified in sub-
5 paragraph (A).

6 (2) A business-case analysis that assesses in-
7 vestment alternatives comparing cost, performance,
8 risk, and readiness outcomes and recommends an
9 optimal investment approach across the Department
10 of Defense to ensure covered depots efficiently and
11 effectively meet the readiness goals of the Depart-
12 ment, including an assessment of the following alter-
13 natives:

14 (A) The minimum investment necessary to
15 meet investment requirements under section
16 2476 of title 10, United States Code.

17 (B) The investment necessary to ensure
18 the current inventory of facilities at covered de-
19 pots can meet the mission-capable, readiness,
20 and contingency goals of the Secretary of De-
21 fense.

22 (C) The investment necessary to execute
23 the depot infrastructure optimization plans of
24 each military department.

1 (D) Any other strategies for investment in
2 covered depots, as identified by the Secretary.

3 (3) A plan to improve conditions and perform-
4 ance of covered depots that identifies the following:

5 (A) The approach of the Secretary of De-
6 fense for achieving the goals outlined in para-
7 graph (1)(B).

8 (B) The resources and investments re-
9 quired to implement the plan.

10 (C) The activities and milestones required
11 to implement the plan.

12 (D) A results-oriented approach to as-
13 sess—

14 (i) the progress of each military de-
15 partment in achieving such goals; and

16 (ii) the progress of the Department in
17 implementing the plan.

18 (E) Organizational roles and responsibil-
19 ities for implementing the plan.

20 (F) A process for conducting regular man-
21 agement review and coordination of the
22 progress of each military department in imple-
23 menting the plan and achieving such goals.

24 (G) The extent to which the Secretary has
25 addressed recommendations made by the Comp-

1 troller General of the United States relating to
2 depot operations during the five-year period
3 preceding the date of submittal of the strategy
4 under this section.

5 (H) Risks to implementing the plan and
6 mitigation strategies to address those risks.

7 (c) ANNUAL REPORT ON PROGRESS.—As part of the
8 annual budget submission of the President under section
9 1105(a) of title 31, United States Code, the Secretary of
10 Defense shall submit to the congressional defense commit-
11 tees a report describing the progress made in—

12 (1) implementing the strategy under subsection
13 (a); and

14 (2) achieving the goals outlined in subsection
15 (b)(1)(B).

16 (d) COMPTROLLER GENERAL REPORTS.—

17 (1) ASSESSMENT OF STRATEGY.—Not later
18 than January 1, 2021, the Comptroller General of
19 the United States shall submit to the congressional
20 defense committees a report assessing the extent to
21 which the strategy under subsection (a) meets the
22 requirements of this section.

23 (2) ASSESSMENT OF IMPLEMENTATION.—Not
24 later than April 1, 2022, the Comptroller General
25 shall submit to the congressional defense committees

1 a report setting forth an assessment of the extent to
2 which the strategy under subsection (a) has been ef-
3 fectively implemented by each military department
4 and the Secretary of Defense.

5 (e) COVERED DEPOT DEFINED.—In this section, the
6 term “covered depot” has the meaning given that term
7 in section 2476(e) of title 10, United States Code.

8 **Subtitle E—Reports**

9 **SEC. 361. READINESS REPORTING.**

10 (a) READINESS REPORTING SYSTEM.—Section 117
11 of title 10, United States Code, is amended—

12 (1) by striking subsections (d) through (g); and

13 (2) by redesignating subsection (h) as sub-
14 section (d).

15 (b) QUARTERLY REPORTS.—Section 482 of title 10,
16 United States Code, is amended—

17 (1) in the section heading, by striking “**Quar-**
18 **terly reports: personnel and unit readi-**
19 **ness**” and inserting “**Readiness reports**”;

20 (2) in subsection (a)—

21 (A) In the subsection heading, by striking
22 “QUARTERLY REPORTS REQUIRED” and insert-
23 ing “REPORTS AND BRIEFINGS”;

24 (B) In the first sentence—

1 (i) by striking “Not later” and insert-
2 ing “(1) Not later”; and

3 (ii) by striking “each calendar-year
4 quarter” and inserting “the second and
5 fourth quarter of each calendar year”;

6 (C) by striking the second and third sen-
7 tences and inserting “The Secretary of Defense
8 shall submit each such report in writing and
9 shall also submit a copy of each such report to
10 the Chairman of the Joint Chiefs of Staff.”;
11 and

12 (D) by adding at the end the following new
13 paragraphs:

14 “(2) Not later than 30 days after the end of the first
15 and third quarter of each calendar year, the Secretary of
16 Defense shall provide to Congress a briefing regarding the
17 military readiness of the active and reserve components.

18 “(3) Each report under this subsection shall contain
19 the elements required by subsection (b) for the quarter
20 covered by the report, and each briefing shall address any
21 changes to the elements described in subsection (b) since
22 the submittal of the most recently submitted report.”;

23 (3) by striking subsection (b) and inserting the
24 following:

1 “(b) REQUIRED ELEMENTS.—The elements de-
2 scribed in this subsection are each of the following:

3 “(1) A description of each readiness problem or
4 deficiency that affects the ground, sea, air, space,
5 cyber, or special operations forces, and any other
6 area determined appropriate by the Secretary of De-
7 fense.

8 “(2) The key contributing factors, indicators,
9 and other relevant information related to each iden-
10 tified problem or deficiency.

11 “(3) The short-term mitigation strategy the De-
12 partment will employ to address each readiness
13 problem or deficiency until a resolution is in place,
14 as well as the timeline, cost, and any legislative rem-
15 edies required to support the resolution.

16 “(4) A summary of combat readiness ratings
17 for the key force elements assessed, including spe-
18 cific information on personnel, supply, equipment,
19 and training problems or deficiencies that affect the
20 combat readiness ratings for each force element.

21 “(5) A summary of each upgrade or downgrade
22 of the combat readiness of a unit that was issued by
23 the commander of the unit, together with the ration-
24 ale of the commander for the issuance of such up-
25 grade or downgrade.

1 “(6) A summary of the readiness of supporting
2 capabilities, including infrastructure, prepositioned
3 equipment and supplies, and mobility assets, and
4 other supporting logistics capabilities.

5 “(7) A summary of the readiness of the combat
6 support and related agencies, any readiness problem
7 or deficiency affecting any mission essential tasks of
8 any such agency, and actions recommended to ad-
9 dress any such problem or deficiency.

10 “(8) A list of all Class A, Class B, and Class
11 C mishaps that occurred in operations related to
12 combat support and training events involving avia-
13 tion, ground, or naval platforms, weapons, space, or
14 Government vehicles, as defined by Department of
15 Defense Instruction 6055.07, or a successor instruc-
16 tion.

17 “(9) Information on the extent to which units
18 of the armed forces have removed serviceable parts,
19 supplies, or equipment from one vehicle, vessel, or
20 aircraft in order to render a different vehicle, vessel,
21 or aircraft operational.

22 “(10) Such other information as determined
23 necessary or appropriate by the Secretary of De-
24 fense.”;

1 (4) by striking subsections (d) through (h) and
2 subsection (j);

3 (5) by redesignating subsection (i) as subsection
4 (e); and

5 (6) by inserting after subsection (e) the fol-
6 lowing new subsections (d):

7 “(d) SEMI-ANNUAL JOINT FORCE READINESS RE-
8 VIEW.—(1) Not later than 30 days after the last day of
9 the first and third quarter of each calendar year, the
10 Chairman of the Joint Chiefs of Staff shall submit to Con-
11 gress a written report on the capability of the armed
12 forces, the combat support and related agencies, oper-
13 ational contract support, and the geographic and func-
14 tional combatant commands to execute their wartime mis-
15 sions based upon their posture and readiness as of the
16 time the review is conducted.

17 “(2) The Chairman shall produce the report required
18 under this subsection using information derived from the
19 quarterly reports required by subsection (a).

20 “(3) Each report required by this subsection shall in-
21 clude an assessment by each commander of a geographic
22 or functional combatant command of the readiness of the
23 command to conduct operations in a multidomain battle
24 that integrates ground, sea, air, space, cyber, and special
25 operations forces.

1 “(4) The Chairman shall submit to the Secretary of
2 Defense a copy of each report under this subsection.”.

3 (c) CLERICAL AMENDMENT.—The table of sections
4 at the beginning of chapter 23 of such title is amended
5 by striking the item relating to section 482 and inserting
6 the following new item:

“482. Readiness reports.”.

7 **SEC. 362. TECHNICAL CORRECTION TO DEADLINE FOR**
8 **TRANSITION TO DEFENSE READINESS RE-**
9 **PORTING SYSTEM STRATEGIC.**

10 Section 358(c) of the John S. McCain National De-
11 fense Authorization Act for Fiscal Year 2019 (Public Law
12 115–232) is amended by striking “October 1, 2019” and
13 inserting “October 1, 2020”.

14 **SEC. 363. REPORT ON NAVY SHIP DEPOT MAINTENANCE**
15 **BUDGET.**

16 (a) IN GENERAL.—Not later than March 1 of each
17 of 2020, 2021, and 2022, the Secretary of the Navy shall
18 submit to the Committees on Armed Services of the Sen-
19 ate and House of Representatives a report on the Oper-
20 ation and Maintenance, Ship Depot Maintenance budget
21 sub-activity group.

22 (b) ELEMENTS.—The report required under sub-
23 section (a) shall include each of the following elements:

1 (1) A breakdown of funding, categorized by
2 class of ship, requested for ship and submarine
3 maintenance.

4 (2) A description of how the requested funding,
5 categorized by class of ship, compares to the identi-
6 fied ship maintenance requirement.

7 (3) The amount of funds appropriated for each
8 class of ship for the preceding fiscal year.

9 (4) The amount of funds obligated and ex-
10 pended for each class of ship for each of the three
11 preceding fiscal years.

12 (5) The cost, categorized by class of ship, of
13 unplanned growth work for each of the three pre-
14 ceding fiscal years.

15 **SEC. 364. REPORT ON RUNIT DOME.**

16 (a) **REPORT REQUIRED.**—Not later than 180 days
17 after the date of the enactment of this Act, the Secretary
18 of Energy shall submit to the Committees on Armed Serv-
19 ices of the Senate and House of Representatives a report
20 on the status of the Runit Dome in the Marshal Islands.

21 (b) **MATTERS FOR INCLUSION.**—The report required
22 by subsection (a) shall include each of the following:

23 (1) A detailed plan to repair the dome to ensure
24 that it does not have any harmful effects to the local

1 population, environment, or wildlife, including the
2 projected costs of implementing such plan.

3 (2) The effects on the environment that the
4 dome has currently and is projected to have in 5
5 years, 10 years, and 20 years.

6 (3) An assessment of the current condition of
7 the outer constructs of the dome.

8 (4) An assessment of the current and long-term
9 safety to local humans posed by the site.

10 (5) An assessment of how rising sea levels
11 might affect the dome.

12 (6) A summary of interactions between the
13 Government of the United States and the govern-
14 ment of the Marshall Islands about the dome.

15 (c) FORM OF REPORT.—The report required by sub-
16 section (a) shall be submitted in unclassified form and
17 made publicly available.

18 **SEC. 365. PROHIBITION ON SUBJECTIVE UPGRADES BY**
19 **COMMANDERS OF UNIT RATINGS IN MONTH-**
20 **LY READINESS REPORTING ON MILITARY**
21 **UNITS.**

22 (a) IN GENERAL.—The Chairman of the Joint Chiefs
23 of Staff shall modify Chairman of the Joint Chiefs of Staff
24 Instruction (CJCSI) 3401.02B, on Force Readiness Re-
25 porting, to prohibit the commander of a military unit who

1 is responsible for monthly reporting of the readiness of
2 the unit under the instruction from making any upgrade
3 of the overall rating of the unit (commonly referred to as
4 the “C-rating”) for such reporting purposes based in
5 whole or in part on subjective factors.

6 (b) WAIVER.—

7 (1) IN GENERAL.—The modification required
8 by subsection (a) shall authorize an officer in a gen-
9 eral or flag officer grade in the chain of command
10 of a commander described in that subsection to
11 waive the prohibition described in that subsection in
12 connection with readiness reporting on the unit con-
13 cerned if the officer considers the waiver appropriate
14 in the circumstances.

15 (2) REPORTING ON WAIVERS.—Each report on
16 personnel and unit readiness submitted to Congress
17 for a calendar year quarter pursuant to section 482
18 of title 10, United States Code, shall include infor-
19 mation on each waiver, if any, issued pursuant to
20 paragraph (1) during such calendar year quarter.

21 **SEC. 366. REQUIREMENT TO INCLUDE FOREIGN LANGUAGE**
22 **PROFICIENCY IN READINESS REPORTING**
23 **SYSTEMS OF DEPARTMENT OF DEFENSE.**

24 Not later than 90 days after the date of the enact-
25 ment of this Act, the Secretary of Defense and the Sec-

1 retary of each military department shall include in the
2 Global Readiness and Force Management Enterprise, for
3 the appropriate billets with relevant foreign language re-
4 quirements, measures of foreign language proficiency as
5 a mandatory element of unit readiness reporting, to in-
6 clude the Defense Readiness Reporting Systems-Strategic
7 (DRRS-S) and all other subordinate systems that report
8 readiness data.

9 **Subtitle F—Other Matters**

10 **SEC. 371. PREVENTION OF ENCROACHMENT ON MILITARY** 11 **TRAINING ROUTES AND MILITARY OPER-** 12 **ATIONS AREAS.**

13 Section 183a of title 10, United States Code, is
14 amended—

15 (1) in subsection (c)(6), in the second sen-
16 tence—

17 (A) by striking “radar or airport surveil-
18 lance radar operated” and inserting “radar, air-
19 port surveillance radar, or wide area surveil-
20 lance over-the-horizon radar operated”; and

21 (B) by inserting “Any setback for a project
22 pursuant to the previous sentence shall not be
23 more than what is determined to be necessary
24 by a technical analysis conducted by the Lin-
25 coln Laboratory at the Massachusetts Institute

1 of Technology or any successor entity.” after
2 “mitigation options.”;

3 (2) in subsection (d)—

4 (A) in paragraph (2)(E), by striking “to a
5 Deputy Secretary of Defense, an Under Sec-
6 retary of Defense, or a Principal Deputy Under
7 Secretary of Defense” and inserting “to the
8 Deputy Secretary of Defense, an Under Sec-
9 retary of Defense, or a Deputy Under Secretary
10 of Defense”;

11 (B) by redesignating paragraph (3) as
12 paragraph (4); and

13 (C) by inserting after paragraph (2) the
14 following new paragraph (3):

15 “(3) The governor of a State may recommend to the
16 Secretary of Defense additional geographical areas of con-
17 cern within that State. Any such recommendation shall be
18 submitted for notice and comment pursuant to paragraph
19 (2)(C).”;

20 (3) in subsection (e)(3), by striking “an under
21 secretary of defense, or a deputy under secretary of
22 defense” and inserting “an Under Secretary of De-
23 fense, or a Deputy Under Secretary of Defense”;

24 (4) in subsection (f), in the first sentence, by
25 striking “from an applicant for a project filed with

1 the Secretary of Transportation pursuant to section
2 44718 of title 49” and inserting “from an entity re-
3 questing a review by the Clearinghouse under this
4 section”; and

5 (5) in subsection (h)—

6 (A) by redesignating paragraphs (3), (4),
7 (5), (6), and (7) as paragraphs (4), (5), (6),
8 (7), and (9), respectively;

9 (B) by inserting after paragraph (2) the
10 following new paragraph (3):

11 “(3) The term ‘governor’, with respect to a
12 State, means the chief executive officer of the
13 State.”;

14 (C) in paragraph (7), as redesignated by
15 subparagraph (A), by striking “by the Federal
16 Aviation Administration” and inserting “by the
17 Administrator of the Federal Aviation Adminis-
18 tration”; and

19 (D) by inserting after paragraph (7), as
20 redesignated by subparagraph (A), the following
21 new paragraph:

22 “(8) The term ‘State’ means the several States,
23 the District of Columbia, the Commonwealth of
24 Puerto Rico, the Commonwealth of the Northern

1 Mariana Islands, Guam, the United States Virgin
2 Islands, and American Samoa.”.

3 **SEC. 372. EXPANSION AND ENHANCEMENT OF AUTHORI-**
4 **TIES ON TRANSFER AND ADOPTION OF MILI-**
5 **TARY ANIMALS.**

6 (a) TRANSFER AND ADOPTION GENERALLY.—Sec-
7 tion 2583 of title 10, United States Code, is amended—

8 (1) in subsection (a)—

9 (A) in the subsection heading, by inserting
10 “TRANSFER OR” before “ADOPTION”; and

11 (B) by striking “adoption” each place it
12 appears and inserting “transfer or adoption”;

13 (2) in subsection (b)—

14 (A) in the subsection heading, by inserting
15 “TRANSFER OR” before “ADOPTION”; and

16 (B) in the first sentence, by striking
17 “adoption” and inserting “transfer or adop-
18 tion”; and

19 (C) in the second sentence, striking
20 “adoptability” and inserting “transferability or
21 adoptability”;

22 (3) in subsection (c)(1)—

23 (A) in the matter preceding subparagraph

24 (A)—

1 (i) by inserting “transfer or” before
2 “adoption”; and

3 (ii) by inserting “, by” after “rec-
4 ommended priority”;

5 (B) in subparagraphs (A) and (B), by in-
6 serting “adoption” before “by”;

7 (C) in subparagraph (B), by inserting “or
8 organizations” after “persons”; and

9 (D) in subparagraph (C), by striking “by”
10 and inserting “transfer to”; and

11 (4) in subsection (e)—

12 (A) in the subsection heading, by inserting
13 “OR ADOPTED” after “TRANSFERRED”;

14 (B) in paragraphs (1) and (2), by striking
15 “transferred” each place it appears and insert-
16 ing “transferred or adopted”; and

17 (C) in paragraph (2), by striking “trans-
18 fer” each place it appears and inserting “trans-
19 fer or adoption”.

20 (b) VETERINARY SCREENING AND CARE FOR MILI-
21 TARY WORKING DOGS TO BE RETIRED.—Such section is
22 further amended—

23 (1) by redesignating subsections (f), (g), and

24 (h) as subsections (g), (h), and (i), respectively; and

1 (2) by inserting after subsection (e) the fol-
2 lowing new subsection (f):

3 “(f) VETERINARY SCREENING AND CARE FOR MILI-
4 TARY WORKING DOGS TO BE RETIRED.—(1)(A) If the
5 Secretary of the military department concerned deter-
6 mines that a military working dog should be retired, such
7 Secretary shall transport the dog to the Veterinary Treat-
8 ment Facility at Lackland Air Force Base, Texas.

9 “(B) In the case of a contract working dog to be re-
10 tired, transportation required by subparagraph (A) is sat-
11 isfied by the transfer of the dog to the 341st Training
12 Squadron at the end of the dog’s service life as required
13 by section 2410r of this title and assignment of the dog
14 to the Veterinary Treatment Facility referred to in that
15 subparagraph.

16 “(2)(A) The Secretary of Defense shall ensure that
17 each dog transported as described in paragraph (1) to the
18 Veterinary Treatment Facility referred to in that para-
19 graph is provided with a full veterinary screening, and nec-
20 essary veterinary care (including surgery for any mental,
21 dental, or stress-related illness), before transportation of
22 the dog in accordance with subsection (g).

23 “(B) For purposes of this paragraph, stress-related
24 illness includes illness in connection with post-traumatic
25 stress, anxiety that manifests in a physical ailment, obses-

1 sive compulsive behavior, and any other stress-related ail-
2 ment.

3 “(3) Transportation is not required under paragraph
4 (1), and screening and care is not required under para-
5 graph (2), for a military working dog located outside the
6 United States if the Secretary of the military department
7 concerned determines that transportation of the dog to the
8 United States would not be in the best interests of the
9 dog for medical reasons.”.

10 (c) COORDINATION OF SCREENING AND CARE RE-
11 QUIREMENTS WITH TRANSPORTATION REQUIREMENTS.—
12 Subsection (g) of such section, as redesignated by sub-
13 section (b)(1) of this section, is amended to read as fol-
14 lows:

15 “(g) TRANSPORTATION OF RETIRING MILITARY
16 WORKING DOGS.—Upon completion of veterinary screen-
17 ing and care for a military working dog to be retired pur-
18 suant to subsection (f), the Secretary of the military de-
19 partment concerned shall—

20 “(1) if the dog was at a location outside the
21 United States immediately prior to transportation
22 for such screening and care and a United States cit-
23 izen or member of the armed forces living abroad
24 agrees to adopt the dog, transport the dog to such
25 location for adoption; or

1 “(2) for any other dog, transport the dog—
2 “(A) to the 341st Training Squadron;
3 “(B) to another location within the United
4 States for transfer or adoption under this sec-
5 tion.”.

6 (d) PRESERVATION OF POLICY ON TRANSFER OF
7 MILITARY WORKING DOGS TO LAW ENFORCEMENT
8 AGENCIES.—Subsection (h) of such section, as so redesign-
9 nated, is amended in paragraph (3) by striking “adoption
10 of military working dogs” and all that follows through the
11 period at the end and inserting “transfer of military work-
12 ing dogs to law enforcement agencies before the end of
13 the dogs’ useful working lives.”.

14 (e) CLARIFICATION OF HORSES TREATABLE AS MILI-
15 TARY ANIMALS.—Subsection (i) of such section, as so re-
16 designated, is amended by striking paragraph (2) and in-
17 serting the following new paragraph (2):

18 “(2) An equid (horse, mule, or donkey) owned
19 by the Department of Defense.”.

20 (f) CONTRACT TERM FOR CONTRACT WORKING
21 DOGS.—Section 2410r(a) of title 10, United States Code,
22 is amended—

23 (1) by inserting “, and shall contain a contract
24 term,” after “shall require”;

1 (2) by inserting “and assigned for veterinary
2 screening and care in accordance with section 2583
3 of this title” after “341st Training Squadron”; and

4 (3) by striking “section 2583 of this title” and
5 inserting “such section”.

6 **SEC. 373. EXTENSION OF AUTHORITY FOR SECRETARY OF**
7 **DEFENSE TO USE DEPARTMENT OF DEFENSE**
8 **REIMBURSEMENT RATE FOR TRANSPOR-**
9 **TATION SERVICES PROVIDED TO CERTAIN**
10 **NON-DEPARTMENT OF DEFENSE ENTITIES.**

11 Section 2642(b) of title 10, United States Code, is
12 amended by striking “October 1, 2019” and inserting
13 “October 1, 2024”.

14 **SEC. 374. EXTENSION OF AUTHORITY OF SECRETARY OF**
15 **TRANSPORTATION TO ISSUE NON-PREMIUM**
16 **AVIATION INSURANCE.**

17 Section 44310(b) of title 49, United States Code, is
18 amended by striking “December 31, 2019” and inserting
19 “September 30, 2023”.

20 **SEC. 375. DEFENSE PERSONAL PROPERTY PROGRAM.**

21 (a) REPORT ON PERSONAL PROPERTY PROGRAM IM-
22 PROVEDMENT ACTION PLAN.—

23 (1) IN GENERAL.—Not later than 180 days
24 after the date of the enactment of this Act, the
25 Under Secretary of Defense for Acquisition and

1 Sustainment and the Under Secretary of Defense for
2 Personnel and Readiness shall jointly submit to the
3 congressional defense committees a report on imple-
4 mentation of the Personal Property Program Im-
5 provement Action Plan that was developed by the
6 Personnel Relocation/Household Goods Movement
7 Cross-Functional Team.

8 (2) CONTENTS OF REPORT.—The report re-
9 quired under paragraph (1) shall include updated in-
10 formation on the efforts of the Department of De-
11 fense to—

12 (A) integrate permanent-change-of-station
13 orders with transportation systems;

14 (B) reduce the number of report dates dur-
15 ing peak moving season;

16 (C) synchronize the communication of in-
17 formation about orders to all parties involved,
18 including industry;

19 (D) improve lead time for permanent-
20 change-of-station orders;

21 (E) meet quality assurance inspection
22 standards;

23 (F) improve the claims review process; and

24 (G) incorporate predictive analytics to an-
25 ticipate potentially problematic shipments.

1 (3) BRIEFING.—Not later than 180 days after
2 the date of the enactment of this Act, the Under
3 Secretary of Defense for Acquisition and
4 Sustainment and the Assistant Secretary of Defense
5 for Personnel and Readiness shall jointly provide to
6 the congressional defense committees a briefing on
7 the report required under this subsection.

8 (b) BUSINESS CASE ANALYSIS.—Not later than 30
9 days after the date of the enactment of this Act, the Com-
10 mander of United States Transportation Command shall
11 submit to the congressional defense committees a business
12 case analysis for the proposed award of a global household
13 goods contract for the defense personal property program.

14 (c) GAO REPORT.—Not later than 30 days after the
15 date on which the Commander of United States Transpor-
16 tation Command submits the business case analysis re-
17 quired by subsection (b), the Comptroller General of the
18 United States shall submit to the congressional defense
19 committees a report on a comprehensive study conducted
20 by the Comptroller General that includes—

21 (1) an analysis of the effects that the outsourc-
22 ing of the management and oversight of the move-
23 ment of household goods to a private entity or enti-
24 ties would have on members of the Armed Forces
25 and their families;

1 at which the Secretary shall provide up-to-date informa-
2 tion about the Red Hill Bulk Fuel Storage Facility.

3 (b) **TERMINATION.**—The requirement to hold events
4 under subsection (a) shall terminate on the earlier of the
5 following dates:

6 (1) September 30, 2025.

7 (2) The date on which the Red Hill Bulk Fuel
8 Storage Facility ceases operation.

9 **SEC. 377. SENSE OF CONGRESS REGARDING INNOVATIVE**
10 **READINESS TRAINING PROGRAM.**

11 It is the sense of Congress that—

12 (1) the Innovative Readiness Training program
13 is an effective training program for members of the
14 Armed Forces and is highly beneficial to civilian-
15 military relationships with local American commu-
16 nities;

17 (2) due to the geographic complexities and re-
18 alities of non-contiguous States and territories, In-
19 novative Readiness Training has lent greater benefit
20 to such States and territories while providing unique
21 and realistic training opportunities and deployment
22 readiness for members of the Armed Forces;

23 (3) the Department of Defense should pursue
24 continued Innovative Readiness Training opportuni-
25 ties, and, where applicable, strongly encourage the

1 use of Innovative Readiness Training in non-contig-
2 uous States and territories; and

3 (4) in considering whether to recommend a
4 project, the Secretary should consider the benefits of
5 the project to the economy of a region damaged by
6 natural disasters.

7 **SEC. 378. DETONATION CHAMBERS FOR EXPLOSIVE ORD-**
8 **NANCE DISPOSAL.**

9 (a) IN GENERAL.—The Secretary of the Navy shall
10 purchase and operate a portable closed detonation cham-
11 ber and water jet cutting system to be deployed at a
12 former naval bombardment area located outside the conti-
13 nental United States that is part of an active remediation
14 program using amounts made available for environmental
15 restoration, Navy. Upon a determination by the Secretary
16 of the Navy that the chamber has completed the mission
17 of destroying appropriately sized munitions at such former
18 naval bombardment area, the Secretary may deploy the
19 chamber to another location.

20 (b) AUTHORIZATION OF APPROPRIATIONS.—There is
21 authorized to be appropriated for fiscal year 2020
22 \$10,000,000 to carry out subsection (a).

23 **TITLE IV—MILITARY**
24 **PERSONNEL AUTHORIZATIONS**

Subtitle A—Active Forces

Sec. 401. End strengths for active forces.

Sec. 402. Revisions in permanent active duty end strength minimum levels.

Subtitle B—Reserve Forces

Sec. 411. End strengths for Selected Reserve.

Sec. 412. End strengths for Reserves on active duty in support of the reserves.

Sec. 413. End strengths for military technicians (dual status).

Sec. 414. Maximum number of reserve personnel authorized to be on active duty for operational support.

Sec. 415. Authorized strengths for Marine Corps Reserves on active duty.

Sec. 416. Modification of authorized strength of Air Force Reserve serving on full-time reserve component duty for administration of the reserves or the National Guard.

Subtitle C—Authorization of Appropriations

Sec. 421. Military personnel.

1 **Subtitle A—Active Forces**

2 **SEC. 401. END STRENGTHS FOR ACTIVE FORCES.**

3 The Armed Forces are authorized strengths for active
4 duty personnel as of September 30, 2020, as follows:

5 (1) The Army, 480,000.

6 (2) The Navy, 340,500.

7 (3) The Marine Corps, 186,200.

8 (4) The Air Force, 332,800.

9 **SEC. 402. REVISIONS IN PERMANENT ACTIVE DUTY END**
10 **STRENGTH MINIMUM LEVELS.**

11 Section 691(b) of title 10, United States Code, is
12 amended by striking paragraphs (1) through (4) and in-
13 serting the following new paragraphs:

14 “(1) For the Army, 480,000.

15 “(2) For the Navy, 340,500.

16 “(3) For the Marine Corps, 186,200.

17 “(4) For the Air Force, 332,800.”.

1 **Subtitle B—Reserve Forces**

2 **SEC. 411. END STRENGTHS FOR SELECTED RESERVE.**

3 (a) IN GENERAL.—The Armed Forces are authorized
4 strengths for Selected Reserve personnel of the reserve
5 components as of September 30, 2020, as follows:

6 (1) The Army National Guard of the United
7 States, 336,000.

8 (2) The Army Reserve, 189,500.

9 (3) The Navy Reserve, 59,000.

10 (4) The Marine Corps Reserve, 38,500.

11 (5) The Air National Guard of the United
12 States, 107,700.

13 (6) The Air Force Reserve, 70,100.

14 (7) The Coast Guard Reserve, 7,000.

15 (b) END STRENGTH REDUCTIONS.—The end
16 strengths prescribed by subsection (a) for the Selected Re-
17 serve of any reserve component shall be proportionately
18 reduced by—

19 (1) the total authorized strength of units orga-
20 nized to serve as units of the Selected Reserve of
21 such component which are on active duty (other
22 than for training) at the end of the fiscal year; and

23 (2) the total number of individual members not
24 in units organized to serve as units of the Selected
25 Reserve of such component who are on active duty

1 (other than for training or for unsatisfactory partici-
2 pation in training) without their consent at the end
3 of the fiscal year.

4 (c) **END STRENGTH INCREASES.**—Whenever units or
5 individual members of the Selected Reserve of any reserve
6 component are released from active duty during any fiscal
7 year, the end strength prescribed for such fiscal year for
8 the Selected Reserve of such reserve component shall be
9 increased proportionately by the total authorized strengths
10 of such units and by the total number of such individual
11 members.

12 **SEC. 412. END STRENGTHS FOR RESERVES ON ACTIVE**
13 **DUTY IN SUPPORT OF THE RESERVES.**

14 Within the end strengths prescribed in section
15 411(a), the reserve components of the Armed Forces are
16 authorized, as of September 30, 2020, the following num-
17 ber of Reserves to be serving on full-time active duty or
18 full-time duty, in the case of members of the National
19 Guard, for the purpose of organizing, administering, re-
20 cruiting, instructing, or training the reserve components:

- 21 (1) The Army National Guard of the United
22 States, 30,595.
- 23 (2) The Army Reserve, 16,511.
- 24 (3) The Navy Reserve, 10,155.
- 25 (4) The Marine Corps Reserve, 2,386.

1 (5) The Air National Guard of the United
2 States, 22,637.

3 (6) The Air Force Reserve, 4,431.

4 **SEC. 413. END STRENGTHS FOR MILITARY TECHNICIANS**
5 **(DUAL STATUS).**

6 (a) IN GENERAL.—The minimum number of military
7 technicians (dual status) as of the last day of fiscal year
8 2020 for the reserve components of the Army and the Air
9 Force (notwithstanding section 129 of title 10, United
10 States Code) shall be the following:

11 (1) For the Army National Guard of the United
12 States, 22,294.

13 (2) For the Army Reserve, 6,492.

14 (3) For the Air National Guard of the United
15 States, 13,569.

16 (4) For the Air Force Reserve, 8,938.

17 (b) LIMITATION.—Under no circumstances may a
18 military technician (dual status) employed under the au-
19 thority of this section be coerced by a State into accepting
20 an offer of realignment or conversion to any other military
21 status, including as a member of the Active, Guard, and
22 Reserve program of a reserve component. If a military
23 technician (dual status) declines to participate in such re-
24 alignment or conversion, no further action will be taken
25 against the individual or the individual's position.

1 (c) ADJUSTMENT OF AUTHORIZED STRENGTH.—

2 (1) IN GENERAL.—If, at the end of fiscal year
3 2019, the Air National Guard of the United States
4 does not meet its full-time support realignment goals
5 for such fiscal year (as presented in the justification
6 materials of the Department of Defense in support
7 of the budget of the President for such fiscal year
8 under section 1105 of title 31, United States Code),
9 the authorized number of military technicians (dual
10 status) of the Air National Guard of the United
11 States under subsection (a)(3) shall be increased by
12 the number equal to the difference between—

13 (A) 3,190, which is the number of military
14 technicians (dual status) positions in the Air
15 National Guard of the United States sought to
16 be converted to the Active, Guard, and Reserve
17 program of the Air National Guard during fis-
18 cal year 2019; and

19 (B) the number of realigned positions
20 achieved in the Air National Guard by the end
21 of fiscal year 2019.

22 (2) LIMITATION.—The increase under para-
23 graph (1) in the authorized number of military tech-
24 nician (dual status) positions described in that para-
25 graph may not exceed 2,292.

1 (3) DECREASE IN AUTHORIZED NUMBER OF
2 ANGUS RESERVES ON ACTIVE DUTY IN SUPPORT OF
3 THE RESERVES.—In the event of an adjustment to
4 the authorized number military technicians (dual
5 status) of the Air National Guard of the United
6 States under this subsection, the number of mem-
7 bers of the Air National Guard of the United States
8 authorized by section 412(5) to be on active duty as
9 of September 30, 2020, shall be decreased by the
10 number equal to the number of such adjustment.

11 (d) CERTIFICATION.—Not later than January 1,
12 2020, the Chief of the National Guard Bureau shall cer-
13 tify to the Committees on Armed Services of the Senate
14 and House of Representatives the number of positions re-
15 aligned from a military technician (dual status) position
16 to a position in the Active, Guard, and Reserve program
17 of a reserve component in fiscal year 2019.

18 (e) DEFINITIONS.—In subsections (b), (c), and (d):

19 (1) The term “realigned position” means any
20 military technician (dual status) position which has
21 been converted or realigned to a position in an Ac-
22 tive, Guard, and Reserve program of a reserve com-
23 ponent under the full time support rebalancing plan
24 of the Armed Force concerned, regardless of whether
25 such position is encumbered.

1 (2) The term “Active, Guard, and Reserve pro-
2 gram”, in the case of a reserve component, means
3 the program of the reserve component under which
4 Reserves serve on full-time active duty or full-time
5 duty, in the case of members of the National Guard,
6 for the purpose of organizing, administering, recruit-
7 ing, instructing, or training such reserve component.

8 **SEC. 414. MAXIMUM NUMBER OF RESERVE PERSONNEL AU-**
9 **THORIZED TO BE ON ACTIVE DUTY FOR**
10 **OPERATIONAL SUPPORT.**

11 During fiscal year 2020, the maximum number of
12 members of the reserve components of the Armed Forces
13 who may be serving at any time on full-time operational
14 support duty under section 115(b) of title 10, United
15 States Code, is the following:

16 (1) The Army National Guard of the United
17 States, 17,000.

18 (2) The Army Reserve, 13,000.

19 (3) The Navy Reserve, 6,200.

20 (4) The Marine Corps Reserve, 3,000.

21 (5) The Air National Guard of the United
22 States, 16,000.

23 (6) The Air Force Reserve, 14,000.

1 **SEC. 415. AUTHORIZED STRENGTHS FOR MARINE CORPS**
 2 **RESERVES ON ACTIVE DUTY.**

3 (a) OFFICERS.—Section 12011(a)(1) of title 10,
 4 United States Code, is amended by striking those parts
 5 of the table pertaining to the Marine Corps Reserve and
 6 inserting the following:

7 “Marine Corps Reserve:

| | | | |
|-------------|-----|-----|------|
| 1,000 | 99 | 63 | 20 |
| 1,200 | 103 | 67 | 21 |
| 1,300 | 107 | 70 | 22 |
| 1,400 | 111 | 73 | 23 |
| 1,500 | 114 | 76 | 24 |
| 1,600 | 117 | 79 | 25 |
| 1,700 | 120 | 82 | 26 |
| 1,800 | 123 | 85 | 27 |
| 1,900 | 126 | 88 | 28 |
| 2,000 | 129 | 91 | 29 |
| 2,100 | 132 | 94 | 30 |
| 2,200 | 134 | 97 | 31 |
| 2,300 | 136 | 100 | 32 |
| 2,400 | 143 | 105 | 34 |
| 2,500 | 149 | 109 | 35 |
| 2,600 | 155 | 113 | 36 |
| 2,700 | 161 | 118 | 37 |
| 2,800 | 167 | 122 | 39 |
| 2,900 | 173 | 126 | 41 |
| 3,000 | 179 | 130 | 42”. |

8 (c) SENIOR ENLISTED MEMBERS.—Section 12012(a)
 9 of title 10, United States Code, is amended by striking
 10 those parts of the table pertaining to the Marine Corps
 11 Reserve and inserting the following:

12 “Marine Corps Reserve:

| | | |
|-------------|----|----|
| 1,100 | 50 | 11 |
| 1,200 | 55 | 12 |
| 1,300 | 60 | 13 |
| 1,400 | 65 | 14 |
| 1,500 | 70 | 15 |
| 1,600 | 75 | 16 |
| 1,700 | 80 | 17 |
| 1,800 | 85 | 18 |

| | | |
|-------------|-----|------|
| 1,900 | 89 | 19 |
| 2,000 | 93 | 20 |
| 2,100 | 96 | 21 |
| 2,200 | 99 | 22 |
| 2,300 | 101 | 23 |
| 2,400 | 106 | 24 |
| 2,500 | 112 | 25 |
| 2,600 | 116 | 26 |
| 2,700 | 121 | 27 |
| 2,800 | 125 | 28 |
| 2,900 | 130 | 29 |
| 3,000 | 134 | 30”. |

1 **SEC. 416. MODIFICATION OF AUTHORIZED STRENGTH OF**
 2 **AIR FORCE RESERVE SERVING ON FULL-TIME**
 3 **RESERVE COMPONENT DUTY FOR ADMINIS-**
 4 **TRATION OF THE RESERVES OR THE NA-**
 5 **TIONAL GUARD.**

6 (a) IN GENERAL.—The table in section 12011(a)(1)
 7 of title 10, United States Code, is amended by striking
 8 the matter relating to the Air Force Reserve and inserting
 9 the following new matter:

“Air Force Reserve

| | | | |
|--------|-------|-------|-------|
| 1,000 | 166 | 170 | 100 |
| 1,500 | 245 | 251 | 143 |
| 2,000 | 322 | 330 | 182 |
| 2,500 | 396 | 406 | 216 |
| 3,000 | 467 | 479 | 246 |
| 3,500 | 536 | 550 | 271 |
| 4,000 | 602 | 618 | 292 |
| 4,500 | 665 | 683 | 308 |
| 5,000 | 726 | 746 | 320 |
| 5,500 | 784 | 806 | 325 |
| 6,000 | 840 | 864 | 327 |
| 7,000 | 962 | 990 | 347 |
| 8,000 | 1,087 | 1,110 | 356 |
| 10,000 | 1,322 | 1,362 | 395”. |

1 (b) EFFECTIVE DATE.—The amendment made by
2 subsection (a) shall take effect on October 1, 2019, and
3 shall apply with respect to fiscal years beginning on or
4 after that date.

