PART 120—TOXICITY AND EXEMPTIONS FROM TOXICITY FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2,3,5-Triodobenzoic Acid

A petition (FP TF0554) was filed with the Food and Drug Administration by Amchem Products, Inc., Ambler, Pa. 19002, proposing the establishment of a tolerance of 0.015 part per million for residues of the plant regulator 2,3,5-triodobenzoic acid and its dimethylamine salt in or on the raw agricultural commodity apples. Subsequently the petition was amended to increase the proposed tolerance from 0.015 to 0.05 part per million.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purpose for which the tolerance is being established.

Based on consideration given the data submitted in the petition, and other relevant materials, the Commissioner of Food and Drugs concludes that the tolerance established by this order will protect the public health. Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d) (2), 68 Stat. 612; 21 U.S.C. 346a(d) (2)) and delegated to the Commissioner (21 CFR 2.120), Part 120 is amended by adding to Subpart C the following new section:

§ 120.219 2,3,5-Triodobenzoic acid; tolerances for residues.

A tolerance of 0.05 part per million is established for negligible residues of the plant regulator 2,3,5-triodobenzoic acid and for its dimethylamine salt (calculated as 2,3,5-triodobenzoic acid) in or on the raw agricultural commodity apples.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the Federal Register file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW, Washington, D.C. 20201, written objections thereto, preferably in duplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify, particularly the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the Federal Register.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

Paper and Parchment

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 531074) filed by F. R. du Pont de Nemours & Co., Wilmington, Del. 19898, and other relevant materials, has concluded that the food additive regulations should be amended to provide for use of the additional optional substance listed below in the formulation of paper and parchment used in contact with aqueous and fatty foods. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(o)(1), 72 Stat. 1786; 21 U.S.C. 348(o)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120, § 121.2553(a) (5)) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2553 Components of paper and parchment in contact with aqueous and fatty foods.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the Federal Register file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW, Washington, D.C. 20201, written objections thereto, preferably in duplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify, particularly the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the Federal Register.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

Lubricants With Incidental Food Contact

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 725126) filed by Humble Oil & Refining Co., Post Office Box 2180, Houston, Tex. 77001, and other relevant materials, has concluded that the food additive regulations should be amended to provide for the use of polylsobutylene (average molecular weight 35,000-140,000 (Forny)) as a thickening agent in mineral oil lubricants used with incidental contact with food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(o)(1), 72 Stat. 1786; 21 U.S.C. 348(o)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120, § 121.2553(a) (3)) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2553 Lubricants with incidental food contact.