5 **Subtitle C—Authorization of**
6 **Appropriations**

7 **SEC. 421. MILITARY PERSONNEL.**

8 (a) AUTHORIZATION OF APPROPRIATIONS.—Funds
9 are hereby authorized to be appropriated for fiscal year
10 2020 for the use of the Armed Forces and other activities
11 and agencies of the Department of Defense for expenses,
12 not otherwise provided for, for military personnel, as spec-
13 ified in the funding table in section 4401.

14 (b) CONSTRUCTION OF AUTHORIZATION.—The au-
15 thorization of appropriations in subsection (a) supersedes
16 any other authorization of appropriations (definite or in-
17 definite) for such purpose for fiscal year 2020.

18 **TITLE V—MILITARY PERSONNEL**
19 **POLICY**

Subtitle A—Officer Personnel Policy

Sec. 501. Maker of original appointments in a regular or reserve component of
commissioned officers previously subject to original appoint-
ment in other type of component.

Sec. 502. Furnishing of adverse information on officers to promotion selection
boards.

Sec. 503. Limitation on number of officers recommendable for promotion by
promotion selection boards.

Sec. 504. Expansion of authority for continuation on active duty of officers in
certain military specialties and career tracks.

Sec. 505. Management policies for joint qualified officers.

- Sec. 506. Modification of authorities on management of deployments of members of the Armed Forces and related unit operating and personnel tempo matters.
- Sec. 507. Personnel tempo of the Armed Forces and the United States Special Operations Command during periods of inapplicability of high-deployment limitations.
- Sec. 508. Permanent authority to defer past age 64 the retirement of chaplains in general and flag officer grades.
- Sec. 509. Higher grade in retirement for officers following reopening of determination or certification of retired grade.
- Sec. 510. Authority of promotion boards to recommend that officers of particular merit be placed higher on promotion list.
- Sec. 510A. Availability on the internet of certain information about officers serving in general or flag officer grades.
- Sec. 510B. Functional badge or insignia upon commission for chaplains.

Subtitle B—Reserve Component Management

- Sec. 511. Modification of grade level threshold for Junior Reserve Officers' Training Corps.
- Sec. 512. Inclusion of STEM in courses of instruction for the Junior Reserve Officers' Training Corps.
- Sec. 513. Inclusion of homeschooled students in Junior Reserve Officers' Training Corps units.
- Sec. 514. Clarification of eligibility to serve as Commander, Marine Forces Reserve.
- Sec. 515. Extension and periodic evaluation of suicide prevention and resilience program for the reserve components.
- Sec. 516. Authority to defer mandatory separation at age 68 of officers in medical specialties in the reserve components.
- Sec. 517. Modernization of inspection authorities applicable to the National Guard.
- Sec. 518. Consultation with Chief of the National Guard Bureau in the appointment or designation of National Guard property and fiscal officers.
- Sec. 519. Coast Guard Junior Reserve Officers' Training Corps.
- Sec. 520. Repeal of requirement for review of certain Army Reserve officer unit vacancy promotions by commanders of associated active duty units.
- Sec. 520A. Report on methods to enhance domestic response to large scale, complex and catastrophic disasters.
- Sec. 520B. Report and briefing on the Senior Reserve Officers' Training Corps.
- Sec. 520C. Sense of Congress on increase in number of Junior Reserve Officers' Training Corps units.

Subtitle C—General Service Authorities and Correction of Military Records

- Sec. 521. Advice and counsel of trauma experts in review by boards for correction of military records and discharge review boards of certain claims.
- Sec. 522. Reduction in required number of members of discharge review boards.
- Sec. 523. Establishment of process to review a request for upgrade of discharge or dismissal.
- Sec. 524. Prohibition on reduction in the number of personnel assigned to duty with a service review agency.

- Sec. 525. Training of members of boards for correction of military records and discharge review boards on sexual trauma, intimate partner violence, spousal abuse, and related matters.
- Sec. 526. Time requirements for certification of honorable service.
- Sec. 527. Correction of certain discharge characterizations.
- Sec. 528. Development of guidelines for use of unofficial sources of information to determine eligibility of members and former members of the Armed Forces for decorations when the service records are incomplete because of damage to the official record.
- Sec. 529. Strategic plan for diversity and inclusion.
- Sec. 530. Study regarding screening individuals who seek to enlist in the Armed Forces.
- Sec. 530A. Feasibility study regarding notification to Secretary of Homeland Security of honorable discharges of non-citizens.
- Sec. 530B. Sense of Congress regarding accession physicals.

Subtitle D—Military Justice

- Sec. 531. Expansion of pre-referral matters reviewable by military judges and military magistrates in the interest of efficiency in military justice.
- Sec. 532. Command influence.
- Sec. 533. Statute of limitations for certain offenses.
- Sec. 534. Public access to dockets, filings, and court records of courts-martial or other records of trial of the military justice system.
- Sec. 535. Extension of Defense Advisory Committee on Investigation, Prosecution, and Defense of Sexual Assault in the Armed Forces.
- Sec. 536. Authority for return of personal property to victims of sexual assault who file a Restricted Report before conclusion of related proceedings.
- Sec. 537. Guidelines on sentences for offenses committed under the Uniform Code of Military Justice.
- Sec. 538. Notification of significant events and documentation of preference for prosecution jurisdiction for victims of sexual assault.
- Sec. 539. Increase in number of digital forensic examiners for certain military criminal investigative organizations.
- Sec. 540. Increase in investigative personnel and Victim Witness Assistance Program liaisons.
- Sec. 540A. Training for sexual assault initial disposition authorities on exercise of disposition authority for sexual assault and collateral offenses.
- Sec. 540B. Training for commanders in the Armed Forces on their role in all stages of military justice in connection with sexual assault.
- Sec. 540C. Timely disposition of nonprosecutable sex-related offenses.
- Sec. 540D. Department of Defense-wide policy and military department-specific programs on reinvigoration of the prevention of sexual assault involving members of the Armed Forces.
- Sec. 540E. Recommendations on separate punitive article in the Uniform Code of Military Justice on sexual harassment.
- Sec. 540F. Report on military justice system involving alternative authority for determining whether to prefer or refer changes for felony offenses under the Uniform Code of Military Justice.
- Sec. 540G. Report on standardization among the military departments in collection and presentation of information on matters within the military justice system.

- Sec. 540H. Report on expansion of Air Force safe to report policy across the Armed Forces.
- Sec. 540I. Assessment of racial, ethnic, and gender disparities in the military justice system.
- Sec. 540J. Pilot programs on defense investigators in the military justice system.
- Sec. 540K. Report on preservation of recourse to restricted report on sexual assault for victims of sexual assault following certain victim or third-party communications.
- Sec. 540L. Report on establishment of guardian ad litem program for certain military dependents who are a victim or witness of an offense under the Uniform Code of Military Justice involving abuse or exploitation.
- Sec. 540M. Comptroller General of the United States report on implementation by the Armed Forces of recent statutory requirements on sexual assault prevention and response in the military.
- Sec. 540N. Sense of Congress on the Port Chicago 50.

Subtitle E—Other Legal Matters

- Sec. 541. Improvement of certain Special Victims' Counsel authorities.
- Sec. 542. Availability of Special Victims' Counsel at military installations.
- Sec. 543. Notification of issuance of military protective order to civilian law enforcement.
- Sec. 544. Copyright protection for civilian faculty of certain accredited institutions.
- Sec. 545. Termination of leases of premises and motor vehicles of servicemembers who incur catastrophic injury or illness or die while in military service.
- Sec. 546. Military orders required for termination of leases pursuant to the Servicemembers Civil Relief Act.
- Sec. 547. Preservation of right to bring class action under Servicemembers Civil Relief Act.
- Sec. 548. Legal counsel for victims of alleged domestic violence offenses.
- Sec. 549. Notice to victims of alleged sexual assault of pendency of further administrative action following a determination not to refer to trial by court-martial.
- Sec. 550. Treatment of information in Catch a Serial Offender Program for certain purposes.
- Sec. 550A. Policies and procedures on registration at military installations of civilian protective orders applicable to members of the Armed Forces assigned to such installations and certain other individuals.
- Sec. 550B. Defense Advisory Committee for the Prevention of Sexual Misconduct.
- Sec. 550C. Training for Special Victims' Counsel on civilian criminal justice matters in the States of the military installations to which assigned.
- Sec. 550D. Enhancing the capability of military criminal investigative organizations to prevent and combat child sexual exploitation.
- Sec. 550E. Feasibility study on establishment of database of military protective orders.
- Sec. 550F. GAO review of USERRA and SCRA.

Subtitle F—Member Education

- Sec. 551. Authority for detail of certain enlisted members of the Armed Forces as students at law schools.
- Sec. 552. Inclusion of Coast Guard in Department of Defense STARBASE Program.
- Sec. 553. Degree granting authority for United States Army Armament Graduate School; limitation on establishment of certain educational institutions.
- Sec. 554. Prohibition on off-duty employment for cadets and midshipmen completing obligated service after graduation.
- Sec. 555. Consideration of request for transfer of a cadet or midshipman at a military service academy who is the victim of a sexual assault or related offense.
- Sec. 556. Redesignation of the Commandant of the United States Air Force Institute of Technology as the Director and Chancellor of such Institute.
- Sec. 557. Eligibility of additional enlisted members for associate degree programs of the Community College of the Air Force.
- Sec. 558. Speech disorders of cadets and midshipmen.
- Sec. 559. Requirement to continue provision of tuition assistance for members of the Armed Forces.
- Sec. 560. Information on institutions of higher education participating in the Department of Defense Tuition Assistance Program.
- Sec. 560A. Inclusion of information on free credit monitoring in annual financial literacy briefing.
- Sec. 560B. Programs to facilitate the award of private pilot's certificates.

Subtitle G—Member Training and Transition

- Sec. 561. Requirement to provide information regarding benefits claims to members during TAP counseling.
- Sec. 562. Participation of other Federal agencies in the SkillBridge apprenticeship and internship program for members of the Armed Forces.
- Sec. 563. First modification of elements of report on the improved Transition Assistance Program.
- Sec. 564. Second modification of elements of report on the improved Transition Assistance Program.
- Sec. 565. Prohibition on gender-segregated training at Marine Corps Recruit Depots.
- Sec. 566. Assessment of deaths of recruits under the jurisdiction of the Secretaries of the military departments.
- Sec. 567. Review of Department of Defense training programs regarding disinformation campaigns.
- Sec. 568. Command matters in connection with transition assistance programs.
- Sec. 569. Machine readability and electronic transferability of Certificate of Release or Discharge from Active Duty (DD Form 214).
- Sec. 570. Records of service for Reserves.
- Sec. 570A. Limitations and requirements in connection with separations for members of the Armed Forces who suffer from mental health conditions in connection with a sex-related, intimate partner violence-related, or spousal-abuse offense.
- Sec. 570B. Prohibition on involuntary separation of certain members of the Armed Forces; consideration of military service in removal determinations.

- Sec. 570C. Inclusion of question regarding immigration status on pre-separation counseling checklist (DD Form 2648).
- Sec. 570D. Counseling for members of the Armed Forces who are not citizens of the United States on naturalization in the United States.
- Sec. 570E. Pilot program on information sharing between Department of Defense and designated relatives and friends of members of the Armed Forces regarding the experiences and challenges of military service.
- Sec. 570F. Connections of members retiring or separating from the Armed Forces with community-based organizations and related entities.
- Sec. 570G. Pilot program regarding online application for the Transition Assistance Program.

Subtitle H—Military Family Readiness and Dependents' Education

- Sec. 571. Authorizing members to take leave for a birth or adoption in more than one increment.
- Sec. 572. Deferred deployment for members who give birth.
- Sec. 573. Authority of the Secretary concerned to transport remains of a covered decedent to no more than two places selected by the person designated to direct disposition of the remains.
- Sec. 574. Military funeral honors matters.
- Sec. 575. Improvement of occupational license portability for relocated spouses of members of the uniformed services.
- Sec. 576. Continued eligibility for education and training opportunities for spouses of promoted members.
- Sec. 577. Modification to authority to reimburse for State licensure and certification costs of a spouse of a servicemember arising from relocation.
- Sec. 578. Clarification regarding eligibility to transfer entitlement under Post-9/11 Educational Assistance Program.
- Sec. 579. Annual State report card.
- Sec. 580. Improvements to child care for members of the Armed Forces.
- Sec. 580A. Transportation of remains of casualties; travel expenses for next of kin.
- Sec. 580B. Meetings of officials of the Department of Defense with representative groups of survivors of deceased members of the Armed Forces.
- Sec. 580C. Information and opportunities for registration for voting and absentee ballot requests for members of the Armed Forces undergoing deployment overseas.
- Sec. 580D. Study on two-way military ballot barcode tracking.
- Sec. 580E. Assistance to schools with military dependent students.
- Sec. 580F. First expansion of the My Career Advancement Account program for military spouses.
- Sec. 580G. Second expansion of the My Career Advancement Account program for military spouses.
- Sec. 580H. Report on training and support available to military spouses.
- Sec. 580I. Ri'katak Guest Student Program at United States Army Garrison—Kwajalein Atoll.

Subtitle I—Decorations and Awards

- Sec. 581. Modification of authorities on eligibility for and replacement of gold star lapel buttons.

1 Code, is amended by striking “the Secretary concerned”
2 and inserting “the Secretary of Defense”.

3 (b) MAKER OF RESERVE APPOINTMENTS IN TRANS-
4 FER FROM ACTIVE-DUTY LIST TO RESERVE ACTIVE-STA-
5 TUS LIST.—Section 12203(b) of such title is amended by
6 striking “the Secretary concerned” and inserting “the
7 Secretary of Defense”.

8 (c) REPORT.—Not later than April 1, 2020, the Sec-
9 retary of Defense shall submit to the Committees on
10 Armed Services of the Senate and the House of Represent-
11 atives a report setting forth the following:

12 (1) The average number per fiscal year, during
13 fiscal years 2010 through 2019, of transfers of ap-
14 pointment from regular officer to reserve officer in
15 the Armed Forces, set forth by each of transfers re-
16 quiring and transfers not requiring appointment by
17 and with the advice and consent of the Senate.

18 (2) The average amount of time required per
19 fiscal year, during such fiscal years, for completion
20 of a transfer of appointment from regular officer to
21 reserve officer in situations not requiring appoint-
22 ment by and with the advice and consent of the Sen-
23 ate.

24 (3) An assessment of the number of officers
25 who experience a break-in-service due to delays in

1 transfer of appointment from regular officer to re-
2 serve officer as a result of the requirement for ap-
3 pointment by and with the advice and consent of the
4 Senate.

5 (4) An assessment of the feasibility and advis-
6 ability of each of the following:

7 (A) Appointment of regular officers as
8 both a regular officer and a reserve officer im-
9 mediately upon commissioning.

10 (B) Consolidation of the provisions of title
11 10, United States Code, relating to appoint-
12 ment as a regular or reserve officer in a man-
13 ner designed to facilitate and improve officer
14 retention.

15 (5) Such other recommendations for legislative
16 or administrative action as the Secretary considers
17 appropriate to improve the rapid transfer of appoint-
18 ment of an officer from regular status to reserve sta-
19 tus.

20 **SEC. 502. FURNISHING OF ADVERSE INFORMATION ON OF-**
21 **FICERS TO PROMOTION SELECTION BOARDS.**

22 (a) EXPANSION OF GRADES OF OFFICERS FOR
23 WHICH INFORMATION IS FURNISHED.—Section 615(a)(3)
24 of title 10, United States Code, is amended—

25 (1) by inserting “(A)” after “(3)”;

1 (2) in subparagraph (A), as designated by para-
2 graph (1), by striking “a grade above colonel or, in
3 the case of the Navy, captain” and inserting “a
4 grade specified in subparagraph (B)”; and

5 (3) by adding at the end the following new sub-
6 paragraph:

7 “(B) A grade specified in this subparagraph is as fol-
8 lows:

9 “(i) In the case of a regular officer, a grade
10 above captain or, in the case of the Navy, lieutenant.

11 “(ii) In the case of a reserve officer, a grade
12 above lieutenant colonel or, in the case of the Navy,
13 commander.”.

14 (b) FURNISHING AT EVERY PHASE OF CONSIDER-
15 ATION.—Such section is further amended by adding at the
16 end the following new subparagraph:

17 “(C) The standards and procedures referred to in
18 subparagraph (A) shall require the furnishing to the selec-
19 tion board, and to each individual member of the board,
20 the information described in that subparagraph with re-
21 gard to an officer in a grade specified in subparagraph
22 (B) at each stage or phase of the selection board, concu-
23 rent with the screening, rating, assessment, evaluation,
24 discussion, or other consideration by the board or member

1 of the official military personnel file of the officer, or of
2 the officer.”.

3 (c) EFFECTIVE DATE.—The amendments made by
4 this section shall take effect on the date of the enactment
5 of this Act, and shall apply with respect to the proceedings
6 of promotion selection boards convened under section
7 611(a) of title 10, United States Code, after that date.

8 **SEC. 503. LIMITATION ON NUMBER OF OFFICERS REC-**
9 **COMMENDABLE FOR PROMOTION BY PRO-**
10 **MOTION SELECTION BOARDS.**

11 (a) IN GENERAL.—Section 616 of title 10, United
12 States Code is amended—

13 (1) by redesignating subsections (d), (e), (f),
14 and (g) as subsections (e), (f), (g), and (h), respec-
15 tively; and

16 (2) by inserting after subsection (c) the fol-
17 lowing new subsection (d):

18 “(d) The number of officers recommended for pro-
19 motion by a selection board convened under section 611(a)
20 of this title may not exceed the number equal to 95 per-
21 cent of the number of officers included in the promotion
22 zone established under section 623 of this title for consid-
23 eration by the board.”.

24 (b) EFFECTIVE DATE.—The amendments made by
25 this section shall take effect on the date of the enactment

1 of this Act, and shall apply with respect to consideration
2 by promotion selection boards convened under section
3 611(a) of title 10, United States Code, of promotion zones
4 that are established under section 623 of that title on or
5 after that date.

6 **SEC. 504. EXPANSION OF AUTHORITY FOR CONTINUATION**
7 **ON ACTIVE DUTY OF OFFICERS IN CERTAIN**
8 **MILITARY SPECIALTIES AND CAREER**
9 **TRACKS.**

10 Section 637a(a) of title 10, United States Code, is
11 amended by inserting “separation or” after “provided for
12 the”.

13 **SEC. 505. MANAGEMENT POLICIES FOR JOINT QUALIFIED**
14 **OFFICERS.**

15 Section 661(d)(3)(B) of title 10, United States Code,
16 is amended in the third sentence by inserting “or a des-
17 ignee of the Chairman who is an officer of the armed
18 forces in grade O-9 or higher” before the period.

19 **SEC. 506. MODIFICATION OF AUTHORITIES ON MANAGE-**
20 **MENT OF DEPLOYMENTS OF MEMBERS OF**
21 **THE ARMED FORCES AND RELATED UNIT OP-**
22 **ERATING AND PERSONNEL TEMPO MATTERS.**

23 (a) **LIMITATION ON SCOPE OF DELEGATIONS OF AP-**
24 **PROVAL OF EXCEPTIONS TO DEPLOYMENT THRESH-**
25 **OLDS.**—Paragraph (3) of section 991(a) of title 10,

1 United States Code, is amended by striking “be delegated
2 to—” and all that follows and inserting “be delegated to
3 a civilian officer of the Department of Defense appointed
4 by the President, by and with the advice and consent of
5 the Senate.”.

6 (b) SEPARATE POLICIES ON DWELL TIME FOR REG-
7 ULAR AND RESERVE MEMBERS.—Paragraph (4) of such
8 section is amended—

9 (1) by striking “addresses the amount” and in-
10 sserting “addresses each of the following:

11 “(A) The amount.”;

12 (2) in subparagraph (A), as designated by para-
13 graph (1), by inserting “regular” before “member”;
14 and

15 (3) by adding at the end the following new sub-
16 paragraph:

17 “(B) The amount of dwell time a reserve mem-
18 ber of the armed forces remains at the member’s
19 permanent duty station after completing a deploy-
20 ment of 30 days or more in length.”.

1 **SEC. 507. PERSONNEL TEMPO OF THE ARMED FORCES AND**
2 **THE UNITED STATES SPECIAL OPERATIONS**
3 **COMMAND DURING PERIODS OF INAPPLICA-**
4 **BILITY OF HIGH-DEPLOYMENT LIMITATIONS.**

5 (a) IN GENERAL.—Section 991(d) of title 10, United
6 States Code, is amended—

7 (1) by inserting “(1)” before “The Secretary”;

8 and

9 (2) by adding at the end the following new
10 paragraph:

11 “(2)(A) Whenever a waiver is in effect under para-
12 graph (1), the member or group of members covered by
13 the waiver shall be subject to specific and measurable de-
14 ployment thresholds established and maintained for pur-
15 poses of this subsection.

16 “(B) Thresholds under this paragraph may be appli-
17 cable—

18 “(i) uniformly, Department of Defense-wide; or

19 “(ii) separately, with respect to each armed
20 force or the United States Special Operations Com-
21 mand.

22 “(C) If thresholds under this paragraph are applica-
23 ble Department-wide, such thresholds shall be established
24 and maintained by the Under Secretary of Defense for
25 Personnel and Readiness. If such thresholds are applicable
26 only to one armed force or the Under States Special Oper-

1 ations Command, such thresholds shall be established and
2 maintained respectively by the Secretary of the Army, the
3 Secretary of the Navy (other than with respect to the Ma-
4 rine Corps), the Secretary of the Air Force, the Com-
5 mandant of the Marine Corps (with respect to the Marine
6 Corps), and the Commander of the United States Special
7 Operations Command, as applicable.

8 “(D) In undertaking recordkeeping for purposes of
9 subsection (c), the Under Secretary shall, in conjunction
10 with the officials and officers referred to in subparagraph
11 (C), collect complete and reliable personnel tempo data of
12 members described in subparagraph (A) in order to ensure
13 that the Department, the armed forces, and the United
14 States Special Operations Command fully and completely
15 monitor personnel tempo under any waiver authorized
16 under paragraph (1) and the effect of such waiver on the
17 armed forces.”.

18 (b) DEADLINE FOR IMPLEMENTATION.—Paragraph
19 (2) of section 991(d) of title 10, United States Code, as
20 added by subsection (a), shall be fully implemented by not
21 later than March 1, 2020.

1 **SEC. 508. PERMANENT AUTHORITY TO DEFER PAST AGE 64**
2 **THE RETIREMENT OF CHAPLAINS IN GEN-**
3 **ERAL AND FLAG OFFICER GRADES.**

4 Section 1253(c) of title 10, United States Code, is
5 amended by striking paragraph (3).

6 **SEC. 509. HIGHER GRADE IN RETIREMENT FOR OFFICERS**
7 **FOLLOWING REOPENING OF DETERMINA-**
8 **TION OR CERTIFICATION OF RETIRED**
9 **GRADE.**

10 (a) **ADVICE AND CONSENT OF SENATE REQUIRED**
11 **FOR HIGHER GRADE.**—Section 1370(f) of title 10, United
12 States Code, is amended—

13 (1) by redesignating paragraph (5) as para-
14 graph (6); and

15 (2) by inserting after paragraph (4) the fol-
16 lowing new paragraph (5):

17 “(5) If the retired grade of an officer is proposed to
18 be increased through the reopening of the determination
19 or certification of officer’s retired grade, the increase in
20 the retired grade shall be made by the Secretary of De-
21 fense, by and with the advice and consent of the Senate.”.

22 (b) **RECALCULATION OF RETIRED PAY.**—Paragraph
23 (6) of such section, as redesignated by subsection (a)(1),
24 is amended—

25 (1) by inserting “or increased” after “reduced”;

1 “(f) HIGHER PLACEMENT OF OFFICERS OF PAR-
2 TICULAR MERIT ON PROMOTION LIST.—(1) In selecting
3 officers to be recommended for promotion, a promotion
4 board may, when authorized by the Secretary concerned,
5 recommend that officers of particular merit, from among
6 those officers selected for promotion, be placed higher on
7 the promotion list established by the Secretary under sec-
8 tion 14308(a) of this title.

9 “(2) A promotion board may make a recommendation
10 under paragraph (1) only if an officer receives the rec-
11 ommendation of—

12 “(A) a majority of the members of the pro-
13 motion board; or

14 “(B) an alternative requirement established by
15 the Secretary concerned and furnished to the pro-
16 motion board as part of the guidelines under section
17 14107 of this title.

18 “(3) For officers who receive recommendations under
19 paragraph (1), the board shall recommend the order in
20 which those officers should be placed on the promotion
21 list.”.

22 (b) REPORTS REGARDING RECOMMENDATIONS THAT
23 OFFICERS OF PARTICULAR MERIT BE PLACED HIGHER
24 ON PROMOTION LIST.—Section 14109 of such title is

1 amended by adding at the end the following new sub-
2 section:

3 “(d) REPORT OF OFFICERS RECOMMENDED FOR
4 HIGHER PLACEMENT ON PROMOTION LIST.—A pro-
5 motion board convened under section 14101(a) of this title
6 shall, when authorized under section 14108(f) of this title,
7 include in its report to the Secretary concerned—

8 “(1) the names of those officers the promotion
9 board recommends be placed higher on the pro-
10 motion list; and

11 “(2) the order in which the promotion board
12 recommends those officers should be placed on the
13 promotion list.”.

14 (e) OFFICERS OF PARTICULAR MERIT APPEARING
15 HIGHER ON PROMOTION LIST.—Section 14308(a) of such
16 title is amended in the first sentence by inserting “or
17 based on particular merit, as determined by the promotion
18 board” before the period.

19 **SEC. 510A. AVAILABILITY ON THE INTERNET OF CERTAIN**
20 **INFORMATION ABOUT OFFICERS SERVING IN**
21 **GENERAL OR FLAG OFFICER GRADES.**

22 (a) AVAILABILITY REQUIRED.—

23 (1) IN GENERAL.—The Secretary of each mili-
24 tary department shall make available on an internet
25 website of such department available to the public

1 information specified in paragraph (2) on each offi-
2 cer in a general or flag officer grade under the juris-
3 diction of such Secretary, including any such officer
4 on the reserve active-status list.

5 (2) INFORMATION.—The information on an of-
6 ficer specified by this paragraph to be made avail-
7 able pursuant to paragraph (1) is the information as
8 follows:

9 (A) The officer's name.

10 (B) The officer's current grade, duty posi-
11 tion, command or organization, and location of
12 assignment.

13 (C) A summary list of the officer's past
14 duty assignments while serving in a general or
15 flag officer grade.

16 (b) ADDITIONAL PUBLIC NOTICE ON CERTAIN OFFI-
17 CERS.—Whenever an officer in a grade of O-7 or above
18 is assigned to a new billet or reassigned from a current
19 billet, the Secretary of the military department having ju-
20 risdiction of such officer shall make available on an inter-
21 net website of such department available to the public a
22 notice of such assignment or reassignment.

23 (c) LIMITATION ON WITHHOLDING OF CERTAIN IN-
24 FORMATION OR NOTICE.—

1 (1) LIMITATION.—The Secretary of a military
2 department may not withhold the information or no-
3 tice specified in subsections (a) and (b) from public
4 availability pursuant to subsection (a), unless and
5 until the Secretary notifies the Committees on
6 Armed Services of the Senate and House of Rep-
7 resentatives in writing of the information or notice
8 that will be so withheld, together with justification
9 for withholding the information or notice from public
10 availability.

11 (2) LIMITED DURATION OF WITHHOLDING.—
12 The Secretary concerned may withhold from the
13 public under paragraph (1) information or notice on
14 an officer only on the basis of individual risk or na-
15 tional security, and may continue to withhold such
16 information or notice only for so long as the basis
17 for withholding remains in force.

18 **SEC. 510B. FUNCTIONAL BADGE OR INSIGNIA UPON COM-**
19 **MISSION FOR CHAPLAINS.**

20 A military chaplain shall receive a functional badge
21 or insignia upon commission.

1 **Subtitle B—Reserve Component**
2 **Management**

3 **SEC. 511. MODIFICATION OF GRADE LEVEL THRESHOLD**
4 **FOR JUNIOR RESERVE OFFICERS' TRAINING**
5 **CORPS.**

6 Section 2031(b)(1) of title 10, United States Code,
7 is amended by striking “above the 8th grade” each place
8 it appears and inserting “above the 7th grade and phys-
9 ically co-located with the 9th grade participating unit”.

10 **SEC. 512. INCLUSION OF STEM IN COURSES OF INSTRU-**
11 **CTION FOR THE JUNIOR RESERVE OFFICERS'**
12 **TRAINING CORPS.**

13 (a) **IN GENERAL.**—Section 2031(b)(3) of title 10,
14 United States Code, is amended by inserting “and which
15 may include instruction or activities in the fields of
16 science, technology, engineering, and mathematics” after
17 “duration”.

18 (b) **EFFECTIVE DATE.**—The amendment made by
19 subsection (a) shall take effect 180 days after the date
20 of the enactment of this Act.

1 **SEC. 513. INCLUSION OF HOMESCHOOLED STUDENTS IN**
2 **JUNIOR RESERVE OFFICERS' TRAINING**
3 **CORPS UNITS.**

4 Section 2031 of title 10, United States Code, is
5 amended by adding at the end the following new sub-
6 section:

7 “(g)(1) Each public secondary educational institution
8 that maintains a unit under this section shall permit mem-
9 bership in the unit to homeschooled students residing in
10 the area served by the institution who are qualified for
11 membership in the unit (but for lack of enrollment in the
12 institution).

13 “(2) A student who is a member of a unit pursuant
14 to this subsection shall count toward the satisfaction by
15 the institution concerned of the requirement in subsection
16 (b)(1) relating to the minimum number of student mem-
17 bers in the unit necessary for the continuing maintenance
18 of the unit.”.

19 **SEC. 514. CLARIFICATION OF ELIGIBILITY TO SERVE AS**
20 **COMMANDER, MARINE FORCES RESERVE.**

21 (a) IN GENERAL.—Section 8084(b)(1) of title 10,
22 United States Code, is amended by striking “general offi-
23 cers of the Marine Corps (as defined in section 8001(2))”
24 and inserting “general officers of the Marine Corps Re-
25 serve”.

1 (b) EFFECTIVE DATE.—The amendment made by
2 subsection (a) shall take effect on the date that is one
3 year after the date of the enactment of this Act and shall
4 apply to appointments made after such date.

5 **SEC. 515. EXTENSION AND PERIODIC EVALUATION OF SUI-**
6 **CIDE PREVENTION AND RESILIENCE PRO-**
7 **GRAM FOR THE RESERVE COMPONENTS.**

8 Section 10219 of title 10, United States Code, is
9 amended—

10 (1) by redesignating subsection (g) as sub-
11 section (h);

12 (2) in subsection (h), as redesignated by para-
13 graph (1), by striking “2020” and inserting “2025”;
14 and

15 (3) by inserting after subsection (f) the fol-
16 lowing new subsection (g):

17 “(g) TRIENNIAL EVALUATION.—The Secretary shall
18 evaluate the program every third year beginning in 2022
19 until the program terminates to determine whether the
20 program effectively—

21 “(1) provides training and assistance under
22 subsections (b), (c), and (d); and

23 “(2) implements subsection (e).”.

1 **SEC. 516. AUTHORITY TO DEFER MANDATORY SEPARATION**
2 **AT AGE 68 OF OFFICERS IN MEDICAL SPE-**
3 **CIALTIES IN THE RESERVE COMPONENTS.**

4 Section 14703(b) of title 10, United States Code, is
5 amended—

6 (1) by striking “An” and inserting “(1) Subject
7 to paragraph (2), an”; and

8 (2) by adding at the end the following new
9 paragraph (2):

10 “(2) The Secretary concerned may, with the consent
11 of the officer, retain in an active status an officer in a
12 medical specialty described in subsection (a) beyond the
13 date described in paragraph (1) of this subsection if the
14 Secretary concerned determines that such retention is nec-
15 essary to the military department concerned. Each such
16 retention shall be made on a case-by-case basis and for
17 such period as the Secretary concerned determines appro-
18 priate.”.

19 **SEC. 517. MODERNIZATION OF INSPECTION AUTHORITIES**
20 **APPLICABLE TO THE NATIONAL GUARD.**

21 (a) MODERNIZATION OF INSPECTION AUTHORITIES
22 OF SECRETARIES OF THE ARMY AND AIR FORCE.—Sub-
23 section (a) of section 105 of title 32, United States Code,
24 is amended—

25 (1) in the matter preceding paragraph (1)—

1 (A) by striking “by him, the Secretary of
2 the Army shall have” and inserting “by such
3 Secretary, the Secretary of the Army and the
4 Secretary of the Air Force shall each have”;

5 (B) by striking “, if necessary,”; and

6 (C) by striking “the Regular Army” and
7 inserting “the Regular Army or the Regular Air
8 Force”;

9 (2) by striking “Army National Guard” each
10 place it appears and inserting “Army National
11 Guard or Air National Guard”; and

12 (3) by striking the flush matter following para-
13 graph (7).

14 (b) INSPECTION AUTHORITY OF CHIEF OF THE NA-
15 TIONAL GUARD BUREAU ON BEHALF OF SECRETARIES.—
16 Such section is further amended by adding at the end the
17 following new subsection:

18 “(c) The Chief of the National Guard Bureau may
19 have an inspection described in subsection (a) made by
20 inspectors general, or by commissioned officers of the
21 Army National Guard of the United States or the Air Na-
22 tional Guard of the United States detailed for that pur-
23 pose, on behalf of the Secretary of the Army or the Sec-
24 retary of the Air Force. Any such inspection may be made

1 only with the approval of the Secretary of the Army or
2 the Secretary of the Air Force, as applicable.”.

3 **SEC. 518. CONSULTATION WITH CHIEF OF THE NATIONAL**
4 **GUARD BUREAU IN THE APPOINTMENT OR**
5 **DESIGNATION OF NATIONAL GUARD PROP-**
6 **ERTY AND FISCAL OFFICERS.**

7 Section 708(a) of title 32, United States Code, is
8 amended in the first sentence by inserting “, in consulta-
9 tion with the Chief of the National Guard Bureau,” after
10 “shall”.

11 **SEC. 519. COAST GUARD JUNIOR RESERVE OFFICERS’**
12 **TRAINING CORPS.**

13 (a) IN GENERAL.—Chapter 3 of title 14, United
14 States Code, is amended by adding at the end the fol-
15 lowing new section:

16 **“§ 320. Coast Guard Junior Reserve Officers’ Training**
17 **Corps**

18 “(a) ESTABLISHMENT.—The Secretary of the depart-
19 ment in which the Coast Guard is operating may establish
20 and maintain a Junior Reserve Officers’ Training Corps,
21 organized into units, at public and private secondary edu-
22 cational institutions.

23 “(b) APPLICABILITY.—Except as provided in sub-
24 section (c), the provisions of chapter 102 of title 10 shall
25 apply to a Junior Reserve Officers’ Training Corps estab-

1 lished and maintained under this section in the same man-
2 ner that such provisions apply to the Junior Reserve Offi-
3 cers' Training Corps of each military department. For
4 purposes of the application of such provisions to this sec-
5 tion—

6 “(1) any reference in such provisions to a ‘mili-
7 tary department’ shall be treated as a reference to
8 the department in which the Coast Guard is oper-
9 ating; and

10 “(2) any reference in such provisions to a ‘Sec-
11 retary of a military department’, a ‘Secretary con-
12 cerned’, or the ‘Secretary of Defense’ shall be treat-
13 ed as a reference to the Secretary of the department
14 in which the Coast Guard is operating.

15 “(c) EXCEPTION.—The requirements of chapter 102
16 of title 10 shall not apply to a unit of the Junior Reserve
17 Officers' Training Corps established by the Secretary of
18 the department in which the Coast Guard is operating be-
19 fore the date of the enactment of this section unless the
20 Secretary determines it is appropriate to apply such re-
21 quirements to such unit.”.

22 (b) CLERICAL AMENDMENT.—The table of sections
23 at the beginning of such chapter is amended by adding
24 at the end the following new item:

“320. Coast Guard Junior Reserve Officers' Training Corps.”.

1 **SEC. 520. REPEAL OF REQUIREMENT FOR REVIEW OF CER-**
2 **TAIN ARMY RESERVE OFFICER UNIT VA-**
3 **CANCY PROMOTIONS BY COMMANDERS OF**
4 **ASSOCIATED ACTIVE DUTY UNITS.**

5 Section 1113 of the Army National Guard Combat
6 Readiness Reform Act of 1992 (Public Law 102–484; 10
7 U.S.C. 10105 note) is repealed.

8 **SEC. 520A. REPORT ON METHODS TO ENHANCE DOMESTIC**
9 **RESPONSE TO LARGE SCALE, COMPLEX AND**
10 **CATASTROPHIC DISASTERS.**

11 (a) IN GENERAL.—Not later than 180 days after the
12 date of the enactment of this Act, the Secretary of De-
13 fense, in consultation and coordination with the Federal
14 Emergency Management Agency, the National Security
15 Council, the Council of Governors, and the National Gov-
16 ernors Association, shall submit to the congressional de-
17 fense committees, the Committee on Homeland Security
18 of the House of Representatives, and the Committee on
19 Homeland Security and Governmental Affairs of the Sen-
20 ate a report on the plan of the Department to establish
21 policy and processes to implement the authority under sec-
22 tion 502 of title 32, United States Code. The report shall
23 include a detailed examination of the policy framework
24 consistent with existing authorities, identify major statu-
25 tory or policy impediments to implementation, and make
26 recommendations for legislation as appropriate.

1 (b) CONTENTS.—The report submitted under sub-
2 section (a) shall include a description of—

3 (1) the current policy and processes whereby
4 governors can request activation of the National
5 Guard under title 32, United States Code, as part
6 of the response to large scale, complex, catastrophic
7 disasters that are supported by the Federal Govern-
8 ment and, if no formal process exists in policy, the
9 Secretary of Defense shall provide a timeline and
10 plan to establish such a policy, including consulta-
11 tion with the Council of Governors and the National
12 Governors Association;

13 (2) the Secretary of Defense’s assessment, in-
14 formed by consultation with the Federal Emergency
15 Management Agency, the National Security Council,
16 the Council of Governors, and the National Gov-
17 ernors Association, regarding the sufficiency of cur-
18 rent authorities for the reimbursement of National
19 Guard and Reserve manpower during large scale,
20 complex, catastrophic disasters under title 10 and
21 title 32, United States Code, and specifically wheth-
22 er reimbursement authorities are sufficient to ensure
23 that military training and readiness are not de-
24 graded to fund disaster response, or whether invok-

1 ing such reimbursement authorities degrades the ef-
2 fectiveness of the Disaster Relief Fund;

3 (3) the Department of Defense's plan to ensure
4 there is parallel and consistent policy in the applica-
5 tion of the authorities granted under section 12304a
6 of title 10, United States Code, and section 502(f)
7 of title 32, United States Code, including—

8 (A) a description of the disparities between
9 benefits and protections under Federal law
10 versus State active duty;

11 (B) recommended solutions to achieve par-
12 ity at the Federal level; and

13 (C) recommended changes at the State
14 level, if appropriate; and

15 (4) the Department of Defense's plan to ensure
16 there is parity of benefits and protections for mili-
17 tary members employed as part of the response to
18 large scale, complex, catastrophic disasters under
19 title 32 or title 10, United States Code, and rec-
20 ommendations for addressing any shortfalls.

21 **SEC. 520B. REPORT AND BRIEFING ON THE SENIOR RE-**
22 **SERVE OFFICERS' TRAINING CORPS.**

23 (a) REPORT ON VARIOUS EXPANSIONS OF THE
24 CORPS.—Not later than one year after the date of the en-
25 actment of this Act, the Secretary of Defense shall submit

1 to the Committees on Armed Services of the Senate and
2 the House of Representatives a report setting forth the
3 following:

4 (1) An assessment of the feasibility and advis-
5 ability of distance learning programs for the Senior
6 Reserve Officers' Training Corps for students at
7 educational institutions who reside outside the viable
8 range for a cross-town program.

9 (2) An assessment of the feasibility and advis-
10 ability of expanding the eligibility of institutions au-
11 thorized to maintain a unit of the Senior Reserve
12 Officers' Training Corps to include community col-
13 leges.

14 (b) BRIEFING ON LONG-TERM EFFECTS ON THE
15 CORPS OF THE OPERATION OF CERTAIN RECENT PROHI-
16 BITIONS.—

17 (1) BRIEFING REQUIRED.—Not later than 180
18 days after the date of the enactment of this Act, the
19 Secretary of Defense shall brief the congressional
20 defense committees on the effects of the prohibitions
21 in section 8032 of the Department of Defense Ap-
22 propriations Act, 2019 (division A of Public Law
23 115–245) on the long-term viability of the Senior
24 Reserve Officers' Training Corps.

1 (2) ELEMENTS.—The matters addressed by the
2 briefing under paragraph (1) shall include an assess-
3 ment of the effects of the prohibitions described in
4 paragraph (1) on the following:

5 (A) Readiness.

6 (B) The efficient manning and administra-
7 tion of Senior Reserve Officers' Training Corps
8 units.

9 (C) The ability of the Armed Forces to
10 commission on a yearly basis the number and
11 quality of new officers they need and that are
12 representative of the nation as a whole.

13 (D) The availability of Senior Reserve Of-
14 ficers' Training Corps scholarships in rural
15 areas.

16 (E) Whether the Senior Reserve Officers'
17 Training Corps program produces officers rep-
18 resentative of the demographic and geographic
19 diversity of the United States, especially with
20 respect to urban areas, and whether restrictions
21 on establishing or disestablishing units of the
22 Corps affects the diversity of the officer corps
23 of the Armed Forces.

1 **SEC. 520C. SENSE OF CONGRESS ON INCREASE IN NUMBER**
2 **OF JUNIOR RESERVE OFFICERS' TRAINING**
3 **CORPS UNITS.**

4 It is the sense of Congress that the Junior Reserve
5 Officers' Training Corps was supported in the John S.
6 McCain National Defense Authorization Act for Fiscal
7 Year 2019 (Public Law 115–232) and should be increased
8 in fiscal year 2020 to include not fewer than 3,700 units
9 nationwide.

10 **Subtitle C—General Service Au-**
11 **thorities and Correction of Mili-**
12 **tary Records**

13 **SEC. 521. ADVICE AND COUNSEL OF TRAUMA EXPERTS IN**
14 **REVIEW BY BOARDS FOR CORRECTION OF**
15 **MILITARY RECORDS AND DISCHARGE RE-**
16 **VIEW BOARDS OF CERTAIN CLAIMS.**

17 (a) BOARDS FOR CORRECTION OF MILITARY
18 RECORDS.—Section 1552(g) of title 10, United States
19 Code, is amended—

20 (1) by inserting “(1)” after “(g)”; and

21 (2) by adding at the end the following new
22 paragraph:

23 “(2) If a board established under subsection (a)(1)
24 is reviewing a claim described in subsection (h), the board
25 shall seek advice and counsel in the review from a psychia-
26 trist, psychologist, or social worker with training on men-

1 tal health issues associated with post-traumatic stress dis-
2 order or traumatic brain injury or other trauma as speci-
3 fied in the current edition of the Diagnostic and Statistical
4 Manual of Mental Disorders published by the American
5 Psychiatric Association.

6 “(3) If a board established under subsection (a)(1)
7 is reviewing a claim in which sexual trauma, intimate part-
8 ner violence, or spousal abuse is claimed, the board shall
9 seek advice and counsel in the review from an expert in
10 trauma specific to sexual assault, intimate partner vio-
11 lence, or spousal abuse, as applicable.”.

12 (b) DISCHARGE REVIEW BOARDS.—Section
13 1553(d)(1) of such title is amended—

14 (1) by inserting “(A)” after “(1)”; and

15 (2) by adding at the end the following new sub-
16 paragraph;

17 “(B) In the case of a former member described in
18 paragraph (3)(B) who claims that the former member’s
19 post-traumatic stress disorder or traumatic brain injury
20 as described in that paragraph is based in whole or in
21 part on sexual trauma, intimate partner violence, or
22 spousal abuse, a board established under this section to
23 review the former member’s discharge or dismissal shall
24 seek advice and counsel in the review from a psychiatrist,
25 psychologist, or social worker with training on mental

1 health issues associated with post-traumatic stress dis-
2 order or traumatic brain injury or other trauma as speci-
3 fied in the current edition of the Diagnostic and Statistical
4 Manual of Mental Disorders published by the American
5 Psychiatric Association.”.

6 **SEC. 522. REDUCTION IN REQUIRED NUMBER OF MEMBERS**
7 **OF DISCHARGE REVIEW BOARDS.**

8 Section 1553(a) of title 10, United States Code, is
9 amended by striking “five” and inserting “not fewer than
10 three”.

11 **SECTION 523. ESTABLISHMENT OF PROCESS TO REVIEW A**
12 **REQUEST FOR UPGRADE OF DISCHARGE OR**
13 **DISMISSAL.**

14 (a) ESTABLISHMENT.—Chapter 79 of title 10,
15 United States Code, is amended by inserting after section
16 1553 the following new section 1553a:

17 **“§ 1553a. Review of a request for upgrade of dis-**
18 **charge or dismissal**

19 “(a) ESTABLISHMENT.—The Secretary of Defense
20 shall establish a process by which to conduct a final review
21 of a request for an upgrade in the characterization of a
22 discharge or dismissal.

23 “(b) CONSIDERATION; RECOMMENDATION.—(1)
24 Upon the request of a petitioner, the Secretary of Defense
25 shall review the findings and decisions of the boards estab-

1 lished under sections 1552 and 1553 of this title regarding
2 the final review of a request for an upgrade in the charac-
3 terization of a discharge or dismissal.

4 “(2) The Secretary of Defense may recommend that
5 the Secretary of the military department concerned up-
6 grade the characterization of the discharge or dismissal
7 of the petitioner if the Secretary of Defense determines
8 that such recommendation is appropriate after review
9 under paragraph (1).

10 “(c) DEFINITIONS.—In this section:

11 “(1) The term ‘final review of a request for an
12 upgrade in the characterization of a discharge or
13 dismissal’ means a request by a petitioner for an up-
14 grade to the characterization of a discharge or dis-
15 missal—

16 “(A) that was not granted under sections
17 1552 and 1553 of this title; and

18 “(B) regarding which the Secretary of De-
19 fense determines the petitioner has exhausted
20 all remedies available to the petitioner under
21 sections 1552 and 1553 of this title.

22 “(2) The term ‘petitioner’ means a member or
23 former member of the armed forces (or if the mem-
24 ber or former member is dead, the surviving spouse,
25 next of kin, or legal representative of the member or

1 former member) whose request for an upgrade to
2 the characterization of a discharge or dismissal was
3 not granted under sections 1552 and 1553 of this
4 title.”.

5 (b) TECHNICAL AND CONFORMING AMENDMENTS.—

6 (1) TABLE OF SECTIONS.—The table of sections
7 at the beginning of such chapter is amended by in-
8 serting after the item relating to section 1553 the
9 following new item:

“1553a. Review of a request for upgrade of discharge or dismissal.”.

10 (2) CONFORMING AMENDMENTS.—

11 (A) Section 1552(a)(4) of such title is
12 amended to read as follows:

13 “(4)(A) Subject to subparagraph (B), a correction
14 under this section is final and conclusive on all officers
15 of the United States except when procured by fraud.

16 “(B) If a board established under this section does
17 not grant a request for an upgrade to the characterization
18 of a discharge or dismissal, that declination may be con-
19 sidered under section 1553a of this title.”.

20 (B) Section 1553(b) of such title is amend-
21 ed—

22 (i) by inserting “(1)” before “A
23 board”; and

24 (ii) by adding at the end the following
25 new paragraph:

1 “(2) If a board established under this section does
2 not grant a request for an upgrade to the characterization
3 of a discharge or dismissal, that declination may be con-
4 sidered under section 1552 or section 1553a of this title,
5 as applicable.”.

6 (c) DEADLINE.—The Secretary of Defense shall im-
7 plement section 1553a of such title, as added by sub-
8 section (a), not later than January 1, 2021.

9 (d) RESOURCES.—In establishing and implementing
10 the process under such section 1553a, the Secretary of
11 Defense shall, to the maximum extent practicable, use ex-
12 isting organizations, boards, processes, and personnel of
13 the Department of Defense.

14 (e) REPORTING.—

15 (1) REPORT.—Not later than January 1, 2022,
16 the Secretary of Defense shall submit to the Com-
17 mittees on Armed Services of the Senate and the
18 House of Representatives a report regarding the
19 process established under such section 1553a. The
20 report shall include, with respect to considerations
21 under such process since implementation, the fol-
22 lowing:

23 (A) The number of requests considered.

24 (B) The number of upgrades to the char-
25 acterization of a discharge or dismissal granted

1 pursuant to such process, including the most
2 common reasons for such upgrades.

3 (C) The number of upgrades to the charac-
4 terization of a discharge or dismissal declined
5 pursuant to such process, including the most
6 common reasons for such declinations.

7 (2) ONLINE PUBLICATION.—On October 1,
8 2022, and annually thereafter, the Secretary shall
9 publish the information described in paragraph (1)
10 with regards to the immediately preceding fiscal year
11 on a website of the Department of Defense that is
12 accessible by the public.

13 **SEC. 524. PROHIBITION ON REDUCTION IN THE NUMBER OF**
14 **PERSONNEL ASSIGNED TO DUTY WITH A**
15 **SERVICE REVIEW AGENCY.**

16 (a) PROHIBITION.—Section 1559(a) of title 10,
17 United States Code, is amended—

18 (1) by striking “December 31, 2019” and in-
19 serting “December 31, 2025”;

20 (2) by striking “that agency until—” and in-
21 serting “that agency.”; and

22 (3) by striking subsections (1) and (2).

23 (b) REPORT.—

24 (1) REPORT REQUIRED.—Not later than 180
25 days after the enactment of this Act, the Secretary

1 of each military department shall submit a report to
2 the Committees on Armed Services of the Senate
3 and House of Representatives that details a plan
4 to—

5 (A) reduce the backlog of applications be-
6 fore the service review agency of the military
7 department concerned; and

8 (B) maintain the resources required to
9 meet the timeliness standards for disposition of
10 applications before the Corrections Boards
11 under section 1557 of title 10, United States
12 Code, not later than October 1, 2021.

13 (2) ELEMENTS.—Each report under this sub-
14 section shall include the following:

15 (A) A description of the current backlog of
16 applications before the service review agency of
17 the military department concerned.

18 (B) The number of personnel required to
19 meet the deadline described in paragraph
20 (1)(B).

21 (C) The plan of the Secretary concerned to
22 modernize the application and review system of
23 the service review agency of the military depart-
24 ment concerned.

1 **SEC. 525. TRAINING OF MEMBERS OF BOARDS FOR COR-**
2 **RECTION OF MILITARY RECORDS AND DIS-**
3 **CHARGE REVIEW BOARDS ON SEXUAL TRAU-**
4 **MA, INTIMATE PARTNER VIOLENCE, SPOUSAL**
5 **ABUSE, AND RELATED MATTERS.**

6 (a) BOARDS FOR CORRECTION OF MILITARY
7 RECORDS.—The curriculum of training for members of
8 boards for the correction of military records under section
9 534(c) of the National Defense Authorization Act for Fis-
10 cal Year 2017 (10 U.S.C. 1552 note) shall include train-
11 ing on each of the following:

- 12 (1) Sexual trauma.
- 13 (2) Intimate partner violence.
- 14 (3) Spousal abuse.
- 15 (4) The various responses of individuals to
16 trauma.

17 (b) DISCHARGE REVIEW BOARDS.—

18 (1) IN GENERAL.—Each Secretary concerned
19 shall develop and provide training for members of
20 discharge review boards under section 1553 of title
21 10, United States Code, that are under the jurisdic-
22 tion of such Secretary on each of the following:

- 23 (A) Sexual trauma.
- 24 (B) Intimate partner violence.
- 25 (C) Spousal abuse.

1 (D) The various responses of individuals to
2 trauma.

3 (2) UNIFORMITY OF TRAINING.—The Secretary
4 of Defense and the Secretary of Homeland Security
5 shall jointly ensure that the training developed and
6 provided pursuant to this subsection is, to the extent
7 practicable, uniform.

8 (3) SECRETARY CONCERNED DEFINED.—In this
9 subsection, the term “Secretary concerned” has the
10 meaning given that term in section 101(a)(9) of title
11 10, United States Code.

12 **SEC. 526. TIME REQUIREMENTS FOR CERTIFICATION OF**
13 **HONORABLE SERVICE.**

14 The Secretary of Defense shall publish regulations
15 for submission and processing of a completed United
16 States Citizenship and Immigration Services Form N–
17 426, by a member of the Armed Forces. Such regulations
18 shall designate the appropriate level for the certifying offi-
19 cer as well as establish time requirements for the form
20 to be returned to the member of the Armed Forces.

21 **SEC. 527. CORRECTION OF CERTAIN DISCHARGE CHARAC-**
22 **TERIZATIONS.**

23 (a) IN GENERAL.—In accordance with this section,
24 and in a manner that is consistent across the military de-
25 partments to the greatest extent practicable, the appro-

1 piate board shall, at the request of a covered member or
2 the authorized representative of a covered member—

3 (1) review the discharge characterization of that
4 covered member; and

5 (2) change the discharge characterization of
6 that covered member to honorable if the appropriate
7 board determines such change to be appropriate
8 after review under paragraph (1).

9 (b) APPEAL.—A covered member or the authorized
10 representative of that covered member may seek review
11 of a decision by the appropriate board not to change the
12 discharge characterization of that covered member. Such
13 review may be made pursuant to section 1552 of title 10,
14 United States Code, section 1553 of such title, or any
15 other process established by the Secretary of Defense for
16 such purpose.

17 (c) CHANGE OF RECORDS.—For each covered mem-
18 ber whose discharge characterization is changed under
19 subsection (a) or (b), the Secretary of the military depart-
20 ment concerned shall issue to the covered member or the
21 authorized representative of the covered member a cor-
22 rected Certificate of Release or Discharge from Active
23 Duty (DD Form 214), or other like form regularly used
24 by an Armed Force that—

1 (1) reflects the upgraded discharge character-
2 ization of the covered member; and

3 (2) does not reflect the sexual orientation of the
4 covered member or the original stated reason for the
5 discharge or dismissal of that covered member.

6 (d) DEFINITIONS.—In this section:

7 (1) The term “appropriate board” means a
8 board for the correction of military or naval records
9 under section 1552 of title 10, United States Code,
10 or a discharge review board under section 1553 of
11 such title, as the case may be.

12 (2) The term “authorized representative”
13 means an heir or legal representative of a covered
14 member.

15 (3) The term “covered member” means any
16 former member of the Armed Forces who was dis-
17 charged from the Armed Forces because of the sex-
18 ual orientation of that member.

19 (4) The term “discharge characterization”
20 means the characterization assigned to the service of
21 a covered member on the discharge or dismissal of
22 that covered member from service in the Armed
23 Forces.

1 **SEC. 528. DEVELOPMENT OF GUIDELINES FOR USE OF UN-**
2 **OFFICIAL SOURCES OF INFORMATION TO DE-**
3 **TERMINE ELIGIBILITY OF MEMBERS AND**
4 **FORMER MEMBERS OF THE ARMED FORCES**
5 **FOR DECORATIONS WHEN THE SERVICE**
6 **RECORDS ARE INCOMPLETE BECAUSE OF**
7 **DAMAGE TO THE OFFICIAL RECORD.**

8 (a) **GUIDELINES REQUIRED.**—The Secretary of De-
9 fense shall develop guidelines regarding the use by the
10 Secretaries of the military departments of unofficial
11 sources of information, including eyewitness statements,
12 to determine the eligibility of a member or former member
13 of the Armed Forces for decorations when the service
14 records of the member are incomplete because of damage
15 to the records as a result of the 1973 fire at the National
16 Personnel Records Center in St. Louis, Missouri, or any
17 subsequent incident while the records were in the posses-
18 sion of the Department of Defense.

19 (b) **TIME FOR COMPLETION.**—The Secretary of De-
20 fense shall complete development of the guidelines not
21 later than one year after the date of the enactment of this
22 Act.

1 **SEC. 529. STRATEGIC PLAN FOR DIVERSITY AND INCLU-**
2 **SION.**

3 (a) **PLAN REQUIRED.**—The Secretary of Defense
4 shall design and implement a five-year strategic plan for
5 diversity and inclusion in the Department of Defense.

6 (b) **ELEMENTS.**—The strategic plan under this sec-
7 tion—

8 (1) shall incorporate existing efforts to promote
9 diversity and inclusion within the Department; and

10 (2) may not conflict with the objectives of the
11 2018 National Military Strategy.

12 (c) **DEADLINE.**—The Secretary shall implement the
13 strategic plan under this section not later than one year
14 after the date of the enactment of this Act.

15 **SEC. 530. STUDY REGARDING SCREENING INDIVIDUALS**
16 **WHO SEEK TO ENLIST IN THE ARMED**
17 **FORCES.**

18 (a) **STUDY.**—The Secretary of Defense shall study
19 the feasibility of, in background investigations and secu-
20 rity and suitability screenings of individuals who seek to
21 enlist in the Armed Forces—

22 (1) screening for extremist and gang-related ac-
23 tivity; and

24 (2) using the following resources of the Federal
25 Bureau of Investigation:

1 (A) The Tattoo and Graffiti Identification
2 Program.

3 (B) The National Gang Intelligence Cen-
4 ter.

5 (b) REPORT REQUIRED.—Not later than 180 days
6 after the date of the enactment of this Act, the Secretary
7 shall submit an unclassified report in writing to the Com-
8 mittees on Armed Services of the Senate and House of
9 Representatives containing conclusions of the Secretary
10 regarding the study under subsection (a).

11 **SEC. 530A. FEASIBILITY STUDY REGARDING NOTIFICATION**
12 **TO SECRETARY OF HOMELAND SECURITY OF**
13 **HONORABLE DISCHARGES OF NON-CITIZENS.**

14 (a) STUDY REQUIRED.—The Secretary of Defense, in
15 consultation with the Secretary of Homeland Security,
16 shall study the feasibility of providing the Secretary of
17 Homeland Security with a copy of the Certificate of Re-
18 lease or Discharge from Active Duty (DD Form 214) or
19 National Guard Report of Separation and Record of Serv-
20 ice (NGB-22) for each individual who is not a citizen of
21 the United States who is honorably discharged from the
22 Armed Forces so the Secretary of Homeland Security may
23 note such discharge in an I-213 Record of Deportable/
24 Inadmissible Alien for that individual.

1 (b) REPORT.—Not later than 180 days after the date
2 of the enactment of this Act, the Secretary of Defense
3 shall submit to the committees on Armed Services of the
4 Senate and House of Representatives a report regarding
5 the results of the study under this section.

6 **SEC. 530B. SENSE OF CONGRESS REGARDING ACCESSION**
7 **PHYSICALS.**

8 It is the sense of Congress that the Secretary of De-
9 fense should explore alternatives to centralized accession
10 physicals at Military Entrance Processing Stations, in-
11 cluding conducting physicals through community health
12 care providers, in order to reduce transportation costs, in-
13 crease efficiency in processing times, and free recruiters
14 to focus on the core of the recruiting mission.

15 **Subtitle D—Military Justice**

16 **SEC. 531. EXPANSION OF PRE-REFERRAL MATTERS RE-**
17 **VIEWABLE BY MILITARY JUDGES AND MILI-**
18 **TARY MAGISTRATES IN THE INTEREST OF EF-**
19 **FICIENCY IN MILITARY JUSTICE.**

20 (a) IN GENERAL.—Subsection (a) of section 830a of
21 title 10, United States Code (article 30a of the Uniform
22 Code of Military Justice), is amended by striking para-
23 graphs (1) and (2) and inserting the following new para-
24 graphs:

1 “(1) The President shall prescribe regulations for
2 matters relating to proceedings conducted before referral
3 of charges and specifications to court-martial for trial, in-
4 cluding the following:

5 “(A) Pre-referral investigative subpoenas.

6 “(B) Pre-referral warrants or orders for elec-
7 tronic communications.

8 “(C) Pre-referral matters referred by an appel-
9 late court.

10 “(D) Pre-referral matters under subsection (c)
11 or (e) of section 806b of this title (article 6b).

12 “(E) Pre-referral matters relating to the fol-
13 lowing:

14 “(i) Pre-trial confinement of an accused.

15 “(ii) The mental capacity or mental re-
16 sponsibility of an accused.

17 “(iii) A request for an individual military
18 counsel.

19 “(2) In addition to the matters specified in paragraph
20 (1), the regulations prescribed under that paragraph
21 shall—

22 “(A) set forth the matters that a military judge
23 may rule upon in such proceedings;

24 “(B) include procedures for the review of such
25 rulings;

1 “(C) include appropriate limitations to ensure
2 that proceedings under this section extend only to
3 matters that would be subject to consideration by a
4 military judge in a general or special court-martial;
5 and

6 “(D) provide such limitations on the relief that
7 may be ordered under this section as the President
8 considers appropriate.”.

9 (b) CONFORMING AND CLERICAL AMENDMENTS.—

10 (1) HEADING AMENDMENT.—The heading of
11 such section is amended to read as follows:

12 **“§ 830a. Art 30a. Proceedings conducted before refer-**
13 **ral”.**

14 (2) CLERICAL AMENDMENT.—The table of sec-
15 tions at the beginning of subchapter VI of chapter
16 47 of title 10, United States Code (the Uniform
17 Code of Military Justice), is amended by striking the
18 item relating to section 830a (article 30a) and in-
19 serting the following new item:

 “830a. 30a. Proceedings conducted before referral.”.

20 **SEC. 532. COMMAND INFLUENCE.**

21 (a) IN GENERAL.—Section 837 of title 10, United
22 States Code (article 37 of the Uniform Code of Military
23 Justice), is amended—

1 (1) by striking “**Unlawfully influencing**
2 **action of court**” and inserting “**Command in-**
3 **fluence**”;

4 (2) by amending subsection (a) to read as fol-
5 lows:

6 “(a)(1) No court-martial convening authority, nor
7 any other commanding officer, may censure, reprimand,
8 or admonish the court or any member, military judge, or
9 counsel thereof, with respect to the findings or sentence
10 adjudged by the court, or with respect to any other exer-
11 cise of its or his functions in the conduct of the pro-
12 ceeding.

13 “(2) No court-martial convening authority, nor any
14 other commanding officer, may deter or attempt to deter
15 a potential witness from participating in the investigatory
16 process or testifying at a court-martial. The denial of a
17 request to travel at government expense or refusal to make
18 a witness available shall not by itself constitute unlawful
19 command influence.

20 “(3) No person subject to this chapter may attempt
21 to coerce or, by any unauthorized means, attempt to influ-
22 ence the action of a court-martial or any other military
23 tribunal or any member thereof, in reaching the findings
24 or sentence in any case, or the action of any convening,
25 approving, or reviewing authority or preliminary hearing

1 officer with respect to such acts taken pursuant to this
2 chapter as prescribed by the President.

3 “(4) Conduct that does not constitute a violation of
4 paragraphs (1) through (3) may include, for example—

5 “(A) general instructional or informational
6 courses in military justice if such courses are de-
7 signed solely for the purpose of instructing persons
8 on the substantive and procedural aspects of courts-
9 martial;

10 “(B) statements regarding criminal activity or a
11 particular criminal offense that do not advocate a
12 particular disposition, or a particular court-martial
13 finding or sentence, or do not relate to a particular
14 accused; or

15 “(C) statements and instructions given in open
16 court by the military judge or counsel.

17 “(5)(A) Notwithstanding paragraphs (1) through (3),
18 but subject to subparagraph (B)—

19 “(i) a superior convening authority or officer
20 may generally discuss matters to consider regarding
21 the disposition of alleged violations of this chapter
22 with a subordinate convening authority or officer;
23 and

24 “(ii) a subordinate convening authority or offi-
25 cer may seek advice from a superior convening au-

1 authority or officer regarding the disposition of an al-
2 leged offense under this chapter.

3 “(B) No superior convening authority or officer may
4 direct a subordinate convening authority or officer to
5 make a particular disposition in a specific case or other-
6 wise substitute the discretion of such authority or such
7 officer for that of the subordinate convening authority or
8 officer.”;

9 (3) in subsection (b)—

10 (A) by striking “advanced, in grade” and
11 inserting “advanced in grade”; and

12 (B) by striking “accused before a court-
13 martial” and inserting “person in a court-mar-
14 tial proceeding”; and

15 (4) by adding at the end the following new sub-
16 sections:

17 “(c) No finding or sentence of a court-martial may
18 be held incorrect on the ground of a violation of this sec-
19 tion unless the violation materially prejudices the substan-
20 tial rights of the accused.

21 “(d)(1) A superior convening authority or com-
22 manding officer may withhold the authority of a subordi-
23 nate convening authority or officer to dispose of offenses
24 in individual cases, types of cases, or generally.

1 “(2) Except as provided in paragraph (1) or as other-
2 wise authorized by this chapter, a superior convening au-
3 thority or commanding officer may not limit the discretion
4 of a subordinate convening authority or officer to act with
5 respect to a case for which the subordinate convening au-
6 thority or officer has authority to dispose of the offenses.”.

7 (b) CLERICAL AMENDMENT.—The table of sections
8 at the beginning subchapter VII of chapter 47 of title 10,
9 United States Code (the Uniform Code of Military Jus-
10 tice), is amended by striking the item relating to section
11 837 (article 37) and inserting the following new item:

“837. Art. 37. Command influence.”.

12 (c) EFFECTIVE DATE.—The amendments made by
13 subsections (a) and (b) shall take effect on the date of
14 the enactment of this Act and shall apply with respect to
15 violations of section 837 of title 10, United States Code
16 (article 37 of the Uniform Code of Military Justice), com-
17 mitted on or after such date.

18 **SEC. 533. STATUTE OF LIMITATIONS FOR CERTAIN OF-**
19 **FENSES.**

20 (a) IN GENERAL.—Section 843 of title 10, United
21 States Code (article 43 of the Uniform Code of Military
22 Justice), is amended—

23 (1) in subsection (a), by inserting “maiming of
24 a child, kidnapping of a child,” after “sexual assault
25 of a child,”; and

1 (2) in subsection (b)(2)(B)—

2 (A) by striking clauses (ii) and (iv); and

3 (B) by redesignating clause (iii) as clause

4 (ii).

5 (b) **EFFECTIVE DATE.**—The amendments made by
6 subsection (a) shall take effect on the date of the enact-
7 ment of this Act and shall apply with respect to the pros-
8 ecution of offenses committed before, on, or after the date
9 of the enactment of this Act if the applicable limitation
10 period has not yet expired.

11 **SEC. 534. PUBLIC ACCESS TO DOCKETS, FILINGS, AND**
12 **COURT RECORDS OF COURTS-MARTIAL OR**
13 **OTHER RECORDS OF TRIAL OF THE MILI-**
14 **TARY JUSTICE SYSTEM.**

15 (a) **IN GENERAL.**—Section 940a of title 10, United
16 States Code (article 140a of the Uniform Code of Military
17 Justice), is amended—

18 (1) by striking “The Secretary of Defense” and
19 inserting “(a) **IN GENERAL.**—The Secretary of De-
20 fense, in consultation with the Secretary of Home-
21 land Security,”;

22 (2) in subsection (a), as designated by para-
23 graph (1)—

24 (A) in the matter preceding paragraph (1),
25 by inserting “(including with respect to the

1 Coast Guard)” after “military justice system”;
2 and

3 (B) in paragraph (4), by inserting “public”
4 before “access to docket information”; and
5 (3) by adding at the end the following new sub-
6 sections:

7 “(b) PROTECTION OF CERTAIN PERSONALLY IDEN-
8 TIFIABLE INFORMATION.—Records of trial, docket infor-
9 mation, filings, and other records made publicly accessible
10 in accordance with the uniform standards and criteria for
11 conduct established by the Secretary under subsection (a)
12 shall restrict access to personally identifiable information
13 of minors and victims of crime (including victims of sexual
14 assault and domestic violence), as practicable to the extent
15 such information is restricted in electronic filing systems
16 of Federal and State courts.

17 “(c) INAPPLICABILITY TO CERTAIN DOCKETS AND
18 RECORDS.—Nothing in this section shall be construed to
19 provide public access to docket information, filings, or
20 records that are classified, subject to a judicial protective
21 order, or ordered sealed.”.

22 (b) EXISTING STANDARDS AND CRITERIA.—The Sec-
23 retary of Homeland Security shall apply to the Coast
24 Guard the standards and criteria for conduct established
25 by the Secretary of Defense under section 940a of title

1 10, United States Code (article 140a of the Uniform Code
2 of Military Justice), as in effect on the day before the date
3 of the enactment of this Act, until such time as the Sec-
4 retary of Defense, in consultation with the Secretary of
5 Homeland Security, prescribes revised standards and cri-
6 teria for conduct under such section that implement the
7 amendments made by subsection (a) of this section.

8 **SEC. 535. EXTENSION OF DEFENSE ADVISORY COMMITTEE**
9 **ON INVESTIGATION, PROSECUTION, AND DE-**
10 **FENSE OF SEXUAL ASSAULT IN THE ARMED**
11 **FORCES.**

12 Section 546(f)(1) of the Carl Levin and Howard P.
13 “Buck” McKeon National Defense Authorization Act for
14 Fiscal Year 2015 (10 U.S.C. 1561 note) is amended by
15 striking “five” and inserting “10”.

16 **SEC. 536. AUTHORITY FOR RETURN OF PERSONAL PROP-**
17 **ERTY TO VICTIMS OF SEXUAL ASSAULT WHO**
18 **FILE A RESTRICTED REPORT BEFORE CON-**
19 **CLUSION OF RELATED PROCEEDINGS.**

20 Section 586 of the National Defense Authorization
21 Act for Fiscal Year 2012 (10 U.S.C. 1561 note) is amend-
22 ed—

23 (1) by redesignating subsection (f) as sub-
24 section (e);

1 (2) in subsection (e), as so redesignated, in the
2 subsection heading, by inserting “IN UNRESTRICTED
3 REPORTING CASES” after “PROCEEDINGS”; and

4 (3) by adding at the end the following new sub-
5 section:

6 “(f) RETURN OF PERSONAL PROPERTY IN RE-
7 STRICTED REPORTING CASES.—(1) The Secretary of De-
8 fense shall prescribe procedures under which a victim who
9 files a restricted report on an incident of sexual assault
10 may request, at any time, the return of any personal prop-
11 erty of the victim obtained as part of the sexual assault
12 forensic examination.

13 “(2) The procedures shall ensure that—

14 “(A) a request of a victim under paragraph (1)
15 may be made on a confidential basis and without af-
16 fecting the restricted nature of the restricted report;
17 and

18 “(B) at the time of the filing of the restricted
19 report, a Sexual Assault Response Coordinator or
20 Sexual Assault Prevention and Response Victim Ad-
21 vocate—

22 “(i) informs the victim that the victim may
23 request the return of personal property as de-
24 scribed in paragraph (1); and

1 “(ii) advises the victim that such a request
2 for the return of personal property may nega-
3 tively impact a subsequent case adjudication, if
4 the victim later decides to convert the restricted
5 report to an unrestricted report.

6 “(3) Except with respect to personal property re-
7 turned to a victim under this subsection, nothing in this
8 subsection shall affect the requirement to retain a sexual
9 assault forensic examination (SAFE) kit for the period
10 specified in subsection (c)(4)(A).”.

11 **SEC. 537. GUIDELINES ON SENTENCES FOR OFFENSES**
12 **COMMITTED UNDER THE UNIFORM CODE OF**
13 **MILITARY JUSTICE.**

14 (a) DEVELOPMENT OF GUIDELINES.—Not later than
15 the date specified in subsection (d), the Secretary of De-
16 fense shall develop nonbinding guidelines on sentences for
17 offenses under chapter 47 of title 10, United States Code
18 (the Uniform Code of Military Justice). The guidelines
19 shall provide the sentencing authority with a suggested
20 range of punishments, including suggested ranges of con-
21 finement, that will generally be appropriate for a violation
22 of each offense under such chapter.

23 (b) SENTENCING DATA.—In developing the guide-
24 lines for sentences under subsection (a), the Secretary of
25 Defense shall take into account the sentencing data col-

1 lected by the Military Justice Review Panel pursuant to
2 section 946(f)(2) of title 10, United States Code (article
3 146(f)(2) of the Uniform Code of Military Justice).

4 (c) SUBMITTAL TO CONGRESS.—Not later than the
5 date specified in subsection (d), the Secretary of Defense
6 shall submit to the Committees on Armed Services of the
7 Senate and the House of Representatives—

8 (1) the guidelines for sentences developed under
9 subsection (a); and

10 (2) an assessment of the feasibility and advis-
11 ability of implementing such guidelines in panel sen-
12 tencing cases.

13 (d) DATE SPECIFIED.—The date specified in this
14 subsection is the date that is not later than one year after
15 the date on the which the first report of the Military Jus-
16 tice Review Panel is submitted to the Committees on
17 Armed Services of the Senate and the House of Represent-
18 atives pursuant to section 946(f)(5) of title 10, United
19 States Code (article 146(f)(5) of the Uniform Code of
20 Military Justice).

1 **SEC. 538. NOTIFICATION OF SIGNIFICANT EVENTS AND**
2 **DOCUMENTATION OF PREFERENCE FOR**
3 **PROSECUTION JURISDICTION FOR VICTIMS**
4 **OF SEXUAL ASSAULT.**

5 (a) NOTIFICATION TO VICTIMS OF EVENTS IN MILI-
6 TARY JUSTICE PROCESS.—

7 (1) NOTIFICATION REQUIRED.—A member of
8 the Armed Forces who is the victim of an alleged
9 sexual assault by another member of the Armed
10 Forces shall receive notification of each significant
11 event in the military justice process that relates to
12 the investigation, prosecution, and confinement of
13 such other member for such assault.

14 (2) DOCUMENTATION.—Appropriate docu-
15 mentation of each notification made pursuant to
16 paragraph (1) shall be created and maintained in an
17 appropriate system of records of the military depart-
18 ment concerned.

19 (b) DOCUMENTATION OF VICTIM'S PREFERENCE FOR
20 PROSECUTION JURISDICTION.—In the case of a member
21 of the Armed Forces who is the victim of an alleged sexual
22 assault committed by another member of the Armed
23 Forces who is subject to prosecution for such offense both
24 by court-martial under chapter 47 of title 10, United
25 States Code (the Uniform Code of Military Justice), and
26 by a civilian court under Federal or State law, appropriate

1 documentation of the preference, if any, of such victim for
2 prosecution of such offense by court-martial or by a civil-
3 ian court as provided for by Rule for Courts-Martial
4 306(e) (as set forth in the Manual for Courts-Martial,
5 2019 edition, or any successor rule), shall be created and
6 maintained in an appropriate system of records of the
7 military department concerned.

8 (c) REGULATIONS.—Not later than 180 days after
9 the date of the enactment of this Act, the Secretary of
10 Defense shall prescribe regulations implementing this sec-
11 tion.

12 **SEC. 539. INCREASE IN NUMBER OF DIGITAL FORENSIC EX-**
13 **AMINERS FOR CERTAIN MILITARY CRIMINAL**
14 **INVESTIGATIVE ORGANIZATIONS.**

15 (a) IN GENERAL.—Each Secretary of a military de-
16 partment shall take appropriate actions to increase the
17 number of digital forensic examiners in each military
18 criminal investigative organization specified in subsection
19 (b) under the jurisdiction of such Secretary by not fewer
20 than 10 from the authorized number of such examiners
21 for such organization as of September 30, 2019.

22 (b) MILITARY CRIMINAL INVESTIGATIVE ORGANIZA-
23 TIONS.—The military criminal investigative organizations
24 specified in this subsection are the following:

1 (1) The Army Criminal Investigation Com-
2 mand.

3 (2) The Naval Criminal Investigative Service.

4 (3) The Air Force Office of Special Investiga-
5 tions.

6 (c) FUNDING.—Funds for additional digital forensic
7 examiners as required by subsection (a) for fiscal year
8 2020, including for compensation, initial training, and
9 equipment, shall be derived from amounts authorized to
10 be appropriated for that fiscal year for the Armed Force
11 concerned for operation and maintenance.

12 **SEC. 540. INCREASE IN INVESTIGATIVE PERSONNEL AND**
13 **VICTIM WITNESS ASSISTANCE PROGRAM LI-**
14 **AISONS.**

15 (a) MILITARY CRIMINAL INVESTIGATIVE SERV-
16 ICES.—Not later than one year after the date of the enact-
17 ment of this Act, the Secretary of each military depart-
18 ment shall increase the number of personnel assigned to
19 the military criminal investigative services of the depart-
20 ment with the goal of ensuring, to the extent practicable,
21 that the investigation of any sex-related offense is com-
22 pleted not later than six months after the date on which
23 the investigation is initiated. An investigation shall be con-
24 sidered completed for purposes of the preceding sentence
25 when the active phase of the investigation is sufficiently

1 complete to enable the appropriate authority to reach a
2 decision with respect to the disposition of charges for the
3 sex-related offense.

4 (b) VICTIM WITNESS ASSISTANCE PROGRAM LIAI-
5 SONS.—Not later than one year after the date of the en-
6 actment of this Act, the Secretary of each military depart-
7 ment shall increase the number of personnel serving as
8 Victim Witness Assistance Program liaisons to address
9 personnel shortages in the Victim Witness Assistance Pro-
10 gram.

11 (c) RULE OF CONSTRUCTION.—Nothing in this sec-
12 tion shall be construed to create any right or benefit, sub-
13 stantive or procedural, enforceable at law or in equity by
14 any party against the United States, its departments,
15 agencies, or entities, its officers, employees, or agents, or
16 any other person.

17 **SEC. 540A. TRAINING FOR SEXUAL ASSAULT INITIAL DIS-**
18 **POSITION AUTHORITIES ON EXERCISE OF**
19 **DISPOSITION AUTHORITY FOR SEXUAL AS-**
20 **SAULT AND COLLATERAL OFFENSES.**

21 (a) IN GENERAL.—The training for sexual assault
22 initial disposition authorities on the exercise of disposition
23 authority under chapter 47 of title 10, United States Code
24 (the Uniform Code of Military Justice), shall include com-
25 prehensive training on the exercise of disposition authority

1 with respect to cases for which disposition authority is
2 withheld to such authorities pursuant to the memorandum
3 described in subsection (b) for the purpose of promoting
4 confidence and trust in the military justice process with
5 respect to such cases.

6 (b) MEMORANDUM DESCRIBED.—The memorandum
7 described in this subsection is the memorandum of the
8 Secretary of Defense titled “Withholding Initial Disposi-
9 tion Authority Under the Uniform Code of Military Jus-
10 tice in Certain Sexual Assault Cases” and dated April 20,
11 2012, or any successor memorandum.

12 **SEC. 540B. TRAINING FOR COMMANDERS IN THE ARMED**
13 **FORCES ON THEIR ROLE IN ALL STAGES OF**
14 **MILITARY JUSTICE IN CONNECTION WITH**
15 **SEXUAL ASSAULT.**

16 (a) IN GENERAL.—The training provided com-
17 manders in the Armed Forces shall include comprehensive
18 training on the role of commanders in all stages of mili-
19 tary justice in connection with sexual assaults by members
20 of the Armed Forces.

21 (b) ELEMENTS TO BE COVERED.—The training pro-
22 vided pursuant to subsection (a) shall include training on
23 the following:

24 (1) The role of commanders in each stage of
25 the military justice process in connection with sexual

1 assault committed by a member of the Armed
2 Forces, including investigation and prosecution.

3 (2) The role of commanders in assuring that
4 victims of sexual assault described in paragraph (1)
5 are informed of, and have the opportunity to obtain,
6 assistance available for victims of sexual assault by
7 law.

8 (3) The role of commanders in assuring that
9 victims of sexual assault described in paragraph (1)
10 are afforded the rights and protections available to
11 victims by law.

12 (4) The role of commanders in preventing retal-
13 iation against victims, their family members, wit-
14 nesses, first responders, and bystanders for their
15 their complaints, statements, testimony, and status
16 in connection with sexual assault described in para-
17 graph (1), including the role of commanders in en-
18 suring that subordinates in the command are aware
19 of their responsibilities in preventing such retalia-
20 tion.

21 (5) The role of commanders in establishing and
22 maintaining a healthy command climate in connec-
23 tion with reporting on sexual assault described in
24 paragraph (1), and in the response of the com-
25 mander, subordinates in the command, and other

1 personnel in the command to such sexual assault,
2 such reporting, and the military justice process in
3 connection with such sexual assault.

4 (6) Any other matters on the role of com-
5 manders in connection with sexual assault described
6 in paragraph (1) that the Secretary of Defense con-
7 siders appropriate for purposes of this section.

8 (c) INCORPORATION OF BEST PRACTICES.—

9 (1) IN GENERAL.—The training provided pur-
10 suant to subsection (a) shall incorporate best prac-
11 tices on all matters covered by the training.

12 (2) IDENTIFICATION OF BEST PRACTICES.—The
13 Secretaries of the military departments shall, acting
14 through the training and doctrine commands of the
15 Armed Forces, undertake from time to time surveys
16 and other reviews of the matters covered by the
17 training provided pursuant to subsection (a) in order
18 to identify and incorporate into such training the
19 most current practicable best practices on such mat-
20 ters.

21 (d) UNIFORMITY.—The Secretary of Defense shall
22 ensure that the training provided pursuant to subsection
23 (a) is, to the extent practicable, uniform across the Armed
24 Forces.

1 **SEC. 540C. TIMELY DISPOSITION OF NONPROSECUTABLE**
2 **SEX-RELATED OFFENSES.**

3 (a) **POLICY REQUIRED.**—Not later than 180 days
4 after the date of the enactment of this Act, the Secretary
5 of Defense shall develop and implement a policy to ensure
6 the timely disposition of nonprosecutable sex-related of-
7 fenses.

8 (b) **NONPROSECUTABLE SEX-RELATED OFFENSE**
9 **DEFINED.**—In this section, the term “nonprosecutable
10 sex-related offense” means an alleged sex-related offense
11 (as that term is defined in section 1044e(g) of title 10,
12 United States Code) that a court-martial convening au-
13 thority has declined to refer for trial by a general or spe-
14 cial court-martial under chapter 47 of title 10, United
15 States Code (the Uniform Code of Military Justice), due
16 to a determination that there is insufficient evidence to
17 support prosecution of the sex-related offense.

18 **SEC. 540D. DEPARTMENT OF DEFENSE-WIDE POLICY AND**
19 **MILITARY DEPARTMENT-SPECIFIC PRO-**
20 **GRAMS ON REINVIGORATION OF THE PRE-**
21 **VENTION OF SEXUAL ASSAULT INVOLVING**
22 **MEMBERS OF THE ARMED FORCES.**

23 (a) **POLICY REQUIRED.**—Not later than 180 days
24 after the date of the enactment of this Act, the Secretary
25 of Defense shall develop and issue a comprehensive policy
26 for the Department of Defense to reinvigorate the preven-

1 tion of sexual assault involving members of the Armed
2 Forces.

3 (b) POLICY ELEMENTS.—

4 (1) IN GENERAL.—The policy required by sub-
5 section (a) shall include the following:

6 (A) Education and training for members of
7 the Armed Forces on the prevention of sexual
8 assault.

9 (B) Elements for programs designed to en-
10 courage and promote healthy relationships
11 among members of the Armed Forces.

12 (C) Elements for programs designed to
13 empower and enhance the role of non-commis-
14 sioned officers in the prevention of sexual as-
15 sault.

16 (D) Elements for programs to foster social
17 courage among members of the Armed Forces
18 to encourage and promote intervention in situa-
19 tions in order to prevent sexual assault.

20 (E) Processes and mechanisms designed to
21 address behaviors among members of the
22 Armed Forces that are included in the con-
23 tinuum of harm that frequently results in sex-
24 ual assault.

1 (F) Elements for programs designed to ad-
2 dress alcohol abuse, including binge drinking,
3 among members of the Armed Forces.

4 (G) Such other elements, processes, mech-
5 anisms, and other matters as the Secretary of
6 Defense considers appropriate.

7 (2) CONTINUUM OF HARM RESULTING IN SEX-
8 UAL ASSAULT.—For purposes of paragraph (1)(E),
9 the continuum of harm that frequently results in
10 sexual assault includes hazing, sexual harassment,
11 and related behaviors (including language choices,
12 off-hand statements, jokes, and unconscious atti-
13 tudes or biases) that create a permissive climate for
14 sexual assault.

15 (c) PROGRAMS REQUIRED.—Not later than 180 days
16 after the issuance of the policy required by subsection (a),
17 each Secretary of a military department shall develop and
18 implement for each Armed Force under the jurisdiction
19 of such Secretary a program to reinvigorate the prevention
20 of sexual assaults involving members of the Armed Forces.
21 Each program shall include the elements, processes, mech-
22 anisms, and other matters developed by the Secretary of
23 Defense pursuant to subsection (a) tailored to the require-
24 ments and circumstances of the Armed Force or Armed
25 Forces concerned.

1 **SEC. 540E. RECOMMENDATIONS ON SEPARATE PUNITIVE**
2 **ARTICLE IN THE UNIFORM CODE OF MILI-**
3 **TARY JUSTICE ON SEXUAL HARASSMENT.**

4 Not later than 180 days after the date of the enact-
5 ment of this Act, the Secretary of Defense shall submit
6 to the Committees on Armed Services of the Senate and
7 the House of Representatives a report containing such rec-
8 ommendations as the Secretary considers appropriate with
9 respect to the establishment of a separate punitive article
10 in chapter 47 of title 10, United States Code (the Uniform
11 Code of Military Justice), on sexual harassment.

12 **SEC. 540F. REPORT ON MILITARY JUSTICE SYSTEM INVOLV-**
13 **ING ALTERNATIVE AUTHORITY FOR DETER-**
14 **MINING WHETHER TO PREFER OR REFER**
15 **CHANGES FOR FELONY OFFENSES UNDER**
16 **THE UNIFORM CODE OF MILITARY JUSTICE.**

17 (a) REPORT REQUIRED.—

18 (1) IN GENERAL.—Not later than 300 days
19 after the date of the enactment of this Act, the Sec-
20 retary of Defense shall submit to the Committees on
21 Armed Services of the Senate and the House of Rep-
22 resentatives a report setting forth the results of a
23 study, conducted for purposes of the report, on the
24 feasibility and advisability of an alternative military
25 justice system in which determinations as to whether
26 to prefer or refer charges for trial by court-martial

1 for any offense specified in paragraph (2) is made
2 by a judge advocate in grade O-6 or higher who has
3 significant experience in criminal litigation and is
4 outside of the chain of command of the member sub-
5 ject to the charges rather than by a commanding of-
6 ficer of the member who is in the chain of command
7 of the member.

8 (2) SPECIFIED OFFENSE.—An offense specified
9 in this paragraph is any offense under chapter 47 of
10 title 10, United States Code (the Uniform Code of
11 Military Justice), for which the maximum punish-
12 ment authorized includes confinement for more than
13 one year.

14 (b) ELEMENTS.—The study required for purposes of
15 the report under subsection (a) shall address the following:

16 (1) Relevant procedural, legal, and policy impli-
17 cations and considerations of the alternative military
18 justice system described in subsection (a).

19 (2) An analysis of the following in connection
20 with the implementation and maintenance of the al-
21 ternative military justice system:

22 (A) Legal personnel requirements.

23 (B) Changes in force structure.

24 (C) Amendments to law.

1 (D) Impacts on the timeliness and effi-
2 ciency of legal processes and court-martial adju-
3 dications.

4 (E) Potential legal challenges to the sys-
5 tem.

6 (F) Potential changes in prosecution and
7 conviction rates.

8 (G) Potential impacts on the preservation
9 of good order and discipline, including the abil-
10 ity of a commander to carry out nonjudicial
11 punishment and other administrative actions.

12 (H) Such other considerations as the Sec-
13 retary considers appropriate.

14 (3) A comparative analysis of the military jus-
15 tice systems of relevant foreign allies with the cur-
16 rent military justice system of the United States and
17 the alternative military justice system, including
18 whether or not approaches of the military justice
19 systems of such allies to determinations described in
20 subsection (a) are appropriate for the military jus-
21 tice system of the United States.

22 (4) An assessment of the feasibility and advis-
23 ability of conducting a pilot program to assess the
24 feasibility and advisability of the alternative military

1 justice system, and, if the pilot program is deter-
2 mined to be feasible and advisable—

3 (A) an analysis of potential legal issues in
4 connection with the pilot program, including po-
5 tential issues for appeals; and

6 (B) recommendations on the following:

7 (i) The populations to be subject to
8 the pilot program.

9 (ii) The duration of the pilot program.

10 (iii) Metrics to measure the effective-
11 ness of the pilot program.

12 (iv) The resources to be used to con-
13 duct the pilot program.

14 **SEC. 540G. REPORT ON STANDARDIZATION AMONG THE**
15 **MILITARY DEPARTMENTS IN COLLECTION**
16 **AND PRESENTATION OF INFORMATION ON**
17 **MATTERS WITHIN THE MILITARY JUSTICE**
18 **SYSTEM.**

19 Not later than 180 days after the date of the enact-
20 ment of this Act, the Secretary of Defense shall, in con-
21 sultation with the Secretaries of the military departments,
22 submit to the Committees on Armed Services of the Sen-
23 ate and the House of Representatives a report setting
24 forth the following:

1 (1) A plan for actions to provide for standard-
2 ization, to the extent practicable, among the military
3 departments in the collection and presentation of in-
4 formation on matters within their military justice
5 systems, including information collected and main-
6 tained for purposes of section 940a of title 10,
7 United States Code (article 140a of the Uniform
8 Code of Military Justice), and such other informa-
9 tion as the Secretary considers appropriate.

10 (2) An assessment of the feasibility and advis-
11 ability of establishing and maintaining a single, De-
12 partment of Defense-wide data management system
13 for the standardized collection and presentation of
14 information described in paragraph (1).

15 **SEC. 540H. REPORT ON EXPANSION OF AIR FORCE SAFE TO**
16 **REPORT POLICY ACROSS THE ARMED**
17 **FORCES.**

18 (a) REPORT.—Not late than 180 days after the date
19 of the enactment of this Act, the Secretary of Defense
20 shall, in consultation with the Secretaries of the military
21 departments and the Secretary of Homeland Security,
22 submit to the Committees on Armed Services of the Sen-
23 ate and the House of Representatives a report setting
24 forth an assessment of the feasibility and advisability of
25 expanding the applicability of the safe to report policy de-

1 scribed in subsection (b) so that the policy applies across
2 the Armed Forces.

3 (b) **SAFE TO REPORT POLICY.**—The safe to report
4 policy described in this subsection is the policy, currently
5 applicable in the Air Force alone, under which a member
6 of the Armed Forces who is the victim of an alleged sexual
7 assault committed by another member of the Armed
8 Forces, but who may have committed minor collateral mis-
9 conduct at or about the time of such alleged sexual as-
10 sault, or whose minor collateral misconduct at or about
11 such time is discovered only as a result of the investigation
12 into such alleged sexual assault, may report such alleged
13 sexual assault to proper authorities without fear or receipt
14 of discipline in connection with such minor collateral mis-
15 conduct.

16 **SEC. 540I. ASSESSMENT OF RACIAL, ETHNIC, AND GENDER**
17 **DISPARITIES IN THE MILITARY JUSTICE SYS-**
18 **TEM.**

19 (a) **IN GENERAL.**—The Secretary of Defense shall
20 provide for the carrying out of the activities described in
21 subsections (b) and (c) in order to improve the ability of
22 the Department of Defense to detect and address racial,
23 ethnic, and gender disparities in the military justice sys-
24 tem.

1 (b) SECRETARY OF DEFENSE AND RELATED ACTIVI-
2 TIES.—The activities described in this subsection are the
3 following, to be commenced or carried out (as applicable)
4 by not later than 180 days after the date of the enactment
5 of this Act:

6 (1) For each court-martial conducted by an
7 Armed Force after the date of the enactment of this
8 Act, the Secretary of Defense shall require the head
9 of the Armed Force concerned—

10 (A) to record the race, ethnicity, and gen-
11 der of the victim and the accused, and such
12 other demographic information about the victim
13 and the accused as the Secretary considers ap-
14 propriate;

15 (B) to include data based on the informa-
16 tion described in subparagraph (A) in the an-
17 nual military justice reports of the Armed
18 Force.

19 (2) The Secretary of Defense, in consultation
20 with the Secretaries of the military departments and
21 the Secretary of Homeland Security, shall issue
22 guidance that—

23 (A) establishes criteria to determine when
24 data indicating possible racial, ethnic, or gender

1 disparities in the military justice process should
2 be further reviewed; and

3 (B) describes how such a review should be
4 conducted.

5 (3) The Secretary of Defense, in consultation
6 with the Secretaries of the military departments and
7 the Secretary of Homeland Security, shall—

8 (A) conduct an evaluation to identify the
9 causes of any racial, ethnic, or gender dispari-
10 ties identified in the military justice system;

11 (B) take steps to address the causes of any
12 such disparities, as appropriate.

13 (c) DAC-IPAD ACTIVITIES.—

14 (1) IN GENERAL.—The activities described in
15 this subsection are the following, to be conducted by
16 the independent committee DAC-IPAD:

17 (A) A review and assessment, by fiscal
18 year, of the race and ethnicity of members of
19 the Armed Forces accused of a penetrative sex-
20 ual assault offense or contact sexual assault of-
21 fense in an unrestricted report made pursuant
22 to Department of Defense Instruction 6495.02,
23 including an unrestricted report involving a
24 spouse or intimate partner, in all cases com-
25 pleted in each fiscal year assessed.

1 (B) A review and assessment, by fiscal
2 year, of the race and ethnicity of members of
3 the Armed Forces against whom charges were
4 preferred pursuant to Rule for Courts-Martial
5 307 for a penetrative sexual assault offense or
6 contact sexual assault offense in all cases com-
7 pleted in each fiscal year assessed.

8 (C) A review and assessment, by fiscal
9 year, of the race and ethnicity of members of
10 the Armed Forces who were convicted of a pen-
11 etrative sexual assault offense or contact sexual
12 assault offense in all cases completed in each
13 fiscal year assessed.

14 (2) INFORMATION FROM FEDERAL AGENCIES.—

15 (A) IN GENERAL.—Upon request by the
16 chair of the committee, a department or agency
17 of the Federal Government shall provide infor-
18 mation that the committee considers necessary
19 to conduct reviews and assessments required by
20 paragraph (1), including military criminal in-
21 vestigation files, charge sheets, records of trial,
22 and personnel records.

23 (B) HANDLING, STORAGE, AND RETURN.—
24 The committee shall handle and store all
25 records received and reviewed under this sub-

1 section in accordance with applicable privacy
2 laws and Department of Defense policy, and
3 shall return all records so received in a timely
4 manner.

5 (3) REPORT.—Not later than one year after the
6 date of the enactment of this Act, the committee
7 shall submit to the Secretary of Defense, and to the
8 Committees on Armed Services of the Senate and
9 the House of Representatives, a report setting forth
10 the results of the reviews and assessments required
11 by paragraph (1). The report shall include such rec-
12 ommendations for legislative or administrative action
13 as the committee considers appropriate in light of
14 such results.

15 (4) DEFINITIONS.—In this subsection:

16 (A) The term “independent committee
17 DAC–IPAD” means the independent committee
18 established by the Secretary of Defense under
19 section 546 of the Carl Levin and Howard P.
20 “Buck” McKeon National Defense Authoriza-
21 tion Act for Fiscal Year 2015 (Public Law
22 113–291; 128 Stat. 3374), commonly known as
23 the “DAC-IPAD”.

24 (B) The term “case” means an unre-
25 stricted report of any penetrative sexual assault

1 offense or contact sexual assault offense made
2 against a member of the Armed Forces pursu-
3 ant to Department of Defense Instruction
4 6495.02, including any unrestricted report in-
5 volving a spouses or intimate partner for which
6 an investigation has been opened by a criminal
7 investigative organization.

8 (C) The term “completed”, with respect to
9 a case, means that the case was tried to verdict,
10 dismissed without further action, or dismissed
11 and then resolved by non-judicial or administra-
12 tive proceedings.

13 (D) The term “contact sexual assault of-
14 fense” means aggravated sexual contact, abu-
15 sive sexual contact, wrongful sexual contact,
16 and attempts to commit such offenses under
17 the Uniform Code of Military Justice.

18 (E) The term “penetrative sexual assault
19 offense” means rape, aggravated sexual assault,
20 sexual assault, forcible sodomy, and attempts to
21 commit such offenses under the Uniform Code
22 of Military Justice.

1 **SEC. 540J. PILOT PROGRAMS ON DEFENSE INVESTIGATORS**
2 **IN THE MILITARY JUSTICE SYSTEM.**

3 (a) IN GENERAL.—Each Secretary of a military de-
4 partment shall carry out a pilot program on defense inves-
5 tigators within the military justice system under the juris-
6 diction of such Secretary in order to do the following:

7 (1) Determine whether the presence of defense
8 investigators within such military justice system
9 will—

10 (A) make such military justice system
11 more effective in providing an effective defense
12 for the accused; and

13 (B) make such military justice system
14 more fair and efficient.

15 (2) Otherwise assess the feasibility and advis-
16 ability of defense investigators as an element of such
17 military justice system.

18 (b) ELEMENTS.—

19 (1) INTERVIEW OF VICTIM.—A defense investi-
20 gator may question a victim under a pilot program
21 only upon a request made through the Special Vic-
22 tims' Counsel or other counsel if the victim does not
23 have such counsel.

24 (2) UNIFORMITY ACROSS MILITARY JUSTICE
25 SYSTEMS.—The Secretary of Defense shall ensure
26 that the personnel and activities of defense inves-

1 tigators under the pilot programs are, to the extent
2 practicable, uniform across the military justice sys-
3 tems of the military departments.

4 (c) REPORT.—

5 (1) IN GENERAL.—Not later than three years
6 after the date of the enactment of this Act, the Sec-
7 retary of Defense shall, in consultation with the Sec-
8 retaries of the military departments, submit to the
9 Committees on Armed Services of the Senate and
10 the House of Representatives a report on the pilot
11 programs under subsection (a).

12 (2) ELEMENTS.—The report required by para-
13 graph (1) shall include the following:

14 (A) A description of each pilot program,
15 including the personnel and activities of defense
16 investigators under such pilot program.

17 (B) An assessment of the feasibility and
18 advisability of establishing and maintaining de-
19 fense investigators as an element of the military
20 justice systems of the military departments.

21 (C) If the assessment under subparagraph
22 (B) is that the establishment and maintenance
23 of defense investigators as an element of the
24 military justice systems of the military depart-
25 ments is feasible and advisable, such rec-

1 ommendations for legislative and administrative
2 action as the Secretary of Defense considers ap-
3 propriate to establish and maintain defense in-
4 vestigators as an element of the military justice
5 systems.

6 (D) Any other matters the Secretary of
7 Defense considers appropriate.

8 **SEC. 540K. REPORT ON PRESERVATION OF RECOURSE TO**
9 **RESTRICTED REPORT ON SEXUAL ASSAULT**
10 **FOR VICTIMS OF SEXUAL ASSAULT FOL-**
11 **LOWING CERTAIN VICTIM OR THIRD-PARTY**
12 **COMMUNICATIONS.**

13 (a) REPORT REQUIRED.—Not later than 180 days
14 after the date of the enactment of this Act, the Secretary
15 of Defense shall submit to the Committees on Armed Serv-
16 ices of the Senate and the House of Representatives a re-
17 port making findings and recommendations on the feasi-
18 bility and advisability of a policy for the Department of
19 Defense that would permit a victim of a sexual assault,
20 that is or may be investigated as a result of a communica-
21 tion described in subsection (b), which victim is a member
22 of the Armed Forces or an adult dependent of a member
23 of the Armed Forces, to have the reporting on the sexual
24 assault be treated as a restricted report without regard
25 to the party initiating or receiving such communication.

1 (b) COMMUNICATIONS.—A communication described
2 in this subsection is a communication reporting a sexual
3 assault as follows:

4 (1) By the victim to a member of the Armed
5 Forces, whether a commissioned officer or a non-
6 commissioned officer, in the chain of command of
7 the victim or the victim’s military sponsor.

8 (2) By the victim to military law enforcement
9 personnel or personnel of a military criminal inves-
10 tigative organization (MCIO).

11 (3) By any individual other than victim.

12 (c) SCOPE OF FINDINGS AND RECOMMENDATIONS.—
13 The report required by subsection (a) may include rec-
14 ommendations for new provisions of statute or regulations,
15 or modification of current statute or regulations, that may
16 be required to put into effect the findings and rec-
17 ommendations described in subsection (a).

18 (d) CONSULTATION.—In preparing the report re-
19 quired by subsection (a), the Secretary shall consult with
20 the Defense Advisory Committee on Investigation, Pros-
21 ection, and Defense of Sexual Assault in the Armed
22 Forces (DAC–IPAD) under section 546 of the Carl Levin
23 and Howard P. “Buck” McKeon National Defense Au-
24 thorization Act for Fiscal Year 2015 (10 U.S.C. 1561
25 note).

1 **SEC. 540L. REPORT ON ESTABLISHMENT OF GUARDIAN AD**
2 **LITEM PROGRAM FOR CERTAIN MILITARY**
3 **DEPENDENTS WHO ARE A VICTIM OR WIT-**
4 **NESS OF AN OFFENSE UNDER THE UNIFORM**
5 **CODE OF MILITARY JUSTICE INVOLVING**
6 **ABUSE OR EXPLOITATION.**

7 (a) REPORT REQUIRED.—

8 (1) IN GENERAL.—Not later than one year
9 after the date of the enactment of this Act, the Sec-
10 retary of Defense shall submit to the Committees on
11 Armed Services of the Senate and the House of Rep-
12 resentatives a report setting forth an assessment of
13 the feasibility and advisability of establishing a
14 guardian ad litem program for military dependents
15 described in paragraph (2) who are a victim or wit-
16 ness of an offense under chapter 47 of title 10,
17 United States Code (the Uniform Code of Military
18 Justice), that involves an element of abuse or exploi-
19 tation in order to protect the best interests of such
20 dependents in a court-martial of such offense.

21 (2) COVERED DEPENDENTS.—The military de-
22 pendents described in this paragraph are as follows:

23 (A) Military dependents under 12 years of
24 age.

25 (B) Military dependents who lack mental
26 or other capacity.

1 (b) ELEMENTS.—The report required by subsection
2 (a) shall include the following:

3 (1) An assessment of the feasibility and advis-
4 ability of establishing a guardian ad litem program
5 as described in subsection (a).

6 (2) If establishment of the guardian ad litem
7 program is considered feasible and advisable, the fol-
8 lowing:

9 (A) A description of administrative re-
10 quirements in connection with the program, in-
11 cluding the following:

12 (i) Any memoranda of understanding
13 between the Department of Defense and
14 State and local authorities required for
15 purposes of the program.

16 (ii) The personnel, funding, and other
17 resources required for purposes of the pro-
18 gram.

19 (B) Best practices for the program (as de-
20 termined in consultation with appropriate civil-
21 ian experts on child advocacy).

22 (C) Such recommendations for legislative
23 and administration action to implement the pro-
24 gram as the Secretary considers appropriate.

1 **SEC. 540M. COMPTROLLER GENERAL OF THE UNITED**
2 **STATES REPORT ON IMPLEMENTATION BY**
3 **THE ARMED FORCES OF RECENT STATUTORY**
4 **REQUIREMENTS ON SEXUAL ASSAULT PRE-**
5 **VENTION AND RESPONSE IN THE MILITARY.**

6 (a) REPORT REQUIRED.—The Comptroller General
7 of the United States shall submit to the Committees on
8 Armed Services of the Senate and the House of Represent-
9 atives a report, in writing, on a study, conducted by the
10 Comptroller General for purposes of the report, on the im-
11 plementation by the Armed Forces of statutory require-
12 ments on sexual assault prevention and response in the
13 military in the National Defense Authorization Act for
14 Fiscal Year 2004 (Public Law 108–136) and each suc-
15 ceeding national defense authorization Act through the
16 John S. McCain National Defense Authorization Act for
17 Fiscal Year 2019 (Public Law 115–232).

18 (b) ELEMENTS.—The report required by subsection
19 (a) shall include the following:

20 (1) A list and citation of each statutory require-
21 ment (whether codified or uncodified) on sexual as-
22 sault prevention and response in the military in each
23 national defense authorization Act specified in para-
24 graph (1), including—

25 (A) whether such statutory requirement is
26 still in force; and

1 (B) if such statutory requirement is no
2 longer in force, the date of the repeal or expira-
3 tion of such requirement.

4 (2) For each statutory requirement listed pur-
5 suant to paragraph (1), the following:

6 (A) An assessment of the extent to which
7 such requirement was implemented, or is cur-
8 rently being implemented, as applicable, by each
9 Armed Force to which such requirement applied
10 or applies.

11 (B) A description and assessment of the
12 actions taken by each of the Department of De-
13 fense, the military department concerned, and
14 the Armed Force concerned to assess and deter-
15 mine the effectiveness of actions taken pursuant
16 to such requirement in meeting its intended ob-
17 jective.

18 (3) Any other matters in connection with the
19 statutory requirements specified in subsection (a),
20 and the implementation of such requirements by the
21 Armed Forces, that the Comptroller General con-
22 siders appropriate.

23 (c) BRIEFINGS.—Not later than May 1, 2020, the
24 Comptroller General shall provide to the committees re-
25 ferred to in subsection (a) one or more briefings on the

1 status of the study required by subsection (a), including
2 any preliminary findings and recommendations of the
3 Comptroller General as a result of the study as of the date
4 of such briefing.

5 **SEC. 540N. SENSE OF CONGRESS ON THE PORT CHICAGO 50.**

6 It is the sense of Congress that—

7 (1) the American people should recognize the
8 role of racial bias during the era in which the pro-
9 secution and convictions of the Port Chicago 50 took
10 place for mutiny following the deadliest home-front
11 disaster in World War II, in which 320 were killed
12 on July 17, 1944, during a munitions explosion; and

13 (2) in light of the well-documented challenges
14 associated with uniformed service by African Ameri-
15 cans during this era, the Secretary of the Navy
16 should, as appropriate, recommend executive action
17 in favor of the 49 remaining Sailors with general
18 court-martial convictions and the 207 remaining
19 Sailors with summary court-martial convictions.

20 **Subtitle E—Other Legal Matters**

21 **SEC. 541. IMPROVEMENT OF CERTAIN SPECIAL VICTIMS'**

22 **COUNSEL AUTHORITIES.**

23 (a) ENHANCEMENT OF LEGAL CONSULTATION AND
24 ASSISTANCE IN CONNECTION WITH POTENTIAL VICTIM
25 BENEFITS.—Paragraph (8)(D) of subsection (b) of sec-

1 tion 1044e of title 10, United States Code, is amended
2 by striking “and other” and inserting “, section 1408(h)
3 of this title, and other”.

4 (b) EXPANSION OF LEGAL ASSISTANCE AUTHORIZED
5 TO INCLUDE CONSULTATION AND ASSISTANCE FOR RE-
6 TALIATION.—Subsection (b) of such section is amended
7 further—

8 (1) by redesignating paragraph (10) as para-
9 graph (11); and

10 (2) by inserting after paragraph (9) the fol-
11 lowing new paragraph (10):

12 “(10) Legal consultation and assistance in con-
13 nection with an incident of retaliation, whether such
14 incident occurs before, during, or after the conclu-
15 sion of any criminal proceedings, including—

16 “(A) in understanding the rights and pro-
17 tections afforded to victims of retaliation;

18 “(B) in the filing of complaints; and

19 “(C) in any resulting military justice pro-
20 ceedings.”.

21 (c) STAFFING CASELOAD LEVELS.—Such section is
22 further amended—

23 (1) by redesignating subsections (g) and (h) as
24 subsections (h) and (i), respectively; and

1 (2) by inserting after subsection (f) the fol-
2 lowing new subsection (g):

3 “(g) STAFFING CASELOAD LEVELS.—Commencing
4 not later than four years after the date of the enactment
5 of the National Defense Authorization Act for Fiscal Year
6 2020, each Secretary concerned shall ensure that the num-
7 ber of Special Victims’ Counsel serving in each military
8 department (and with respect to the Coast Guard) is suffi-
9 cient to ensure that the average caseload of a Special Vic-
10 tims’ Counsel does not exceed, to the extent practicable,
11 25 cases any given time.”.

12 **SEC. 542. AVAILABILITY OF SPECIAL VICTIMS’ COUNSEL AT**
13 **MILITARY INSTALLATIONS.**

14 (a) DEADLINE FOR AVAILABILITY.—Section 1044e(f)
15 of title 10, United States Code, is amended by adding at
16 the end the following new paragraph:

17 “(4)(A) Subject to subparagraph (B), if a Special
18 Victims’ Counsel is not available at a military installation
19 for access by a member of the armed forces who requests
20 access to a Special Victims’ Counsel, a Special Victims’
21 Counsel shall be made available at such installation for
22 access by such member by not later than 72 hours after
23 such request.

24 “(B) If the Secretary concerned determines that, due
25 to exigent circumstances related to military activities, a

1 Special Victims' Counsel cannot be made available to a
2 member of the armed forces within the time period re-
3 quired by subparagraph (A), the Secretary concerned shall
4 ensure that a Special Victims' Counsel is made available
5 to such member as soon as is practical under such cir-
6 cumstances.”.

7 (b) REPORT ON CIVILIAN SUPPORT OF SVCs.—Not
8 later than 180 days after the date of the enactment of
9 this Act, each Secretary of a military department shall
10 submit to the Committees on Armed Services of the Sen-
11 ate and the House of Representatives a report setting
12 forth the assessment of such Secretary of the feasibility
13 and advisability of establishing and maintaining for each
14 Special Victims' Counsel under the jurisdiction of such
15 Secretary one or more civilian positions for the purpose
16 of—

17 (1) providing support to such Special Victims'
18 Counsel; and

19 (2) ensuring continuity and the preservation of
20 institutional knowledge in transitions between the
21 service of individuals as such Special Victims' Coun-
22 sel.

1 **SEC. 543. NOTIFICATION OF ISSUANCE OF MILITARY PRO-**
2 **TECTIVE ORDER TO CIVILIAN LAW ENFORCE-**
3 **MENT.**

4 (a) NOTIFICATION OF ISSUANCE.—Section 1567a of
5 title 10, United States Code, is amended—

6 (1) in subsection (a), by striking “and any indi-
7 vidual involved in the order does not reside on a
8 military installation at any time during the duration
9 of the military protective order, the commander of
10 the military installation shall notify” and inserting
11 “, the commander of the unit to which the member
12 is assigned shall, not later than seven days after the
13 date of the issuance of the order, notify”;

14 (2) by redesignating subsection (b) as sub-
15 section (c);

16 (3) by inserting after subsection (a) the fol-
17 lowing new subsection (b);

18 “(b) NOTIFICATION IN EVENT OF TRANSFER.—In
19 the event that a member of the armed forces against whom
20 a military protective order is issued is transferred to an-
21 other unit—

22 “(1) not later than the date of the transfer, the
23 commander of the unit from which the member is
24 transferred shall notify the commander of the unit
25 to which the member is transferred of—

1 “(A) the issuance of the protective order;

2 and

3 “(B) the individuals involved in the order;

4 and

5 “(2) not later than seven days after receiving

6 the notice under paragraph (1), the commander of

7 the unit to which the member is transferred shall

8 provide notice of the order to the appropriate civilian

9 authorities in accordance with subsection (a).”; and

10 (4) in subsection (c), as so redesignated, by

11 striking “commander of the military installation”

12 and inserting “commander of the unit to which the

13 member is assigned”.

14 (b) ANNUAL REPORT REQUIRED.—Not later than

15 March 1, 2021, and each year thereafter through 2025,

16 the Secretary of Defense shall submit to the congressional

17 defense committees a report that identifies—

18 (1) the number of military protective orders

19 issued in the calendar year preceding the year in

20 which the report is submitted; and

21 (2) the number of such orders that were re-

22 ported to appropriate civilian authorities in accord-

23 ance with section 1567a(a) of title 10, United States

24 Code, in such preceding year.

1 **SEC. 544. COPYRIGHT PROTECTION FOR CIVILIAN FACULTY**
2 **OF CERTAIN ACCREDITED INSTITUTIONS.**

3 Section 105 of title 17, United States Code, is
4 amended—

5 (1) by inserting “(a) In general.—” before
6 “Copyright”; and

7 (2) by adding at the end the following:

8 “(b) COPYRIGHT PROTECTION OF CERTAIN OF
9 WORKS.—Subject to subsection (c), the covered author of
10 a covered work owns the copyright to that covered work.

11 “(c) USE BY FEDERAL GOVERNMENT.—The Sec-
12 retary of Defense may direct the covered author of a cov-
13 ered work to provide the Federal Government with an ir-
14 revocable, royalty-free, world-wide, nonexclusive license to
15 reproduce, distribute, perform, or display such covered
16 work for purposes of the United States Government.

17 “(c) DEFINITIONS.—In this section:

18 “(1) The term ‘covered author’ means a civilian
19 member of the faculty of a covered institution.

20 “(2) The term ‘covered institution’ means the
21 following:

22 “(A) National Defense University.

23 “(B) United States Military Academy.

24 “(C) Army War College.

25 “(D) United States Army Command and
26 General Staff College.

1 “(E) United States Naval Academy.

2 “(F) Naval War College.

3 “(G) Naval Post Graduate School.

4 “(H) Marine Corps University.

5 “(I) United States Air Force Academy.

6 “(J) Air University.

7 “(K) Defense Language Institute.

8 “(L) United States Coast Guard Academy.

9 “(3) The term ‘covered work’ means a literary
10 work produced by a covered author in the course of
11 employment at a covered institution for publication
12 by a scholarly press or journal.”.

13 **SEC. 545. TERMINATION OF LEASES OF PREMISES AND**
14 **MOTOR VEHICLES OF SERVICEMEMBERS**
15 **WHO INCUR CATASTROPHIC INJURY OR ILL-**
16 **NESS OR DIE WHILE IN MILITARY SERVICE.**

17 (a) CATASTROPHIC INJURIES AND ILLNESSES.—Sub-
18 section (a) of section 305 of the Servicemembers Civil Re-
19 lief Act (50 U.S.C. 3955), as amended by section 301 of
20 the Veterans Benefits and Transition Act of 2018 (Public
21 Law 115–407), is further amended by adding at the end
22 the following new paragraph:

23 “(4) CATASTROPHIC INJURY OR ILLNESS OF
24 LESSEE.—The spouse of the lessee on a lease de-
25 scribed in subsection (b) may terminate the lease

1 during the one-year period beginning on the date on
2 which the lessee incurs a catastrophic injury or ill-
3 ness (as that term is defined in section 439(g) of
4 title 37, United States Code), if the lessee incurs the
5 catastrophic injury or illness during a period of mili-
6 tary service or while performing full-time National
7 Guard duty, active Guard and Reserve duty, or inac-
8 tive-duty training (as such terms are defined in sec-
9 tion 101(d) of title 10, United States Code).”.

10 (b) DEATHS.—Paragraph (3) of such subsection is
11 amended by striking “in subsection (b)(1)” and inserting
12 “in subsection (b)”.

13 **SEC. 546. MILITARY ORDERS REQUIRED FOR TERMINATION**
14 **OF LEASES PURSUANT TO THE**
15 **SERVICEMEMBERS CIVIL RELIEF ACT.**

16 Section 305(i) of the Servicemembers Civil Relief Act
17 (50 U.S.C. 3955) is amended—

18 (1) in paragraph (1), by inserting “(including
19 orders for separation or retirement)” after “official
20 military orders”; and

21 (2) by adding at the end the following new
22 paragraph:

23 “(3) PERMANENT CHANGE OF STATION.—The
24 term ‘permanent change of station’ includes separa-
25 tion or retirement from military service.”.

1 **SEC. 547. PRESERVATION OF RIGHT TO BRING CLASS AC-**
2 **TION UNDER SERVICEMEMBERS CIVIL RE-**
3 **LIEF ACT.**

4 (a) IN GENERAL.—Section 802(a) of the
5 Servicemembers Civil Relief Act (50 U.S.C. 4042(a)) is
6 amended—

7 (1) in paragraph (1), by striking “and” at the
8 end;

9 (2) in paragraph (2), by striking the period at
10 the end and inserting “; and”; and

11 (3) by adding at the end the following new
12 paragraph:

13 “(3) be a representative party on behalf of
14 members of a class or be a member of a class, in
15 accordance with the Federal Rules of Civil Proce-
16 dure, notwithstanding any previous agreement to the
17 contrary.”.

18 (b) CONSTRUCTION.—The amendments made by sub-
19 section (a) shall not be construed to imply that a person
20 aggrieved by a violation of such Act did not have a right
21 to bring a civil action as a representative party on behalf
22 of members of a class or be a member of a class in a
23 civil action before the date of the enactment of this Act.

1 **SEC. 548. LEGAL COUNSEL FOR VICTIMS OF ALLEGED DO-**
2 **MESTIC VIOLENCE OFFENSES.**

3 (a) **IN GENERAL.**—Not later than December 1, 2020,
4 the Secretary of Defense shall carry out a program to pro-
5 vide legal counsel (referred to in this section as “Counsel”)
6 to victims of alleged domestic violence offenses who are
7 otherwise eligible for military legal assistance under sec-
8 tion 1044 of title 10, United States Code.

9 (b) **FORM OF IMPLEMENTATION.**—The program re-
10 quired under subsection (a) may be carried out as part
11 of another program of the Department of Defense or
12 through the establishment of a separate program.

13 (c) **TRAINING AND TERMS.**—The Secretary of De-
14 fense shall ensure that Counsel—

15 (1) receive specialized training in legal issues
16 commonly associated with alleged domestic violence
17 offenses; and

18 (2) to the extent practicable, serve as Counsel
19 for a period of not less than 2 years.

20 (d) **ATTORNEY-CLIENT RELATIONSHIP.**—The rela-
21 tionship between a Counsel and a victim in the provision
22 of legal advice and assistance shall be the relationship be-
23 tween an attorney and client.

24 (e) **PARALEGAL SUPPORT.**—The Secretary of De-
25 fense shall ensure that sufficient trained paralegal support
26 is provided to Counsel under the program.

1 (f) REPORT REQUIRED.—

2 (1) IN GENERAL.—Not later than 120 days
3 after the date of the enactment of this Act, the Sec-
4 retary of Defense shall submit to the Committees on
5 Armed Services of the Senate and the House of Rep-
6 resentatives a report on the implementation of the
7 program under subsection (a).

8 (2) ELEMENTS.—The report required under
9 paragraph (1) shall include the following:

10 (A) A description and assessment of the
11 manner in which the Department of Defense
12 will implement the program required under sub-
13 section (a).

14 (B) An explanation of whether the pro-
15 gram will be carried out as part of another pro-
16 gram of the Department or through the estab-
17 lishment of a separate program.

18 (C) A comprehensive description of the ad-
19 ditional personnel, resources, and training that
20 will be required to implement the program, in-
21 cluding identification of the specific number of
22 additional billets that will be needed to staff the
23 program.

1 (D) Recommendations for any modifica-
2 tions to law that may be necessary to effectively
3 and efficiently implement the program.

4 (g) ALLEGED DOMESTIC VIOLENCE OFFENSE DE-
5 FINED.—In this section, the term “alleged domestic vio-
6 lence offense” means any allegation of—

7 (1) a violation of section 928(b), 928b(1),
8 928b(5), or 930 of title 10, United States Code (ar-
9 ticle 128(b), 128b(1), 128b(5), or 130 of the Uni-
10 form Code of Military Justice), when committed
11 against a spouse, intimate partner, or immediate
12 family member;

13 (2) a violation of any other provision of sub-
14 chapter X of chapter 47 of such title (the Uniform
15 Code of Military Justice), when committed against a
16 spouse, intimate partner, or immediate family mem-
17 ber; or

18 (3) an attempt to commit an offense specified
19 in paragraph (1) or (2) as punishable under section
20 880 of such title (article 80 of the Uniform Code of
21 Military Justice).

1 **SEC. 549. NOTICE TO VICTIMS OF ALLEGED SEXUAL AS-**
2 **SAULT OF PENDENCY OF FURTHER ADMINIS-**
3 **TRATIVE ACTION FOLLOWING A DETERMINA-**
4 **TION NOT TO REFER TO TRIAL BY COURT-**
5 **MARTIAL.**

6 Under regulations prescribed by the Secretary of De-
7 fense, upon a determination not to refer a case of alleged
8 sexual assault for trial by court-martial under chapter 47
9 of title 10, United States Code (the Uniform Code of Mili-
10 tary Justice), the commander making such determination
11 shall periodically notify the victim of the status of a final
12 determination on further action on such case, whether
13 non-judicial punishment under section 815 of such title
14 (article 15 of the Uniform Code of Military Justice), other
15 administrative action, or no further action. Such notifica-
16 tions shall continue not less frequently than monthly until
17 such final determination.

18 **SEC. 550. TREATMENT OF INFORMATION IN CATCH A SE-**
19 **RIAL OFFENDER PROGRAM FOR CERTAIN**
20 **PURPOSES.**

21 (a) TREATMENT UNDER FOIA.—Victim disclosures
22 under the Catch a Serial Offender Program shall be with-
23 held from public disclosure under paragraph (b)(3) of sec-
24 tion 552 of title 5, United States Code (commonly referred
25 to as the “Freedom of Information Act”).

1 (b) PRESERVATION OF RESTRICTED REPORT.—The
2 transmittal or receipt in connection with the Catch a Se-
3 rial Offender Program of a report on a sexual assault that
4 is treated as a restricted report shall not operate to termi-
5 nate its treatment or status as a restricted report.

6 **SEC. 550A. POLICIES AND PROCEDURES ON REGISTRATION**
7 **AT MILITARY INSTALLATIONS OF CIVILIAN**
8 **PROTECTIVE ORDERS APPLICABLE TO MEM-**
9 **BERS OF THE ARMED FORCES ASSIGNED TO**
10 **SUCH INSTALLATIONS AND CERTAIN OTHER**
11 **INDIVIDUALS.**

12 (a) POLICIES AND PROCEDURES REQUIRED.—Not
13 later than one year after the date of the enactment of this
14 Act, the Secretary of Defense shall, in consultation with
15 the Secretaries of the military departments, establish poli-
16 cies and procedures for the registration at military instal-
17 lations of any civilian protective orders described in sub-
18 section (b), including the duties and responsibilities of
19 commanders of installations in the registration process.

20 (b) CIVILIAN PROTECTIVE ORDERS.—A civilian pro-
21 tective order described in this subsection is any civilian
22 protective order as follows:

23 (1) A civilian protective order against a member
24 of the Armed Forces assigned to the installation
25 concerned.

1 (2) A civilian protective order against a civilian
2 employee employed at the installation concerned.

3 (3) A civilian protective order against the civil-
4 ian spouse or intimate partner of a member of the
5 Armed Forces on active duty and assigned to the in-
6 stallation concerned, or of a civilian employee de-
7 scribed in paragraph (2), which order provides for
8 the protection of such member or employee.

9 (c) PARTICULAR ELEMENTS.—The policies and pro-
10 cedures required by subsection (a) shall include the fol-
11 lowing:

12 (1) A requirement for notice between and
13 among the commander, military law enforcement ele-
14 ments, and military criminal investigative elements
15 of an installation when a member of the Armed
16 Forces assigned to such installation, a civilian em-
17 ployee employed at such installation, a civilian
18 spouse or intimate partner of a member assigned to
19 such installation, or a civilian spouse or intimate
20 partner of a civilian employee employed at such in-
21 stallation becomes subject to a civilian protective
22 order.

23 (2) A statement of policy that failure to register
24 a civilian protective order may not be a justification
25 for the lack of enforcement of such order by military

1 law enforcement and other applicable personnel who
2 have knowledge of such order.

3 (d) LETTER.—As soon as practicable after estab-
4 lishing the policies and procedures required by subsection
5 (a), the Secretary shall submit to the Committees on
6 Armed Services of the Senate and the House of Represent-
7 atives a letter that includes the following:

8 (1) A detailed description of the policies and
9 procedures.

10 (2) A certification by the Secretary that the
11 policies and procedures have been implemented on
12 each military installation.

13 **SEC. 550B. DEFENSE ADVISORY COMMITTEE FOR THE PRE-**
14 **VENTION OF SEXUAL MISCONDUCT.**

15 (a) ESTABLISHMENT REQUIRED.—

16 (1) IN GENERAL.—The Secretary of Defense
17 shall establish and maintain within the Department
18 of Defense an advisory committee to be known as
19 the “Defense Advisory Committee for the Prevention
20 of Sexual Misconduct” (in this section referred to as
21 the “Advisory Committee”).

22 (2) DEADLINE FOR ESTABLISHMENT.—The
23 Secretary shall establish the Advisory Committee not
24 later than one year after the date of the enactment
25 of this Act.

1 (b) MEMBERSHIP.—

2 (1) IN GENERAL.—The Advisory Committee
3 shall consist of not more than 20 members, ap-
4 pointed by the Secretary from among individuals
5 who have an expertise appropriate for the work of
6 the Advisory Committee, including at least one indi-
7 vidual with each expertise as follows:

8 (A) Expertise in the prevention of sexual
9 assault and behaviors on the sexual assault con-
10 tinuum of harm.

11 (B) Expertise in adverse behaviors, includ-
12 ing the prevention of suicide and the prevention
13 of substance abuse.

14 (C) Expertise in the change of culture of
15 large organizations.

16 (D) Expertise in implementation science.

17 (2) BACKGROUND OF INDIVIDUALS.—Individ-
18 uals appointed to the Advisory Committee may in-
19 clude individuals with expertise in sexual assault
20 prevention efforts of institutions of higher education,
21 public health officials, and such other individuals as
22 the Secretary considers appropriate.

23 (3) PROHIBITION ON MEMBERSHIP OF MEM-
24 BERS OF ARMED FORCES ON ACTIVE DUTY.—A
25 member of the Armed Forces serving on active duty

1 may not serve as a member of the Advisory Com-
2 mittee.

3 (c) DUTIES.—

4 (1) IN GENERAL.—The Advisory Committee
5 shall advise the Secretary on the following:

6 (A) The prevention of sexual assault (in-
7 cluding rape, forcible sodomy, other sexual as-
8 sault, and other sexual misconduct (including
9 behaviors on the sexual assault continuum of
10 harm)) involving members of the Armed Forces.

11 (B) The policies, programs, and practices
12 of each military department, each Armed Force,
13 and each military service academy for the pre-
14 vention of sexual assault as described in sub-
15 paragraph (A).

16 (2) BASIS FOR PROVISION OF ADVICE.—For
17 purposes of providing advice to the Secretary pursu-
18 ant to this subsection, the Advisory Committee shall
19 review, on an ongoing basis, the following:

20 (A) Closed cases involving allegations of
21 sexual assault described in paragraph (1).

22 (B) Efforts of institutions of higher edu-
23 cation to prevent sexual assault among stu-
24 dents.

1 (C) Any other information or matters that
2 the Advisory Committee or the Secretary con-
3 siders appropriate.

4 (3) COORDINATION OF EFFORTS.—In addition
5 to the reviews required by paragraph (2), for pur-
6 poses of providing advice to the Secretary the Advi-
7 sory Committee shall also consult and coordinate
8 with the Defense Advisory Committee on Investiga-
9 tion, Prosecution, and Defense of Sexual Assault in
10 the Armed Forces (DAC-IPAD) on matters of joint
11 interest to the two Advisory Committees.

12 (d) ANNUAL REPORT.—Not later than March 30
13 each year, the Advisory Committee shall submit to the
14 Secretary and the Committees on Armed Services of the
15 Senate and the House of Representatives a report on the
16 activities of the Advisory Committee pursuant to this sec-
17 tion during the preceding year.

18 (e) SEXUAL ASSAULT CONTINUUM OF HARM.—In
19 this section, the term “sexual assault continuum of harm”
20 includes—

21 (1) inappropriate actions (such as sexist jokes),
22 sexual harassment, gender discrimination, hazing,
23 cyber bullying, or other behavior that contributes to
24 a culture that is tolerant of, or increases risk for,
25 sexual assault; and

1 (2) maltreatment or ostracism of a victim for a
2 report of sexual misconduct.

3 (f) TERMINATION.—

4 (1) IN GENERAL.—Except as provided in para-
5 graph (2), the Advisory Committee shall terminate
6 on the date that is five years after the date of the
7 establishment of the Advisory Committee pursuant
8 to subsection (a).

9 (2) CONTINUATION.—The Secretary of Defense
10 may continue the Advisory Committee after the ter-
11 mination date applicable under paragraph (1) if the
12 Secretary determines that continuation of the Advi-
13 sory Committee after that date is advisable and ap-
14 propriate. If the Secretary determines to continue
15 the Advisory Committee after that date, the Sec-
16 retary shall notify the Committees on the Armed
17 Services of the Senate and House of Representa-
18 tives.

19 **SEC. 550C. TRAINING FOR SPECIAL VICTIMS' COUNSEL ON**
20 **CIVILIAN CRIMINAL JUSTICE MATTERS IN**
21 **THE STATES OF THE MILITARY INSTALLA-**
22 **TIONS TO WHICH ASSIGNED.**

23 (a) TRAINING.—

24 (1) IN GENERAL.—Except as provided in sub-
25 section (c), upon the assignment of a Special Vic-

1 tims' Counsel (including a Victim Legal Counsel of
2 the Navy) to a military installation in the United
3 States, such Counsel shall be provided appropriate
4 training on the law and policies of the State or
5 States in which such military installation is located
6 with respect to the criminal justice matters specified
7 in paragraph (2). The purpose of the training is to
8 assist such Counsel in providing victims of alleged
9 sex-related offenses with information necessary to
10 make an informed decision regarding preference as
11 to the jurisdiction (whether court-martial or State
12 court) in which such offenses will be prosecuted.

13 (2) CRIMINAL JUSTICE MATTERS.—The crimi-
14 nal justice matters specified in this paragraph, with
15 respect to a State, are the following:

16 (A) Victim rights.

17 (B) Prosecution of criminal offenses.

18 (C) Sentencing for conviction of criminal
19 offenses.

20 (D) Protective orders.

21 (b) ALLEGED SEX-RELATED OFFENSE DEFINED.—

22 In this section, the term “alleged sex-related offense”
23 means any allegation of—

24 (1) a violation of section 920, 920b, 920c, or
25 930 of title 10, United States Code (article 120,

1 120b, 120c, or 130 of the Uniform Code of Military
2 Justice); or

3 (2) an attempt to commit an offense specified
4 in a paragraph (1) as punishable under section 880
5 of title 10, United States Code (article 80 of the
6 Uniform Code of Military Justice).

7 (c) EXCEPTION.—The requirements of this section do
8 not apply to a Special Victims' Counsel of the Coast
9 Guard.

10 **SEC. 550D. ENHANCING THE CAPABILITY OF MILITARY**
11 **CRIMINAL INVESTIGATIVE ORGANIZATIONS**
12 **TO PREVENT AND COMBAT CHILD SEXUAL**
13 **EXPLOITATION.**

14 (a) IN GENERAL.—Beginning not later than 180
15 days after the date of the enactment of this Act, the Sec-
16 retary of Defense shall establish and carry out an initia-
17 tive to enhance the capability of military criminal inves-
18 tigative organizations to prevent and combat child sexual
19 exploitation.

20 (b) ACTIVITIES.—In establishing and carrying out
21 the initiative under subsection (a), the Secretary of De-
22 fense may—

23 (1) work with internal and external functional
24 experts to train the personnel of military criminal

1 investigative organizations across the Department
2 regarding—

3 (A) technologies, tools, and techniques, in-
4 cluding digital forensics, to enhance the inves-
5 tigation of child sexual exploitation; and

6 (B) evidence-based forensic interviewing of
7 child victims, and the referral of child victims
8 for trauma-informed mental and medical health
9 care, and other treatment and support services;

10 (2) to the extent authorized by law, collaborate
11 with Federal, State, local, and other civilian law en-
12 forcement agencies on issues relating to child sexual
13 exploitation, including by—

14 (A) participating in task forces established
15 by such agencies for the purpose of preventing
16 and combating child sexual exploitation;

17 (B) establishing cooperative agreements to
18 facilitate co-training and collaboration with
19 such agencies; and

20 (C) ensuring that streamlined processes for
21 the referral of child sexual exploitation cases to
22 other agencies and jurisdictions, as appropriate,
23 are fully operational;

1 (3) as appropriate, assist in educating the mili-
2 tary community on the prevention and response to
3 child sexual exploitation; and

4 (4) carry out such other activities as the Sec-
5 retary determines to be relevant.

6 **SEC. 550E. FEASIBILITY STUDY ON ESTABLISHMENT OF**
7 **DATABASE OF MILITARY PROTECTIVE OR-**
8 **DERS.**

9 (a) STUDY.—The Secretary of Defense shall conduct
10 a study on the feasibility of establishing a database of mili-
11 tary protective orders issued by military commanders
12 against individuals suspected of having committed an of-
13 fense of domestic violence under section 928b of title 10,
14 United States Code (article 128b of the Uniform Code of
15 Military Justice). The study shall include an examination
16 of each of the following:

17 (1) The feasibility of creating a database to
18 record, track, and report such military protective or-
19 ders to the National Instant Criminal Background
20 Check System.

21 (2) The feasibility of establishing a process by
22 which a military judge or magistrate may issue a
23 protective order against an individual suspected of
24 having committed such an offense.

1 (3) How the database and process described in
2 paragraphs (1) and (2), respectively, may differ
3 from analogous civilian databases and processes, in-
4 cluding with regard to due process and other proce-
5 dural protections.

6 (b) REPORT.—Not later than 180 days after the date
7 of the enactment of this Act, the Secretary of Defense
8 shall submit to the congressional defense committees a re-
9 port on the results of the study conducted under sub-
10 section (a).

11 **SEC. 550F. GAO REVIEW OF USERRA AND SCRA.**

12 (a) REPORT REQUIRED.—Not later than January 31,
13 2021, the Comptroller General of the United States shall
14 conduct a review and submit a report to the Committees
15 on Armed Services of the Senate and House of Represent-
16 atives regarding what the Comptroller General determines
17 are the effects of the common commercial and govern-
18 mental practices of including a mandatory arbitration
19 clause in employment and consumer agreements, on the
20 ability of servicemembers to assert claims under and se-
21 cure redress for violations of—

22 (1) chapter 43 of title 38, United States Code
23 (commonly referred to as the “Uniformed Services
24 Employment and Reemployments Rights Act of

1 1994” and referred to in this section as
2 “USERRA”); and

3 (2) the Servicemembers Civil Relief Act (50
4 U.S.C. 3901 et seq. (referred to in this section as
5 “SCRA”)).

6 (b) ELEMENTS.—The report under this section shall
7 include the following:

8 (1) Each process by which a servicemember
9 may assert a claim under USERRA or SCRA, in-
10 cluding—

11 (A) administrative assistance;

12 (B) support, and dispute resolution proc-
13 esses provided by Federal and State agencies;

14 (C) arbitration; and

15 (D) litigation.

16 (2) With regards to each process identified
17 under paragraph (1), an evaluation of—

18 (A) the flexibility the process affords to the
19 servicemember and other parties to the process;

20 (B) the burden on the servicemember and
21 other parties to the process;

22 (C) the financial cost of the process to the
23 servicemember and the other parties;

1 (D) the speed of each process, including
2 the rate at which each claim pursued under
3 such process is resolved;

4 (E) the confidentiality of each process; and

5 (F) the effects of the process.

6 (3) Based on data regarding the results of past
7 actions to enforce servicemember rights and benefits
8 under USERRA and SCRA, including data of the
9 Departments of Defense and Labor regarding dis-
10 pute resolution under USERRA and data of the De-
11 partment of Justice regarding litigation under
12 SCRA—

13 (A) an analysis of the extent to which each
14 of the processes identified in paragraph (1) has
15 been employed to address claims under
16 USERRA or SCRA and

17 (B) the extent to which each such process
18 achieved a final disposition favorable to the
19 servicemember.

20 (4) An assessment of general societal trends in
21 the use of mandatory arbitration clauses in employ-
22 ment and consumer agreements, including any trend
23 in a specific industry or employment sector that re-
24 lies on mandatory arbitration in such contracts and
25 agreements.

1 (5) An assessment and explanation of any ef-
2 fect—

3 (A) of the use of mandatory arbitration
4 clauses in employment or consumer agreements
5 on military readiness and deployability.

6 (B) of USERRA or SCRA on the willing-
7 ness of employers to employ, and consumer
8 service businesses to provide services to
9 servicemembers and their families.

10 **Subtitle F—Member Education**

11 **SEC. 551. AUTHORITY FOR DETAIL OF CERTAIN ENLISTED** 12 **MEMBERS OF THE ARMED FORCES AS STU-** 13 **DENTS AT LAW SCHOOLS.**

14 (a) IN GENERAL.—Section 2004 of title 10, United
15 States Code, is amended—

16 (1) in subsection (a)—

17 (A) by inserting “and enlisted members”
18 after “commissioned officers”;

19 (B) by striking “bachelor of laws or”; and

20 (C) by inserting “and enlisted members”
21 after “twenty-five officers”;

22 (2) in subsection (b)—

23 (A) in the matter preceding paragraph (1),
24 by inserting “or enlisted member” after “offi-
25 cer”;

1 (B) by striking paragraph (1) and insert-
2 ing the following new paragraph (1):

3 “(1) either—

4 “(A) have served on active duty for a pe-
5 riod of not less than two years nor more than
6 six years and be an officer in the pay grade O-
7 3 or below as of the time the training is to
8 begin; or

9 “(B) have served on active duty for a pe-
10 riod of not less than four years nor more than
11 eight years and be an enlisted member in the
12 pay grade E-5, E-6, or E-7 as of the time the
13 training is to begin;”;

14 (C) by redesignating paragraph (2) as
15 paragraph (3);

16 (D) by inserting after paragraph (1), as
17 amended by subparagraph (B), the following
18 new paragraph (2):

19 “(2) in the case of an enlisted member, meet all
20 requirements for acceptance of a commission as a
21 commissioned officer in the armed forces; and”;

22 (E) in subparagraph (B) of paragraph (3),
23 as redesignated by subparagraph (C) of this
24 paragraph, by striking “or law specialist”;

25 (3) in subsection (c)—

1 (A) in the first sentence, by inserting “and
2 enlisted members” after “Officers”; and

3 (B) in the second sentence, by inserting
4 “or enlisted member” after “officer” each place
5 it appears;

6 (4) in subsection (d), by inserting “and enlist-
7 ment members” after “officers”;

8 (5) in subsection (e), by inserting “or enlist-
9 ment member” after “officer”; and

10 (6) in subsection (f), by inserting “or enlisted
11 member” after “officer”.

12 (b) CONFORMING AND CLERICAL AMENDMENTS.—

13 (1) HEADING AMENDMENT.—The heading of
14 such section is amended to read as follows:

15 **“§ 2004. Detail as students at law schools; commis-**
16 **sioned officers; certain enlisted mem-**
17 **bers”.**

18 (2) CLERICAL AMENDMENT.—The table of sec-
19 tions at the beginning of chapter 101 of such title
20 is amended by striking the item relating to section
21 2004 and inserting the following new item:

“2004. Detail as students at law schools; commissioned officers; certain enlisted
members.”.

1 **SEC. 552. INCLUSION OF COAST GUARD IN DEPARTMENT**
2 **OF DEFENSE STARBASE PROGRAM.**

3 Section 2193b of title 10, United States Code, is
4 amended—

5 (1) in subsection (a), by inserting “and the Sec-
6 retary of the Department in which the Coast Guard
7 is operating” after “military departments”; and

8 (2) in subsection (f), by striking “and the Sec-
9 retaries of the military departments” and inserting
10 “, the Secretaries of the military departments, and
11 the Secretary of the Department in which the Coast
12 Guard is operating”.

13 **SEC. 553. DEGREE GRANTING AUTHORITY FOR UNITED**
14 **STATES ARMY ARMAMENT GRADUATE**
15 **SCHOOL; LIMITATION ON ESTABLISHMENT**
16 **OF CERTAIN EDUCATIONAL INSTITUTIONS.**

17 (a) DEGREE GRANTING AUTHORITY FOR UNITED
18 STATES ARMY ARMAMENT GRADUATE SCHOOL.—

19 (1) IN GENERAL.—Chapter 751 of title 10,
20 United States Code, is amended by adding at the
21 end the following new section:

22 **“§ 7422. Degree granting authority for United States**
23 **Army Armament Graduate School**

24 “(a) AUTHORITY.—Under regulations prescribed by
25 the Secretary of the Army, the Chancellor of the United
26 States Army Armament Graduate School may, upon the

1 recommendation of the faculty and provost of the school,
2 confer appropriate degrees upon graduates who meet the
3 degree requirements.

4 “(b) LIMITATION.—A degree may not be conferred
5 under this section unless—

6 “(1) the Secretary of Education has rec-
7 ommended approval of the degree in accordance with
8 the Federal Policy Governing Granting of Academic
9 Degrees by Federal Agencies; and

10 “(2) the United States Army Armament Grad-
11 uate School is accredited by the appropriate civilian
12 academic accrediting agency or organization to
13 award the degree, as determined by the Secretary of
14 Education.

15 “(c) CONGRESSIONAL NOTIFICATION REQUIRE-
16 MENTS.—(1) When seeking to establish degree granting
17 authority under this section, the Secretary of Defense
18 shall submit to the Committees on Armed Services of the
19 Senate and the House of Representatives—

20 “(A) a copy of the self-assessment questionnaire
21 required by the Federal Policy Governing Granting
22 of Academic Degrees by Federal Agencies, at the
23 time the assessment is submitted to the Department
24 of Education’s National Advisory Committee on In-
25 stitutional Quality and Integrity; and

1 “(B) the subsequent recommendations and ra-
2 tionale of the Secretary of Education regarding the
3 establishment of the degree granting authority.

4 “(2) Upon any modification or redesignation of exist-
5 ing degree granting authority, the Secretary of Defense
6 shall submit to the Committees on Armed Services of the
7 Senate and House of Representatives a report containing
8 the rationale for the proposed modification or redesigna-
9 tion and any subsequent recommendation of the Secretary
10 of Education on the proposed modification or redesigna-
11 tion.

12 “(3) The Secretary of Defense shall submit to the
13 Committees on Armed Services of the Senate and House
14 of Representatives a report containing an explanation of
15 any action by the appropriate academic accrediting agency
16 or organization not to accredit the United States Army
17 Armament Graduate School to award any new or existing
18 degree.”.

19 (2) CLERICAL AMENDMENT.—The table of sec-
20 tions at the beginning of such chapter is amended
21 by adding at the end the following new item:

 “7422. Degree granting authority for United States Army Armament Graduate
 School.”.

22 (b) LIMITATION.—

1 (1) IN GENERAL.—Chapter 101 of title 10,
2 United States Code, is amended by adding at the
3 end the following new section:

4 **“§ 2017. Limitation on establishment of postsec-**
5 **ondary educational institutions pending**
6 **notice to Congress**

7 “(a) LIMITATION.—The Secretary of Defense may
8 not establish a postsecondary educational institution with-
9 in the Department of Defense until a period of one year
10 has elapsed following the date on which the Secretary noti-
11 fies the congressional defense committees of the intent of
12 the Secretary to establish the institution.

13 “(b) POSTSECONDARY EDUCATIONAL INSTITUTION
14 DEFINED.—In this section, the term ‘postsecondary edu-
15 cational institution’ means a school or other educational
16 institution that is intended to provide students with a
17 course of instruction that is comparable, in length and
18 academic rigor, to a course of instruction for which an
19 associate’s, bachelor’s, or graduate degree may be award-
20 ed.”.

21 (2) CLERICAL AMENDMENT.—The table of sec-
22 tions at the beginning of such chapter is amended
23 by adding at the end the following new item:

 “2017. Limitation on establishment of postsecondary educational institutions
 pending notice to Congress.”.

1 (3) APPLICABILITY.—Section 2017 of title 10,
2 United States Code, as added by paragraph (1),
3 shall apply with respect to postsecondary educational
4 institutions intended to be established by the Sec-
5 retary of Defense on or after the date of the enact-
6 ment of this Act.

7 **SEC. 554. PROHIBITION ON OFF-DUTY EMPLOYMENT FOR**
8 **CADETS AND MIDSHIPMEN COMPLETING OB-**
9 **LIGATED SERVICE AFTER GRADUATION.**

10 (a) MILITARY ACADEMY.—Section 7448(a)(5)(A) of
11 title 10, United States Code, is amended by inserting “or
12 seek or accept approval for off-duty employment while
13 completing the cadet’s commissioned service obligation”
14 before “to obtain employment”.

15 (b) NAVAL ACADEMY.—Section 8459(a)(5)(A) of title
16 10, United States Code, is amended by inserting “or seek
17 or accept approval for off-duty employment while com-
18 pleting the midshipman’s commissioned service obliga-
19 tion” before “to obtain employment”.

20 (c) AIR FORCE ACADEMY.—Section 9448(a)(5)(A) of
21 title 10, United States Code, is amended by inserting “or
22 seek or accept approval for off-duty employment while
23 completing the cadet’s commissioned service obligation”
24 before “to obtain employment”.

1 **SEC. 555. CONSIDERATION OF REQUEST FOR TRANSFER OF**
2 **A CADET OR MIDSHIPMAN AT A MILITARY**
3 **SERVICE ACADEMY WHO IS THE VICTIM OF A**
4 **SEXUAL ASSAULT OR RELATED OFFENSE.**

5 (a) UNITED STATES MILITARY ACADEMY.—Section
6 7461 of title 10, United States Code, is amended by add-
7 ing at the end the following new subsection:

8 “(e) CONSIDERATION OF REQUEST FOR TRANSFER
9 OF A CADET WHO IS THE VICTIM OF A SEXUAL ASSAULT
10 OR RELATED OFFENSE.—(1) The Secretary of the Army
11 shall provide for timely consideration of and action on a
12 request submitted by a cadet appointed to the United
13 States Military Academy who is the victim of an alleged
14 sexual assault or other offense covered by section 920,
15 920e, or 930 of this title (article 120, 120e, or 130 of
16 the Uniform Code of Military Justice) for transfer to an-
17 other military service academy or to enroll in a Senior Re-
18 serve Officers’ Training Corps program affiliated with an-
19 other institution of higher education.

20 “(2) The Secretary of the Army shall prescribe regu-
21 lations to carry out this subsection, within guidelines pro-
22 vided by the Secretary of Defense that—

23 “(A) provide that the Superintendent of the
24 United States Military Academy shall ensure that
25 any cadet who has been appointed to the United
26 States Military Academy and who is a victim of an

1 alleged sexual assault or other offense referred to in
2 paragraph (1), is informed of the right to request a
3 transfer pursuant to this section, and that any for-
4 mal request submitted by a cadet is processed as ex-
5 peditiously as practicable through the chain of com-
6 mand for review and action by the Superintendent;

7 “(B) direct the Superintendent of the United
8 States Military Academy, in coordination with the
9 Superintendent of the military service academy to
10 which the cadet requests to transfer—

11 “(i) to take action on a request for trans-
12 fer under this subsection not later than 72
13 hours after receiving the formal request from
14 the cadet;

15 “(ii) to approve such request for transfer
16 unless there are exceptional circumstances that
17 require denial of the request; and

18 “(iii) upon approval of such request, to
19 take all necessary and appropriate action to ef-
20 fectuate the transfer of the cadet to the military
21 service academy concerned as expeditiously as
22 possible; and

23 “(C) direct the Superintendent of the United
24 States Military Academy, in coordination with the
25 Secretary of the military department that sponsors

1 the Senior Reserve Officers' Training Corps pro-
2 gram at the institution of higher education to which
3 the cadet requests to transfer—

4 “(i) to take action on a request for trans-
5 fer under this subsection not later than 72
6 hours after receiving the formal request from
7 the cadet;

8 “(ii) subject to the cadet's acceptance for
9 admission to the institution of higher education
10 to which the cadet wishes to transfer, to ap-
11 prove such request for transfer unless there are
12 exceptional circumstances that require denial of
13 the application; and

14 “(iii) to take all necessary and appropriate
15 action to effectuate the cadet's enrollment in
16 the institution of higher education to which the
17 cadet wishes to transfer and to process the
18 cadet for participation in the relevant Senior
19 Reserve Officers' Training Corps program as
20 expeditiously as possible.

21 “(3) If the Superintendent of the United States Mili-
22 tary Academy denies a request for transfer under this sub-
23 section, the cadet may request review of the denial by the
24 Secretary of the Army, who shall take action on such re-

1 quest not later than 72 hours after receipt of the formal
2 request for review.

3 “(4) The Secretary concerned shall ensure that all
4 records of any request, determination, transfer, or other
5 action under this subsection remain confidential, con-
6 sistent with applicable law and regulation.

7 “(5) A cadet who transfers under this subsection may
8 retain the cadet’s appointment to the United States Mili-
9 tary Academy or may be appointed to the military service
10 academy to which the cadet transfers without regard to
11 the limitations and requirements set forth in sections
12 7442, 8454, and 9442 of this title.”.

13 (b) UNITED STATES NAVAL ACADEMY.—Section
14 8480 of title 10, United States Code, is amended by add-
15 ing at the end the following new subsection:

16 “(e) CONSIDERATION OF REQUEST FOR TRANSFER
17 OF A MIDSHIPMAN WHO IS THE VICTIM OF A SEXUAL
18 ASSAULT OR RELATED OFFENSE.—(1) The Secretary of
19 the Navy shall provide for timely consideration of and ac-
20 tion on a request submitted by a midshipman appointed
21 to the United States Naval Academy who is the victim
22 of an alleged sexual assault or other offense covered by
23 section 920, 920e, or 930 of this title (article 120, 120e,
24 or 130 of the Uniform Code of Military Justice) for trans-
25 fer to another military service academy or to enroll in a

1 Senior Reserve Officers' Training Corps program affili-
2 ated with another institution of higher education.

3 “(2) The Secretary of the Navy shall prescribe regu-
4 lations to carry out this subsection, within guidelines pro-
5 vided by the Secretary of Defense that—

6 “(A) provide that the Superintendent of the
7 United States Naval Academy shall ensure that any
8 midshipman who has been appointed to the United
9 States Naval Academy and who is a victim of an al-
10 leged sexual assault or other offense referred to in
11 paragraph (1), is informed of the right to request a
12 transfer pursuant to this section, and that any for-
13 mal request submitted by a midshipman is processed
14 as expeditiously as practicable through the chain of
15 command for review and action by the Super-
16 intendent;

17 “(B) direct the Superintendent of the United
18 States Naval Academy, in coordination with the Su-
19 perintendent of the military service academy to
20 which the midshipman requests to transfer—

21 “(i) to take action on a request for trans-
22 fer under this subsection not later than 72
23 hours after receiving the formal request from
24 the midshipman;

1 “(ii) to approve such request for transfer
2 unless there are exceptional circumstances that
3 require denial of the request; and

4 “(iii) upon approval of such request, to
5 take all necessary and appropriate action to ef-
6 fectuate the transfer of the midshipman to the
7 military service academy concerned as expedi-
8 tiously as possible; and

9 “(C) direct the Superintendent of the United
10 States Naval Academy, in coordination with the Sec-
11 retary of the military department that sponsors the
12 Senior Reserve Officers’ Training Corps program at
13 the institution of higher education to which the mid-
14 shipman requests to transfer—

15 “(i) to take action on a request for trans-
16 fer under this subsection not later than 72
17 hours after receiving the formal request from
18 the midshipman;

19 “(ii) subject to the midshipman’s accept-
20 ance for admission to the institution of higher
21 education to which the midshipman wishes to
22 transfer, to approve such request for transfer
23 unless there are exceptional circumstances that
24 require denial of the application; and

1 “(iii) to take all necessary and appropriate
2 action to effectuate the midshipman’s enroll-
3 ment in the institution of higher education to
4 which the midshipman wishes to transfer and to
5 process the midshipman for participation in the
6 relevant Senior Reserve Officers’ Training
7 Corps program as expeditiously as possible.

8 “(3) If the Superintendent of the United States
9 Naval Academy denies a request for transfer under this
10 subsection, the midshipman may request review of the de-
11 nial by the Secretary of the Navy, who shall take action
12 on such request not later than 72 hours after receipt of
13 the formal request for review.

14 “(4) The Secretary concerned shall ensure that all
15 records of any request, determination, transfer, or other
16 action under this subsection remain confidential, con-
17 sistent with applicable law and regulation.

18 “(5) A midshipman who transfers under this sub-
19 section may retain the midshipman’s appointment to the
20 United States Naval Academy or may be appointed to the
21 military service academy to which the midshipman trans-
22 fers without regard to the limitations and requirements
23 set forth in sections 7442, 8454, and 9442 of this title.”.

1 (c) UNITED STATES AIR FORCE ACADEMY.—Section
2 9461 of title 10, United States Code, is amended by add-
3 ing at the end the following new subsection:

4 “(e) CONSIDERATION OF REQUEST FOR TRANSFER
5 OF A CADET WHO IS THE VICTIM OF A SEXUAL ASSAULT
6 OR RELATED OFFENSE.—(1) The Secretary of the Air
7 Force shall provide for timely consideration of and action
8 on a request submitted by a cadet appointed to the United
9 States Air Force Academy who is the victim of an alleged
10 sexual assault or other offense covered by section 920,
11 920c, or 930 of this title (article 120, 120c, or 130 of
12 the Uniform Code of Military Justice) for transfer to an-
13 other military service academy or to enroll in a Senior Re-
14 serve Officers’ Training Corps program affiliated with an-
15 other institution of higher education.

16 “(2) The Secretary of the Air Force shall prescribe
17 regulations to carry out this subsection, within guidelines
18 provided by the Secretary of Defense that—

19 “(A) provide that the Superintendent of the
20 United States Air Force Academy shall ensure that
21 any cadet who has been appointed to the United
22 States Air Force Academy and who is a victim of an
23 alleged sexual assault or other offense referred to in
24 paragraph (1), is informed of the right to request a
25 transfer pursuant to this section, and that any for-

1 mal request submitted by a cadet is processed as ex-
2 peditiously as practicable through the chain of com-
3 mand for review and action by the Superintendent;

4 “(B) direct the Superintendent of the United
5 States Air Force Academy, in coordination with the
6 Superintendent of the military service academy to
7 which the cadet requests to transfer—

8 “(i) to take action on a request for trans-
9 fer under this subsection not later than 72
10 hours after receiving the formal request from
11 the cadet;

12 “(ii) to approve such request for transfer
13 unless there are exceptional circumstances that
14 require denial of the request; and

15 “(iii) upon approval of such request, to
16 take all necessary and appropriate action to ef-
17 fectuate the transfer of the cadet to the military
18 service academy concerned as expeditiously as
19 possible; and

20 “(C) direct the Superintendent of the United
21 States Air Force Academy, in coordination with the
22 Secretary of the military department that sponsors
23 the Senior Reserve Officers’ Training Corps pro-
24 gram at the institution of higher education to which
25 the cadet requests to transfer—

1 “(i) to take action on a request for trans-
2 fer under this subsection not later than 72
3 hours after receiving the formal request from
4 the cadet;

5 “(ii) subject to the cadet’s acceptance for
6 admission to the institution of higher education
7 to which the cadet wishes to transfer, to ap-
8 prove such request for transfer unless there are
9 exceptional circumstances that require denial of
10 the application; and

11 “(iii) to take all necessary and appropriate
12 action to effectuate the cadet’s enrollment in
13 the institution of higher education to which the
14 cadet wishes to transfer and to process the
15 cadet for participation in the relevant Senior
16 Reserve Officers’ Training Corps program as
17 expeditiously as possible.

18 “(3) If the Superintendent of the United States Air
19 Force Academy denies a request for transfer under this
20 subsection, the cadet may request review of the denial by
21 the Secretary of the Air Force, who shall take action on
22 such request not later than 72 hours after receipt of the
23 formal request for review.

24 “(4) The Secretary concerned shall ensure that all
25 records of any request, determination, transfer, or other

1 action under this subsection remain confidential, con-
2 sistent with applicable law and regulation.

3 “(5) A cadet who transfers under this subsection may
4 retain the cadet’s appointment to the United States Air
5 Force Academy or may be appointed to the military serv-
6 ice academy to which the cadet transfers without regard
7 to the limitations and requirements set forth in sections
8 7442, 8454, and 9442 of this title.”.

9 **SEC. 556. REDESIGNATION OF THE COMMANDANT OF THE**
10 **UNITED STATES AIR FORCE INSTITUTE OF**
11 **TECHNOLOGY AS THE DIRECTOR AND CHAN-**
12 **CELLOR OF SUCH INSTITUTE.**

13 (a) REDESIGNATION.—Section 9414b(a) of title 10,
14 United States Code, is amended—

15 (1) in the subsection heading, by striking
16 “COMMANDANT” and inserting “DIRECTOR AND
17 CHANCELLOR”;

18 (2) by striking “Commandant” each place it ap-
19 pears and inserting “Director and Chancellor”; and

20 (3) in the heading of paragraph (3), by striking
21 “COMMANDANT” and inserting “DIRECTOR AND
22 CHANCELLOR”.

23 (b) CONFORMING AMENDMENTS.—Section 9414(f) of
24 such title is amended by striking “Commandant” both
25 places it appears and inserting “Director and Chancellor”.

1 (c) REFERENCES.—Any reference in any law, regula-
2 tion, map, document, paper, or other record of the United
3 States to the Commandant of the United States Air Force
4 Institute of Technology shall be deemed to be a reference
5 to the Director and Chancellor of the United States Air
6 Force Institute of Technology.

7 **SEC. 557. ELIGIBILITY OF ADDITIONAL ENLISTED MEM-**
8 **BERS FOR ASSOCIATE DEGREE PROGRAMS**
9 **OF THE COMMUNITY COLLEGE OF THE AIR**
10 **FORCE.**

11 Section 9415(b) of title 10, United States Code, is
12 amended by adding at the end the following new para-
13 graph:

14 “(3) Enlisted members of the armed forces
15 other than the Air Force who are participating in
16 Community College of the Air Force affiliated joint-
17 service training and education courses.”.

18 **SEC. 558. SPEECH DISORDERS OF CADETS AND MID-**
19 **SHIPMEN.**

20 (a) TESTING.—The Superintendent of a military
21 service academy shall provide testing for speech disorders
22 to incoming cadets or midshipmen under the jurisdiction
23 of that Superintendent.

1 (b) NO EFFECT ON ADMISSION.—The testing under
2 subsection (a) may not have any effect on admission to
3 a military service academy.

4 (c) RESULTS.—The Superintendent shall provide
5 each cadet or midshipman under the jurisdiction of that
6 Superintendent the result of the testing under subsection
7 (a) and a list of warfare unrestricted line officer positions
8 and occupation specialities that require successful per-
9 formance on the speech test.

10 (d) THERAPY.—The Superintendent shall furnish
11 speech therapy to a cadet or midshipman under the juris-
12 diction of that Superintendent at the election of the cadet
13 or midshipman.

14 (e) REPORT.—Not later than 180 days after the date
15 of the enactment of this Act, the Secretaries of the mili-
16 tary departments shall submit to the Committees on
17 Armed Services of the Senate and the House of Represent-
18 atives a joint report that includes the following:

19 (1) The number of cadets or midshipmen with
20 an identified speech disorder in each military service
21 academy.

22 (2) A list of the health care and administrative
23 resources related to speech disorders available to ca-
24 dets and midshipmen described in paragraph (1).

1 (3) A list of positions and specialties described
2 in subsection (c) pursued by the cadets and mid-
3 shipmen described in paragraph (1) at the time of
4 graduation.

5 **SEC. 559. REQUIREMENT TO CONTINUE PROVISION OF TUI-**
6 **TION ASSISTANCE FOR MEMBERS OF THE**
7 **ARMED FORCES.**

8 The Secretary of each military department shall carry
9 out tuition assistance programs for members of an Armed
10 Force under the jurisdiction of that Secretary during fis-
11 cal year 2020 using an amount not less than the sum of
12 any amounts appropriated for tuition assistance for mem-
13 bers of that Armed Force for fiscal year 2020.

14 **SEC. 560. INFORMATION ON INSTITUTIONS OF HIGHER**
15 **EDUCATION PARTICIPATING IN THE DEPART-**
16 **MENT OF DEFENSE TUITION ASSISTANCE**
17 **PROGRAM.**

18 (a) LIST OF PARTICIPATING INSTITUTIONS.—The
19 Secretary of Defense shall make available, on a publicly
20 accessible website of the Department of Defense, a list
21 that identifies—

22 (1) each institution of higher education that re-
23 ceives funds under the Department of Defense Tui-
24 tion Assistance Program; and

1 (2) the amount of such funds received by the
2 institution.

3 (b) ANNUAL UPDATES.—The Secretary of Defense
4 shall update the list described in subsection (a) not less
5 frequently than once annually.

6 **SEC. 560A. INCLUSION OF INFORMATION ON FREE CREDIT**
7 **MONITORING IN ANNUAL FINANCIAL LIT-**
8 **ERACY BRIEFING.**

9 The Secretary of each military department shall en-
10 sure that the annual financial literacy education briefing
11 provided to members of the Armed Forces includes infor-
12 mation on the availability of free credit monitoring serv-
13 ices pursuant to section 605A(k) of the Fair Credit Re-
14 porting Act (15 U.S.C. 1681e–1(k)).

15 **SEC. 560B. PROGRAMS TO FACILITATE THE AWARD OF PRI-**
16 **VATE PILOT'S CERTIFICATES.**

17 (a) PROGRAMS AUTHORIZED.—Each Secretary of a
18 military department may carry out a program under which
19 qualified participants may obtain a private pilot's certifi-
20 cate through an institution of higher education with an
21 accredited aviation program that is approved by such Sec-
22 retary pursuant to subsection (c).

23 (b) PARTICIPANT QUALIFICATIONS AND TYPES OF
24 ASSISTANCE.—

1 (1) IN GENERAL.—In carrying out a program
2 under subsection (a), the Secretary of a military de-
3 partment shall prescribe—

4 (A) the standards to be met for participa-
5 tion in the program; and

6 (B) the types of assistance, if any, to be
7 provided to individuals who participate in the
8 program.

9 (2) UNIFORMITY ACROSS MILITARY DEPART-
10 MENTS.—To the extent practicable, the standards
11 and types of assistance prescribed under paragraph
12 (1) shall be uniform across the military depart-
13 ments.

14 (c) APPROVED INSTITUTIONS OF HIGHER EDU-
15 CATION.—

16 (1) IN GENERAL.—In carrying out a program
17 under subsection (a), the Secretary of a military de-
18 partment shall maintain a list of institutions of high-
19 er education (as that term is defined in section 101
20 of the Higher Education Act of 1965 (20 U.S.C.
21 1001)) through which an individual participating in
22 the program may obtain a private pilot's certificate.

23 (2) QUALIFICATIONS AND STANDARDS.—Any
24 institution of higher education included on a list
25 under paragraph (1), and any course of instruction

1 toward obtaining a private pilot's certificate offered
2 by such institution, shall meet such qualifications
3 and standards as the Secretary shall prescribe for
4 purposes of the program. Such qualifications and
5 standards shall include a requirement that any insti-
6 tution included on the list award, to individual par-
7 ticipating in the program, academic credit at such
8 institution for any portion of course work completed
9 on the ground school course of instruction of such
10 institution in connection with obtaining a private pi-
11 lot's certificate, regardless of whether the participant
12 fully completed the ground school course of instruc-
13 tion.

14 (d) ANNUAL REPORTS ON PROGRAMS.—

15 (1) IN GENERAL.—Not later than February 28,
16 2021, and each year thereafter, each Secretary of a
17 military department shall submit to Congress a re-
18 port on the program, if any, carried out by such
19 Secretary under subsection (a) during the preceding
20 calendar year.

21 (2) ELEMENTS.—Each report under paragraph
22 (1) shall include, for the program and year covered
23 by such report, the following:

24 (A) The total number of participants in
25 the program.

1 (B) The number of private pilot’s certifi-
2 cates awarded to participants in the program.

3 (C) The number of participants in the pro-
4 gram who fully completed a ground school
5 course of instruction in connection with obtain-
6 ing a private pilot’s certificate.

7 **Subtitle G—Member Training and** 8 **Transition**

9 **SEC. 561. REQUIREMENT TO PROVIDE INFORMATION RE-** 10 **GARDING BENEFITS CLAIMS TO MEMBERS** 11 **DURING TAP COUNSELING.**

12 Section 1142(b) of title 10, United States Code, is
13 amended by adding at the end the following new para-
14 graph:

15 “(19) Information regarding how to file claims
16 for benefits available to the member under laws ad-
17 ministered by the Secretaries of Defense and Vet-
18 erans Affairs.”.

19 **SEC. 562. PARTICIPATION OF OTHER FEDERAL AGENCIES** 20 **IN THE SKILLBRIDGE APPRENTICESHIP AND** 21 **INTERNSHIP PROGRAM FOR MEMBERS OF** 22 **THE ARMED FORCES.**

23 Section 1143(e) of title 10, United States Code, is
24 amended—

1 (1) by redesignating paragraph (3) as para-
2 graph (4); and

3 (2) by inserting after paragraph (2) the fol-
4 lowing new paragraph (3):

5 “(3) Any program under this subsection may be car-
6 ried out at, through, or in consultation with such other
7 departments or agencies of the Federal Government as the
8 Secretary of the military department concerned considers
9 appropriate.”.

10 **SEC. 563. FIRST MODIFICATION OF ELEMENTS OF REPORT**
11 **ON THE IMPROVED TRANSITION ASSISTANCE**
12 **PROGRAM.**

13 Section 552(b)(4) of the John S. McCain National
14 Defense Authorization Act for Fiscal Year 2019 (Public
15 Law 115–232) is amended by adding at the end the fol-
16 lowing:

17 “(E) The evaluation of the Secretary re-
18 garding the effectiveness of the Transition As-
19 sistance Program for all members of the Armed
20 Forces.

21 “(F) The evaluation of the Secretary re-
22 garding the effectiveness of the Transition As-
23 sistance Program specifically for female mem-
24 bers of the Armed Forces.”.

1 **SEC. 564. SECOND MODIFICATION OF ELEMENTS OF RE-**
2 **PORT ON THE IMPROVED TRANSITION AS-**
3 **SISTANCE PROGRAM.**

4 Section 552(b)(4) of the John S. McCain National
5 Defense Authorization Act for Fiscal Year 2019 (Public
6 Law 115–232), as amended by section 563 of this Act,
7 is further amended—

8 (1) by redesignating subparagraphs (A) through
9 (F) as subparagraphs (B) through (G), respectively;

10 (2) by inserting before subparagraph (B), as re-
11 designated by paragraph (1), the following new sub-
12 paragraph (A):

13 “(A) The total number of members eligible
14 to attend Transition Assistance Program coun-
15 seling.”; and

16 (3) by adding at the end the following new sub-
17 paragraphs:

18 “(H) The number of members who partici-
19 pated in programs under section 1143(e) of
20 title 10, United States Code (commonly re-
21 ferred to as ‘Job Training, Employment Skills,
22 Apprenticeships and Internships (JTEST-AI)’
23 or ‘Skill Bridge’).

24 “(I) Such other information as is required
25 to provide Congress with a comprehensive de-
26 scription of the participation of the members in

1 the Transition Assistance Program and pro-
2 grams described in subparagraph (H).”.

3 **SEC. 565. PROHIBITION ON GENDER-SEGREGATED TRAIN-**
4 **ING AT MARINE CORPS RECRUIT DEPOTS.**

5 (a) PARRIS ISLAND.—

6 (1) PROHIBITION.—Subject to paragraph (2),
7 training at the Marine Corps Recruit Depot, Parris
8 Island, South Carolina, may not be segregated based
9 on gender.

10 (2) DEADLINE.—The Commandant of the Ma-
11 rine Corps shall carry out this subsection not later
12 than five years after the date of the enactment of
13 this Act.

14 (b) SAN DIEGO.—

15 (1) PROHIBITION.—Subject to paragraph (2),
16 training at the Marine Corps Recruit Depot, San
17 Diego, California, may not be segregated based on
18 gender.

19 (2) DEADLINE.—The Commandant of the Ma-
20 rine Corps shall carry out this subsection not later
21 than eight years after the date of the enactment of
22 this Act.

1 **SEC. 566. ASSESSMENT OF DEATHS OF RECRUITS UNDER**
2 **THE JURISDICTION OF THE SECRETARIES OF**
3 **THE MILITARY DEPARTMENTS.**

4 (a) ASSESSMENT.—The Inspector General of the De-
5 partment of Defense shall conduct an assessment of the
6 deaths of recruits at facilities under the jurisdiction of the
7 Secretaries of the military departments, and the effective-
8 ness of the current medical protocols on the training
9 bases.

10 (b) REPORT.—Not later than September 30, 2020,
11 the Inspector General shall submit to the Committees on
12 Armed Services of the Senate and the House of Represent-
13 ative a report containing the results of the assessment con-
14 ducted under subsection (a). The report shall include the
15 following:

16 (1) The number of recruits who died during
17 basic training in the five years preceding the date of
18 the report.

19 (2) The causes of deaths described in para-
20 graph (1).

21 (3) The types of medical treatment that was
22 provided to recruits described in paragraph (1).

23 (4) Whether any of the deaths identified under
24 paragraph (1) were found to be a result of medical
25 negligence.

1 (5) A description of medical capabilities and
2 personnel available to the recruits at each facility.

3 (6) A description of medical resources accessible
4 to the recruits at the company level at each facility.

5 (7) A description of 24-hour medical resources
6 available to recruits at each facility.

7 (8) An evaluation of the guidelines and re-
8 sources in place to monitor sick recruits.

9 (9) An evaluation of how supervisors evaluate
10 and determine whether a sick recruit should con-
11 tinue training or further seek medical assistance.

12 (10) An evaluation of how the Secretaries of
13 the military departments can increase visibility of
14 the comprehensive medical status of a sick recruit to
15 instructors and supervisors in order to provide better
16 situational awareness of the such medical status.

17 (11) An evaluation of how to improve medical
18 care for recruits.

19 **SEC. 567. REVIEW OF DEPARTMENT OF DEFENSE TRAINING**
20 **PROGRAMS REGARDING DISINFORMATION**
21 **CAMPAIGNS.**

22 (a) REVIEW.—Not later than 120 days after the en-
23 actment of this Act, the Secretary of Defense shall con-
24 duct a review of existing programs, tools, and resources
25 of the Department of Defense for training members of the

1 Armed Forces and employees of the Department regarding
2 the threat of disinformation campaigns specifically tar-
3 geted at such individuals and the families of such individ-
4 uals.

5 (b) REPORT REQUIRED.—Not later than 270 days
6 after the enactment of this Act, the Secretary of Defense
7 shall submit a report to the congressional defense commit-
8 tees regarding the programs, tools, and resources identi-
9 fied under subsection (a).

10 **SEC. 568. COMMAND MATTERS IN CONNECTION WITH**
11 **TRANSITION ASSISTANCE PROGRAMS.**

12 The training provided a commander of a military in-
13 stallation in connection with the commencement of assign-
14 ment to the installation shall include a module on the cov-
15 ered transition assistance programs available for members
16 of the Armed Forces assigned to the installation.

17 **SEC. 569. MACHINE READABILITY AND ELECTRONIC**
18 **TRANSFERABILITY OF CERTIFICATE OF RE-**
19 **LEASE OR DISCHARGE FROM ACTIVE DUTY**
20 **(DD FORM 214).**

21 (a) MODIFICATION REQUIRED.—The Secretary of
22 Defense shall modify the Certificate of Release or Dis-
23 charge from Active Duty (DD Form 214) to—

24 (1) be machine readable and electronically
25 transferable; and

1 (2) include a specific block explicitly identified
2 as the location in which a member of the Armed
3 Forces may provide one or more email addresses by
4 which the member may be contacted after discharge
5 or release from active duty.

6 (b) DEADLINE FOR MODIFICATION.—The Secretary
7 of Defense shall release a revised Certificate of Release
8 or Discharge from Active Duty (DD Form 214), modified
9 pursuant to subsection (a), not later than four years after
10 the date of the enactment of this Act.

11 (c) REPORT.—Not later than 180 days after the date
12 of the enactment of this Act, the Secretary of Defense
13 shall submit a report to Congress regarding the following:

14 (1) What systems of the Department of De-
15 fense require an individual to manually enter infor-
16 mation from DD Form 214.

17 (2) What activities of the Department of De-
18 fense require a veteran or former member of the
19 Armed Forces to provide a physical copy of DD
20 Form 214.

21 (3) The order of priority for modernizing items
22 identified under paragraphs (1) and (2) as deter-
23 mined by the Secretary.

1 (4) The estimated cost, as determined by the
2 Secretary, to automate items identified under para-
3 graphs (1) and (2).

4 **SEC. 570. RECORDS OF SERVICE FOR RESERVES.**

5 (a) ESTABLISHMENT.—Not later than September 30,
6 2020, the Secretary of Defense shall establish and imple-
7 ment a standard record of service for members of the re-
8 serve components of the Armed Forces, similar to DD
9 Form 214, that summarizes the record of service of each
10 such member, including dates of active duty service.

11 (b) COORDINATION.—In carrying out this section, the
12 Secretary of Defense shall coordinate with the Secretary
13 of Veterans Affairs to ensure that the record established
14 under this section is acceptable as proof of service for
15 former members of the reserve components of the Armed
16 Forces who are eligible for benefits under laws adminis-
17 tered by the Secretary of Veterans Affairs to receive such
18 benefits.

1 **SEC. 570A. LIMITATIONS AND REQUIREMENTS IN CONNEC-**
2 **TION WITH SEPARATIONS FOR MEMBERS OF**
3 **THE ARMED FORCES WHO SUFFER FROM**
4 **MENTAL HEALTH CONDITIONS IN CONNEC-**
5 **TION WITH A SEX-RELATED, INTIMATE PART-**
6 **NER VIOLENCE-RELATED, OR SPOUSAL-**
7 **ABUSE OFFENSE.**

8 (a) CONFIRMATION OF DIAGNOSIS OF CONDITION
9 REQUIRED BEFORE SEPARATION.—Before a member of
10 the Armed Forces who was the victim of a sex-related of-
11 fense, an intimate partner violence-related offense, or a
12 spousal-abuse offense during service in the Armed Forces
13 (whether or not such offense was committed by another
14 member of the Armed Forces), and who has a mental
15 health condition not amounting to a physical disability, is
16 separated, discharged, or released from the Armed Forces
17 based solely on such condition, the diagnosis of such condi-
18 tion must be—

19 (1) corroborated by a competent mental health
20 care professional at the peer level or a higher level
21 of the health care professional making the diagnosis;
22 and

23 (2) endorsed by the Surgeon General of the
24 military department concerned.

25 (b) NARRATIVE REASON FOR SEPARATION IF MEN-
26 TAL HEALTH CONDITION PRESENT.—If the narrative rea-

1 son for separation, discharge, or release from the Armed
2 Forces of a member of the Armed Forces is a mental
3 health condition that is not a disability, the appropriate
4 narrative reason for the separation, discharge, or release
5 shall be a condition, not a disability, or Secretarial author-
6 ity.

7 (c) DEFINITIONS.—In this section:

8 (1) The term “intimate partner violence-related
9 offense” means the following:

10 (A) An offense under section 928 or 930
11 of title 10, United States Code (article 128 or
12 130 of the Uniform Code of Military Justice).

13 (B) An offense under State law for con-
14 duct identical or substantially similar to an of-
15 fense described in subparagraph (A).

16 (2) The term “sex-related offense” means the
17 following:

18 (A) An offense under section 920 or 920b
19 of title 10, United States Code (article 120 or
20 120b of the Uniform Code of Military Justice).

21 (B) An offense under State law for con-
22 duct identical or substantially similar to an of-
23 fense described in subparagraph (A).

24 (3) The term “spousal-abuse offense” means
25 the following:

1 (A) An offense under section 928 of title
2 10, United States Code (article 128 of the Uni-
3 form Code of Military Justice).

4 (B) An offense under State law for con-
5 duct identical or substantially similar to an of-
6 fense described in subparagraph (A).

7 (d) EFFECTIVE DATE.—This section shall take effect
8 180 days after the date of the enactment of this Act, and
9 shall apply with respect to separations, discharges, and re-
10 leases from the Armed Forces that occur on or after that
11 effective date.

12 **SEC. 570B. PROHIBITION ON INVOLUNTARY SEPARATION**
13 **OF CERTAIN MEMBERS OF THE ARMED**
14 **FORCES; CONSIDERATION OF MILITARY**
15 **SERVICE IN REMOVAL DETERMINATIONS.**

16 (a) PROHIBITION ON INVOLUNTARY SEPARATION.—

17 (1) IN GENERAL.—No member of the Armed
18 Forces may be involuntarily separated from the
19 Armed Forces solely because that member is a cov-
20 ered member.

21 (2) COVERED MEMBER DEFINED.—In this sub-
22 section, the term “covered member” means a mem-
23 ber of the Armed Forces who—

24 (A) possesses a current and valid employ-
25 ment authorization document that was issued

1 pursuant to the memorandum of the Secretary
2 of Homeland Security dated June 15, 2012,
3 and entitled “Exercising Prosecutorial Discre-
4 tion with Respect to Individuals who Came to
5 the United States as Children”; or

6 (B) is currently in a temporary protected
7 status under section 244 of the Immigration
8 and Nationality Act (8 U.S.C. 1254a).

9 (b) CONSIDERATION OF MILITARY SERVICE IN RE-
10 MOVAL DETERMINATIONS.—

11 (1) IN GENERAL.—With regards to an indi-
12 vidual, an immigration officer shall take into consid-
13 eration evidence of military service by that individual
14 in determining whether—

15 (A) to issue to that individual a notice to
16 appear in removal proceedings, an administra-
17 tive order of removal, or a reinstatement of a
18 final removal order; and

19 (B) to execute a final order of removal re-
20 garding that individual.

21 (2) DEFINITIONS.—In this subsection:

22 (A) The term “evidence of service” means
23 evidence that an individual served as a member
24 of the Armed Forces, and the characterization

1 of each period of service of that individual in
2 the Armed Forces.

3 (B) The term “immigration officer” has
4 the meaning given that term in section 101 of
5 the Immigration and Nationality Act (8 U.S.C.
6 1101 et seq.).

7 **SEC. 570C. INCLUSION OF QUESTION REGARDING IMMI-**
8 **GRATION STATUS ON PRESEPARATION COUN-**
9 **SELING CHECKLIST (DD FORM 2648).**

10 Not later than September 30, 2020, the Secretary of
11 Defense shall modify the preseparation counseling check-
12 list for active component, active guard reserve, active re-
13 serve, full time support, and reserve program adminis-
14 trator service members (DD Form 2648) to include a spe-
15 cific block wherein a member of the Armed Forces may
16 indicate that the member would like to receive information
17 regarding the immigration status of that member and ex-
18 pedited naturalization.

19 **SEC. 570D. COUNSELING FOR MEMBERS OF THE ARMED**
20 **FORCES WHO ARE NOT CITIZENS OF THE**
21 **UNITED STATES ON NATURALIZATION IN THE**
22 **UNITED STATES.**

23 (a) IN GENERAL.—The Secretary concerned shall
24 furnish to covered individuals under the jurisdiction of

1 that Secretary counseling regarding how to apply for natu-
2 ralization in the United States.

3 (b) DEFINITIONS.—In this section:

4 (1) The term “covered individual” means a
5 member of the Armed Forces who is not a citizen of
6 the United States.

7 (2) The term “Secretary concerned” has the
8 meaning given that term in section 101(a)(9) of title
9 10, United States Code.

10 **SEC. 570E. PILOT PROGRAM ON INFORMATION SHARING**
11 **BETWEEN DEPARTMENT OF DEFENSE AND**
12 **DESIGNATED RELATIVES AND FRIENDS OF**
13 **MEMBERS OF THE ARMED FORCES REGARD-**
14 **ING THE EXPERIENCES AND CHALLENGES OF**
15 **MILITARY SERVICE.**

16 (a) PILOT PROGRAM REQUIRED.—

17 (1) IN GENERAL.—Not later than one year
18 after the date of the enactment of this Act, the Sec-
19 retary of Defense shall seek to enter into an agree-
20 ment with the American Red Cross to carry out a
21 pilot program under which the American Red
22 Cross—

23 (A) encourages a member of the Armed
24 Forces, upon the enlistment or appointment of
25 such member, to designate up to 10 persons to

1 whom information regarding the military serv-
2 ice of such member shall be disseminated using
3 contact information obtained under paragraph
4 (6); and

5 (B) provides such persons, within 30 days
6 after the date on which such persons are des-
7 ignated under subparagraph (A), the option to
8 elect to receive such information regarding mili-
9 tary service.

10 (2) DISSEMINATION.—The Secretary shall dis-
11 seminate information described in paragraph (1)(A)
12 under the pilot program on a regular basis.

13 (3) TYPES OF INFORMATION.—The types of in-
14 formation to be disseminated under the pilot pro-
15 gram to persons who elect to receive such informa-
16 tion shall include information regarding—

17 (A) aspects of daily life and routine experi-
18 enced by members of the Armed Forces;

19 (B) the challenges and stresses of military
20 service, particularly during and after deploy-
21 ment as part of a contingency operation;

22 (C) the services available to members of
23 the Armed Forces and the dependents of such
24 members to cope with the experiences and chal-
25 lenges of military service;

1 (D) benefits administered by the Depart-
2 ment of Defense for members of the Armed
3 Forces and the dependents of such members;

4 (E) a toll-free telephone number through
5 which such persons who elect to receive infor-
6 mation under the pilot program may request in-
7 formation regarding the program; and

8 (F) such other information as the Sec-
9 retary determines to be appropriate.

10 (4) PRIVACY OF INFORMATION.—In carrying
11 out the pilot program, the Secretary may not dis-
12 seminate information under paragraph (3) in viola-
13 tion of laws and regulations pertaining to the pri-
14 vacy of members of the Armed Forces, including re-
15 quirements pursuant to—

16 (A) section 552a of title 5, United States
17 Code; and

18 (B) the Health Insurance Portability and
19 Accountability Act of 1996 (Public Law 104–
20 191).

21 (5) NOTICE AND MODIFICATIONS.—In carrying
22 out the pilot program, the Secretary shall, with re-
23 spect to a member of the Armed Forces—

1 (A) ensure that such member is notified of
2 the ability to modify designations made by such
3 member under paragraph (1)(A); and

4 (B) upon the request of a member, author-
5 ize such member to modify such designations at
6 any time.

7 (6) CONTACT INFORMATION.—In making a des-
8 ignation under the pilot program, a member of the
9 Armed Forces shall provide necessary contact infor-
10 mation, specifically including an email address, to
11 facilitate the dissemination of information regarding
12 the military service of the member.

13 (7) OPT-IN AND OPT-OUT OF PROGRAM.—

14 (A) OPT-IN BY MEMBERS.—A member may
15 participate in the pilot program only if the
16 member voluntarily elects to participate in the
17 program. A member seeking to make such an
18 election shall make such election in a manner,
19 and by including such information, as the Sec-
20 retary and the Red Cross shall jointly specify
21 for purposes of the pilot program.

22 (B) OPT-IN BY DESIGNATED RECIPI-
23 ENTS.—A person designated pursuant to para-
24 graph (1)(A) may receive information under the

1 pilot program only if the person makes the elec-
2 tion described in paragraph (1)(B).

3 (C) OPT-OUT.—In carrying out the pilot
4 program, the Secretary shall, with respect to a
5 person who has elected to receive information
6 under such pilot program, cease disseminating
7 such information to that person upon request of
8 such person.

9 (b) SURVEY AND REPORT ON PILOT PROGRAM.—

10 (1) SURVEY.—Not later than two years after
11 the date on which the pilot program commences, the
12 Secretary, in consultation with the American Red
13 Cross, shall administer a survey to persons who
14 elected to receive information under the pilot pro-
15 gram for the purpose of receiving feedback regarding
16 the quality of information disseminated under this
17 section, including whether such information appro-
18 priately reflects the military career progression of
19 members of the Armed Forces.

20 (2) REPORT.—Not later than three years after
21 the date on which the pilot program commences, the
22 Secretary shall submit to the congressional defense
23 committees a final report on the pilot program which
24 includes—

1 (A) the results of the survey administered
2 under paragraph (1);

3 (B) a determination as to whether the pilot
4 program should be made permanent; and

5 (C) recommendations as to modifications
6 necessary to improve the program if made per-
7 manent.

8 (c) **TERMINATION OF PILOT PROGRAM.**—The pilot
9 program shall terminate upon submission of the report re-
10 quired by subsection (b)(2).

11 **SEC. 570F. CONNECTIONS OF MEMBERS RETIRING OR SEP-**
12 **ARATING FROM THE ARMED FORCES WITH**
13 **COMMUNITY-BASED ORGANIZATIONS AND**
14 **RELATED ENTITIES.**

15 (a) **IN GENERAL.**—The Secretary of Defense and the
16 Secretary of Veterans Affairs shall jointly seek to enter
17 into memoranda of understanding or other agreements
18 with State veterans agencies under which information
19 from Department of Defense Form DD–2648 on individ-
20 uals undergoing retirement, discharge, or release from the
21 Armed Forces is transmitted to one or more State vet-
22 erans agencies, as elected by such individuals, to provide
23 or connect veterans to benefits or services as follows:

24 (1) Assistance in preparation of resumes.

25 (2) Training for employment interviews.

1 (3) Employment recruitment training.

2 (4) Other services leading directly to a success-
3 ful transition from military life to civilian life.

4 (5) Healthcare, including care for mental
5 health.

6 (6) Transportation or transportation-related
7 services.

8 (7) Housing.

9 (8) Such other benefits or services as the Secre-
10 taries jointly consider appropriate for purposes of
11 this section.

12 (b) INFORMATION TRANSMITTED.—The information
13 transmitted on individuals as described in subsection (a)
14 shall be such information on Form DD–2648 as the Secre-
15 taries jointly consider appropriate to facilitate community-
16 based organizations and related entities in providing or
17 connecting such individuals to benefits and services as de-
18 scribed in subsection (a).

19 (c) MODIFICATION OF FORM DD–2648.—The Sec-
20 retary of Defense shall make such modifications to Form
21 DD–2648 as the Secretary considers appropriate to allow
22 an individual filling out the form to indicate an email ad-
23 dress at which the individual may be contacted to receive
24 or be connected to benefits or services described in sub-
25 section (a).

1 (d) VOLUNTARY PARTICIPATION.—Information on an
2 individual may be transmitted to and through a State vet-
3 erans agency as described in subsection (a) only with the
4 consent of the individual. In giving such consent, an indi-
5 vidual shall specify the following:

6 (1) The State veterans agency or agencies elect-
7 ed by the individual to transmit such information as
8 described in subsection (a).

9 (2) The benefits and services for which contact
10 information shall be so transmitted.

11 (3) Such other information on the individual as
12 the individual considers appropriate in connection
13 with the transmittal.

14 **SEC. 570G. PILOT PROGRAM REGARDING ONLINE APPLICA-**
15 **TION FOR THE TRANSITION ASSISTANCE**
16 **PROGRAM.**

17 (a) ESTABLISHMENT.—The Secretary of Defense, the
18 Secretary of Veterans Affairs, and the Secretary of Labor
19 may jointly carry out a pilot program that creates a one-
20 stop source for online applications for the purposes of as-
21 sisting members of the Armed Forces and Veterans par-
22 ticipating in the Transition Assistance Program (in this
23 section referred to as “TAP”).

24 (b) DATA SOURCES.—If the Secretaries carry out the
25 pilot program, any online application developed under such

1 program shall, in part, aggregate existing data from gov-
2 ernment resources and the private sector under one uni-
3 form resource locator for the purpose of assisting members
4 of the Armed Forces and veterans participating in TAP.

5 (c) AVAILABILITY; ACCESSIBILITY.—Any online ap-
6 plication developed under a pilot program shall, to the ex-
7 tent feasible be—

8 (1) widely available as a mobile application; and
9 (2) easily accessible by veterans, members of
10 the Armed Forces, and employers.

11 (d) ASSESSMENTS.—

12 (1) INTERIM ASSESSMENTS.—Not later than
13 the dates that are one and two years after the date
14 of the commencement of any pilot program under
15 this section, the Secretaries shall jointly assess the
16 pilot program.

17 (2) FINAL ASSESSMENT.—Not later than the
18 date that is three years after the date of the com-
19 mencement of any pilot program under this section,
20 the Secretaries shall jointly carry out a final assess-
21 ment of the pilot program.

22 (3) PURPOSE.—The general objective of each
23 assessment under this subsection shall be to deter-
24 mine if the online application under the pilot pro-
25 gram helps participants in TAP to accomplish the

1 goals of TAP, accounting for the individual profiles
2 of participants, including military experience and ge-
3 ographic location.

4 (e) BRIEFING.—If the Secretaries carry out the pilot
5 program, the Secretary of Defense shall provide to the
6 Committees on Armed Services of the Senate and House
7 of Representatives a briefing on findings regarding the
8 pilot program, including any recommendations for legisla-
9 tion.

10 (f) DEFINITIONS.—In this section:

11 (1) The term “mobile application” means a
12 software program that runs on the operating system
13 of a mobile device.

14 (2) The term “mobile device” means a
15 smartphone, tablet computer, or similar portable
16 computing device that transmits data over a wireless
17 connection.

18 **Subtitle H—Military Family Readiness and Dependents’ Education**

19 **SEC. 571. AUTHORIZING MEMBERS TO TAKE LEAVE FOR A** 20 **BIRTH OR ADOPTION IN MORE THAN ONE IN-** 21 **CREMENT.**

22
23 Paragraph (5) of section 701(i) of title 10, United
24 States Code, is amended—

1 (1) by striking “only in one increment” and in-
2 sserting “in more than one increment”; and

3 (2) by inserting “in accordance with regulations
4 prescribed by the Secretary concerned” before the
5 period.

6 **SEC. 572. DEFERRED DEPLOYMENT FOR MEMBERS WHO**
7 **GIVE BIRTH.**

8 Section 701 of title 10, United States Code, is
9 amended by adding at the end the following new sub-
10 section:

11 “(1) A member of the armed forces who gives birth
12 while on active duty may be deployed during the period
13 of 12 months beginning on the date of such birth only
14 with the approval of a health care provider employed at
15 a military medical treatment facility and—

16 “(1) at the election of such member; or

17 “(2) in the interest of national security, as de-
18 termined by the Secretary of Defense.”.

19 **SEC. 573. AUTHORITY OF THE SECRETARY CONCERNED TO**
20 **TRANSPORT REMAINS OF A COVERED DECE-**
21 **DENT TO NO MORE THAN TWO PLACES SE-**
22 **LECTED BY THE PERSON DESIGNATED TO DI-**
23 **RECT DISPOSITION OF THE REMAINS.**

24 (a) **AUTHORITY.**—Section 1482(a)(8) of title 10,
25 United States Code, is amended to read as follows:

1 “(8)(A) Transportation of the remains, and
2 travel and transportation allowances as specified in
3 regulations prescribed under section 464 of title 37
4 for an escort of one person, to the place, subject to
5 subparagraph (B), selected by the person designated
6 to direct disposition of the remains or, if such a se-
7 lection is not made, to a national or other cemetery
8 which is selected by the Secretary and in which bur-
9 ial of the decedent is authorized.

10 “(B) The person designated to direct disposi-
11 tion of the remains may select two places under sub-
12 paragraph (A) if the second place is a national cem-
13 etry. If that person selects two places, the Sec-
14 retary concerned may pay for transportation to the
15 second place only by means of reimbursement under
16 subsection (b).

17 “(C) When transportation of the remains in-
18 cludes transportation by aircraft under section 562
19 of the John Warner National Defense Authorization
20 Act for Fiscal Year 2007 (Public Law 109–364; 10
21 U.S.C. 1482 note), the Secretary concerned shall
22 provide, to the maximum extent practicable, for de-
23 livery of the remains by air to the commercial, gen-
24 eral aviation, or military airport nearest to the place
25 selected by the designee.”.

1 (b) MILITARY ESCORT AND HONOR GUARD ONLY TO
2 FIRST LOCATION.—Section 562(b) of the John Warner
3 National Defense Authorization Act for Fiscal Year 2007
4 (Public Law 109–364; 10 U.S.C. 1482 note) is amended
5 by adding at the end the following: “If the person des-
6 ignated to direct disposition of the remains selects two
7 places under such section, the term means only the first
8 of those two places.”.

9 **SEC. 574. MILITARY FUNERAL HONORS MATTERS.**

10 (a) FULL MILITARY HONORS CEREMONY FOR CER-
11 TAIN VETERANS.—Section 1491(b) of title 10, United
12 States Code, is amended by adding at the end the fol-
13 lowing:

14 “(3) The Secretary concerned shall provide full mili-
15 tary honors (as determined by the Secretary concerned)
16 for the funeral of a veteran who—

17 “(A) is first interred or first inurned in Arling-
18 ton National Cemetery on or after the date of the
19 enactment of the National Defense Authorization
20 Act for Fiscal Year 2020;

21 “(B) was awarded the medal of honor or the
22 prisoner-of-war medal; and

23 “(C) is not entitled to full military honors by
24 the grade of that veteran.”.

1 (b) FULL MILITARY FUNERAL HONORS FOR VET-
2 ERANS AT MILITARY INSTALLATIONS.—

3 (1) INSTALLATION PLANS FOR HONORS RE-
4 QUIRED.—The commander of each military installa-
5 tion at or through which a funeral honors detail for
6 a veteran is provided pursuant to section 1491 of
7 title 10, United States Code (as amended by sub-
8 section (a)), shall maintain and carry out a plan for
9 the provision, upon request, of full military funeral
10 honors at funerals of veterans for whom a funeral
11 honors detail is authorized in that section.

12 (2) ELEMENTS.—Each plan of an installation
13 under paragraph (1) shall include the following:

14 (A) Mechanisms to ensure compliance with
15 the requirements applicable to the composition
16 of funeral honors details in section 1491(b) of
17 title 10, United States Code (as so amended).

18 (B) Mechanisms to ensure compliance with
19 the requirements for ceremonies for funerals in
20 section 1491(e) of such title.

21 (C) In addition to the ceremonies required
22 pursuant to subparagraph (B), the provision of
23 a gun salute, if otherwise authorized, for each
24 funeral by appropriate personnel, including per-
25 sonnel of the installation, members of the re-

1 serve components of the Armed Forces residing
2 in the vicinity of the installation who are or-
3 dered to funeral honors duty, or members of
4 veterans organizations or other organizations
5 referred to in section 1491(b)(2) of such title.

6 (D) Mechanisms for the provision of sup-
7 port authorized by section 1491(d) of such title.

8 (E) Such other mechanisms and activities
9 as the Secretary concerned considers appro-
10 priate in order to assure that full military fu-
11 neral honors are provided upon request at fu-
12 nerals of veterans.

13 (3) DEFINITIONS.—In this subsection:

14 (A) The term “Secretary concerned” has
15 the meaning given that term in section
16 101(a)(9) of title 10, United States Code.

17 (B) The term “veteran” has the meaning
18 given that term in section 1491(h) of title 10,
19 United States Code.

20 **SEC. 575. IMPROVEMENT OF OCCUPATIONAL LICENSE**
21 **PORTABILITY FOR RELOCATED SPOUSES OF**
22 **MEMBERS OF THE UNIFORMED SERVICES.**

23 Section 1784 of title 10, United States Code, is
24 amended by adding at the end the following new sub-
25 section:

1 “(h) IMPROVEMENT OF OCCUPATIONAL LICENSE
2 PORTABILITY THROUGH INTERSTATE COMPACTS.—

3 “(1) IN GENERAL.—The Secretary of Defense
4 shall seek to enter into a cooperative agreement with
5 the Council of State Governments to assist with
6 funding of the development of interstate compacts
7 on licensed occupations in order to alleviate the bur-
8 den associated with relicensing in such an occupa-
9 tion by spouse of a members of the armed forces in
10 connection with a permanent change of duty station
11 of members to another State.

12 “(2) LIMITATION ON ASSISTANCE PER COM-
13 PACT.—The amount provided under paragraph (1)
14 as assistance for the development of any particular
15 interstate compact may not exceed \$1,000,000.

16 “(3) LIMITATION ON TOTAL AMOUNT OF AS-
17 SISTANCE.—The total amount of assistance provided
18 under paragraph (1) in any fiscal year may not ex-
19 ceed \$4,000,000.

20 “(4) ANNUAL REPORT.—Not later than Feb-
21 ruary 28 each year, the Secretary shall submit to
22 the Committees on Armed Services of the Senate
23 and the House of Representatives a report on inter-
24 state compacts described in paragraph (1) developed

1 through assistance provided under that paragraph.

2 Each report shall set forth the following:

3 “(A) Any interstate compact developed
4 during the preceding calendar year, including
5 the occupational licenses covered by such com-
6 pact and the States agreeing to enter into such
7 compact.

8 “(B) Any interstate compact developed
9 during a prior calendar year into which one or
10 more additional States agreed to enter during
11 the preceding calendar year.

12 “(5) EXPIRATION.—The authority to enter into
13 a cooperative agreement under paragraph (1), and
14 to provide assistance described in that paragraph
15 pursuant to such cooperative agreement, expire on
16 September 30, 2024.”.

17 **SEC. 576. CONTINUED ELIGIBILITY FOR EDUCATION AND**
18 **TRAINING OPPORTUNITIES FOR SPOUSES OF**
19 **PROMOTED MEMBERS.**

20 Section 1784a(b) of title 10, United States Code, is
21 amended—

22 (1) by inserting “(1)” before “Assistance”; and

23 (2) by adding at the end the following new
24 paragraph:

1 “(2) A spouse who is eligible for a program under
2 this section and begins a course of education or training
3 for a degree, license, or credential described in subsection
4 (a) may not become ineligible to complete such course of
5 education or training solely because the member to whom
6 the spouse is married is promoted to a higher grade.”.

7 **SEC. 577. MODIFICATION TO AUTHORITY TO REIMBURSE**
8 **FOR STATE LICENSURE AND CERTIFICATION**
9 **COSTS OF A SPOUSE OF A SERVICEMEMBER**
10 **ARISING FROM RELOCATION.**

11 Section 476(p) of title 37, United States Code, is
12 amended—

13 (1) in paragraph (1), by striking “armed
14 forces” and inserting “uniformed services”;

15 (2) in paragraph (2), by striking “\$500” and
16 inserting “\$1,000”;

17 (3) in paragraph (3)—

18 (A) in subparagraph (A), by striking
19 “and”;

20 (B) in subparagraph (B), by striking the
21 period and inserting “; and”; and

22 (C) by adding at the end the following new
23 subparagraph:

24 “(C) an analysis of whether the maximum reim-
25 bursement amount under paragraph (2) is sufficient

1 to cover the average costs of relicensing described in
2 paragraph (1).”; and

3 (4) in paragraph (4), by striking “December
4 31, 2022” and inserting “December 31, 2024”.

5 **SEC. 578. CLARIFICATION REGARDING ELIGIBILITY TO**
6 **TRANSFER ENTITLEMENT UNDER POST-9/11**
7 **EDUCATIONAL ASSISTANCE PROGRAM.**

8 Section 3319(j) of title 38, United States Code, is
9 amended by adding at the end the following new para-
10 graph:

11 “(3) The Secretary of Defense may not prescribe any
12 regulation that would provide for a limitation on eligibility
13 to transfer unused education benefits to family members
14 based on a maximum number of years of service in the
15 Armed Forces.”.

16 **SEC. 579. ANNUAL STATE REPORT CARD.**

17 Section 1111(h)(1)(C)(ii) of the Elementary and Sec-
18 ondary Education Act of 1965 (20 U.S.C.
19 6311(h)(1)(C)(ii)) is amended by striking “on active duty
20 (as defined in section 101(d)(5) of such title)”.

21 **SEC. 580. IMPROVEMENTS TO CHILD CARE FOR MEMBERS**
22 **OF THE ARMED FORCES.**

23 (a) CLARIFYING TECHNICAL AMENDMENT TO DI-
24 RECT HIRE AUTHORITY OF THE DEPARTMENT OF DE-
25 FENSE FOR CHILD CARE SERVICES PROVIDERS FOR DE-

1 PARTMENT CHILD DEVELOPMENT CENTERS.—Section
2 559(e) of the National Defense Authorization Act for Fis-
3 cal Year 2018 (Public Law 115–91; 10 U.S.C. 1792 note)
4 is amended by inserting “(including family childcare coor-
5 dinator services and school age childcare coordinator serv-
6 ices)” after “childcare services”.

7 (b) ASSESSMENT OF FINANCIAL ASSISTANCE PRO-
8 VIDED TO CIVILIAN CHILD CARE PROVIDERS.—

9 (1) ASSESSMENT.—The Secretary of Defense
10 shall assess the maximum amount of financial as-
11 sistance provided to eligible civilian providers of
12 child care services or youth program services that
13 furnish such service for members of the armed
14 forces and employees of the United States under sec-
15 tion 1798 of title 10, United States Code. Such as-
16 sessment shall include the following:

17 (A) The determination of the Secretary
18 whether the maximum allowable financial as-
19 sistance should be standardized across the
20 Armed Forces.

21 (B) Whether the maximum allowable
22 amount adequately accounts for high-cost duty
23 stations.

24 (2) REPORT.—Not later than June 1, 2020, the
25 Secretary of Defense shall submit a report to the

1 Committees on Armed Services of the Senate and
2 the House of Representatives regarding the results
3 of the assessment under paragraph (1) and any ac-
4 tions taken by the Secretary to remedy identified
5 shortfalls in assistance described in that paragraph.

6 (c) REDUCTION IN WAIT LISTS FOR CHILD CARE AT
7 MILITARY INSTALLATIONS.—

8 (1) REMEDIAL ACTION.—The Secretary of De-
9 fense shall take steps the Secretary determines nec-
10 essary to reduce the waiting lists for child care at
11 military installations to ensure that members of the
12 Armed Forces have meaningful access to child care
13 during tours of duty.

14 (2) REPORT.—Not later than June 1, 2020, the
15 Secretary of Defense shall provide a report to the
16 Committees on Armed Forces of the Senate and the
17 House of Representative regarding—

18 (A) action taken under paragraph (1); and

19 (B) any additional resources (including ad-
20 ditional funding for and child care facilities and
21 workers) the Secretary determines necessary to
22 increase access described in paragraph (1).

23 (d) GAO REVIEW.—The Comptroller General of the
24 United States shall conduct a review of the assessments,
25 actions, and determinations of the Secretary under sub-

1 sections (b)(1) and (c). Not later than December 1, 2020,
2 the Comptroller General shall submit to the Committees
3 on Armed Services of the Senate and the House of Rep-
4 resentatives a report regarding the review performed
5 under this subsection.

6 (e) ASSESSMENT OF ACCESSIBILITY OF WEBSITES
7 OF THE DEPARTMENT OF DEFENSE RELATED TO CHILD
8 CARE AND SPOUSAL EMPLOYMENT.—

9 (1) ASSESSMENT.—The Secretary of Defense
10 shall review the functions and accessibility of
11 websites of the Department of Defense designed for
12 members of the Armed Forces and the families of
13 such members to access information and services of-
14 fered by the Department regarding child care,
15 spousal employment, and other family matters.

16 (2) REPORT.—Not later than March 1, 2020,
17 the Secretary of Defense shall provide a briefing to
18 the Committees on Armed Services of the Senate
19 and the House of Representatives regarding the re-
20 sults of the assessment under paragraph (1) and ac-
21 tions taken to enhance accessibility of the websites.

22 (f) PORTABILITY OF BACKGROUND INVESTIGATIONS
23 FOR CHILD CARE PROVIDERS.—Not later than 180 days
24 after the date of the enactment of this Act, the Secretary
25 of Defense shall ensure that the background investigation

1 and training certification for a child care provider em-
2 ployed by the Department of Defense in a facility of the
3 Department may be transferred to another facility of the
4 Department, without regard to which Secretary of a mili-
5 tary department has jurisdiction over either such facility.

6 **SEC. 580A. TRANSPORTATION OF REMAINS OF CASUALTIES;**

7 **TRAVEL EXPENSES FOR NEXT OF KIN.**

8 (a) TRANSPORTATION FOR REMAINS OF A MEMBER
9 WHO DIES NOT IN A THEATER OF COMBAT OPER-
10 ATIONS.—Section 562 of the John Warner National De-
11 fense Authorization Act for Fiscal Year 2007 (Public Law
12 109–364; 10 U.S.C. 1482 note), as amended by section
13 573 of this Act, is further amended—

14 (1) in the heading, by striking “**DYING IN A**
15 **THEATER OF COMBAT OPERATIONS**”; and

16 (2) in subsection (a), by striking “in a combat
17 theater of operations” and inserting “outside of the
18 United States”.

19 (b) TRANSPORTATION FOR FAMILY.—The Secretary
20 of Defense shall extend travel privileges via Invitational
21 Travel Authorization to family members of members of the
22 Armed Forces who die outside of the United States and
23 whose remains are returned to the United States through
24 the mortuary facility at Dover Air Force Base, Delaware.

1 **SEC. 580B. MEETINGS OF OFFICIALS OF THE DEPARTMENT**
2 **OF DEFENSE WITH REPRESENTATIVE**
3 **GROUPS OF SURVIVORS OF DECEASED MEM-**
4 **BERS OF THE ARMED FORCES.**

5 (a) CHIEFS OF THE ARMED FORCES.—The Secretary
6 of Defense shall direct the chiefs of the Armed Forces to
7 meet periodically with representative groups of survivors
8 of deceased members of the Armed Forces to receive feed-
9 back from those survivors regarding issues affecting such
10 survivors. The Chief of the National Guard Bureau shall
11 meet with representative groups of survivors of deceased
12 members of the Air National Guard and the Army Na-
13 tional Guard.

14 (b) UNDER SECRETARY OF DEFENSE FOR PER-
15 SONNEL AND READINESS.—The Under Secretary of De-
16 fense for Personnel and Readiness shall meet periodically
17 with representative groups of survivors of deceased mem-
18 bers of the Armed Forces to discuss policies of the Depart-
19 ment of Defense regarding military casualties and Gold
20 Star families.

21 (c) BRIEFING.—Not later than April 1, 2020, the
22 Under Secretary of Defense for Personnel and Readiness
23 shall brief the Committee on Armed Services of the House
24 of Representatives regarding policies established and the
25 results of the meetings under subsection (b).

1 **SEC. 580C. INFORMATION AND OPPORTUNITIES FOR REG-**
2 **ISTRATION FOR VOTING AND ABSENTEE BAL-**
3 **LOT REQUESTS FOR MEMBERS OF THE**
4 **ARMED FORCES UNDERGOING DEPLOYMENT**
5 **OVERSEAS.**

6 (a) IN GENERAL.—Not later than 45 days prior to
7 a general election for Federal office, a member of the
8 Armed Forces shall, upon request, be provided with the
9 following:

10 (1) A Federal write-in absentee ballot pre-
11 scribed pursuant to section 103 of the Uniformed
12 and Overseas Citizens Absentee Voting Act (52
13 U.S.C. 20303), together with instructions on the ap-
14 propriate use of the ballot with respect to the State
15 in which the member is registered to vote.

16 (2) In the case of a member intending to vote
17 in a State that does not accept the Federal write-
18 in absentee ballot as a simultaneous application and
19 acceptable ballot for Federal elections, instructions
20 on, and an opportunity to fill out, the official post
21 card form for absentee voter registration application
22 and absentee ballot application prescribed under sec-
23 tion 101(b)(2) of the Uniformed and Overseas Citi-
24 zens Absentee Voting Act (52 U.S.C. 20301(b)(2)).

25 (b) PERSONNEL RESPONSIBLE OF DISCHARGE.—
26 Ballots and instructions pursuant to paragraph (1) of sub-

1 section (a), and briefings and forms pursuant to para-
2 graph (2) of such subsection, shall be provided by Voting
3 Assistance Officers or such other personnel as the Sec-
4 retary of the military department concerned shall des-
5 ignate.

6 **SEC. 580D. STUDY ON TWO-WAY MILITARY BALLOT**
7 **BARCODE TRACKING.**

8 (a) STUDY.—The Director of the Federal Voting As-
9 sistance Program of the Department of Defense shall con-
10 duct a study on the feasibility of a pilot program providing
11 full ballot tracking of overseas military absentee ballots
12 through the mail stream in a manner that is similar to
13 the 2016 Military Ballot Tracking Pilot Program con-
14 ducted by the Federal Voting Assistance Program.

15 (b) REPORT.—Not later than one year after the date
16 of the enactment of this Act, the Director shall submit
17 to Congress a report on the results of the study conducted
18 under subsection (a). The report shall include—

19 (1) an estimate of the costs and requirements
20 needed to conduct the pilot program described in
21 subsection (a);

22 (2) a description of the organizations that
23 would provide substantial support for the pilot pro-
24 gram;

1 (3) a time line for the phased implementation
2 of the pilot program to all military personnel actively
3 serving overseas;

4 (4) a method to determine under the pilot pro-
5 gram if a ballot was counted, and a way to provide
6 such information to the member of the Armed
7 Forces casting the vote; and

8 (5) a description of the efforts being under-
9 taken to ensure a reliable and secure military ballot
10 tracking system.

11 **SEC. 580E. ASSISTANCE TO SCHOOLS WITH MILITARY DE-**
12 **PENDENT STUDENTS.**

13 (a) **IMPACT AID FOR CHILDREN WITH SEVERE DIS-**
14 **ABILITIES.—**

15 (1) **IN GENERAL.—**Of the amount authorized to
16 be appropriated for fiscal year 2020 by section 301
17 and available for operation and maintenance for De-
18 fense-wide activities as specified in the funding table
19 in section 4301, \$10,000,000 shall be available for
20 payments under section 363 of the Floyd D. Spence
21 National Defense Authorization Act for Fiscal Year
22 2001 (Public Law 106–398; 20 U.S.C. 7703a).

23 (2) **USE OF CERTAIN AMOUNT.—**Of the amount
24 available under paragraph (1) for payments as de-
25 scribed in that paragraph, \$5,000,000 shall be avail-

1 program may receive financial assistance for the pursuit
2 of a license, certification, or Associate's degree in any ca-
3 reer field or occupation.

4 **SEC. 580G. SECOND EXPANSION OF THE MY CAREER AD-
5 VANCEMENT ACCOUNT PROGRAM FOR MILI-
6 TARY SPOUSES.**

7 The spouse of a member of the Coast Guard may par-
8 ticipate in the My Career Advancement Account program
9 of the Department of Defense if the Coast Guard reim-
10 burses the Department of Defense.

11 **SEC. 580H. REPORT ON TRAINING AND SUPPORT AVAIL-
12 ABLE TO MILITARY SPOUSES.**

13 (a) **REPORT REQUIRED.**—Not later than 180 days
14 after the date of the enactment of this Act, the Under
15 Secretary of Defense for Personnel and Readiness shall
16 submit to the committees on Armed Services of the Senate
17 and the House of Representatives a report that includes
18 a description of the following:

19 (1) Financial literacy programs currently de-
20 signed specifically for military spouses.

21 (2) Efforts to evaluate the effectiveness of fi-
22 nancial literacy programs.

23 (b) **PUBLIC AVAILABILITY.**—The report submitted
24 under subsection (a) shall be made available on a publicly
25 accessible website of the Department of Defense.

1 **SEC. 580I. RI'KATAK GUEST STUDENT PROGRAM AT UNITED**
2 **STATES ARMY GARRISON – KWAJALEIN**
3 **ATOLL.**

4 (a) PROGRAM AUTHORIZED.—The Secretary of the
5 Army may conduct an assistance program to educate up
6 to five local national students per grade, per academic
7 year, on a space-available basis at the contractor-operated
8 schools on United States Army Garrison–Kwajalein Atoll.
9 The program shall be known as the “Ri’katak Guest Stu-
10 dent Program”.

11 (b) STUDENT ASSISTANCE.—Assistance that may be
12 provided to students participating in the program carried
13 out pursuant to subsection (a) includes the following:

- 14 (1) Classroom instruction.
- 15 (2) Extracurricular activities.
- 16 (3) Student meals.
- 17 (4) Transportation.

18 **Subtitle I—Decorations and**
19 **Awards**

20 **SEC. 581. MODIFICATION OF AUTHORITIES ON ELIGIBILITY**
21 **FOR AND REPLACEMENT OF GOLD STAR**
22 **LAPEL BUTTONS.**

23 (a) EXPANSION OF AUTHORITY TO DETERMINE
24 NEXT OF KIN FOR ISSUANCE.—Section 1126 of title 10,
25 United States Code, is amended—

1 (1) in subsection (a), by striking “widows, par-
2 ents, and” in the matter preceding paragraph (1);

3 (2) in subsection (b), by striking “the widow
4 and to each parent and” and inserting “each”; and

5 (3) in subsection (d)—

6 (A) by striking paragraphs (1), (2), (3),
7 and (4) and inserting the following new para-
8 graph (1):

9 “(1) The term ‘next of kin’ means individuals
10 standing in such relationship to members of the
11 armed forces described in subsection (a) as the Sec-
12 retaries concerned shall jointly specify in regulations
13 for purposes of this section.”; and

14 (B) by redesignating paragraphs (5), (6),
15 (7), and (8) as paragraphs (2), (3), (4), and
16 (5), respectively.

17 (b) REPLACEMENT.—Subsection (c) of such section
18 is amended by striking “and payment” and all that follows
19 and inserting “and without cost.”.

20 **SEC. 582. STANDARDIZATION OF HONORABLE SERVICE RE-**
21 **QUIREMENT FOR AWARD OF MILITARY DECO-**
22 **RATIONS.**

23 (a) HONORABLE SERVICE REQUIREMENT.—

1 (1) IN GENERAL.—Chapter 57 of title 10,
2 United States Code, is amended by adding at the
3 end the following new section:

4 **“§ 1136. Honorable service requirement for award of**
5 **military decorations**

6 “No military decoration, including a medal, cross, or
7 bar, or an associated emblem or insignia, may be awarded
8 or presented to any person, or to a representative of the
9 person, if the service of the person after the person distin-
10 guished himself or herself has not been honorable.”.

11 (2) CLERICAL AMENDMENT.—The table of sec-
12 tions at the beginning of chapter 57 of such title is
13 amended by adding at the end the following:

“1136. Honorable service requirement for award of military decorations.”.

14 (b) CONFORMING AMENDMENTS.—Title 10, United
15 States Code, is further amended as follows:

16 (1) In section 7274—

17 (A) in subsection (b), in the matter pre-
18 ceding paragraph (1), by striking “subsection
19 (d)” and inserting “subsection (c)”;

20 (B) by striking subsection (c); and

21 (C) by redesignating subsection (d) as sub-
22 section (e).

23 (2)(A) Section 8299 is repealed.

1 (B) The table of sections at the beginning of
2 chapter 837 is amended by striking the item relating
3 to section 8299.

4 (3) In section 9274—

5 (A) in subsection (b), in the matter pre-
6 ceding paragraph (1), by striking “subsection
7 (d)” and inserting “subsection (e)”;

8 (B) by striking subsection (c); and

9 (C) by redesignating subsection (d) as sub-
10 section (c).

11 (4) In section 9279, by striking subsection (c).

12 **SEC. 583. AUTHORIZATION FOR AWARD OF THE MEDAL OF**
13 **HONOR TO JOHN J. DUFFY FOR ACTS OF**
14 **VALOR IN VIETNAM.**

15 (a) **WAIVER OF TIME LIMITATIONS.**—Notwith-
16 standing the time limitations specified in section 7274 of
17 title 10, United States Code, or any other time limitation
18 with respect to the awarding of certain medals to persons
19 who served in the Armed Forces, the President may award
20 the Medal of Honor under section 7271 of such title to
21 John J. Duffy for the acts of valor in Vietnam described
22 in subsection (b).

23 (b) **ACTS OF VALOR DESCRIBED.**—The acts of valor
24 referred to in subsection (a) are the actions of John J.
25 Duffy on April 14 and 15, 1972, in Vietnam for which

1 he was previously awarded the Distinguished-Service
2 Cross.

3 **SEC. 584. REVIEW OF WORLD WAR I VALOR MEDALS.**

4 (a) REVIEW REQUIRED.—Each Secretary concerned
5 shall review the service records of World War I veterans
6 described in subsection (b) under the jurisdiction of such
7 Secretary in order to determine whether any such veteran
8 should be awarded the Medal of Honor for valor during
9 World War I.

10 (b) COVERED WORLD WAR I VETERANS.—The
11 World War I veterans whose service records may be re-
12 viewed under subsection (a) are the following:

13 (1) African American war veterans, Asian
14 American war veterans, Hispanic American war vet-
15 erans, Jewish American war veterans, and Native
16 American war veterans who were awarded the Dis-
17 tinguished Service Cross or the Navy Cross for an
18 action that occurred between April 6, 1917, and No-
19 vember 11, 1918.

20 (2) African American war veterans, Asian
21 American war veterans, Hispanic American war vet-
22 erans, Jewish American war veterans, and Native
23 American war veterans who were awarded the Croix
24 de Guerre with Palm (that is, awarded at the Army
25 level or above) by the Government of France for an

1 action that occurred between April 6, 1917, and No-
2 vember 11, 1918.

3 (3) African American war veterans, Asian
4 American war veterans, Hispanic American war vet-
5 erans, Jewish American war veterans, and Native
6 American war veterans who were recommended for
7 a Medal of Honor for actions that occurred from
8 April 6, 1917, to November 11, 1918, if the Depart-
9 ment of Defense possesses or receives records relat-
10 ing to such recommendation.

11 (c) RECOMMENDATION BASED ON REVIEW.—If a
12 Secretary concerned determines, based upon the review
13 under subsection (a), that the award of the Medal of
14 Honor to a covered World War I veteran is warranted,
15 such Secretary shall submit to the President a rec-
16 ommendation that the President award the Medal of
17 Honor to that veteran.

18 (d) AUTHORITY TO AWARD MEDAL OF HONOR.—
19 The Medal of Honor may be awarded to a World War I
20 veteran in accordance with a recommendation of a Sec-
21 retary concerned under subsection (c).

22 (e) WAIVER OF TIME LIMITATIONS.—An award of
23 the Medal of Honor may be made under subsection (d)
24 without regard to—

1 (1) section 7274 or 8298 of title 10, United
2 States Code, as applicable; and

3 (2) any regulation or other administrative re-
4 striction on—

5 (A) the time for awarding the Medal of
6 Honor; or

7 (B) the awarding of the Medal of Honor
8 for service for which a Distinguished Service
9 Cross or Navy Cross has been awarded.

10 (f) DEADLINE.—The review under subsection (a)
11 shall terminate not later than five years after the date of
12 the enactment of this Act.

13 (g) DEFINITIONS.—

14 (1) IN GENERAL.—In this section:

15 (A) AFRICAN AMERICAN WAR VETERAN.—
16 The term “African American war veteran”
17 means any person who served in the United
18 States Armed Forces between April 6, 1917,
19 and November 11, 1918, and who identified
20 himself as of African descent on his military
21 personnel records.

22 (B) ASIAN AMERICAN WAR VETERAN.—
23 The term “Asian American war veteran” means
24 any person who served in the United States
25 Armed Forces between April 6, 1917, and No-

1 vember 11, 1918, and who identified himself ra-
2 cially, nationally, or ethnically as originating
3 from a country in Asia on his military per-
4 sonnel records.

5 (C) HISPANIC AMERICAN WAR VETERAN.—
6 The term “Hispanic American war veteran”
7 means any person who served in the United
8 States Armed Forces between April 6, 1917,
9 and November 11, 1918, and who identified
10 himself racially, nationally, or ethnically as
11 originating from a country where Spanish is an
12 official language on his military personnel
13 records.

14 (D) JEWISH AMERICAN WAR VETERAN.—
15 The term “Jewish American war veteran” mean
16 any person who served in the United States
17 Armed Forces between April 6, 1917, and No-
18 vember 11, 1918, and who identified himself as
19 Jewish on his military personnel records.

20 (E) NATIVE AMERICAN WAR VETERAN.—
21 The term “Native American war veteran”
22 means any person who served in the United
23 States Armed Forces between April 6, 1917,
24 and November 11, 1918, and who identified
25 himself as a member of a federally recognized

1 tribe within the modern territory of the United
2 States on his military personnel records.

3 (F) SECRETARY CONCERNED.—The term
4 “Secretary concerned” means—

5 (i) the Secretary of the Army, in the
6 case of members of the Armed Forces who
7 served in the Army between April 6, 1917,
8 and November 11, 1918; and

9 (ii) the Secretary of the Navy, in the
10 case of members of the Armed Forces who
11 served in the Navy or the Marine Corps
12 between April 6, 1917, and November 11,
13 1918.

14 (2) APPLICATION OF DEFINITIONS OF ORI-
15 GIN.—If the military personnel records of a person
16 do not reflect the person’s membership in one of the
17 groups identified in subparagraphs (B) through (F)
18 of paragraph (1) but historical evidence exists that
19 demonstrates the person’s Jewish faith held at the
20 time of service, or that the person identified himself
21 as of African, Asian, Hispanic, or Native American
22 descent, the person may be treated as being a mem-
23 ber of the applicable group by the Secretary con-
24 cerned for purposes of this section.

1 **Subtitle J—Miscellaneous Reports**
2 **and Other Matters**

3 **SEC. 591. CLARIFICATION OF THE TERM “ASSAULT” FOR**
4 **PURPOSES OF WORKPLACE AND GENDER RE-**
5 **LATIONS SURVEYS.**

6 (a) SURVEYS OF MEMBERS OF THE ARMED
7 FORCES.—Section 481 of title 10, United States Code, is
8 amended by inserting “(including unwanted sexual con-
9 tact)” after “assault” each place it appears.

10 (b) SURVEYS OF CIVILIAN EMPLOYEES OF THE DE-
11 PARTMENT OF DEFENSE.—Section 481a of title 10,
12 United States Code, is amended by inserting “(including
13 unwanted sexual contact)” after “assault” each place it
14 appears.

15 (c) EFFECTIVE DATE.—The amendments made by
16 subsections (a) and (b) shall take effect on the date of
17 the enactment of this Act and shall apply with respect to
18 surveys under sections 481 and 481a of title 10, United
19 States Code, that are initiated after such date.

20 **SEC. 592. INCLUSION OF CERTAIN VETERANS ON TEM-**
21 **PORARY DISABILITY OR PERMANENT DIS-**
22 **ABLED RETIREMENT LISTS IN MILITARY**
23 **ADAPTIVE SPORTS PROGRAMS.**

24 (a) INCLUSION OF CERTAIN VETERANS.—Subsection
25 (a)(1) of section 2564a of title 10, United States Code,

1 is amended by striking “for members of the armed forces
2 who” and all that follows through the period at the end
3 and inserting the following: “for—

4 “(A) any member of the armed forces who
5 is eligible to participate in adaptive sports be-
6 cause of an injury, illness, or wound incurred in
7 the line of duty in the armed forces; and

8 “(B) any veteran (as defined in section
9 101 of title 38), during the one-year period fol-
10 lowing the veteran’s date of separation, who—

11 “(i) is on the Temporary Disability
12 Retirement List or Permanently Disabled
13 Retirement List;

14 “(ii) is eligible to participate in adapt-
15 ive sports because of an injury, illness, or
16 wound incurred in the line of duty in the
17 armed forces; and

18 “(iii) was enrolled in the program au-
19 thorized under this section prior to the vet-
20 eran’s date of separation.”.

21 (b) CONFORMING AMENDMENT.—Subsection (b) of
22 such section is amended by inserting “and veterans” after
23 “members”.

24 (c) CLERICAL AMENDMENTS.—

1 (1) HEADING AMENDMENT.—The heading of
2 such section is amended to read as follows:

3 **“§ 2564a. Provision of assistance for adaptive sports**
4 **programs: members of the armed forces;**
5 **certain veterans”.**

6 (2) TABLE OF SECTION.—The table of sections
7 at the beginning of chapter 152 of such title is
8 amended by striking the item relating to section
9 2564a and inserting the following new item:

“2564a. Provision of assistance for adaptive sports programs: members of the
armed forces; certain veterans.”.

10 **SEC. 593. QUESTIONS IN SURVEYS REGARDING EXTREMIST**
11 **ACTIVITY IN THE WORKPLACE.**

12 The Secretary of Defense shall include in appropriate
13 surveys administered by the Department of Defense ques-
14 tions regarding whether respondents have ever—

15 (1) experienced or witnessed extremist activity
16 in the workplace; or

17 (2) reported such activity.

18 **SEC. 594. STUDY ON BEST PRACTICES FOR PROVIDING FI-**
19 **NANCIAL LITERACY EDUCATION FOR SEPA-**
20 **RATING MEMBERS OF THE ARMED FORCES.**

21 (a) STUDY REQUIRED.—The Secretary of Defense,
22 and with respect to members of the Coast Guard, in co-
23 ordination with the Secretary of the Department in which
24 the Coast Guard is operating when it is not operating as

1 a service in the Navy, shall conduct a study on the best
2 practices to provide financial literacy education for sepa-
3 rating members of the Armed Forces.

4 (b) ELEMENTS.—The study required by subsection
5 (a) shall include—

6 (1) an examination, recommendations, and re-
7 porting on best practices for providing financial lit-
8 eracy education to separating members of the Armed
9 Forces; and

10 (2) detailed current financial literacy programs
11 for separating members of the Armed Forces.

12 (c) CONSULTATION.—In conducting the study re-
13 quired by subsection (a), the Secretaries shall consult with
14 the Financial Literacy and Education Commission of the
15 Department of the Treasury.

16 (d) REPORT.—Not later than 120 days after the date
17 of the enactment of this Act, the Secretary of Defense
18 shall submit to the committees on Armed Services of the
19 Senate and the House of Representatives a report on the
20 study under subsection (a).

21 (e) FINANCIAL LITERACY DEFINED.—In this section,
22 the term “financial literacy” means education regarding
23 personal finance including the insurance, credit, loan,
24 banking, career training and education benefits available
25 to veterans.

1 **SEC. 595. REPORT ON OVERSIGHT OF AUTHORIZED**
2 **STRENGTHS OF CERTAIN GRADES OF COM-**
3 **MISSIONED REGULAR AND RESERVE OFFI-**
4 **CERS OF THE ARMED FORCES.**

5 (a) REPORT REQUIRED.—Not later than April 1,
6 2020, the Secretary of Defense shall submit to the Com-
7 mittees on Armed Services of the Senate and the House
8 of Representatives a report on oversight of the authorized
9 strengths of commissioned regular officers of the Armed
10 Forces and commissioned reserve officers of the Armed
11 Forces in the grades as follows:

12 (1) The grades of major, lieutenant colonel, and
13 colonel in the Army, the Air Force, and the Marine
14 Corps.

15 (2) The grades of lieutenant commander, com-
16 mander, and captain in the Navy.

17 (b) ELEMENTS.—The report required by subsection
18 (a) shall include the following:

19 (1) Such recommendations as the Secretary
20 considers appropriate on mechanisms to improve De-
21 partment of Defense oversight, and oversight by
22 Congress, of the authorized strengths of commis-
23 sioned officers in the grades specified in subsection
24 (a), including the following:

25 (A) An analysis of the history of each mili-
26 tary department in complying with the author-

1 ized strengths and strengths in grade specified
2 in sections 523 and 12005 of title 10, United
3 States Code, including a description of—

4 (i) the number of officers in each
5 grade and Armed Force concerned as of
6 the end of each fiscal year between fiscal
7 year 2010 and fiscal year 2019; and

8 (ii) the number of officers authorized
9 for such grade and Armed Force as of the
10 end of such fiscal year under the applicable
11 section.

12 (B) An assessment of the feasibility and
13 advisability of submitting to Congress each year
14 a request for an authorization for officers serv-
15 ing in the grades currently covered by the ta-
16 bles in section 523 of title 10, United States
17 Code.

18 (C) An assessment of the feasibility and
19 advisability of submitting to Congress each year
20 a proposal for legislation to update the tables in
21 such section.

22 (D) An assessment of the advisability of
23 converting the authorization for end strengths
24 for regular officers in the grades specified in
25 subsection (a) to a percentage-based approach

1 like that currently utilized for reserve officers in
2 section 12005 of title 10, United States Code.

3 (2) Such other recommendations as the Sec-
4 retary considers appropriate to improve the effective-
5 ness of the oversight by Congress of the number of
6 commissioned regular and reserve officers of the
7 Armed Forces in the grades specified in subsection
8 (a).

9 **SEC. 596. REPORT ON CERTAIN WAIVERS.**

10 (a) IN GENERAL.—Not later than 120 days after the
11 date of the enactment of this Act, and annually thereafter
12 during the two subsequent calendar years, the Secretary
13 of Defense shall submit to the Committees on Armed Serv-
14 ices of the House of Representatives and the Senate a re-
15 port identifying, with respect to the reporting period for
16 such report, and disaggregated by Armed Force, the fol-
17 lowing:

18 (1) ACCESSION AND COMMISSION.—

19 (A) The number of individuals who were
20 processed by a Secretary of a military depart-
21 ment for a medical accession or commissioning
22 qualification determination on or after April 12,
23 2019.

24 (B) Of the individuals described in sub-
25 paragraph (A), the number of such individuals

1 who were found medically disqualified pursuant
2 to the standards established in DTM-19-004
3 regarding enlistment in or commission as an of-
4 ficer of an Armed Force under the jurisdiction
5 of the Secretary of a military department.

6 (C) Of the individuals described in sub-
7 paragraph (A), the number of such individ-
8 uals—

9 (i) described in section I.b.(1), 1.b(2),
10 1.b(3), or II.b.(1) of attachment 3 to
11 DTM-19-004; and

12 (ii) who did not require a waiver or
13 exception to standards described in sub-
14 paragraph (B).

15 (D) Of the individuals described in sub-
16 paragraph (C), the number of such individuals
17 who enlisted or were commissioned.

18 (E) Of the individuals described in sub-
19 paragraph (B), the number of such individuals
20 who were considered for a waiver or exception
21 to standards described in subparagraph (B).

22 (F) Of the individuals described in sub-
23 paragraph (E), the number of such individuals
24 who were denied such a waiver or exception.

1 (G) Of the individuals described in sub-
2 paragraph (E), the number of such individuals
3 who received such a waiver or exception.

4 (H) Of the individuals described in sub-
5 paragraph (G), the number of such individuals
6 who enlisted or were commissioned.

7 (2) RETENTION.—

8 (A) The number of members of each
9 Armed Force under the jurisdiction of the Sec-
10 retary of a military department who received a
11 diagnosis of gender dysphoria on or after April
12 12, 2019.

13 (B) Of the members described in subpara-
14 graph (A), the number of members who were—

15 (i) referred to the Disability Evalua-
16 tion System; or

17 (ii) subject to processing for adminis-
18 trative separation based on conditions and
19 circumstances not constituting a physical
20 disability that interfered with assignment
21 to or performance of duty.

22 (C) Of the members described in subpara-
23 graph (A), the number of members who were
24 subsequently considered for a waiver or excep-
25 tion to standards established in DTM–19–004

1 to permit those members to serve in other than
2 the biological sex of each such member.

3 (D) Of the members described in subpara-
4 graph (C), the number of members who were
5 granted such a waiver or exception.

6 (E) Of the members described in subpara-
7 graph (C), the number of members who were
8 denied such a waiver or exception.

9 (F) Of the members described in subpara-
10 graph (E), the number of members who were
11 discharged because of such denial, aggregated
12 by characterization of discharge.

13 (b) PROTECTION OF CERTAIN INFORMATION.—No
14 report submitted under this section may contain any per-
15 sonally identifiable information or protected health infor-
16 mation of any individual.

17 (c) DEFINITIONS.—In this section:

18 (1) The term “DTM–19–004” means the
19 memorandum—

20 (A) issued by the Office of the Deputy Sec-
21 retary of Defense;

22 (B) dated March 12, 2019; and

23 (C) with the subject heading “Directive-
24 type Memorandum (DTM)–19–004–Military

1 Service by Transgender Persons and Persons
2 with Gender Dysphoria”.

3 (2) The terms “exempt individuals” and “non-
4 exempt individuals” have the meanings given those
5 terms in attachment 3 to DTM–19–004.

6 (3) The term “reporting period” means, with
7 respect to a report submitted under subsection (a),
8 the calendar year most recently completed before the
9 date on which such report is to be submitted.

10 **SEC. 597. NOTIFICATIONS ON MANNING OF AFLOAT NAVAL**
11 **FORCES.**

12 (a) **IN GENERAL.**—The Secretary of the Navy shall
13 notify the congressional defense committees, in writing,
14 not later than 30 days after the end of each fiscal year
15 quarter, of each covered ship (if any) that met either con-
16 dition as follows:

17 (1) The manning fit for such ship was less than
18 87 percent for more than 14 days during such fiscal
19 year quarter.

20 (2) The manning fill for such ship was less
21 than 90 percent for more than 14 days during such
22 fiscal year quarter.

23 (b) **ELEMENTS.**—The notification required by sub-
24 section (a) shall include, with respect to a covered ship,
25 the following:

1 (1) The name and hull number of the ship.

2 (2) The homeport location of the ship.

3 (3) The current manning fit and fill of the ship.

4 (4) If the lowest level of manning fit or man-
5 ning fill for the ship occurred during the fiscal year
6 quarter concerned, the level concerned and the date
7 on which such level occurred.

8 (5) If the lowest level of manning fit or man-
9 ning fill for the ship is projected to occur after the
10 fiscal year quarter concerned, the projected level and
11 the date on which such level is projected to occur.

12 (6) If not achieved as of the date of the notifi-
13 cation the projected date on which the Navy will
14 achieve a manning fit and fill at least 87 percent
15 and 90 percent, respectively, for the ship.

16 (7) If not achieved as of the date of the notifi-
17 cation, the projected date on which the Navy will
18 achieve a manning fit and fill of at least 92 percent
19 and 95 percent, respectively, for the ship.

20 (8) A description of the reasons the Navy has
21 not achieved, or will not achieve, as applicable, man-
22 ning fit and fill of at least 87 percent and 90 per-
23 cent, respectively, for the ship, including a detailed
24 description of the specific ratings or skillset areas
25 that must be manned to achieve those percentages.

1 (9) A description of corrective actions the Navy
2 is taking to improve manning fit or manning fill on
3 the ship.

4 (c) SPECIAL RULE.—For purposes of determining
5 whether a percentage of manning fit or manning fill has
6 been achieved, a sailor in a more senior paygrade may
7 count as filling the billet of a more junior paygrade, but
8 a sailor in a more junior paygrade may not count as filling
9 the billet of a more senior paygrade.

10 (d) DEFINITIONS.—In this section:

11 (1) MANNING FIT.—The term “manning fit”, in
12 the case of a ship, means the skills (rating), spe-
13 cialty skills (Navy Enlisted Classifications), and ex-
14 perience (paygrade) for the ship when compared
15 with the ship manpower document requirement and
16 billets authorized for such skills and experience.

17 (2) MANNING FILL.—The term “manning fill”,
18 in the case of a ship, means the total number of
19 military personnel assigned to the ship by rating
20 when compared with the ship manpower document
21 requirement and billets authorized for the ship by
22 rating.

23 (3) COVERED SHIP.—The term “covered ship”
24 means a commissioned battle force ship that is in-

1 cluded in the battle force count of the Naval Vessel
2 Register.

3 (e) SUNSET.—The requirement to submit notifica-
4 tions under subsection (a) with respect to fiscal year quar-
5 ters shall cease beginning with fiscal year quarters in fis-
6 cal year 2025.

7 (f) REPEAL OF SUPERSEDED REQUIREMENTS.—Sec-
8 tion 525 of the John S. McCain National Defense Author-
9 ization Act for Fiscal Year 2019 (Public Law 115–232;
10 132 Stat. 1757; 10 U.S.C. 8013 note) is repealed.

11 **SEC. 598. REPORT REGARDING USE OF AERIAL SYSTEMS OF**
12 **THE DEPARTMENT OF DEFENSE TO SUPPORT**
13 **AGENCIES OF STATES, TERRITORIES, AND**
14 **THE FEDERAL GOVERNMENT.**

15 (a) REPORT REQUIRED.—Not later than 180 days
16 after the date of the enactment of this Act, the Secretary
17 of Defense, in consultation with the Chief of the National
18 Guard Bureau, shall submit to the Committees on Armed
19 Services of the House of Representatives and the Senate
20 a report regarding the requirements, policies, and proce-
21 dures governing the use of manned and unmanned aerial
22 systems of the Department of Defense to support State
23 and Federal agencies.

24 (b) ELEMENTS.—The report under subsection (a)
25 shall include the following:

1 (1) A description of requirements for providing
2 support to State and Federal agencies that the Sec-
3 retary considers appropriate for planning, program-
4 ming and budgeting resources.

5 (2) A description of manned and unmanned
6 aerial systems that the Secretary regularly provides
7 to support State and Federal agencies, including ex-
8 amples of support provided, and length of time to
9 approve requests.

10 (3) A list of requests for such aerial systems
11 from State and Federal agencies during fiscal year
12 2019 that the Secretary denied and the reason each
13 such request was disapproved.

14 (4) An overview of current policies and proce-
15 dures governing the use of such aerial systems by
16 States and Federal agencies, including—

17 (A) procedures a State or Federal agency
18 must follow to obtain use of such aerial systems
19 for natural disasters and search and rescue op-
20 erations;

21 (B) the typical amount of time needed to
22 process such requests, and whether such proce-
23 dures can be streamlined; and

1 (C) to what extent different policies and
2 procedures apply to unmanned aerial systems
3 versus manned aerial systems.

4 (5) A description of the different categories of
5 unmanned aerial systems of the Department of De-
6 fense, how such categories are managed, and wheth-
7 er the criteria for such categories affect the ability
8 of the Secretary to use unmanned aerial systems to
9 support State or Federal agencies.

10 (6) An explanation of any restrictions on the
11 use of such unmanned aerial systems under—

12 (A) the “Guidance for the Domestic Use of
13 Unmanned Aircraft Systems in U.S. National
14 Airspace”, dated August 18, 2018;

15 (B) Department of Defense Instruction
16 3025.18 “Defense Support to Civil Authori-
17 ties”; and

18 (C) other relevant guidance of the Depart-
19 ment of Defense.

20 (7) Whether restrictions described in paragraph
21 (6) apply differently to regular members of the
22 Armed Forces serving on active duty and to mem-
23 bers of the National Guard.

24 (8) Whether members of the National Guard
25 may operate the different categories of such un-

1 manned aerial systems when operating under section
2 502(f) of title 32, United States Code.

3 (9) An analysis of how the Secretary may im-
4 prove access to and knowledge of States and Federal
5 agencies regarding the availability of such unmanned
6 aerial systems and related request procedures.

7 (10) Whether—

8 (A) the Secretary has been unable to pro-
9 vide an unmanned aerial system to support to
10 a State agency at the request of such State
11 agency; and

12 (B) the Secretary has plans to make more
13 unmanned aerial systems available to fulfil such
14 requests.

15 (11) Any other matters the Secretary deter-
16 mines appropriate.

17 (c) FORM.—The report required by subsection (a)
18 shall be submitted in unclassified form, but may include
19 a classified annex.

20 (d) STATE DEFINED.—In this section, the term
21 “State” has the meaning given that term in section 901
22 of title 32, United States Code.

1 **SEC. 599. INFORMATION FOR MEMBERS OF THE ARMED**
2 **FORCES ON AVAILABILITY OF SERVICES OF**
3 **THE DEPARTMENT OF VETERANS AFFAIRS**
4 **RELATING TO SEXUAL TRAUMA.**

5 (a) IN GENERAL.—The Secretary of Defense shall in-
6 form members of the Armed Forces, using mechanisms
7 available to the Secretary, of the eligibility of such mem-
8 bers for services of the Department of Veterans Affairs
9 relating to sexual trauma.

10 (b) INFORMATION FROM SEXUAL ASSAULT RE-
11 SPONSE COORDINATORS.—The Secretary of Defense shall
12 ensure—

13 (1) that Sexual Assault Response Coordinators
14 and uniformed victims advocates of the Department
15 of Defense advise members of the Armed Forces
16 who report instances of sexual trauma regarding the
17 eligibility of such members for services at the De-
18 partment of Veterans Affairs; and

19 (2) that such information is included in manda-
20 tory training materials.

21 (c) SEXUAL TRAUMA DEFINED.—In this section, the
22 term “sexual trauma” means psychological trauma de-
23 scribed in section 1720D(a)(1) of title 38, United States
24 Code.

1 **SEC. 599A. AUTHORITY TO ISSUE AN HONORARY PRO-**
2 **MOTION TO COLONEL CHARLES E. MCGEE,**
3 **UNITED STATES AIR FORCE (RET.), TO THE**
4 **GRADE OF BRIGADIER GENERAL.**

5 (a) IN GENERAL.—Pursuant to section 1563 of title
6 10, United States Code, the President may issue to Colo-
7 nel Charles E. McGee, United States Air Force (retired),
8 a distinguished Tuskegee Airman, an honorary promotion
9 to the grade of brigadier general.

10 (b) ADDITIONAL BENEFITS NOT TO ACCRUE.—The
11 advancement of Charles E. McGee on the retired list of
12 the Air Force under subsection (a) shall not affect the re-
13 tired pay or other benefits from the United States to
14 which Charles E. McGee is entitled based upon his mili-
15 tary service, or affect any benefits to which any other per-
16 son is or may become entitled based on such military serv-
17 ice.

18 **SEC. 599B. AUTHORITY TO ISSUE AN HONORARY AND POST-**
19 **HUMOUS PROMOTION TO LIEUTENANT COLO-**
20 **NEL RICHARD COLE, UNITED STATES AIR**
21 **FORCE (RET.), TO THE GRADE OF COLONEL.**

22 (a) IN GENERAL.—Pursuant to section 1563 of title
23 10, United States Code, the President may issue to Lieu-
24 tenant Colonel Richard E. Cole, United States Air Force
25 (retired), an honorary and posthumous promotion to the
26 grade of colonel.

1 (b) ADDITIONAL BENEFITS NOT TO ACCRUE.—The
2 advancement of Richard E. Cole on the retired list of the
3 Air Force under subsection (a) shall not affect the retired
4 pay or other benefits from the United States to which
5 Richard E. Cole would have been entitled based upon his
6 military service, or affect any benefits to which any other
7 person is or may become entitled based on such military
8 service.

9 **SEC. 599C. SENSE OF CONGRESS ON THE HONORABLE AND**
10 **DISTINGUISHED SERVICE OF GENERAL JO-**
11 **SEPH F. DUNFORD, UNITED STATES MARINE**
12 **CORPS, TO THE UNITED STATES.**

13 It is the sense of Congress that—

14 (1) the United States deeply appreciates the
15 decades of honorable service of General Joseph F.
16 Dunford, United States Marine Corps; and

17 (2) the indispensable leadership of General
18 Dunford and his dedication to the men and women
19 of the Armed Forces demonstrates the finest exam-
20 ple of service to the United States.

21 **TITLE VI—MILITARY**
22 **COMPENSATION**

Subtitle A—Pay and Allowances

Sec. 601. Clarification of continuation of pays during hospitalization and rehabilitation resulting from wounds, injury, or illness incurred while on duty in a hostile fire area or exposed to an event of hostile fire or other hostile action.

- Sec. 602. Continued entitlements while a member of the Armed Forces participates in a career intermission program.
- Sec. 603. Exemption from repayment of voluntary separation pay.
- Sec. 604. Consideration of service on active duty to reduce age of eligibility for retired pay for non-regular service.
- Sec. 605. Temporary adjustment of rates of basic allowance for housing following determination that local civilian housing costs significantly differ from such rates.
- Sec. 606. Reinvestment of travel refunds by the Department of Defense.
- Sec. 607. Addition of partial dislocation allowance to allowable travel and transportation expenses for servicemembers.
- Sec. 608. Reductions on account of earnings from work performed while entitled to an annuity supplement.
- Sec. 609. Increase in basic pay.

Subtitle B—Bonuses and Special Incentive Pays

- Sec. 611. One-year extension of certain expiring bonus and special pay authorities.

Subtitle C—Family and Survivor Benefits

- Sec. 621. Expansion of eligibility for exceptional transitional compensation for dependents to dependents of current members.
- Sec. 622. Phase-out of reduction of Survivor Benefit Plan survivor annuities by amount of dependency and indemnity compensation.
- Sec. 623. Death gratuity for ROTC graduates.
- Sec. 624. Expansion of authority to provide financial assistance to civilian providers of child care services or youth program services who provide such services to survivors of members of the Armed Forces who die in combat in the line of duty.
- Sec. 625. Casualty assistance for survivors of deceased ROTC graduates.

Subtitle D—Defense Resale Matters

- Sec. 631. Defense resale system matters.
- Sec. 632. Procurement by commissary stores of certain locally sourced products.
- Sec. 633. GAO review of defense resale optimization study.

Subtitle E—Morale, Welfare, and Recreation Privileges

- Sec. 641. Extension of certain morale, welfare, and recreation privileges to Foreign Service officers on mandatory home leave.
- Sec. 642. Extension of pilot program on a Government lodging program.

Subtitle F—Reports and Other Matters

- Sec. 651. Annual reports on approval of employment or compensation of retired general or flag officers by foreign governments for emoluments clause purposes.
- Sec. 652. Report regarding transition from overseas housing allowance to basic allowance for housing for servicemembers in the territories.
- Sec. 653. Report on extension to members of the reserve components of the Armed Forces of special and incentive pays for members of the Armed Forces not currently payable to members of the reserve components.

Sec. 654. Study regarding recoupment of separation pay, special separation benefits, and voluntary separation incentive payments from members of the Armed Forces and veterans who receive disability compensation under laws administered by the Secretary of Veterans Affairs.

Sec. 655. Report on implementation of contributions to the Department of Defense Military Retirement Fund based on pay costs per Armed Force rather than on Armed Forces-wide basis.

Sec. 656. Report on food insecurity among members of the Armed Forces and their dependents.

1 **Subtitle A—Pay and Allowances**

2 **SEC. 601. CLARIFICATION OF CONTINUATION OF PAYS DUR-** 3 **ING HOSPITALIZATION AND REHABILITATION** 4 **RESULTING FROM WOUNDS, INJURY, OR ILL-** 5 **NESS INCURRED WHILE ON DUTY IN A HOS-** 6 **TILE FIRE AREA OR EXPOSED TO AN EVENT** 7 **OF HOSTILE FIRE OR OTHER HOSTILE AC-** 8 **TION.**

9 Section 372(b)(1) of title 37, United States Code, is
10 amended to read as follows:

11 “(1) The date on which the member is returned
12 for assignment to other than a medical or patient
13 unit for duty; however, in the case of a member
14 under the jurisdiction of a Secretary of a military
15 department, the date on which the member is deter-
16 mined fit for duty.”.

1 **SEC. 602. CONTINUED ENTITLEMENTS WHILE A MEMBER**
2 **OF THE ARMED FORCES PARTICIPATES IN A**
3 **CAREER INTERMISSION PROGRAM.**

4 Section 710(h) of title 10, United States Code, is
5 amended—

6 (1) in paragraph (1), by striking “; and” and
7 inserting a semicolon;

8 (2) in paragraph (2), by striking the period and
9 inserting a semicolon; and

10 (3) by adding at the end the following new
11 paragraphs:

12 “(3) the entitlement of the member and of the
13 survivors of the member to all death benefits under
14 the provisions of chapter 75 of this title;

15 “(4) the provision of all travel and transpor-
16 tation allowances for the survivors of deceased mem-
17 bers to attend burial ceremonies under section 481f
18 of title 37; and

19 “(5) the eligibility of the member for general
20 benefits as provided in part II of title 38.”

21 **SEC. 603. EXEMPTION FROM REPAYMENT OF VOLUNTARY**
22 **SEPARATION PAY.**

23 Section 1175a(j) of title 10, United States Code, is
24 amended—

1 (1) in paragraph (1), by striking “paragraphs
2 (2) and (3)” and inserting “paragraphs (2), (3), and
3 (4)”;

4 (2) by redesignating paragraph (4) as para-
5 graph (5); and

6 (3) by inserting after paragraph (3) the fol-
7 lowing new paragraph:

8 “(4) This subsection shall not apply to a member
9 who—

10 “(A) is involuntarily recalled to active duty or
11 full-time National Guard duty; and

12 “(B) in the course of such duty, incurs a serv-
13 ice-connected disability rated as total under section
14 1155 of title 38.”.

15 **SEC. 604. CONSIDERATION OF SERVICE ON ACTIVE DUTY**
16 **TO REDUCE AGE OF ELIGIBILITY FOR RE-**
17 **TIRED PAY FOR NON-REGULAR SERVICE.**

18 Section 12731(f)(2)(B)(i) of title 10, United States
19 Code, is amended by striking “under a provision of law
20 referred to in section 101(a)(13)(B) or under section
21 12301(d)” and inserting “under section 12301(d) or
22 12304b of this title, or under a provision of law referred
23 to in section 101(a)(13)(B)”.

1 **SEC. 605. TEMPORARY ADJUSTMENT OF RATES OF BASIC**
2 **ALLOWANCE FOR HOUSING FOLLOWING DE-**
3 **TERMINATION THAT LOCAL CIVILIAN HOUS-**
4 **ING COSTS SIGNIFICANTLY DIFFER FROM**
5 **SUCH RATES.**

6 Section 403(b) of title 37, United States Code, is
7 amended by adding at the end the following new para-
8 graph:

9 “(8)(A) The Secretary of Defense may prescribe a
10 temporary adjustment in the current rates of basic allow-
11 ance for housing for a military housing area or a portion
12 thereof (in this paragraph, ‘BAH rates’) if the Secretary
13 determines that the actual costs of adequate housing for
14 civilians in that military housing area or portion thereof
15 differs from the current BAH rates by more than 20 per-
16 cent.

17 “(B) Any temporary adjustment in BAH rates under
18 this paragraph shall remain in effect only until the effec-
19 tive date of the first adjustment of BAH rates for the af-
20 fected military housing area that occurs after the date of
21 the adjustment under this paragraph.

22 “(C) This paragraph shall cease to be effective on
23 September 30, 2022.”.

1 **SEC. 606. REINVESTMENT OF TRAVEL REFUNDS BY THE DE-**
2 **PARTMENT OF DEFENSE.**

3 (a) REFUNDS FOR OFFICIAL TRAVEL.—Subchapter
4 I of chapter 8 of title 37, United States Code, is amended
5 by adding at the end the following new section:

6 **“§ 456. Managed travel program refunds**

7 “(a) CREDIT OF REFUNDS.—The Secretary of De-
8 fense may credit refunds attributable to Department of
9 Defense managed travel programs as a direct result of of-
10 ficial travel to such operation and maintenance or re-
11 search, development, test, and evaluation accounts of the
12 Department as designated by the Secretary that are avail-
13 able for obligation for the fiscal year in which the refund
14 or amount is collected.

15 “(b) USE OF REFUNDS.—Refunds credited under
16 subsection (a) may only be used for official travel or oper-
17 ations and efficiency improvements for improved financial
18 management of official travel.

19 “(c) DEFINITIONS.—In this section:

20 “(1) MANAGED TRAVEL PROGRAM.—The term
21 ‘managed travel program’ includes air, rental car,
22 train, bus, dining, lodging, and travel management,
23 but does not include rebates or refunds attributable
24 to the use of the Government travel card, the Gov-
25 ernment Purchase Card, or Government travel ar-

1 ranged by Government Contracted Travel Manage-
2 ment Centers.

3 “(2) REFUND.—The term ‘refund’ includes
4 miscellaneous receipts credited to the Department
5 identified as a refund, rebate, repayment, or other
6 similar amounts collected.”.

7 (b) CLERICAL AMENDMENT.—The table of sections
8 at the beginning of chapter 8 of such title is amended by
9 inserting after the item relating to section 455 the fol-
10 lowing new item:

 “456. Managed travel program refunds.”.

11 (c) CLARIFICATION ON RETENTION OF TRAVEL PRO-
12 MOTIONAL ITEMS.—Section 1116(a) of the National De-
13 fense Authorization Act for Fiscal Year 2002 (Public Law
14 107–107; 5 U.S.C. 5702 note) is amended—

15 (1) by striking “DEFINITION.—In this section,
16 the term” and inserting the following: “DEFINI-
17 TIONS.—In this section:

18 “(1) The term”; and

19 (2) by adding at the end the following new
20 paragraph:

21 “(2) The term ‘general public’ includes the
22 Federal Government or an agency.”.

1 **SEC. 607. ADDITION OF PARTIAL DISLOCATION ALLOW-**
2 **ANCE TO ALLOWABLE TRAVEL AND TRANS-**
3 **PORTATION EXPENSES FOR**
4 **SERVICEMEMBERS.**

5 (a) CURRENT AUTHORITY.—Section 477(f)(1) of title
6 37, United States Code, is amended by striking “family”.

7 (b) FUTURE AUTHORITY.—Section 452(c) of title 37,
8 United States Code, is amended—

9 (1) by redesignating paragraph (3) as para-
10 graph (4); and

11 (2) by inserting after paragraph (2) the fol-
12 lowing new paragraph (3):

13 “(3) A partial dislocation allowance paid to a
14 member ordered to occupy or vacate housing pro-
15 vided by the United States.”.

16 **SEC. 608. REDUCTIONS ON ACCOUNT OF EARNINGS FROM**
17 **WORK PERFORMED WHILE ENTITLED TO AN**
18 **ANNUITY SUPPLEMENT.**

19 Section 8421a(c) of title 5, United States Code, is
20 amended—

21 (1) by striking “full-time as an air traffic con-
22 trol instructor” and inserting “as an air traffic con-
23 trol instructor, or supervisor thereof,”; and

24 (2) by inserting “or supervisor” after “an in-
25 structor”.

1 **SEC. 609. INCREASE IN BASIC PAY.**

2 Effective on January 1, 2020, the rates of monthly
3 basic pay for members of the uniformed services are in-
4 creased by 3.1 percent.

5 **Subtitle B—Bonuses and Special**
6 **Incentive Pays**

7 **SEC. 611. ONE-YEAR EXTENSION OF CERTAIN EXPIRING**
8 **BONUS AND SPECIAL PAY AUTHORITIES.**

9 (a) **AUTHORITIES RELATING TO RESERVE**
10 **FORCES.**—Section 910(g) of title 37, United States Code,
11 relating to income replacement payments for reserve com-
12 ponent members experiencing extended and frequent mo-
13 bilization for active duty service, is amended by striking
14 “December 31, 2019” and inserting “December 31,
15 2020”.

16 (b) **TITLE 10 AUTHORITIES RELATING TO HEALTH**
17 **CARE PROFESSIONALS.**—The following sections of title
18 10, United States Code, are amended by striking “Decem-
19 ber 31, 2019” and inserting “December 31, 2020”:

20 (1) Section 2130a(a)(1), relating to nurse offi-
21 cer candidate accession program.

22 (2) Section 16302(d), relating to repayment of
23 education loans for certain health professionals who
24 serve in the Selected Reserve.

25 (c) **AUTHORITIES RELATING TO NUCLEAR OFFI-**
26 **CERS.**—Section 333(i) of title 37, United States Code, is

1 amended by striking “December 31, 2019” and inserting
2 “December 31, 2020”.

3 (d) AUTHORITIES RELATING TO TITLE 37 CONSOLI-
4 DATED SPECIAL PAY, INCENTIVE PAY, AND BONUS AU-
5 THORITIES.—The following sections of title 37, United
6 States Code, are amended by striking “December 31,
7 2019” and inserting “December 31, 2020”:

8 (1) Section 331(h), relating to general bonus
9 authority for enlisted members.

10 (2) Section 332(g), relating to general bonus
11 authority for officers.

12 (3) Section 334(i), relating to special aviation
13 incentive pay and bonus authorities for officers.

14 (4) Section 335(k), relating to special bonus
15 and incentive pay authorities for officers in health
16 professions.

17 (5) Section 336(g), relating to contracting
18 bonus for cadets and midshipmen enrolled in the
19 Senior Reserve Officers’ Training Corps.

20 (6) Section 351(h), relating to hazardous duty
21 pay.

22 (7) Section 352(g), relating to assignment pay
23 or special duty pay.

24 (8) Section 353(i), relating to skill incentive
25 pay or proficiency bonus.

1 (9) Section 355(h), relating to retention incen-
2 tives for members qualified in critical military skills
3 or assigned to high priority units.

4 (e) **AUTHORITY TO PROVIDE TEMPORARY INCREASE**
5 **IN RATES OF BASIC ALLOWANCE FOR HOUSING.**—Section
6 403(b)(7)(E) of title 37, United States Code, is amended
7 by striking “December 31, 2019” and inserting “Decem-
8 ber 31, 2020”.

9 **Subtitle C—Family and Survivor**
10 **Benefits**

11 **SEC. 621. EXPANSION OF ELIGIBILITY FOR EXCEPTIONAL**
12 **TRANSITIONAL COMPENSATION FOR DE-**
13 **PENDENTS TO DEPENDENTS OF CURRENT**
14 **MEMBERS.**

15 Section 1059(m) of title 10, United States Code, is
16 amended—

17 (1) in the subsection heading, by inserting
18 “MEMBERS OR” after “DEPENDENTS OF”;

19 (2) by inserting “member or” before “former
20 member” each place it appears;

21 (3) by redesignating paragraph (3) as para-
22 graph (4); and

23 (4) by inserting after paragraph (2) the fol-
24 lowing new paragraph (3):

1 “(3) For purposes of the provision of benefits under
2 this section pursuant to this subsection, a member shall
3 be considered separated from active duty upon the earliest
4 of—

5 “(A) the date an administrative separation is
6 initiated by a commander of the member;

7 “(B) the date the court-martial sentence is ad-
8 judged if the sentence, as adjudged, includes a dis-
9 missal, dishonorable discharge, bad conduct dis-
10 charge, or forfeiture of all pay and allowances; or

11 “(C) the date the member’s term of service ex-
12 pires.”.

13 **SEC. 622. PHASE-OUT OF REDUCTION OF SURVIVOR BEN-**
14 **EFIT PLAN SURVIVOR ANNUITIES BY**
15 **AMOUNT OF DEPENDENCY AND INDEMNITY**
16 **COMPENSATION.**

17 (a) PHASE-OUT.—Subchapter II of chapter 73 of title
18 10, United States Code, is amended as follows:

19 (1) IN GENERAL.—In section 1450(c)(1)—

20 (A) by striking “that the annuity otherwise
21 payable under this section would exceed that
22 compensation.” and inserting “calculated as fol-
23 lows:”; and

24 (B) by adding at the end the following:

1 “(A) During the period beginning on Janu-
2 ary 1, 2020, and ending on December 31, 2020,
3 the amount that the annuity otherwise payable
4 under this section would exceed such depend-
5 ency and indemnity compensation.

6 “(B) During the period beginning on Jan-
7 uary 1, 2021, and ending on December 31,
8 2021, the amount that the annuity otherwise
9 payable under this section would exceed two-
10 thirds of such dependency and indemnity com-
11 pensation.

12 “(C) During the period beginning on Janu-
13 ary 1, 2022, and ending on December 31, 2022,
14 the amount that the annuity otherwise payable
15 under this section would exceed one-third of
16 such dependency and indemnity compensation.

17 “(D) On and after January 1, 2023, the
18 full amount of the annuity under this section.”.

19 (2) CONFORMING AMENDMENT.—In section
20 1451(c)(2), by inserting “a portion (calculated under
21 section 1450(c) of this title) of” before “the
22 amount”.

23 (b) PROHIBITION ON RETROACTIVE BENEFITS.—No
24 benefits may be paid to any person for any period before

1 the effective date provided under subsection (f) by reason
2 of the amendments made by subsection (a).

3 (c) PROHIBITION ON RECOUPMENT OF CERTAIN
4 AMOUNTS PREVIOUSLY REFUNDED TO SBP RECIPI-
5 ENTS.—A surviving spouse who is or has been in receipt
6 of an annuity under the Survivor Benefit Plan under sub-
7 chapter II of chapter 73 of title 10, United States Code,
8 that is in effect before the effective date provided under
9 subsection (f) and that is adjusted by reason of the
10 amendments made by subsection (a) and who has received
11 a refund of retired pay under section 1450(e) of title 10,
12 United States Code, shall not be required to repay such
13 refund to the United States.

14 (d) REPEAL OF AUTHORITY FOR OPTIONAL ANNUITY
15 FOR DEPENDENT CHILDREN.—Section 1448(d)(2) of
16 such title is amended—

17 (1) by striking “DEPENDENT CHILDREN.—”
18 and all that follows through “In the case of a mem-
19 ber described in paragraph (1),” and inserting “DE-
20 PENDENT CHILDREN.—In the case of a member de-
21 scribed in paragraph (1),”; and

22 (2) by striking subparagraph (B).

23 (e) RESTORATION OF ELIGIBILITY FOR PREVIOUSLY
24 ELIGIBLE SPOUSES.—The Secretary of the military de-
25 partment concerned shall restore annuity eligibility to any

1 eligible surviving spouse who, in consultation with the Sec-
2 retary, previously elected to transfer payment of such an-
3 nuity to a surviving child or children under the provisions
4 of section 1448(d)(2)(B) of title 10, United States Code,
5 as in effect on the day before the effective date provided
6 under subsection (f). Such eligibility shall be restored
7 whether or not payment to such child or children subse-
8 quently was terminated due to loss of dependent status
9 or death. For the purposes of this subsection, an eligible
10 spouse includes a spouse who was previously eligible for
11 payment of such annuity and is not remarried, or remar-
12 ried after having attained age 55, or whose second or sub-
13 sequent marriage has been terminated by death, divorce
14 or annulment.

15 (f) EFFECTIVE DATE.—This section and the amend-
16 ments made by this section shall take effect on the first
17 day of the first month that begins after the date of the
